Please accept my blessings. I am in due reciept of your letter dated June 2, 1972, and I have noted the contents. I am very pleased to hear from you and from Guru das that your preaching work in Delhi is continuing on very nicely and that you are meeting with very good success by making many life members. Actually, this making life members is the certain sign that our preaching work is successful. If somebody pays us, that is almost the same as converting him. So the more life members that you make in Delhi, the more I can understand that your preaching work is very pleasing to Krishna. Krishna is most pleased by His servant who preaches by canvassing others on His behalf.

So far Mr. Iswar Puri of Atmaram Book Store, let him make a concrete contract to publish our MacMillan version of Bhagavad-gita in cheap edition. You can send one copy of the contract to me and one copy to Bali Mardan at ISKCON Press in New York. I do not know if we are covered by copyright in India or not. You may inquire into this matter.*

I am very pleased to hear that the collecting work for Vrndavana project is going on by cooperative endeavor amongst yourselves there. _ to interest the life members and richer class of men to purchase rooms in our Vrndavana Temple on the Bhetnama system for staying with us on weekends. Many high class gentlemen in Delhi who are also devotees would relish the chance to live with us on weekends and it will be for them just like Vaikuntha. I very much appreciate your courageous preaching work and I can understand that Krishna is giving you all facilities for making your spiritual advancement.

Hoping this will meet you in good health.

My Dear Bhargava,

Please accept my blessings. I am in receipt of your letter dated May 31, 1972, and I have noted the contents. Our advancement in Krishna Consciousness is made possible in two ways, by Knowledge and renunciation, jnana and tyaga or tapasya. The more we become renounced from this material world, the more we advance in Krishna Consciousness. But we are only able to make such sacrifices and perform tapasya if we have got knowledge. So first thing is to become knowledgeable in Krishna Consciousness, then the tapasya or voluntary life of austerity will result automatically. So I am requesting all of my students to read my books very seriously every day without fail. In this way, if your mind becomes absorbed at least one or two hours daily in the transcendental subject matter of Srimad-Bhagavatam, Bhagavad-gita, and other books then very easily you will make your advancement in Krishna Consciousness. It is not a matter of changing our engagement, adjusting this or that material condition, in order to find our real happiness. Krishna Consciousness is not like that. It is able to be performed under any variety of material conditions or with any type of engagement. Therefore if your duty as a photographer is very much helpful to our propanganda work and for improving our BTG then there is very much need for your remaining in that occupation and doing it to your best capacity. It is a fallacy to say that my present engagement with the press is not the best for my spiritual advancement, and if we think in this way we may go on trying out one engagement after another and always say the same excuse. This restlessness or agitation of the mind cannot be rectified by altering the material circumstances. If we are Krishna Conscious, any type of occupation will suit me and we shall always be satisfied. Therefore, I recommend you to read books more and more and try to understand the subject matter from different angles of vision and be always discussing it with your godbrothers even while you are working at the press, and when you are working and you cannot read, then listen to the tapes of my lectures and hear in that way. And never neglect to chant your 16 rounds of beads daily, rise early without fail, attend mangal arati, take bath, and follow the other regulative principles, and everything will come out very successfully, you can rest assured of that.

I am feeling the tendency more and more to retire behind the scenes for translating work, and I want to turn over the management of everything to the GBC and other senior leaders amongst my disciples, so if you have in future any more matters for discussing you may assist me in training these leaders and managers by placing your questions before them. I think Rupanuga will be able to answer all of your questions satisfactorily, so you can be confident that he is giving you all good advice.

Hoping this will meet you in good health,

My Dear Sriman Joshi,

Please accept my greetings. I am in due receipt of your letter dated June 2, 1972, and I have noted the contents with great pleasure. I am very much encouraged that you are offering your considerable services for helping me to advance this bhakti-yoga system or Krishna Consciousness Movement all over the world. So I shall be very pleased to meet you personally here in Los Angeles at my apartment, as I shall not be gong to San Francisco in the near future because I am attending the Rathayatra Festival in London this year instead. So if you are free to meet me here in Los Angeles, I shall be very pleased to see you at that time.

Hoping this meets you in the best of health,

My Dear Sankarasana,

Please accept my blessings. I am in due receipt of your letter dated June 6, 1972, and I have noted the contents. As for your question regarding the children, what can I do? I am not a teacher. You should ask Satsvarupa on all of these matters, he is the GBC, so everything small and big should be referred to Satsvarupa. First, you should ask the president in charge how to answer these questions. I am feeling the inclination for retiring into the background and simply translating my Srimad-Bhagavatam, therefore I have delegated this GBC to manage everything and give me relief. So they shall give you all good guidance, and if there is anything further to know, it is stated that if one is always fully engaged in the devotional service of the Lord with full sincerity of attitude, beginning with the tongue, that Krishna will Himself appear to the devotee and all questions will be answered personally by Him. Of course, if there is some very urgent matter, I am always happy to hear from my beloved disciples.

So far your question about jealousy, spiritual jealousy means to think always that the service rendered by such and such devotee is so nice and pleasing to Krishna, so let me try harder to please Krishna than him and then Krishna will notice me also.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Stoka Krsna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 5, 1972, and I have noted the contents carefully. Yes, the proof of your teaching method shall be seen in the spiritual improvement and fresh enthusiasm exhibited by the children. If they are allowed to worship the Deity by practicing performing aratrika very seriously, plus always be engaged in different various activities centered around Krsna, then their education will be completely successful. The children should always be instructed by taking advantage of their playful mood and teaching them to play Krsna games like become cowherd boys, cows, peacocks, demons and in this way if they always think of Krsna by playing just like they are actually present in association with Krsna then they will become Krsna Conscious very quickly. In addition, there should be a little ABC, then prasadam, then worshiping the Deity, then more playing Krsna games, some kirtana, a little more ABC, like that. In this way, always keep their minds and bodies engaged in different activities because children are restless by nature so they will want to change often.

I am feeling more and more the urge to retire behind the scenes and translate these Vedic literatures for the greatest benefit for mankind in general. So I have given you my all senior disciples and leaders everything so if you will kindly take this matter very seriously and do my work for me I shall be very much thankful to you always. Of course, if there are some questions which are of extreme importance and cannot be answered by the GBC men then I am always very glad to advise and hear from my beloved disciples. So for future questions about the Gurukula activities or any other matters you may refer them all to Satsvarupa and he is able to give you all the proper answers.

Hoping this meets you in good health.

Sriman Ram Prashad Dasa 2582 Sector 22-C Chandigarh, INDIA

My dear Sriman Ram Prashad Dasa,

Please accept my blessings. I am in due receipt of your letter dated May 1, 1972, and I have noted the contents. We have introduced a Life Membership program there in India, for the purpose of giving the intelligent men in the society an opportunity to help push on this great movement of pure Vedic culture. Our members receive all our books printed to date - Bhagavad-gita (in 1000 page edition), Caitanya-caritamrta, Bhakti-rasamrta-sindhu, Sri Isopanisad, Srimad-Bhagavatam (to be completed in 60 volumes), and other books totalling about 20. They also receive any book which will be printed in the future, as well as a lifetime subscription to Back to Godhead magazine. Any of our life members and their immediate families are permitted to stay in any of our 100 temples anywhere in the world, free of charge, for as long as they like. So my suggestion to you is that you communicate with Sriman Giriraja dasa Brahmacari, the president of our Bombay headquarters, and he will give you more information regarding this membership program. Hoping this will meet you in good health.

My dear Surasrestha,

Please accept my blessings. I am in due receipt of your letter dated May 25, 1972, and I have noted the contents. The article you have sent which was published in the newsletter there is very nice. The interviewer asked intelligent questions and you have given very nice answers also. It is apparent that you have understood our philosophy nicely so you continue to read our books regularly and preach vigorously, and help to distribute this great transcendental knowledge to all the distressed souls of this Kali yuga.

In answer to your questions, the red incarnation who appeared in the Treta-yuga is Yajnapati. Lord Mohammed is accepted by us as Saktyavesa Avatar, but we do not recognize the Bahai faith. Lord Caitanya Mahaprabhu appears once in the day of Brahma or whenever He is required to come. So far attending pujas at the houses of the Hindus there we can go and hold our kirtana but we should not take prasadam there. We can accept raw materials and take them to our temple but we should not accept any prasadam prepared by them. However, if they insist then we can take fruits and milk and offer them to Krishna. Cocoa and chocolate are not to be taken as they are intoxicants.

I am leaving for London on July the 4th and am returning to New Vrndavana for Janmastami celebration and at that time we can make further plans on my coming to Trinadad. In the meantime, continue to distribute this great message of Krsna Consciousness to all the people there and work hard to make the whole country into devotees. Hoping this will meet you in good health.

My Dear Himavati,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 30, 1972, and I have noted the contents. I don't know who has given you this idea of shaving your head and wearing white garments. In India only the widows are allowed to shave head. I have never suggested your husband to take to Sannyas, but we can discuss this matter further when we shall meet again in London for Rathayatra.

You remain the beautiful maid servant of Krishna. That is your business, and you should dress yourself always very nicely so that Krishna by seeing you will be pleased. Don't try to be ugly before Krishna. Krishna does not like ugly gopis. We are transcendental artists, musicians, writers, so everything should be beautiful for Krishna. After all we are members of Krishna's family, just like Krishna had 16,000 wives and each wife has thousands of servants and maid-servants and all of them are very beautiful for serving Krishna and His Queens. So the servants of the gopis and queens cannot be ugly, they are as beautiful as the queens. In the Vaikuntha world there is no need of serving anything because everything is already clean and beautiful. It is so clean that just like a mirror when the maid-servants would sweep the floor they could see the reflections of their bodies. So remain always compact in Vaikuntha yajna, simply by thinking of the Glories of the Lord. Don't try to do anything artificially. That is sahajiya, which means a class of men that take everything very cheap. You want to perform sacrifice so continuously read our Vedic scriptures and perform the Vaikuntha yajna.

Hoping this will meet you and your good husband in the best of health,

My Dear Siddha Svarupananda,

Please accept my blessings. Just now I am in receipt of some pamphlets and one booklet entitled "Sai Speaks", so I see so many discrepancies from our line of action in devotional service. I do not know if you are again acting upon your old principles on the guise of becoming a Sannyasi from our disciplic succession. This cannot be allowed. If you are sincere to our line of action, please come here to Los Angeles and live with me for some time. If not, then you can disclose your mind frankly what you want to do. I cannot allow you to do all these things which are completely detrimental to our line of disciplic succession.

I shall be glad if you come here to stay with me, so I shall expect your reply one way or the other. Meanwhile hoping this will meet you in good health.

My Dear Prajapati,

Please accept my blessings. I beg to acknowledge your letter of June 6, 1972 and I have noted the contents. It is very nice to hear that all the activities are going on with full enthusiasm there in Boston. Upon your recommendation, enclosed please find one letter for initiates as well as 4 copies of gayatri mantra and 3 sacred threads duly chanted by me. Four beads also duly chanted by me have been sent by separate post. Hold a fire yajna and give gayatri mantra to Brhatratha, Cediraja, Somadasa, and Sarmistha dasi. Rupanuga has got a tape of me reciting gayatri mantra, so you can get this from him. One thing is that the tape should be heard through earphones into the right ear. So the fire yajna can be held for all 8 devotees.

Regarding your questions, we should not take any stock of rumors which may come, that is not our process to act upon rumors. We hear from the authorized sources, and then our hearing is perfect. So you are the leader of big temple, you should know these things and avoid them, and instruct the other students there to stick to whatever is mentioned in our books and try to understand that subject matter from every angle of vision, without trying to adulterate by adding anything rumor. Our preaching must be based upon the subject matter from books and nothing outside of them. The actual fact is that worshiping the Deity and chanting the glories of the Lord are both within the nine processes of devotional service recommended by Rupa Goswami. Besides chanting and hearing and remembering there are six other recommended activities in devotional service. So if we are able to practice even only one of these activities perfectly, the result will be the same. Or we may execute more than one, we may execute several or even all nine activities in devotional service, but even if we execute one perfectly we shall be completely successful in devotional service. So there is no question that one activity is more important than another or that Deity worship is more important than Sankirtana, but one individual may be able to perform one activity more satisfactorily than another, so to him that activity will be more important. But in general we cannot say that any of the nine processes is more important than the others, except that if hearing, chanting and remembering are there, that is the most vital consideration for the general class of men in this age. Service to the Deities, as you are asking me, begins whenever you remember Them and offer all your services by remembering at the same time. All activities, words, everything should be offered as service to the Deities, and this offering with remembering will gradually increase as you practice it.

My Dear Madhudvisa,

Please accept my blessings. I am in receipt of your letter dated June 9, 1972, from Melbourne, and I don't think you have yet got my last letter to you at Sydney. I am very pleased to hear that you are utilizing your good experience for introducing the Ratha Yatra Festival in Australia, I shall be very pleased to see the photos how it is going. I fully approve of your program for traveling, now you combine the sannyasi requirement for traveling extensively, and at the same time as GBC man you shall be my personal secretary for maintaining the highest level of Krishna Consciousness amongst the devotees in your zone. I am very much concerned that the devotees should be given all good instruction and knowledge of Krishna Consciousness, that is the duty of the GBC man. (?) better to utilize time and train the devotees, especially the responsible officers, and they can go out for preaching to non-devotees and making new devotees. But if they do not have any knowledge, how can they go out and preach? So you GBC men are my selected few for insuring that what I am doing will be carried on very nicely for the pleasure of Lord Caitanya Mahaprabhu. So now you must all my senior disciples and leaders become very, very much aware of your grave responsibility to the human society for delivering them from the clutches of catastrophe, and be always cool-headed and utilize every moment in the best manner possible. I am successful only because I am following strictly the orders of my Guru Maharaja, and I do not deviate. Therefore people respect what I am saying and they listen because I do not say one thing and do another. So now you are doing my work and you shall be like me and be yourselves the worthy representatives of our disciplic succession.

I am very much stressing at this point that all of my students shall be very much conversant with the philosophy of Krishna Consciousness, and that they should read our books very diligently at least one or two hours daily and try to understand the subject matter from varieties of angles. We are holding our morning class here in Los Angeles in the temple and I am speaking from 7 to 8 am, and the process is that we are going through some chapters of Srimad-Bhagavatam by taking one sloka each day, and reading the Sanskrit aloud, each word is pronounced by me and repeated by the students and then altogether we chant the sloka several times until we have learned it. And then we discuss the subject matter very minutely and inspect it from all angles of approach and savor the new understandings. So you introduce this system in all of the centers in your zone, and you will discover that everyone becomes very much enlivened by these daily classes. Read one sloka and discuss and then go on to the next sloka on the next day, and so on, and even you discuss one verse each day it will take you 50 years to finish Srimad-Bhagavatam in this way. So we have got ample stock for acquiring knowledge. And if the students get knowledge more and more, they will automatically become convinced and very easily perform their duties for tapasya or renunciation of the material bondage, and that will be their successful advancement in Krishna Consciousness. So I want that advancement amongst all of my students, so your are responsible that the standard will be maintained.

If Tusta Krsna is so much anxious to acquire a press for New Zealand, there is no harm. I have written to him to use his better judgement in the matter. If you wish to take the small 12-inch Radha Krsna Deities in the parade, that is all right.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Tribhuvanatha

•

Los Angeles 16 June, 1972

72-06-16

My Dear Tribhuvanatha,

Please accept my blessings. I am in due receipt of your letter dated 10th June, 1972, and with great pleasure I have noted the contents. I was wondering what you are doing, so I am very glad to hear your report of getting the very nice temple in Edinburgh. I think it is Krishna's desire that you have got that place in such perfect location, so now apply yourself very seriously and take advantage of this opportunity for spreading Krishna Consciousness all over that city and in other places in Scotland. The price of 13 Pounds a week for such a large place is not at all bad. Yes, take the place for as many years as they will agree to.

Because there is close proximity of many students, the important thing to give them is our book and literature. They are interested to get knowledge, but the materialistic knowledge will lead them astray from real goal of their intelligence, and all of their credits in education will only add up to so many zeros. But if you yourself are very much well-acquainted with our Krishna philosophy, you will be able to convince them that if they make Krishna or God the center of their learning process, never mind they're scientists, chemists, politicians, whatever they may be, if they put Krishna in front of so many zeros they will come out with a huge sum and their life will be very much perfect. If you require assistance for preaching to the student class, I think Revatinandana can come there and preach very nicely to the scholarly class in their own language. Now in our philosophy classes, each day I am discussing one of your western philosophies and so far we have discussed many, many philosophers like Aristotle, Kant, Hegel, Marx, like that, and now we are discussing Darwin and other scientists from your western countries. Because they have missed the central point that we are not the controllers of nature, rather we are controlled by nature, and because they do not see that there is a Supreme Controller who is controlling even the nature, therefore their vast research and display of intelligence is only so much waste of time. It is just like a child. A child may play with the imitation of another child and the child will hold the doll and play with it as if it is real. But the parents who gave the child the doll, they know good and well the child is nonsense but they tolerate and enjoy sometimes. Just like my sisters used to prepare for me some imaginary puris from their toys of very small cooking things, and I used to pretend I was eating them and we were quite happy that this was the same thing just like our parents were doing. We did not know we were nonsense, one nonsense cooking, another nonsense eating, but our father knew we were nonsense. So it is like that in this material world, everyone is acting more or less like children clinging to some play things provided by the Father and taking them very seriously. But when we become actually wise and see things from the point of view of our Father and take his instruction, then we make progressive advancement out of the childish nonsense state of life or life in this material world.

Now organize the temple very nicely and request tourists to come in, and with many flowers you can decorate the whole hall with flowers and it will be very much attractive. You can make a sign-board that says "Guests are requested to offer a flower to the Deity". The flower market is near-by and any gentleman will bring flowers, and give them prasadam. A gorgeous temple means many flowers, beautiful decorations, and prasadam distribution. Some sort of kirtana must go on continuously. Further, chanting 16 rounds must be completed, that is our spiritual strength. And I am very much stressing nowadays that my students shall increase their reading of my books and try to understand them from different angles of vision. Each sloka can be seen from many, many angles of vision, so become practiced in seeing things like this. If we are selling the books but we do not know what is inside the book, that will be a farce, especially if you are preaching and selling books to the students of Edinburgh.

Now I am coming to London very soon for your Rathayatra Celebration, and I shall be very happy to see you all, my beloved disciples there in England. You mention one very large festival being held there in Edinburgh from July 20 to August 9, so if you can arrange some big, big, meeting for me to speak there and address the public at large as well as the students, that will be very nice. One thing, I am already scheduled to speak in Paris on July 21, 22, 23, so if you arrange some meetings at the Edinburgh Festival, you should schedule them for last part of July or early August accordingly.

The best thing is to always serve Krishna and depend upon Him at every moment and everything will come.

Hoping this will meet you in good health.

My Dear Bhagavan,

Please accept my blessings. I am in due receipt of your letter dated June 9, 1972, and I have noted the contents carefully. My money is already invested in a Mayapur Trust Fund, so there is no possibility of lending you any money. Furthermore, in your absence I don't think there is need of very big house. If you make arrangements for purchasing two big, big houses and then go away, then that is not very good proposal. To purchase our own house in Los Angeles, London, these headquarters are required as permanent but we should not be very much anxious after purchasing many houses and properties. In future through out the society, it is better so far as possible that we should rent. Big house means big responsibility. So unless there are many men, and very big propaganda, buying house is risky and unnecessary.

Hoping this will meet you in good health.

My Dear Bob,

Please accept my blessings. I thank you very much for your letter dated June 12, 1972, and I have noted the sentiments expressed therein with great pleasure. I am very much glad to hear that you are associating with us, and I know that you are a very good boy, very intelligent and your behavior is gentle, so I have all confidence that very quickly Krishna will bestow all His blessings upon you and you will feel yourself becoming perfectly happy in Krishna Consciousness. One makes his advancement in Krishna Consciousness by giving up voluntarily his attachment to material nature or maya and such renunciation is called tapasya. But we are not very willing to perform austerities without good reason, therefore any man with scientific and philosophical good brain such as your good self, must appreciate first what is the transcendental knowledge. If you get knowledge, automatically tapasya will follow, and then you make your advancement in spiritual life. So to get knowledge is the first item for anyone who is hoping to find his perfection of life. Therefore, I advise you to daily read our books as far as possible and try to understand the subject matter from different angles of vision by discussing frequently with the devotees at New York Temple. In this way you will become gradually convinced, and by your sincere attitude and devotional service you will make progress.

Yes, by having some faith in me and in this Krishna Consciousness process, that is the first and only requirement for getting actual wisdom. If there is faith, understanding will follow. And as your understanding increases, so will your disgust with the spell of illusory energy and when you voluntarily give up your entanglements in the material world, then the progress is assured.

I think we are just now typing up the tapes of those conversations we held in Mayapur, and we shall be publishing them into a book very soon. It will be called "Perfect Questions, Perfect Answers." I shall be sending you one copy as soon as they are ready for distributing. Meanwhile, I shall be stopping in New York for two or three days on my way to London for the Rathayatra Festival there. I am not certain yet when I shall be arriving in New York, but it shall be some time in the early part of July, and you may keep in regular contact with Bali Mardan regarding the arrival date, and I shall be very much engladdened to meet with you in New York once again. Again we shall discuss if you have got any questions.

Hoping this will meet you in good health and happy mood,

My Dear Jayapataka,

Please accept my blessings. I beg to acknowledge your letter dated May 29, 1972, from Mayapur and I have noted the contents. You have described the building progress there, but if you can send me photo then I can understand the situation as it is.

I have appointed Giriraja to be the GBC zonal secretary for India zone, and I am sure that he meets your requirements of being equipoised and considerate of all the needs of all the branches under his control or jurisdiction. Simply all you leaders there in India must cooperate with him nicely and give him confidence and advice how to manage the things in the best manner. So I suggest you address your ideas for managing to Giriraja and cooperatively make arrangements. Bombay should be the headquarters for India. You send all money there and when you require you take and they sould keep all accounts nicely. Whatever you need, they will supply.

Karandhara has sent telegram informing that upon receipt of your jointly signed requisition order, after you have received from Mr. Jayan as per our former transaction, then we shall issue a letter of transfer for the ten Krsna Books as per your requisition order. But do not send the requisition before he has given you the money, first take the money there. If Tamala Krsna is not there he sould be informed. Among you three, including yourself, Tamala Krsna, Bhavananda, two of three must sign. It is better if all three sign.

If Tamala Krsna can do some tangible work in Bangledesh it will be advertised all over India and we shall be respected by all classes of men. So it is a crucial point in our progress, so make this Bangledesh program very nicely. My godbrother in Jessore will help him in every respect. His address is known to him.

Letter to: Satsvarupa

-

Los Angeles 16 June, 1972

72-06-16

My Dear Satsvarupa,

Please accept my blessings. I received your letter dated June 15, 1972, and have noted the contents carefully regarding your sannyasi travels. If you require more men and women to teach there at Gurukula, you can send from your jurisdiction as GBC man Central USA zone. You will not be too much involved with local temple management, but for management which will require the larger interests, that will be your responsibility as GBC. So you find out some teachers from your zone and send there. The women are best for teaching small children, especially if they are themselves mothers, and when they become brahmacaris at 5 or 6 years old then they may be instructed by the men. If Stoka Krsna is finding difficulty to manage things then you find out some men to help him from your zone. Let him do all of the organizing and be the authority in charge how everything is running, and let others follow his direction and free him to supervise.

You mention you like to speak now very often, but the first business should be to preach to the devotees. It is better to maintain a devotee than to try to convince others to become devotees. It is the duty of the GBC to maintain the devotees, keep them in the highest standard of Krishna Consciousness, and give them all good instruction, and let them go out and preach for making more devotees. Your first job should be to make sure that every one of the devotees in your zone of management is reading regularly our literatures and discussing the subject matter seriously from different angles of seeing, and that they are somehow or other absorbing the knowledge of Krishna Consciousness philosophy. If they are fully educated in our philosophy and if they can get all of the knowledge and study it from every viewpoint, then very easily they will perform tapasya or renunciation and that will be their advancement in Krishna Consciousness. So first thing is to instruct all of your temple presidents and the other devotees to read daily, just as we have done in our morning class in Los Angeles. You may remember that we were reading one sloka each morning in Sanskrit and reciting it altogether and then discussing it thoroughly by seeing different new things. So you introduce this system and train the devotees first. Don't be too much concerned for the time being with nondevotees, now we must fix-up what devotees we have got in the knowledge of Krishna Consciousness, then we will succeed. What good are many, many devotees if none of them are knowledgeable?

You mentioned that you are not yet a very bold preacher, but you will become bold, if you have got sincerity. In the beginning also I could not speak. But Krishna is within you, and when you are serving Him sincerely He will give you courage, boldness, everything. We are not going to bluff anyone or cheat others, and we are delivering the message on behalf of the Supreme Lord, so we haven't got anything to fear and we should be always mindful of our topmost position of occupation of life. To be the messenger of the king is practically as good as to be the king, so the king is the most exalted position. I act like a king because no one can defeat me, and similarly, you should take your responsibility very, very seriously as being the representative of Lord Caitanya Mahaprabhu, Who is God Himself, and always remember that you are one of the few men I have appointed to carry on my work throughout the world and your mission before you is huge. Therefore, always pray to Krishna to give you strength for accomplishing this mission by doing what I am doing. My first business is to give the devotees the proper knowledge and engage them in devotional service, so that is not very difficult task for you, I have given you everything, so read and speak from the books and so many new lights will come out. We have got so many books, so if we go on preaching from them for the next 1,000 years, there is enough stock. Just like we have spent one day discussing one sloka, so you introduce this system in all of the temples, and very quickly the devotees will make spiritual progress by getting knowledge.

So far the children are concerned they should know simply four things: 1. Simply think of Krishna always, 2. become Krishna's devotee, 3. offer Krishna worship, 4. offer Krishna obeisances. These four things should be taught and everything else will follow nicely and they will be learned persons. Give them nice food, let them play. Some can be cowherd boys, some can be cows, like that. Play and take food and be Krishna Conscious. As soon as they begin playing they will be inspired, only one has to direct how to play, that's all. They should attend the regular aratis and dance before the Deities, just like the children are doing in Los Angeles, and there should not be separate special aratis for the children, although they may also learn how to do arati in the class before one picture. They must all go to bed by nine pm and arise at four am for mangala arati, and in day-time a little rest.

As for the GBC members, if we study one sloka daily in our classes it will take you more than 50 years to finish Srimad-Bhagavatam alone, so at least 50 years matter is already there minimum. So we can finish Bhagavatam once in our lifetime and the next generation can begin again, like that. From a practical point of view, as I have not yet finished Srimad-Bhagavatam and we have got now 100 branches, so by the time I am finished with Bhagavatam there must be at least 1000 branches. I have worked alone, now you are so many. Our scope is unlimited, resources unlimited, so we must be exceptionally enthusiastic and sober-minded and responsible for working in that spirit.

I hope this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Balavanta,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 12, 1972 and I have noted the contents. I thank you very much for the nice flower garland you have sent, and the nice fragrance is very pleasing. Beautiful flowers are compared to Krishna smiling.

I am very glad to hear that you are keeping active in the political arena, and if we are able to establish Krishna conscious leaders throughout the country in important posts, we will be able to save everyone from the present dangerous position of the world. People in general are being guided into hellish condition of life by the rascal leaders, so we must establish qualified brahmanas at the head of the society, and widely distribute Krishna conscious principles. So you continue in this way, and Krishna will give you the needed strength and intelligence.

Hoping this will meet you in good health and happy mood.

Bombay

My dear Misses Sarna daughters,

Please accept my blessings. I understand you all of a sudden have gone to Bombay, and without the permission of your parents. So your father called me on phone this morning, I could not attend but I was informed by Syamasundara. it is something about you. Anyway, take my advice that women, girls, until married, must be under the guidance and protection of the father. That is Vedic civilization. Under the circumstances, I request you both to go back to your father immediately. If there is any disagreement, you can settle up personally, but you cannot disobey your father.

The Nairobi Temple is there, you can attend all the aratis and kirtanas there and assist if there is deity worship going on, so there is no difficulty. It is not good if there is family disturbance in this way, so best thing is you shall go there at once and live peacefully and think always of Krishna under all circumstances.

Hoping this meets you both in good health.

Letter to: Gargamuni, Mahamsa, Naranaraya, Giriraja

My Dear Gargamuni, Mahamsa, Naranarayana, and Giriraja,

My dear boys, kindly accept my blessings, and I hope by Krishna's Grace you are doing all well. This morning I received one telephone message that there is some misunderstanding between yourselves, and Giriraja, who is in charge of Bombay center. I may inform you in this connection that what I am doing to push on this great movement in the world is all with your cooperation. It is not possible for me alone to execute this great responsibility. Kindly, therefore, abide by the direction of the man in charge of the center. If there is lack of obedience then there cannot be discipline, and without discipline we cannot manage a huge world organization. I shall be returning by September next. Kindly therefore do not make any fracture during this period at least, and when I return if you all don't like the man in charge surely I shall replace him out of you. But for the time being, please do not make any rupture, and please obey by the direction of Giriraja Brahmacari.

So far Gargamuni is concerned, I have already given him permission to go to Ahmedabad and other places in Gujarat State. He is a sannyasi and his main business is to travel and preach as I am doing in this old age, and that will please me very much.

So far Nara Narayana is concerned, he is engaged in gardening work, so please give him all facility so he can make a good garden on all the vacant land on our property.

Mahamsa and Cyavana may act by the decisions of Giriraja, so Cyavana may transfer his building supervision work to somebody else, according to Giriraja. I have heard the building work is not going on satisfactorily, but that is our main business there, so if it is not being done nicely, the proper experienced man must be put in charge of the construction work.

So in conclusion, it is my request even you do not agree on some points, Giriraja is in charge so please follow his direction and that will please me. I am very much anxious to see the progress at Bombay center, and I want it shall become the first-class preaching center in the world. Please help me in this ambition. If we can manage successfully, we will be attractive for the whole of India. Our task is very heavy, do not neglect by paltry disagreement. I hope Krishna will bless you to understand my heart and oblige.

Hoping this meets you in good health.

Letter to: Stokakrsna

Dallas

My Dear Stoka Krsna,

Please accept my blessings. I am in due receipt of your letter from Dallas dated June 14, 1972, and I have noted the contents carefully. Upon your recommendation I am very glad to accept the boys and girls you have recommended to be my duly initiated disciples. I am sending their beads under separate post, and their letter is enclosed herewith. Now you may hold a fire yajna and give Gayatri mantra to Dhristaketu, Narayana, and Hiranyagarbha. I think you have got a tape of me reciting Gayatri mantra through earphones into the right ear. I am enclosing the three sacred threads and copies of Gayatri mantra herewith. The fire yajna may be held for all seven devotees.

I have indicated in my previous letter of several days back some hints for giving Krsna Consciousness children their proper education. I consider this Gurukula school to be one of our most important aspects of this movement and it should be given all serious consideration by the members. If we are able to make a whole generation of our children into fine Krsna Conscious preachers, that will be the glory of our movement and the glory of your country as well. But if we neglect somehow or other and if we lose even one Vaisnava, that is very great loss. So I am very glad that you are taking your business very seriously and you may consult always with Satsvarupa in all matters of management and policy, and if he cannot answer to your satisfaction, you may also ask me something. For children it is a long time between 8:45 a.m. and 1:30 p.m., therefore they are naturally hungry long before the lunch time. If it is convenient you may add another period for light prasadam between those times. The children should e allowed to eat as much as they like, therefore if children are complaining from hunger we must feed them. On the second point, if someone is coming to our school for the first time, still, they must eat what we are eating, namely Krsna prasadam. Yes, everything should be prepared for the pleasure of the Lord, without any other consideration. Our policy is that the children should be so trained that they will enjoy performing austerities, it is not that we shall spoil them at young age by indulging them in sense gratification. If there is obedience then there will be discipline, and without any discipline the management is very difficult. So first obedience by the children. That is not always by punishing or by force, but sometimes by showing the stick, without necessarily hitting and sometimes it is learning how to trick them or even cheat them into obeying you voluntarily and enjoying by their obedience. If there is difficulty for taking the smaller children on public sankirtana, there is no need. Unless tey are behaving, what is the use of taking them into public? The smaller children can have their sankirtana party within the school grounds daily and they will enjoy as much. The main point is that these children may be given the two-fold program of education in Krsna Consciousness, namely, chanting and performing devotional activities on the one hand, and some knowledge of our philosophy and other subjects of knowledge on the other hand.

Yes, you have got the right idea when you say that your preaching work shall be directed toward the children and the devotees and not so much to the Dallas public. We may thin the milk till it becomes useless, or we may boil it until it becomes thick and sweet, so now we have got enough followers, let us train them up perfectly in the philosophy and activities of Krsna Consciousness way of life. Unless all of my students become very much fixed up in their spiritual progress, what is the use of so many programs for expansion? So you are the leader at Dallas, now it is your task to become very, very responsible for the spiritual well being of all of the students there, so Krsna will give you all intelligence and facilities to serve Him nicely if you are very much sincere to do so. This will please me very much.

Hoping this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Son and Daughters,

Please accept my blessings. Upon the recommendation of Stoka Krsna I am glad to consent to accept all of you as my duly initiated disciples. Your beads have been chanted by me and they are sent under separate post. I have given you your spiritual names as follows:

Robert McNaughton/Rupa Vilas dasa Adhikari Carol McNaughton/Chandrika devi dasi Debbie Watt/Bhavatarani Devi dasi Debra Wolin/Bhanutanya devi dasi

I am very glad to hear that all of you have been such a great help to Stoka Krsna there in our Dallas Gurukula and I can understand that all of you are very sincere boys and girls and quite eligible for going back to Home, back to Godhead. Now I very much appreciate your activities for conducting our school to the highest standard of Krishna Consciousness behavior, and I consider your work the most important in the society because you are shaping the future generation of our Krishna Consciousness preachers, and this is not any small thing. So I am depending very much upon you all to assist Lord Caitanya in fulfilling His mission for saving the human kind from very quickly gliding into hell.

Our process is very simple. Simply follow the regulative principles of devotional service, and if you stick to these principles with determination, then you will become free from all attachment to maya, by Krishna's Grace. The example is that when the sun is in the sky, there is no question of darkness. Similarly when Hare Krishna Mantra is vibrating on your tongue and you are hearing attentively, then your consciousness becomes clear or Krishna consciousness and there is no question of maya or hazy consciousness. Just as when the light and darkness come together, the darkness cannot stand before the light, so maya cannot remain in the presence of Krishna. Always remember therefore to chant Hare Krishna, at least 16 rounds daily, and that will save you in all circumstances without any doubt.

Hoping this will meet you all in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Bombay

My Dear Yadubara,

I am in due receipt of your letter from Bombay dated June 14, 1972 and I have understood its contents. Today I have received one telephone call from Giriraja and he has informed me that there is some disagreement among you leaders there in our Bombay Center. This is not at all a pleasant situation for anyone. I am entrusting this huge task to all of you for working together cooperatively for doing something wonderful. I can understand that you are responsible and cool-headed along with the others, so you take the hand in reconciling all differences.

I have just now written to Gargamuni, Mahamsa, Nara Narayana, Giriraja as follows: "It is my request even you do not agree on some points, Giriraja is in charge so please follow his direction and that will please me. I am very much anxious to see the progress at Bombay Center, and I want it shall become the first class preaching center in the world. Please help me in this ambition. If we can manage successfully, we will be attractive for the whole of India. Our task is very heavy, do not neglect by paltry disagreement. I hope Krishna will bless you to understand my heart and oblige."

You state in your letter that everything is going on nicely there in Bombay, and I suppose that in general things are all right, but this todays news disturbs me and so I have ordered that Gargamuni shall immediately leave Bombay for his Gujarat tour and that Nara Narayana be given full assistance for extending the garden to all vacant areas of our property. Kindly assist me for seeing that these plans are carried out immediately and that our main task, namely, the construction work, shall not be neglected. This is very important matter.

You say that the Clairidge Press owned by Susheel Somani has offered to print our Gujarati magazine free of charge, and then you say that the cost will be not more than Rupees 3,000/-. How it is costing so much when the work is being done without any charge?

I hope this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/sda N.B. I have just now got one letter from Acyutananda Maharaja from Mayapur, and his plan is to photograph all of the original manuscripts of Bhaktivinode Thakura which are held by his son, Lalita Prasad Thakura, in Birnagar. This is a very, very important work, so I think you are just the right man for going there with Acyutananda to make photos of each and every page of the old manuscripts as they are in very bad condition. After taking the photos, we _ shall be going to London on _ 2, 1972, so send reply accordingly.

Letter to: Giriraja

Bombay
My Dear Giriraja,

Please accept my blessings. I am in due receipt of your letter dated June 13, 1972 and have appreciated its contents very well. I am happy to hear that the men are engaged nicely, especially in the matter of distributing our books. Take any number of books without paying any price, and engage the whole amount for our building work there in Bombay, but the building work must be very superb. Now I have sent you one letter yesterday which I hope by now has cured the situation amongst you all leaders there in Bombay. So if there is neglect or slackening in the building work you may please give all good direction how it may be improved to the topmost standard in all of India. One thing, if our men are making daily between Rs. 30/- and Rs. 120/-, let us say average of Rs. 50/-, so that is Rs. 400-500/- per day, or Rs. 15,000 per month so that is very nice. So in this way you may order increasingly as many books as you can distribute and they will be immediately dispatched to Bombay without any cost to you.

So far foodstuffs, you should collect profusely. If you collect more distribute more, and if you collect less, distribute less, but only distribute what you have collected. If there is no food, do not contribute our own funds for this purpose. Try to collect more, besides there is the contribution of American Government. You should purchase one iron safe and keep the Deities' jewelry or any valuables in that, or an iron closet, a little heavier, and you may keep either in my room or in some special room.

Ahmedabad is a great industrial city. It has got more than 100 big, big mills and if all of the mill-owners and officers become our members, from Ahmedabad and other cities in Gujarat, such as Baroda, Surat, Dvaraka, Rajkot, like that, you can collect millions of Rs. Also, I remember in Bombay at Akash Ganga there was some invitation from some important persons living near Dakot in Gujarat sometimes before. Whether they have been contacted? If we can open a Center in Dvaraka or Dakor, that will be very nice. In Gujarat State we can open a Center in every city because the people are so much dedicated to Krishna. In Gujarat we can very soon make our movement very popular, because by nature they are devotees of Krishna.

There is no question of selling the flats, as you had proposed this idea before of our own men owning the flats and leasing or renting them to devotees. Somehow or other, all of our tenants should be our devotees, and we can give them concession rents, but they should be devotees and at least in our colony there should be no violations of our rules and regulations. Actually make it a Hare Krishna land or a pilgrimage for Vaisnavas and the Indian people in general. I am very much especially pleased that you have had such a nice meeting with Sumati Morarji. She is our old friend and benefactor from long years back, and always she has desired for us to live as her close neighbors. She used to tell me in Bombay two years back that she wanted we should build our temple somewhere nearby to her place. She also assisted Tamala Krishna and Syamasundara to try to find one house in Juhu for our headquarters several times. So you can mention this fact to her that now we have fulfilled her desire and we are living in close proximity to her, so she should take advantage of Krishna's blessing her with such an opportunity for serving the Lord by herself building our Juhu temple. Encourage her to attend the meetings every day, and if you make the Deity worship very, very opulent and gorgeous, she will automatically be attracted to them. She has no children of her own, so why not she should take Radha and Krishna as her Children? So you can propose gradually and tactfully that she can alone build up a wonderful temple in our property and we shall name it "Sumati Temple" or "Sumati Hall". So encourage her in this way, and I am very much engladdened that she is so much willing to help us, now you apply yourself to the matter very diligently and think always of Krishna and it will come out very auspiciously. You can ask her to write me her itinerary in London, or if you think so, I will send her a letter personally. You can tell her that I shall be in London during that time also. I am leaving here on morning of July 2nd and arriving London July 5th via New York. I shall be very glad to see her and bring her in our temple there. Or she can write to me when she is there c/o 7 Bury Place. That is a good proposal to receive her at London Airport. Somehow or other, either she pays for the temple herself or she raises the funds from others, she must be persuaded in this great project, which will bring great benefit to her countryman and which will attract many, many foreign devotees of Krishna to the Indian soil for taking up this spiritual life very seriously. It is a unique temple in the world, and if you show your wonderful abilities as American and European boys and girls to manage everything superbly, she will not hesitate to entrust you in every way. Therefore, there must always be good will and cooperation amongst yourselves for this huge task ahead. I always think of our Juhu place, and I want that it shall be the model for all the world to emulate and respect as the perfect example of a Krishna Conscious community. The temple will cost about 2 lakhs, more or less, so Sumati Morarji can pay easily.

That is a good idea to print the articles which I have written and insert with photos and advertisements. Visakha will be the leader of designing pamphlets, and she has written also one article, "Hero of India," and she has written it very nicely. One thing is, in one letter to you some days back I gave you notice to send Rs. 1,000/- to Puri Maharaja to his address in Rajhmundry, so if you have not yet sent, do so immediately. After sending, write to me the acknowledgement.

So far your question regarding the regulative principles of our devotional life, you can request all the disciples there that this is our life, so why they will not follow? If there is any discrepancy in this matter, you may send me the names. And for Sannyasis such discipline is a must.

If Mr. Chabria wants to send a Sanskrit teacher there, he can teach Ramanuga and he may teach in a class also, I have no objection, but without salary. Our work is honorary.

Hoping this will meet you in good health,

My Dear Hamsaduta,

Please accept my blessings. I am in due receipt of your letter dated June 20, 1972, and I did receive two letters from Wolfram Ossenbrink and Han Koster dated 29th May, 1972, but there was no letter of recommendation from you. So any way, I am very much pleased to accept the boys as my duly initiated disciples, and their letter is enclosed herewith. Also please find enclosed herewith three sacred threads and four copies of Gayatri mantra duly chanted by me. Now hold a fire yajna, and teach the other big officers in Germany temples how to perform this fire yajna very perfectly, and give Gayatri mantra to Astaratha, Surabi dasi, Sacinandana, and Cakravarti. I think you have got a copy of the tape of me reciting Gayatri mantra, so play it to them through the right earhole with earphones.

I am very pleased to see the things are going on, and that new centers are opening many in Germany. Now I am feeling very much inclined for retiring behind the scenes to translate my Srimad-Bhagavatam. This means that now you all leaders, especially the GBC members, must become very much responsible and do the work that I am doing to the same standard. So I want you leaders especially to become very much absorbed in the philosophy of Bhagavad-gita, Srimad-Bhagavatam, and become yourselves completely convinced and free from all doubt. On this platform you shall be able to carry on the work satisfactorily, but if there is lack of knowledge, or if there is forgetfulness, everything will be spoiled in time. So especially you must encourage the students to read our books throughout the day as much as possible, and give them all good advice how to understand the books, and inspire them to study the things from every point of view. In this way, by constantly engaging our tongues in the service of the Lord, either by discussing His philosophy or by chanting Hare Krishna, the truth is that Krishna Himself will reveal Himself to us and we shall understand how to do everything properly. Now we have got so many students and so many temples but I am fearful that if we expand too much in this way that we shall become weakened and gradually the whole thing will become lost. Just like milk. We may thin it more and more with water for cheating the customer, but in the end it will cease to be any longer milk. Better to boil the milk now very vigorously and make it thick and sweet, that is the best process. So let us concentrate on training our devotees very thoroughly in the knowledge of Krishna Consciousness from our books, from tapes, by discussing always, and in so many ways instruct them in the right propositions.

I hope this meets you and your good wife Himavati in good health, and I shall be arriving in London sometime on the 5th July, so you may all come to London at your convenience and see me there.

Letter to: Gurudasa, Yamuna

Vrndavana
My Dear Gurudasa and Yamuna,

Please accept my blessings. I beg to acknowledge receipt of your letters dated June 13, 1972, and I am very glad always to hear from you about how the things are going on in Vrndavana. I am especially pleased to hear that Mr. Kenneth Keating is becoming more and more interested in our movement, and that you have received the first allotment of foodstuffs from the American Government. One thing, why the American Government does not give us more help for America’s hippies who come to India? They have got tendency to live with us, and we have got every facility for giving them comfortable shelter, clean living, spiritual training and good moral standing. So if the American boys are coming to India to get this philosophy, is it not up to the American Government to give them assistance?

Sometimes before, Ksirodakasayi has made promises many, but then he goes away. So Gargamuni is a little aspiring to be the president of Vrndavana, and he was sorry when he was refused the post because I wanted to give Ksirodakasayi chance. But Ksirodakasayi is not very responsible, so why not make Gargamuni president of the Vrndavana temple to be responsible for collecting the money and making certain that the job gets done on time? If he is given a big task to do, Gargamuni has got determination and he always comes out successful in this matter of raising money and doing some big work with it, just like when he purchased our Los Angeles temple. Main thing is, don’t waste any time. Finish it on time.

There is one saying that one should cut the coat according to the pocket. So even we cannot afford the proposed temple project as we have got the plans drawn by Saurabha and that architect, Mr. Suri, still, if we have not got sufficient funds and if there is long delay to get them, better to go ahead and build something little cheaper and very simple. The temple can be made with ordinary bricks if there is no money available, as I have drawn the plan before in the beginning. Unless someone comes forward with money, this structure as you have drawn it will be too much expensive. According to our means and strength we can construct a simple temple of bricks only. But one thing is, you must have somebody who can look after the work who has got some experience or you will be cheated. Jayapataka has got good experience in Mayapur, so he can sometimes go to Vrndavana, give instructions, and go back, like that. So you may write him in this connection and make the proposal. Singhania will not give anything, rest assured.

Don't go after him, he is like that, very difficult to deal with. Regarding the revised plans that you have sent me, the side-supports or slabs vertical can be made of stone slabs which are easily available.

Regarding the proposal that Yamuna devi has given of the Deities I shall consider. There is no haste. We have already got murtis in Delhi and I think you told me in one letter that somebody has promised Rs. 30,000 for murtis, whether it is a fact? Another thing, where are the important documents for Vrndavana, like the Deed of Gift, etc.? They should be kept carefully in a safety deposit box at the bank. And what is the present condition of Mr. Saraf, is he still holding the job as treasurer, as originally proposed? And whether the front portion of his land can be included in our garden?

Hoping this will meet you both in good health and happy mood.

My Dear Aksoja,

Please accept my blessings. I am in due receipt of your letter from Amsterdam dated June 21, 1972, and I look forward with pleasure to attending some of your meetings there in Holland near end of July. Yes, the two engagements for July 28 and July 29 sound all right, and as you have kindly invited me, if you make all nice arrangements, then I shall be very glad to attend them. One thing, you have mentioned a "band" for playing in the park.* If we hold public meetings, we can only hold kirtan, with our usual program of preaching being the main feature of attention. We shall stick only to the Vaisnava standard set for us by the great acaryas and saintly persons, namely, the Hare Krishna Mantra and other mantras which I have taught to you, but we shall not produce something artificial by writing and playing our own songs as we like.

Also, as you have requested, I shall be very much pleased to install Lord Jagannatha in the temple on the Sunday, 30th July, before continuing onwards.

Hoping this will meet you in good health,

My Dear Daughter,

Please accept my blessings. I have received your letter from Pittsburgh dated June 16, 1972, delivered to me by Bibhu dasa along with his recommendation, so I shall be glad to consent to accept you as my duly initiated disciple. I shall send your beads under separate post, duly chanted by me. Your initiated name is Haripuja dasi.

Now please continue to strictly follow the regulative principles and rigidly observing the four principal restrictions, namely: no eating of meat, fish or eggs, no taking of any kinds of intoxicants including coffee, tea and tobacco, no illicit sex life, and no gambling, and always without fail chant 16 rounds of the Holy Names daily, and be happy.

If you stick to these principles with determination, then you will become free from all attachment to maya, by Krishna's Grace. The example is that when the sun is in the sky, there is no question of darkness. Similarly, when Hare Krishna Mantra is vibrating on your tongue and you are hearing attentively, then your consciousness becomes clear or Krishna Consciousness and there is no question of maya or hazy consciousness. Just as when the light and the darkness come together, the darkness cannot stand before the light, so maya cannot stand before the presence of Krishna. Always remember therefore to chant Hare Krishna, and that will save you in all circumstances without any doubt.

Hoping this will meet you in good health.

New Vrndavana

My Dear Kirtanananda,

Please accept my blessings. I have received your letter from New Vrndavana dated June 20, 1972, and noted the contents thereof. I am very glad to hear that you are giving your full attention to the worship of Sri Sri Radha Krsna there at New Vrndavana, and it shall be your task to make certain that they will never be so much neglected in the future. Your proposal is very nice to make the atmosphere of the Deities very, very opulent, and the temple must be kept always very nice. That will be the attractive feature and people will come to see for that reason.

So far your road-show is concerned, we are not meant for giving performances, we are simple kirtana men. There must always be kirtana going on wherever we travel, and nothing else. In this connection refer to the GBC letter which will be sent to you shortly by Karandhara and Syamasundara.

So far your naming of the new initiates, Syamasundara. tells me that there are several duplications, and this is not very much desirable. So in future, better to telephone or somehow contact my secretaries and get the names from them, and in that way there will be no duplication in the future.

I have duly received the check for $200 and I thank you very much for it. Enclosed also please find one copy of Gayatri Mantra for Varanasi devi dasi.

I shall be arriving in New York sometime in the afternoon of July 2, and I look forward to seeing you all there at that time.

Meanwhile, hoping this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Calcutta

My Dear Acyutananda,

Please accept my blessings. I am in due receipt of your letter dated June 20, 1972, and I have noted the contents carefully. But I do not find any mention of how the progress is going on at Mayapur. This is our very important project, and I have entrusted the work to Tamala Krsna, yourself, along with Bhavananda and Jayapataka, but none of you are writing in this respect so I do not know what is happening there. So I am very much concerned to be always informed how the progress is going on, and I have recently received telegrams regarding our money transaction and have replied duly, but still there is no word from your side in this matter also.

I am pleased to hear that the song books and tapes of Lalita Prasad Thakura are in New York for being edited and distributed. To answer your questions, the Deities in London, New York, etc. are not mentioned in TLC, the Deities mentioned there were before these Deities were installed. In Caitanya Caritamrta there is mentioned that all over the world there are to be found many Deities. They may be covered by flood, devastation, and so on. Svayam Prakasa refers to Baladeva. So far the songs of Jayadeva are concerned, there is one, Srita Kamala. Yes, if you want to translate the Bhakti-Ratnakara. When I go to New York in a few days, namely on June 2nd, I shall be very glad to peruse the tapes and writings you have sent there.

Hoping this will meet you in good health,

My Dear Cyavana,

Please accept my blessings. I am in due receipt of your letter dated 21st June, 1972, and I am very glad to hear that the proper permits have been obtained for the building work. but one thing, we are forming a cooperative society with our own members, but what is the advantage? I think that the cooperative society is formed in order to avoid paying some taxes, like stamp tax, but I just sent a check for Rs. 70,000/- to Giriraja for payment of stamp taxes, so what is the advantage if we still have to pay the stamp tax?

Yes, Giriraja is to be regarded as the absolute authority in all matters. Why do you disobey? Of course, everything should be departmentally managed, but unless there is discipline how will anything get done? If you are in disagreement at every point, how it will be possible to finish this important work? Anyway, please cooperate with Giriraja and the others, and if this is impossible then I will have to take other steps. If you want to go to Jaipur and Vrndavana for a little while, I have no objection, do it immediately.

Hoping this will meet you in good health,

Letter to: President of United States

•

Los Angeles 28 June, 1972

The President The White House Washington, D.C. 20025

My dear Mr. President:

Several thousand years ago a great pious emperor ruled over this planet. He was a descendant of the great Kuru dynasty and the grandson of Arjuna, the hero of the Bhagavad-gita and the personal associate of the Lord, Sri Krishna. The people lived under his domain in peace. He provided protection for the people and the cows, as well as all other living entities. He engaged many brahmanas, spiritual leaders, to educate his people and advise him in all matters. The people were just and God-conscious. They had a good understanding of the meaning and purpose of life and lived in happiness and prosperity. They respected their emperor and received kindness and benedictions from him.

You are a great president of a great nation. In this age of unrest and quarrel, your strength, as well as the strength of your nation, will be lasting if it is built upon the pillars of spiritual knowledge and Absolute Truth.

I am seventy-six years of age and am in the renounced order of life. I came to this country from India six years ago to introduce Krishna Consciousness, the scientific process of spiritual life, to the English-speaking people of the Western world. Now by the grace of Krishna I have many thousands of disciples, young American and European boys and girls. Many of them have come to me bewildered, rebellious, and addicted to all sorts of sinful activities. Like so many of the young people today, they were lost and confused. Now they are all leading a disciplined and regulated life. They follow strict principles of spiritual life, with no desire for intoxication of any kind, or illicit sex life. They are always engaged in meaningful work, serving God and their fellow man. They have become the flower of your country and all over the world they are being treated with the highest respect.

I would humbly like to request an interview with you to discuss the possibilities of my providing further service. My disciple, Atreya Rsi das (Mr. Marz Attar of Arthur Young and Company, 277 Park Avenue, New York, N. Y., phone 212-922-5957) will assist your aides to arrange a suitable time and place for a meeting.

I hope this meets you in best of health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Tamala Krsna,

Please accept my blessings. I am in due receipt of your letter dated June 22, 1972, and with great pleasure I have noted the contents and enclosures. But one thing, I do not find any mention of how the work is going on there at Mayapur. I have entrusted you as the leader of this project to see that it is always going on at full capacity, that the men are working, that the money shall be collected and spent wisely and timely, and in all respects take full responsibility for this great construction work. But I do not find even any mention how the work is going in your letters. Neither I find any photos or mention in the letters from Acyutananda, Bhavananda, and Jayapataka. Why you are not mentioning? I received sometime back two telegrams requesting money to be transferred in the usual manner, and I have duly replied the telegrams by informing you to first receive the money from Mr. Jayan, as before, and then send us requisition order with minimum joint signature of two numbers. But as yet you have not sent any requisition notice, neither have we made any transfer, so how these things will go on like this? So before going to Bangladesh you should receive the money from Mr. Jayan then send the requisition order with joint signatures. You must jointly take responsibility in this matter or I shall be always in anxiety how the things are going on. I consider this Mayapur Project to be our most important work practically, so when I do not get any information I can naturally assume the worst.

Your touring party has done a very excellent job of spreading Krishna Consciousness in Bihar state as I have seen from the newsclippings and other enclosures which you have sent. One thing, our Subala Maharaja is preaching alone in Kanpur and I do not very much approve of alone preaching, so if you like you can request him to join with your party.* Also, Gargamuni Maharaja has left Bombay with his party for touring in Gujarat state and other places. Your touring and the publicity is a tremendous service. Krsna will be very much pleased. This touring and preaching, along with sankirtana party, this is our actual mission. And if you go to Bangladesh and do the same work there, it will be a great achievement for you and all of the world if you are successful. So I will pleased to learn if you have got the visas in Delhi, and if you go to Bangladesh make certain first to get the money from Mr. Jayan and sent the requisition order with signatures duly.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Rupanuga

Virginia Beach

My dear Rupanuga,

Please accept my blessings. I am in due receipt of your letter from Buffalo dated June 26, 1972, and I can very much appreciate the report therein. Yes, that is our main program, this traveling and preaching just as I am doing. Now you have to keep the institution in living condition in the near future, so as such you have to preach vigorously to the right point so that people will appreciate our movement and take to it. I am so much pleased that you have taken Sannyas and are preaching whole-heartedly. Do not worry about your wife and child, Krishna will take care of them. Just you save the foolish world from going to hell. Everyone has become already animals. They are not interested in morality, religion, or other subject matter of the human form of life. And when one is prepared to become animal, then what this school-college education will do? This material world seems to me like a dead body, and even though they try to decorate it very gorgeously, what use can we enjoy from such dead body? So practically we see the youth of your country have become very much frustrated by trying to enjoy this dead body, and they are seeking to find the point of real life which has been lost, but they are thinking that to become animals will give them new life, just like standing naked or growing long hairs. But without Krishna that is not possible. Therefore, it is your duty to inform them very seriously and tactfully that this dead body of material nature can only be revived if we inject it with Krishna Consciousness movement. If we do like this, then your country will become the most gorgeous place, it will be Vaikuntha.

Therefore, I am especially appealing to the GBC men to take this mission of Krishna Consciousness movement very, very soberly and without any inebrieties for advancing the knowledge of how to inject Krishna Consciousness into the dead body of material nature. And I am especially convinced that your government of your country must come forward to assist us. We may approach our government leaders with our simple formula and show to them by the practical result that we are accomplishing the reform work that they are trying to do by spending millions of dollars but not very successfully. We, on the other hand, are rescuing the most fallen members of society among the young people and giving them new life of spiritual or highly desirable qualities, such as honesty, cleanliness, truthfulness, morality, like that. Now you approach the government leaders and convince them in this way, and that will be the greatest achievement. They have got so much money for spending for human welfare activities, and practically we are demonstrating that they have given us foodstuffs in India and we are distributing them daily to not less than 500 men, and if they would give us more we could also increase more and more. Your government has got inclination to assist the unfortunate people of the world, and that is very nice idea, now they should understand also that we are very much anxious and capable to assist them in their great and noble endeavor by rendering our services amongst the unfortunate citizens. If they give us financial help in this matter of human welfare activities, we are prepared to save or rescue their entire population from the clutches of ruin and degradation of all sorts. As I think you have tried once before and you have met some important political leaders in your Washington, D.C., so I am requesting you especially should take up this task very seriously of convincing your nation's leaders to give us all cooperation, and we shall in turn volunteer our all services to help them. By our mutual combination I am certain that we can improve the entire humanity to the point of spiritual understanding and thus automatically eliminate the basis for wars, poverty, disease, inequality, insufficient supplies of foodstuffs, and so many other problems that plague our so-called civilized societies. Another thing is, wherever I shall be from now on I want the Bhagavata Seminar to go on. In San Diego, I spoke at one such seminar on "Hinduism" which attracted many scholarly persons from all over the United States. So I am thinking that if we arrange similar seminar programs in the future, wherever I am speaking at the time, that will be a great success. So I am coming to New Vrindaban for the Janmastami celebration by end of August from Europe, so if you can arrange and advertise widely for such Bhagavata Dharma seminar or festival, I shall speak for minimum 7 days on the subject matter of Bhagavata Dharma. You may invite all the intelligent class of men, like students, professors, philosophers, scientists, educationists, like that, and they can pay some fee and we shall give them all facilities for living, and they shall attend our classes daily for some set period and take away immense benefit. I am enclosing the copy of one sample advertisement for the seminar in San Diego. Similarly, we can arrange such seminar at New Vrindaban. What do you think?

Hoping this will meet you in good health.

My Dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your letter from Cleveland dated June 26, 1972 and I have noted the contents with great pleasure. Similarly I have received such nice letters from Rupanuga and Hrdayananda, and I am very much satisfied that you are all feeling the serious nature of this Sannyasi mission. So far you are concerned, I am especially stressing the importance of our Dallas Gurukula for training up the next generation of Krishna Consciousness preachers. This is the most important task ahead. I am seeing practically how wonderful the children are coming out. Therefore, we shall be very, very vigilant and careful to maintain the highest standard of temple atmosphere and conduct in Dallas. You may install Radha-Krishna Deities and worship Them very, very gorgeously. Simply by associating with the elderly members, the children will learn everything. So, the quality of the elderly members must be also very much to the standard of excellent Vaisnavas; otherwise, the children learn by example and they will very easily be misguided if their senior god-brothers and god-sisters are themselves neglectful. I shall certainly come there to Dallas to see how things are going on as soon as there is opportunity. We must develop our Krishna Consciousness school at Dallas to be the model for education in all the world, and let anyone see our Krishna Consciousness children and they will immediately understand the importance and necessity for such education amongst the citizens at large. Otherwise, the children of your country and other countries, they are simply growing up to be sophisticated animals, so what good will their education do? But if they will agree to try to understand our Krishna Consciousness education or way of life and allow their children to be educated by us, they will see them come out as the topmost citizens with all good qualities such as honesty, cleanliness, truthfulness, loyalty, etc. So that is a very important work and you are especially responsible to make it successful. All other GBC men should give you all assistance for building up the standard there.

You mention that you are no longer much occupied with seeing that the rent and mortgage is paid and that the incense is sold, but GBC means to be occupied with everything in the zone. It is not that now we are preachers we can neglect all other points. No, the GBC member is supposed to know everything and anything about the condition and situation of all matters within his jurisdiction. That is the meaning of secretary. So because we are engaged in many fields of activity I am especially relying upon that knowledge of my GBC assistants and secretaries to manage everything properly. But if we do not take time to understand how the financial matters are going on, then at any moment we may experience some calamity due to our inattention to these matters. Therefore, you should try to keep yourself always informed how the financial matters are improving and keep your watchful eye on every feature of our Krishna Consciousness activity. That is also part of preaching work. I am also preaching daily. But I am at the same time managing everything, seeing the statements of accounts, going to the bank, giving advice on every topic, like that. Just now I have purchased one apartment house with seven apartments just adjacent to the L.A. temple and very soon we shall invest in similar properties. So practically there is no question of my neglecting the financial matters of the society, and similarly, you shall do as I am doing. That is your real business. So far your question, Yes, it is good to be prepared with a well-thought lecture in advance. However, we must be able to preach effectively at a moment's notice or under any conditions or circumstances also. As you begin to study the Sanskrit words, in each word you will find a treasure house of different understanding.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Gunagrahi:

Please accept my blessings. I beg to acknowledge receipt of your letter from Buffalo dated June 21, 1972, and I have noted the contents carefully. Especially I am very much pleased to hear that the University of Buffalo has given to you more than $1200.00 in grant. I can understand by your enthusiastic preparations for Rathayatra in Buffalo that you are very sincere boy and capable devotee. This is very much wanted throughout the society of men, that some few of you will come to the understanding that by serving the Lord with my full energy that this will be my happy position of life and that no other occupation will give me any, not even an ounce of pleasure. Such persons like yourself who are thinking in this way are getting all intelligence and facility by how to do the things properly, and that Krishna is helping you with intelligence and ability, now you take the right course and utilize the opportunity given to you by Krishna to actually inject the human society with that same determination to serve the Lord. Only a handful of you are there who are convinced beyond any doubt about this Krsna consciousness movement, but is sufficient to change the entire course of history.

I shall be in London this year for the Rathayatra festival and after that I am going to Paris for the twenty-first, twenty-second and twenty-third of July, and as I have already confirmed these engagements long ago, I regret I shall not be able to physically attend your Rathayatra at Buffalo, but my presence is always with the devotees who are serving so nicely.

Worship of Radha-Krishna Deities is the ultimate pinnacle of Deity worship, and it must be done with the utmost caution and attention to every detail of giving opulent service. I am not recommending more temples to install Radha-Krishna Deities until I have become more convinced that they can properly manage. At least five to ten persons must be engaged full time to worship Radha-Krishna properly, and for any small temple especially that is a detrimental factor to maintaining the highest standard in other temple activities besides, because there are not enough men. You may worship Lord Jagannatha, or if you like to install Gaura-Gauranga, Gaura-Nitai, or simply Gaura Deity, He is also very liberal and will forgive and tolerate any service offered to Him even by Jagai and Madhai.

Hoping this will meet you in good health.

My dear Dayananda,

Please accept my blessings. I beg to acknowledge receipt of your letters dated June 26, 1972, and July 4, 1972, and I have noted the contents very carefully. Now my advice is this, that you take your family to San Francisco and become the President there, because Kesava wants to change, and I think he has liked it in London very much, so he may come here immediately while I am here and help me to get one very nice temple here. What do you think of this proposal?

Yes, reading my books will help you, philosophy must be there, but if you do not also apply the philosophy by participating in all temple affairs like rising early, attending mangal arati, performing devotional service, then simply learning the philosophy will have no effect. Therefore, my suggestion is that you should take charge of the San Francisco affairs, which are already in good order, and live nicely with your family in Krishna Consciousness, because you have got tendency to manage and also good experience and ability.

Hoping this will meet you in good health.

Dear Sri Joshiji,

Please accept my greetings, and I beg to acknowledge receipt of your letter dated June 27, 1972, and I thank you for your proposal for cooperating. I did not reply your letter earlier as I was preparing to come here to London.

Your proposal to cooperate with this movement is very magnanimous, and I thank you for your suggestion. But before doing anything tangible, I wish to discuss with you in detail. I wanted to see you in Los Angeles, but I could not get up to San Francisco, neither you could come to L.A. Now I shall be away from California for about one month, but when I shall return we shall discuss further this matter. I welcome your suggestions for voluntary service. Thank you very much.

My Dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 30, 1972, and I have noted the contents. I am very much pleased to see the photos of the Jagannatha cart being made by you in Melbourne, and I can understand that you energy and experience are being put to good use there in Australia. That is the secret to success, utilizing our God-given energy to please Krishna.

Regarding your question of dancing-show, whatever it may be, it may not deviate from the real Krishna Consciousness program. We are Hari Kirtana men, that’s all. We can attract people by some gorgeous show, but inside there must be strict purity and seriousness, otherwise, we shall be attracted by the gorgeous show only. There are two energies always working simultaneously, and Maya means when we diminish the spiritual energy, then automatically we become attracted to the external dress of Maya. So I do not care very much for these plays and dramas unless they are coming directly from the Vedas. If we can recite from Bhagavad gita the first chapter without any need for elaborate scenery or stage-props and gorgeous dresses, that is best. Just like your Shakespeare. Macbeth may be recited by two men, without anything else, and simply by their acting ability and the meaningful words alone, they can very easily capture the entire audience and give them real substance. We have so many stories, like Jagai-Madhai, Krishna departing for Mathura, like that. Satire will not help us. Our message is very grave, and because it is the Absolute Truth, it will work without any artificial presentation.

Because they heard of our program in Bombay along with the Zavery sisters Manipuri Dancers, here in London they had arranged one program of lecturing by me along with a recital by one man playing on the vina just to attract attention to my speaking. I am not in approval of such arrangements, and it will be dangerous thing in future if we begin this type of program just to attract the masses. Already I see this happening practically all over the Society, so better we stop it now and get ourselves firmly on the track chalked out for us by Lord Caitanya. We are simply Sankirtana men, our program is chanting, dancing, distributing prasadam, and speaking high philosophy, that’s all.

Hoping this meets you in good health.

Letter to: Bhagavatananda

-

New York 8 July, 1972
72-07-08
My Dear Bhagavatananda,

Please accept my blessings. I have received your letter from Pittsburgh dated July 3, 1972, and I have noted the contents carefully. One thing is, our process of Krishna Consciousness, if it is followed with determination and enthusiasm, automatically it has the effect of fixing us, body, mind and soul, to the Lotus Feet of Lord Krishna, so that all sorts of fluctuations of the material nature, all sorts of difficulties and discrepancies of life are easily withstood. But first you have to agree to understand the process and follow it scrupulously. That is wanting. If I only think I know something, that is mental platform of accept/reject, and any knowledge gathered from the mental platform is like that, tottering and precarious, and it can be immediately rejected at any time.

Krishna Consciousness has great potency to deliver us to the highest platform of perfection, but only if it is understood by the intelligence. Something understood by the intelligence is fixed forever and cannot waver, and that is almost spiritual. From your letter, I can understand you are confused in your mind, because you do not want this, you do not want that, you might like another, like that. That position of confusion is not very much desirable, so you are a Vaisnava, now rid yourself of such misunderstanding of things. Vaisnava means one who is able to sit down anywhere, under any conditions, and be happy. He wants only a place to lay down, a little prasadam, and if there's a little service he can do, gladly let me do it for Krishna, that's all. As long as we are thinking I want this, that is not to my liking, or if I adjust things a certain way everything will be better, these thoughts are material. Devotional service is not conditional. So stop this dreaming state. Try to understand things with the light of your intelligence, and if your are sincere in this way, without a doubt Krishna will give you full facility to understand Him and become freed of the bondage of ignorance.

Nowadays it seems many of the older disciples like yourself are having difficulty. If you do not set the example for the younger students and take the responsibility for instructing them in the right line, how will things go on? Try to always study our books and see our philosophy from different lights of directions, become convinced yourself of this knowledge and without a doubt all of your difficulties of mind will disappear forever and you will see Krishna face-to-face.

Hoping this meets you in good health.

My dear Nandarani,

Please accept my blessings. I have seen this special Rathayatra issue of "Back to Godhead" written by you, and I am so much pleased that so intelligently you have assorted the matter to completely understand our philosophy in a nutshell. I know that you are very intelligent and educated girl, so fully kindly utilize it for developing the Dallas institution for the benefit of your so many children. Or if your husband will accept the post as President of San Francisco center, you may accompany him there and assist him in every respect.

You can consult me freely whenever you like and I shall try to enlighten you as far as possible. But I am certain you are intelligent enough and I have already given you some hints on the basis of which you can do the needful.

Your husband has gone back from London, being completely overcome by family separation. So there is no need of living separately. Both of you husband and wife live together and render the best service to the Lord. We have never discouraged family life, so both of you are intelligent and can make your plan. Keep your situation fit for rendering service to the Lord more enthusiastically. That is my desire.

Atmaram and Sons Book Sellers and Publishers Delhi-7, India Kashmere Gate,

My dear Ish Kumar Puri,

Please accept my blessings. I beg to acknowledge receipt of your letter from Delhi dated June 23, 1972, and I am pleased to note that you wish to take up publishing our books. Enclosed you will find information of several of our major works, such as number of pages, size of pages, etc. So far number of copies to be printed, that you can decide between yourselves and our ISKCON representatives there in India. I wish to publish with your firm less expensive editions of our existing English language books, keeping as far as possible to the high standard we have established, and also to print Hindi language books.

In this connection, I am requesting two of my disciples there to either correspond or meet with you to discuss the matter thoroughly. Sriman Gurudasa Adhikari, President of our Vrindaban ISKCON center, can supply you with all samples of our literature, etc. His address is c/o Radha-Damodara Mandir, Seva Kunj, Vrindaban, U.P. In addition, the editor of our Hindi publications, Dr. R. P. Rao, Reader-in-Chemistry, 20-K Hirapur, Gorakhpur University, Gorakhpur, U.P., will be contacting you very soon regarding the work in Hindi language.

After you have studied the matter thoroughly, kindly send me your lowest quotations for printing the books listed herewith. I shall be in London at the above address until the 20th of this month, and after that you may write me at my New York temple-headquarters, 439 Henry Street, Brooklyn, New York, U.S.A. 11231.

Kindly convey my blessings to your good family, and especially my respects to your father. Hoping this will meet you in good health.

Letter to: Hrdayananda

New York 9 July, 1972

72-07-09

[To Hrdayananda]

Now you must all three, along with the other sannyasis, GBC members, and other leaders become very serious to actually give the human kind the greatest welfare, namely, this Krishna Consciousness movement. Your task ahead is very huge, but it will be quite simple and easy if you simply do as I am doing. You must become conversant in every feature wherever it is needed throughout the society. Out first business is to preach to the devotees and to maintain the highest standard of Vaisnava education. Management must be there as well, just as I am preaching daily from S. Bhagavatam, B.G., but I am also going to the bank, making investments, seeing the trial balance making letters, seeing how things are going on, like that. So you must become expert in all these matters, just as I am giving you example . . . Syamasundara. has passed on your telephone message that you wish to open a Vedic college or school of higher Krishna Consciousness education there at Houston. That is not very much desirable. Actually, every center should be a college, and this is our training, singing dancing, working, temple worship, like that . . .

Try to understand the subject matter from different varieties or approaches. For example, we know from Bhagavad-gita that Krishna says He is the taste in water. Now try to understand just how Krishna is that taste in water, that is the high-class education.

Vrindaban

My dear Gurudasa,

Please accept my blessings. I am in due receipt of your letter from Vrindaban dated July 5, 1972, and I am pleased to note the progress with Mr. Keating. You can send me the letters and documents as soon as possible, and we can use them in our propaganda work. I have sent one letter to Ish Kumar Puri, copy to you under separate cover. As for size of plates from Japan, you may correspond with Karandhara in Los Angeles about these businesses with Dai Nippon, as he knows all these things.

I am very much encouraged to understand that you are making nice progress with the building work. I have sent the Check Book, Punjab National Bank, account no. 642, under registered post, so kindly acknowledge if you have received or not. Then you remain as President of Vrindaban center, we shall see later on. As for Ksirodakasayi, he has decided to remain here in London to live with his family and work here to raise funds for future new London headquarters. There is one boy, Bhagavatananda, in Pittsburgh temple, who wants to have some new engagement and he is expert carpenter who has built many houses in New Vrindaban, so you may correspond with him if he can come to help you there.

I do not know what you mean when you mention the government is discouraging Americans from Vrindaban area, and that Subala may be deported. Kindly elucidate. So far the Delhi deities, one man here in London, Dr. Shah, wants to pay for the freight to bring them to Edinburgh where we have got one nice center for installing them there. But I do no know how it will be done. Anyway, keep them safely and we shall see later on.

Hoping this will meet you in good health.

My dear Subala,

Please accept my blessings. I have received your letter from Kanpur dated July 2, 1972, and I have noted the contents therein. Yes, singhania will not help us very much, but if he wants to sponsor a ten-day "Hare Krishna Festival"* in Kanpur from Sept. 22 to Oct. 1, 1972, that will be nice. If I am in India at that time, I shall be pleased to attend. In future, you may join either Tamala Krishna's party or Gargamuni's party for preaching tour, this alone preaching is not good.

Hoping this will meet you in good health.

My dear Giriraja,

Please accept my blessings. I have met with Mrs. Morarji on arriving here in London and she has agreed to be the President of our Bombay Board of Trustees for building up the Juhu project. This is a good opportunity. So she, along with our other big Life Members, can form this Committee., and our own men will give direction. Now form the Committee. by consulting her how to do it, and the Committee. may meet and organize how to raise funds and push on this project, and I shall give direction how to do it.

Now one thing is, she wants us to come to her school and give classes in Krishna Consciousness, so you go there with others as often as possible and give instruction to the children, bring them to our temple, distribute prasadam, like that. More and more, she will become favorably disposed as she sees us that we are performing the best welfare activity. Kindly inform me how these matters are making progress.

Hoping this will meet you in good health.

My dear Brother Shyamsundar,

Please accept my blessings. I am in due receipt of your kind letter dated 7/7/72 in Bengali, and you will excuse I am writing in English because I am in London. I hope you are making the Ratha-yatra Festival very successful, along with my disciples headed by Bhavananda and Acyutananda Swami. In my childhood I used to take my ratha with my little friends, about 60 years ago. Again I am reviving the same attempt with my young disciples. I have become old, and you are also old, although not so old as I am. We may pass away, but my disciples will carry on this festival yearly, and so it will be remembered forever our eternal relationship with Sri Sri Jagannathaji and Sri Sri Radha-Govindaji. Ask your sons also to cooperate so that in future this festival will be continued for good.

I am presently engaged here in London for celebrating the Ratha-yatra Festival also. A huge festival will begin at Marble Arch and proceed to Trafalgar Square, where I shall speak to at least 10,000 persons. Similarly, my disciples are holding Ratha-yatra festival at San Francisco, Philadelphia, New York, Tokyo, Melbourne (Australia), Calcutta, and other places. So what was my childhood play 65 years ago is now a worldwide event. The same Radha-Govindaji worship and Jagannatha worship is going on all over the world.

Hoping this will meet you in the best of health.

Yours affectionately, A.C. Bhaktivedanta Swami

Bombay

My dear Giriraja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 6, 1972, and I have noted the contents. I am pleased to hear that everything is progressing nicely there in Bombay. As for Srimati and Madri, they shall not be going to Africa. Brahmananda mentions that several other boys want to go to Africa from Bombay. Why this restlessness? If you so much require their services in India, why they should whimsically go away? It is better if they stay to help you there.

So far the flats, yes, Rs. 80/- per sq. ft. should be the price. Rs. 100/- is the standard rate for that neighborhood, so our price is not too high. So far Lalita Krishna is concerned, I have received one letter from Purusottama das Brahmacari requesting to travel to Malaysia with Lalita Krishna for opening some centers there. So best thing is to open centers in Malaysia and Singapore, recruit many Chinese-speaking devotees, translate our books into Malaysian and Singapore language, then with a party go to China later on. Regarding the boys you have recommended, their letter of initiation is enclosed and beads are sent under separate post.

Life Member means Life Member, there is no inheriting by the eldest son. It is only Rs. 1111/-, what is that?

Why you shall send Mayapur a monthly allowance? The plan was that Calcutta or Tamala Krishna was to maintain Mayapur. How is it Calcutta is not sending collections to Bombay? Unless they send their collections you cannot pay them anything. Bhavananda and yourself, you consult and do the needful. Why everything is referred to me? I instructed that Calcutta should support Mayapur. Otherwise what is the use of maintaining such big establishment in Calcutta?

So far Saurabha's idea to concentrate on the temple building, that is accepted.

Hoping this will meet you in good health.

Bombay

My dear Sons,

Please accept my blessings. Upon the recommendation of Giriraja I have gladly consented to accept all of you as my duly initiated disciples. Your beads have been duly chanted by me and they are sent under separate post. Your initiated names are as follows:

Tom/Tilakainath das

Doug/Dhumrakesa das

George/Gokulacandra das

Paul/Pavamana das

Now please continue to strictly follow the regulative principles, namely: no eating of meat, fish, or eggs; no intoxicants, including tea, coffee, cigarettes; no illicit sex-life; and no gambling.

If you stick to these principles with determination, then you will become free from all attachment to Maya, by Krishna's grace. The example is that when the sun is in the sky, there is no question of darkness. Similarly, when Hare Krishna Mantra is vibrating on your tongue and you are hearing attentively, then your consciousness becomes clear, or Krishna Consciousness, and there is no question of Maya or hazy consciousness. Just as when the light and the darkness come together, the darkness cannot stand before the light, so Maya cannot remain in the presence of Krishna. Always remember, therefore, to chant Hare Krishna, and that will save you in all circumstances without any doubt.

Hoping this will meet you in good health.

My dear Yadubara,

Please accept my blessings. I am in due receipt of your letter dated July 1, 1972, and I have noted the contents carefully. Dai Nippon has upped their price for Hindi BTG considerably, so it is better to print in Bombay just as you have done with Gujarati BTG. When you return to Bombay, you can try for this. Meanwhile, the manuscript is lying with Dai Nippon for next Hindi BTG, so they have quoted nearly 20 cents per copy or more than 2 rupees, so I think that it will be better to send the manuscript to Bombay. I shall await your advice before deciding the matter.

You may develop the films of manuscripts from Birnagar and inform me what you have done and which manuscripts are with you, then I shall inform you where to send them for translating, etc.

Calcutta

My dear Bhavananda,

Please accept my blessings. I beg to acknowledge receipt of your letters dated July 5 and July 8, 1972, and I have noted the contents carefully. So far the speakers for Rathayatra are concerned, that is all right, but it is also a good idea to offset their nonsense by our own speakers. Yes, we should stand in our position and defy all nonsense propositions. Our math in Mayapur is not for Bengalis, the math is for you foreigners, to give you facility for offering respects to Lord Caitanya.

I have notified Karandhara to send you the ten Krsna Books as you have requested, but in future I want at least two signatures to be there. One thing is, I have heard that Jayapataka is requesting Giriraja that Bombay should send maintenance allowance to Mayapur monthly. But I instructed in the beginning that Calcutta should maintain Mayapur. Also, you are not sending your collections regularly to Bombay, so how they can support you? If Bombay is maintaining, what are others doing, eating and sleeping? Why does Jayapataka want allowance? Anyone who cannot collect money, they should go to Mayapur and live there and simply eat and sleep, like women and widows. I shall arrange for their eating and sleeping. But in cities, those should live who can collect and earn. The widows are not earning in Hindu society, they eat and sleep at others' expense. So if you are not able to earn in Calcutta, better all go to Mayapur and eat and sleep and I shall accommodate all widows, women, and others at Mayapur and Vrindaban. Otherwise why should we maintain such large establishment in Calcutta simply for eating and sleeping and spending. These two places will be reserved for those who cannot collect. For them I am making provision. Only the active members who can collect, they shall live in the city. Eating, sleeping members, they shall live in Mayapur, that's all.

As soon as the first residence is finished, no more cash will be sent, only books. Therefore, you must work very hard to sell the books. Not that money will come from somewhere and we shall eat and sleep and so-called chanting. We must work hard like karmis, but not for sense gratification but for Krishna.

One thing, on the invitation card you have written All Glories to Our Guru Maharaja. This is impersonalism. As soon as we offer obeisances to guru, the name should be there. We are strictly personalists. The sahajiya's, they write Glories to Guru. Why you are learning this impersonalism, who has taught you? Daily I am offering obeisances to my Guru by vibrating his real name, Srila Bhaktisiddhanta Sarasvati, otherwise it is impersonal.

Formerly, I told that Calcutta should support Mayapur. So whoever can take charge of both, he should be President. You should discuss these things amongst yourselves. Simply taking title of President will not help. Why there are no letters from Tamala Krishna, why he is not taking active part in Mayapur? I originally entrusted him with responsibility for Mayapur, but he does not even write what is the situation there, nor does he co-sign for money to be sent.

Whether you can deal with so many problems? I am receiving so many letters daily from Calcutta. The temple officers are appointed to minimize my time, not increase it with so many letters. Best to stop expanding, or if you cannot raise funds there, close up the Calcutta center. It is not that the officers should be expert in one field only, they should be expert in everything.

I have written one letter to Syamasundara. Mallik, and I am glad that the preparations are going on nicely for the Rathayatra Festival in Calcutta.

Hoping this meets you in good health.

My dear Gurudasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 9, 1972, wherein you have told me the water from the well is sweet. That is very good news. Now erect one large tank, similar to the one in front of Vrindaban station. Pump the water into the tank and store it. Water in Vrindaban, if it is sweet, it is very digestive, and simply by drinking water one becomes healthy. So far the sign is concerned, you can call our place the ISKCON Krsna-Balarama Temple.

Regarding the Cox and Kings proposal, that is very nice. I have no idea about Haridwar and Hrshikesa. I think Acyutananda was there, along with Harivilasa. But our point is that the tourists may concentrate in Vrindaban with us, live with us, and learn from us the spiritual life. What is the use of wandering here and there, simply seeing this and that and going home? Our main business is to teach them Krishna Consciousness. Yesterday I have met with George Harrison and his wife in their place at Henley, and they are both very much favorable. They want to stay with us for some time at Radha-Damodara Temple this winter sometime, I will tell you when.

Hoping this will meet you in good health.

My dear Hanuman,

Please accept my blessings. I am in due receipt of your letter from San Salvador dated June 28, 1972, and I am very pleased to note your progress by marching through the central America. It appears this part of the world is very, very sympathetic with our movement, so you may supply Karandhara with all the news reports and request him to send men to open centers. This travelling and preaching is very much appreciated by me and factually it is really Lord Caitanya's sankirtana movement. So you and your assistants have got my all blessings and encouragement, now go on with complete confidence and always praying for the protection and mercy of Lord Krishna, and there will be no impediments, rest assured.

If you require books in Spanish language, you may request Karandhara and Citsukhananda and they shall ship to you wherever you like, but this distribution of books, combined with preaching, is the best process for spreading Krishna Consciousness, so always there must be books.

Hoping this meets you in very good health and happy mood.

My dear Karandhara,

Please accept my blessings. I am in due receipt of your letter dated July 9, 1972, along with letters to temple presidents, which I have signed and duly posted. I am glad to hear that the owner has accepted our bid of $63,500 cash, and I shall be returning to U.S.A. before the end of 50 days to settle the matter. I have promised Brahmananda to be in Nairobi up to August 27th. If the deadline for payment is August 30th, that leaves very little time. Shall my presence be required to sell the FNMA bonds and make other arrangements? What do you suggest?

So far Dayananda, I have no objection if the grhasthas live outside and earn money, but I do not want them to leave. The strict temple procedure is only for those who live in the temple. Grhasthas should live outside, and they cannot follow strictly everything, but why they should give up altogether their devotional procedures? So many big stalwart devotees are leaving, why is this? Advaita, Uddhava, Krsna das, and now our Dayananda and Nandarani. I have sent them each one letter, so if you find them, you may deliver them my letters. This is not at all good if our big devotees fall down so easily and go away. Try to save them.

My dear Rsabhadeva,

Please accept my blessings. I beg to acknowledge your letter from Berkeley dated nil, and I am very much pleased to learn that you are trying to find out some place where I can give two or three times a week lecture-class to university students in the philosophy of Krishna Consciousness or Bhagavata Dharma. But one thing is, the sannyasi has no such thing as teaching credentials or "academic vitae." So they can simply decide on the basis of my books and teachings. But I am not an ordinary teacher, I can do it only if I am a guest lecturer. Otherwise they will not take me very seriously. But I should be honored as a guest lecturer and paid well, as well as they should give me a nice house, not very big, but nice. And I will speak twice or thrice in a week to as many students who will come, intelligent boys and girls, and they will get regular instruction in our Vedic knowledge as it is.

I have heard from Bhakti das that that University in San Diego where I spoke is willing to have me there, so unless you are able to arrange something there at Berkeley or San Francisco, I shall probably teach at San Diego. Accredited or not accredited, it doesn't matter, I simply want to present this great philosophy to serious students who will understand it and deliver the world from the present-day ignorance of misinformation, so if you can help me in this way I shall very much appreciate.

Hoping this will meet you in good health.

My dear Acyutananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 7, 1972, and I have noted the contents carefully. Regarding the songs by Jayadeva, "Srita Kamala" is not approved. Sometimes our Krsnadasa Babaji sings, but it is not approved by Prabhupada. Those songs are for siddha bhaktas, not for us who are sadha bhaktas or learning bhaktas. Lord Caitanya never divulged in public, he enjoyed them in the company of his selected three or four devotees. There is one song by Jayadeva, "Worshiping the Ten Incarnations," that song is all right.

The other songs that you mention are all right. Regarding the manuscripts, you may photograph all of the pages, then we shall type them later. If there is shortage of film, I have instructed Karandhara to send you a large supply of the appropriate films for photographing the pages. Or you may purchase there and we shall pay from Book Fund. These are important works and they must be preserved forever, so what is that expense?

My dear Karandhara,

Please accept my blessings. I am in due receipt of your letter dated 7/13/72, and I have noted the contents. I have already sent you one telegram ”OK SEND KRSNA BOOKS,” so by now I think you have duly forwarded the $10,000 as per Bhavananda’s instructions. From now on, I am insisting there be at least two signatures.

I do not understand all of the points about purchasing the apartment house, whether I shall be required to sign anything or what. So you may explain in detail what is to be done. As for the payment, we shall not need to cash the bonds, we can manage in other ways to pay the $63,500. I understand that we must pay the full amount cash by August 25, 1972.

As for Dayananda, I am enclosing the letter to him, so you may kindly forward to him. We have celebrated a very, very nice Rathayatra festival here in London, and in the Trafalgar Square itself I initiated nearly 30 new devotees with fire yajna before 25,000 persons, mostly Englishmen. All in all, it was the best Rathayatra we have seen to date. I have not heard anything from you about Rathayatra in San Francisco.

My dear Navina,

Please accept my blessings. I am in due receipt of your letter dated nil, and I have noted the contents. Regarding your question, what is the position of the women in Krishna Consciousness Movement, we are not responsible for marriages. If you want to get married at your own risk, that is all right, you can get married by the state service and the husband must take full responsibility for living outside the temple and earning money for supporting wife and children. If you have a child and you are not married, still, having child is the same as being married, so there is no more marriage. Marriage is not for sense gratification, not that we get married twice, thrice in a year. No, if you have got a child there is no need for more marriages. But if you cannot stay in Krishna Consciousness unless you have got a husband, that is all right, but the responsibility is not ours for your maintenance or other things, so if want to get married both you and your husband must make your own arrangements.

I beg to inform you that I am purchasing one house at Venice Boulevard and I have to pay $63,500 on or before the 25th August, 1972. Kindly therefore transfer $20,000 to my checking account in the Bank of America branch #308 in favor of my account #3081-61625. The fixed deposit receipt is laying in the safe deposit box #361 in your bank. If it is necessary to present this document then I shall instruct my representative in Los Angeles to go to you with the key and he will deliver the receipt.

Thanking you,

Yours faithfully, A.C. Bhaktivedanta Swami

Paris 21 July, 1972

My dear Govardhan,

Please accept my blessings. Upon the recommendation of Sriman Bhagavan das, I have consented to accept as my duly initiated disciples both Srimati Jayaradhe Devi Dasi and Srimati Krsnamayi Devi Dasi, and I have also consented to give Gayatri mantra to Srimati Trisakti Devi Dasi and Srimati Krpamayi Devi Dasi. Enclosed please find two copies of gayatri mantra. The beads have been sent under separate post. Now you can hold a fire yajna for all four students, and give Gayatri mantra to Trisakti and Krpamayi. There is a tape of me reciting gayatri mantra there in Detroit, so you can play it for these two girls, through earphones into the right ear.

Hoping this will meet you in good health.

Vrndavana

My dear Gurudasa,

Please accept my blessings. I have recently received several letters from the others there in Vrndavana, wherein they have mentioned there may be some illicit relationship between Devananda Swami and your wife, Yamuna devi. I want to know if there is any substance to this claim, you may be frank and honest with me as much as possible because I am very much in anxiety on this account. Therefore I have asked Devananda to leave India for working as pujari in Nairobi. Also enclosed please find the copy of one letter from the accountant there in Vrndavana. The report is not very good, so you please give me your side of the situation and explain these things.

Hoping this meets you in good health.

My Dear Acyutananda,

Please accept my blessings. I am in due receipt of your letter dated June 16, 1972, along with two tapes and one book. The book contains some derogatory remarks about my Guru Maharaja, therefore we shall having nothing to do with printing it. In fact, since Lalita Prasad Thakura has not fulfilled his promise to give us that Birnagar land for our ISKCON center, so we shall not have any more to do with printing any books by Bhaktivinode Thakura or anyone. Try to induce him to fulfill his promise, otherwise we want nothing more to do with the whole business.

My Dear Jayapataka,

Please accept my blessings. I am in due receipt of your letter dated July 10, 1972, and I have noted the contents with great pleasure. I am very glad to hear that the building work is going on with full speed, including both day and night shifts of workers. Do not worry, I am sending you two first-class men from England, both of them have got good experience in engineering and building work. They are named Smarahari das and _. They shall be arriving very soon in India, and you can train them to help you there full-time. Besides, you may ask Giriraja if Saurabha das can come from Bombay from time to time to assist you there and see how the things are going on. He is experienced man.

Regarding Gitar Gan, do it conveniently. Regarding Lalita Prasad Thakura, as I have advised Acyutananda above, unless he keeps his promise than we are not interested to publish any of Bhaktivinode Thakura's books. That animosity against Guru Maharaja is going on, so we shall have nothing to do with it.

Hoping this will meet you in good health.

Sri Jogeswar Chowdhury Chittagong, Bangladesh

My dear Sri Jogeswar Chowdhury,

Please accept my blessings. I have seen your letter addressed to the Secretary of our London branch, and I am very much pleased to note that you have somehow or other seen one copy of our "Back to Godhead" magazine and that you wish a copy of our Teachings of Lord Caitanya. I have instructed the secretary here in London to forward you one copy immediately by ordinary mail, gratis. I am glad to inform you that a party of my disciples will be coming to Bangladesh soon for spreading the message of Lord Caitanya there. They will be stationed at Jessore, but will travel wherever they are invited and hold Sankirtana. So if you are very much eager to receive them, about six or eight of my foreign American and European disciples, you can invite them to Chittagong and they shall be happy to stay with you there and hold programs of kirtana and preaching.

Kindly do the needful and make all arrangements among the prominent Vaisnava citizens in Chittagong for programs and for the board and keep for the Hare Krishna party, and meanwhile I am forwarding a copy of your letter to the leader, Sriman Tamala Krishna das Goswami, and you may write to him also, c/o ISKCON World Headquarters, P.O. Letter to: Giriraja

-

Paris 22 July, 1972

72-07-22

My Dear Giriraja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 14, 1972, and I have noted the contents carefully. I am especially pleased to hear that everything is going on nicely in Bombay, and that you are sending a party of men to live in Bombay city for collecting there. That is a nice plan. Yes, the men may be rotated from time to time. And if all the others also go sometimes to nearby neighborhoods for preaching and distributing books, that is also good proposal. I am also glad to hear the deities will soon have a first-class house, and you will keep their nice jewels, etc., in a heavy iron safe.

So far my writings, avoid publishing them in hodge-podge journals. These so-called Hindus are generally impersonalists, and we do not want to have anything to do with them. Better we stick to our own standard, and eventually they will all come to us for learning what is God. You can try the daily newspapers. If Times of India, Navbharat, if some of these daily papers agree, I can send regularly one sloka from Bhagavad-gita, whatever is in the book plus further elaboration.

That is a good plan, if Saurabha can find someone who will finance our Juhu project. But you must be very careful in this regard, and do not make any final agreements without consulting me in the matter.

Regarding the plan by the Life Member to build one temple in Kashmir, yes, we are interested to help by managing it, and immediately we can send 25 members there. So you can submit our plan and he can build it accordingly.

Regarding Gujarati BTG, you can do as you see fit, either reprint the same issue, or print a new issue utilizing the Bengali blocks.

One thing is, you have mentioned Bhavananda will require four more lakhs for Mayapur. But he told me four lakhs total, and of that I have sent 2 1/2 lakhs, so he shall require further only 1 3/4 lakhs. That must come from selling books. The books are coming at no cost to you, you simply sell them and utilize the entire money for building for Bombay, Vrindaban, and Mayapur. That will be the real task ahead, to sell many, many books all over India and use all the money for building. Why do you see any difficulty? Yes, try for getting free manure from some gosala.

Hoping this will meet you in good health.

My dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 15, 1972, and I have noted the contents. I am very much pleased to hear that everything is going on nicely in Canada, especially that your travelling party is having good success. Yes, that is the right idea, to strengthen whatever devotees we have got in spiritual life, fix them beyond any doubts. Then our potency will increase and we may recruit dozens of new devotees easily. Main thing is to make sure everyone is chanting minimum sixteen rounds daily of Hare Krishna Mantra. Otherwise they will not be able to perform the other practices of brahminical life, such as early rising, cleanliness, etc.

Hoping this will meet you in good health.

My dear Suniti,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 13, 1972, describing the condition of your husband, Jaya Gopala das. Whatever happens we must take it as the special mercy shown by Krsna to his devotee. Yes, the reading of Krsna Book and chanting at his bedside must go on. I am offering prayers to Krsna that He may protect Jaya Gopala, who is such sincere devotee. Now you and your godbrothers and godsisters also continue to offer prayers and chant always the Hare Krsna Mantra for him, and this will save him under any conditions.

Hoping this will meet him in improved condition of health.

Letter to: Jayadeva

-

Paris 23 July, 1972

72-07-23

My Dear Jayadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 1, 1972, and I have noted the contents. Krishna's plan becomes very easy for us when we follow Krishna's orders, otherwise, we are following Maya's plan and become frustrated at every step. Following Krishna's orders means chanting daily 16 rounds, following the four rules and regulations, rising early, associating with devotees, like that. Unless these principles are followed, we cannot expect Krishna's protection.

Regarding householder life, I have no objection, this is not my responsibility. Henceforth my students must take the responsibility for their own householder life, get married outside the temple, take all risk for supporting wife and home, live outside the temple, like that. But they should live nearby and take part as much as possible in temple activities, such as mangala aratrik, sankirtana, etc. Living separately does not mean that we have nothing more to do with the devotees, no. You should associate with them as much as possible, and donate something regularly, 50% is the standard set by Sanatana Goswami. Keep your position, that's all right, but utilize it to make spiritual progress, that is the real think, not for satisfying my hankerings and desires.

Hoping this meets you in good health.

Letter to: Sankarasana

-

Paris 23 July, 1972

72-07-23

New York

My dear Sankarasana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated nil, and I have noted the contents. It is very good that you want to become very learned in Krishna Consciousness, but what good is so much knowledge without practice? Obedience must be there, so by being submissive in this way and following the direction of the temple leaders is practicing the knowledge of Krishna Consciousness. Disciple means discipline. Without discipline there cannot be any spiritual progress. Therefore our system is to follow the authority or our superiors, no that we can independently question, not this is right and this is wrong. That is not the way.

So my best advice to you is that without questioning you follow the instructions given to you by Visnujana and other leaders, and do exactly as they say, then everything will be all right. If you want to study, there is much time in the day for studying, but you must go also on Sankirtana party, that is the result or practice of your studying. Simply studying is dry and useless without chanting.

Hoping this meets you in good health.

Letter to: Satsvarupa

Paris 25 July, 1972

72-07-25

Detroit

My dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 17, 1972, and I have noted the contents carefully. I am very happy to hear that the things are going on very nicely, especially at Gurukula. I have heard from Bhagavan dasa that you want to move the deities from Detroit. That is not a very good proposal. In general, deities are never removed from one place to another simply for show. Once the deity is installed in India, it can never be removed under any circumstances, even they must build the highway around it. But in our case we may sometimes have to change houses, so we may once have to move the deity from one house to another, but we shall not move them from one city to another just for our own convenience. We are always thinking these kind of changes, why is that? I simply want things to be developed which we have got, not to make so many big big plans and changing all the time, that is not very practical.

Regarding your questions about children at Gurukula, above ten years old they can be initiated first time, and after one year of perfectly chanting 16 rounds and observing the other regulative principles, they may receive second initiation. The Bhagavata class should go on, just as I have shown you, with everyone attending, including the children. Read the Sanskrit sloka all together, word meanings, translation, purport and give elucidation on all points. The children should be doing the same thing we are doing, plus giving them the playing facility, a little ABC, history, mathematics, geography, like that. They should not help in cooking, nor should they take part in any hard work, they must study. After initiation, then they can learn cooking. They should not be utilized for giving service to the elderly members, they should be given chance for reading and writing. So far marriage is concerned, they must be legally married.

Hoping this meets you in good health.

Letter to: Sri Joshiji

-

Paris 25 July, 1972

72-07-25

My Dear Sri Joshiji,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 15, 1972, and I have noted the contents with great interest. From London now I am staying in Paris, and from here I shall go to Amsterdam and then to Edinburgh, again to London, and from there I shall go to Nairobi for installing Radha-Krishna deities in our own temple there. Your letter under reply gives me great pleasure when I understand from your childhood you are a great devotee of Lord Krishna, and now in your old age you are still anxious to preach the doctrine of Lord Krishna, namely, to surrender to the Supreme Personality of Godhead.

Actually, the whole world requires to understand the Bhagavad-gita As It Is. Although the Bhagavad-gita is a very popular book, widely read all over the world, unfortunately unscrupulous sannyasis and yogis presented the gospel in a perverted way so that people could not come to become a devotee of Krishna, instead they have become impersonalists. This infectious disease is spread in India, especially by the Mayavadis sannyasis and philosophers, therefore we have got greater task in India then in the western countries. In the western countries they have lost practically any religious system, and Christianity is declining. I was in London and practically I saw hundreds and thousands of churches are for sale because nobody is going there. The same position is in America also, but still a section of persons there are interested in church. But in Europe especially I see they have lost all respect for religious life. The same thing is there in India also. I therefore suggest that when you return to India next time, that you take sannyasa in your ripe old age without any family responsibility, and let us together do something tangible in India. In 1970 I went to Amritsar, invited by Swami Nirmalananda, and I saw the people of Amritsar are greatly devoted. We were invited by many temples and private persons, and we were made very much welcome, and somebody wanted to give me some land also. Anyway land is not very difficult to gain, but we require some men to work for this great mission. The educated younger sections are required to join this great movement.

We have already got our land in Bombay, in Vrindaban, as well as in Navadvipa. Gradually, we can open a centre in each and every important city of India. I shall request you to think over this proposition very seriously and make some tangible program, then when you return to India in October, by that time I shall be there also, and jointly we can do something tangible in India also. I shall be very glad to hear from you your reaction on this proposition. Thank you very much.

Austin, Texas

My dear Prahladananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 7/13/72, and I have noted the contents with great pleasure. I am so glad to hear that the things in Austin center are going on very nicely, never mind there are not many devotees there. Our program is to enlist the men with quality for serving Krishna, not for attracting the masses for simply watching and going away. As long as the classes are going on well, the rules and regulations are being observed sincerely, the sankirtana party is going out with enthusiastic mood-if these things are going on, then everything is first-class. You are engaged in Krishna's preaching work, therefore you are being specially favored by Krishna, just like the fighting soldier is receiving all special care by the government so that he will not be lacking anything, even the citizens at home may be deprived of all comforts. So you may know it for certain that Krishna will give you all facility to improve in every way, according to the sincerity of your attempt to spread Krishna Consciousness in the battlefield of preaching work.

Upon your recommendation I am glad to accept Dorian as my duly initiated disciple. I am sending his beads, duly chanted by me, under separate post. His new spiritual name shall be Dharmabhavana das Brahmacari. His letter follows.

Hoping this will meet you in good health.

My dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 19, 1972. One thing is, I have just received on July 25, 1972, the following telegram from Mohanananda; "Obeisances I am not offended mismanaging book fund Madhudvisa Swami is responsible why must I receive blame against my wishes." I do not know what is the meaning of this telegram, therefore kindly send me the full explanation. It does not sound well that there is quarreling.

I am very glad to hear that there has been a very nice Rathayatra Festival in Melbourne, and that despite all obstacles many people joined and it was very successful. Similarly, in London we have already celebrated a very successful Rathayatra procession, and many thousands of persons joined in marching from Marble Arch to Trafalgar Square, and in Trafalgar Square I initiated nearly 30 new disciples and we had fire yajna and many, many thousands of persons observed it, mostly Englishmen.

Regarding the dramas, my point is not to deviate from gravity and compromise or distract from the situation. Keep this point in vision and continue. That is a very good proposal to stage one play based upon Lord Caitanya. Read TLC on the stage, just like Caitanya Mahaprabhu is giving instruction to Sanatana Goswami, and the actors may speak little philosophy, without need for special costumes or other things. Then kirtana. There must be always kirtana. Dialogue, kirtana; then again dialogue, again kirtana; again repeat; like that. No humor should be there, just philosophy and kirtana. If it is successful, then the same dialogue-kirtana may be followed by other sankirtana parties in Europe and America.

All blessings of Krishna upon you. You have done so nicely. Keep always in your vision that our movement is so great and keep gravity. You are experienced devotee. I can see things are going nicely. Hoping this will meet you in good health.

My dear Acyutananda,

Please accept my blessings. I am in due receipt of your letter dated July 18, 1972, and I have noted the contents. One thing is, Sriman Lalita Prasad Thakura has not fulfilled his promise to give us that place in Birnagar for our ISKCON Temple. So I don't want you to mix with him further. I have just got one letter from Acarya das, wherein he requests to live with Lalita Prasad Thakura for taking instruction from him. I do not like this idea, I don't know where these ideas are coming from. No one should go there any more. Let Yadubara take his photos as he has taken so much trouble and they may be valuable for the future, but besides Yadubara no one else should go there, and Acarya das should not go there either.

Regarding your going to Vrindaban to assist Gurudasa, yes, if you like you can go. I have no objection. One thing is, I have got many tapes of my speaking in Bengali language, and if you and Satchidananda can co-operatively transcribe them for printing there? I do not want to send them to you unless I have got assurance from you that they will be done under your supervision. But if you are going to Vrindaban that will be a good opportunity to sit down and transcribe my Bengali tapes because there is Bengali typewriter in Vrindaban. You may also translate other things as you have mentioned, that is nice.

I have received the tapes but have not had time to hear them yet, but I have not received the song books, they may be in New York.

Hoping this will meet you in good health.

. . . But one thing is, we are observing here in Europe many, many hippies have become so disgusted with material life but they are also now so much degraded that they will not hear our philosophy, simply mocking. So our devotees may become very much learned to remove their doubts and become very much fixed up in Krishna Consciousness, but so far preaching to the general public, especially the hippie class, it is better not to preach very much philosophy, just somehow or other get them to chant Hare Krishna mantra, and if some of them are curious to learn something they may purchase one of our books. Only if they chant with us, that will help them.

. . . Sannyasi must be independent and not rely upon temples to pay his expensive travelling costs, simply he must take Krishna's mercy whenever and wherever it is offered.

My dear Sudama,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 17, 1972, and I have noted the contents. I am very glad to hear from you after such long time that things are going on nicely in Tokyo, that you are registering the Society there, getting a new place in central location, and selling many books and magazines. I have seen the Japanese "Easy Journey" and it is very nice. Yes, the Life Membership program should be started up as soon as possible, and you can enroll so many of the Indians living in Japan for giving financial and other assistance.

Regarding printing Bhagavad-gita in Japanese language, first you get it translated and ready for printing, then we shall do the needful. Now that Kaushika is there, keep him nicely and engage him as he likes, he has got good experience.

Regarding your question, all should offer due respect to a Sannyasi. His position is always superior to all other inmates of the temple. He must always maintain that superior position by action & behavior.

Hoping this will meet you in good health.

My dear Arundhati,

Please accept my blessings. I am in due receipt of your letter dated July 19, 1972, and I am simply surprised that you want to give up your child to some other persons, even they are also devotees. For you, child-worship is more important than deity-worship. If you cannot spend time with him, then stop the duties of pujari. At least you must take good care of your son until he is four years old, and if after that time you are unable any more to take care of him then I shall take care. These children are given to us by Krishna, they are Vaisnavas and we must be very careful to protect them. These are not ordinary children, they are Vaikuntha children, and we are very fortunate we can give them chance to advance further in Krishna Consciousness. That is very great responsibility, do not neglect it or be confused. Your duty is very clear.

My Dear Giriraja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 19, 1972, and I have noted the contents. So far the Board of Trustees, you can add some men in Calcutta, Delhi-I think all of the big men in Calcutta are known to you, Birla, Bajoria, etc. It is nice that Mr. Nair is on the committee.. He can keep the equitable mortgage, I have no objection. He can simply give us receipt, that's all. One thing is, we have sent you transfer for Rs. 70,000 and Rs. 29,000, so this has to be returned as far as possible.

I have got one letter from Gargamuni wherein he complains he is not getting cooperation from Bombay for his travelling party. He is doing very well, I am very much in favor that his work shall not be hindered, so kindly extend to him every facility, any small thing he requires you supply. And I have advised him also to please work nicely with you and let whatever is done be finished and go on progressively in a cooperative manner.

So far the school of Sumati Morarji, make the children into Vaisnavas through English medium of learning. We are not going to abide by the government schedule. They should be taught our books as soon as they can read and write. The idea is that those who will later on accept service, they cannot be accepted by us for schooling, we cannot help them. They must be the sons of rich and important men who will not be taking education simply to use it for eating and sleeping. They should be taught just to do like the elders, that is, rise early, cleanse, attend mangal arati, read our literatures, chant, go for sankirtana, like that, and besides that, a little ABC, mathematics, geography, history, that's all. And teach the small children to play Krishna games: one child is a cow, another is cowherd boy, they go to the forest, there are demons there, Krishna kills the demons, like that; in this way, let the children play Krishna games, then attend arati, then learn some ABC, then play some more, have kirtana, little ABC, and by keeping them always diversified they shall not lose interest and will keep their attention always focused around Krishna.

Hoping this will meet you in good health.

Mayapur

My dear Jayapataka,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 22, 1972, and I am very happy to hear the things are going nicely in Mayapur. I do not hear very often what is going on there, but from your description I can understand that it must be very nice there now in this monsoon season. I have not heard from Tamala Krishna at all in this connection, so I do not know if he is still taking part in the Mayapur work or what.

If you make it a first-class temple, there will be no lack of visitors for preaching, you will never even have to leave that place for preaching. And if you serve nice prasadam, the whole of India will come. So stick to our principles very rigidly, and everyone will come to see these American Vaisnavas. I want that we shall excel the Caitanya Math. They have been struggling for the last 50 years, and we shall surpass them in two years. We are working two shifts of labor: that is American style of doing things. I am very pleased if you can continue in this manner of American style. But if you do not, then I shall remain on the same level, then it is a great discredit to the Americans. But if I defeat my godbrothers, then I am worthy to be called the guru of the Americans. Even there is competition in spiritual life.

Regarding funds, we are supplying for building purposes from here, but if there is emergency, then Giriraja can help. But for the present we are sending whenever you have requested. But your form of requesting has not been as we had arranged, therefore there has been delay. I told you at least two must sign, but in the last request from Bhavananda, even he did not sign, the letter was not even signed by one person! Try to be very careful in these matters at all times, we are doing very responsible work. And so far the maintenance, Calcutta is taking care, so there is no problem. Yes, you are correct, all membership and book collections shall be sent to Bombay, donations for maintenance may be kept there and spent locally, unless they are very sizeable, then they can go to Bombay.

Very soon you will be receiving many, many books. I shall instruct Giriraja to send you as many books as you shall require for selling there for raising fund for Mayapur project. I do not wish to send more funds from here, but we shall send you free of charge many books and the whole money collected from them may be spent in building.

I am glad to hear that you are purchasing more land for expanding. What about our former land purchased from some Ghose that is on the left side of our land? From so many wonderful varieties of vegetables, you will get very soon full of vitamins. Keep a cow, then there will be no question of scarcity or relying upon somebody else for your maintenance. Now you have got a big hall on first floor, so keep rice stock there to protect from floods.

I think the whole atmosphere in Mayapur must be now very, very nice and I shall be so much glad to return there sometimes in the month of September, so kindly finish up the work by that time. Malati has expressed desire to decorate my quarters there, so as soon as they are ready she may come there and prepare everything very nicely.

Hoping this will meet you in good health.

My dear Batu Gopala,

Please accept my blessings. I am in due receipt of your letter dated June 24, 1972 and I have noted the contents. I have turned the matter of your temple management over to Sriman Bhagavan Das in Paris, as he has some knowledge of the situation there. All these questions should be directed to the GBC members, as my desire is to simply translate, and leave the management matters for them to decide. Anyway, you can correspond with him in this matter, and he can advise you.

Upon your recommendation, I have gladly consented to accept Elaine as my duly initiated disciple, and to give sacred thread to Audolomy. Enclosed please find one letter to Elaine, and one sacred thread for Audolomy. Her beads are being sent by separate post. Now you can hold a fire yajna for both of them, and give gayatri mantra to Audolomy. Show him to count on the finger divisions, and have him listen to the tape of me reciting gayatri mantra, repeating each vibration as I say it. You can get this tape from Bali Mardan Goswami in New York. Then hang the sacred thread over his shoulder in the proper fashion. One thing is that the tape should be heard through earphones into the right ear, and the function should be held amongst the devotees only.

Hoping this will meet you in good health. Please offer my blessings to all the others there.

Calcutta

My dear Bhavananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 24, 1972 and I have noted the contents carefully. I am so much pleased that your Rathayatra procession was so nicely received by the citizens of Calcutta. This news has engladdened me beyond words. Now take advantage for raising funds for Mayapur. Therefore I wanted this Rathayatra festival. I am enclosing some photos of our Rathayatra procession in other places and you can distribute these photos to the newspapers in Calcutta. In one day we have captured the citizens of Calcutta, and I am so much pleased.

Yes, the Mullick family is one of the most important and aristocratic families in Calcutta. Practically once Calcutta was owned by the Mullicks, now the Marwaris are there. So you have done the perfect job of conducting the affairs in Calcutta and I am so much pleased upon you, may Krishna give you His all blessings. I had not written to you previously due to my extensive travelling program since the beginning of June. But I have written you one letter dated July 14, 1972, did you receive that letter?

One thing is, I have just now heard from Gurudasa that the American Government agency which is providing us the foodstuffs for Mayapur is prepared to give us much, much more provided we fully utilize what they have already given. And I am informed by Gurudasa that the distribution program in Mayapur is not very widespread. Why you have neglected this very important program? I want that you shall distribute prasadam at least to hundreds of persons daily, and advertise very widely all over Nadia Province for people to come there and take prasadam daily without charge. Otherwise the whole thing is a farce. We have worked so hard for so long to get this foodstuff donated by your government and now we are neglecting? And if you expand this program to their satisfaction, they will give so much more of different varieties of foodstuffs and we can expand this program widely throughout India and become very much popular with the people as a whole. So try to expand this program as much as possible at Mayapur and let me know.

Another thing is, I have received one letter from Tamala Krsna Goswami that his visa for Bangladesh is now postponed, therefore I would request him to take one qualified engineer friend from Calcutta, there are so many engineers we have interviewed who will work for us without charge, so he shall bring one engineer to Vrindaban to assist Gurudasa in construction of the house there. At least he can remain in Vrindaban for a few weeks to get the thing off on a solid basis. They have been there many months now and only one fence is there, one small hut, and one tube well. Otherwise, simply politics. But I am very much certain that Tamala Krsna has got the right idea for doing things, so he can go there immediately and begin the real construction work with the assistance of one qualified engineer who will live with us on the same basis as we are doing things at Mayapur.

We have seen your note regarding Sarasvati Maharaja, and you may engage one Sanskrit teacher for Sarasvati so she shall become a very great scholar, just like Jiva Goswami was trained in Sanskrit language from early childhood and no one could surpass him in all of India.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/sda n.b. I am coming to India sometime in the month of October and I want to again hold Bhagavata Dharma Discourses and Hare Krishna Festival in Calcutta Maidan, I think by the last part of October. So you can begin preparing for that, and I shall be very glad to come there for speaking.

My dear Cyavana,

Please accept my blessings. I beg to acknowledge receipt of your letter from Calcutta dated July 24, 1972 wherein you inform that you have obtained visas to travel to China, Vietnam, Korea, and other places in the far east. That is a very nice proposal. You can join our Sudama Vipra Swami in Manila and give him good assistance there and in other places like Hong Kong. Kindly keep me informed how you are getting on by your travelling and preaching work.

Letter to: Gurudasa

London 1 August, 1972

72-08-01

Vrindaban

My dear Gurudasa,

Please accept my blessings. I am in due receipt of your letter dated July 26, 1972 and I have noted the contents carefully. You mention that Ananda Prabhu has left us, why he has left? I am very glad to hear that things are going alright in Vrindaban and that the students are happy there. One thing is, I am very engladdened to hear that you are planning the second annual Delhi pandal festival for sometimes in November. I think it will be the best plan to do as we did last year, that is, I shall go to Calcutta first for holding one pandal festival in the last part of October, then I shall come to Delhi for the Delhi pandal program. Is that all right? Better we hold our annual ceremony as near the Connaught Circus as possible, as we did last year. Do not try so much or work for the land which was so-called given to us by the Delhi Government. We have got so many other things to develop. So if you arrange everything very nicely for the pandal festival in November, I shall be very happy to come there as before.

Regarding the visa problem in Vrindaban, if you always remain very careful with the authorities there, then we shall have no problems in the future. But if there is even one incident or scandalous rumor, that may ruin everything. Another thing is, I do not know what is your final plan for the Vrindaban scheme, whether you have chosen Mr. Suri's plan, or whether Saurabha's plan. I understand from Ksirodakasayi that we must submit detailed plans to the municipal authorities in Vrindaban, so kindly arrange for that as quickly as possible so that we may get the permission. But first you should send me one copy of the final plan as selected by you.

I have heard that Kenneth Keating has returned to your country, so why not take opportunity for requesting him to help us? If you can find out his address. I have informed Bhavananda and Tamala Krsna Goswami that they must try to increase the distribution of prasadam program in Mayapur, otherwise, as you have told me, the authorities of your country may revoke their foodstuff donation.

Regarding Ksirodakasayi's statement that only Indian's have access to becoming pure devotees, I never said or supported such thing. That is not our philosophy. Lord Caitanya made the statement that anyone who knows Krsna science, he can become a pure devotee. So far Ksirodakasayi returning to Vrindaban, that has not yet been settled up. After I have discussed this matter thoroughly with Ksirodakasayi, I will let you know. But one thing is, why there should be disagreement between you? Our process is to work cooperatively, otherwise how the things will go on? And whether Acyutananda will stick there? If you and Acyutananda can manage, then there is no need of Ksirodakasayi coming there. The water with slightly iron taste is not bad, so you may construct the tank as before decided. One thing is, the 2 1/2% interest to be charged by the architect, Mr. Suri, that is too much. Why he should not donate his services? Sometimes in the past months you have told me that Mr. Suri would be donating his services. We shall not pay fees for such things. Now in Vrindaban the financial situation is being conducted nicely by Gargamuni Maharaja, but the work is not going on. In so many months, there is only one fence one small hut, and a well. So I think it will be to the advantage, on the whole, to invite our Tamala Krsna Goswami to come to Vrindaban and bring one of his qualified engineer friends from Calcutta to do the work in Vrindaban. He has got good experience, and he can organize everything and begin the work immediately. His visa was denied for Bangladesh, and he has trained up Yasodanandana Maharaja to lead this sankirtana party, so practically he is free to come to Vrindaban for some weeks to begin the work there. What do you think?

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Karandhara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 27, 1972 and I have noted the contents carefully. You have paid the bank $6250.00 and the balance remains $57250.00. I can pay you $56000.00 by advising the Bank of America, and the balance of $1250.00 you can find, and the escrow will be fully paid. Regarding the corner property, for which you have offered $73500.00, that is a nice proposal, if the book trust can purchase the whole building outright as an investment and collect the rents as dividends.

I have just received the newscuttings from Calcutta, and the Rathayatra festival there was simply spectacular. In one day, we have captured the full attention of the Calcutta people and they are very much favorable. So in this way, if we perform many festivals in all of our centers around the world, many times during the year, then the general populous will become very much favorably inclined toward us and that will push on this sankirtana movement in the best way. Under separate post please find the copies of some important documents for your perusal.

Hoping this will meet you in good health.

Calcutta

My dear Tamala Krishna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 25, 1972 and with great pleasure I have noted the contents. It is of course regrettable that we are stopped for the time being from entering into Bangladesh for spreading our propaganda there. So for the time being, Bangladesh may be left aside. I am trying in a different way to help you in this respect, and I shall let you know. Meanwhile suspend trying to push something which is not possible. Now there is a very important job for you to do. I have just now understood from Gurudasa that practically no one is able to carry on the construction work at Vrindaban with good results. So many months they have been there but there is nothing tangible begun. Practically you are the best man for giving them a good start. Now the Bangladesh business is postponed, and you have trained Yasodanandana Maharaja in leading the sankirtana party, so you will be free for a few weeks to help me in this way by taking one qualified engineer from Calcutta who has agreed to work with us and live with us without consideration of remuneration and go to Vrindaban and do some solid work. Kindly do the needful immediately and let me know. Gargamuni has collected funds for Vrindaban project very nicely, so if cooperatively you and Gargamuni Maharaja work together you can do something concrete, and this will please me very much. He will supply you with funds and you supervise the building work. In the same way that you have begun everything at Mayapur, just bring along one engineer and see that he is doing everything properly. That will relieve me of so much anxiety, as I want to display something very wonderful in Vrindaban, but as yet there is nothing to show.

I am very, very much pleased to hear about the progress in Mayapur, and this working with one hundred men both day and night is the American style. If you do something wonderful at Mayapur that will be my credit and I can truly be called the guru of the Americans. But if you do not do anything there, then that will be a great discredit for me and I will not defeat my Godbrothers as I desire. So practically I am depending completely upon you in both these cases to finish up the Mayapur business in grand style and to get a good start in Vrindaban. That will be very much to your credit.

Hoping this will meet you in good health.

My dear Tulasi,

Please accept my blessings. I am in due receipt of your letter dated July 18, 1972 and I have noted the contents. I have received reports from all over the world; from Calcutta, San Francisco, Tokyo, Melbourne, Pittsburgh, and here in London also, that Rathayatra festival was a very great success, and this has very much engladdened me. So you have many festivals like this, and engage the public in Krishna consciousness as much as possible.

Upon your recommendation, I have consented to accept Jan, Becky and Tina as my duly initiated disciples, and also to give gayatri mantra to Pranaballavah, Mahasakti and Nandita Gokula. Enclosed please find a letter for those who are taking first initiation, and two sacred threads for Pranabalavah and Mahasakti. The beads are being sent by separate post. Now you can hold a fire yajna for all of them, and gayatri mantra to Pranaballavah, Mahasakti, and Nandita Gokula. Show them how to count on the finger divisions, and have them listen one by one to the tape of me reciting gayatri mantra, repeating each vibration as I say it. You can get this tape from Karandhara in Los Angeles. Then hang the sacred thread over each boy's shoulder in the proper fashion. My dear Aksayananda Swami,

Please accept my blessings. For some time now it has been my desire that our students in India shall have the advantage of one or two trucks or vans for spreading this Krsna consciousness movement there. I have just now got one letter from Gargamuni Maharaja, and he has had a very, very good success in Gujarat State by driving one van which he has borrowed for one month only. In that letter he has requested very urgently that one van be provided immediately from the European centers. So I wish that combinedly you may all pool your resources and purchase one nice van. Furthermore, a few men will be required to take that van by driving it to India. So I am placing this matter in the hands of Hamsaduta and he will do the needful. Now you all please cooperate with him as much as possible for procuring this dream of mine.

Hoping this will find you all in good health.

Portland

My dear Danavir,

Please accept my blessings. I am in due receipt of your letter from Portland, undated, and I have noted the contents, along with the very nice newspaper article. I am very happy to hear that the programs there are becoming more and more improved, and that you are enthusiastic to understand the Krishna philosophy and to preach very boldly. So far financial matters are concerned, these are also important, and we should not neglect them.

I sometimes remember that when I spoke in Portland there were many Christian people there, and they were very much favorable whenever we mentioned that we were also lovers of Christ. So you may preach in that way, that we are not canvassing for people to convert or criticize, we are canvassing people that they should simply utilize their time for loving God by engaging in his devotional service, either they are Christian, Catholic, Jew, whatever. We are after God, that's all, we are servants of God. So preach like this, very simply, and hold sankirtana widely all over the city, and distribute prasadam profusely, especially to the young people and the students, and everything will be increasingly successful more and more. We have observed in Amsterdam that there are many frustrated young people and they have become very much degraded in their way of life. They will not even listen to philosophy. So it is better to concentrate on the sankirtana and get them to chant with us. If they go on chanting, eventually they will become purified. And if someone wants to understand a little philosophy, he can purchase one of our books. We have got so many big, big books. So in this spirit carry on with great enthusiastic endeavor and this will please me very, very much.

Hoping this will meet you in good health.

Denver

My dear daughters,

Please accept my blessings. Upon the recommendation of Tulasi I have gladly consented to accept you as my duly initiated disciples. I have duly chanted your beads, and they have been dispatched by separate post. I have given you the spiritual names as follows:

Jan-Anuradha Devi Dasi

Becky-Bhaktilata Devi Dasi

Tina-Rama Tulasi Devi Dasi Now you please continue to strictly follow the regulative principles and rigidly observe the four principle restrictions, namely: no eating of meat, fish or eggs; no illicit sex life; no gambling; and no intoxication. And always without fail chant at least 16 rounds on your beads daily, and be happy.

If you stick to these principles with determination, you will be freed from all attachment to Maya, by Krishna's grace. The example is that when the sun is in the sky, then where is the question of darkness? Similarly, when Hare Krishna mantra is vibrating on your tongue, and you are hearing attentively, then your consciousness becomes clear, or Krishna consciousness, and there is no question of Maya or hazy consciousness. Just as when the darkness and the light come together, the darkness cannot remain before the light, so Maya cannot stay in the presence of Krishna. Always remember therefore to chant Hare Krishna, and that will save you in all circumstances without any doubt.

Hoping this will meet you in good health.

Vrindaban

My dear Gurudasa and Yamuna,

Please accept my blessings. I beg to acknowledge receipt of your letters dated July 30, 1972, along with letters from Satchidananda and Acyutananda, and I have noted the contents carefully. Do not be disturbed, now I understand everything. You and your husband live in Vrindaban permanently. I never took the accusations seriously because I did not believe it, therefore I enquired from you what is the situation. Now the matter is clear, so do not be disturbed.

Now your husband and wife develop the Vrindaban scheme. Long ago you wanted to go to Vrindaban, so I think you are perfectly meant to remain there and look after the things. But live carefully, it is India, we must live according to the time, place and circumstances, that is intelligence. On the whole, except with your husband, you should not mix with anyone very intimately, just like Indian ladies do.

So you may not be disturbed that Ksirodakasayi is coming back there, I shall ask him to remain here for developing London center. Today we are looking at a very nice place of 75 acres near London with Mr. George Harrison, who has found the place and wants to have our asrama there. He is coming to see me daily and he is a very nice boy and I like him very much. If we get this place, I shall make London my permanent world headquarters. Practically I am British by training, so I am also trying for dual Indian-British citizenship. I still remember that you both helped me very much by opening this London center, and it is the most important center in the world, so I am very much thankful always. Now go on and develop the Vrindaban centre with full enthusiasm and do not be discouraged by anything temporary setbacks but always work in the spirit of being completely dependent upon Krishna for everything. I shall be returning to India by October.

I shall remain in London through the month of August for holding Bhagavata Sapta discourses in various quarters of the city in Hindi and English languages. Temporarily, I have postponed the Nairobi program, so you may reply me here.

Hoping this will meet you both in good health.

My dear Bali-mardana,

Please accept my blessings. I am in due receipt of your latest letter, undated, along with two advance copies of Back to Godhead #46 and #47. I have handed over these copies to Mr. George Harrison who is enjoying them very much. Yesterday he has taken me to one 75-acre farm near London which he has found for our London asrama. If we take this place then I shall make London my world or European headquarters, and I am applying also for British residential status. I have cancelled the program temporarily in Nairobi for completing my business in London, so I shall remain here until the end of August, and then fly to New Vrindaban as scheduled.

I am very happy to understand from you that the printing work is going on prolifically, that is our first business, to print and distribute this Krsna knowledge very widely. I am expecting very soon the delivery of Bhagavad-gita As it Is* and you may dispatch many copies to England also. I am very happy to hear of your daily walk through that Brooklyn neighborhood with the deities. That is customary in India, and all of the neighbors come out and offer incense, garlands and other gifts for Radha and Krsna, so you may encourage your neighbors there to also make offerings and chant with us, and their lives will be very much improved.

Hoping this will find you in good health.

New Vrindaban

My dear Pusta Krsna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 30, 1972 and I have noted the contents carefully. Yes, that is the sannyasi business, to travel from center to center and instruct the devotees in spiritual life. That is a good program for you, to learn the books very thoroughly and practice the knowledge you are learning. Without practice of the knowledge, what good is the knowledge? But I do not think it is necessary for you to return to your university for taking further education. Your education is to be found in our books, the material education is finished. If you want to teach in universities and colleges, they must accept us on our high degree of Vedic learning, not on our so-called credentials. They must accept our system of scholarly learning from the spiritual master. So do not bother yourself anymore with this idea but go on learning from our own scriptural evidence how great is the supreme science. Your depth of understanding it will be the credentials, let them accept us on that basis. I shall be reaching New Vrindaban by the end of this month, and we shall discuss further.

Meanwhile, hoping this will meet you in good health.

Vrindaban

My dear Acyutananda,

Please accept my blessings. I beg to acknowledge receipt of your letter from Vrindaban dated July 29, 1972 and I have noted the contents carefully. Now you please remain there and jointly help Gurudasa and the other two Indian boys and hold as much as you can kirtana and discourses widely all over the Vrindaban village. Take help from Visvambhara Goswami and the other good Godbrothers and make our presence in Vrindaban very impressive and prestigious, and that will by the greatest service. That is my advice. Keep your prestige very nicely there in Vrindaban. Follow the principle of leading sankirtana party every day from Radha Damodara Mandir to our new place in Raman Reti. And wherever possible hold kirtana and speak in Bengali and English. If you are able to have such engagement from 6 A.M. to 10 P.M. daily, do that.

So far the program with Cox and Kings Travel Agency, take the help of Visvambhara Goswami and others and create this program very enthusiastically, I am very much in favor of it. One thing is, there has not been very much substantial concrete work done in the last few months in Vrindaban in the matter of our new building there. So I have asked Tamala Krishna Goswami to come there with one engineer and begin the work vigorously. Now you give him all assistance and help me get started on this great project immediately. I shall be coming to India sometimes in October and I expect to see some tangible progress there in Vrindaban. That is our real business. If we are there so many months and we cannot do anything, simply eat and sleep and fight amongst ourselves, then where is our credit? Our credit will be when the people see our nice building rising daily, just like in Mayapur, with 100 men working day and night. That is the American style. If you want to honor me, you will do like this and then I can truly be called the guru of the Americans. Otherwise, it is simply a dishonor to me.

So far Yamuna is concerned, I never doubted once her impeccable character, simply I wanted to find out the actual position. There is a saying in Bengali, that whenever there is scandalous talk, there is something to it, so we must be careful always to avoid even what may be mistaken by others for scandalous situation. You know how the things are taken in India so be yourself very careful to always avoid these things and instruct others how to do it also. I am forwarding your reply to Lalitananda Bon Maharaja to ISKCON Press in New York for publishing in our BTG.

Hoping this meets you in good health.

My dear Niranjana,

Please accept my blessings. I beg to acknowledge receipt of your letter from Bhilai dated July 7, 1972 and I have noted the contents carefully. I am sending the letter to Varanasi as you indicate that you will be leaving Bhilai by August 4. It appears that the working on the committee. will be too much difficult for you, so it will be better if you can serve Krishna by translating into Hindi language. Ksirodakasayi is with me now in London and he will not be returning to India, so you may consult with Ramananda in Gorakhpur what should be your exact duty. For the time being, as you are studying in Varanasi and cannot leave that place, it is better for you to translate individually in cooperation with Ramananda, and at some later time when your studies are completed, then we can discuss further.

Hoping this will meet you in good health.

London 6 August, 1972

My Dear Damodara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 30, 1972 and I have noted the contents carefully. Regarding your debt to the book fun and Back to Godhead fund and incense from 'Spiritual Sky', these debts must be paid, that is important business. Along with our preaching and propaganda work, we must also give attention to financial matters, otherwise the whole thing will collapse and it will be a farce. If there is good financial standing it is understood that Laksmi is favorable because her husband Narayana is being served nicely. If Laksmi is unfavorable, then we must increase our preaching efforts, and strive for pleasing the Supreme Personality of Godhead.

I am enclosing several documents relating to our food distribution program in India, and I have advised Rupanuga Goswami and Atreya Rsi to consult with you and the three of you shall approach important leaders there in Washington D.C. for getting foodstuffs and other substantial aid from your government. As I will be in that vicinity in September, if you arrange some meetings with some big government leaders there in Washington, I shall be happy to come down there from New Vrindaban.

So far your purchasing that building is concerned, if it is a great endeavor, how can you manage? If you have so many debts to the book fun and Spiritual Sky business, how can you take more debts to the book fund? We are not very much for owning buildings, our real business is to preach and propagate Krishna Consciousness widely. Washington D.C. is the capital of your country, and therefore it is a very strategic location for preaching amongst the nations leaders. Concentrate on this work, and the sankirtana and book distribution activities, and if you wait until there is solid financial basis before purchasing, what is the harm? But if we spend our whole time simply to earn money to pay for big, big buildings and decorations, what is the value? I am more interested in preachers than builders and decorators. But if you think you are able, and there is good opportunity, you may purchase, I have no objection. When I come there in September I can install the Jagannatha Deities if you invite me. If you can find eucalyptus twigs, you can send them to me wherever I am in the world, and I shall always have nice toothbrushes thanks to you. Eucalyptus is the best.

Hoping this will meet you in good health.

That is a very good program that you have begun, namely, travelling from center to center and preaching especially from the scholarly point of view of being able to understand this Krishna philosophy very scientifically and positively. You have studied the Sanskrit language for some years, that is sufficient of study, there is no more need. Now you read our books, not that lifelong you have to study Sanskrit. Simply read our Sanskrit wherever it appears in our books and teach these slokas to the devotees, do not waste time by studying Sanskrit independently of our books.

My dear Jadurani,

Please accept my blessings. I am in due receipt of your letter dated July 22, 1972 and I have noted the contents. Regarding your questions, yes, there is water in the house under the Bindusarovara lake. Of course it is not possible for us to live there, but if you know the art, it is a science, it is as good as this house filled with air. We are living in an ocean of air, we can live in an ocean of water, it is a question of art. By mystic power everything can be done. As for the second question, generally the Lord is standing. Anyway it can be done, paint it like that. Even when it appears that the Lord is alone, it does not mean He is alone.

Brahmins are sometimes also Saivites, so you can paint Kasyapa Muni with Siva tilak as you have depicted. Varaha is fighting in the outer space and the rain of pus and blood and hair is coming down in the outer space. Just like we also change different bodies, similarly Brahma also changes his bodies. But exactly how to paint His bodies, that you have to ask Brahma, I cannot answer. You have seen so many bodies, you can paint like you have seen.

Hoping this meets you in good health.

My dear Yadubara,

Please accept my blessings. I beg to acknowledge receipt of your letter from Calcutta dated July 30, 1972 and I have noted the contents carefully. That's all right, you can forget the Lalita Prasada Thakura chapter for the time being. Let it be and help Giriraja with the construction work in Bombay immediately. When I return to India in October I shall see what is the situation and we shall consider further. Lalita Prasad Thakura also wants to consult with me so I shall do that. You should submit to me a weekly report as secretary of our Bombay center, as I am always anxious to know how the things are going on there.

My dear Gargamuni,

Please accept my blessings. I have received your letter from Vrindaban dated July 29, 1972, and I am not very much pleased to note that you are leaving our ISKCON Society forever. I have not received report from Dinanath or anyone else in this matter, so I do not know what is the real position, but such kinds of disturbances are not at all desirable. So you can come here and live with me immediately. You have nothing to do, simply chant and take prasadam. Do not be disturbed by the other devotees. Or, I am coming to India very soon, at least by October, so you please wait for me either in Bombay or Vrindaban or Mayapur, until I come back. Or if you cannot wait, you can come and live with me.

My dear Giriraja,

Please accept my blessings. I thank you very much for your letter dated July 31, 1972, and I think things are going nicely there, but we must always remember that the Hare Krishna Land Development Trust, the trustees must be such persons who contribute lump sums for developing different parts of the building. I am very pleased that Mr. Kandelwal has contributed for the library portion. Similarly, I request Sumati Morarji to contribute for the temple portion. I am prepared to put a tablet that the temple portion is contributed by Sumati Morarji. Similarly, the two wings on both sides of the courtyard in front of the temple may be contributed, one by Mrs. A. B. Nair, one by somebody else. The idea is that all the trustees should contribute with great distinguishment.

And let me know how many trustees you are taking

[TEXT MISSING]

how many are our initiated members. Our initiated members must be in the majority, and if any deed has to be prepared then I shall send you the wordings. If not, verbally is all right. If they want to make any documents, that must be approved by me. The idea is that no one should enter into the management without any sanction. If they pay lump sums then they can be on the committee., but our majority must be there. We have had bad experience in Nairobi due to carelessness in forming the management committee., therefore I am advising you in this way.

You mention you are making a resolution to change the Articles and Memorandum of Association, but I do not think you can do that because the trustees in the Articles and Memorandum must all sign, and I do not think that you are mentioned there. You may send me one copy of that Articles and Memorandum. Why she wants to be included in the Articles?

On the total, how many square feet are estimated throughout the whole building? You must raise the full amount of our expenditures. Sumati Morarji is our _ friend, that's all right, but tactfully she must agree to contribute for the main temple, just like Khandelwal. Let me know what they are doing.

Hope this meets you in good health.

Thank you very much for your letter dated July 17, 1972, and I am very much pleased to understand from you that your Deity program, the Chicago program, and all other programs in our mid-western U.S.A. zone are very much improving more and more under your management. So far Chicago temple is concerned, they may install Deities later. First let them preach. Preaching is the first thing, and when there is experience then I can install Deities. So far the St. Louis chapter is concerned, let Vamanadeva live there peacefully husband and wife, why he should go away? That will be all right if he installs his Radha-Krsna Deities from his home. I am also happy to hear that the Gurukula project has been given help by Karandhara and others, so that cooperatively we may demonstrate the topmost example of real education in the world. Now you go on preaching with full vigor and determination, keep our standard of Krsna Consciousness always at the highest level, and remain sincere always by remembering Krsna, through vibrating of His holy name.

Hoping this will find you in good health.

My dear Amogha,

Please accept my blessings. I thank you very much for your letter dated August 3, 1972 and I have noted the contents. Yes, that is a good idea if you want to return to Djakarta for again opening our center there, along with your wife. It is very encouraging that the citizens in Djakarta have donated for your airline tickets, so that is a good sign. If Madhudvisa has agreed, then you may go there immediately. It is better if you take some men with you for the preaching work and other things. We should not open centers with only two persons, we shall have at least four men. I remember once before you wrote me from Djakarta and informed me that you were going to Australia to find a wife and then you were going to Indonesia. So now your plan is coming true and I think Krsna will give you all facility for continuing as you have proposed.

When the soldiers risk their lives on the battlefield, the government is very much inclined to give them all facilities in their work, even the citizens may be deprived of their comforts. So Krsna takes special appreciation for His devotees who are engaged in risking for His preaching work, and He will give you special care and guidance at all times because you are sincerely trying to serve Him in this way. Thank you very much for your sincere endeavors.

Hoping this will meet you in good health.

Letter to: Tamala Krsna, Bhavananda, Jayapataka

-

London 9 August, 1972

72-08-09

My Dear Tamala Krishna, Bhavananda, and Jayapataka,

Please accept my blessings. I thank you very much for your letter dated August 1, 1972, and I have noted the contents carefully, along with statements of expenditures. I am very glad to see from the photos that the construction work is going on. But one thing is, you say that the building will cost 8 lakhs of rupees. According to one previous letter you told me total cost will be 4 lakhs, now it is double. Why is that? In dollars that means $100,000 for the building, but I am told that such building could be built in America for less than $100,000, what to speak of India! So I do not know why your expenditure is so high, I am not expert in these matters, but it appears everything is being spent very exorbitantly. For instance, from the statements I note that you have spent so much for steel, but these things you can get donated or you can get reduction. Tamala Krishna was in Tatanagar, why he did not take promises for so much steel instead of so many useless letters? You should canvass the big manufacturers in Calcutta for giving supplies of steel and other things, now we have got some solid framework to show them. It is not that we are so rich in America we can go on forever supplying you so much money and you spend exorbitantly and become cheated. I do not think that building is worth $100,000. The engineers may be trying to cheat you. You told the total cost will be four lakhs, now it is eight lakhs, why this doubling and uncertainty?

Some other points, you mention ”bullock for transporting supply,” and it has cost you Rs. 1800/-. I think that is exorbitant price for one bullock. And for that you have purchased two bullock-carts, why? And why you are paying salaries so much to engineers, there was understanding the engineers will work for nothing, only little pocket money, but not for salary. Who is keeping the accounts? All bills must be kept. One bicycle was purchased for Rs. 300/-, but these things anyone will give you, why you are spending money unnecessarily? Why so much legal fees are being paid for purchasing land? It is a simple matter, I pay you some money for your land, the solicitor makes deed of sale, finished. Why so much exorbitant spending? The building must be finished at any cost, that's all right, but it appears there is not clear idea of how to spend, now you say four lakhs, now eight lakhs, so I cannot continue to send so much money if there is no clear idea how to save.

These things like steel, cement-you take donation from the biggest men in Calcutta. If you go on Sankirtana to the big steel-making city in India and you do not take donation of steel from the citizens, only some letters, then where is your credit? Chanting and dancing, that's all right, but there must be some tangible results.

[TEXT MISSING]

We are not so rich. The building work must not be stopped, go on with your work, but be more careful. I think there is not sufficient money in Mayapur fund for 10 Krishna Books, but I shall find out some money and send you myself from my own pocket if necessary. But one thing is, if we are spending so lavishly, I shall expect that the building will be the first-class building in India, you are spending like it is the Taj Mahal!

The funds in Bombay Building Fund are for Mr. Nair, not for Mayapur. For each ten Krishna Books you receive you are crediting as only one lakh, why? You are receiving at least Rs. 114,000, so where is that balance Rs. 14,000/-? Where the other 14,000 has gone?

Hoping this meets you all in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Yasodanandana and Gurukrpa,

Please accept my blessings. I am in due receipt of your letter dated 2 August, 1972, and I am very much pleased to hear that you are leaving Calcutta for your tour of the cities of south India. This is very pleasing news to me, and I think that you will have the first-class reception in places such as Bangalore. I shall myself be coming to India sometime in October, so if you are able to arrange any nice engagements in the south part of India for me, I shall be glad to come there. Kindly consult with Bhavananda, Giriraja, Gurudasa and the others in the respect and try to organize something very nice in South India.

Yes, try to make many life members and sell books, and all funds can be sent for the Mayapur project.

This traveling sankirtana party is really Lord Caitanya's movement, and when Krsna sees His men preaching in this way, He becomes very pleased. So you shall not lack for any facilities or inspiration to guide you at all times. Thank you very much for helping me in this way. May Krsna give you his all blessings more and more.

New Delhi

My dear Tejiyas,

Please accept my blessings. I am in due receipt of your letter from Delhi dated 2 August, 1972 and I have noted the contents with great pleasure. I am very glad to hear that we shall be holding another Hare Krishna Festival in Delhi this year, and I am hoping that I shall also be able to attend as before. That LIC grounds is no longer available, but we must find another suitable location within the city center of New Delhi,* as close to Connaught Circus as possible. That will be very nice. So you and your good wife kindly give Gurudasa all assistance for organizing the festival, and I shall also come if I am able.

Your program for preaching in Delhi is very much approved by me, preaching Krsna is the same as remembering Krsna. I can understand if one of my students is making spiritual advancement if he is also making many life members and devotees. So you have not to minimize the preaching program in order to study independently, no, continue as you are doing, preach as much as possible, collect, make life members, and whenever you have time read and study and never neglect to chant your sixteen rounds daily, and this will be the perfect program.

Hoping this will meet you in good health.

My dear Gangadevi,

Please accept my blessings. I am in due receipt of your letter dated August 8, 1972, and I have noted the contents carefully. I was very happy to see both you and your good husband Vasudeva when I was in Paris, especially now that you have got such a nice child. Now you have got your child and your responsibility is to raise your child in Krsna consciousness. You and your husband are very sincere devotees, and your husband is a nice boy, and I like him very much, and he is doing the best service to Krsna and humanity by managing the Berlin center so nicely. So never mind there may be some inconvenience in family life for the time being. Your husband is doing the highest service. You may assist your husband very nicely by concentrating all your time and efforts in raising your child in full Krsna consciousness. That will require all of your attention, and in that way you will be giving your husband the best assistance. This spot life is merely a platform for us to make progress toward going back to home, back to Godhead, therefore we should not be too much concerned with family matters. We are never alone in Krsna consciousness; you have got so many wonderful brothers and sisters who are really your family, and besides that the spiritual master is always in his instructions, and Krsna is there within your heart, so you need not feel you are ever alone. Make Krsna your husband and always think of Him, raise your child up very nicely, chant without fail sixteen rounds of Hare Krsna mantra daily, read Srimad-Bhagavatam at least one hour daily, and in this way without any doubt you will very soon become very happy, and your life will be sublime.

Hoping this meets you in good health.

Vrndavana

My dear Gurudasa and Yamuna,

Please accept my blessings. I am in due receipt of your two letters from Yamuna dated July 22, 1972, and August 6, 1972, and I have noted the contents carefully. Regarding the plans for Vrndavana, enclosed please find the plans drawn by Saurabha which I like very much. You may submit these plans to the municipal council, as they are drawn. The plan of Mr. Suri is too much burdensome and costly, he simply wanted his 2 1/2% commission, so he has befooled these Americans. Better if our own men design and build the temple in our way. So I like these plans from Saurabha very much, and you may submit them as they are.

Now do everything in Vrndavana very peacefully, and always cooperate with each other at all times. There is some trouble with Satchitananda, he informs me you are trying to drive him away because he has written that letter about Yamuna, so that should not be the case. Better to cooperate all of you and do something tangible for Krsna. Stop this fighting. Have a European preaching center and try to enlist all the hippies and tourists who come to Vrndavana. Give them nice prasadam, engage them in chanting, cleaning the temple, reading our books, and give them all facilities for becoming devotees.

I have received a letter from Acarya das, dated 3rd August, 1972, and you may convey my blessings to him.

Sriman Suresh Candra District Administrations Officer, Guyana

My dear Suresh Candra,

Please accept my blessings. I have received your letter from Guyana dated 16 July, 1972, duly forwarded to me at my London address. Thank you very much for the sentiments expressed therein. A disciple means one who is always following the orders of the spiritual master. So I instruct my disciples to refrain from four prohibitions, namely no eating of meat, fish or eggs, no illicit sex life, no taking of intoxication, including tea, coffee, cigarettes, etc., and no gambling. Besides that my students must chant sixteen rounds of japa-mala of Hare Krsna mantra daily. So if you are able to follow these principles without fail, then you are as good as my disciple. And after you have practiced these things for a few months' time, then we can see to your formal initiation. This chanting of sixteen rounds of japa-mala daily, chanting the full Hare Krsna mantra, Hare Krsna Hare Krsna Krsna Krsna Hare Hare/Hare Rama Hare Rama Hare Rama Rama Rama Hare Hare, on each bead 108 times in each round, this process will very quickly purify your existence, and you will come to your rightful spiritual understanding in very short order. Since you have asked me, this is my advice to you. You and your family sit down and chant daily some japa and have some kirtana (or chanting Hare Krsna mantra in full _with kartas and mrdanga.) Besides that you may order our books from the Los Angeles world headquarters, 3764 Watseka Avenue, Los Angeles, 90034, California, _ when you have got our books, then you may hold class all together daily at least one hour and read the Bhagavad-gita, Isopanisad, and other scriptures. You may address your inquiries about the literature in Los Angeles to Sriman Karandhara das Adhikari.

Regarding the visa problem for our devotees coming there, I shall very much appreciate if you can arrange something with the government so they shall have no problem remaining there for some time to do some tangible work in Guyana. I am returning myself to Los Angeles in a few days from London, so you may reply at the Los Angeles address as above.

My dear Turya dasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 1, 1972 and I have noted the contents carefully. Yes, I shall be very glad to hear that you have installed the Deity of Lord Jagannatha, Subhadra, and Balarama, provided you and your wife are going to stick there in Mexico City and you will not go away. I have heard that you are well qualified to worship the Deity at highest standard and this is very much necessary. One who is worshiping the Deity must be always attentive and mindful of his occupation at all times. He must never for one moment forget his duty of serving the Deity at every moment and strive always to please the Lord. If you are willing to stick there in Mexico City, along with your good wife, and do the needful for worshiping Lord Jagannatha and take all responsibility, then I have no objection if you install.

Vrindaban

Dear Tejiyas and Gurudasa,

Please accept my blessings. I have received your joint letter dated 6th August, from Vrindaban and I am very glad to hear that everything is going nicely there. Regarding the questions by Tejiyas, unless there are local men in Delhi who are interested and who will do the work, then it is all right to attempt to expand there by renting building, etc. But on our own attempt that is not good. And this also applies to the pandal program. It will be expensive, so local persons must come forward to cooperate. Last time Dalmia and others were there, and they gave us all assistance. Therefore the program was very successful. So if such men are willing to come forward again to help us and organize everything, then we should try for it, otherwise, it is too much endeavor. My plan is to come to Vrindaban sometimes near the 12th or 15th of October for the Karati Varta and I want to sit down there in the Sri Radha Damodara Temple until some time near the end of November. I will lecture daily in the courtyard on the Bhakti Rasamrita Sindhu, especially for the benefit of the devotees. So you can make arrangements in that way.

Regarding your questions about the marble tablets, in 1955 I went to Vrindaban and stayed at Nathagaon temple. In 1961 I moved to Radha Damodara temple and I am still living there.

I have sent you the plans approved by me, and you may submit them to the municipality and request them to very quickly approve so we may start as soon as possible. When they have approved, Saurabha may come there to give you some help in the beginning, and I think by now Tamala Krishna may be there with one engineer for getting the work started. There must be some tangible progress made by the time of my arrival so that I may see the work being done.

Hoping this meets you in good health.

My dear Nityananda das,

Please accept my blessings. I am in due receipt of your letter dated August 4, 1972, and you may know I have just arrived here from London. I am very pleased to hear that all of the programs there in New Orleans center are improving more and more under your capable supervision. Especially I am glad to note the judges decision in your recent court case and the nice words that he has used to describe our movement. Yes, that is the case, he has said rightly. So you may distribute a copy of the judges statement and the testimony of the child to all of our centers around the world. I am very glad to hear that you are training the devotees nicely in our philosophy and I also fully approve of your system for management. It appears in all respects that everything is going well at New Orleans center and I am so much pleased upon you for helping me in this way.

So far the repayment of loan, we are not very much for big, big houses, especially if they become burdensome. Our first program is for preaching, and if we have to simply work for paying money for a house, that is not very much desirable. So you pay the loan at your convenience, better to concentrate on preaching and not so much for making money for repaying the loan quickly. Even if it takes some years to pay, at least you will not be always in anxiety where to get money in that way. But if you can repay the loan in two or three years time, and save so much interest money, that is a very good plan, provided it is easily done.

Regarding your questions, in the sense that they do not belong to disciplic succession, in that sense Christ, Buddha, and the others are not bona fide. But because they have got some special power we accept them as bona fide. Just like Buddha. We accept him as the Supreme Personality of Godhead. Sometimes they play like that because they may have to. Although they are bona fide, they play sometimes as unbona fide. For example, we reject Buddha as unbona fide, but we accept him as an incarnation of God. We worship Lord Siva as a Vaisnava, but as a demigod we reject him. But to speak the truth, these personalities are not bona fide because who is caring for them? This so-called resurgence of feeling for Christ by the young people is due to our Krishna Consciousness movement. They are seeing that the foreigners are here, there is some national feeling and they think why not our Christ? Whatever they are doing we do not approve. But that does not mean that they should stop their work, this factionalism will go on. But one can see by the results. It is better not to talk with these people. Better let them remain as Christians and Buddhists, we do not want to convert them. You tell them that if you stick to Christ you will come out all right. It is better to avoid these comparative studies.

Hoping this will meet you in good health.

My dear Sukadeva,

I have received your letter dated August 7, 1972 and I am very happy to note that things are improving more and more there in our Seattle Center. Yes, the program of increasing book distribution is very much appreciated by me, and especially if you can preach very widely to the university students nearby to your place, that is the best program. Try to get a course of instruction in the college and preach daily in a scholastic way. If we can attract this student class of men by our preaching work, that will enhance everything and we are very much in need of intelligent preachers for expanding this movement all over the world. I want that you all my advanced disciples become very bold preachers and take up this task of saving the fallen humanity from its worst condition of sinfulness. If you simply convert the leaders of your country to our philosophy, then the whole world will follow and be saved from ruin. Otherwise, they are all doomed to become animals like hogs and dogs. So you preach like that, very strongly, to especially the hippie class of men and the student class of men and convince them to give up their sinful activities and find out their real perfection of life in this Krishna Consciousness movement.

Now I am concentrating on translating of Srimad-Bhagavatam and wish to not be any more distracted. But if there is opportunity, I shall be very glad to visit your center in the future.

Hoping this will meet you in good health.

My Dear Yadubara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 10, 1972. Regarding printing BTG Hindi in India your scheme to print them in Bombay is accepted by me. So you do the needful being contact with Ramananda.

Regarding Bhaktivinode Thakura's manuscripts, immediately we do not have any program for printing them. You keep them carefully and when I return I shall consider the matter. The translating work can be done both by Ramananda and Niranjana in Benares.

Hoping this meets you in good health.

My Dear Madhudvisa,

Please accept my blessings. I am in due receipt of your note along with the letter of Sriman Des Louragan, and upon your recommendation, I have gladly consented to accept him as my duly initiated disciple, and to give him Gayatri mantra also. His beads have been duly chanted by me and they have been sent under separate post. Now you can hold a fire yajna for these two boys and give gayatri mantra to Des (Gaura Sakti das). Show him how to count on the finger divisions, and then hang the thread over his shoulder in the proper way, after he has repeated, word for word, the mantra as I intone it on the tape. The tape should be heard through earphones into the right ear.

Hoping this will meet you in good health.

My dear son,

Please accept my blessings. I am in due receipt of your letter dated July 22, 1972 requesting initiation, and upon the recommendation of Madhudvisa Swami, I have gladly consented to give you Gayatri mantra. This second initiation is very, very serious business, and you must become very strong and firmly situated in devotional service, and stick rigidly to chanting at least 16 rounds daily, without fail, and following the regulative principles without any deviation. This things will insure that you will be protected from Maya, and that your life will be successful and in the end you will go back to home, back to Godhead. I was very pleased with the Deities when I was there. So I request you to continue, along with Dipak, to render sincere, regular, loving service to Their Lordships, and They will give you all blessings. I have given you the spiritual name Gaura Sakti das Brahmacari. Now you continue, as you have been, to give Madhudvisa and the others all help, and spread this great movement all over Australia.

Hoping this will meet you in good health and happy mood.

My dear Batu Gopala,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 18, 1972 and I have noted the contents. So far the fire yajna is concerned, you can wait until Janmastami celebrations in New Vrindaban, and they can take part in that yajna. I am very much pleased to hear how nicely you are presenting Krishna consciousness through your radio program, and I think if you just carry on as you are it will be very successful.

By remaining steady in your chanting, always completing at least 16 rounds on your beads, and studying our books carefully, along with chanting of the Sanskrit mantras in Srimad-Bhagavatam and Bhagavad-gita, automatically you will become freed from the modes of passion and ignorance, and gravity and steadiness will come. You can use your lust for the service of Krishna, and then you will be transcendentally situated.

You get the seed of devotion, and the Hare Krishna mantra through the mercy of the spiritual master and Krishna. Similarly, upon your surrender, the spiritual master and Krishna take responsibility for your sins. So if you commit sin again, the spiritual master becomes responsible for your sinful reaction. Therefore, it is the disciple's duty not to commit sin again. Not only Gayatri mantra, but all mantras cleanse one from sinful reactions, but we should not chant these mantras and then commit sin again.

Upon your recommendation, I will be very glad to accept Sriman Paul Zarouny as my duly initiated disciple. He can take part along with the others at New Vrindaban. Hoping this will meet you in good health.

My dear Gurudasa,

Please accept my blessings. I beg to acknowledge receipt of your long letter redirected here from London. Do not be upset. The thing is that the construction work must be begun immediately. Gargamuni is there, I understand, and you are there, and Tamala

Krishna is preaching. So if you and Gargamuni can do the work, then there is no need of taking help from Tamala Krishna. So there is no need of talking any more. Begin the work immediately. That I want to see.

I am returning to Vrindaban by October 15, and I want to see by that time that the construction work is going on there. I am here in Los Angeles now, and will be going to New Vrindaban by the end of August.

Please offer my blessings to all the others there, especially to Yamunamayi. Hoping this will meet you all in good health.

Bombay

My dear Giriraja,

Please accept my blessings. I am in due receipt of your long letter, and immediately I have sent one telegram as desired by you, reading as follows:

TAKE BANK MORTGAGE PAY OFF NAIR NARANARAYANA IMMEDIATELY RETURN TO USA MUST OBSERVE FAST JANMASTAMI TILL 12 AM

BHAKTIVEDANTA SWAMI In the conveyance deed, there is a clause on page 7 that states that the purchaser shall not be required to pay either of the last two installments, namely E and D, aforesaid, until the suit filed against the vendor in the Bombay High-Court (suit #94 of 1968, Messrs. Chhaganlal and Co. vs Mrs. Candrabai A.B. Nair) is disposed of and the amount, if any, in the said suit is paid to the plaintiff. Therefore, out of 14 lakhs, we have paid 2 lakhs. The bank may pay further 8 lakhs, and 4 lakhs should be held up until the above-mentioned suit #94 of 1968 is disposed of. In this way arrangements should be made. Regarding construction material, I see that 64 lakhs will be spent for the whole construction, and you have to pay 5% on the amount to the architect. I think it will be a huge amount. In Delhi, one architect asked for 2%, but I thought that somebody may contribute his service for this great cause. If not, the charges may not go more that 2-2 1/2%. In this connection, you may consult Gurudasa. I think that 5% is too much. Anyway, you are on the spot, you can do the needful by consulting amongst yourselves. Formerly it was understood that Mr. Nair would not charge interest. Anyway, if you have to charge interest, better go to the bank. There is a proposal that somebody wants to donate seven acres of land at Ahmedabad, 17 miles from the town. This proposal was sent by Paramahamsa das Brahmacari, and I have already replied his letter. So if it is convenient, some of you can go see the land, and if it is favorable, we shall go and develop an asrama there. There was a reference in the letter of Mahamsa that the President Giri can open the foundation stone ceremony of our temple, as he is a friend of Mr. Somani. I have already replied his letter, and you can see it. If it is a fact, I have suggested that the ceremony can take place on Wednesday, September 20. That day is auspicious on account of the appearance of Vamanadeva and Srila Jiva Goswami. If it is a fact, then we can invite many responsible persons-the Prime Minister, Governors, many secretaries on that occasion. Then it will be possible to place our philosophy before a very respectable assembly and it will be easier to raise funds also. People have not yet understood our philosophy, how glorious it is, and how this Indian culture could be accepted throughout the whole world. The ritual foundation stone ceremony was already observed and you have the marble tablet. I think President Giri's name also will be included in that tablet and it will be set up on the corner foundation of the temple.

Hoping this will meet you in good health.

Letter to: Madhudvisa, Amogha

Los Angeles 24 August, 1972

72-08-24

My Dear Madhudvisa and Amogha,

Please accept my blessings. I have received your letters dated August 13 and August 15 respectively and have noted the contents with some dismay. I do not like to hear these things, but whatever is done, is done. What you have is all right, now go on preaching as you are doing. So far the presidents are concerned, they should not be abruptly changed in future. If there is any complaint they should be first of all informed to me. One thing we should always remember is that all of our devotees picked up here are accustomed to all of these bad habits in their past life, so if sometimes they reveal their old characteristics, instead of rejecting them, it is up to us to rectify them as far as possible. So try to reform Mohananandan there. What he will do by coming here? Amogha has indicated he has already shaved his sikha and has left everything. do you think U.S.A. is a magic place, simply by coming here he will become reformed? If possible you can send to the U.S.A., but it is better to correct him to the standard point by friendly gestures. We can reject anyone, that is very easy, but to reform him that requires great skill and tact and if you can reform him there by kind words and dealings, that is best. When I was there in Sydney, I observed that Mohananandan is very, very good boy and he has great intelligence and talent, simply it has become little bit misguided due to circumstances. Now you both big leaders in Australia, along with the others, you make a very concerted attempt to help Mohananandan over his difficulties and persuade him that everything is all right; that I am not angry or displeased in any way. These things will sometimes happen even with the best devotees, and in this way try and persuade him to become engaged with his previous enthusiasm for becoming once again a great devotee. He is young boy, so we should not take his actions too seriously, better to forget the past and try to reform him. His service can be once again very much valuable there in Australia, I know he is very good boy. Do not drive him away, that will be the discredit to all of you leaders. But if there is great difficulty, he may come and live with me here in Los Angeles for the time being, I have no objection. But he has done very nicely in Sydney up to the present time, so if you can utilize his experience and talents there, that is the best plan.

I am very glad to hear that Amogha is returning to Djakarta along with others for continuing our preaching work there. He may send me regular reports how work is going on. Krsna is always prepared to give special favor to His devotees who take special risk to spread His name in the far away places and who do not care very much for the comfortable surroundings. Thank you very much for helping me in this way.

Now I want all of you to work cooperatively and very frankly, that is our process, not that we shall always plot and scheme and write letters. Madhudvisa is GBC man for South Pacific zone, so his direction must be followed by everyone and all of the devotees there should address their problems to him for his consideration. One thing is, I have received some distressing report from Hong Kong from Bhurijana, that he is having some difficulty there, so I have assured him that you would send him some assistance very shortly to help him with our mission in Hong Kong. The first thing is to recruit many devotees there in Australia and send them out to the outlying districts such as Manilla and Hong Kong and Djakarta and other places and build up strength in these areas; otherwise, the one or two devotees in these places will become discouraged.

Hoping this finds you both in the best of health. Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. I have understand from Karandhara that you have not made Book Fund payments for several months. This must be done immediately.

My Dear Tusta Krishna,

Please accept my blessings. I am in due receipt of your letter dated August 12, 1972, and I have noted the contents carefully. Yes, Karandhara said that Sriman Siddha Svarupa Ananda is not up to the point of our preaching work, especially when the "Sai Speaks" booklet was distributed there was some discrepancy from our standard. So when this complaint was lodged I called him here and I asked him to stay with me for some time. When I went to London I made arrangement that Siddha Svarupa Ananda Maharaja would speak in the sanctuary of Los Angeles Temple and this was settled up and he remained here in Los Angeles when I went to London. After coming back I understood that he left immediately when I left for London. I have received no letter from him. So there is no misunderstanding, but I want to keep him with me for some time, so if you have got his address you can ask him to come to me and live with me again for some time. It is better not to draw any wrong conclusions from so little evidence, actually he is very sincere soul and everyone knows it and I like him very much and so does Karandhara, so you need not worry in this connection.

I am very glad to understand that all of the programs there in Auckland are going on very nicely. If you have got opportunity to travel and hold kirtana with your music group over the South Pacific, why not take advantage? I shall be very pleased to see the new album "Cause of All Causes". And upon your recommendation I am very glad to accept the three boys as my duly initiated disciples. Their letter is enclosed.

Hoping this meets you in good health.

My Dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your letters dated August 20 and August 22, 1972 and I have noted the contents carefully. Regarding my coming there, yes, I shall be very glad to attend the Dallas Gurukula immediately departing Pittsburgh I can go there for about 3 days on my way to Los Angeles. So you should be prepared to provide for airline tickets from Pittsburgh to Dallas for myself and my three secretaries. Then we shall see how the things are going on there, and I am very much looking forward to that day. The tickets may be sent here to Los Angeles address as soon as possible.

The essay "Sri Sri Caitanyasiksamrta", translated by Gaurasundara dasa, appears to be alright and you may use it as it is. Enclosed please find the copy you have sent me.

One thing is, I have just received one letter from the black devotees in Cleveland who wish start their own ISKCON Center independently of the white devotees there. In principle, it is alright, birds of a feather will flock together. We should not discourage them in any way from opening their own center, but I want you to go there and see how their things are going on and that the standard of Krishna consciousness is being maintained on the highest level. You should give them all assistance for organizing their Center and be fully convinced that they can manage everything properly and then I have no objection if they open their Center in Cleveland. These souls appear to be adhering to our principles and they are requesting someone to come and give them all good instruction, so you kindly go there and do the needful and give them all facilities such as pictures, mrdangas, and other Krishna consciousness paraphernalia. It is not that we should remain separate from them as they are sincere souls and there is no objection if they want to remain separate from the white people and pursue this Krishna consciousness way of life, but I must be convinced by you that everything is being done properly before I shall be glad to give them the final sanction. As soon as hearing from you in this regard, I shall be glad to give them due initiation and my blessings so that they may continue in their own way. I am sending a copy of this letter to them and you may go there immediately to see what is the situation there. Enclosed please find copy of their latest letter to me. Their address in Cleveland is 1739 Lakefront, East Cleveland, Ohio, 44112. Meanwhile, I look forward to seeing you all my nice disciples in New Vrndavana by the end of this month. My Dear Gargamuni,

Please accept my blessings. I have received your letter from Vrndavana dated 15th July 1972 and I have noted the contents carefully. You may know that I am no longer in London but I am in Los Angeles and New Vrndavana for the month of September. I am going back to India by the 15th of October. So you have stayed so long in India, if you can remain there one and one half months more kindly remain there and wait for me. When I come there you will stay with me. Meanwhile if it is possible you try to work in conjunction with Gurudasa on the Vrndavana Project because I think you have got real interest to see that it is completed very nicely. If however you are unable to work with Gurudasa, otherwise you sit down and wait for me there. Do not fight with anyone, try to remain always very humble and meek like the advanced Vaisnava devotee, always thinking yourself lower than the straw in the street and more tolerant than the tree, and in this way very quickly you will be come relieved of so many anxieties. When we shall meet in October, then we shall chalk out some plan further.

My dear beloved Children,

Please accept my blessings. I am so much pleased with your kind and affectionate words on the occasion of my birthday anniversary on the Nandotsava day this year (1972). My Guru Maharaja wanted me to spread this Krishna Consciousness Movement in western world, and you are all helping in this great attempt.

My Spiritual Master knew it that alone I could not do this great work. Therefore He has very kindly sent you all to help me in this task. I accept you therefore as representatives of my Guru Maharaja playing as my affectionate disciples.

It is said that child is father of man. Kindly therefore continue your help in this great task and act as my young father and mother in my old age. I am

72-08-26

My Dear Gaurasundara,

Please accept my blessings. I am in due receipt of your letter dated August 20, 1972, and I am quite surprised to read it. This does not sound like you. All along I have been discouraged in every way by my Godbrothers, but still I have stuck to my duty, keeping my Spiritual Master always in front. Because there is some fighting or bickering amongst us, that does not mean that I should go away. If I have understood the order of my Spiritual Master rightly, then I must perform my duty under any circumstances and never one think of going away under disgust. I have appointed you to be my GBC representative in South America because I think that you are very much responsible and capable to do it, and I am very fond of you and your good wife Govinda dasi for helping me all along. So do not be disturbed or worried by some small thing, rumor, or misunderstanding. There is no plot amongst our so-called big men against you or Siddha-swarup Ananda. That is childish.

Where have you got this idea to retire and simply translate books? That is not in our line. My Spiritual Master has given me the instruction to spread this movement all over the world and you are my good disciples, are helping me do this. Without your good help I could not have done anything, so practically you can take all the credit for spreading this Krsna Consciousness movement and fulfilling the prophecy of Lord Caitanya Mahaprabhu. If there is some incident and I claim that no one is cooperating with me or no one will work with me, that is my defect, not theirs. The Vaisnava devotee must think like this. We should not find fault with others and criticize and go away, that is not the Vaisnava way. Better we should always be willing to offer all respects to others and consider them as our superiors always.

I have requested Siddhasvarupa Ananda to meet me in Los Angeles, but if he is not able to then I am coming to hawaii soon on my way to India and I can meet him there and take him with me to India. Meanwhile, do not be disturbed. Everything is alright. If I cannot rely on you to assist me in the GBC position, who can I rely on? So I beg you to reassure me that you will continue to help me in this way, and do not become withdrawn from your active role. Kindly relieve me of this great anxiety. I want to retire now and simply concentrate on translating work, but how can I do it if I cannot give over the management of my society to you all my advanced senior disciples? If one moment you are willing and the next moment there is some small disagreement and immediately you all go away, how can I be calm in my mind? I am going to India by first week of October and I shall stop over one night in Honolulu en route and we can discuss the matter further at that time.

Meanwhile, hoping this meets you in good health,

Calcutta

My Dear Jayapataka,

Please accept my blessings. I thank you for your letter from Calcutta dated August 19, 1972 and I have noted the contents carefully. I am very glad to know that the work is going on carefully under your direction and that building will the first class building in all of Nadia Province. Wherever it is possible try to save the construction costs by getting donations. But we must have that building completed at any cost. But if you can raise at least 60,000 rupees per month locally that should be given by the local men without any difficulty. I have received one letter from Madhavananda and he has assured me that the collecting is going on well. He has also mentioned that you are planning your Maidan Pandal from 7th October to November 5th tentatively. But these things must be consulted amongst all of you leaders, not that one man decides these things whimsically. My program is already sent to you earlier, I shall be in Vrndavana from middle October to middle November, but after that time I am free to come to Calcutta for holding our festival, but these things should be decided amongst all of you leaders in India, including Gurudasa, Giriraja, Tamala, Bhavananda, Gargamuni.

So far the people asking you what is the actual birth site of Lord Caitanya Mahaprabhu, ask them to go to Tirtha Maharaja. We do not bother about these things. He is in charge of the Caitanya Math. We are foreigners and we have come here the last. There are so many other temples before us, why don't they go there for asking. They should inquire from our predecessors like Caitanya Math. This is a long controversial point, do not bother with it. We accept our predecessor's version, that's all. Navadvipa means nine islands or dvipas and the present Navadvipa city is Koladvipa.

Hoping this meets you in good health,

Letter to: Madhavananda

-

Los Angeles 26 August, 1972

72-08-26

My Dear Madhavananda,

Please accept my blessings. I have received your letter dated August 15th and have noted the contents carefully. I have also looked at the article in Kothari Magazine and it is done very nicely. Thank you very much. I am encouraged to hear that the collecting is going very nicely under your supervision and that you have made 33 Life Members there in Calcutta more. But we shall require huge funds to finish our Mayapur Project, at least Rs./60,000 per month must be collected there, along with donations of kind, such as steel, etc. So if you can assist Jayapataka and the others in this way that is very much appreciated.

One thing is if the Calcutta festival is held at least 50 men must be there and do it very nicely. How many men will be there? On the dates that you mention, namely, October 27th to November 5th, I shall be in Vrndavana. You must all jointly make these decisions about my program there, not that whimsically one man shall decide one thing another man shall decide another thing. So unless Tamala Krsna and the others agree then I will not be able to attend on the dates you have mentioned. Anyway I shall be in Vrndavana at that time. But after the 15th November, leaving this time, and consulting with the leaders, then a suitable program may be fixed for Calcutta.

Regarding my Gita Gan, take quotation for printing there also. If it is cheaper why should we go to Dai Nippon? I think Jugantar can do the work, let them do it conveniently. Anyway, somehow or other do it, and you can request Giriraja to send the money from the Book Fund if he approves of everything. You can ask Asokamrta or I think there are some Bengali girls there also, all of them are well educated, they can proofread the manuscript.

The Maidan programs in India should be done in consultation with all. We have now got our reputation and we must do everything very carefully to keep it. Same process, four or five or six big men, whatever they think the others must say all right I shall accept. Nothing should be done by personal whims. This should be avoided. Our prestige should be always kept, that means we must be very sincere and serious to execute our work; then it will be all right.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Son, (Prthu Das) Please accept my blessings. Upon the recommendation of Sivananda I have gladly consented to accept you as my duly initiated disciple. Your beads have been duly chanted by me and they are sent by separate post. I have given you the spiritual name of Prthu dasa Brahmacari. King Prthu was the ideal ruler of the citizens, so you should also set the example of ideal person and spread this ideal very widely to all the citizens of your country.

I can understand that you are a very sincere boy and are very eligible candidate for going back to Home, back to Godhead. And the process is simple. follow the regulative principles, chant at least 16 rounds of beads daily, read our literatures, go for street sankirtana, etc. In this way keep yourself engaged in Krishna's business 24 hours and you will be really happy in this life and in the end reach the supreme destination.

Hoping this will meet you in good health.

Vrindaban

My dear Gurudasa,

Please accept my blessings. I am in due receipt of your letter dated August 23, 1972, and I have noted the contents carefully. Do not be depressed. All along my godbrothers gave me only depression, repression, compression-but I continued strong in my duty. So never mind there is some discouragement, continue with your work in full enthusiastic Krishna Consciousness attitude of service. I have seen the letter of Syamasundara., and it is not meant to be critical, it is factual, but they want to make some solution by helping you only, that is the purport.

In your letter you do not acknowledge the plans of Saurabha which were sent to you from London some two weeks back. From the beginning I simply said that I wanted a temple built in Vrindaban just like Govindaji's temple, and there have been so many letters, but that has not been done. Never mind, now I like that plan of Saurabha's, so if you have received it? Anyway, I am sending one other plan drawn by Saurabha (enclosed), and that is also nice, so that may be used for presenting to the municipality if the previous plan was not received. I do not think the plan of Mr. Suri will be possible for us, it is too grand. Simply I want one temple like Govindaji's that's all.

Bhavananda is now in Bombay, and I have asked him to return to Calcutta by passing through Vrindaban, and he can help you get the thing started. Tamala Krishna is on tour and he shall be delayed for some time more.

I am very pleased to hear that my rooms have been repaired and painted so nicely, I am looking forward to coming there sometimes around middle of October, I shall let you know. Meanwhile, go on with your work and do not for one moment feel depressed because you are rendering the highest service to Krishna and He appreciates that, know it for certain.

Hoping this meets you in good health.

Dear Niranjana,

Please accept my blessings. Thank you very much for your letter dated August 17, 1972, and I thank you very much for your kind words. I am happy to hear that you are beginning your translation work and you are translating "Sri Gurvastkam" presently. You have completed your examinations well, so Krishna has blessed you with good intelligence, now employ that gift by Krishna by serving Him only, then your life will be complete and you will be always really happy. If you are always remembering Him by your activities and seeing Krishna everywhere, even in the heart of the demonic persons, then anger will never overcome you, being purified of all false pride. But occasionally if there is good reason, you may have to become angry just to chastise the evil-doers and blasphemers. We have seen that Lord Caitanya once nearly killed Jagai and Madhai for their offenses to His devotee, so, like that, if there is offensive behavior to the pure devotees you may become like Nrsimhadeva and punish them severely.

I am coming to India by middle of October, to Vrindaban, so it is likely you can see me there, as I shall remain there one month. Meanwhile, hoping this meets you in good health.

Vrindaban
My dear Gurudasa,

Please accept my blessings. I am in due receipt of your telegram as follows: "Bharatpur Trust will donate Kesighat Temple will sell surrounding rooms and garden we must offer price wire immediately." So I have received this telegram and have replied by telegram as follows: "Why not donate the whole thing and we spend money to make super gorgeous. Otherwise how we can offer without knowing details and site plan of temple? Rush them New Vrindaban." So the thing is if I do not know how much land is there, what is the condition, what is the price, what are the terms, how I can make concrete offer? That is not good businesses. So you can send me immediately everything, the site plan, what are the exact terms of the contract, etc., then we shall see. I think that is a very grand temple, and we shall be able to utilize it if the other party is willing to help us. But one thing is, why they cannot donate the whole thing and we shall spend our money to make it very wonderfully done up and renovated. But I think their plan may be to give us the temple only, because that cannot be sold, and no one can maintain it any more, and then we shall have to buy the residential buildings, the compound all the other buildings there, and that is their trick to get money for those buildings, by so-called offering us the temple without having to pay anything for it, because they cannot sell it anyway.

So Bhavananda is coming there in a few days, and Tamala Krishna is coming with one engineer, so conjointly you three men consider everything with these points in mind and do the needful. If you all three big men think that it is a good bargain, then you may offer as you think best, but consulting with me first. But one thing is, what we shall do with the land in Raman Reti? How to utilize it if we purchase the Kesighat temple? I am remaining in New Vrindaban at least until 8th September, after that you may write me in Los Angeles.

Hoping this will meet you in good health.

My Dear Brahmananda,

Please accept my blessings. Thank you very much for your letter from Tanzania dated August 24, 1972, and with great satisfaction I have noted the contents. Yes, the preaching work is giving you new life. My Guru Maharaja Bhaktisiddhanta Sarasvati used to say pran acche var sehetu pracar, "one can preach who has got life." So one who is preaching this Krishna Consciousness Movement means he has got real life.

I am very glad to hear that your programmes in Tanzania and other places are coming out very successful and everyone is becoming satisfied by your presesnce in their towns and villages. That is a very good plan for making twice on the magazine and books by selling once to the Hindus and again to the Africans. You and your brother Gargamuni Maharaja are always good brain for making some money, but I think that he is little better than you for making money, but I like your plan very much. Yes, now go on in this way making tour all over Africa, following the same plan you have chalked out of making Life Members, selling books and magazines, holding kirtana, distributing prasadam, dancing, like that. One thing is, I have recently got one letter from Mr. Shah wherein he mentions there are many temples beng offered to us in Uganda by the Indians who must leave there. So I understand you are going there soon, so why not take them if they are offering freely? We shall have to send you many Americans for managing them.

Our Bhagavata Dharma Discourses are going on very nicely here in New Vrindaban, and hundreds of devotees and other persons from outside are also coming here, and there is one large pavilion on the hill-top where I speak every evening and the meetings are being very well appreciated by all. Now go on holding this Bhagavata Dharma discourses in every city of the world, in simple way, as we have done it in Nairobi, speaking something, having kirtana, distributing prasadam, and keep place to stay, camping and tents, for the devotees and guests, and in this way very quickly Lord Caitanya's movement will be spread all over the world and actually everyone will get enlightenment out of it.

Hoping this meets you in the best of health.

My dear Lalitananda,

Please accept my blessings. Thank you very much for your letter dated August 26, 1972, and I have noted the contents carefully, along with your check for $50, which has been duly deposited in my Book Fund. Thank you very much. As for your questions, Lalitananda means one who takes his pleasure from Lalita, who is one of the chief Gopis around Krishna. So you are the servant of one who takes his bliss from Lalita. Yes, if there is arrangement for swinging the deities sometimes, that is all right. Anything may be done which will be pleasing to the Lord, and He is often fond of swinging motions. You may place cows and peacocks on the altar at Montreal, that will be nice. So far I am concerned, I have no objection if there is carved form of guru on the Guru-Gauranga altar, but one thing, is unless that sculptor is very excellent, it should not be attempted. How will you get photos from all angles of vision for the carving process? Unless it can be done very nicely, just perfectly realistic, he should not do it. Yes, God is always there in His Arca Vigraha form, either as Krishna or Rama or Caitanya, whatever. So He must be offered all respects as if He is there personally present, and if you are always sincerely chanting and following our Krishna Consciousness programme of chanting and other things you will very quickly develop the eyes to see Krishna there.

So far installing deity in your home is concerned, better to wait until you move into the temple when you are little older. Meanwhile try and attend to the temple as often as you are able, and always without fail daily chant 16 rounds and follow the four prohibitive restrictions, and in due course of time you will feel yourself becoming happier more and more in Krishna Consciousness.

Hoping this will meet you in good health.

My dear Radha Damodara,

Please accept my blessings. I thank you very much for your letter dated August 25, 1972, and I appreciate very much for your kind sentiments. Yes, the Bhagavata Dharma discourses here in New Vrindaban are going on very nicely and daily several hundred devotees and guests are coming to hear, and it is truly a wonderful time.

I am glad to hear the nice report about St. Louis temple, and also that you are training yourself up nicely to be a serious preacher of this Krishna Consciousness movement. That much is wanted, sincere men who will become very strong for preaching work throughout the world, on behalf of Krishna. Now you apply yourself to this task very seriously and become learned in all the aspects of our Krishna Consciousness philosophy and take this opportunity in this lifetime to go back to Home, back to Godhead. That is my request.

I have not yet seen the Devotee Sketch-book #2, but I shall see it when I again return to Los Angeles.

My dear Patty Dorgan,

Please accept my blessings. I thank you very much for your letter dated September 1, 1972, and I have noted the contents with pleasure. I am so pleased to hear that you are living nicely with your parents and carrying on with your Krishna Consciousness activities. That is a good proposal. Never mind there maybe some inconvenience. Krishna always appreciates when his devotee makes some sacrifice on His behalf, so there is no real difficulty under any conditions so long as we remember the Supreme Personality of Godhead. Just like Prahlada Maharaja, he never asked Krishna for anything, oh Krishna please save me from my demon father, no. But because he was always remembering Krishna under all circumstances, Krishna saved him anyway, and when He became finally angry He came Himself and killed the demon father. But even Krishna came Himself, still Prahlada did not ask Him for any favors, only to please kindly have mercy upon my father. That is pure devotee. Of course we cannot imitate, but we should always try to remember the example of our predecessors and follow their example always.

I am very much encouraged to hear that you want to open a Krishna Yoga Society branch in your high-school, along with Lalitananda. That will be the bet service to Lord Caitanya, and it is the best gift you can give me. Thank you very much for helping me in this way.

Hoping this will meet you in good health.

My dear Jadurani,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 31, 1972, and I have noted the contents. I am especially glad to hear that you have distributed 32 Bhagavad-gita As It Is in one day in New York. Now go on in this way and distribute all of our books profusely, as many as possible to all classes of men.

Regarding your questions, second initiation is real initiation. First initiation is the preliminary, just to make him prepared, just like primary and secondary education. The first initiation gives him chance to become purified, and when he is actually purified then he is recognized as a brahmana and that means real initiation. The eternal bond between disciple and spiritual master begins from the first day he hears. Just like my spiritual master. In 1922 he said in our first meeting, you are educated boys, why don't you preach this cult. That was the beginning, now it is coming to fact. Therefore the relationship began from that day.

If you think of me and work for me, then I am in your heart. If you love somebody he is in your heart. It is common thing, everyone understands it. If I hate somebody or if I love somebody he is also in my heart. Therefore simply by hating Krishna he gets salvation, like Kamsa. So if you want to hate, hate Krishna.

There is no difference between me and my picture. Therefore we should honor and keep pictures in that spirit. If we throw pictures this way and that way, that is offense. The name and picture are as good as the person in spiritual world. In the material world either picture or person, everything is illusion.

The spiritual master accepts the sinful activities of his disciples from the first initiation. I may give initiation very easily, but what can I do? I am prepared to go to hell for service of Lord Caitanya.

Lord Brahma should always be shown front side.

Hoping this meets you in good health.

My dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letters and Vyasa Puja offerings dated August 26, 1972. Your presentation of Vyasa Puja offering stands first. You are eligible for the first prize. Although it is imagination, still it is so nicely descriptive and systematic, that it proves how much you have perfect knowledge in other fields of activities, namely political, social, and economical. Thank you very much. Your ideas are not exactly imagination. It is factual, because the leaders of the society should have taken Krishna Consciousness in such serious attitude as described by you. The president of the United States, the Queen of England, the Communist leaders, all business magnates, all should have taken this movement seriously for the upliftment of human society, but because most of them are miscreants, rascals, lowest of the mankind, and lost of all real knowledge, they are still unaware of the importance of the Krishna Consciousness Movement. Indeed, however, it is our duty to enlighten them in different ways through our Sankirtana movement, so that one day may come very soon that they may be enlightened and take this movement with all seriousness and do the best thing for humankind.

I thank you for two checks, one for $111.00 and one for $5.00. I am so glad that things in Australia are settled up, and I am confident that Mohanananda is a good boy although for the time being he is little disturbed, but if a good devotee like yourself can entreat him on my behalf, certainly he will come back and join the movement with fresh enthusiasm. I am so glad to learn that your Sankirtana movement is going on nicely. In this part of the world also, we have got several buses which are going all over your country and doing nicely. Yesterday I have seen one Sankirtana bus presented by Rupanuga Maharaja, complete with kitchen, shower, and deity room. It is completely self-sufficient and can keep 8 to 10 men. Their program is to remain on the road going from town to town and village to village. Lord Caitanya wanted this business, so by the parampara system through my Guru Maharaja and my humble self, the matter is handed over to you. Now it is up to you American boys and girls to do the needful.

Hoping this will meet you in good health.

My Dear Tamala Krishna,

Please accept my blessings. I am in due receipt of your letter dated August 31, 1972 from Calcutta, and immediately on receipt of the letter, I have sent you a telegram to the Vrindaban address as advised by you, confirming your proposal for the Hyderabad program from November 17 to December 10. My immediate program is that I shall remain in Vrindaban from October 15 to November 15, and after that it will be possible for me to go to Hyderabad. Your preaching in Hyderabad has become very successful along with your other colleagues, Sriman Subala das Maharaja and others, and I thank you very much for your great success in this respect. As it is our motto on the head of Back to Godhead, "Godhead is light, nescience is darkness. Where there is Godhead there is no darkness." The whole world is full of darkness. The so-called yogis, swamis, mayavadis, scientists, philosophers, political leaders, all are different types of glowworms, so in the darkness of cloudy night during the rainy season, the croaking of the frogs and glitterings of the glowworms are supposed to be very prominent. But as soon as there is clear sunlight or moonlight, all these insignificant glowing and croaking disappear. So our movement is Krishna. The Krishna Consciousness Movement is nondifferent from Krishna. If we therefore present the Krishna Consciousness in right earnestness, then certainly all these insignificant glowworms and frogs will have no more importance. Please therefore take it very seriously and do it on the right path which is not very difficult, then certainly we will come out victorious all over the world. I have read all the newspaper cuttings and handbills very attentively, and I very much appreciate the counter presented by us against the vilificaion by the enemies. Sriman Subala das's reply in the paper with reference to the context of sastra are excellently gorgeous. He has given references from Bhagavad-gita, Srimad-Bhagavatam, Nectar of Devotion and Teachings of Lord Caitanya, and it is very nice. So Krishna is within everyone and He becomes revealed in proportion to our sincere service, Sevonmukhe hi jihvadau svayam eva sphuratyada [Brs. 1.2.234]. I am also glad that you have collected 25,000 rupees within three weeks with all great honor and prestige. Thank you very much. In Vrindaban I wanted a temple like Radha-Govindaji's and a simple residential quarter, but it has not yet begun due to so many reasons. Now when you have gone please do begin something without any delay. Our Bombay affair has been little muddled because the conveyance deed is not yet executed. I have sent Bhavananda to Bombay to look after the matter with Giriraja, but I do not know what is the resolution by this time. Anyway, let us work very diligently for Krishna all over the world, and our advancement will depend on our sincerity. Here in New Vrindaban, the Janmastami Festival continually from September 1 is going on very gorgeously. There are more than 500 guests and they are listening to Bhagavat Discourses with rapt attention, chanting and dancing. Many respectable Indians are coming. One Dr. Srivastava, professor of statistics at Colorado University, is interested in developing this scheme. Sriman Kirtanananda Maharaja has arranged very nicely. Everything is very satisfactory. Similarly, every one of us in charge of some activity may execute his responsibility in good Krishna Consciousness, and certainly things will come

Fresno

My Dear Krsna das,

Please accept my blessings. I beg to acknowledge receipt of your letter from Fresno dated September 6, 1972, and I have noted the contents carefully. You may know it that I am eternally your guide, but if you don't accept me as your guide what can I do? Unfortunately, if my disciples do not take my guidance, what can I do? By bad association it so happens, so I remain silent. I see the pricks of maya. When you went to Europe last time, I was hopeful that you would organize in Sweden. You have got the capacity to do that, you are one of my old disciples and you have proven your abilities to organize things very nicely. You went to Germany and organized very nicely. I know you have got that capacity. Why you have come back? You could have organized Sweden very gorgeously. You are very intelligent and also your wife is intelligent. Formally you were alone, now you are assisted by your good wife. Husband and wife equal double strength. You can do nicely anywhere. You know very well how Gurudasa, Mukunda, and

Syamasundara. organized the London center with great labor and hardship and now it is one of the first class temples. Syamasundara. induced George Harrison to cooperate with us and he paid us nineteen-thousand dollars for Krsna Book. So there are so many works, if someone wants to work there are so many things. So eternally I want to remain your guide provided you want to accept me.

You mentioned that your pathway has become filled with stumbling blocks, but there are no stumbling blocks, I can kick out all those stumbling blocks immediately, provided you accept my guidance. With one stroke of my kick I can kick out all stumbling blocks.

You are always welcome. All of your doubts will be cleared up either personally face-to-face or by correspondence with me. I am gong to Los Angeles, you can come to live with me and all your doubts will erased. In the beginning there were no doubts, but by bad association you have now got doubts.

Regarding your questions you say that amongst the elder disciples there are still symptoms of greed, anger, strife, bickering, etc., but you are one of them. You are one of the old students, so you fall in that group. So the fighting is among that group, but not amongst the real workers. There was fighting amongst the gopis also, so we cannot expect there will be some utopia without fighting, there is even in the spiritual sky transcendental greed, lust, envy, like that. But that is transcendental. Hamsaduta is maintaining his position of service, so why, even if a little fighting, you should go away? We should never give up our duty. My godbrothers always discouraged me but I did not give up, I am doing my duty and always keeping my spiritual master in front. Even there is some difficulty or hardship, or even my godbrothers may not cooperate or there may be fighting, still, I must perform my duty to my spiritual master and not become discouraged and go away, that is my weakness.

As for the second question I do not know what you mean by this statement, but we accept Jesus Christ as a very good son of God. So far His preaching is concerned, that was with reference to the people amongst whom He preached. Just like ”Thou shalt not kill.” That means they were accustomed to killing. So you can just imagine what class of men they were. It is simply a difference of mode of teaching, that is all. But we accept Him as the son of God, and He talked about God consciousness. That much we accept. So far the audience is concerned, it is a proof they are not very elevated, otherwise how they could kill Jesus Christ? That means they are not very enlightened.

Now we have gone to Dallas where I am visiting in the Gurukula school. It is very first class school and church and I think it is better than Los Angeles Temple. We have got very many children here and I am teaching the way how to give them instruction in Krsna consciousness. It is the first class place to send your son when he is old enough to come here.

Hoping this meets you in good health.

My Dear Tejiayas,

Please accept my blessings. I am in due receipt of you letter from Vrndavana dated first September, 1972, and I have appreciated the contents with great care. I am especially encouraged that you are planning another wonderful festival of Hare Krsna festival in Delhi, and that you are trying to get again the LIC grounds. Then it will be first class. One thing is, Tamala Krsna has invited me to come to Hyderabad starting 17th November, and I have accepted his invitation. So I think you may begin the Delhi festival from 5th November and it must be finished by the 16th November, and then I can fly to Hyderabad on 17th as agreed with Tamala Krsna. Anyway, you consult with Tamala Krsna and Gurudasa and make the program accordingly. I am coming to Vrindaban by 15th October, and it is not necessary for me to stay the full month. I may stay up until the 6th and then go to Delhi for our pandal program there and then by the 17th fly to Hyderabad. So arrange in that way.

I have come to Dallas and it is very hot here, just like Calcutta. So you may see the factory of Hansraj Gupta and ask him to donate one dozen nice fans for our Dallas Center. But whether they have got fans to operate on the 110 AC voltage in America?

Hoping this meets you in good health,

My Dear Madhudvisa,

Please accept my blessings. Regarding the recommendation for Ambika dasi to take second initiation from me, yes, you may give her. Enclosed find one copy of Gayatri mantra. Now hold a yajna, teach her how to count on the finger divisions, then play the Gayatri mantra tape through the right ear. Have her repeat along with my vibration word by word and then give her Gayatri mantra as usual. This Gayatri mantra function should be held amongst the devotees only.

My Dear Caru,

Please accept my blessings. I am in due receipt of your letter dated August 31, 1972, and I have noted the contents carefully. Now regarding this business of Sankirtana, the solution is simply to go on with Sankirtana activities as you have been doing, and let them arrest us if they like, we will not stop. Just like in London, they became arrested so many times and there was so much public display of arresting that gradually the police stopped arresting and now they have Sankirtana anywhere they like without any botheration. If we take this case into court and spend so much money for big big lawyers, and still if we do not win, then they have got legal right to stop us. So better to forget this business of lawyers and judges and simply go on with Sankirtana. That is Civil disobedience movement. Let them fill their jails with us again and again, but we shall not stop our Sankirtana movement. Also it may help if you get some public sympathy through publicizing our constant persecution in the newspaper journals. Gradually the city officials and constabulary will become embarrassed to arrest us further and gradually we will be allowed to carry on our Sankirtana unhampered.

But I do not think this business of expensive lawyers and going to court will solve anything, better to simply become determined to hold our Sankirtana in our own manner as we like, and simply depend upon Krsna and His protection at all times.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. There is no difference between our chanting on the street or in temple or in jail. A Krishna Conscious person is not afraid of any place, but he wants to chant constantly in all circumstances.

My dear Rsabhadeva,

Please accept my blessings. I am in due receipt of your letter from Berkeley, dated August 28, 1972, and I thank you very much for your kind sentiments. I am very happy to hear that you have got a son for dedicating for Lord Caitanya's Sankirtana movement. Yes, his name of Gauranga das is very nice and I have no objection for calling him like that. Now we are at the Dallas school and it is very nice place and just suitable for educating your son here when he becomes old enough, at least four or five years old. Now give him all facilities to become conscious of Krsna from very birth, and this will be the greatest service for Krsna if you can deliver Him one pure devotee.

My dear Yamuna,

Please accept my blessings. I thank you very much for your letter dated August 20, 1972, and I have noted the contents carefully. I am very happy to hear that you are having nice programs in Vrindaban of kirtana and lecturing in various places. That will make us well-known in those parts and respected by everyone. I am glad to hear also that you have made my rooms very nicely painted and cleansed. Now I shall be coming there by early October and I want to stay in those rooms, so you may prepare them for me very nicely and decorate with flowers, etc. I think that Tamala Krsna, Bhavananda, and Subala have returned to Vrindaban for assisting Gurudasa in the construction work and for helping Tejiyas to organize the Delhi Pandal program, so you may host them very nicely and see to their all comforts and facilities for swiftly working on these programs.

I have sent up two sets of Saurabha's plans to Gurudasa in Vrindaban. Did he get them? Either one of these plans is just suitable for our purpose, so you may get them approved immediately and begin the work. I want to see something tangible by the time I reach.

My dear Amogha,

Please accept my blessings. I am in due receipt of your letter from Djakarta dated August 29, 1972, and I have noted the contents with great pleasure. I have also recently received one letter from the Djakarta Krsna Consciousness club and it is very nicely offering respects on Vyasa Puja occasion. I have replied them duly. I am very glad to hear that your mission is resumed in Indonesia and that you are taking up this work again with full enthusiasm. And the response has been very good there. Now go on teaching in this school and distributing our literatures more and more, and try to recruit some local men for becoming our disciples and helping you there. For relying upon devotees from outside to come there is not very practical business. It is better to recruit some local men and train them to do the work. But I think Madhudvisa can supply you with one or two men conveniently, you may request him this.

Regarding my coming there, I do not think it will be possible to stop on that side when I return to India this time, but when I shall return next year I shall be very happy to stop in Djakarta and see how the things are going on.

Now you are working very seriously and sincerely for Krsna, and you have taken great risk and courage to work in far off place on His behalf, so you may expect that He is giving you His all blessings at every turn and will continue to fix you up in the bliss of His devotional service more and more.

Hoping this meets you and your good wife Rasarani dasi in the best of health.

New York

My dear Atreya Rsi,

Please accept my blessings. I have received your letter dated September 5, 1972, duly delivered to me by hand of Syamasundara., and I have noted the contents carefully. Regarding your questions, Seva Puja* means only for daily worship of deities. The building fund will construct, the book fund will maintain, and this fund is for daily expenditure of Seva Puja or worship of the deities only. So far your administrative duties as secretary of Mayapur-Vrndavana Trust Fund are concerned, that will be informed by you. For the time being, rents should be collected by Karandhara and sent to India. How it will be done I shall think over and let you know. As for the responsibility for proper spending, the man in charge or the president will be responsible in Mayapur and Vrndavana.

Regarding my personal servant, I have taken one boy, Srutakirti, as my personal servant and Nanda Kumar has remained in New Vrndavana with Kirtanananda Maharaja.

Now we have got a very big task before us to purchase the skyscraper building on 40th Street. So I am entrusting that you and Bali Mardan and the other big leaders there in New York will be able to do it. Cooperate amongst yourselves and try to raise the funds very scrupulously and if you remain serious and sincere in your efforts to get this wonderful building for Krsna, He will give you all help and guidance how to do it, without any doubt.

Hoping this meets you in good health.

My dear Citsukhananda,

Please accept my blessings. I have received your letter from Mexico City dated September 8, 1972, and have noted the contents. I would have liked to go to Mexico City but I have already gone this year and too much traveling now for me is a strain. Therefore I am going directly from Los Angeles to India, but when I return next year then I shall certainly come again to Mexico and visit all of my nice disciples there.

Regarding the new altar, Sri Guru and Gauranga altar would be appropriate. If you are able to make that show in the theater for the public of our kirtana and aratrika, etc., that will be very very nice. And I am very much pleased to hear that you have purchased some land for asrama and that you will be having cows there on six acres. I shall be anxious to see that place when I come back from India.

My dear Upendra,

Please accept my blessings. I have received your letter dated Wednesday, 6th September, 1972, and I am very glad to hear that you and your good wife want to go to Perth, Australia, for opening one ISKCON center. There is no doubt about it that I shall sanction your endeavor in this respect. I am always praying that my disciples will gradually increase our war against maya on all fronts. But I do not think it is necessary to take money from Karandhara for opening that center. From our experience we have found it is always in the long run more stable and better situation if local people can be persuaded to help from the very beginning. So you may solicit money from them in small amounts and gradually collect in that way enough to open a center in involve or engage all of the local people from the very beginning. You are the pioneer in Australia so I shall expect the Perth center to be first class in every way, and next year when I return from India I have been invited to Djakarta and New Zealand so I shall be very glad to stop at Perth, Australia, also and see you then.

My dear Yadubara,

Please accept my blessings. I am in due receipt of your letter dated August 28, 1972, and I have appreciated the contents carefully. I am glad to hear that all the departments of business are going on successfully, now I am anxious to hear if the conveyance deed has been signed and what are the contents. Kindly send me the copy duly signed as quickly as possible. this will give me great relief. As soon as the conveyance has been signed you may begin the building work immediately. I am coming to India soon, at east by October, and I want to see that the building projects in Bombay, Mayapur and Vrndavana are going on nicely. This Bombay project is one of our most important projects in the whole world and I am looking to you and the others there in Bombay to see that it is done very magnificently. I have been very much encouraged to see some advertisement booklet printed by Air India wherein the theme is exclusively dedicated to Krsna and Vrndavana. With this idea the Air India Company is enticing tourists to come to India simply to experience the spiritual life around Krsna. So in future I expect that our Bombay project will be one of the most important show-pieces in the world for foreign tourists to actually come and get actual experience of Krsna Consciousness or the real Vedic culture. So with this idea in mind work very vigorously and with renewed spirit to do the work very gorgeously and raise up first our temple and later on the apartment houses as you have planned.

One thing is, I have just returned from Dallas Gurukula school, and the young students there require to learn Sanskrit language. So I think you may purchase minimum fifty copies of the primary Sanskrit book for learning Sanskrit language from Bharatiya Vidya Bhavan in Chowpatty and send to Dallas school as soon a possible. Ask them if they will donate, but if they will not donate then purchase outright minimum fifty copies of the first grammar or primary book for learning Sanskrit at earliest age.

Another thing is, I have got one letter recently from Mahamsa requesting to change his position, but you can tell him to kindly wait until I come there. Then we shall see. Also I have heard from Karandhara that Giriraja wants to give up his position as president at Bombay and that you will take charge of Bombay center. Similarly, I have sent him one telegram requesting to wait until I come there, then we shall make all arrangements.

Hoping this meets you in good health,

Hamburg

My dear Hamsaduta,

Please accept my blessings. I am in due receipt of your letters dated August 11 and Sept. 2, 1972, and I have noted the contents carefully. I am very glad to hear that you have conducted one nice parade and festival through the city streets of Hamburg. Yes the German people, they like to hear philosophy, so if you can arrange some philosophers' meeting we can come.

I have read your account of the incidents of fighting with the hoodlums with great concern. After all, this world is full of darkness and controlled by the demons, so difficulties are there certainly. But if we stick to the lotus feet of Krsna, these difficulties will be over, just like a child jumps over the pit caused by the hoof of a calf. Krsna fought with so many demons so fighting is not prohibited if it is for the good cause. But one thing is, these are young boys, so actually if you approach them humbly and you yourself go to their leaders and speak to them nicely about Krsna Consciousness they will agree to leave us alone, that I think. But if you make big armed confrontation and show of strength there will be continuous fighting more and more. Better to resolve the whole situation by approaching their leaders at once and reconciling everything with them by bringing them prasadam and other nice gifts and giving them our philosophy, and if they are willing to hear it, also teach them how to chant Hare Krsna mantra. These are innocent young boys, they are simply misled, so you go to them and give them the right information and then you will have nothing more to fear from them. But if you think buying a shotgun is necessary, that is all right, we have to defend Krsna's temple if it comes to it.

I understand that you are having one book festival in Frankfurt this month, and I think Karandhara is coming there to assist you, so try to make our display and exhibition very prominent, and if they will allow us to have kirtana or distribute prasadam, we may also do that. That is a very important occasion so try to make the best utility of it and make our books very widely distributed all over Europe and other places.

Hoping this meets you in good health,

My dear Cyavana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 9, 1972, and have noted the contents carefully. I am glad to note that you are by good diplomacy maintaining our good relationships with all the men who have helped us there in Nairobi. We don't want any disruption. Rsi Kumar is not there now so you do everything nicely and diplomatically. Brahmananda Swami is there, GBC man, so you consult with him and do everything diplomatically. On the whole, they should not be given any power unless they are my initiated disciples, but try to keep them as consultants. It is not that we should stop our relationship and not remain on speaking terms any more but try to keep everyone as our friend and engage them in Krsna Consciousness somehow or other. Enclosed please find the copy of Mr. Shah's letter, and I have accepted his resignation.

I have several items told you to pay the printer, Mr. D. L. Patel, whatever Harjibhai Patel approves. Why you do not settle this business and go forward? Whatever Mr. Harajibhai Patel considers should be fair price for the printing work, that much we will pay immediately and be finished with the business.

The boy Sharma from Bombay may come there to join you if you want him. By your own work you can recruit men locally, that is the best process. So immediately resume the preaching work amongst the Africans and show yourselves as always meek and humble and refrain from a tough attitude and in this way gain their confidence. Gradually you will recruit men locally and they will be able to share the responsibilities. Our process is slow but sure, not that we must do everything immediately and then later on regret it. Many of our big centers started with only a handful of men and because they were determined to expand by recruiting the local men, that has been their success.

Hoping this meets you in good health.

My dear Gurudasa,

Please accept my blessings. I beg to acknowledge your letter from Vrndavana dated September 3, 1972, with the letter from Mr. Suri's firm in New Delhi, and I have noted the contents carefully. The first thing is to develop our own place. There we must immediately build a temple. I wanted a temple like Govindaji's, is it so difficult that for the last six months you have consulted so many engineers? Any ordinary engineer can draw up the plans and get it passed. There has been so much unnecessary correspondence. We have sent two sets of plans, how is it that all the plans are being lost and you have not received them? So we cannot divert our attention further, but if they donate then we can spend very elaborately to renovate those temple. As for purchasing Kesighat Temple, we can see later on, we have to see to our own plot first. One thing is, are there any tenants in these temples? If so there is no question of purchase as there will be long process of litigation to remove them.

King should donate to brahmanas. We are a society of brahmanas, therefore the king should donate us those temples and we shall keep them in his name, and we shall renovate them and make them very gorgeous for the foreign tourists. And they will appreciate the contribution of the king of Bharatapur and will perpetuate his memory. If the 25 lacs which the king proposes is spent for renovation and making the places very nice, that is better. We will spend at least 10 lacs for renovating all these places up to date. We shall everywhere advertise that it is the king of Bharatapur. We are prepared to make a formal agreement that we shall spend a minimum of 10 lacs for renovating, if he will donate. And if we get that land, we can cultivate agriculture. So approach him yourself immediately and ask him to donate. We will occupy immediately and renovate and fill the places with foreign tourists.

I shall be coming to Vrndavana by 15 October so let me know what are the arrangements in Vrndavana and also at Delhi festival. I have written to Tejiyas one letter, and you may see it, regarding the proposal for Delhi Pandal. Many other of my disciples from U.S.A. will be coming to Vrndavana also, so you may expect to accommodate many devotees there in Radha-Damodara Temple and if there is not sufficient room then you should find other accommodations also. My dear Sudevi Dasi,

Please accept my blessings. I am in receipt of your letter dated September 8, 1972, and have noted the contents therein. Marriage between husband and wife means that the husband must forever be responsible for the wife's well-being and protection in all cases. That does not mean that now there is agreement between us, therefore I am responsible, but as soon as there is some disagreement then I immediately flee the scene and become so-called renounced. Whether your husband likes to take responsibility as your spiritual guide or not, that does not matter. He must do it. It is his duty because he has taken you as his wife. Therefore he must take full responsibility for you the rest of his life. And you also must agree to serve him under all circumstances and assist him in every way so that he may make advancement in Krsna Consciousness. By his making advancement in Krsna Consciousness, automatically the wife will make advancement in the husband's footsteps. But if you do not assist him and be very obedient to his welfare, then he may become disgusted and go away. So there must be mutual responsibility by both parties, and now that you are married couple there is no question of your separation, but you must both strive very hard to serve Krsna together in harmony. What are these nonsense emotions that cause you to go this way and that way, the real thing is your duty. Now you are married couple, you know what your duty is, so best thing is to perform your duty and always think of Krsna. Never mind some temporary inconveniences, we must remain steady in our duty to Krsna.

Regarding Siddhasvarupananda, these things which you have heard are simply rumor and there is no substance. Siddhasvarupa does not want to take disciples, neither he should have disciples while I am alive. That is the process. I have never said that Siddhasvarupa is a pure devotee.* That is simply concoction. Now I am going to India in few weeks and I shall stop at Hawaii and take Siddhasvarupananda to India for training him up properly.

Hoping this meets you in good health,

All Glories to Sri Guru and Gauranga!

Dear

Please accept my most humble obeisances at your feet. Prabhupada just spoke with me regarding the distribution of foreign (other than English) language literature. His direction is that 10% of the gross income on the sales of all of our literatures, books, and magazines, should be sent to The Bhaktivedanta Book Trust. The BBT is financing many world-wide projects for the society, and therefore all income from literature distribution should contribute and support it. Please therefore make the necessary arrangements. A simple way to accomplish this would be to figure at the end of each month what your gross (total; before subtracting production costs and overhead) income from the sale of literature was for that month, calculate 10% of this figure , and send this to BBT in care of myself in Los Angeles. I know that you will understand that this subsidy will greatly facilitate the growth of Society-wide programs and everyone will benefit. From your local view it may appear to be an imposition, but I assure you that overall it is in the interest of Lord Caitanya's Movement. Regarding your regular remittance, it will be left solely to your integrity and "for the overall benefit" conscientiousness. I am sure you will do the needful.

Also, regarding the sale of translations to outside publishers (which we hope to do with the Bhagavad-gita As It Is for Spanish, French, and German) 50% will go to the local Center which did the actual translating and 50% will go to the Book Trust, as per Prabhupada's directions.

If you have any questions or points to make, please correspond with me.

Haribol.

Your Servant, Karandhara das Adhikari

Letter to: Bali-mardana, Pusta Krsna

•

Los Angeles 18 September, 1972

New York

My dear Bali Mardan, Pusta Krishna

Please accept my blessings. I have been informed by Sriman Syamasundara. of your question via telephone from New York Temple, and my reply is that this sankirtana or street chanting must go on, it is our most important program. Lord Caitanya's movement means the sankirtana movement. You may simply take two hours for chanting sixteen rounds daily, two hours for reading congregationally, and balance of time go out for sankirtana. We must do both, reading books and distributing books, but distributing books is the main propaganda. Reading in class for two hours is sufficient and other reading can be done in spare time if one has got it, it is not that one has to be always reading. One hour a morning for Bhagavata class and one hour evening, either Bhagavad-gita or Nectar of Devotion, that is sufficient.

Now you are my elder disciples and both of your are sannyasis and also advanced in Krsna Consciousness, so these questions should not arise amongst you again and again. That means everyone is not conscientious. These things are not new to you, why do you continually ask these questions? The GBC authority must be accepted under all circumstances, not that there will be fighting amongst you. This fighting spirit will destroy everything, but what can I do, you American and European boys are trained up in this fighting attitude. Now put it aside and simply work cooperatively for spreading this movement all over the world. The standards I have already given you, now try to maintain them at all times under standard procedure. Do not try to innovate or create anything or manufacture anything, that will ruin everything. Simply do as I am doing and be always serious and sincere to serve Krsna, and He will give you intelligence how to do everything.

So far the painting department is concerned, they have telephoned me also, so their work is very important, and four or five painters may be allowed to paint full-time, after chanting two hours their rounds, and they may spend one or two hours on sankirtana party as it is convenient. Jadurani is the best book seller of all, so she may go out for distributing books as much as possible if it is convenient and does not tax her too much away from painting art work.

Now I want very much to get that building in New York so kindly inform me regularly what is the progress. I understand they have refused our offer of cash $600,000, so you may offer more, up to $900,000, or as you see fit, reducing the cash outlay, also as you see fit. And try to take a mortgage for fifteen years. If Kesava is there he may become the President of the New York Temple. If he is able to get that new place, then he will have done something big and he can take that post of President of New York Temple. And you are GBC man and in charge of ISKCON Press. This will free you for preaching more and traveling, because you are also sannyasi.

Hoping this meets you both in good health,

Honolulu

My dear Govinda dasi,

Please accept my blessings. I have received again today your shipment of mangoes from Hawaii, and I have received other mangoes in the last few days, and I thank you very much for thinking about me. And I am always thinking about you, along with your good husband Gaurasundara, because you have been of such good assistance to me for pushing on this Krsna Consciousness movement in your country and other places around the world. Without your kind assistance and thinking of me, I am one old man, what could I do alone? But fortunately Krsna has sent you to assist me and I can appreciate it very much, may Krsna give you his all blessings more and more.

Now I am preparing to go to India some time in middle of October month, and I want to stop in Honolulu for one night to rest, and Siddhasvarupananda can meet me there for coming with me to India and remaining with me for some time. I shall be very glad to see all of you, my good disciples, at that time. Meanwhile, hoping this meets you and your husband in the best of health.

New Delhi

My dear Dr. Karan-Singh,

Please accept my blessings. I beg to inform you of one matter which may be of interest to you, namely that we have now got thousands of disciples and well-wishers in the Western countries and out of them many are desiring to travel to India in the near future, at least 200 persons at a time, to see all the temples, especially the Vaisnava temples. So Air India has got a cheap round-trip fare to India and we want to take advantage and bring hundreds of members of our society and others to see all of the temples, so what will be the arrangements?

You are the Minister for India of Civil Aviation and Tourism, so I think this news should be of special interest to your department. Now we are prepared to bring thousands of visitors to your country, but we need also your help and cooperation to do this in proper manner. Now we have created interest all over the world in Krsna and Vrndavana, for instance the Air India is using the Krsna theme in their advertising campaign, so we have created this atmosphere of interest in Krsna in the Western countries, and I think that cooperatively we may work together to increase the foreign tourism in our country of India. What will be the arrangement for foreigners to see the temples, will they be allowed or what is the situation for government sanction for foreigners to see the temples?

Now I am returning to India in middle of October, and I am coming first to Vrndavana and New Delhi for holding our second annual Bhagavata-dharma Discourses and Hare Krsna Festival, and if Krsna desires it, we may meet again at that time.

Hoping this meets you and your good wife in the very best of health and cheerful mood,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Nayanabhirama

Please accept my blessings. I am in due receipt of your letter dated September 4, 1972, and I have noted the contents carefully. Yes, I did not see your drama in New Vrndavana about the advent of Lord Krsna. But I have heard from others that it was done very nicely, so I am very much pleased. These kinds of dramas about Krsna, Krsna's pastimes, and also Lord Caitanya's pastimes, are very much desirable for presenting to the public widely. So if you can organize your traveling party to present such dramas all over your country and other places that will be very much appreciated. Perhaps you can work together with Visnujana for presenting our road show opera to the public also. I had opportunity to see that opera in Pittsburgh and it was very well done, with a lot of drama and dancing as well. You may keep me informed from time to time what is the progress of your play-acting group, Vaikuntha Players.

Hoping this meets you in good health,

My Dear Niranjana,

Please accept my blessings. I thank you very much for your letter from Benares dated 9 September 1972, and I have very much appreciated the contents. Yes, if you can come to Vrndavana in October to see me, that will be very nice. I shall be arriving there approximately the 15th and can remain for about three weeks before going to Delhi, where we will hold our second annual Hare Krsna Festival and Bhagavata-dharma Discourses. I am very glad to hear that all of your activities are going on successfully, that you have finished your exams in good order and you have increased your chanting also of rounds. And most of all I am happy to hear that you have begun some translating work. Now you work conjointly with Ramananda in Gorakhpur for producing all of my books in Hindi language, that will be your great contribution. You are a learned scholar, so is Ramananda, so the both of you together should head up this program of translating and publishing my books in Hindi language. If you require to have anything sent you from this country, I can arrange. You should be given all facilities to carry on this work with all expediency. Thank you very much for helping me in this way, may Krsna bless you more and more.

My dear Madhudvisa,

Please accept my blessings. I am in due receipt of your letter dated September 13, 1972, and with great satisfaction I note that you are becoming very happy and satisfied in your duties there in Australia. Now go on like this, preaching widely all over South Pacific Zone, and holding sankirtana assembly. One thing, I am going to Philippine Islands by 11th October on my way to India and I shall remain in Manila for three days. I think that you may come to meet me there and we shall discuss everything at that time. While you are in Philippines you can see how things are going there and then go to Hong Kong and other places in your zone for making inspection. Bhurijana and his wife I have also invited to meet me in Philippines.

So far Mohanananda is concerned, I have asked him to go to Bogota, Colombia, South America, for helping Hanuman open one center there. I think that would be his good engagement as he is expert in opening centers.

I am very much pleased to hear that you are distributing so much of our literature and books and I think if you go on like this that very soon you will become the number one book distributers in the whole world. At least I want that. I have already advised Caru in the matter of the legal business in Sydney, and I do not think there is any need for going to court and spending so much money. We are prepared to hold sankirtana on the street or in the jail, it does not matter, wherever we are, we are able to vibrate Krsna's name and be happy. So gradually they will grow tired of persecuting us and just like in London and other places we shall become established with our sankirtana party.

As Caru has recommended, I am very glad to accept Rajgana and Devi Darsana for second initiation. Enclosed find two threads, duly chanted by me, and two copies of Gayatri mantra. Now hold the fire yajna and distribute the Gayatri mantras and instruct them how to chant on the finger divisions. They should hear the tape of me reciting Gayatri mantra into the right ear and the ceremony shall be held only in the association of devotees. I am enclosing one copy of Gayatri mantra tape herewith, as you have requested.

My Dear Visala,

Thank you very much for your always presenting me with your hard-earned money. I can very much appreciate your sacrifices for me. Now my best advice to you is that you remain like Narada Muni, the perfect brahmacari, loitering all over the universe and chanting the Lord's name. I have understood that you are our top first class book distributer, and you can rest assured that this has not gone unnoticed by Krsna. Krsna appreciates very much when His devotee works very hard to serve Him. So you are doing the greatest service, do not be disturbed by anything temporary disturbance, simply focus your energy in always serving Krsna in this way of distributing His books widely, and you may travel if you like, and always under every circumstance remember to chant the Lord's name and remember His lotus feet, and that will protect you under every condition, without any doubt.

New York
My dear Bhaktijana,

Please accept my blessings. I am in due receipt of your letter, undated, and I have read the contents carefully. Yes, that is a good program that you are doing in New York by going from place to place and holding classes, having kirtana in the street, and generally recruiting devotees for sending to the Brooklyn Temple. If you do like that, going from one part of New York to another, New York is the biggest city in the world and there are innumerable places where you can hold chanting and classes, so if you go on like you are doing, I have no objection. But at all times, give your kind cooperation to Bali Mardan for working together on your program. He is GBC and President of Brooklyn Temple and he can give you all advice and facilities for your work. So kindly cooperate with him as much as possible, and that will please me very much. So far going to Puerto Rico, I have no objection if you go there, but if your program in New York is successful, better to develop that. But if someone goes to Puerto Rico in the future, that also sounds like a good adventure. But I think it is better to develop what we have got for now, and later on we shall see if someone can go to Puerto Rico.

You do not require to worry as I shall never leave you, you are my disciple and I am your spiritual master, so there is no question, as long as you follow my instructions, that I shall ever leave you. Just remember under all circumstances to chant sixteen rounds of japa daily, offer your prasadam to Krsna, and do all of the things which you already know, as you are senior disciple. These things will protect you under all conditions, without any doubt.

Hoping this meets you in good health,

Vrindaban

My dear Tamala Krishna, Subala, Gurudasa, and Bhavananda,

Please accept my blessings. I have received your joint letter dated Sept. 17, 1972, and I am very much encouraged that you are all big men gathered together there in Vrndavana to launch the building project of ISKCON Temple. I have full faith that you will do the needful by consulting all together how to do everything, therefore I have called you all there. But one thing is Bhavananda promised to remain in Bombay to finish up the conveyance deed business and not to leave there until it was finished. He was sent from Calcutta especially, but he was also silent. So I do not know as yet what has been the position regarding the conveyance and no one has kept me informed what is the position there. So this business worries me all the time, why he has been silent?

But I am pleased to understand that something will be concretely done in Vrndavana at last, that is my dream, to build a simple temple just like Govindaji's that is not so difficult. Now these men are joining us and cooperating to do the construction and engineering work, so I think my dreams will be finally realized at last.

I am leaving Los Angeles around 6th October and we have a few days program in San Francisco. From there we shall fly to India, stopping three days in Manila, and we should land in Delhi by the 16th October. I shall inform you details. One thing, I want to know how the preparations are being done for the second annual hare Krsna Festival and Bhagavata-dharma Discourses at Delhi starting around the 6th of November. If you can get that LIC grounds again that will be first class. Now we have got many many books in India and I want to raise the funds for our building projects at Bombay, Vrndavana and Mayapur by selling these books widely all over India, so these pandal programs are a golden opportunity to sell many many books, so make arrangements like that.

Hoping this meets you all in good health,

Nairobi

My dear Cyavana,

Please accept my blessings. Thank you very much for your letter dated 18th September 1972, and with great satisfaction I have noted the contents therein. I am pleased to understand that things are once again back to normal in Nairobi and that you are all very enthusiastic to spread our preaching work amongst the Africans and American and European boys and girls there. I have heard from Rsi Kumar also that South Africa is first class field in Africa for preaching. Now you say the basic expenditures are finished and we have got very nice place there, now concentrate on making men into devotees and recruiting especially the African boys for helping us preach all over the continent of Africa. That is very good news that you have sent more than $1,200 to Karandhara, now you may order as many more books as you require from him and take similar sanction from the government for repaying him.

Now concentrate your efforts by bringing our regular program up to the highest standards, that is, holding street sankirtana, holding at regular times of the day very opulent aratrika with prasadam distribution, having classes in philosophy, chanting sixteen rounds, etc. This is our strength. If you practice these things now with full concentration and carry on the regular propaganda work, automatically people will come forward for helping and you will make also devotees there. That is our Krsna Consciousness process of regular program.

Hoping this meets you in good health,

72-09-23

My Dear Kirtanananda,

Please accept my blessings. Thank you very much for your letter from New Vrndavana dated 19 September 1972 along with the box of sandesh. The sandesh was the first class sandesh I have tasted in your country, you have mastered the art perfectly well, thank you very much. I am happy to hear that your program in New Vrndavana has been very successful, and for my part I was very much pleased to attend this year. Now I can understand that this Bhagavata-dharma discourse can be held anywhere all over the world and people will come in large numbers such great distance and under all kinds of hardships just to hear our discourse. That is very encouraging to me, now you are sannyasis and GBC men and I leave it to you to hold this Bhagavata-dharma discourse and Hare Krsna festival all over your country widely, and this will be the success of our movement. You are experienced devotee, and you know how to do things well, so kindly train the others and distribute your experience widely, and organize. If such festivals can be held in different places continuously then my dream will be fulfilled. Your program for traveling to the colleges is nice, try to sell as many of our books and literatures as possible and lecture to all the students what is the real purpose of their education of life. If students become interested, they may come to New Vrndavana and stay with you for some time, and you can instruct them in our philosophy. Gradually try to develop that place, there is immense potential and immense land for development. I saw so much land, but there were no men working the land or raising crops. That is our purpose for keeping so much land, to utilize it in the service of Krsna. So next year you can raise so many kinds of fruits and vegetables there and keep cows, and that will be the ideal Krsna Conscious community of living.

Srutakirti is doing very nicely as my servant, he is a very good boy and I thank you for recommending him to me. So far purchasing the Allen farm is concerned, that you must decide in conjunction with Rupanuga, Hayagriva, and the others. But one thing is, we have not yet developed what we have got, so what is the point of expanding further? However if there is a good bargain and you think it is wise, I have no objection if you purchase the Allen farm, provided everyone agrees and there is sufficient money available.

Upon your recommendation I am enclosing two sacred threads, duly chanted by me, and three copies of Gayatri mantra. Now you may hold the fire yajna for Murari Gupta das, Ambarisa das, and Vijayadevi. Teach them how to count on the finger divisions and play the tape of me reciting Gayatri mantra into their right ear. This ceremony should be held only in the company of devotees.

Hoping this meets you in good health.

London

My dear Pusta Krsna,

Please accept my blessings. I have received your note from Boston dated September 22, 1972, and I think that by now you must be in London. I am very glad to hear that you will be holding Bhagavata-dharma Festivals all over England. I know that you are good preacher and sincere boy, and Revatinandana Maharaja is also sannyasi, so you work together with him and with the others in cooperative spirit to spread this Krsna Consciousness movement widely all over the British Isles. From Revatinandana I can understand that there is immense field for preaching amongst the youth and in all parts of the country, so do not hesitate to take the bold step forward and invite everyone to become devotee of Krsna.

One thing is, now we have got many many books in England and we must raise funds for our place there, so try to increase the selling of literatures and magazines and deposit everything in the building fund. Preach, sell books, in this way gradually you will feel yourself becoming perfectly happy.

Hoping this meets you in good health,

London

My dear Revatinandana,

Please accept my blessings. Thank you very much for your letter from London dated 20 September 1972, and I have very much enjoyed hearing your description of the programs in England. I am so very much pleased to hear about your successfully preaching widely in the youth clubs and halls and colleges, this is my dream coming true. I wanted that many sannyasis would travel widely in the Western countries and preach to the young people, especially in the schools and colleges, and spread our Krsna philosophy in these places. Now Krsna has given you all facilities for this work, and I can understand that you are very intelligent boy and you have got good enthusiasm, so I am taking encouragement from your progress. One thing is, now you have got many many books and we require to raise huge sum for purchasing our new place in London, s my senior disciple and experienced man you should take lead in supervising the distribution of books widely all over Great Britain. You say that the sankirtana party in London requires more push, so you do the needful for organizing them and enthusing them to sell books and literatures more and more. Karandhara is coming there in a few days and he will see how everything is going on, because Syamasundara. must remain with me. But if Syamasundara.'s presence is also required for getting that new place, he can also come there. Meanwhile, you satisfy yourself that the sankirtana parties are distributing our literatures as much as possible and depositing in the building fund. Everything above expenses should be put into the building fund and saved for the new place.

I am encouraged also that the programs in Nottinghill Gate Church were attended by many hippies and they enjoyed the program fully. Similarly, we can hold one Hare Krsna Festival every night somewhere in London by renting halls and distributing our men in various places. That Bury Place house is small, so if there are too many men for such small space they may be dispatched to open new centers at Glasgow and other places as you see fit. Or they may stay other places in London and hold programs as we did in Wembley. Now you are experienced man, you do everything nicely by consulting with Dhananjaya and the other leaders and strive always always to please Krsna constantly. Now I am old man and a little inclined for retirement, but now our organization is expanding more and more and I simply want to see that the things get done, therefore I am relying on you, my senior disciples, to do everything nicely for Krsna. Thank you very much for helping me in this way.

Bombay

My dear Giriraja,

Please accept my blessings. Thank you very much for your detailed letter dated September 16, 1972, and I am glad to learn in detail how the things are going on in Bombay. I am always thinking about that place, it is only a few steps to the Juhu Beach, and there are many nice palm trees overhead with cooling breezes, and I am looking forward very much to return there soon. Only I am always anxious how the things are going on there, therefore I have asked you to report regularly. So far the bank mortgage is concerned, that is all right. Why don't you do it and finish this business with Nair? This talk is going on since so many months, why it is not being finished up? Now we have formed a committee., now whatever you think, you do. I want to see how the things are going on, and how it is going depends on you. Now I cannot tax my brain so much from such distant place what to do if there is any difficulty, therefore I am relying completely on you, my trusted senior disciples, to finish up these things nicely. I want that construction work be immediately taken up. If this is not possible, as suggested by Madhukar Munim, we may file a criminal or civil charges, as you see fit. Either this way or that way, finish it immediately. So many letters you are sending for the past so many months, and still nothing is settled. You may take bank mortgage for 20-30 lacs extra and use it for construction, that is approved by me. I just want to see that things are done, that's all.

The Board of Trustees is approved by me. Regarding the Rs. 4,000 for paper for the Gujarati issue of Back to Godhead,, I have sent you already Rs. 70,000 and Rs. 29,000, whether that has been replaced? Then I will forward further sums. I have requested Satsvarupa to reimburse you immediately the Rs. 7,000 paid out for the Dallas and Detroit deities.

One thing is, you have sent the conveyance for the unoccupied agricultural land valued at Rs. 900,000 but there is no conveyance issued for the occupied land or nonagricultural land with buildings valued at Rs. 500,000. When that conveyance will be also signed? Kindly send me one copy of that second conveyance* as soon as possible. It is mentioned in the one conveyance you have sent me that a second conveyance must be also issued, but I want to see that that is done as quickly as possible and settle up this matter once and for all.

Your plan for forming sankirtana parties for selling our literatures throughout India is very much appreciated by me. Now you have got many many books there and in order to finance our building projects in India you must sell these books profusely. The traveling party idea is the best method for distributing our literatures widely. All funds should be deposited in the Book and Building Accounts and spent for those purposes only. I have very much appreciated your Hare Krsna monthly magazine, it is a great step forward, now maintain it actually monthly and collect many advertisements and spread our propaganda in this way. One thing is, Bhavananda has suggested that you need more help but he was called to help you from Calcutta and coming such long distance he was also silent and then he went away. I do not know why he has gone away because I asked him to stay there in Bombay and help you execute the conveyances and not to leave Bombay until the conveyances were signed. Kindly keep me informed more regularly what you are doing and how the things are getting done in Bombay.

Hoping this meets you in good health.

My dear Amogha,

Please accept my blessings. Thank you very much for your letter dated Sept. 21, 1972, and I have noted the contents with great encouragement. I am especially happy to hear that you have got one Chinese boy there who is doing some translating work. Yes, the Chinese-speaking portion of the world is very huge and it requires to infiltrate gradually, especially by distributing our literatures widely in Chinese language. So his service is the greatest to Krsna. Try to recruit any such local men there for helping you spread this movement in Indonesia and other places nearby, because it will not be possible to always import our men. Better is that you convert the local people and train them nicely in our philosophy and send them off for preaching party.

Now I am going to India very soon from Los Angeles and I shall be stopping for three days in Philippines, Manila* before going on to Delhi. I don't know if it is possible, but if you like you can come there to meet me. Otherwise, I shall be happy to visit you in Djakarta on my return from India next year.

My Dear Giriraja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 25, 1972, and I am very much distressed that this conveyance business is still going on and it cannot be settled. You have formed a big committee. with Sumati Morarji, so what use is such committee.? Why they cannot help you finish this business? If the money is still not available, what is the use of this big sound? Although by law Mr. Nair must give us the conveyance, and we are not legally bound to pay the 5 lakhs conveyance tax, still, we shall pay it and subtract form the purchase price, as he suggests. But one thing is, you must secure document in proper legal from which will insure that the five lakhs will be subtracted from the fourteen lakhs purchase price, not that again we shall have to pay according to Mr. Nair's whims. Try to get that bank loan of five lakhs, and Sumati-ben will stand as guarantor, try for that and somehow or other get the bank to loan us. But if you are unable to get the bank loan, we shall pay. If it is not possible to get the bank loan, you send telegram to Los Angeles and we shall make necessary arrangements from this side. But somehow or other this business must be settled up immediately, so complete the conveyance on this understanding.

You can give public notice in the Public Notices column in the newspaper and send one copy to Mr. Nair, as follows: "The International Society for Krishna Consciousness has purchased the land in Juhu, Bombay-54, known as Nairwadi, plot _, under purchase agreement dated _, and we have advanced the requisite money under the Sales Agreement. The other party, Mrs. A. B. Nair, has not, however, completed the business under some pretext. Under the circumstances, if someone attempts to purchase the land, he does so at his own risk as we are already in possession of the purchase agreement signed by Mrs. A. B. Nair."

We shall be leaving Los Angeles by the 6th October for San Francisco, thereafter we shall leave for India, arriving in Delhi by 16th October. Kindly keep me informed daily what is the progress in this connection. Karandhara is in Germany and London on some business, so if it is required he can come there immediately to assist you. I want that this conveyance business be finished up immediately. I am sending also Tamala Krishna and Bhavananda there to help you do the needful. You may inform me by cable if you have got the bank loan or not, or if you require Karandhara to come.

Toronto

My dear Jagadisa,

Please accept my blessings. Thank you very much for your letter dated September 22, 1972, and I very much enjoyed that slide of seeing the new deities in Toronto temple. It appears that they are being very well cared for, that I have entrusted you for, thank you very much. As long as Radha and Krsna are pleased by your serving them, you will notice that everything will operate very smoothly in your activities and Krsna is giving you all facility as much as He is pleased.

I am especially interested in your college program for the students, because they are intelligent and inquisitive to understand the higher things of knowledge, so try to approach them nicely and lead them gradually into Krsna Consciousness or the topmost knowledge. I am surprised to hear that the universities are freely allowing us to reside on campus and propagate Krsna Consciousness, this is a very good sign. I am going in a few days to San Francisco to speak at the San Francisco State University there on the topic of "Krsna Consciousness: The Best Alternative Life Style, the Ideal Community, the New Social Order." The professors and students at the University intend to "examine particular new movements in depth. The basic issue underlying the study of these movements is whether they comprise the beginning of a trans-national world culture, and what long range social and political effects might result from them." So we shall reply in this manner and illustrate that the Krsna Consciousness movement is the best solution for solving all these problems and that it is the best trans-cosmic culture for making everyone happy.

On your recommendation I am glad to accept these three students as my initiated disciples. Their beads are being sent under separate post, duly chanted by me, and their letter is enclosed herewith. Now you may hold a fire yajna and initiate them and give second initiation to Krpasindhu, Soulacarya, and Kaumadaki. Teach them to chant on the finger divisions and play for them the copy of the tape of me reciting Gayatri mantra in the right ear.

London

My dear Karandhara,

Please accept my blessings. By now I think Syamasundara. will have telephoned you with this information and instructions. First, regarding the business in London, it is best if you can finish it up yourself, remaining up to one week if necessary, then be prepared to go to India.

Regarding London affairs, whether George will stand as guarantor on the mortgage, or whether Syamasundara.'s presence required. If George is agreeable to be the guarantor, that is not a very big thing, only a small favor and he hasn't got to pay anything. We shall pay whatever money we have got and the rest monthly for so many years, the longest period we can get.

The situation in Bombay is that five lakhs rupees are required for executing the conveyance. This is being arranged through bank and Sumati Morarji. If this is done, then everything will be all right. But if they are not able to get the bank loan, you go there and make everything complete and the money will be supplied by Mr. Jayan. You can say it is a loan from a "friend." As soon as you get money from Jayan via Tamala Krishna and Bhavananda, then you all three sign jointly the letter of order and we will transfer the money from here. One thing is, the money should not be given directly to Nair. Rather you go with him to the tax officer and pay in his presence as witness, or the money should be paid in the registrar's office while registering the conveyance. This way or that way, but do not pay the money directly to Nair.

I want to sell those bonds, so what is the process? Have you got some broker? I shall require to know his name and address and other details. If you are remaining in London for a few days, we shall contact you further what is the next step.

Hoping this meets you in good health.

My dear son,

Please accept my blessings. On the recommendation of Nityananda I have gladly consented to accept you as my duly initiated disciple. I have duly chanted your beads and they have been dispatched by separate post. I have given you the spiritual name of Mahendranath das Brahmacari.

Now please continue to follow strictly the regulative principles, and observe especially rigidly the four principle restrictions, and without fail always chant at least sixteen rounds on your beads daily, and be happy.

If you follow these principles with determination, you will be freed from all attachment to maya, by Krsna's grace. The example is that when the sun is in the sky, then where is the question of darkness? Similarly, when the Hare Krsna mantra is vibrating on your tongue, and you are hearing attentively, then your consciousness becomes pure, or Krsna Conscious, and there is no question of maya or hazy consciousness. Just as when the darkness and the light come together the darkness cannot stand before the light, so maya cannot remain in the presence of Krsna. Always remember therefore to chant Hare Krsna, and that will save you in all circumstances, without any doubt.

Hoping this meets you in good health.

My dear daughters,

Please accept my blessings. Upon the recommendation of Jagadisha I have gladly consented to accept all of you as my duly initiated disciples. I have chanted your beads and they have been sent by separate post. I have given you spiritual names as follows:

Patricia Bebelman—-Pasupati dasi

Valerie Cormier——Varuni dasi
Pamela McFarlane—-Praharana dasi

Now please continue to follow strictly the regulative principles, and observe especially rigidly the four principle restrictions, and without fail always chant at least sixteen rounds on your beads daily, and be happy.

My dear Nityananda,

Please accept my blessings. I am in due receipt of your letter dated September 23 and I have noted the contents with care. Yes, I shall be very glad to hear that you have installed these Lord Jagannatha deities in your New Orleans temple, and I can see from the photo that they are very nicely made. Now hold the ceremony as per the enclosed instructions. During the fire ceremony you can also give the sacred thread and Gayatri mantra to Bhudara, which I am enclosing also herewith. Teach him to chant on the finger divisions and play the copy of the tape of me reciting Gayatri mantra into his right ear. Also I am sending the beads for Michael Lightfoot, duly chanted by me, under separate post. So you may hold the fire yajna, install deities, and give initiation to these two boys.

I am very happy to hear that the temple is improving more and more under your expert guidance. Now go on with our program and try to increase your attraction of Krsna Consciousness movement to the public and recruit local men more and more to become fixed up devotees of Krsna.

Hoping this meets you in good health.

My dear Susan Beckman,

Please accept my blessings. I have received your letter dated September 22, 1972, and I have noted the contents carefully. I am very much encouraged that you want to join this Krsna Consciousness movement for perfection of your life. Householder life is also the perfect platform for rendering devotional service to Krsna. Any station of life, whether you are unmarried, married, or in any occupation of life, you can achieve the highest goal by adopting and practicing the principles of devotional service. You are married and your husband is striving to become a devotee of Krsna, so you become his devotee, that is the position of husband and wife, that the husband will become a great devotee of Krsna by his wife's assistance, and the wife will take benefit and advance in spiritual life by serving her husband. You are anxious about the rules and regulations, but without rules and regulations there is more frustration. So it may be a little difficult at first, but if you are sincere to achieve the highest result of your lifetime, then you can be assured that by your efforts in Krsna Consciousness that you will very quickly become happy more and more. The difficulties of this material world will shrink to no more than the size of a hoofprint left by the calf. Actually there is no difference between devotees living inside the temple and devotees living outside the temple. You are right that the important thing is to remember Krsna, whatever is your activity. So try to remember Krsna always by following the principles as you know them, namely, rising early, taking bath, cleansing, attending aratrika, reading scriptures at least one hour or two hours daily, chanting sixteen rounds on beads of Hare Krsna mantra, going for street sankirtana, offering all your foodstuffs to Krsna, like that. In this way very quickly you will make progress in Krsna Consciousness and become very very happy in your life.

Letter to: Bali-mardana

Los Angeles 30 September, 1972

New York
My dear Bali Mardan,

Please accept my blessings. I am in due receipt of your letter dated September 27, 1972, and I have noted the contents carefully. Regarding that building on 40th Street, try to get it as much as possible, but if business of getting this building appears too much difficult or complicated, then give it up. If you like, if this place is not possible, you may try for another similar place. I have received one telephone call this morning from Kesava, who is in California, so he will not be able to take over the affairs there in New York. So how will you be able to leave New York affairs? New York is our most important center in all the world and it requires your strong leadership there, or a suitable replacement. I do not think anyone is there who is able to become president and manage the Press affairs altogether.

Regarding the question you have raised about traveling sankirtana parties and selling of books, yes, we want money. So that is the real preaching, selling books. Who can speak better than the books? At least whoever buys, he will look over. If you have to sell books, do it by hook or by crook. The real preaching is selling books. You should know the tactic how to sell without irritating. What your lecture will do for three minutes, but if he reads one page his life may be turned. We don't want to irritate anyone, however. If he goes away by your agressive tactics, then you are nonsense and it is your failure. Neither you could sell a book, neither he would remain. But if he buys a book that is the real successful preaching. That is the certificate of my Guru Maharaja, if someone, brahmacari, would sell a one paise magazine, if one of our brahmacaris would go and sell a few copies, he would be very very glad and say "Oh, you are so nice!" So distribution of literature is our real preaching. Now if you cannot handle the matter nicely, that is your fault. But the success of your preaching will be substantiated by how many books are sold. Anything you want to sell, you have to a little canvass, so he gives some money for the service of Krsna. That is his good luck and he gets the chance to read some transcendental knowledge. But if you only irritate and he goes away, that is your less intelligence.

The fact is that we have to adopt the same tactics as ordinary salesmen adopt, but the difference is we do it for the satisfaction of Krsna, they do it for sense gratification. Actually we have experienced that sometimes out of sentiment someone gives to ISKCON and then laments and wants it back, but that does not mean we should give it back. Our policy is that his money which would have been used for purchasing cigarettes, liquor, sex literature, meat, will give him the opportunity to gradually become purified. So if by tactics we save that money from being spent on cigarette packets, that is good. If we can take some money and give some literature, that is a good service. So far irritation is concerned, a child is also irritated when he is given instructions, but that does not mean that we should stop. Invite them in our feast, that is a better indication.

So if the sankirtana parties in Satsvarupa's zone are irritating the public for selling so many books, that is one thing, but by their selling books they are doing the greatest service. What your one hour of preaching will do, they will hear and go away, but if they have one book at home, they will read, their friends will read, and something solid work is done. So the art is to sell many many books and not to irritate the public, so you may instruct all the others how to do this successfully. That is sannyasa. That is GBC. There are so many places to go, so why there should be business competition sankirtana parties in New York? This problem should be adjusted between the GBC men.

My dear Sankarasan,

Please accept my blessings. I am in due receipt of your letter dated September 28, 1972, and I have noted the contents carefully. Your question is how much or how little brahmacaris should associate with the unmarried brahmacarinis in the temple. As brahmacari you should not mix at all with brahmacarinis. Actually they should not at all see the face, but that is not possible in your country. But so far as possible, remain separate and talk almost nil. Brahmacari is advised not to go near a young woman anywhere. A brahmacari should always address every woman as mother. In your country it is a little difficult, but the principle is to avoid. To talk secretly or privately is strictly prohibited. If you want to discuss philosophy and other matters you can discuss publicly in a meeting, but not privately. A brahmacari and unmarried woman in the same room together alone is strictly forbidden.

Letter to: Tamala Krsna

Los Angeles 30 September, 1972

Vrndavana
My dear Tamala Krishna,

Please accept my blessings. I have received your letter dated September 23, 1972, jointly signed by yourself, Subala Swami, Gurudasa and Bhavananda, and I am very happy to hear especially that the work is going on in Vrndavana and that you will soon begin to dig the foundation for our Vrndavana temple. I have just recently sent you one letter regarding the Bombay situation. The Bombay sales purchase agreement draft was made by you. At that time, because Madhudvisa Maharaja denied to take charge, and you also did not like to take charge, therefore I had to postpone the signing of the sales purchase agreement. In Africa Brahmananda and Cyavana encouraged me that I would take up the Bombay project and they would help me. So upon return immediately I signed the purchase contract. Now Mr. Nair is not making the conveyance complete and I do not know why our lawyer, Mr. Deewanjee is also silent. About a fortnight ago both of them were sent telegram asking why the matter is being delayed, but I received no reply from either of them. So you have been informed already by copies of letters the situation in Bombay. The summary of the Bombay situation is this: Nair says he has to pay 5 lacs of rupees to the government as a tax. This 5 lacs of rupees he is unwilling to pay from his pocket, so Giriraja, with the help of Sumati Morarji-Ben, is trying to take loan of 5 lacs from the bank, but it is not yet completed. A copy of Giriraja's letter is already sent to you and I have requested you to go there along with Bhavananda if possible or you go alone and save the situation. If money is required from here it can be arranged in the same way as with Mayapur. But it is better to arrange for the money locally through the bank, as Sumati Morarji-Ben has promised. If money is not available in that way, then arrange money from Mr. Jayan and we shall arrange for the necessary action as it is done. But in any case we must not deviate from the terms of the purchase agreement. But as a matter of concession we can pay further 5 lacs of rupees, to be deducted from the total price of 14 lacs. We have already paid 2 lacs, and if we pay further 5 lacs, taking loan from others, then it is to be understood that we have paid 7 lacs on the total, and the further 7 lacs will be paid, either taking loan from the bank, failing which, in terms of the original purchase agreement as already devised there, we shall take the remaining 7 lacs as mortgage from Mr. Nair.

All of this appears to be very complicated, and Giriraja is finding difficulty, from his letter I can understand. So I think you have to revive your position as GBC again and look after all the business of India affairs nicely. May Krsna bless you with all good sense. Your program submitted by you all jointly is tentatively accepted by me. Our meeting time in New Delhi will be informed very soon by letter and telegram both.

Regarding the Bharatapur house, try to convince the present king that everything will be in his name, that is, we shall name it ISKCON Bharatapur Temple or ISKCON Bharatapur House and we shall fix up a marble plaque in the front. For renovating we shall spend for all the three or four houses and they will be used for the same purpose, as a Radha-Krsna Temple and for accommodating foreign visitors and devotees. This movement is so great and ISKCON is propagating Krsna Consciousness all over the world, so why not Bharatapur Maharaja donate the building for this great purpose? They have lost their kingdom but still they have these buildings, so if they are given in our hand it will perpetually commemorate their nice gift to the ISKCON institution and thus to the world. We are purchasing a very palatial building in London and the Maharaja will be welcome to stay there as long as he wishes, or in any one of our places, especially in New York, Los Angeles, Dallas, London, Bombay, etc. In this way try to induce him.

Hoping this meets you in good health,

My dear Giriraja,

Please accept my blessings. I thank you very much for your letter dated September 27, 1972, and I have noted the contents carefully. I am greatly relieved to hear from you that the bank is likely willing to loan us Rs. 5 lakhs or Rs. 10 lakhs. That is the ideal solution. Best thing is to take loan. We have paid two lakhs, so take twelve lakhs from bank and finish the business. That will be nice. Otherwise, we shall go to the court with lawyer and get out a criminal case against him. That is the lawyers business. Take loan and give him, that is the best solution.

We want to keep that land, we do not want to break the agreement, therefore I have formed this committee.. Actually we are in possession of the land, and we shall remain there. Now if we have to take Mr. Nair to criminal court, and supposing it will take years to settle, still, we can occupy and carry on as we are doing. But if you can prove to the municipal officers that we are legally in possession of the land according to sales agreement, why they shall not give permission to build?

We must have that land, and on the terms of the purchase agreement. Otherwise we shall bring him to the criminal court. We are in possession of the land in legal terms, so even the government cannot take it. We can give Mr. Nair this much concession, the five lakhs worth, but it must be deducted from the purchase price. Otherwise, we shall not give any concession we shall go to the courts. You consult the lawyers. The committee. is there, I want that the land should be purchased, that's all.

Hoping this meets you in good health,

Bombay

My dear Tamala Krishna,

Please accept my blessings. I do not know where you are now, probably you are in Bombay. So, I am sending one copy to Bombay and one to Vrndavana. The Bombay dealing has been muddled by the tactis of Mr. Nair and Diwanji. Giriraja is in trouble. He is a child in these worldly dealings so immediately go to help him. The present position is that Mr. Nair wants more money. We have already paid him two lacs. So according to our purchase agreement, we require to pay him 12 lacs in 4 years. But he says that he has to pay 5 lacs to the government as tax, so he cannot pay from his own pocket. So we are prepared to pay him 5 lacs against the purchase value. So both you and Bhavananda arrange for this money from Mr. Jayan, and send advice to Karandhara by joint signature. But you must be careful to pay the money in the court (registrar's office) and not in the hand of Mr. Nair or his solicitor.

I enquired through a local lawyer why Diwanji is delaying the matter. He replied that he (Diwanji) is no longer our solicitor. So things appear to be very hazy, but we must not become the victim to the tactics of Mr. Nair and Mr. Diwanji. If things can be settled mutually even by paying 5 lacs more on the account of purchase agreement, do it and settle up the things properly, otherwise let us go to the court for specific action, either civil or criminal against the tactics of Mr. Nair.

Syamasundara. has gone to London to purchase a very big palatial building about 20 minutes from central London, and George has agreed to loan L200,000. So he is engaged there, otherwise he would have proceeded immediately to India.

Hoping this meets you in the best of health,

My Dear Andrew Parco

I beg to thank you for your letter dated Oct. 4. 1972. If you are actually very much eager to search out God, you should know that logic and argument cannot help you because the opposing elements may be better logicians and may convert your decision by better logical arguments. So far books are concerned, they are differently described for different types of men and a philosopher. So we cannot decide either from the books or by philosophical speculation or by argument and logic. So the best thing is that you find out yourself who you think is the right person in the matter of science of God.

So far we are concerned we are following the Bhagavad-gita As It Is and we see the knowledge given in the Bhagavad-gita is quite perfect in the matter of understanding God. If we compare the truth mentioned in the Bhagavad-gita with other books, sometimes there may not be equal standard of understanding. So it is better to accept some recognized authority and follow his footsteps, and that is the best way for understanding God. we simply want that people should understand God, and love him also, because human life is meant for this purpose. So if a man loves God more than anything else, he is the perfect man.

I wish that you may follow this principle and be happy.
Yours Sincerely, A.C. Bhaktivedanta Swami.

My Dear Kirtanananda,

Please accept my blessings. Your letter dated 6 October 1972 and your check for one hundred dollars are in hand. I thank you very much for your kind contribution. Yes, I am going to India via Hawaii and Manila, and I shall inform you when I shall reach India by the fifteenth of October.

I am a little in anxiety on account of Bombay affairs. It is a question of fifteen lacs of rupees, but the matter has not been properly handled by our men in India. Please pray to Krsna that things may come in normal situation. All of you may remember that we have taken a very responsible task in the matter of broadcasting the message of Lord Caitanya Who is Krsna Himself. Lord Caitanya is Radha-Krsna combined together. So you are one of the seniormost servants of the society. Kindly try to improve the aims and objects of the society so that all over the world the people may become happy.

Actually there is no problem, even in the material condition of life. Krsna has provided everything sufficiently and there is no question of scarcity or poverty. Only the demons and blind leaders are misguiding the whole population in the name of politicians, leaders, swamis, yogis, philanthropists, and making the whole world entangled more and more in problems. Our proposition is preaching the gospel of Krsna and request everyone to accept the truth that Krsna is the Supreme Master and everyone should surrender unto Him. Then there is no problem.

Hope this meets you in good health.

Now that you are President of the Detroit Temple, you have very great responsibility to take proper care of all the devotees who are engaged there and are spreading Krsna Consciousness at one of our most important centers. Formerly Bhagavan das was developing this area very nicely, so now that the responsibility is in your hands please continue with enthusiasm more and more. My dear Tamala Krishna and Giriraja,

Please accept my Blessings. I am writing this letter aboard the airship from Hawaii to Manila. I am reaching Manila in the morning 7:00 A.M. on the 11th October 1972. As scheduled I am reaching Delhi on the night of the 14th, so if need be you can see me at Vrndavana on the 15th or 16th, but my definite instruction is this,

1. We have fulfilled all the conditions as purchaser.
2. Mr. Nair has purposefully delayed with a motive to cheat us as he had done with some others in this connection.
3. But this time he cannot cheat us because we are in possession of the land and our deity Radha-Krsna is installed there.
4. Therefore we must immediately go to the court for enforcing him to execute the conveyance immediately.
5. Even the court case goes on for a long time, still our business there cannot be stopped.

6. Without going to the court, we cannot make any compromise with him.
7. But I think we can arrange the full amount of 14 lacs to get out this rascal out of the scene.
8. But we cannot do it without going to the court otherwise we shall become a party for breaking the purchase agreement. Therefore we have to go to the court before making any compromise.
9. In the meantime, take definite information from the bank whether they can loan us 50% of the whole value.
10. The whole value is 14 lacs. We have already paid 2 lacs. We can arrange to pay farther 5 lacs. That means we pay 7 lacs, the bank may pay the balance 7 lacs.
11. Actually the bank may not have to pay even 7 lacs because according to the purchase agreement, the last payment of 4 lacs has to be paid upon the decision on the court case pending about Chiman lal and company.

So you have to act according to this program on the advice of suitable lawyers.
Hoping this meets you in good health.

My dear Yadubara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 30, 1972 and I have noted the contents carefully. Concerning your request for money for Hindi and Gujarati BTG's where is the money collected from the first editions. For any magazine published money should be collected and then republished. Accounts should be kept-money invested money collected. What is this that every time money is invested, then for a reprinting, more money has to be invested?

In my last letter I informed you that 70,000 and 29,000 rupees were transferred from the Book Fund, whether this money has been returned to Book Fund. So there is no information in your letter about this, so let me know in Vrndavana whether this fund has been returned yet. Mahamsa knows it, Giriraja knows it and you as secretary should also have known it. So when I return you should inform me and then I shall do the needful.

Hoping this meets you in good health.

My dear Tamala Krsna,

Please accept my blessings. I have duly received two express delivery letters jointly signed by you. Fortunately, yesterday evening the chief minister of Assam, Sriman Mahendra Mohan, came to see me and I have requested him to write a letter to Mr. Naik, the chief minister of Maharastra. He has promised to write a letter immediately to Mr. Naik. I hope this will be advantageous for your purpose. Mr. Mahendra Mohan has promised to send me a copy of the letter he is going to send to Mr. Naik.

Hope this finds you in good health,

Bombay
My dear Karandhara, Tamala Krishna, Bhavananda and Giriraja,

Please accept my blessings. I am in due receipt of your letter of October 18, 1972, jointly signed by all of you and delivered to me by Syamasundara.. If the Charity Commissioner refuses us the permission then there is no point continuing, and in that case we shall try to get the two lakhs we have paid back and go away. But it appears the Charity Commissioner permission is delayed and not refused, it is not a very grand mistake, and we can chastise for that the lawyers. I have read the clause 11, in the original Agreement for Sale and I do not find any mention of there being any six month time limit for obtaining the Charity Commissioner's approval, as you have told Syamasundara.. So there is only some delay, that's all. That will not be sufficient grounds for him to rescind the contract. Rather, our position is very strong so long we are in possession and we have paid him the earnest money and more. So best thing is to consult Mulla and Mulla and proceed accordingly. If there is need to pay off the twelve lakhs, we can do it by giving him four lakhs immediately and the balance eight lakhs we shall arrange with Mr. Jayan very soon. But Mulla and Mulla have said it is suicidal unless there is settlement of the Chhaganlal business first. So we shall not be willing to pay the twelve lakhs unless this matter of Chhaganlal's lawsuit and the registration of the conveyance deed and payment of capital gains tax by Mr. Nair are peacefully settled without any risk to us. Try to fix up some arrangement acceptable to Mr. Nair for paying him, but we shall not risk that we may lose everything to Chhaganlal or some other of Mr. Nair's cheating dealings. So best thing is to follow the advise of Mulla and Mulla and stick to our position very securely. If there is no possibility of settling with Mr. Nair without any risk to ourselves, then we shall stick to the terms of the original agreement and take the matter to court. How he can say we have defaulted? He has purposefully delayed, so if we take the matter to court he must reply to these charges. One thing is, that the whole trouble is due to Deewanji's misdealings. He should be brought before the Bar Association and exposed. We shall deal with him later.

Hoping this meets you in good health,

•

Vrindaban 20 October, 1972

72-10-20

My Dear Karandhara, Tamala Krishna, Bhavananda and Giriraja,

Please accept my blessings. Further to my letter of yesterday, I have thought the matter over thoroughly, and without any doubt our position in the matter is very strong. Nair is bluffing. One of my godbrothers who is expert in these things has advised me, and I also know it from experience, that once the agreement of sale is signed that is final, and it will not be very easy, in fact, it will be impossible for Nair to defeat us in the courts if it comes to that.

Now the thing is that Nair has accepted from us two lakhs of rupees, as follows: On February 8, 1972, cheque #GT/HS 306871 for Rs. 50,000; on February 25, 1972, cheque CHT/A-T492829 for Rs. 50,000; and on March 28, 1972, cheque # CHT/A-T492831 for Rs. 1,00,000. Now according to our agreement, that last one lakh of rupees was not to be accepted by him until the conveyance was completed. So he has taken, that means he accepts that the conveyance has been completed! Now you may go to the bank or somehow or other determine the exact date on which Mr. Nair accepted the cheque as above mentioned for Rs. 1,00,000, and that will serve as legal proof he has finalized the conveyance terms.

Our position is very strong. Now you purchase that house on the south border-line, repair it nicely and you can live there for years if we have to. I think he will take Rs. 15,000 cash if you can persuade him, or if he will not yield you can pay him Rs. 20,000 and finish the business. Possession is nine-tenths of the law. Why you should be afraid of him? We can satisfy any court of law. He has given us possession according to the terms of the agreement of sale, and we have paid him Rs. 50,000 to take possession, and he has acknowledged receipt, that means the transaction is finished. If I have something and I sell you, and you give me money and I give you that thing, the transaction is finished, never mind there is no receipt. So with Nair our transaction is finished. We have paid him money, he has given us possession, and we have agreed to terms for paying the rest of the money, that's all. He is simply planning tricks because there is no receipt and he does not want to give us receipt.

Take information from the bank when he took the money. One year from that time according to the terms of the purchase agreement we are supposed to pay further two lakhs, that is, one year from the execution of the conveyance. So we have paid Rs. 50,000 as earnest money, according to the agreement, and the agreement then states that we must pay Rs. 1,50,000 "upon the execution of the conveyance." So he has accepted that means conveyance transaction is complete, he may give me receipt or not, that doesn't matter. It is a case of misappropriation, he did not deliver the goods. Once when I was in business I took money from one man for an order of goods and I was bit late in delivering them, so he wanted to sue me in the court for misappropriation. It is the same thing. We have paid Nair, taken possession, and now he doesn't want to deliver the goods.

According to the clauses 14 and 15 in the purchase agreement, it is our option to rescind the contract within six months, not the vendor's. But he has accepted the cheque for Rs. 1,00,000 before six months, therefore we consider that he has completed the conveyance and we do not want to rescind but we shall close the deal immediately, finished, that's all. He is trying to avoid this issue by tricks, and he has dominated you and you are little afraid of him, and he has fooled you to think he is in superior legal position so that you will give him some money. But this is cheating. We shall not give him any more money. Don't pay him any more. First of all bring a criminal case against him. Deewanji cannot say he was not our lawyer, because he has executed this agreement. He should be brought to the notice of the Bar Association and humiliated. So make criminal case by consulting lawyer. It will not take much time. It is simple case of his cheating, that any reasonable man can see. So immediately you can file criminal case. He has taken money but he has not executed. So why you should be disappointed and afraid of him? Our position is very, very strong. We have paid money and we are in possession, so what remains for conveyance? As soon as you take money the transaction is finished, you may take receipt or not, otherwise it is simply cheating. So find out a first-class lawyer and apply in the court that the purchase agreement is already done and get it done, that's all. He is simply bluffing.

Enclosed find the copy of one letter I have forwarded to Mr. and Mrs. Nair. You may further request them to come and see me here. It will be too much difficult for me to come to Bombay at this time. Otherwise I am coming to Bombay in December if he wants to wait so long. Another thing is, I do not think it is necessary for Bhavananda to remain in Bombay for this business. Better if Karandhara and Tamala Krishna tackle the matter co-operatively by applying their full attention, and Bhavananda may return to Calcutta for taking charge there as soon as possible.

Hoping this meets all of you in good health.

My dear Jayapataka,

Please accept my blessings. I am in due receipt of your letter dated October 17, 1972, and the pleasure of my again spending some days in Vrindaban is only exceeded by the pleasure of hearing from you the good news of our activities in Mayapur. I am very much encouraged to note the many signs of progress in the building work and other things. You are the best man for this task of being responsible for our world headquarters at Mayapur, thank you very much for helping me in this way.

Regarding the preparation of rice by steaming and then drying, we can offer such rice even it is twice-cooked. Gaudiya Math offers, even during the presence of Prabhupada it was done, so there is no wrong. It is called sidha. I never took sidha except in Gaudiya Math.

Now you have got one very nice Jersey cross-bred cow, so take care of her very nicely. Feed her nicely fodder and she will give more milk.

Never mind coming here, I shall come very soon to Mayapur and speak thrice times what I am speaking here. I am coming there soon to live with you, so do not be anxious.

Hoping this meets you in good health.

My Dear Purnaprajna and Madhavananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 25, 1972, only just now forwarded by our Los Angeles center. Do not worry, I have asked Bhavananda to return to Calcutta, and he should be returning there soon. If there is any slip in enthusiasm, then how things will go on? I have seen in Bombay everything is deteriorating, simply because this enthusiasm is lacking. Enthusiasm and patience, these things required first. But if we are not able to maintain, how we shall expand further? There must be regularly classes and reading books, chanting 16 rounds, going for kirtana, like that. This is our programme for enthusiasm, if you do not follow it, what can I do? If you are supervising in Bhavananda's absence, you must see these things are going on, that everyone is strictly observing these practices, then there will be no lacking for anything.

I am coming to Calcutta-side sometimes in January for our pandal Maidan programme, so you may inform me from time to time how the preparations are going for that pandal. Jayapataka has told me that our Mayapur building will be completed by that time, so if there is facility, I shall remain there for some time.

Hoping this meets you in good health.

Bloomington, Indiana

My dear Narottamananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 9, 1972, and I have noted with great pleasure that you are opening a new centre in Bloomington, Indiana. You are fixing up your new place very nicely, that will attract men to come there. But always remember that our first business is preaching and distributing literatures, never mind we have to live under a tree. But because the people of your country expect something, we must give them place, but preaching is our real business.

Your programme for the university students is very very nice, try to do it seriously and with scholarly approach. Yes, your chief weapon will be prasadam, because everyone likes to eat nice foodstuffs and philosophy and other things will come gradually. In this way try to make many devotees, just like so many of you may top-grade disciples came from Buffalo university under direction of Rupanuga. Keep our standard Krishna Consciousness programme to the highest level by always without fail rising early, chanting 16 rounds, holding arati, going out for street sankirtana, reading books daily, distributing as many books as possible, like that, and in this way Krishna will give you all intelligence and facility for doing His work just to perfection. Thank you very much for helping me in this way.

Hoping this meets you in good health.

Vrindaban 23 October, 1972

72-10-23

My Dear Soucharya devi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 8, 1972 and I have noted the contents carefully. You are feeling some discomfort in your life in Krishna Consciousness, but I can assure you that this is only temporary condition of little importance, because main thing is that somehow or other you have got a little attraction for Krishna and you have become His devotee and this is the highest platform of development of life. So you should always feel yourself very much blessed by Krishna that you have come to this point after so much long struggling, so if there is from time to time little discomfort, do not pay it any attention. Now you have got the formula how to achieve very quickly the supreme perfectional stage, and it is up to you if you will practice it seriously or not. If you chant daily 16 rounds and read at least one hour daily Srimad-Bhagavatam, plus your other prescribed duties, never mind this or that, you will feel yourself becoming happy more and more and these practices will protect you from maya or hazy consciousness without any doubt. Of course, it is very much favorable to our advancement in spiritual life if we are engaged in some service for Krishna which is also pleasing t us to perform. So if you have got some special talent or experience you may discuss with Jagadisa how to engage yourself in that way. That is his duty as leader, to give you good engagement.

Another item is, you are married wife, so in that position you should serve your husband nicely always, being attentive to his needs, and in this way, because he is always absorbed in serving Krishna, by serving your husband you will also get Krishna, through him. He is your spiritual master, but he must be responsible for giving you all spiritual help, teaching you as he advances his own knowledge and realization. That is the vedic system: The wife becomes a devotee of her husband, the husband becomes a devotee of Krishna; the wife serves her husband faithfully, the husband protects his wife by giving her spiritual guidance. So you should simply do whatever your husband instructs you to do, however he may require your assistance. Of course, the nature of woman is to be attached to her husband and family, so our system is to minimize this attachment by making the ultimate goal of our activity the pleasure of Krishna. Just try to please Krishna always, and no material circumstances will be able to cause you any discomfort.

Hoping this meets you in good health. Your ever well-wisher,

A.C. Bhaktivedanta Swami

Vrindaban 24 October, 1972

72-10-24

My Dear Karandhara, Tamala Krishna, Giriraja, and Bhavananda,

Please accept my blessings. I am just now in receipt of your letter dated October 20, 1972, and Visakha dasi has just arrived and has told that you have not received any letter from me, and that you have sent several telegrams and letters. I have not received all of them I think. I received one express letter from the four of you dated Oct. 16th on Oct. 20th, four days from posting. Your letter dated Oct. 19th was received by me however on Oct. 21st, and just now I have received the letter of Oct. 20th. Enclosed find the copy of my letter of 20th.

If the title is all right I have no objection to your proposal to finish the deal with Nair by paying him personally Rs. 5,50,000 and to Mr. Shah Rs. 6,50,000 30 days from completion of an appropriate conveyance, the Rs. 6,50,000 to be handed over to Nair upon his settling of the Chhanganlal suit, and provided Nair provided us the necessary tax certificate for registration before we pay. The title must be there, otherwise we cannot complete. How there can be conveyance without title? Otherwise go to court, he is afraid of going to court, you have marked it? Our advantage if we go to court is that we shall not have to pay anything until one year from the execution of the conveyance deed. We shall only have to pay according to the original purchase agreement. If we pay 12 lakhs, that will take everything, there will be no money to build, and you shall have to repay the 8 lakhs, so whether we shall risk so much under these circumstances?

And why you are giving limit 30 days to find title? You say 30 days after conveyance is signed, so that gives you much more time to find it out. Title can be cleared in time, that is not very difficult business.

You think your position is rather hopeless. But I say that our position is very strong, just the opposite. Why you say hopeless? When Nair accepted two lakhs rupees of ours, the terms of purchase are finished, simply he has delayed to give us the papers. The transaction is finished when he accepts the money, so by tricks he is delaying. So why you are delaying to make case, there is no question of searching out the title. The point is when he accepted the money he accepted the conveyance. So immediately make a criminal case. After the case is decided, he shall be forced to give us the conveyance, and within one year after we shall give him the next installment of two lakhs. Because the transaction is finished, so we can legally occupy all the land, it is not trespass when the transaction has been completed and Nair has accepted the terms of sale by accepting money.

If you are thinking hopeless, then how I can make you hopeful? Our point is, he has accepted the money, that means he has agreed to terms of SALE. Take police precaution if he is threatening violence. We are in possession according to the terms of the agreement, simply he has delayed the conveyance. Therefore I say that you boys cannot deal very well in these matters, because you are too timid. Now whatever you like you may do. Immediately criminal case should be taken, that you are not doing because he is bluffing you. He says big words and makes threat and you believe him foolishly and do like he says. That I shall not do. When we have paid money that means he has accepted. Whatever it is, do not mention title search. That will come later, after the case is settled by the court.

But one thing is, if he returns immediately our two lakhs, plus Rs. 70,000 stamp tax money, we shall vacate, that's all. There is no question of damages. Either this plan, that he pays us back our money and we vacate immediately, or we go to court immediately. One way or the other. Otherwise we are already in possession legally, we have paid according to the terms of the agreement, and he accepted the money. So just to rid ourselves of this headache we will accept back the Rs. 2,70,000 and vacate immediately. Otherwise, immediately take him to court. Our position is very strong. Do not think think weak and timid, he is bluffing. You have not read the purchase agreement carefully.

Immediately an application should be submitted to the magistrate that he has accepted the money and has willfully delayed the conveyance on tricks, and he has threatened to drive away even by violence, what is this? You could not find out a good lawyer even? This must all be heard before a magistrate.

The transaction is finished, he has illegally delayed to give us the conveyance. Now through the courts we can force him to give. We shall stick to the purchase agreement, nothing else. And take police precaution that he is threatening us. Go to the magistrate and tell him we gave Nair money and now he is threatening violence to drive us away. We shall go to the court, there is no other way. Criminal court means complaint that we have given money, he has not given conveyance, he is threatening by force to drive us from the place. This is the only settlement possible, that he returns our Rs. 2,70,000 immediately and we vacate, or immediately file criminal case. There is no other alternative. We have finished the business. He is entrapped because he has received the money. Our boys do not understand. Anything, as soon as you receive money the transaction is finished. And even it is six months passed, it is our option to rescind, not his. Charity Commissioner has delayed, that is not very serious for disqualifying us. There is no time limit mentioned for getting permission from Charity Commissioner. Still, try for the permission from Charity Commissioner as quickly as possible, then we shall go on with the terms of the original agreement, either voluntarily or we shall have to force him through the courts. One thing is, you have said that we shall have to pay ”entire additional Rs. 70,000 stamp duty,” so does this mean we must pay only an additional 5% of Rs. 70,000 or Rs. 3,500 extra, or again pay Rs. 70,000 plus 5%? That is not clear.

In my opinion if you apply a petition before the magistrate that Nair has taken the money, that he is not giving the conveyance, playing tricks, and that now he is threatening by violence, such petition will clear everything. He is afraid of going to court, that is our favorable point. My clear-cut view is simply to present a petition to the magistrate. It costs only 12 annas. This complaint should be submitted, take a good criminal lawyer and file, then everything will be clear.

Hoping this meets you all in good health.

Vrindaban 24 October, 1972

New York

My dear Rupanuga,

Please accept my blessings. I beg to acknowledge receipt of your letter dated nil, and with great pleasure I have read also the enclosed brochure ”Who Will lead Us?” That is a new chapter for Krishna Consciousness movement. Now we shall begin to educate the politicians gradually. But they are so much corrupted by their sense gratification that we shall find it a difficult task. But if gradually we may present our philosophy in public places as you are doing in Atlanta, that will be appreciated by the intelligent class of men, and it will become well known that our philosophy of political leadership is of the highest standard and morality, and if anyone wants to advertise himself that he has made programme for the welfare of the people, he must be forced to compare his programme with ours so the citizens may judge which is better. Continue increasing this political activity, it is very pleasing to me.

But so far recommendation of the Indian government is concerned, they will not help us, that is to be expected. They are the most corrupt of all, simply levying taxes, living nicely at the public expense, plotting how to get votes, and if anyone approaches ”please help us spread God-consciousness” they say ”No” and make some excuse, that's all. Never mind, we do not rely upon Indian government or any government, we shall take our strength from Lord Caitanya and He has said that His Name shall be heard in every town and village, and He is God and we are doing His business, so what some government officials can do? But because we want to engage everyone in the service of Lord Caitanya, therefore we approach these rascals, just to engage them. So you may continue in this way to canvass government leaders, the Indian Tourist __ Kenneth Keating, and anyone and everyone to help us, there is no harm.

Regarding the KLM Airlines, Syamasundara. is corresponding with them in this connection and he shall write to you separately. We are trying to get one very huge and beautiful Palace of the Maharaja of Bharatapur, just on the Kesighat by Yamuna River in Vrindaban, and our devotees are living there now. He has promised to donate, so we shall know very soon if he is sincere. If we get this place, many many foreign tourists and devotees can be accommodated, it is so nice. So try to assist Syamasundara. from your side to attract many foreign tourists to stay with us in India.

I can understand from your letter that you are doing very nicely and everything is going well. But you did not inform me what is the progress on our new building in New York, whether there is any new proposal? You have loaned London the $30,000 for deposit on their new place, and they shall repay you, but if you require some money for deposit on some new place in New York I can immediately help you. Now go on collecting very vigorously and distribute books as many as possible, I think New York is the best field in the world for collecting money, and very soon Krishna will give you suitable place.

Hoping this meets you in good health.

My dear Cyavana,

Please accept my blessings. I beg to acknowledge receipt of your letters dated October 16 and 9, 1972, and I have noted the contents with care. Brahmananda is collecting many life-members in Zambia, and if there is financial crisis there in Nairobi, why not he should send you the money he is collecting? He is not going to open centres there, there are not enough men to manage, so I think he can send you that money. But try to persuade Shah and Damji to leave their money with us as gift. Why they are giving to Krishna then taking back? Both are rich men, out of sentiment they have been offended, so try to pacify them as best you can, then they will give.

I am glad to hear that the street sankirtana and distribution of our books and magazines is going on well, especially the programme of Hindus donating magazines for free distribution to the Africans. If SubalaVilasa wants to marry that African girl, I have no objection but whether she wants to marry him? Also, take the consent of her parents and elder brothers. Such marriage may be good propaganda for our movement in Africa, but if there is any disturbance caused by it, that will be disaster, just like we saw with the Sarna girls. So you must judge whether the match will be favorable on the point that it must not cause any disturbance either in the girl's family or in the local community.

Yes, try to encourage the Life Members to give more, and organize nicely for always supplying them with books so that they may not become dissatisfied.

Hoping this will meet you in good health.

My dear Dinatarini dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 11, 1972, and I have appreciated very much your kind sentiments. Yes, I am very pleased to see how our children in Dallas school are making such nice advancement in Krishna Consciousness happy life. Small children are just like animals and they have to be t rained how to obey, otherwise they will be simply spoiled. But the art is how to apply authority and discipline so they will enjoy it and not reject, and I think you all instructors are learning yourselves that art more and more, and this pleases me very much.

I am glad to hear that the worship of deities is improving daily and Sri Sri Radha and Krishna are appearing happier in their new Dallas home. Why don't you send me some photos, how they are looking now?

My dear Aksayananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 13, 1972, and I have very much appreciated also the copy of latest BTG in Dutch language, and I have shown it to some of my Godbrothers and other visitors here. I am happy to hear all of the programs there in Amsterdam temple are going on nicely, and I think you are the best man to give all of the younger students good advice and guidance how to make advancement in their Krsna Consciousness devotional service. Now try to produce literature more and more in the native language, and introduce our philosophy into all the schools and colleges in Holland.

Regarding your questions, in the spiritual sky everything is spiritual, so Krsna has no need for living in the heart. They are seeing Krsna face to face always, so what is the use of being in heart? Outside, inside, they are the same, even their heart that is also sat-cid-ananda. There is no mechanical arrangement like this material body for anyone in the spiritual sky, what to speak of Krsna.

You can calculate how old is Lord Brahma. It is very difficult to say, but only one day of Brahma in which we are, that has not yet passed. We have come in the middle of his one day. We find in Bhagavad-gita that Brahma's one day is equal to 1000 times 400,300 years. So we are fixing his one day, so similarly he has got one night of same duration, such month, such year, similarly such 100 years he will live. He is not even yet one day old, and there are millions of Brahmas, and he is one of the smallest.

Hoping this will meet you in good health.

Vrindaban 27 October, 1972

New Vrindaban

My dear Kirtanananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 19, 1972, and I have noted the contents with care. Now we are in Radha-Damodara Temple staying, and the programme of speaking morning and evening in the courtyard is going on very nicely. It is the same peaceful atmosphere as your New Vrindaban, and just as in New Vrindaban everyone present is devotee. Actually, everywhere wherever Krishna is being glorified, that is Vrindaban.

Regarding your questions, try to finish the temples in New Vrindaban as quickly as possible using whatever materials you have. Later on they can be improved more and more and eventually they will be the first-class opulent temples in the world.

So far starting a trust fund, yes, that is very good idea, so that the deities may never be neglected. The thing is, there must be continuous income, so if there is income from land that is all right. In Los Angeles we are getting income from rents from two apartment houses because there is always certain income.

As for bathing the deities in milk from time to time, that is not required. The smarta or caste brahmanas, they think if someone inattentively touches deity it becomes impure, so they bathe. But that is not needed by us, only when they are installed.

Regarding the cook-book, that is a nice proposal to divide into two parts. There is no harm if devotees have invented recipes, so long they are strictly vegetarian, no garlic, no onions, like that.

Upon your recommendation I am happy to accept Sudhakari dasi for second initiation. Now you hold a fire yagna, give her copy of gayatri mantra and teach her to count on the finger divisions. You may play the tape of me reciting gayatri mantra into her right ear. The ceremony should be held in the company of devotees only.

Hoping this will meet you in good health.

My dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 27, 1972, and I have noted the contents with care. I am very glad to hear all the good news, and I am very much inclined to accept your invitation to come to Australasia zone as per your request. We shall be engaged in Calcutta up to January 20th, so after that date I may fly there from Calcutta, and I may remain in Australia and other places up to March 1st, 1972. Then I shall return to Mayapur for celebrating the Lord Caitanya's festival. So if you are able to supply four round-trip airline tickets from Calcutta for myself and my three secretaries, then I shall be glad to come there. You may correspond with Syamasundara. all the details of programme.

Hoping this meets you in good health.

Vrindaban 1 November, 1972

72-11-01

My Dear Giriraja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 22, 1972, regarding the supply of deity for Chicago centre. I am told that the Bharatapur deity is more than 200 years old and is made of solid silver, and therefore it will be very difficult to get government permission to export it from India. It will be too much trouble, so if nice deities can be gotten from Jaipur as we have done before, that is better.

Now first business is to get the permission of Charity Commissioner. One MP from Assam has forwarded his letter to Chief Minister Naik urging him to help us get that permission. If we cannot settle, then get the Charity Permission and sue in the court. Our position is strong. We can sue even without Charity Commission permission.

You and Tamala Krishna arrange the pandal programme in Bombay to be the first-class presentation, and inform me of the dates. I think Tamala told me once from December 20 to January 10th. From Bombay I shall go to Calcutta, and after the 20th January I have been invited by Madhudvisa to go to Australia for about one month or six weeks, and then I shall return to Mayapur. Before coming to Bombay, I may go to Ahmedabad for some time, as Dinanatha has gone there to arrange the programme.

So long the regulative principles are followed, everything else will follow, and at least we shall command the respect of the public. People may not have the impression that they are the same hippies under different dress.

Hoping this meets you in good health.

Saugor, India

My dear Niranjana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 16, 1972, and I have noted the contents with care. You say that Saugar is a nice place and people are very much eager to see me there, therefore I shall be glad to go there. So you can set up the programme in consultation with Tamala Krishna Goswami, who is presently in Bombay centre. He is making up our Indian programme. I shall be remaining here in Vrindaban up to 16th November, and then we are going to Hyderabad, so I shall be very glad to see you again if you can come here before I leave Vrindaban.

Hoping this meets you in good health.

Ref: Your second letter from Allahabad. It appears that you have been poisoned by some rascals. Such rascals cannot do anything to push on the mission of Lord Caitanya but can put hindrances in the path of spreading KC all over the world. I am very sorry that you have fallen a victim of such poisonous serpents. Because such easy going rascals are unable to assume the position of "Prabhupada" or unfit for the post, they are so envious and you are talking on their behalf. I am very sorry for this. ACBS/sda

Letter to: Bali-mardana

Vrndavana November 2, 1972

72-11-02

New York

My dear Bali-mardana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 20, 1972, and I have appreciated very much the enclosed booklet, "Krsna, the Reservoir of Pleasure." Although none of you have yet been here in Vrndavana, still, Krsna has given you the spiritual vision and you are seeing Vrndavana actually, the paintings are so nice. Just see how the cows are looking at Krsna. Now you distribute these books by millions all over the world, then everyone will see how wonderful is Vrndavana. That is the best preaching work.

According to the list of names left in the file by Nanda Kumara, there are nine names listed for New York, as follows: Mike/Mahamuni; Steve Anderson/Sevananda; Steve Chichi/Satajit; Jeremy Darling/Yogendra; Jack/Jitasvara; Saul/Sunanda; Andrea/Alarka; Susan/Sikhandini; Rosemary/Ramesvari. So I do not know why they have never received their beads. I think best thing is to write to Nanda Kumara, who is now president of Laguna Beach temple, and he can explain.

If you have got paintings for India, I think they may be sent by ship, well-packed to protect from water and with insurance, and that will not be too much expensive. Better to consult first with Indian embassy if there are any restrictions to import paintings into India.

Hoping this will meet you in good health.

My dear Bhutatma and Kesava,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 3, 1972, and enclosed please find the copy of letter to the new initiates. Their beads are sent under separate post. You may hold fire yagna and give gayatri mantra to Lokanatha, and Gostavihari. Teach them to count on the finger divisions, and play the tape of me reciting gayatri mantra into their right ear. The yagna should be held in the company of the devotees only. Hold the fire yagna for all five devotees.

Regarding our travelling parties, I have got some complaint from London and other places, so I have given Dhananjaya this policy, that from outside if any one party comes they must work under the direct supervision and instruction of the local management, not that they shall remain separate competitor, no. I want to sell as many books as possible, that is the main thing. By selling books, that is the best preaching work. But so there may not be any complaint, your travelling parties must cooperate with their local temple officers, and that means they shall operate wherever they are allocated, that they shall only sell books, no collecting without selling books, and that, above the wholesale price of the book, any profit there is must be given at least 50% to the local temple. Ultimately, it shall be up to the local temple president if the presence of your party is favorable or not, everything is considered, and if he agrees you may stay, otherwise if he judges it is unfavorable at the time, he may order you to go out. But just to avoid these things, better to arrange in advance with the GBC men concerned. Ours is a cooperative movement, with Krishna and the advancement of Krishna's movement at the centre, and we must continue to sell as many books as possible, but discuss everything amongst yourselves and do it nicely without irritating anyone, that is the art.

Hoping this meets you both in good health.

My dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 8, 1972, and thank you for your kind sentiments. Yes, I always think of you too. You are one of my first disciples, along with your wife, Janaki, so I am always praying to Krishna to give you His all blessings for bringing you back to Home, back to Godhead. Wherever you may be, it doesn't matter, but don't give up the principles of spiritual life, that is my request. You have become my disciple so I must request you to chant 16 rounds and follow the regulative practices of devotional service, and you may know it for sure that very quickly you will achieve the supreme perfectional stage of your life.

Now we are in Vrindaban, and the programme for speaking daily morning and evening in the courtyard samadhi-place at Radha-Damodara temple is very much being appreciated by the devotees. Next we shall go to Hyderabad for some weeks. You have mentioned nothing of your wife, so what is her position?

72-11-03

My Dear Brahmananda,

Please accept my blessings. I am just now in receipt of your letter from Zambia dated October 21, 1972 along with the photos which were very nice, and I have shown them to many guests. Yes, as I said in my last letter, there is no possibility to start temple there without sufficient local men who join us. If you think you shall keep the money you collect there for future use for temple, that's alright, but my Guru Maharaja used to say, "Trust no future, however pleasant." Or in other words, there is some urgent need for finances in Nairobi, so why not send there, and later we shall see in Zambia, and other places?

Yes, that is a good proposal, print many many books in African language and distribute widely, that is real preaching work. If you sell a book to someone, that is better than your speaking to them-what will your three minutes' preaching do? But if they read a book it may turn their life. Go on preaching, that is the highest perfection of activity, and do not worry for anything, Krishna is so much appreciative of this preaching work that He will give you every facility, as much as you have ambition.

Hoping this will meet you in good health.

My dear Karandhara,

Please accept my blessings. We have now decided to take legal proceedings against Nair because we have received one telegram from Tamala Krishna as follows: "Nair unreasonable, settlement impossible, immediately filing criminal and civil suits, letter follows, Tamala Krishna." So I have immediately sent one telegram: "Suing Nair, don't change bonds, repeat, don't change bonds, Syamasundara. das." So we have decided for good not to settle, so there is no need to cash the bonds as we shall receive lump-sum dividend by 10th December for at least $3500, so we shall not lose this interest. We may, however, require to change the bonds when we find out a suitable house for M-V Trust. That I shall let you know. In the meantime, keep in safe-deposit box. Later developments I shall let you know.

My dear Tamala Krishna,

Please accept my blessings. I am in due receipt of your express delivery letter, and I am glad that you have chosen the right course of action to sue Nair and finish the business once and for all. We are prepared to take back the money and cancel the whole thing. Why doesn't he return? Now stick to the principles of the original agreement to file suit. Don't change your decision. It appears that from the building fund Rs. 29,000/- was transferred to International Society general account, it is not yet returned, neither the Rs. 70,000/-. Anyway, the cheques given to you must be torn-up immediately. A letter should be issued to the bank to stop payment for cheques #CHT/A-T 492833 from Building Fund and #GT/HS 306873 from Book Fund, both in favor of Ambhubhai and Diwanji, Solicitors, Bombay, but I shall do it. We shall make no compromise with Nair unless we come to the court.

Now I am sure there will be some solid work in Mediterranean zone and the preaching work will be expanded nicely.

One thing is, if that printer is so cheap, why not print all our European books there? Anyway, print books, distribute profusely, and that will be the best preaching work. What will your three minutes' preaching do?-but if they buy one book, it may turn their life. So make this your important task, to print our books in French language and other languages, and distribute widely, and that will please my Guru Maharaja. Never mind it takes little time to make progress, our process is slow but sure, and we are confident that if we continue in this way we shall go one day back to home, back to Godhead.

Letter to: Hrdayananda

-

Vrindaban 5 November, 1972

72-11-05

St. Louis

My dear Hrdayananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 4, 1972, which I have only just now received, due to travelling these past weeks. Yes, your plan for travelling and preaching was very much approved by me, but now I understand from Satsvarupa that he has gone to Dallas to manage things there because Stoka Krishna has left to Los Angeles. Are you travelling now alone, or what shall be your programme now? This constantly changing managers is not good. We shall develop more progressively by sticking in one place and working, not that one week we have three presidents, that is not good. Our managers should be very responsible for developing their centre to the topmost standard, why this restlessness? It is just like one man is holding government post by getting votes, so today or tomorrow or next day, but he will have to go out, then another man comes, then another, another-in this way, democratic system, no one becomes responsible for the welfare of the citizens, only they want to take for themselves as much as they can before they have to get out, so they do not take real interest in their duty. It is a little like that. My idea is that the leaders must agree to stick at one place, even they may have to remain their life-long, that is the ideal leader, one who is conscious of his duty.

But you are sannyasi, and sannyasis duty is different: travel widely and preach. That is sannyasa. So I am very happy to hear you are doing that, now go on vigorously preaching and distributing books, especially among the college students, and utilize every moment to spread Krishna Consciousness knowledge to everyone. That will be the perfection of your life.

Hoping this meets you in good health.

Letter to: Satsvarupa

-

Vrindaban 5 November, 1972

72-11-05

My Dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 24, 1972, and I have noted that you have returned to Gurukula to take over the managing because Stoka Krsna has left to go to Los Angeles at his whim. This is not good, this unsteady position. I have never been in favor of this practice of many times changing the responsible officers, three times in one week changing presidents, this will ruin the whole thing. From now on if someone takes the leading post, he must agree to stick and not go away just because it is difficult from time to time. That is ideal leader. He is responsible and he knows his duty. Just like I did that. My Guru Maharaja gave me a task and always I was discouraged by my god-brothers, but I did not forget him even for a moment, and I was determined to follow my duty, even though sometimes I did not like to do it. But this always changing means no sense. If he is leader, he must be fixed-up. Otherwise, if he has no real interest, why he takes that post? He must be responsible. He must stick and develop the highest standard of Krishna Consciousness practice in that area of management. But if he is sometimes thinking, Oh, I do not like to do this, let me go away at first opportunity, then how will things go on? That is just like democratic system in your government: every four, five years changing all the leaders. In this way, each man is thinking he shall not try to do very much. No one is interested in the real welfare of the citizens, simply because the post is temporary. That is not our process. Real meaning of duty is just like Arjuna: he did not like to be responsible, he wanted to leave the scene, but Krishna convinced him this is your duty, to fight, so he did it for Krishna, and he fought until the last man was killed from the opposing side. That is leadership. He is determined to stick to his position because he has understood Krishna.

So you are sannyasi, but if you have to stay there for some time to manage, that is all right. Sannyasi simply means to do as I am doing, and sometimes I have to manage, sometimes cook, sometimes go to the bank, keep the money, write books, chant, preach in the class, keep accounts-sannyasi should be expert in every department. But best thing is to discuss with Karandhara and other GBC men to find a permanent manager of Dallas school, who will not suddenly go away; of course we cannot prevent that someone may suddenly go away, it may happen to anyone, but so far as possible impress upon the leaders what is their duty. That school is very, very important business, and the best man must be found out for taking charge there and developing it nicely, and if he sticks and works hard to build it up, that will please me very much.

Advancement in Krishna Consciousness is not the result of material conditions. I shall not expect to find some perfect circumstances of occupational duty which will cause me to be automatically Krishna conscious, no. So why shall I think that by changing this, going here or there, doing something else-why shall I expect that I will become happy by adjusting material conditions in this way? They have not understood. Real attitude of devotional service is, whether I am here or there, whether I am doing this or that, it doesn't matter, just give me little prasada, little service, or if you make me big leader, that's all right-that is devotee, satisfied to serve Krishna in any circumstances of life. So try to impress this fact, we should kill this restless spirit. Enthusiasm and patience, these things required. If under changing conditions, I lose my enthusiasm, if I cannot endure the difficulties of my duty, therefore I go away-then how I can be leader? These things must be understood. Otherwise the whole thing will fall.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Sudama,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 27, 1972, and I have noted the contents carefully. So far the Road Show and this Yoga Village are concerned, these things should be stopped. Simply perform our kirtana. If we divert our attention in this way, the whole thing will gradually deteriorate. He is going far away. All these things are nonsense inventions. Such inventing spirit will ruin our this movement. People may come to see, some will become devotees, but such devotees will not stay because they are attracted by some show and not by the real thing or spiritual life according to the standard of Lord Caitanya. Our standard is to have kirtana, start temples. What is this ”Road Show” and ”Yoga Village?” It will be another hippie edition. Gradually the Krishna Consciousness idea will evaporate: another change, another change, every day another change. Stop all this. Simply have kirtana, nothing else. Don't manufacture ideas.

Yes, the programme is going on very nicely, and all the devotees are enlivened by our discourses daily in morning and evening in the Samadhi courtyard at Radha-Damodar temple. I can understand that due to so many celebrations at this Urja time you are unable to join me here.

Now after Urja you will go to Puri for again trying for that place, but now there is competition, so how we can stop it? But if you offer them the right price, and if we try to get it very seriously we shall be able to do it, by Krishna's grace. So if you need any help from me in this connection, I am here in India, so I am at your service to do the needful and secure Srila Prabhupad's birth-site.

My dear Tamala Krishna, Giriraja, and Manusvi,

Please accept my blessings. I am in due receipt of your letter dated 4th November, 1972, and in reply I have sent one telegram, as follows: ”We must have land according to purchase agreement. Letter follows. Bhaktivedanta Swami.” So further to telegram, if Mr. Nair pays back all our money, total of Rs. 2,77,500/-, if this is returned immediately, then we don't take any action and we vacate immediately and peacefully. But if he does not repay and we do not vacate, then we must have that land at any cost on the purchase agreement. You only want to file criminal suit. No, we shall take civil steps also. Our point is to try to get the land according to the original agreement. Even the land is not bargain, that doesn't matter. Don't change. If we have to pay two lakhs rupees a year, what is that? My position from the very beginning has been, give us our money back, we vacate, otherwise we take legal steps for acquiring the land according to the purchase agreement, as well as steps for insuring our protection, that's all. So work according to this plan and keep me informed.

What have you done regarding the permission from Charity Commissioner? That is essential, take that permission immediately.

What is the programme for Hyderabad? Bhavananda has not yet sent the tickets for train or plane-fare, neither anything definite has been informed us. Whether there will be nice arrangement for deities there, and which deities they are putting there? Please inform.

Hoping this meets you all in good health.

My dear Sri Krishnaji,

Please accept my greetings and blessings of Lord Krishna. I am in due receipt of your letter dated October 29, 1972. I very much regret for the loss of your good wife. I always remember her because she was so kind upon me when I used to visit your house. She was so affectionately feeding me, so I felt very much when I learned that she is no more in this world. Anyway, she was a pious lady, and she has left this world keeping her husband and children all well-placed and happy, so her death as a chaste lady is exemplary. Lord Sri Krishna will surely give her peace and prosperity in her next birth.

I am expected to go to Delhi by 20th March, 1973, for holding our pandal programme, as we have done last year, coming there from Mayapur. So I shall look forward eagerly to seeing you again at that time.* Meanwhile, I am hoping that this meets you in the very best of health.

Letter to: Krsnadasa

-

Vrindaban 7 November, 1972

72-11-07

My Dear Krsnadasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 30, 1972, and I have noted the contents. It appears that you are again constantly disturbed by the same nonsense doubts. These things are not very important, we may not waste our time with these insignificant questions. If we are seeking to find out some fault, maya will give us all facility to find any small thing and make it very big, that is maya. But such questions as yours: why there is so-called discrepancy between the views of Bhagavat and modern scientists regarding the moon and other planets, and whether Hitler is good or bad man, these are most insignificant matters, and for anyone who is sincerely convinced that Krishna is the Supreme Personality of Godhead, for him these questions do not arise. Our information comes from Vedas, and if we believe Krishna, that

vedaham samatitani vartamanani carjuna bhavisyani ca bhutani mam tu veda na kascana [Bg. 7.26]

that He knows everything, and "vedais ca sarvair aham eva vedyo vedanta-krd veda-vid eva caham [Bg. 15.15]," that Krishna is non-different from Vedas, then these questions do not arise.

But because you have asked me, I am your spiritual master, I must try to answer to your satisfaction. Yes, sometimes in Vedas such things like the asura's decapitated head chasing after Candraloka, sometimes it is explained allegorically. Just like now we are explaining in 4th Canto of Srimad-Bhagavatam the story of King Puranjana. Just like the living entity is living within this body, and the body is described there as city with nine gates, the intelligence as the Queen. So there are sometimes allegorical explanations. So there are many things which do not corroborate with the so-called modern science, because they are explained in that way. But where is the guarantee that modern science is also correct? So we are concerned with Krishna Consciousness, and even though there is some difference of opinion between modern science and allegorical explanation in the Bhagavat, we have to take the essence of Srimad-Bhagavatam and utilize it for our higher benefit, without bothering about the correctness of the modern science or the allegorical explanation sometimes made in Srimad-Bhagavatam. But this is a fact that in each and every planet there is a predominant deity, as we have got experience in this planet there is a president, so it is not wonderful when the predominating deity fights with another predominating deity of another planet. The modern science takes everything as dead stone. We take it for granted that everything is being manipulated by a person in each and every affair of the cosmology. The modern scientists however could not make any progress in the understanding of the Supreme Personality of Godhead, therefore we do not accept modern science as very perfect. We take Krishna's version:

gam avisya ca bhutani dharayamy aham ojasa pusnami causadhih sarvah somo bhutvah rasatmakah [Bg. 15.13]

"I become the moon," and "yac chandramasi yac cagnau," (ibid, 12) "I am the splendor of the moon," and "jyotisam api taj jyotis," [Bg. 13.18] "I am the source of light in all luminous objects," so no one is able to give us the correct information than Krishna, that you should know.

Regarding Hitler, so Hitler may be good man or bad man, so what does he help to our Krishna Consciousness movement? But it is a fact that much propaganda was made against him, that much I know, and the Britishers are first-class propagandists. And I have heard that his officers did everything without informing him, just like in our ISKCON there are so many false things: "Prabhupada said this, Prabhupada said that." But we have nothing to do with Hitler in our Krishna Consciousness. Do not be deviated by such ideas "Jnanam jneyam jnana-gamyam," (ibid), Krishna is knowledge, He is the object of knowledge, He is the goal of knowledge, and

you mam evam asammudho janati purusottamam sa sarva-vid bhajati mam [Bg. XV, 19]

"Whoever knows Me as the Supreme Personality of Godhead, without doubting, is to be understood as the knower of everything, and he engages himself therefore in devotional service"-this is the understanding of advanced devotee, so my best advice to you is to agree to come to this understanding.

Your ever well wisher, A.C. Bhaktivedanta Swami

[To Mr. Loy]

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 7, 1972, and I can very much understand your concern. After all, she is your beloved daughter, and you have sacrificed everything just to bring her to the point of proper education, training, and so many things are there between you. But what can I say? In your country the girls are independent, and from very young age they are accustomed to mix with young boys, so naturally there will be attraction, sex desire and marriage. Actually this whole material world is running on this attraction between man and woman. It is described in Srimad-Bhagavatam that once the boy and girl unite intimately the hard knot is formed, and the girl is thinking Oh, without him I am lost, and the boy is thinking Oh, without her I am lost, that is Maya's arrangement for keeping us bound-up tightly in the material atmosphere. If wife is there, then some money must be coming, that means work, land or factory, children, home, friends, community, nation-like that there is increasing complication of illusion of thinking: This is mine, that is mine. But they do not know that one day death will kick them out, mercilessly, and neither home, nor wife, nor children, nothing can prevent that. All along he is thinking these things are like soldiers of security to safeguard his happy life, but they are described as "fallible soldiers" because they will not help us at all. When the moment of death is there, no one may protect us, and if we are not prepared for that moment by practicing Krishna Consciousness or God-consciousness, then we shall be struck with fear and we shall not know where we are going after and what kind of body we may be forced by nature to take.

But this kind of householder life of "grihameda" consciousness does not apply to our marriages in Krishna Consciousness Movement. No. Because the sex-urge is so strong in young persons, and because they are used to mixing freely with one another, I encourage my students to get themselves married. But our point is not that hard knot as above described. It is simply a relationship of mutually helping each other, man and wife, to make advancement in spiritual life, nothing more. We are not after home, money, fame, like that. But that does not mean that he shall not support her nicely, no. It is the duty of husband to protect wife in every way from the onslaught of material nature, and he must act always as her spiritual guide by being perfect example of devotee. Women are not so quick to learn, and they are weak by nature, so they should be protected in this way. In our Vedic science of living, it is enjoined that the society should be organized in such a way to protect women, children, old people and cows, because factually all of them are innocent. So children have parents, elderly persons must have grown up children to protect them, and woman must have husband. And it is recommended they should be married at very early age, then the wife will remain always chaste and devoted to her husband. At such young age, from the first night onwards, she can never for a moment forget him, being still child and unspoiled, therefore she becomes the perfect chaste wife, and in those times the wife was so much devoted to her husband that she would voluntarily die in the fire of his cremation, unable to live without him. Myself, I was very young when I got married, and my wife was 11 years only. But there is no question of separation in our marriage belief, neither your daughter will ever be separated from that boy, that is their vow. Rather, it is when people are a little grown-up, when they have got little independence and their own ways of doing things, then if they marry there is often difficulty to adjust, just as it is more difficult to bend the bamboo when it is yellow. So I can assure you that you may have nothing to fear that your daughter has married such a nice boy: bahunam janmanam ante, jnanavan mam prapadyante, vasudevah sarvam iti, sa mahatma sudurlabhah [Bg. 7.19]. Krishna assures us that "After many many births and deaths, he who is actually in knowledge surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare." (Bhagavad-gita, VII, 19). In this light, try to view these children. They have realized that life together spent in the pursuit of God is real knowledge, and that they have not done lightly by any means, no actually they must be considered as great souls, the most exalted persons among all persons. Our married couples are rendering the greatest service to humanity, their countrymen, and to their parents, of that kindly be assured by me. Do not worry for anything in this connection, you are a great gentleman, otherwise you could not have fostered such intelligent daughter, and gentlemen are known to be broad-minded, so therefore I appeal to you as their spiritual father to encourage them in every respect. Hoping this meets you in good health. Yours Truly, ACBS

My dear Pusta Krishna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 1, 1972, and I am very much engladdened to hear that you have arrived to Europe and that you have enthusiastically begun your work there, opening one centre in France. Yes, such opening of temples, holding daily street sankirtana, distributing books, preaching in the schools and colleges, this is our standard programme for injecting Krishna Consciousness in the world. And if we simply stick to this programme we shall be successful, without any doubt. Now you are sannyasi, sannyasi means responsible, you must be responsible for the spiritual progress of the devotees, to see that the right standard is being observed in all departments. Just as I am doing. Sometimes I go to the bank, sometimes keep accounts, sometimes preach, hold the class, write books, sometimes cook-sannyasi should be expert in all departments, and he should distribute his experience to others, that's all. So I think you are the right man for assisting me in this way in European continent, and Krishna has brought you to the right place, so with great enthusiasm go forward. Thank you very much.

Yes, everyone of you should write something, so if you have completed any small booklets, you may send them to me and I shall see them and send to Hayagriva for possibly printing.

Hoping this will meet you in good health.

Nairobi

My dear Cyavana,

Please accept my blessings. I am very glad to receive your letter dated November 3, 1972, that your programme there is improving considerably every week. That is very good news. Yes, I think you have improved the situation there, and you are better manager than Brahmananda. I am especially happy to hear that you are making some local African boys and girls into devotees, that I wanted. Preaching is our real business, not getting big, big buildings and doing business for money just to maintain them, no. We shall live under a tree, that is not difficult, but we must go on preaching every moment, that will make us happy. So i am glad to see also your quiz-test for the African boys, and also your Swahili-language BTG, these are good evidence of your improvement.

Yes, if there are African girls also who want to join us, and if they get the consent of their elder family members to live with us, they may live in the temple provided there is separate place for them so that boys and girls will not mix freely, just as we are doing everywhere. If that boy wants to marry your African girl, I have no objection as long as she obtains the permission of her parents and elders, and provided they live separately in the temple, or if they live together, they must live outside. Mr. Shah has sent me one letter of complaint in financial matters, so I have forwarded it to Brahmananda. Now you together deal with these money matters and Mr. Shah, should I always have to be consulted in these things? Enclosed find the copy of amendment, duly signed.

Hoping this meets you in good health.

Letter to: Yadubara

Vrindaban 11 November, 1972

Bombay

My dear Yadubara,

Please accept my blessings. Thank you very much for your letter dated October 30, 1972, and I am very much pleased to hear that things are going nicely in Bombay, so far the printing of books is concerned. Now the problem is half solved. Now you are printing books, and you have got many books from America, but how shall we distribute them, that is the point? Harikesa has told me that no one is there who can distribute, and there is no scheme for distributing, so why we shall attempt printing and importing so many books if there is no distributing? What is your plan in this connection? I have also received report that there is some difficulty for maintaining the devotees peacefully, so that they may not fall sick and lose hope. So if there is shortage of money for maintenance, I have no objection if you divert some of the money from advertisements collection to improve the sanitary and health conditions. But most essential thing is, if you improve the preaching programme, automatically everything else will improve, Krishna will give you all facilities. So I think there is plan to have each night one outside engagement for preaching and holding kirtana. That is very good proposal. But do not neglect also our own programme at Juhu. That should be improved progressively, not decreased. Now only a few men come. But when I was there thousands were coming daily. Why the standard has fallen down? If you become lazy in your spiritual life, everything else will deteriorate. We are not interested in big, big buildings, no. That was not my plan for Juhu. I simply want to engage everyone in the service of Krishna, that's all. And that means preaching. So if the preaching work has stopped, what can I do? In that case you must expect there will be so many troubles. So try to improve your preaching work, distribute all the books, and print more, and in this way, Krishna is the husband of the Goddess of Fortune, you will get as much money and as many big buildings as you need for spreading Krishna Consciousness movement, without any doubt.

Hoping this will meet you in good health,

New York

My dear Bali Mardan,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 2, 1972, along with photos of a new building you have seen, but I did not yet receive the floor plans as you promised. So far advising you in this connection, what can I say? Now you must be able to judge these things as you have got experience and you are there, what can I do from such distant place? If you think it is nice, then try for it. But one thing is, there is no residential place, so what is the use? But if that can be arranged somehow there is no objection. We are not so much after big, big buildings, we are interested to preach only. But if such building will enhance our preaching work and not distract us from the main business, then it is nice. But you must determine if it will be easy task to raise so much money, not that we shall have to labour so much just to get money and after for maintaining, so much so that our spiritual life becomes neglected, no. Real business is to spread the message of Lord Caitanya throughout the world. But if we are able to get the place in downtown centre of New York City, that is the most important location in the world, and from that place we may broadcast Krishna Consciousness all over the world. You are the first-class business brain, so if you can get that place without too much difficulty, that will be a very great asset for preaching. So far the money you have loaned to London, they are trying for some other places, and you are also trying, so whichever of you requires the money first, then you may utilize as necessary by mutual agreement. For the time being you may leave the money in London bank, and if you need, they will send.

Hoping this will meet you in good health.

Letter to: Bhanutanya

-

Hyderabad 18 November, 1972

72-11-18

My Dear Bhanutanya dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter undated, and I have noted the contents with great concern. One thing is, I am very much sad to learn that you have left the company of the devotees over this incident at Gurukula school. Now you are living by yourself because you have been hurt by seeing that the children are sometimes mistreated, and because no one has taken your good advice in this connection. But you may be assured that I am always anxious about the welfare of my disciples, so that I am taking steps to rectify this unfortunate situation. Now my advice to you is to give up these feelings and return to your life of Krishna Consciousness devotional service, and if you go back to Dallas school and demonstrate to the other teachers there just the proper way to instruct and discipline the students nicely, that will be a great service. I am forwarding the copy of this letter, with your letter, to Satsvarupa for his immediately attention.

Now the thing is, children should not be beaten at all, that I have told. They should simply be shown the stick strongly. So if one cannot manage in that way then he is not fit as teacher. If a child is trained properly in Krishna Consciousness, he will never go away. That means he must have two things, love and education. So if there is beating of child, that will be difficult for him to accept in loving spirit, and when he is old enough he may want to go away-that is the danger. So why these things are going on _ marching and chanting japa, insufficient milk, too strict enforcement of time schedules, hitting the small children? Why these things are being imposed? Why they are inventing these such new things like marching and japa like military? What can I do from such a distant place? They should run and play when they are small children, not forced to chant japa, that is not the way. So I have given you the guiding principles, it is not that I must be consulted with every small detail, that is the business of the in-charge, but if no one is there who can manage in the right way, what can I do? Now if you have got the right idea how to do it, you may go there again and take some responsible post for correcting the situation, that will be your real duty, not that there is some disagreement and I go away disgusted, no. That is not Vaisnava standard. Standard should be that, never mind there is some difficulty, my spiritual master has ordered me to do like this, now let me do it, that's all.

Hoping this will meet you in good health.

Letter to: Jagadisa

Hyderabad 18 November, 1972

72-11-18

My Dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your letter from Vancouver dated November 2, 1972, and I have noted the contents carefully. Your question about travelling SKP parties in other zones I have answered several times before, so you may see the letters to Dhananjaya in London and others. The thing is, our main business is to distribute books, either here or there it doesn't matter. So if there is transcendental competition for increasing sale of books, that is good. If he buys one book his life may be turned, that is best preaching work. But everything must be done in the spirit of cooperation, without any irritation. If one party wants to travel into another zone, that's all right, but there must be prior agreement between the GBC men and mutual consent. If by going there the book sales will be increased, what is the harm? But supposing if there is any harm, that is to be judged by the local president, and if he has good reason to think that another party will be unfavorable to his temple's operations, then he may order them to leave, that's all. So local temple officers should be the final judge to allow or disallow anyone from outside to sell books there. And if some outside party comes, they must sell books only, no collecting without selling books. They must live in the local temple and not separately, and they must follow faithfully the instructions and directions of the local president. They can purchase books from the temple at regular wholesale price and sell, and whatever profit there is above wholesale price they must give at least 50% to the local temple out of good will. That will be nice. So we shall not think that this is my zone, that is his zone, just like the Indian and Pakistan nation are thinking, and then there is war, no. Lord Caitanya has given us the task to spread His message all over the world, and any process which may be useful for facilitating this business, that we shall gladly adopt, never mind his zone or my zone, that is material designation. But we shall always do everything in cooperative spirit and avoid any fighting amongst us, that is Vaisnava attitude because Lord Caitanya has advised us to always offer all respects to others, especially to the devotees of the Lord.

You may name your child Jugala Priti dasi, I have no objection.

Hoping this will meet you in good health.

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 31, 1972, along with the latest copy of Back To Godhead #49, which I have read carefully and have appreciated to my complete satisfaction. I am so glad to know that you and the others at ISKCON Press are doing so wonderfully service in this way. These books and magazines are doing so wonderfully service in this way. These books and magazines are our most important propaganda weapons to defeat the ignorance of maya's army, and the more we produce such literature and sell them profusely all over the world, the more we shall deliver the world from the suicide course. So your work is the most important preaching work, may Krishna bless you more and more. Thank you for helping me in this way.

Letter to: Madhumangala

-

Hyderabad 18 November, 1972

72-11-18

Amsterdam

My dear Madhumangala,

Please accept my blessings. I beg to acknowledge receipt of your letter undated, and I have noted the contents with care. So far your question is concerned, should the Jagannatha deity be bathed with water, that is not necessary. They should be washed once in a year, that is sufficient, 15 days before Rathayatra. That is called "sananyatra" ceremony. Otherwise if you bathe, that will damage the wood.

Regarding general state of affairs at Amsterdam temple, I can understand there is some disturbance among you, but that is not to be taken very seriously. Real business is preaching work, and if there is full attention on this matter only, all other businesses will be automatically successful. Fighting amongst ourselves is not at all good, but if our preaching work is neglected, or if we fall down in following the regulative principles such as rising before four, chanting 16 rounds, like that, if these things are not strictly observed then maya will enter and spoil everything. So my best advice to you is to strictly observe these things yourself and be the example so that all others may follow. We should not criticize each other, as Vaisnavas, because there is fault in everyone and we may be ourselves subject to criticism. Best thing is to be above suspicion ourselves, then if we see discrepancies and make suggestion the others will automatically respect and take action to rectify the matters. That is cooperation. And we must exist on such cooperation, otherwise the whole thing is doomed if we simply go on fighting over some small thing. So try to organize things and preach together in this spirit, and that will please me very, very much.

Hoping this will meet you in good health.

72-11-18

Dallas

My dear Rupa Vilas,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 28, 1972, and I have noted the contents with care. I am very glad to learn that the children at Gurukula school are making good progress in their Krishna Consciousness education, that is very good news. Yes, if we simply train them properly they will come out just to the highest standard of Vaisnava devotee. And what is that training? Simply they should be engaged in such a way that they are somehow or other remembering Krishna at every moment, that's all. It is not something mechanical process, if we force in such a way they will come out like this, no. We are persons, and Krishna is a Person, and our relationship with Krishna He leaves open as a voluntary agreement always, and that voluntary attitude-Yes, Krishna, I shall gladly co-operate whatever you say-that ready willingness to obey is only possible if there is love. Forcing will not make me agree. But if there is love, oh, I shall gladly do it. That is bhakti, that is Krishna Consciousness. So similarly, if we train children by developing and encouraging their propensity to love Krishna, then we shall be successful in educating them to the topmost standard. Then they shall always very happily agree to do whatever you ask them. So I have heard that there as been some beating with sticks on the children. Of course I do not know, but that should not be. You may show the stick, threaten, but better art is to somehow or other, even by tricking them, avoid this matter of force and induce them to obey out of loving spirit. That is success of disciplinary method.

Hoping this meets you in good health.

My dear Rupanuga,

Please accept my blessings. I beg to acknowledge receipt of your letter undated, wherein you have requested me if you can again return to your wife. How is that? It will be a very bad example. It is not possible at all. Then you have to give up your sannyasi dress. So give up these thoughts. You cannot live together, that is not possible, neither you can see her or speak. If you want to keep her, she can remain separately and you can support her in that way, but you cannot see her. That means there are many other women loitering, so you may see her like that sometimes by chance, but you may not see separately or privately and you cannot talk with her, neither correspond.

Otherwise I am very glad to hear that all the programmes in Washington D.C. and other places are improving more and more, especially that you are distributing so many books and literatures. So far the Indian ambassador is concerned, I have just the other day had one meeting with Dr. Karan-Singh, the Minister of Tourism for India, and he greatly appreciates our movement and has promised all help, and he will give me free passage on Air-India if there is clause allowing. He has acknowledged that Air-India is advertising Krishna all over the world and attracting tourists in that way. Now we have seen that many foreign visitors are coming to India to see the sacred places like Vrindaban, and the KLM Airlines has requested us to guide their tourists in some scheme, so if the Ambassador may give us any assistance in this connection, so that we may not have difficulty entering the temples or we may have all government cooperation to be the excellent hosts for such tourism, that he can do quite easily. I am enclosing the letter from Dr. Karan-Singh that you may show to Mr. Shukla.

I thank you very much for your letter from Punjab State dated November 5, 1972, and I am very happy to hear that you have arrived in India safely and that you want to meet me. Yes, we were in Vrindaban during the Urja-vrata season, but now we are having our programme in Hyderabad until December 1st. From here I shall go to Ahmedabad for some few weeks, and from there to Bombay. I do not think we have got any programme planned for going to Punjab at present moment, but if you get opportunity to meet me at Ahmedabad or Bombay, that will be nice. Otherwise I shall be for some days in Delhi in March, but I think you are returning to California before that time. But if we get chance to meet again, I want to discuss frankly how we may co-operatively push on this Krishna Consciousness movement, especially in India. Let us see what Krishna desires.

If you are serious to be an important assistant in our Society you should fully engage yourself in translation work, and do not mix yourself with my so-called god-brothers. As there are in Vrindaban some residents like monkeys and hogs, similarly there are many rascals in the name of Vaisnavas, be careful of them. And do not dare to question imprudently before your Spiritual Master. Further talks we may discuss when we meet. Denver

My dear Kurusrestha,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 13, 1972, and I can well appreciate how the things are going on nicely in your Denver center. I am very glad to hear all the good news, especially that you want to sell books more and more. That is the best preaching work; each book sold means there is some practical effect of preaching, there is some tangible progress. So try to sell books as many as possible in your country, and in this way, so long you remain active but not for your personal sense-gratification, so long you remain active only satisfying Krishna’s senses, then this movement will be successful without any doubt. As soon as someone wants to satisfy his own senses, then he fails at everything. We are the only movement in the world which is preaching the real fact or secret to success, and outside our movement everything else will fail. So try to convince people to join us and be successful in their life, that will be your credit.

Now you are the leader of so many men, so you have got the blessings of Krishna’s favoring you, because now He is forcing you to be responsible for becoming yourself perfectly example of Krishna Conscious devotee and making yourself perfectly example of Krishna Conscious devotee and making others Krishna Consciousness. Now become always attentive to all the aspects of your temple’s activities, especially to the regulative spiritual life and preaching work. If this standard of devotional practices is maintained at the highest level, everything else you do will become automatically successful. And that will please me very much.

Upon your recommendation I have gladly accepted the five boy and girls as my duly initiated disciples, and their letter is enclosed. Also enclosed please find three sacred threads, duly chanted by me, and five copies of gayatri mantra. Now hold a fire yagna and give gayatri mantra to Arijit, Ananda Vardhana, Radha Damodara, Anuradha dasi and Bhaktilata dasi. Instruct them how to count on the finger divisions and play for them the tape of me chanting the gayatri mantra into their right ear. I think Karandhara has got the tape of me reciting gayatri mantra. The fire yagna can be held for all ten devotees.

Hoping this will meet you in good health.

Mr. V.L. Ravel Cal-25 22-B School Row

My dear Mr. Ravel,

Please accept my blessings. I am in due receipt of your postcard and have noted the contents carefully. Yes it is a fact that this material world is a place of tortures and only by taking shelter of the Spiritual Master and Lord Krishna can one obtain relief. So it is very good that you have come to this realization. Now you must show Krishna that you are sincere and determined by taking to the chanting of the Hare Krishna Mantra. When Krishna sees that you are sincere He will bestow all blessings upon you. You will then find that this material world is no more difficult to cross then the water in the hoof-print of a calf. So, if it is possible you can join us in this sankirtana movement. Lord Caitanya has predicted that this chanting of Hare Krishna would be spread to every town and village and it is the special duty of every Indian to see that it is done. I personally have taken it up and I would be very happy to have your help. You are already doing much to help me, for this I am grateful. All my disciples who know you speak that you are doing very nice service. So continue in this way and surely Krishna will bless you.

Hoping this meets you in good health.

My dear Sons and Daughters,

Please accept my blessings. Upon the recommendation of Kurusrestha I have gladly consented to accept you as my duly initiated disciples. I have chanted on your beads and they are enclosed herewith. I have given you the spiritual names as follows:

Rick Knickerbocker/RAVANANTAKARA DAS B. Martin Framson/MAKHANA TASKARA DAS B. Lynn MacDonald/RASALUBHDA DASI Cynthia Greene/SUDARSANI DASI Elizabeth Hanks/MADHURYALILANANDA DASI

Now please continue to follow strictly the regulative principles and rigidly observe the four principle restrictions and without fail always chant at least 16 rounds on your beads daily and be happy.

If you stick to these principles with determination, you will be freed from all attachment to maya, by Krishna's grace. The example is that when the sun is in the sky, then where is the question of darkness? Similarly, when Hare Krishna mantra is vibrating on your tongue, and you are hearing attentively, then your consciousness becomes clear or Krishna Consciousness, and there is no question of maya or hazy consciousness. Just as when the darkness and the light come together, the darkness cannot stand before the light, so maya cannot remain in the presence of Krishna. Always remember therefore to chant Hare Krishna and that will save you in all circumstances, without any doubt.

Hoping this will meet you in good health.

My Dear Nityananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 12, 1972, and I have noted the contents with care. I am forwarding the copy of your letter, along with my reply, to Satsvarupa in Dallas. I think he is the GBC man in that zone, and he is the best man to come there immediately and see what is the situation and do the needful. Of course I do not know what are the facts, but I have seen that you have done very nicely there, so far I know. And no one has made complaint to me. So maybe there is a little fighting amongst yourselves, that is natural, but you are advanced disciple, don't be disturbed by these things. Actually I want that householders shall manage in the temples, because they have got propensity to manage things and they want to take responsibility and they will not go away. Brahmacari, householder, it doesn't matter, but householders are doing nicely all over the world, why the others shall resent householders in your temple? That is not reason. This attitude of changing this, changing that, if there is some small thing to make it something very great, changing the leaders three every week-these things are going on, I know. This is not at all good attitude, that if by adjustment, this and that, changing everything, I may create the perfect combination and everything will be all right. I am more impressed if someone has opened one centre and that he has stayed there tightly and developed nicely, not going away whimsically. So you have been leader at New Orleans temple for long time, you are the pioneer there, so why you should be whimsically discharged? Only the GBC man shall be able to make these changes, not any so-called secret meeting of devotees. Why they have misunderstood these things? If they have objection they must lodge it with their GBC, and differences must be discussed openly amongst ourselves, not secret meetings. We are Vaisnava devotees, not politicians. So these things must be stopped, plotting. Your merit stands far above theirs, you have done some tangible work to please me by spreading this Krishna Consciousness message in New Orleans, that is the test. Let them do something first, then we shall see what is their criticism. Simply criticizing and no work, that is the business of inferior men. So do not be disturbed by them, go on with your work, increasing more and more. Never mind the jackals howl.

Hoping this meets you in good health.

My dear Sudama,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 14, 1972, and I have noted the contents with care. Yes, we shall base our preaching work on Lord Caitanya's formula: sankirtana. After all, He is God, and if He recommends, what is the question of failure? that is not possible. If we simply stick to this programme as I have done it since the beginning, namely, kirtana, preaching, kirtana, distribution of prasadam-if you do like this only that will be sufficient. Of course, you may make the kirtana as nice as possible, with dancing, many kholes, karatalas, conches, and if you preach sincerely, anyone will listen and become convinced. The potency of Krishna Consciousness movement does not come from some outward showing, no, it is the transcendental sound vibration of Hare Krishna Mantra and the words of Bhagavad-Gita, Srimad-Bhagavatam, like that. So now go on and develop the things in this spirit, that will be nice. We are not interested to attract millions of men to see some show. Better we attract one sincere soul to join us in ecstatic chanting and hearing, that will be of real value. And distribute books, as many as possible. If anyone hears something philosophy from us, that will help him. But if he purchases one book that may turn his life. So selling books is the best preaching activity. Sell books, hold the kirtana in public places like schools and colleges, preach-if you practice these things, and try to improve them more and more simply by your practicing sincerely, that simple programme will please Krishna the most and you will see that very soon.

Hoping this will meet you in good health.

My dear Ekayani,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 1, 1972, and I have noted the contents with great concern. I do not know why these things inventions are going on. That is our only business, to invent something new programme? We have already got our Vaisnava standard. That is sufficient for Madhvacarya, Ramanujacarya, it was sufficient for Lord Caitanya, six Gosvamis, for Bhaktivinode Thakura, for my Guru Maharaja Bhaktisiddhanta Sarasvati, for me, for all big big saints and acaryas in our line-why it shall be inadequate for my disciples so they must manufacture something? That is not possible. Who has introduced these things, that women cannot have chanting japa in the temple, they cannot perform the arati and so many things? If they become agitated, then let the brahmacaris go to the forest, I have never introduced these things. The brahmacaris cannot remain in the presence of women in the temple, then they may go to the forest, not remaining in New York City, because in New York there are so many women, so how they can avoid seeing? Best thing is to go to the forest for not seeing any women, if they become so easily agitated, but then no one will either see them and how our preaching work will go on?

They should not simply, husband and wife, live in the room together in the temple, otherwise there is no restriction. How it can be? It is not possible.

Hoping this will meet you in good health.

My dear Gopala Krishna,

Please accept my blessings. I am in due receipt of your letter dated nil, and I am very happy to hear of your new plan for forming the travelling Hindu Sankirtana party. That is a very nice idea. So you may organize the party as you see fit, and if you yourself are able sometimes to go with them, you will be able to instruct them how to do it in the best way possible. You have got good experience for managing in business world, so why not you become also expert organizer for Krishna? That plan is very much liked by me, now do it nicely, and may Lord Krishna give you His all blessings more and more. Thank you very much for assisting me in this way.

If you are coming to Bombay side in February, I do not yet know what is my programme for that month, perhaps I may go to Australia, I do not know, let us see what Krishna desires.

Hoping this meets you and your good wife in good health.

Los Angeles

My dear Karandhara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 11, 1972, and I have noted the contents with care and attention. Still we have not finished the business with Nair, and the case has become very complicated without any settlement. They were supposed to settle the Conveyance Deed on December first, as we had made a supplemental agreement in Hyderabad and Mrs. Nair had signed it. That was very favorable for us. But other things have interfered, and they have defaulted for one reason or another, so we have got the upper hand. Now I have asked Mr. Diwanji to come to see me tomorrow morning, and Mr. Nair is also coming here, so I want to make a settlement with them without further delay. I shall let you know later.

I have heard from Syamasundara. that there may be some difficulty with tax. That must be corrected. We are world-wide organization, and we must have the cooperation of the government authorities, so we shall not create any unnecessary misunderstandings by avoiding government requirements. That will not be good for our movement. Of course, Lord Caitanya led civil disobedience movement against the government because they used show of force to stop Him performing sankirtana movement. So if there is forcing us to stop this sankirtana movement, that much we must protest. But the government of your country is very nice, I think the best in the world at present moment, and they have not made any objection, even they are allowing our boys as ministers to be given relief from this drafting system. So we shall give them all cooperation. Now that requires proper accounts in all our temples.

That policy of ”frying the fish in its own oil” is all right, but don’t touch the bonds. It should be kept as it is. And now I am thinking to pay Dai Nippon for supplying books to India because there is no money in Mayapur Fund. There is huge demand for books in India, especially Bhagavad-Gita. So I wish to transfer the bonds for paying Dai Nippon on account of supplying books to India. The idea is that you can supply all varieties of books to India, whatever they order, and send them a bill in dollars, cost-price dollars, and the cost-price dollars may be paid to Dai Nippon by encashing the bonds. All of our books may be printed by Dai Nippon in huge amount to the extent of $100,000 cost-price and sent to India. I shall pay them with dollars from the bonds and everything, and here the money will be paid in rupees into a Bhaktivedanta Book Fund and M-V Trust Fund in Indian banks, at the rate of ten rupees per dollar. So there is no difficulty. Just like TLC costs $1.50, and the temple takes 25% or $1.50, and above that there is $3 profit. So from Jayan if we get 10 rupees per dollar, this way we will get 20 rupees.

So far Bhagavad-Gita is concerned, you must approach the MacMillan Company and either they must immediately stock somewhere in India so that our people may take it, or they must print it here. There is overall huge demand. You may copy this letter and send the copy to Bali Mardan. Why they cannot give us permission for printing Bhagavad-Gita? Make it clear whether we can print the older abridged edition, or if we can print the newer unabridged one. They must allow us to print here or immediately send 20,000 copies in India. We can sell all.

Hoping this will meet you in good health.

My dear Vamanadeva,

Please accept my blessings. I am in due receipt of your letter dated November 19, 1972 and I have noted the contents. I am especially glad to see how nicely your St. Louis Temple is distributing Back To Godhead Magazine. Only three years ago I asked Dai Nippon to print 20,000 copies and barely we could distribute them. But now in your temple alone you are distributing so many, so this is very, very encouraging to me. It is the perfect form of preaching. Follow the line laid down by Prahlada Maharaja and try to take every one back to home, back to godhead. And this is done by distributing our literature. I am so much pleased upon each and every one of you for helping me this way to push on this great movement.

Please find enclosed one sacred thread duly chanted by me. Now, hold the fire yajna ceremony and give Gayatri mantra to Socillia Dasa. Let him hear with earphones into his right ear the tape of me reciting Gayatri mantra and teach him to count on the finger divisions. The yajna should be held only in the presence of devotees. The world requires this Krishna consciousness movement, and for this purpose there must be a class of brahmanas for giving spiritual guidance by example. So you are one of the big leaders and you are nice, intelligent boy, so may such brahmanas, more and more.

Yes, why not once again start the St. Louis Newsletter, and send me a copy.

I hope this finds you and your all the temple inmates in the best health.

My dear Syamasundara. and Tamala,

Please accept my blessings. I am very much surprised not to hear from you about the Nair affair. I have tried to contact you by phone, but it is understood that you have left Mr. Valia's place and they could not say where you are. We have sent a telegram today reading as follows: "Anxious to know progress with Nair. Call urgent 83260".

So my definite order is as follows: if the conveyance is not yet signed or there is difficulty, then immediately take back the money from the attorneys (3 lakhs), and make a fixed deposit with the bank for six months.

Hope you are in good health.

Regarding your question should force be used on children, no, there shall be no forcing the children to do anything. Child should not be forced. This is all nonsense. Who has devised these things? If we want them to become great devotees, then we must educate the children with love, not in a negative way. Of course, if they become naughty we may show the stick but we should never use it. Child is nonsense, so you can trick him to obey you by making some little story and the child will become cheated in the proper behavior. But never apply force, especially to his chanting and other matters of spiritual training. That will spoil him and in the future he will not like to do it if he forced.

My dear Hamsaduta,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 8, 1972, and the paper sample enclosed by you is very nice for Bhagavad-gita in German language. I shall be very glad indeed to see that book printed by you, and that will be your greatest credit. You may send the copy with plastic cover and I shall see how it is put out. I can understand that your preaching work there is going on nicely just to the standard, because now you have got so many devotees and you are distributing so many of our books and magazines. That is very, very pleasing for me to hear. But now I think it must be very cold there. Even I was there in summer, still I had to go to England-it was so much cold in Hamburg. But never mind there is any discomfort of the body. We shall not be very much concerned for that. Devotee means he is able to tolerate all kinds of discomfort and whims of the material nature, and because he is so much absorbed in serving Krishna, he takes no time to become angry or take offense with others or find out some fault, no. Devotee means very liberal and kind to everyone, always gentleman under all kinds of conditions of life. So now you have practically become inseparable from Germany temples, and you have introduced this strict brahminical standard in those countries and it is coming out successful. So I am always appreciating you and your good wife, Himavati, for your kindly helping me in this way. May Krishna shower you with His all blessings.

Regarding the new initiates, I am sending their letter along with beads duly chanted by me under separate posting. So far the Hindi typewriter is concerned, keep it with you for the time being and we shall see later, I will let you know.

Hoping this will meet you both in good health.

My dear Revatinandana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 3, 1972, from Edinburgh, and I am so much pleased that you are doing the real work of a sannyasi, travelling, preaching and training the devotees to preach. I am too much proud of you on account of seeing the newspaper items. Yes, if there is good response for purchasing our books and asking intelligent questions, that is the test of your preaching capacity. I can well remember that Woodstock Hall or Woodside Hall in Glasgow, so I can very well appreciate how nice these Scottish people listen to our discourse. Now develop this field very carefully, it is one of the best places in the world for our preaching work to take hold and convince the population gradually.

So far I am concerned, we have just completed our pandal programme in Hyderabad and it was very, very successful. In that portion there was no rain for two years, but due to our Sankirtana yagna the rain came and everyone was happy that we came to make it rain, and besides that they gave us some nice land in the most central marketplace of the city and we are raising up a gorgeous temple with the help of the local devotees. In the pandal programme sometimes I am thinking of you, how you are always playing the drum and singing. You are a very nice singer, that much I recall. Now give all the new brahmacaris your best instruction for making spiritual advancement, you are one of my senior disciples, so that much, if you do, that will be the best service.

One thing is, try to give Dhananjaya all encouragement for getting that new place near London with the help of George. I am always thinking of when I shall come to that place to live there, at least in summer months. I am always glad to hear your reports, you may send me from time to time.

Hoping this meets you in good health.

My Dear Madhudvisa,

Please accept my blessings. I am in due receipt of you telegram from Melbourne, Australia requesting to name Sanauk's new girl-child. They may name her Bhakti Moti dasi. Now I have not heard from you any report in so long time. Why you are silent? You had invited me to come there this winter, but I have not heard anything definite program from you; therefore, I am unable to chalk out any plan where I shall be going in the near future. But I think there is sufficient programs here in India. I need not require to come there, they want me to come also to Calcutta and other places during February month. So I do not think there will be time to go so far to Australia and then return to India for only two, three weeks. But let us see what Krishna desires. If you have got some plans for my coming there, you may let me know also. You can correspond with Syamasundara. in this connection.

Another think is, I can understand there is some great difficulty in New Zealand temple, that boy Tusta Krishna has telephoned to Bombay that he must soon leave from there and he is having trouble in so many ways, so I have sent Siddhasvarupananda there to help him, and you may also go there at once and work cooperatively to try to rectify the situation. I am very much worried the whole thing will collapse if Tusta Krishna must go away. You go there and send me full report. There is such good potential. I like that place very much, it will be great disaster if things are in confusion. Especially you should try to approach the government authorities who are against us and try to pacify them and convince them about our Krishna Consciousness movement.

Hoping this meets you in good health.

Letter to: Citsukhananda

Ahmedabad 11 December, 1972

New York

My dear Citsukhananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 17, 1972, and I have noted with pleasure that you want to go to Caracas, South America, to join Hanuman for opening centre and preaching work there. That will be very, very nice. I know that you are the right man because I saw for myself how nice you have created the Mexico City temple of ISKCON, and I was very much inclined to those devotees. Only I had some difficulty with language difficulty to preach, but still I could see how pious they were and eager to listen anyway. That is the only qualification, if someone is eager for spiritual improvement. So I think because Hanuman is always sending me successful reports of preaching meetings, so many newspaper articles and photos, that this Krishna Consciousness movement will be very famous there and you will find many interested persons to become devotees, just like at Mexico. Now you go there, along with your good wife and family. But one nice thing is, before you had told me you thought it was best if first you had got one nice place and made all arrangements before your wife and child joined you, then they will not have to suffer unduly nor shall you be hampered in the beginning to work very hard without good facilities at first. Later they may come when there is sufficient place.

I think Gaurasundara in Hawaii is the GBC man for South American Zone, so you should also write to him in this connection and take his advice and make report to him, along with Hanuman, at least once in a month what you are doing. I have recently got one letter from Hanuman, and his address is: c/o Agencia Wallis C. A. Edificio Karam, PO Box 1826, Caracas, Venezuela. I am sending one copy of this letter to Caracas, as you have mentioned that you are leaving New York first week in December. If there is good possibility to arrange nice programmes, and if you have got a very nice place by then, why not I shall stop there in Caracas while returning to your country sometimes next year?

Hoping this meets you in the best of health.

Letter to: Mohanananda

-

Ahmedabad 11 December, 1972

72-12-11

My Dear Mohanananda,

Please accept my blessings. I beg to acknowledge your letter dated November 22, 1972, and I have noted the contents with great care. I am very, very glad to hear of your desire to return to Gurukula school and apply yourself to developing that place. I am so glad to hear this good news. Only a few weeks back I had got a letter from Satsvarupa wherein he has informed me that Stoka Krishna has left Dallas and that he must go there to take charge himself. But he is sannyasi and he should travel and preach, and he has not much taste for watching after so many things. So I had suggested him to get a full-time manager, some grhastha, nice husband and wife together, to manage the things, and that he shall expect that such person will stay tightly and develop it and make that his life work. It is the most important preaching work, to train our children in Krishna Consciousness education of life. And I think that you are just the right man to do it. Krishna has given you the right idea, just see! I was also at Dallas school last summer and I was very much impressed with these children, how nicely they are becoming preachers and kirtana men and girls. If we can develop properly, one day they will turn the world by their preaching. Let the small children from all good families in your country come to our Gurukula school and take education from us. They may be certain their children will get the real knowledge which will create the best citizens of brahminical type, clean, honest, law-abiding, healthy, industrious, all good qualities they will have. Now I think Krishna has inspired you in this way, and every facility is there, you are the pioneer in Dallas and you know how to do everything nicely, that I know, so now you go there immediately after consulting with Satsvarupa and Karandhara and Madhudvisa and the others, take their advice and do the needful. If you become Head Master of the Gurukula that is more important than going to South America. This is the most important post in pushing on this movement, practically, because you shall create our preachers of the future, many, many of them. That will be your great credit and contribution. May Krishna give you His all blessings more and more for this task.

If you still like to contact Hanuman, he is having some difficulty with the governments in these places, but I have just got on letter from him the following address: c/o Agencia Wallis C. A. Edificio Karam, Avenida Urdmeta, P. O. Box 1826, Caracas, Venezuela. But I think it is better if he takes some brahmacaris and sannyasis with him for travelling in such difficult and dangerous places. You are manager with best experience, and besides you have got wife and child to protect, so it will be very much pleasing to me if you shall take up the big work of Gurukula school and develop it very nicely. Thank you for helping me in this way.

Hope this meets you in good health.

Letter to: Balavanta

-

Ahmedabad 13 December, 1972

72-12-13

Atlanta

My dear Balavanta,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 13, 1972, and I have noted the contents with great care. I have had a good laugh and enjoyed your tricking the opponent candidates in election race, especially in front of the college students. That is a very good sign. Now I want that we shall recruit more and more our men amongst the intelligent class of men. They, because they are little educated or they have got some wealth or fame or ability, so they will be sometimes little puffed-up, but that is all right, they deserve it. Now we shall have to learn the art how to approach such higher-class of men and attract them to apply themselves to this Krishna Consciousness process of self-realization. That requires much tact, and we shall have to expect to meet all challenges by sharp minds. But if we remain always absorbed in remembering Lord Caitanya, how He converted so many intelligent men, even sitting for three days and nights to hear them speak without Himself speaking anything, and if we remember how Krishna was so much patient to explain everything to Arjuna, even Arjuna was speaking like a fool-in this way, being always tolerant of others and appreciating their points-of-view, it will be easy matter for us to convince them gradually to join us. So you have got a very great opportunity for this kind of preaching work. You want to place yourself for public office, that is nice. But that will require your best brain how to do it. Try to win, why not? Of course we may utilize the situation to expose our philosophy and ideas, but if there is also competition spirit, that will increase our enthusiasm to preach and try to convince the citizens. So if there is again occasion for voting race, why not invite and organize some of the other devotees in your country who have got some experience to advertise, canvass, make propaganda, like that, and they may come there for few weeks at a time to help you. In this way, make big, big propaganda. Attract the public to hear our views and plans for practical welfare for the common men. You are American boys and girls, you have got the best brains, now cooperate to place this Krishna Consciousness movement at the front of all others, that is my request.

You are having difficulty with police-force, that is to be expected. This material world is so full of danger, even from our so-called ”protectors.” But we have got the best Protector, Krishna, so do not worry about anything police or other envious persons. In one stroke Krishna can finish them all. But you may get some relief in this connection if you can approach very carefully some leading members of the city government, or big, big men of the town, and convince them by your words and behavior that our devotees are not in any way unworthy persons, that in fact they have left their lives of criminals to try to turn others away from being criminals, and that if simply we get a little facility we can render immense service to the cause of law and order. Like that, if you are sincere and cool-headed, they will appreciate after some time-and if only one of such big, big leaders understands the real fact, that is sufficient to stop all further cases of police attacks. But one thing is, we have not got anything to gain by ”fighting the demons in the streets and courts.” No, our process of solving the matter is simple, why should we unnecessarily take botheration for fighting? Only after exhausting every possibility of peaceful solution shall we fight anyone. Just like Krishna. He did not call for fighting until after every chance for settlement failed. So we shall try to overcome our opponents by, first, our words and our behavior, and all means of friendly approach we shall attempt by sober planning, and only later, all else failing, shall we actually fight. That is our philosophy. And if we stick to these lines of politics and diplomacy as set out for us by Krishna, we shall expect always victory, without any doubt:

vatra yogesvarah krsno yatra partho dhanur-dharah tatra srir vijaya bhutir dhruva nitir matir mama (B.G. XVIII, 78)

Hoping this meets you in good health.

My dear Upendra,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 14, 1972, and I am very, very happy to hear from you that you have started one new ISKCON center at Brisbane, Australia. I do not know if Madhudvisa has made any arrangement for me to come there, I have not heard from him in that connection, but he has invited me to come there, so if I get the opportunity I shall be glad to visit you at Brisbane as well. As for your taking sannyas, that we shall see when I shall come there. For the time being do not disturb yourself or your wife in this matter, there is sufficient time.

As for your opening still another center, if you are only few men there it will be better to stick there for some time and develop everything first. If we open so many centers and then later there is difficulty to maintain them because insufficient men, or if we have to close them, then what is the use. We are not after so many centers, but we want to make devotees, pure devotees of Krishna, that is all. Better one temple with sufficient strong men than many temples with few strong men. Do not open temples simply for the sake of adding some numbers. Let us see the success of one temple, then we shall discuss opening other center.

You have named your child Bhakta Saumya Abhay Charan Dasa, so that's all right. But if you leave your wife with such new-born child, to open other center or take sannyas, what will be the result or benefit of mother alone with child? There must be some proper arrangement, that is not our policy to get married an go away without any responsibility for these things. Husband-wife means he must accept responsibility for her his life-long, it is not such light matter we can reject and do as we like, no. Better I think you stick there for some time more, live peacefully husband and wife, and develop the temple to your full capacity. Later on we shall see to other things.

Hoping this meets you in good health,

My Dear Bhagavan dasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 21, 1972, along with letters of requesting for initiation by me. I have accepted all of them as my duly initiated students, and their letter along with beads are enclosed herewith. I am also very happy to receive the copies of your booklets in French language, and I am surprised that the price is so cheap. So why not make arrangement that all our books should be printed there? At least we may print the books in German and French and other European languages. Consult with the others, and if it is good opportunity in their all estimation, then why not combine and print there? That is the first business, make books and distribute. So I am always encouraged to hear that you are increasing in this respect of making books in foreign languages. Your title "anti-matter and Eternity-A study on immortality through Bhakti-yoga" is liked by me, it is a good translation of "Easy Journey."

So far the other things, they are all like nectar to my ears, and I am very, very much pleased with everything you are doing. I can understand you have saved the situation there and have done the first-class preaching distribution because you are making so many new devotees from many countries, and still you are crowded even after opening the new centres, so that is a very good sign. Now find out that new place in Paris and expand yourself in a solid way, keeping always the propagation of Krishna Consciousness as the goal, simply be engaging all men in Krishna's service. Everyone has got some way he can contribute himself for serving the Supreme Personality of Godhead, everyone. Now conduct your preaching in such a way that when anyone becomes attracted to get something from us he may be induced or allured into serving Krishna in his own way as he likes to do it, not being forced to do something else he may not like to do, that will discourage him and no intelligent men will come. But I think you have mastered this art perfectly well, and because I have not got any complaints from anyone since you have come to Paris temple-although before I was getting many complaining letters-I think the devotees there are feeling themselves satisfied by your engaging them happily in Krishna Consciousness life. Thank you very much for assisting me in this way.

I think by now Mandakini has again gone to Russia, so she may send report as soon as she is able. Under all circumstances, keep our preaching work in front, it will save us in all conditions from the clutches of maya, that we have learned.

Hoping this meets you in good health.

My dear Sons and Daughter,

Please accept my blessings. I beg to acknowledge receipt of your letters dated November 22, 1972, and upon the recommendation of Bhagavan I have gladly consented to accept you all as my duly initiated disciples. I have chanted on your beads and they are enclosed herewith. I have given you the spiritual names as follows:

Rick Joaquim/RASADA DAS
David/DVIJAVARA DAS
Anita/ANNADA DASI

Now please continue to strictly follow the regulative principles and rigidly observe the four principles restrictions as Bhagavan has taught you, and without fail always chant at least 16 rounds daily on your beads, and be happy.

If you stick to these principles with determination, you will be freed from all attachment to maya, by Krishna's grace. The example is that when the sun is in the sky then where is the question of darkness? Similarly, when Hare Krishna mantra is vibrating on your tongue, and you are hearing attentively, then your consciousness become clear or Krishna Consciousness, and there is no question of maya or hazy consciousness. Just as when the darkness and the light come together the darkness cannot stand before the light, so maya cannot remain in the presence of Krishna. Always remember therefore to chant Hare Krishna, and that will save you in all circumstances without any doubt.

Now I am enclosing also one sacred thread, duly chanted by me, along with copy of gayatri mantra. Bhagavandas will hold the fire yagna and give sacred thread to Sri Gopala. He may play the tape of me reciting gayatri mantra into his right ear and teach him to count on the finger divisions. The fire yagna can be held for all the four devotees.

Hoping this will meet you all in good health.

My dear Candrabali,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 4, 1972; and I have noted the contents with great care. I have received also one letter from your good husband Citsukhananda and he is going to Caracas, South America, for opening our ISKCON Branch there. I am very much pleased upon him for his doing such prominent work in spreading this Krishna consciousness movement to that part. Especially I was happy to see your nice temple in Mexico City, and I am always thinking of that place and all the nice devotees there. I am happy to note also that you have given birth to a daughter. You may call her Nalinayateksanah Dasi, which means eyes like the spreading petals of lotus. Raise your family to be exemplary Vaisnavas by yourself following the regulative principles and rigidly chanting Hare Krishna mantra, and without any doubt they and yourself will become all of you firmly situated on the path back to home, back to Godhead.

Regarding your questions, Srila Bhaktivinode Thakura never took formal sannyasa. He was babaji, living in seclusion away from wife and family as Paramahamsa. One can have as many children as Bhaktivinode Thakura as long a one is as good as Bhaktivinode Thakura. Visnupriya, wife of Lord Caitanya, was young woman of 16 years old when her husband took sannyasa, leaving her without any children, but she always remembered Him, so in that way she was always serving Him and she was never separated from Him. Regarding your husband taking sannyasa, you should not worry as we shall see to the matter later, not now, and I promise you he will certainly fulfill his family obligations in Krishna Consciousness.

Hoping this meets you in good health.

My dear Jayadharma,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 10, 1972, and I have noted the contents, along with the drama-script from Srimad-Bhagavatam. It is very nice. This kind of play-acting is wanted. Now introduce it to your country-men very nicely presented. Emphasis should be given to the words of Bhagavat, they are spiritual and will have powerful effect if someone only hears them with attention, do not be very much enamoured by fancy costumes and stage-decorations, they will only distract. Real acting art is to know how to speak. The greatest dramas, even in your western culture, they can be played without any extra equipment. Just like your Shakespeare-sometime I saw they were playing one drama, I think Hamlet or something like that, and only two men were there on the bare stage and everyone was praising. So the art is catching their ears. Now in that spirit go on with your work and try to do something wonderful.

So far your question, how far should the orders of my duly appointed officers like GBC, etc., be obeyed and followed, the answer is that they must always be followed exactly as he says. Have you not heard me on this point? Why these questions are repeated again and again? This individual begging must be stopped. So many questions, it's not good at all. This question-begging is going on, even some of the important men are doing like that, that I know. So how I can say your question from here? I do not know what you are trying to do by such question. Of course, my authorities and so-called officers, they sometimes also order in such a way that everything becomes topsy-turvy. So you may write to me your grievance-what can I do?-but meanwhile you must follow him exactly whatever he says. If there is complaint, I can make adjustment later. But first of all you must without hesitation obey. It is something like the appealing to the higher court if one is not satisfied by decision of the lower court.

Hoping this meets you in good health.

Ahmedabad 13 December, 1972

Seattle

My dear Sukadeva,

Please accept my blessings. I beg to acknowledge receipt of your kind letter dated November 13, 1972, and I have noted the contents with great care. I am so glad to receive your report after such long time, and it appears that everything is improving more and more, by Krishna's grace. I like this idea of distributing books and preaching, that is Lord Caitanya's plan, and because you are doing it so nicely you are already making the greatest contribution, so what need there is for some special instruction from me? But if you want, I must give, because you are serving Krishna so nicely, so in that case my request to you is that you enter into the universities and colleges wherever possible and preach there with a view to recruiting some first-class devotees for helping me manage and push on this movement all over the world. Overall there is shortage of first-class, experienced men to manage things just to the highest standard, as you are doing. Therefore I am calling upon you the big leaders to push this idea forward, namely, to attract some educated men to join us. The idea is that they will only agree to join us if we ourselves conduct ourselves intelligently by the preaching approach. The secret will be to engage them as they like to be engaged, that is, supposing I have got some education, I am business student, or I have got some skill or talent, I am typist or musician or something like that, so I will like to utilize these things for Krishna only if I am encouraged in a certain way, very tactfully, and I must not be discouraged by too much forcing me at first to accept everything of shaving the head, rising very early, going for street sankirtana, like that. No, let me come gradually, let me study also Krishna Consciousness and see how it is practical and sublime. Gradually I may get some taste for these other things and agree to do them voluntarily and intelligently. We are not dogma or like army-camp, no. We are servants of Krishna, that means because we understand that Krishna is our Protector under all circumstances, we have no more any anxiety, so we become very liberal and tolerant of all kinds of seeing others' sinful activities, and we see them innocent victims of maya, and we try to help them understand what is the real position of life. So you know this art, how to attract and engage men, so aim yourself at the top-class of men and give them every opportunity and facility to become convinced of our philosophy and engage themselves to their satisfaction. That will be the best contribution. Now spread this idea also to the other leaders. So now I do not think there will be any difficulty for you to fill your Seattle centre with the best devotees in our Movement, and then I shall be very glad to come there at next opportunity to give them all my personal instruction. In this way, appeal yourself to the high class of men, not the mass. Mass, too, we do not eliminate anyone, but if best men are there to run on things, mass will follow later.

Upon your recommendation I am accepting the three persons to be my duly initiated disciples and their letter and beads are enclosed herewith. You may report me from time to time how you are making progress.

Hoping this meets you in good health.

My dear Karandhara/Bali Mardan,

Please accept my blessings. I am in due receipt of your several telegrams, and I have replied by telegram as follows: YES YOU CAN USE BOTH THE FUNDS IF IT IS A GOOD OPPORTUNITY FOR NEW YORK GORGEOUS TEMPLE. One thing is, that you should inform me in detail and send the plans of that place, along with how you shall make all the payments. You may repay me the $80,000 gradually by paying the money to Dai Nippon and shipping books to India, as they require, and they shall pay Rupees there into our M-V Trust Fund Account in Indian Bank. Another thing, Syamasundara. is going to London in one or two weeks for some other urgent business, so he shall see what is the position for getting the house there, and if there is no urgent need to use it there at London he may send the money you had sent for down-payment back to New York. If there is any immediate need to utilize the money for the London house, we shall make some suitable adjustment.

Letter to: Tusta Krsna

•

Ahmedabad 14 December, 1972

72-12-14

Byron's Bay, Australia

My dear Tusta Krishna,

Please accept my blessings. I am in due receipt of your letters dated November 18, November 22, and December 3, 1972, and I have heard that you are having some difficulties, so I have sent Siddhasvarupa there to help you. Now try to keep a cool head under all circumstances and always remember that Krishna will protect you in any case, you haven't to worry anything. I think that without you the New Zealand affair will not go on, but now you are leaving there to live on some farm in Australia. Of course, our serving Krishna is voluntary affair, so what can I say? If you think that is the best choice, I must agree, otherwise you might go away altogether. Anyway we shall discuss in detail if I come there in future.

Regarding your questions in the letter of November 18, 1972, you have asked me if the spiritual master is ultimately Krishna, so the answer must be that if you think that way then everyone is Krishna. So why we should think like this? saktyavesa Avatara. means a living entity, but he is specially empowered. Not that he is Krishna. But on account of his exalted position he is honoured as much as Krishna. Not that he is Krishna. That is Mayavadi. He acts in the position of Krishna, but he is not Krishna, he is very dear to Krishna. That is explained: (here the verse was quoted: yasya prasadat bhagavata prasadat . . .) The spiritual master is acting in the position of Krishna because he is the most confidential servant of Krishna.

Your next question, after leaving this material realm does the devotee remain forever with his spiritual master? The answer is yes. But I think you have got the mistaken idea in this connection. You speak of pure devotee, that he is saktyavesa avatara, that we should obey him only-these things are the wrong idea. If anyone thinks like that, that a pure devotee should be obeyed and no one else, that means he is a nonsense. We advise everyone to address one another as Prabhu. Prabhu means master, so how the master should be disobeyed? Others, they are also pure devotees. All of my disciples are pure devotees. Anyone sincerely serving the spiritual master is a pure devotee, it may be Siddhasvarupa or others, a-Siddhasvarupa. This must be very clearly stated. It is not only that your Siddhasvarupa is a pure devotee and not others. Do not try to make a faction. Siddhasvarupa is a good soul. But others should not be misled. Anyone who is surrendered to the spiritual master is a pure devotee, it doesn't matter if Siddhasvarupa or non-Siddhasvarupa. Amongst ourselves one should respect others as Prabhu, master, one another. As soon as we distinguish here is a pure devotee, here is a non-pure devotee, that means I am a nonsense. Why you only want to be in the spiritual sky with Siddhasvarupa? Why not all? If Siddhasvarupa can go, why not everyone? Siddhasvarupa will go, you will go, Syamasundara will go, all others will go. We will have another ISKCON there. Of course, Mr. Nair must stay.

And if somebody does not go, then I shall have to come back to take him there. One should remember this and every one of my disciples should act in such a way that they may go with me and may not have to come back to take another birth.

As for your next question, can only a few pure devotees deliver others, anyone, if he is a pure devotee he can deliver others, he can become spiritual master. But unless he on that platform he should not attempt it. Then both of them will to go to hell, like blind men leading the blind.

Next you ask if I am present in my picture and form? Yes. In form as well as in teachings. To carry out the teachings of guru is more important than to worship the form, but none of them should be neglected. Form is called vapu and teachings is called vani. Both should be worshiped. Vani is more important than vapu.

Your next question is, should we love Krishna or love the spiritual master: You cannot go to Krishna directly, loving Him. It is common sense that if Krishna is the object of your love, His pet dog is also the object of your love. Friends meet friends and if the friend is with his dog the gentleman pats his dog first, is it not? So the man becomes automatically pleased, his dog being patted. I have seen it in your country. The conclusion is this: Without pleasing the spiritual master he cannot please Krishna. If anyone tries to please Krishna directly, he's fool number one.

Hoping this meets you and your good wife, Krishna Tulasi dasi, in good health and devotional mood.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Visvambhara

Ahmedabad 14 December, 1972

Montreal

My dear Visvambhara,

Please accept my blessings. I am in due receipt of your letter dated November 23, 1972, and I have noted the contents carefully. Regarding your four questions, I am replying them one by one. But these things should not be asked until you have first of all asked them to the GBC men. Whatever they say you should accept, but if they cannot satisfy you, then you may ask. But I have answered these questions many times, why you are not learning these things?

(1) So far your question about the Gopis, in the beginning there is no such question. In the beginning we have to follow the principles of devotional service rigidly, like chanting 16 rounds, regularly following the instructions of the Spiritual Master, which includes study, temple worship, sankirtana, like that. And the more one become perfect at following these principles, the more his relationship with Krishna becomes manifest. Following in the footsteps of Gopis comes in the perfectional stage. First you come to the perfectional stage, then you talk of Gopis. Going to girls and making them pregnant, then talking of Gopis, that is going on, that is nonsense. Without coming to the perfectional stage, if anyone tries to understand the Gopis he becomes a sahajiya. Gopis are not

ordinary women, they are all expansions of Krishna's pleasure potency. So when we understand Krishna, then we shall understand Gopis. We can simply follow foot prints of Gopi how they loved Krsna.

(2) You mention there is fighting and making politics in the temple. But that is your previous qualification. That means you could not give up your qualification. You or anyone. So you should be careful not to revive your old qualifications. It is the business of the Temple President to check it. If such things are happening, it should be brought to the notice of the President. How I can judge from here? It may be you who are fighting and making politics, it may be you who is wrong. It is up to the President to judge. But we must always be enthusiastic to serve, that's a fact, so much so that we will gradually reduce eating and sleeping and save time for Krishna's service.

(3) Regarding your question, what is the difference between Krishna and the deity, 'that is nonsense. There is no difference between Krishna and the Deity. Anyone who sees such difference, he has not understood the philosophy. There is nothing like that: inside and outside the Deity. This is Dr. Radha-Krishna's philosophy: "It is not to the Krishna, but to the inside Krishna."

(4) You have asked about "chemical changes of consciousness" or drugs, and if these may ever be utilized in Krishna's service. To change consciousness, therefore the Spiritual Master is there. Do not do anything whimsically, like taking these drugs, that will ruin everything. Because you are imperfect you require help from the Perfect, and anything material like drugs is imperfect, so do not be distracted by contemplating in this way. This chemical is intoxicant, it will not help, it will send you to hell. So if you have received initiation, then you have got the instruction no intoxication. So why do you ask this? That means that you have still addiction to these intoxicants. It was said, and you promised, no intoxication, so why do you think of this?

Hoping this meets you in good health.

My dear Capt. Singhal,

Please accept my blessings. I am in due receipt of your letter and have noted the contents carefully. I shall be the last man to give up the Hare Krishna Land to the rogue Mr. Nair. He has taken our money but tactfullly has not given us the conveyance. He wanted to take farther Rs. 300,000 by similar tactics, but we have saved the situation for the time being.

Now I am going to Bombay on Monday and shall be staying at the following address:
C/o Karttikeye Mahadevia

Your suggestion to hold a meeting of the Life members is very much welcomed. I wish that a meeting as suggested by you may take place on the Hare Krishna Land immediately. Please come and see me on Monday conveniently after 4:30 pm and we shall talk about it. The land is still in our possession and we are not going to leave this land so easily. More when we meet.

My dear Danavir,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 27, 1972, and I note that you are requesting to take the sannyasa order of life. But if you have got wife, that will be difficult. If someone devotee has got wife, that will not become a very popular policy to grant so easily sannyasa. And if your wife wants many children, that is the only purpose for getting married to wife, to have facility for sex-life, otherwise what is the use for taking so much botheration of married life? So now you are married man, that decision you have made. That is great responsibility, and that should not become so light matter that anyone may think, Oh, let me get married and if I don't like my wife, or there is anything difficulty, I will write Prabhupada for taking sannyasa, finished. Never mind wife, let her go to hell. That is not very nice proposal. Married life is serious business. If you have taken wife, you must be completely responsible for her throughout your life. She shall always serve and obey you without fail, and you shall instruct her in Krishna Consciousness and act as her spiritual master. Otherwise, without husband, women have great difficulty to make spiritual advancement. So if we have to develop a perfect society of scientific arrangement for making spiritual progress, then so many women will be there, so what shall they do? They have also come to Krishna, we cannot reject them. Therefore I have advised my students to get themselves married. I was householder, my Guru Maharaja was life-long brahmacari. But we are doing the same work of preaching Krishna Consciousness, so what is the difference, grhastha and brahmacari? Actual sannyasa means that he has given everything to Krishna, so practically you are already sannyasa. But if you have got wife, and if she is very desirous to raise children, she will not be very happy if you go away. That is not our business, to create havoc, no. If wife is very strong, she will appreciate if you take sannyasa, but if there is question at all, that should be avoided. Just like I never liked my wife, but I knew it was my duty to stick until my sons were grown-up, then I left. But if you give your wife one child, then she will be happy and she will have some life-long occupation, that you must consider. But at least you can wait until I come there next time, then we shall see further.

Hoping this will meet you in good health.

17 December, 1972

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 30th, 1972, wherein I am so shocked to hear from you that you have left your good wife for some time to have sex-life with another girl, who is also a devotee, and that she is now pregnant with your child. That is most disturbing to me. But I know that all big leaders are falling victim to sex-life. So let her live in New York and you live in Paris with your wife, what can be done? But you should not ever see or correspond in any way with her again. That will be the worst example. If you are leader, how you can do these things? If someone will have her, she may get herself married and be happy in Krsna consciousness-I do not want that she shall go away from shame. But you must have nothing more to do with her. Just like [another devotee] has done. He was like the sifter, full of holes, and he was finding fault only in others: Oh, just see that needle, he has got a hole. Now he has made one girl pregnant and they were found out, so he has left me as my personal servant. That is the common practice: full of holes, yet they are accusing others, "Oh! He has got one hole!

Our business is to raise ourselves to the highest status of life as preachers of Krsna's message, and one should behave himself rigidly, then he should instruct others. Two things: Be himself exemplary, then teach others to be exemplary. If one has not come to that high standard, he cannot judge or criticize others. There is one saying from Bible: 'Judge not, lest ye be judged.' So how we can preach unless we are able to make judgements? That will not be possible. Only those who are above suspicion can judge others. One must himself act in such a way that he is always above suspicion. Then he can judge, then he can preach. But now you have no power to instruct. One who is not following himself, how he can instruct others?

If you are repentant, that's all right. You have got your wife, so if you are sexually inclined therefore you should always be with your wife. You are repenting, so Krsna will excuse you. But never do this again. Rather you should stop sex-life altogether, make this your austerity. Do not eat nicely, chant always sixteen rounds, and pray to Krsna to excuse you for your great offense. You are one of the senior devotees, therefore if you behave like that then the whole Society will be at risk. By their nature, gestures, dress, women are lusty-that is their habit. In the Srimad-Bhagavatam it is stated that when a woman comes to serve you, you must be very careful, especially for sannyasis and brahmacaries."

My dear Sankarasana

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 10, 1972, and due to my wandering here and there for preaching work in India I have not yet had opportunity to reply you til now. Your question is whether you can utilize your inclination to play the guitar and write songs about Krishna in devotional manner of activity. Several times I have replied this question, I do not know why you are not learning these things. There should be arrangement for distribution of such information to all the devotees if there is some important question, not that I shall have to continue answering over and over the same thing.

But as you have requested, I am your spiritual master, I must reply you to your satisfaction. So this playing guitar and writing of songs is not very important thing. You can write and play, but one cannot take it very seriously. If any Vaisnava is writing song about Krishna, he should have realized himself what is Krishna, just like our great saints and acaryas like Madhvacarya, Ramanujacarya, Rupa Goswami, six Gosvamis, Bilvamangala, Bhaktivinode Thakura, like that. They are self-realized souls, therefore if they write something song about Krishna that will be perfectly from the transcendental platform, without any tinge of mundane influence or nonsense imagination. Unless he comes in the category of these big Vaisnava personalities, his manufacturing some songs will be misleading to himself and to others. And unless his writing of songs can be accepted as gospel, like Vedas, then such writing is simply disturbance and is diverting the attention from the subject matter only. That songs writing we cannot regard very seriously. That will spoil the whole thing. But you can utilize your propensity to write poems and articles for BTG, for singing in the kirtana, like that. That will make you very happy. Now you just apply yourself for becoming qualified to see Krishna face-to-face, then you will be able to actually write songs about Krishna.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Gurudasa, Yamuna

Vrindaban

My dear Gurudasa and Yamuna,

Please accept my blessings. I am in due receipt of your several letters dated November 30 and December 12, 1972, and I have noted the contents with care. I am most pleased to learn from you that the work in Vrindaban is going on very nicely, and that you are both happy in Krishna Consciousness. That is the main thing. Of course I know that you are not trained-up for being construction manager, neither that job must be very much tasteful to you, but because you are sincere devotees of Krishna He is giving you all strength and intelligence how to do it. That is wanted, that is advancement in Krishna Consciousness. Not that I must have a very nice place, I must serve like this or like that, otherwise I shall go away. No, Vaisnava devotee means give me simply a place to lay down, little prasadam, whatever little service you have got please give me, that's all. Thank you very much for taking up this difficult work to help me in this way.

Now you are requesting money for supplies, that's all right, but I have not seen the accounts for the money you have spent to date. That you should also supply. But I think Mr. Sarkar is inspired to cooperate with us, and he is very expert, so I do not worry on that account. But record of expenditures must be there, that is standrd procedure. I was informed that the party of Yasodanandana and Mahamsa will forward all collections to Vrindaban, but I do not know if they have done it. Mahamsa is coming to Bombay in a few days time and I shall request him to do immediately. We have completed our pandal programme of Hare Krishna Festival in Ahmedabad and it was very, very successful. On the last night the huge pandal was filled completely, at least 10,000 or 15,000 attendance. So far Yasodanandana's party, I have just got one letter from them and they shall remain at the following address for one month more:

[SECRETARY'S NOTE]

In Mayapur they are also requiring about Rs. 50,000 monthly for the work, and for that they are managing with travelling party and temple collection of Calcutta. So you collect from Delhi and spend, and for the rest these other parties will send. I have got report that Yasodanandana has collected more than Rs. 20,000 for Vrindaban, so you have not to worry about anything. But you must keep accurate accounts how it is spent and send me. So far Saurabha is concerned, I have left him at Hyderabad to design our temple there on the land donated for that purpose in the busiest marketplace of central Hyderabad city. But if you invite him to come there from time to time, I have no objection.

If you can finish the work by Janmastami next, that will be a very great credit for you, and I shall come there from any part of the world just to install the deity. But now you must work very, very hard to make good your promise to me, otherwise I shall be very disappointed and become very, very angry upon you. You may purchase deity from Mayapur-Vrindaban Trust Fund, about that I shall inform you later. One thing is, I have received report that Tejiyas is having difficulty in Delhi because no men are there to assist him. Delhi is the cultural capital of India, but we have not yet done very much to develop in Delhi. Tejyas is very sincere and hard-working boy, so we must encourage him. So I have asked Tamala Krishna and Syamasundara to find some men to go there, and they will do the needful. There are so many intelligent boys and girls in Delhi, that I have marked, and I think there is more potential there than other places in India, so if you and Yamuna go to Delhi from time to time to help Tejiyas with the preaching work, especially preaching to the student class of young persons, that will be nice. If there is shortage of men, we must recruit some men, first-class men, to help us do the work. If that is attempted sincerely, this preaching work, Krishna will provide men to help us. Krishna does not like to see His men suffer or become frustrated and depressed on His behalf, no. If we remain always faithful to Him, working very hard despite all difficulties, very quickly you will meet Krishna face-to-face, you may know it for certain.

Another thing is, I have heard there is no more CCP for getting our books. But now we are holding a huge pandal festival in the Cross Maidan at Bombay, from January 12th to 21st, so we shall need to take our BTG shipment from the Bombay docks, but they will not allow without CCP. So I hope by now you have got it, and if not, try for it immediately, treat it as urgent matter. And if Yamuna wants to come for that Festival here, she may come here for a few days to lead kirtana before my lectures, then return. But I think that Gurudasa may have to stay for the work, or if there is opportunity, he may also come, but the work must not be jeopardized. Hoping this meets you both in good health.

Mayapur
My dear Jayapataka,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 29, 1972, and I have noted the contents with pleasure. I am so much happy to hear from you all the good news of our Mayapur centre! No, your liking of engagement there is not at all an inappropriate attachment, rather it is your qualification for pleasing your spiritual master. Attachment must be there, for Krishna or for maya. So you have become attached to developing the Mayapur centre, that is Krishna's work, so Krishna appreciates very much when His devotee becomes attached to Him in this way. Yes, the cooperative spirit of working together without any argument is especially prominent in Mayapur, more than other places in India. Therefore you are successful, and the work is going on quickly to completion. That is because all of you working there have become very much attached to the dust from Lord Caitanya's Lotus Feet, and because you have got such deep personal interest with that engagement of work, you want to see that it is done nicely without any hindrance of selfish motivation, never mind all kinds of conditions of the material nature. That idea has become prominent for all of you, it is bigger than maya's idea, therefore maya cannot interfere to make you quarrel or other things. But you especially are to take the credit. From the very beginning you wanted that place, and you got the land, got money from me, and now you have built the place by your concentration of energy. That is wanted. If there is some discrepancy anywhere, some non-cooperation, fighting, or if the work is slow or not to the standard, it is to be supposed that the person or persons in charge are not very much attached to Krishna. That means they will discriminate: my engagement is not good, other's engagement is good, like that. They do not know the secret of surrendering to Krishna. Such surrendered devotee sees that everything is part of Krishna's plan, that whatever is meant to be, I am doing that, so let me do it with my full attention to every detail, let me become absorbed in such service, never mind what it is, but let all other considerations be forgotten and only my desire to do the thing best for Krishna's alone pleasure be my motive. That is advanced stage of understanding devotional service or Krishna Consciousness. Thank you very much for your kindly coming to the point.

Now I want to officially open the building on Lord Caitanya's Appearance Day. So please try to finish it by that time. What is the use to buy more land like Damodara Maharaja's land? And why his house is so special it is worth Rs. 11,000? So far Sridhara Swami's land, if we can use it then we may purchase, but we cannot pay such a high price for it.* In these things you decide as you think best, I cannot tax my brain. Do everything consulting Bhavananda and Tamala Krishna.

Now we are holding a very grand pandal function in the Cross Maidan at Bombay, so it may be that we shall have to bring the Radha-Madhava deities there from there to Bombay for the occasion. We are trying to get new deities from Jaipur, but that may not be possible. Let us see. But at least be prepared to bring them at any time. Acyutananda may bring them with him to Bombay. You may inform Acyutananda that I want that he shall come here for the pandal programme, to lead the kirtana and preach in the "Questions and Answers" tent. He should remain prepared, and if I call to bring deities, he can bring. Otherwise he may reach here by first of January, in any case. Others may also come from that side, especially Gargamuni may come if he likes, he is first-class preacher to preach to many thousands who will attend the Questions and Answers tents, so you may inform like that. And whoever shall come must bring with them as many mrdangas and karatalas as possible, at least four drums are required and ten sets of karatalas.

Otherwise there are no instruments here for the kirtana, and that will be a great dishonor for displaying the sankirtana movement to people of Bombay. Kindly inform the others these things.*

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/sda *As we are not in need of Sridhara Maharaja's land why should we take it? Better wait until my arrival. *Our Ahmedabad programme was highly successful.

Delhi

My dear Tejiyas,

Please accept my blessings. I am in due receipt of your letter dated December 10, 1972, and I am very much disturbed to hear from you that you have become disturbed in your mind. Do not be disturbed. There is no cause for anxiety. You are doing your best to serve Krishna, that is very much appreciated, so do not lose enthusiasm out of frustration, that will spoil everything. Krishna Consciousness means we should always be satisfied and happy, not that we must work something impossible, becoming overburdened, and then because we are unhappy by so much trouble we lose enthusiasm altogether and give up all hope. No, if too much endeavour is there, that is to be avoided. By all means we must preserve our spiritual status, that is the point, not that we are mad after big buildings, many devotees, life-members, this, that-no, these are only ways to engage the devotees so that they may apply the principles of devotional living to some kind of work for practical realization of these principles. It is not the result of the work we want. If only one person daily, if we sincerely preach to such one person in a day, that is sufficient, never mind big, big programmes. So my request to you is that you do not be bothered by these things, and I have instructed Tamala Krishna and Syamasundara to send you men, so they will do it, rest assured. Krishna does not like to see His sincere devotee suffer or become frustrated or depressed. He will not stand idly by in any such case, so do not fear on that account. Krishna has got some plan for you, always think in that way, and very soon He will provide everything to your heart's desire.

Yes, I have seen Vaikunthanatha in Ahmedabad and he appeared very sickly. So he may have to go back, that's a fact, but I shall send you some other good men to assist you. So far Dvija Hari is concerned if he is acting in that way, that is abominable. He has collected some money, so my direct order for him is that he should immediately leave Delhi and return to his country, using the money has got. He may go to Los Angeles and stay in the temple there, taking instruction and help from Karandhara. If he tries to commit any further harm to you or attack you physically, inform the police and have him arrested. Or he may use that ticket of Vidura and give Delhi temple the money he has collected, that is better idea. You may inform him like this. If he has got question, he may write me, but I think he should leave at once without further delay. In Los Angeles there is better facility for making film, that he should know.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/sda n.b. I think that if no one is there to help you at present moment, and no one can be spared from Bombay due to Cross Maidan pandal work, then you may come Bombay along with Puranjana and work here, then after the program is finished in Bombay, say about January 22nd, you may return to Delhi with a full party of strong men selected by you from the men in Bombay. But if there is urgent business, you may remain there and we shall make other arrangement as you suggest.

My dear Meenakatan,

Please accept my blessings. I beg to acknowledge reciept of your letter dated 12/7/72, and I have noted the contents. Thank you very much for the sincere sentiments expressed therein, and I am very much pleased that you are happy in Krishna Consciousness. For the time being, you may assist Subala Maharaja by working there in Delhi for collecting and making Life Members for the Vrindaban project. At present there is shortage of men to help there, so kindly give your full co-operation. For now, I am not making any more sannyasis, but we shall see later on.

Hoping this will meet you in good health.

My Dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of you letters dated December 6 and 13, 1972, and I have noted that you have sent two airline tickets for my coming there along with my one assistant. If that is so, where are those tickets sent, with which airline, where to pick them up? I am prepared to come there, as you have made such enthusiastic arrangements, but I shall be holding our Hare Krishna Festival again in Cross Maidan from January 12th to 21st, and after that there are a few programmes in Calcutta, so I may leave from Calcutta round about January 25th or so, go first to Djakarta, then as you suggest me. But one thing is, I must travel at least with two secretaries, Srutakirti and Syamasundara.. So you may send three tickets to Bombay, informing us name of airline, etc. But I think your programme is bit strenuous. We should not work strenuously. Whatever can be done easily, that will be better. However, I am prepared to do as you think best, but flying here and there, so many places, that will be little troublesome, what do you think? Better a few programmes with many persons attending of high interest and intelligence, instead of many programmes here and there if there is chance nobody may come. At any rate, I shall be very glad to come there under your invitation to see all those nice boys and girls and how the things are going on. You mention Mohanananda, now he wants to stay there in Sydney. I had requested him to go to Gurukula school because he desired to do it. They very much require a Headmaster there with his experience and enthusiasm, so I do not know if he still wants to do it. Somehow or other our children in Gurukula may not be neglected due to our mismanagement. But we shall discuss further when I come there.

Regarding you question, do mental sinful activities cause a bad reaction? The answer is no, they do not. We do not suffer for thinking something sinful. Not in this age. That is a special concession for Kali-yuga. Yes, you are correct in stating that spiritual activities, even mentally performed, are beneficial. You have seen the picture in NOD how a brahmana simply by mental service was promoted to Vaikuntha.

Hoping this meets you in good health.

My dear Yasodanandana and Gurukrpa,

Please accept my blessings. I am in due receipt of your letter dated December 3, 1972, and I have very much appreciated hearing from you the news of your successes in preaching tour. You are the pioneers preachers in South India. That is very important portion of India, and there is much to do there in future, so you are paving the way. I know that you are both best preachers and you will not stand by idly and listen to any nonsense ideas or mayavadis. That is very nice.

My Guru Maharaja was also inclined toward his bolder preachers. Therefore I am requesting that both of you, with your party, join me very soon at the Hare Krishna Festival in Bombay Cross Maidan, at least you should come by January 1st. This is our big opportunity to emphasize our preaching strength to the big men of India and population in general. There is arrangement of ”Questions and Answers” tents for the general public, just by the main street of the city, wherein we shall conduct throughout day and night preacing by my disciples by answering any and all questions put forward by the public. I think that you will enjoy preaching in that way, and I want to place my best preachers there for that purpose of defeating all challengers. Kindly oblige and do the needful.

Hoping this meets you both in good health.

Letter to: Karandhara

-

Bombay 22 December, 1972

72-12-22

Los Angeles

My dear Karandhara,

Please accept my blessings. I am in due receipt of your dated December 11, 1972, and I have noted the contents with care. Regarding your proposal to cash my bonds and take that house in New York, I have heard from Bali Mardan that the bid was refused and that he has made another bid, but it will be some time before it is decided. And Dhananjaya has telephoned to Bombay to request for keeping that down payment, because George is very keen to purchase one monastery and there is every chance they will get it before one week. At least let us see. So there is no immediate need to cash my bonds, nor take the money from London. Jayatirtha has informed that Bali Mardan has saved more than $100,000 in few months time only, so New York is very rich place for collecting, so why not he shall collect there for few more months to raise the whole price? Also, that place on 77th Street is not so much important as 5th Avenue and 40th Street. If we are taking such big place for big risk, why not in the important business district?

Now my plan for books in India is this: We shall pay MacMillan for 20,000 copies of Bhagavad-Gita at $1.25 each. Price may be settled as it is required, but not more than $30,000. I shall pay for 5,000 copies from my bonds, you pay for the balance 15,000 copies from Book Fund there. 5,000 Gitas may be sent immediately to India, the balance you distribute other places. In India we want to order a variety of books. So you may immediately order from Dai Nippon 5,000 copies each of KRSNA (Vol. II) (Hard-bound), TLC (soft-bound), NOD (soft-bound), KRSNA TRILOGY (soft-bound), Srimad-Bhagavatam (5,000 of each volume), plus you may send to India 10,000 each of each of the small books, like Easy Journey, Topmost Yoga, Beyond Birth and Death, Isopanisad, like that. So these books should be given at cost-price only, not wholesale price, and you may cash some of my bonds to pay the total cost-price of the above books to Dai Nippon and ISKCON Press. They shall pay me back here into one M-V Trust Fund Account at the rate of ten rupees per dollar, plus they shall give me some profit. So you may inform me what is the cost per book for each of the above, and the total cost you are having to deduct from my bonds. All books should be sent to India as quickly as possible.

Regarding the work of Pradyumna, now he is working very hard to finish those missing portions, and he will send you very soon. Actually, whatever else he may be doing, I very much appreciate Pradyumna's work. Everyday he gives me some solid work, at least something every day, so I am very much appreciating. I was in Ahmedabad preaching daily in the morning and evening for last two weeks, and at least ten thousand were coming to hear. From January 12th our second Hare Krishna Festival will go on in the Cross Maidan in Bombay, and Tamala Krishna and Syamasundara. are planning something very gorgeous just to push on the preaching work. Meanwhile I am little resting behind the scenes for few days, and one Karatieya Mahadevia has been very kind to give us his place all to ourselves just by the seaside on Warden Road. Many big men of Bombay are coming to see me daily for confidential talks, and they are beginning to very much become inclined to our philosophy. I think in this place, it is very restful and there is no interruption, so I think I shall be able to increase my translations work.

Regarding your points about taxation, corporate status, etc., I have heard from Jayatirtha you want to make big plan for centralization of management, taxes, monies, corporate status, bookkeeping, credit, like that. I do not at all approve of such plan. Do not centralize anything. Each temple must remain independent and self-sufficient. That was my plan from the very beginning, why you are thinking otherwise? Once before you wanted to do something centralizing with your GBC meeting, and if I did not interfere the whole thing would have been killed. Do not think in this way of big corporation, big credits, centralization-these are all nonsense proposals. Only thing I wanted was that books printing and distribution should be centralized, therefore I appointed you and Bali Mardan to do it. Otherwise, management, everything, should be done locally by local men. Accounts must be kept, things must be in order and lawfully done, but that should be each temple's concern, not yours. Krishna Consciousness Movement is for training men to be independently thoughtful and competent in all types of departments of knowledge and action, not for making bureaucracy. Once there is bureaucracy the whole thing will be spoiled. There must be always individual striving and work and responsibility, competitive spirit, not that one shall dominate and distribute benefits to the others and they do nothing but beg from you and you provide. No. Never mind there may be botheration to register each centre, take tax certificate each, become separate corporations in each state. That will train men how to do these things, and they shall develop reliability and responsibility, that is the point. I am little observing now, especially in your country, that our men are losing their enthusiasm for spreading on our programmes of Krishna Consciousness movement. Otherwise, why so many letters of problems are coming, dissatisfied? That is not a very good sign. The whole problem is they are not following the regulative principles, that I can detect. Without this, enthusiasm will be lacking. Even mechanically following, and if he gets gradually understanding from the class, he will come to the point of spontaneous enthusiasm. This spontaneous loving devotional service is not so easy matter, but if one simply sticks strictly to the rules and regulations, like rising early, chanting 16 rounds, chanting gayatri, keeping always clean-then his enthusiasm will grow more and more, and if there is also patience and determination, one day he will come to the platform of spontaneous devotion, then his life will be perfect. All of this I have told you in Nectar of Devotion. So I do not think the leaders are themselves following, nor they are seeing the others are following strictly. That must be rectified at once. Each centre remain independent, that's all right, but the president and other officers must themselves follow and see the others are following the regulative principles carefully, and giving them good instruction so they may understand nicely why this tapasya is necessary. And GBC and Sannyasis will travel and see the officers are doing this, and if they observe anything lowering of the standard, they must reform and advise, or if there is some discrepancy I shall remove it. Of course, if new men are coming, they may not be expected immediately to take to our regulative principles cent per cent. Therefore we should not be so anxious to induce them to live in the temple. Anyone who lives in the temple must agree to follow the rules and regulations without fail. So if some new man moves in with us he may become discouraged if he is forced in this way. Therefore let them live outside and become gradually convinced in the class why they should accept some austerity, then they will live with us out of their own accord and follow nicely everything. It is very difficult to give up very quickly so many bad habits as you have got in your country, so educate them gradually, first with chanting, and do not be so much anxious to count up so many numbers of new devotees, if such devotees go away later being too early forced. I want to see a few sincere devotees, not many false devotees or pretenders.

So my point is that the regulative principles must be followed by everyone. Otherwise their enthusiasm dwindles and they again think of sex and become restless, and so many problems are there. There is some symptom of missing the point. The point is to be engaged in doing something for Krishna, never mind what is that job, but being so engaged in doing something very much satisfying to the devotee that he remains always enthusiastic. He will automatically follow the regulative principles because they are part of his occupational duty-by applying them practically as his occupational duty, he realizes the happy result of regulative principles. So the future of this Krishna Consciousness movement is very bright, so long the managers remain vigilant that 16 rounds are being chanted by everyone without fail, that they are all rising before four morning, attending mangal arati-our leaders shall be careful not to kill the spirit of enthusiastic service, which is individual and spontaneous and voluntary. They should try always to generate some atmosphere of fresh challenge to the devotees, so that they will agree enthusiastically to rise and meet it. That is the art of management: to draw out spontaneous loving spirit of sacrificing some energy for Krishna. But where are so many expert managers? All of us should become expert managers and preachers. We should not be very much after comforts and become complacent or self-contented. There must be always some tapasya, strictly observing the regulative principles-Krishna Consciousness movement must be always a challenge, a great achievement to be gained by voluntary desire to do it, and that will keep it healthy. So you big managers now try to train up more and more some competent preachers and managers like yourselves. Forget this centralizing and bureaucracy.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Hyderabad

My dear Hariprasadaji,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 14, 1972, and I am so much encouraged by your report of the Hyderabad activities, and I think that that place will be most important preaching centre for India, because I have noted that you are all so much eager and enthusiastic to serve Krishna. That is the first qualification to attain the supreme perfection of your life: enthusiasm. If there is always keen enthusiasm for serving Krishna, and if there is also patience and determination, then everything will be successful. So try to every day chant as much as possible Hare Krishna Mantra, read our books regularly, and engage your energy for this business of building temple, making Life Members, like that, and then you will always remain enthusiastic, and gradually more and more you will feel yourself advance in Krishna Consciousness. In this way, you may know it for certain that you will meet Krishna face-to-face very soon.

Now I am in Bombay until about 23rd of January, at the above address, and we are preparing a very gorgeous Hare Krishna Festival for the Cross Maidan from January 12th to 21st instant. So I am free up to 10th January, so if in the meantime everything is settled up then I can go to Hyderabad and lay down the foundation-stone. So far books are concerned, I have told Tamala to send as many as possible so he will see to it. There is shipment of 10,000 BTG's in Bombay harbor, and we are waiting for CCP license to clear them, then part of that shipment may be sent you, immediately. Meanwhile, I have ordered 5,000 to 10,000 each of each of our books for India, so in future there will be sufficient supply. This distributing of books is our most important business. So I am very much pleased upon you that you want to help me in this way. Now go on increasing books distribution, and utilize your fertile brain how to do it more and more. Krishna has given you every facility, so if you use that facility and intelligence for Krishna, just to please Him by your preaching assistance, that will satisfy you completely and it will be the best help to your countrymen, your family, and to all living entities in general. May Krishna give you His all blessings.

Now I want that you become the Treasurer of our branch at Hyderabad, so I have sent one letter of Resolution to Subala in that connection. Kesava will be President and Subala will be Secretary. So far the movie-projector, etc., those things you should arrange locally with co-operation of others, and you may order films from our Los Angeles centre for some cost-price only.

Hoping this meets you in good health.

New York

My dear Bali Mardan,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 8, 1972, along with description of that house. I am enclosing one copy of my letter to Karandhara in this regard. I want to use those bonds for purchasing books for India.* But I think there is no shortage of funds to be collected by you and your men in New York only. I was told by Jayatirtha that you have collected more than $1,00,000 in last few months. So if you go on collecting in this way, where is the difficulty? Of course if there is great need, I can give you, but if you think that you can manage something independently, then try for that, that will be better. I had purchased those bonds originally for M-V Trust, so I want to utilize them in India.

Another thing is, if we get our headquarters in the very important business quarter of New York, just like I saw those photos, big, big skyscrapers surrounding, millions of people passing daily, oh, that will be very wonderful thing. But that quarter of 77th Street, that is costly also, but it is not very important. So I think if you get one place, one skyscraper building, just by the 5th Avenue, say, around 40th Street, 45th Street, Times Square, like that, that will be the beacon-light for our world-wide propaganda of Krishna Consciousness Movement.

Hoping this will meet you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Sons and Daughters,

Please accept my blessings. Upon the recommendation of Sudama Goswami I have gladly consented to accept all of you as my duly initiated disciples. Your beads are chanted by me and are enclosed herewith. I have given you the spiritual names as follows:

Andy Wiernsz/ATENDRIYA DAS
Bill Oliverson/BAHUSIRA DAS
Judy Jones/JITAMITRA DASI
Mary St. John/MAHARHA DASI
Oksana Olenczuk/OMKARA DASI
Vicky Burt/VAJASANA DASI

Now my request to you all is that you very seriously stick to the principles of devotional service, observing strictly the four basic restrictions, and without fail always chant at least 16 rounds on your beads daily, and be happy.

If you practice these basic principles successfully, not forgetting your duty even for a moment, automatically your love for Krishna will come out and you will keep yourselves always enthusiastic to serve Krishna. So you have now got the golden opportunity of this human form of life, and it is not by chance that you have met your spiritual master, so if you are intelligent you will conclude that, whatever else I may do, I must accomplish the supreme goal of my life in this very lifetime and go back to home, back to Godhead. Otherwise, maya is always looking for an opportunity to drag us down, and especially she may attack those devotees who are trying to go away from here. But if you keep yourselves always engaged 24 hours in Krishna's business, and help me spread this Krishna Consciousness movement all over the world, however you are best able to do it in your own way, then you will be freed from all attachment to maya, by Krishna's grace. Just as when the darkness and the light come together, the darkness cannot stand before the light, so maya cannot remain in the presence of Krishna. Always remember therefore to chant Hare Krishna, and that will save you in all circumstances, without any doubt.

Hoping this meets you all in good health.

New York
My dear Sudama,

Please accept my blessings. I beg to acknowledge receipt of your letters dated November 27 and 28, 1972, and I have noted the contents with care. I am very, very happy to hear from you all the good news about New York centre. Yes, from the very beginning I went to New York because I thought that Krishna Consciousness is the most important idea in the world, so let me go to that place, New York, which is the most important city in the world, and if I am able to do anything for Krishna and my Spiritual Master, even I am at the fag-end of my life, at least let me try for it there. So my dreams have all come true, and all of you nice boys and girls are getting the credit. When I was alone in your New York, I was thinking, who will listen to me in this horrible, sinful place? All right, I shall stay little longer, at least I can distribute a few of my books, that is something. But Krishna was all along preparing something I could not see, and He brought you to me one by one, sincere American boys and girls, to be trained-up for doing the work of Lord Caitanya Mahaprabhu. Now I can see that it is a miracle. Otherwise, your city of New York, one single old man, with only a few books to sell for barely getting eatables, how he can survive, what to speak of introducing God-consciousness movement for saving the humankind? That is Krishna's miracle. Now I can see it.

So I am very much pleased upon you for your kindly guiding and training the new devotees in so many ways. Yes, if you simply instruct them as I have taught also you, being yourself always the perfect example and above suspicion, that will act with great force. I am doing that. And I wanted to make some sannyasis to do what I am doing, and if you keep the standard, always chanting Hare Krishna, then it will go on continuously without impediment. That is your duty as sannyasa, to keep yourself always above suspicion in Krishna Consciousness programme, and to teach others to become like you, that's all. That is our perfect programme. And you have pointed out that you want to train others to be leaders, because you have observed there is at present not very many qualified leaders. That is good proposal. Find out some intelligent men from schools, colleges, and being always very tolerant try to convince them gradually to utilize their intelligence and education in the service of Krishna. And if you simply keep to our standard programme-don't try to invent anything "Road Show" or "Yoga Village"-that means chanting daily 16 rounds, rising early, attending mangal arati, like that, if this programme is strictly maintained amongst all the devotees, they will remain pure, and if preaching is pure, automatically leaders, managers, funds, everything will be given profusely by Krishna, without any doubt.

Upon your recommendation, I have accepted the six new students as my disciples, duly initiated, and their letter and beads are enclosed herewith, along with sacred threads (four) and copies of gayatri mantra (five). Now hold the fire yagna and give gayatri mantra to Apurna, Gariyan, Mangalananda, Sudhanu, and Manjari dasi. Teach them to count on the finger divisions, and play for them the tape of me reciting gayatri mantra into their right ear. The fire yagna can be held for all eleven devotees.

Hoping this meets you in good health.

My dear Kisora,

Please accept my blessings. I am in due receipt of your letter from Edinburgh dated December _ 1972, and I am so much pleased to hear from you again. Actually, I liked that place Scotland very much when I was there last time, and especially I saw that the Scotsmen were very much inclined toward our preaching, but the weather was for me unbearable. But I think by next summer they might have got a nice place in London, and because it is little warmer there, I may go and stay some time in London, and if there is opportunity I shall see Scotland temple also.

I am very glad to note that you are so much sincere and enthusiastic devotee of Krishna. That is wanted. If I do not do anything else, at least let me produce one such sincere devotee that's all. You are leader, so if you are enthusiastic then all of the others will remain always enthusiastic, that is your greatest qualification. And it is easy thing to maintain your enthusiastic behavior if you yourself and the rest devotees under your protection always without fail chant minimum 16 rounds daily, rise early in the morning for mangal arati, take bath, cleanse everything nicely, go out for preaching work, like that. In this way, if you stick tightly to the basic principles of devotional life as chalked out for us by our great predecessors, then always you will be feeling transcendental ecstasy of enthusiasm-that is Krishna Consciousness. It is very simple.

Yes, I have seen the press articles sent by yourself and Revatinandana, and I am very thankful to Revatinandana also for giving you all nice boys and girls the right instruction. I can understand that it may be sometimes difficult by material consideration for our preaching work there-I could not bear so much cold even in August-but because you are so much sincere to serve Krishna, never mind a little cold, what is that, only something touching my flesh, that's all-because you are thinking in this way and pushing on the mission of preaching work despite any conditions, therefore you are getting the best advantage of Krishna Consciousness movement. Because you have worked so hard for Krishna, making all sacrifice without any personal selfish motive, therefore you are making such nice advancement in spiritual life. Thank you very much for helping me in this preaching work. May Krishna bless you more and more.

Hoping this meets you in good health.

Letter to: Sri Govinda

Bombay 25 December, 1972

Evanston, Illinois
My dear Sri Govinda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 5, 1972, and I am greatly pleased to hear from you that you have increased the selling books five times more in Chicago centre. That is very good news to me. Yes, there must always be competition, that gives life, that cannot be separated from life. Sanatana dharma means the strong will utilize the energy of the weak, the weak must serve the strong, that we see everywhere, is it not? Who can deny? So that competitive spirit makes us strong, otherwise it is a society of weak men only, and what is the good of such society? But if you ask anyone are you weak or strong, he must answer that he is weak-he cannot control even his toothache, what to speak of his death. Therefore, in fact, it is a society of weak men-everyone is weak before Durga Devi or the material energy. If you see sometimes her picture, the foolish materialist is being held by the claws of her tiger-carrier, while she pierces him to death with her trident weapon. She has got ten arms, each with weapon, she is so strong, but we are so weak that simply by piercing with her trident, the three-fold miseries, adhibhautika, adhidaivika, and adhyatmika, the foolish materialists are all defeated! And before Krishna, Durga devi is very weak-Krishna is the controller of Durga. So Krishna is the strongest: sattyam sattvavatam aham, "I am the strength of the strong." Therefore, being weak, it is the eternal occupational duty of the living entity to surrender to Krishna, that's all. In the surrendering to Krishna, if everyone does it, still, the brahmanas will be served by the lower castes, the kings will be served by vaisyas and sudras, the vaisyas will be served by the sudras, and the sudras will serve all higher castes-there is still utilizing the weak by the strong-but feeling themselves always very much weak in comparison to Krishna, the whole society services the Strongest, therefore there will be no envy of the stronger by the weaker class of men. So perfect society, or Vedic society, does not eliminate competition-competition, stronger and weaker, must be there-but it eliminates envy, because everyone is weak before Krishna. Is that clear?

Regarding your other question, should we become detached from the results of our activities, or should we become simply attached to the Lotus Feet of Krishna, the answer is that both of these philosophies are right. One should not be attached to his personal achievement. But, if one is attached in order to please his Spiritual Master, then it is all right. Unattached to my benefit, attached to Krishna's benefit. Krishna Consciousness means attachment for Krishna and detachment for personal benefit, that's all. But in any case, if there is fight amongst yourselves over these things, book distribution, competition, you should not develop ill-feeling. That depends on the persons. If ill-feeling is there, then stop it and all together chant Hare Krishna. Those who are behind should eulogize those who are advanced. If you become envious, that is material. Attachment, detachment-these things are natural.

If you become attached to something you become detached from other. So we can estimate our advancement in this way. This is the test. In the Krishna Consciousness Movement there is no question of enviousness, hatred, things like that. Material life means hatred for Krishna and desire for matter. So we have to convert ourselves. When one becomes Krishna conscious actually, he does not even hate material things because he becomes expert how to utilize everything for Krishna. Krishna Consciousness is so nice. We do not hate anything material because we have learned from our disciplic succession how to utilize material things for Krishna's service. Actually, bhakti means realization of the Supreme, and this means increasing attachment for Him and reforming of detachment or hating of material name and fame.

So far this making some false story for collecting money or selling book, of course we may do anything for Krishna, but that is supposed to be reserved for very advanced experts in Krishna Consciousness-they know how to catch the big fish without themselves getting wet. So it is not very much advisable to make lies just to sell book. If we simply stick to describing how wonderful is Krishna, then whatever we may lie or exaggerate, that will not be lie! But other things, lies, they will not help us to train ourselves in truthfulness. Lie to some, not to others, that is not a good philosophy. Rather the brahmanas are always truthful, even to their enemies. There is sufficient merit in our books that if you simply describe them sincerely to anyone, they will buy. That art you must develop, not art of lying. Convince them to give by your preaching the Absolute Truth, not by tricking, that is more mature stage of development of Krishna Consciousness.

Hoping this will meet you in good health.

My dear Amogha,

Please accept my blessings. I wish to acknowledge receipt of your letter dated December 1, 1972, and I have noted the contents. It is very much pleasing to me to hear that you are making such steady advancement in Krishna Consciousness. If you continue in this way, and strictly follow the four regulative principles, making sure to chant at least sixteen rounds on the beads, daily, it is without a doubt that at the end of this lifetime, you can go back home, back to Godhead.

You mention that the Indonesians inside the country are good people. Yes, try to make local men into devotees. When I shall come there I shall try to convince that boy who owns the printing press. Don't neglect the Hindus. Collect money from them for printing and pushing on our preaching work. They are able to give enough money, but don't bother to try to mix with or preach to them excessively. Real business is to convert the local men to become Krishna Conscious and carry on the work.

I shall be going there near February 1, so you may do the needful.

Hoping this meets you in good health.

My dear Trai dasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 7, 1972, and I am so much pleased to hear from you that the book distribution has increased five times than before! Similarly, I have heard from Chicago and other places also that they are increasing five times than before. That is very encouraging to me. You are, I can understand, very much enthusiastic to endeavor big things on Krsna's behalf, and all of the new students there at Boston center are also feeling enthusiasm from your example. That is the business of leader: He must be himself always enthusiastic and inspire others to be always enthusiastic. Then he is real leader. And that enthusiastic mood is maintained when everyone is always without fail chanting 16 rounds daily, rising early for mangala aratrika, reading books, preaching-in this way, by observing strictly the regulative principles of devotional life, that enthusiasm or great eagerness to have Krsna will come out. So if you are very serious to remain tightly there in Boston center and develop it fully, I am very much pleased upon you for this. That is advancement in Krsna Consciousness, to stick tightly to the desire or orders of the spiritual master; because my Guru Maharaja ordered it, and I am also ordering it: Go on preaching, spread this Krsna Consciousness all over the world, then if you are taking up the responsibility for that, to work very cool-headedly in this way, then you are understanding rightly what is the point of giving our energy without any personal considerations to Krsna. So try to develop Boston temple to be the first-class temple in your country–why your country, in the world. Recruit some educated men from the colleges, schools in Boston, train them up for preaching mission, in this way develop the quality of your men to be the most surrendered servants of Krsna. That will please Krsna, and you will feel also yourself becoming more and more happy in perfecting your life.

Upon your recommendation I am glad to accept the three new devotees as my duly initiated disciples. Their letter and beads are enclosed herewith.

Hoping this meets you in good health.

Kelso, Washington

My dear Mukunda,

Please accept my blessings. I am in due receipt of your letters dated November 13 and December 11, 1972, and always I am very glad to hear from your good self. You are one of my first and nicest disciples that is a fact, and I am always hoping that you will again come to live with me again, along with your good wife Janaki. That will be nice. But even I am far away, as you say you are remembering me, so also I am remembering you, and in that sense we are never separated. So I can understand that you are rigidly following the regulative principles, chanting without fail always 16 rounds, so in this way you will be protected and your enthusiasm for pushing on this Krishna Consciousness Movement will not dwindle.

I like very much your proposal for approaching all the big leaders of the world and presenting them one Bhagavad-Gita As It Is and one copy of BTG, along with letter of description of our Krishna Consciousness Movement. If you can send me the copy of that Supreme Court Judge's letter? If you simply inform them something, by way of the line of our preaching logic and authority, gradually they may come to know about us and help us. But one thing is, our experience is that such big men will not help us-except if there is some rare soul like Mr. George Harrison, and they must be guided also by our personally contacting them again and again and slowly build-up the relationship. We are more interested that the mass of men shall support us-what good a handful of high-class supporters will do? Just like in your country, there was election, and the opponent of Mr. Nixon, he was supported by all high-class men, but because Mr. Nixon had help of the common men he was successful and won the fight. But, if even one such high-class man becomes preacher on our behalf, if he actually becomes converted to Krishna Consciousness preaching work, then that is the best contribution of your preaching also. Just like George, now he is practically converted and he is only preaching about Krishna, and he has done that from the beginning-I think you knew him in London also, so you know how he is helping us push on the preaching-so that type of big personality, if you can catch one or two such men for preaching contribution, oh, that will be wonderful achievement for you. We want that the mass shall support us, but we want that the class shall preach for us, that is the distinction. Is it clear? Please inform me from time to time how that programme, of inducing influential men to preach somehow or other our Krishna philosophy is progressing. I know that you have got good ability to do that work, I remember how you used to bring so many big men to see me in London, at that John Lennon's house. So if you sincerely desire to serve Him in that way, Krishna will give you every opportunity and intelligence how to seize it up, that He says:

tesam satata-yuktanam
bhajatam priti-purvakam
dadami buddhi-yogam tam
yena mam upayanti te
[Bg. 10.10]

Hoping this meets you and your nice wife, Janaki, in good health.

Please accept my blessings. With reference to a letter to me dated December 6, 1972, wherein Aksojananda Swami has recommended several students for initiation, I have since heard that he has left Amsterdam and he is supposed to be preaching in England, and I have heard that you are now the president of Amsterdam temple so I am informing you that, upon the recommendation of Aksojananda, I am happy to accept the two boys as my duly initiated disciples. Their letter and their beads, duly chanted by me, are enclosed herewith. Please find also three sacred threads enclosed, also chanted by me, along with three copies of gayatri mantra. Now if you have not got experience, then Hansadutta may come there for performing the fire yajna. Or if it is more convenient then someone may come from London, or Aksojananda may come for a few days and hold the fire yajna. Whatever, hold the fire yajna and sacred thread may be given to yourself, Hari Krishna, and Tirthasadhaka. You should be taught to count on the finger divisions and the tape of me reciting gayatri mantra should be played for each into your right ear. The fire yajna can be held for all five devotees.

My Dear Ksirodakasayi,

Please accept my blessings. Since long time I have not heard from you, neither you replied my letter to you from Vrindaban last. I enquired from you about one month ago in that letter what is the position with yourself there in London? And I wanted to know where is that Gift Deed for the Saraf land in Raman Reti, whether it is with you. You told Gurudasa that it is in some trunk in Vrindaban, but we have opened and it is not there. So if you have got it, kindly send it to me at once. Now we have made good progress there in the construction work, but I want to keep that deed with me.

I have heard that you are collecting some money for the Vrindaban work, but how you are doing that and where is that money and how much you have collected? What you are doing there in London? You wanted to open one Iskcon branch in your home, but I could not allow it as official branch. But I encouraged you to hold arati, class, and invite your friends, sell our books, like that, not that you should become silent and go away. I wanted that you should attend regularly with your nice family to our Bury Place Temple, preach sometimes there to the guests, and give our young boys your encouragement and experienced advice. But I have heard that you are not attending, so I am puzzled what you are doing now?

Hoping this meets you in good health.

My Dear Madhudvisa,

Please accept my blessings. I am in due receipt of your telegram from Melbourne dated December 26, 1972, and I have replied it by my cable as follows: "Immediately send c/o Bombay three tickets, February 1st, Calcutta Australasia, remaining entire February." So you may do the needful and send the three airline tickets for myself, Srutakirti, and Syamasundara. here to my above-mentioned Bombay address, or wire them to the airlines office directly in Bombay city. The airlines office in Bombay may notify Syamasundara. at 362963. My plan is to remain here in Bombay until January 23rd for holding our second Hare Krishna Festival in the Cross Maidan. I think last time you were one of the leaders of that first Hare Krsna Festival, so you know how much important occasion that will be. Already there are many banners all over the city advertising this movement as the world's greatest spiritual culture movement. We had just completed our pandal program at Ahmedabad, and it was also very very successful. From Bombay we shall fly to Calcutta for about nine days' time and we may give some programs there also. So I want to proceed from Calcutta to Australia or wherever you suggest on that side. We shall be able to leave on February 1st morning. And you may arrange the program in Australia and New Zealand for the duration of February month. Around the 1st March I shall have to return to Mayapur for holding our celebration of Lord Caitanya Mahaprabhu's appearance day in early March. So you may plan in that way.

I have heard from Siddha Svarupa that Tusta Krsna and his wife Krsna Tulasi are now fine and living in Krsna Consciousness on some farm in Australia. And he has assured me that things are going all right in New Zealand, and I have got one letter from the new president there at Auckland, and it appears that everything will go on nicely. But I think you should go there once and see how the things are going on just to the proper standard. Tusta Krsna is such intelligent boy and capable worker, and I had thought that without him the whole thing would collapse, but whether that is actually the case? Anyway, you may give me report as you see it. And you may also go to that farm in Australia where Siddha Svarupa is living with the others of his disciples and give me report also how the things are going on there, whether our standard is being maintained, like that. I know there has been some controversy within the Society about the actual position of our Siddha Svarupa. But I think he is a very nice boy and he has understood our philosophy just to the point, so I have every faith that he will manage all right. Recently, I had sent one letter to reply Tusta Krsna's questions about Siddha Svarupa, namely, that Siddha Svarupa may be pure devotee, but so all of you are also pure devotees. There is no question that Siddha Svarupa is only pure devotee and no one else is pure devotee. All of my disciples, as soon as they surrender themselves to Krsna, they become pure devotees actually. If you see Tusta there you may see also the copy of my letter to get the right idea. These things must be cleared up or there may be danger of split within our ranks. Try to keep the whole situation in unified condition, but if Siddha Svarupa and his disciples are living there separately and peacefully, I have no objection, so long there is no controversy or ill feelings between their camp and yours. You may initiate some program to integrate the two camps by sending some of our own strong men there to assist. And if they get that land as gift, it should be in the name of International Society for Krsna Consciousness. Now I am so much looking forward to seeing all of you, my beloved disciples, there again in near future, so kindly make all arrangements as you know best. I think you wanted me to stop in Djakarta first, so that is all right, but if there is too much strenuous traveling program, that will not be favorable. Better stop in fewer places and have first class programs there, but I am simply at your mercy and I have only the protection of Krsna in all circumstances; therefore, whatever you make me to do, that I am prepared.

Hoping this meets you in good health.

My dear Bhavananda,

Please accept my blessings. Tamala Krishna has informed me that you are inviting me to come there to Calcutta immediately after the Bombay Cross Maidan Pandal program is finished, so I shall come there as you desire. So you may kindly arrange the airplane tickets for four persons, namely myself and three secretaries, and we shall come there on 23rd morning of January 1973, provided that you mail us the tickets at your earliest. I want to stay until 1st February and then fly from Calcutta to Djakarta and Australia and other places, as Madhudvisa has invited me to come there during February month. So I shall be in Calcutta for nine days, that means I want to speak at nine different programs in various parts of Calcutta city. So you try to arrange some big big speaking programs in various places of the city, all of them being well-advertised and attended by respectable and sober men. Of course, we can talk to any class of men, but I want to speak especially to large numbers of the higher-class or respectable and sober class of men of Calcutta. I will speak in Bengali, Hindi, or English, whatever language is required. So you may arrange the programs immediately in the various places, such as the Bar Association, the Chamber of Commerce, the Stock Exchange, the Royal Asiatic Society, University Institute, Ramakrishna Cultural Institute, YMCA, Govinda Bhavan, Madan Mohan's Temple, Gaudiya Math, Jalan's Ramchandra Temple, like that. Or if there is any Mohammedan or Christian association, we are universal spiritual culture, we can speak to these people also. Or in the Bora Bazar, there is the Marwari Association, or in Bagh Bazar there is Navavrindaban. Also, there is some cultural institution of Birla in Ballyganj and other places. Or there are many halls like the Royal Theater, and other theatres, many temples also, there is the Royal Exchange, like that. So I am prepared to speak every night for nine nights while I am at Calcutta. Make big propaganda and let me inform the respectable men of my birthplace city what we are doing all over the world on behalf of Lord Caitanya Mahaprabhu, and let us see if they will respond for helping us push on this Krsna Consciousness movement more and more.

I have heard one rumor from Gargamuni that Kanupriya and Hayagriva are smoking ganja. In that case, Hayagriva should be asked to leave for U.S.A. immediately to sit down in New Vrndavana and do what he likes. But he is big leader, and if it is common knowledge that he is using such intoxicants, the others will follow his example and there will be havoc throughout the society. That would be a catastrophe. Therefore I am enclosing one letter to Hayagriva and I am ordering him to return to New Vrndavana immediately and not to become misled himself and thus mislead everyone else. As for Kanupriya, if he returns to the U.S.A. he will not stop this nasty habit and it will be worse if he goes there than if he remains in India with his family. So he may remain wherever he likes in India, but he must live separately from the devotees, and if he continues this thing he may be requested not to associate with any of our devotees further.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Nairobi

My dear Cyavana,

Please accept my blessings. I am in due receipt of your letter dated December 15, 1972, and I note that you have returned from another successful preaching mission in distant parts of Africa. I am always so much pleased to hear such good news how the traveling preachers are spreading this Krsna Consciousness movement to every nook and corner of the world. Such traveling and preaching activity is the most highly favored by Krsna and He will bless you more and more with the highest understanding and realization of Himself.

Yes, that is correct proposal, you must have a program for getting income which will not depend upon anyone outside of our camp. Of course ultimately we must depend only on Krsna. If He gives us something we shall accept and offer it in His service, if we have nothing, what is the harm, we shall sit under a tree and chant Hare Krsna. But in any case, I do not want you to leave that temple and move to a smaller place. We must keep at least one nice temple of large size in that part of Africa. If we reduce in that way, that will not be good. Rather increase in all ways, that is our program. The moving and preaching work will be your most important business in Africa. There is not much population and the distances are great, so there is, no doubt, great need for several traveling parties to be working simultaneously. But if you keep that place in Nairobi as your base, sending all of the new recruits as you are able to convert them back to the Nairobi temple for getting themselves trained up, what is wrong with that? I think we need at least one big place for training up the new devotees just to the proper highest standard, just as we are doing in Los Angeles, New York, London, and other places. So also in Africa you require one such model center. If you remain only traveling parties, that will be nice for distributing many many books, and for having the sankirtana, but for new devotees that will be too much rigorous and they will not be able to adjust to the constant moving and changing about. That will spoil their chance for developing in their Krsna consciousness from neophyte stage. So keep the Nairobi center always very active, nicely decorated, worship the deities just to the highest standard, making sure that all of the students are rising to attend the mangala aratrika, chanting regularly sixteen rounds, reading books-in this way utilize what Krsna has given us there and develop it for the headquarters building for Africa.

Yes, if anyone agrees to live with us in the temple he must without any exception follow the four rules and regulations, plus the other regulative principles, otherwise he may be asked kindly to leave the temple and live outside. Or he may not be invited to live in the temple until he has agreed and has proven his ability to obey the regulative idea. The point is that we should not be over anxious just to recruit men if they will not be of the best quality. If someone wants to become devotee but he is little weak, never mind he is living outside, he may come regularly to the temple, chant at home and at his work, and offer his foodstuffs always to Krsna, like that, and gradually he will develop the surrendering attitude and accept voluntarily the life of austerity or tapasya which must be practiced in the temple living. Without such voluntary understanding of the principles and agreement to obey them, no one is qualified to live in our temples. Of course if there are one or two instances of falling down, that may be excused, we are not so overly critical, otherwise who would be qualified of any of us to become devotee? So that tolerant attitude must be there to a certain extent, but we must remain also always firm on this point, that the brahmacaris living in the temple shall not disobey the orders of the spiritual master.

One thing is, if both yourself and Brahmananda, the two strong leaders there, are always gone from the temple, who is managing in your absence? That is to be considered. One strong man, if he is very much fixed-up devotee, he can manage everything nicely, even in huge temple with many students. The problem is not the facility itself, rather the ability of the manager there. So immediately get one first-class man to agree to stick to the Nairobi temple and develop it fully, that will be the best solution.

Hoping this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Deva Mira,

Please accept my blessings. I am in due receipt of your letter dated December 12, 1972 and I have noted the contents with great concern. Bali Mardan is my trusted senior disciple, do you think I am a fool to choose him for running on My big New York temple. Rather, if anyone criticizes him, they must be the fool. He has done so much wonderful service and I appreciate him so much. No amount of your foolish words will touch my estimation.

I am stopping in New York by next summer. Meanwhile, I shall request you not to make any disturbance and I shall request Bali Mardan to leave you alone. You must abide by the order of Bali Mardan, you write as Dr. Please let me know what kind of Doctor you are? Have you got any bona fide certificate? Send me the copy of the certificate at once. Please let me know this immediately.

Geneva

My dear Pusta Krsna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated November 27, 1972, and I can very well appreciate your preaching work on European continent, having received very favorable reports from other big leaders there. That is wanted, that all of you will take upon yourselves the responsibility of preaching widely everywhere the message of Lord Caitanya Mahaprabhu. By that responsible commitment to your spiritual master, that is your qualification for getting Krsna's blessing upon you. And only in this way will you be able to make your spiritual progress rapidly. So you are very determined and intelligent boy, you have got a cool head, so I am very much confident that you will be able to render more and more the best service to Krsna and to your spiritual master. That means that you will simply introduce our Krsna Consciousness program anywhere and everywhere, without any compromise or deviation from the highest standard of devotional practice, as chalked out for us by our great predecessors. If you yourself remain always pure, then your preaching will have effect. As soon as there is little impurity, the whole thing will deteriorate and go to hell. So we shall not like to take the credit in that case, therefore I am praying simply that all of you, my advanced disciples, GBC men, sannyasis, temple officers, like that, that all of you will become sober-minded and feeling always very much responsible how the things will go on as I have given them. If you simply do as I am doing, not avoiding anything which may have to be done for pushing on Krsna's movement, remaining always stuck up very tightly to the footsteps of Rupa Gosvami, then without any doubt you will remain always fresh and enthusiastic for working very energetically on Krsna's behalf, without any falldown.

By next spring or summer I shall be coming to London, so I shall be on that side, so if I get opportunity I shall like to see that place, Switzerland, as I have heard that it is the best place in Europe. Anyway, let us see what Krsna desires.

Hoping this meets you in good health.

Letter to: Vaikunthanatha

•

Bombay 29 December, 1972

72-12-29

Bombay

My dear Vaikunthanatha,

Please accept my blessings. Your letter of December 23, 1972, is in hand and I can very well understand your dilemma, it is apparently a common feeling amongst the devotees from your country who come to India for some time. Of course you are educated and trained up in another way, so the style of living as it is found here in India may not be to your liking. That is natural. And if you are also at the same time little sickly, that will aggravate your disappointment. So I have no objection whatever. You may do as you think best. But that is a fact, many good men such as yourself are required here in India to complete the works that are started in various places such as Vrndavana, Mayapur, Hyderabad, Delhi, like that. But this is difficult work, and it will require very strong devotees, who are also healthy. There may not be always the facility for regulative practice of devotional principles as you have found them in your country, therefore since you are adjusted in that way, you have lost your enthusiasm due to irregular habits. Of course, in the more mature stage of Krsna consciousness one is not affected by such conditions of material nature, being always fixed in his idea and determined to push on on Krsna's behalf despite all kinds of unfavorable circumstances, but that stage of mature realization will come later. For the time being, you are having little difficulty, so I think you will require the regulated household life as you are suggesting. But unless the basic determination to become successful in Krsna consciousness is there, any type of occupation or any place where you are serving Krsna will similarly become a source of restlessness and troubling of your mind. Therefore, my advice to you is simply this: that you search out in yourself whether that basic determination and faith in our Krsna consciousness program is strong in you, and whether if, by going here or going there or doing this or doing that, this determination and faith will be enhanced. Sometimes Krsna may put us into some difficulty just to purify us and force us to advance in Krsna consciousness. The devotee should always see his difficulty in this light, that Krsna is so kind upon me for creating this condition of struggling, thus He is relieving me of so many billions of lifetime of sinful reactions by this very insignificant and temporary condition of suffering something. Or if our attachment for Krsna is not yet developed, and there is still attraction for the ordinary life of householder life, together with friends, family, children, working, like that, that is all right, by that process if one contributes something of his income to the preaching work and attends himself with family the temple for the class and kirtana, gradually he will get some enthusiasm and develop his attachment for Krsna. But that is the slow and troublesome way, and I know that you are so intelligent boy, along with your good wife Saradia, so you may do as you like, but it would please me very much if you will dedicate yourself and your wife completely to the preaching work. That is important. Running-on of factories, family, these are ordinary businesses and anyone may do them, any ordinary man, but you are not ordinary man, that I know. My best advice to you is that you do not bother yourself by so many speculative thoughts and thus only aggravate the situation further. But if you are unhealthy with liver infection, that is another thing. So first of all you must get back your healthy condition. For that, living in Europe or America may be better for you, that I do not know. But in any case, remember always that you have now got this golden opportunity of human form of life, and it is not by accident that you have met your spiritual master and have become involved in Krsna's work, therefore remember these things and try to utilize your best intelligence and energy to take advantage of the situation and without any further delay take yourself to the perfectional platform of your life. The activity most recommended by Krsna and Lord Caitanya Mahaprabhu for taking oneself to the perfectional stage in this age of Kali-yuga is this sankirtana or preaching mission. So if you will be able to form yourself into the first-class preacher, that will be best for you and for others also. Your wife may also assist you in your important activities of spreading Krsna consciousness. She is a very nice painter and artist, and she is very sincere and serious also, so you may together utilize your spot-life as preachers of Krsna consciousness, that will be the better occupation. There is no harm for having children, that is no impediment for preaching endeavor. But too much attachment for children, home and work will spoil your opportunity to get very quickly the mature benefit of Krsna consciousness or self-realization.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Bali-mardana

•

Bombay 31 December, 1972

New York

My dear Bali Mardan,

Please accept my blessings. I am in due receipt of your both letters dated December 21 and 22, 1972, along with the copy of income statement for six months ending November 30, 1972. I am most pleased to note from that income statement that since June your monthly income has doubled and that for six months you have collected $245,000. That is very much astonishing to me, and I can understand from seeing these figures just how much suitable you are for heading up the responsible position of senior man in the

New York temple affairs. That means you have made the most substantial increase in financial status anywhere in our society. Krsna has blessed you with the best business sense. Studying the figures I can see that beginning in the month of September, after we had discussed everything at New Vrndaban at end August, the net savings total has almost tripled each month over the previous highest month's total for August of $8,500. Now December is finished and I think in your country this month is the best month for spending, being the Christmas season, so I shall be anxious to see what was your collection for December and what was your net savings. I note also that your expenses have remained almost constant for so many months, except for the money paid to book fund, which is increasing more and more, so that is the best system: pay to the books fund larger and larger sums, keep other expenses constant as much as possible or reduce. But one thing is, you were spending $900 monthly for deity expenses, and still you are spending $900, so if total income is increasing more than double, why not increase also expense for the deity? We may spend anything and everything for the deity, as long as there is no scarcity, and by that lavish spending to glorify Radha and Krsna, they will become very much pleased upon you and bless you more and more.

So far the Macmillan business, as soon as you have got any information, you may send me. Yes, if it is enhancing our distribution of books to wear warm clothes like coat-pants in winter, I have no objection, you may wear them. Of course we may take money for Krsna using any method of beg, borrow and steal, but more advanced understanding of Krsna consciousness process is that by telling the truth in a very palatable way, that is the most successful system. Your mentioning Bangladesh feeding of refugees, of course we are feeding sometimes the local inhabitants, up to 1,000 persons on some occasions, but there is no organized program of feeding the refugees at Mayapur. In fact, so far I have seen, all the refugees from Nadia District have gone back to Bangladesh, there are no more refugee camps. So it will not be the truth to say to people like that, but I have no objection if they give more hearing such thing. Let them say, who will check us? We may tell any damn thing to induce people to give us money on Krsna's behalf, that is not the point. The point is that by saying lies, the less advanced neophyte devotees may become entangled or disturbed in their minds by it. Of course by their collecting more money and giving to Krsna, He will relieve them of all anxiety of telling lies. But not everyone is able to catch the big fish without themselves becoming wet. I am convinced that if you simply glorify Krsna and our books in the best descriptive manner, that anyone and everyone, no matter even atheist or otherwise, they can be convinced to purchase. Of course that is a great art and not everyone can do it, but gradually by practice of preaching in this way, striving to so much present a wonderful picture of our books to the people, gradually you will master the trick how to do it. Being the senior devotee there, you may give the younger students all good instruction and advice how to do this, but not for any reason shall we decrease the book sales and collection monthly over some small lying about Bangladesh or other things.

Regarding that building in Manhattan, of course we are not very much mad after big buildings, so long there is enough space for our devotees so they may be able to carry on their preaching work, but if you can get such building as you are describing in the midtown area costing between $1-1.6 million, oh, that will be your greatest achievement in Krsna consciousness. Such building being our world headquarters of ISKCON, would facilitate our preaching expansion work all over the world. So far money is concerned, you are saving roundabout $30,000 per month, so go on saving like this, and even it takes a few more months to raise the down payment for such expensive building, never mind, a few months' delay is not much. But the point is that Krsna is now giving freely so much money, why He can't increase that amount more and more? I don't think there will be any difficulty to raise the money for down payment, you will be successful under any circumstance, of that I am certain. But I want to keep my bond of $80,000 to be spent for books for India, that is my final decision.

Hoping this meets you in good health.

Letter to: Dhananjaya

-

Bombay 31 December, 1972

72-12-31

London

My dear Dhananjaya,

Please accept my blessings. I am in due receipt of your letter dated 28 December 1972 delivered by Latika from London, and I am very happy to hear of all the good news in English and Scottish temples in general. I have heard also from Revatinandana Svami how the things are going there, and his report is also very much encouraging to me. I am especially glad to note that everyone is feeling so much enthusiasm to work very hard in this preaching mission. That enthusiasm must be maintained under all circumstance. That is our price for entering into Krsna's kingdom. And maya is always trying to take away our enthusiasm to serve Krsna, because without enthusiasm everything else is finished.

Therefore Rupa Gosvami has introduced this system of regulative principles which I have taught to you also. These regulative principles, such as rising before 4 a.m. for mangala aratrika, chanting 16 rounds minimum on beads daily, reading books, going for the street sankirtana, preaching to anyone and everyone, offering the prasadam, like that, these principles of devotional service are there to safeguard us from maya's attack by keeping us always enthusiastic. If we strictly observe these principles, we shall remain always enthusiastic. These are the sources and the maintainers of our enthusiasm to serve Krsna. As soon as someone is not following them regularly, it may be certain that his enthusiasm will gradually disappear. Therefore, my request to you is that under any and all circumstances that you yourself shall without fail stick to these principles and make certain that all of the devotees in your charge are also following them strictly.

If new students are coming and they want to live with us in the temple, they must agree before living with us to follow these principles without any exception. Otherwise, it is better for them to live outside and attend the class, aratrika, prasadam, like that, and gradually as they become convinced by their intelligence, they will voluntarily agree to perform the austerity or tapasya of living in the temple. But anyone who lives in the temple must follow all these principles without exception, otherwise they may be asked to live outside.

Of course we work very very hard just to get someone to come to the platform of devotee of Krsna, so we shall not be too much hasty to drive anyone out. Therefore we may forgive once, twice, but more than that we must take other steps. So if any new candidate for devotee comes forward you may test him very thoroughly to understand from him if he is ready to fully accept our strict standard of temple living. Let him understand that it is not an arbitrary or whimsical decision on our parts to become like military camp, rather we are strictly adhering to our devotional principles only so that we may make advancement in Krsna consciousness and be protected from the attack of maya consciousness. They may be thinking that these people are slaves of their strict principles, but we are thinking that the strict principles are slaves to us. Of course, the devotee is always very liberal-minded and tolerant towards everyone, seeing everyone as the part and parcel of Krsna and the pure devotee of Krsna, only seeing that due to maya they have temporarily forgotten their real position. So a devotee is always very understanding if there is some discrepancy behavior on the part of nondevotees, and even some devotees misbehave, he is always very tolerant and understanding. The point is that no one is actually qualified in this material world to approach Krsna, but if he makes the attempt through our inducing him gradually to give his energy to Krsna, by that attempt Krsna will extend his mercy and deliver the fallen soul despite his so many disqualifications. And such person or aspiring devotee, he is to be considered the most exalted of men because he has given his life to Krsna. Bahunam janmanam ante jnanavan mam prapadyate/vasudevah sarvam iti sa mahatma sudurlabhah, after many births and deaths, he who is actually in knowledge surrenders to Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare. [Bg. 7.19]

So you are the leader of London temple, one of the most important temples in the world, so your responsibility is very very immense. But it is also Krsna's blessing upon you. So try to please Him always by understanding the instructions of Krsna as He is giving in Bhagavad-gita, and by that understanding you will be able to manage everything without any difficulty at all. But I think you must be already very much advanced in your understanding of Krsna consciousness, otherwise how so many nice devotees are coming and how there is always such good report from London temple? And I am especially pleased by the newspaper clipping from Edinburgh, they have given very good write-up, just to the points.

So far painting of the deity, it will not be necessary to bring Muralidhara from New York just for that purpose. We should not be so hasty to make such drastic programs. Radha and Krsna are transcendental to such artistic work, they do not depend upon our painting of them for their beauty. But they should be painted as nicely as possible if there is at present some deterioration of the painting. But I think someone is there, either in London or some other place in Europe, who can do the work perfectly well.

Now our first business in London will be to get that new place. I have been informed from Syamasundara. that you are expecting to hear about that Priori at any moment, whether they have accepted our bid or not. But this place or that place, we must get sufficient new place in London to give facility to the preaching work there. I can understand that it is Krsna's desire that we have got that place at Bury Place, it has become world famous due to that location, so try to keep that place also as long as possible. But in order to expand properly all over British Isles we shall require a big big headquarters as you are contemplating. But if there is no solid program for getting the place, simply we are depending upon agents and George to do everything, then we may not be favored by Krsna to get a place very quickly. Better to take the upper hand and begin very energetically attempting to get some place. By our expending energy for Krsna, that is appreciated, not the actual result of our energy. But if there is lack of energy being devoted for some purpose, then everything will be delayed and possibly stopped. Better to seize the iron while the fire is hot, that my Guru Maharaja used to tell me. So George is now convinced of our movement, he will pay, so why the delay and difficulty? I think you should very seriously and with a cool head apply yourself to getting that place or some other place as soon as possible, at least by springtime. Otherwise Krsna may take away this golden opportunity, being disappointed by our lack of enthusiasm and labor. You may inform me from time to time how your search for the new place is progressing more and more.

Hoping this meets you in good health.

Letter to: Gurudasa, Yamuna

-

Bombay 31 December, 1972

72-12-31

Vrindaban

My dear Gurudasa and Yamuna,

Please accept my blessings. Your letters of December 23, 1972, are in hand, along with the very nice photos of the Vrndaban work, as well as the balance sheet and account of materials and supplies. I am very very pleased to see the photos how the construction is progressing very rapidly under your expert supervision. It appears that at last something is being done solid work. Now you have promised me that it will be completed by Janmastami next, therefore I am completely relying upon you to fulfill your promise to me. Of course you will have to go quickly before the monsoon by June, but I think by that time there will be sufficient roof to keep everything dry from the rains. If you can construct nice temple in Vrndaban for me in this way, I shall be eternally grateful. Because we are world wide movement of Krsna, and if we do not have any nice place at Vrndaban, then what will be the use? Vrndaban is Krsna's land, and in future so many of our disciples will go there just to see, along with many tourists and other friends, so therefore we must have sufficient place for them. That will be our great contribution.

Now some of our men have met with the Maharaja of Bharatapur here in Bombay, he sent his men to fetch us, and in a bitter mood he requested us immediately to return his idols of silver Radha and Krsna. So let us return them to him, we do not want any ill feeling to be against us. So you may return those deities to him at earliest opportunity, either at Delhi or at Govardhana. He also has requested his book. I do not know which book that is, but he said that Acyutananda has it and he wants it back without delay, so return him.

Regarding the deity at Vrndavana, Malati has just now returned from Jaipur and she has found out one very nice murti of Radha and Krsna more than five feet tall. I want these deities shall be installed in Vrndaban, so Yamuna may make arrangement to go there and see if they are available, what is the cost, and make all program how they shall be transported to Vrndaban, like that. I think these will be just suitable for our Vrndaban temple, and they will save us time also. You may order the Balarama deity to be made also by this Murtiwalla. I think Malati has written you one letter in this connection. And if she gets time, then Yamuna may come also for few days to Bombay pandal, being on this side.

I have inspected the trial balance carefully. Of course I do not know what are the prices and so many other things, but I find one discrepancy which you may please make clear to me. The opening bank balance on December 2 is Rs. 7870.50 and for the month of December I find you have deposited twice, on twelfth instant, one sum of Rs. 2630.00 and Rs. 111.00. So the total come to Rs. 10611.50. So far expenditures are there, there is one check drawn on the 5th instant for Rs. 600, one check drawn on the 12th instant for electrical supplies for Rs. 45, one check drawn on the 14th instant for supplies of Rs. 4665.51, and on the 15th instant one check has been drawn for Rs. 3571.26. Subtracting the expenditures of Rs. 8881.77 from the total bank balance including deposits, or Rs. 10611.50, it comes to Rs. 1727.73 as final balance in bank. But you have declared that your figure for final balance in bank is Rs. 1643.79. That means, according to the figures you have given me, there is discrepancy of about Rs. 85.94. Of course there may be some bank charges, like that, I do not know, or you may have omitted some mention of any other check, but you may inform me why our figures have come out differently.

Hoping this meets you in good health.

My dear Revatinandana,

Please accept my blessings. Your letter dated December 25, 1972, is in hand and I so much appreciate your nice report about the affairs as you see them in England and Scotland. Yes, I have seen myself that you are perfectly well qualified to defeat all challengers so far our philosophy goes. You are good kirtana man, you can sing and play mrdanga like anything, you are also good cook, you are expert philosopher and preacher, you are in the renounced order of life, having given up all thoughts of wife, family and home, you are determined to assist me by training up so many younger devotees in Krsna consciousness, you have got good ideas how to push on our movement also-in so many ways you are among the best qualified and most appreciated of my disciples. Because you are so much qualified and advanced in Krsna consciousness, therefore Krsna is giving you great strength and pleasure is being derived by you from your working in this way. By this traveling and preaching in the schools, colleges, youth clubs, like that, selling books, this program is very very much appreciated by me, and I think that you are accomplishing more good preaching result than anyone. Yes, let the good men go with you to preach all over England, and the less advanced devotees may stay at the London temple and become trained up to the point of becoming experts and then they also may go out for preaching in traveling party. And I think if you continue as you are doing in this traveling and preaching program in British Isles that very soon the entire population of that place will become our good devotees of Krsna. I am very much pleased upon you for your working and helping me in this way. It is the highest achievement of this human form of activity.

Hoping this meets you in good health,

My dear Sankarasana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 5, 1972, and I have noted the contents carefully. Regarding your question whether some small lies may be said in order to sell our books, I have already replied to Bai Mardan on that point and a copy of his letter is enclosed herewith. But that kind of lie, as you have given example of the apartment manager, telling him that ”Yes, we have gotten permission to distribute here,” that kind of lie is not harmful. The highest development of Krsna consciousness understanding will be when you are able to give anyone the truth but in such a manner that they will respond in a positive way. If people like to contribute by hearing such things, there is no harm, that is just to induce him to purchase. Some of my godbrothers, I can remember, when we used to go out for begging some contribution from some big man, they used to say that my Guru Maharaja had lived for 12 years in the forest in solitary place, living only on the tulasi leaves. I could scarcely stop from laughing when I heard such story, but it was effective to get the money and give to our Guru Maharaja, and he was pleased by our gift. So the idea is not what you are saying, so much as how you say it. If you understand this properly, then you may be able to say the truth at all times in the most palatable way, according to the situation and the type of hearer. To perfect this art, that takes practice, so practice preaching from this understanding and gradually you will develop it more and more. But we should never steal anything like money, food, water, gasoline, just to enhance our service to Krsna. That is too much dangerous, and if we are caught then all of our work is finished. Just like in India recently, this Balyogi Guru Maharajaji was detected by the customs authorities attempting to smuggle some small items into India. By this one tiny incident his entire effort for preaching, even he his rascal number one and his preaching is nonsense, even so the example is there, his work is now ruined and he is practically finished as the government will not grant him passport to leave India. So we shall always be careful to avoid any kind of jeopardizing our high standing in the society by some foolish and small act of illegal stealing.

So far your difficulty for controlling the sex urge, my advice in that connection is that the more you become Krsna conscious, that sex urge can be checked. That is the only way for checking the sex urge. First thing is, you have made promise when you took initiation that there will be no illicit sex connection. If still you are unable to fulfill that promise to your spiritual master, then what is the use of calling yourself devotee and disciple? That is simply pretending. So you should think like this, that I have promised my spiritual master this, now I must obey him without any exception, otherwise I have no business calling myself his disciple. That will be your austerity or tapasya for forcing you to make very rapid advancement in Krsna conscious understanding. Without tapasya there is no question of making advancement. So if still the material nature is so much attractive to you that you are unable to sacrifice things in this way, then better you give up the whole thing and do as you like outside. But if you want to call yourself devotee and serve Krsna in that capacity, then you must avoid these four basic principle restrictions under all circumstances, without any exceptions. Of course once, twice, Krsna may excuse, that is not very difficult, but more than that it will become very difficult for Krsna to excuse you and there is great risk that everything will be lost despite all of your time and effort spent.

You have got some desire to become a famous preacher and famous Vaisnava singer and also jagad-guru. This is a spiritual desire, so it is not like any material desire and it is all right to desire for Krsna in this way. but great Vaisnava or famous Vaisnava means that you have no sex desire. Whether you can be like that? First of all you be like that, without any sex desire, then you think famous Vaisnava. Vaisnava means he has no material desire, what to speak of sex desire. All material desires become zero, even he has no desire for jnana, karma, like that.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Hamsaduta

Bombay 2 January, 1973

Heidelberg, West Germany

My dear Hamsaduta,

Please accept my blessings. I am in due receipt of your letter Dec. 19, 1972, and I have not yet received the sample copy of Bhagavad-gita in German language. But I think each book will cost you about $1.50, so that is not too much for such nicely printed and bound book with color plates. I know that the German printing and bookmaking is always the first class, so if you are satisfied then you may go ahead with printing as you have arranged. That is a very great step of progress in spreading this Krsna Consciousness to the German people. Krsna Consciousness movement rests upon the words of Krsna, so if people can read for themselves what Krsna is saying, then they shall understand our movement. Otherwise it will be very difficult to convince them. So you have done the right thing, printing Bhagavad-gita in German language, and I very much appreciate that you have done this great service.

Now you appear little restless, I know that is your nature, you like to do big things and you are very capable and intelligent young man for executing tremendous tasks on behalf of Krsna. But I think that you have got a huge field of endeavor in the German speaking countries and other countries of Scandinavia, Communist countries and other places like that. Now work very vigorously to develop these places, that is your great task at hand. You needn’t look further to find some big challenge. The challenge is very near at hand. That means developing and expanding along the lines as you have begun. Of course we are not ever very much anxious to repeat the same activity many times, that is the nature of the living entity, that he seeks to enjoy varieties of flavors. But mature understanding of activity means to take it as our occupational duty. That is to say, suppose I am established as good carpenter, then it will be foolish if after some time I am thinking, ”Oh, I have done this cutting of woods so many times, now it is becoming boring and uninteresting, therefore let me become a doctor,” no. That is not recommended by Krsna, neither is it common sense. Occupational duty means to stick with one type of occupation which is just suitable for me, considering that it is my duty, therefore I am throughout my life obligated to perform it to the best of my ability. This is mature understanding of occupation. That means I must not leave it even for so-called good cause, just like Arjuna wanted to stop his fighting activity just to avoid killing so many of his kinsmen, cousin brothers, and other friends. So we are preachers on behalf of Lord Krsna, that is our occupational duty, we haven’t got to search any further some new challenge or change our engagement. No, that has been already settled up. Now best thing will be to develop more and more what we have begun. I have built the skeleton of the building, but there is so much more work remaining before us. The GBC men are there, the world is divided into 12 zones for gradual development by these, my chosen right hand men. So however you manage it, that you know best, my only point is that I do not like to see you become discouraged as you are indicating, because there is no actual cause for such discouragement.* Rather there is all encouraging prospects ahead. Now you have started something tangible and solid in German-speaking countries, you are printing books, magazines, and distributing them widely, collecting huge funds, now the work is just beginning. So you have got a little facility now, utilize this opportunity to take advantage of Krsna’s favoring you in this way. Consider that each day shall be a new challenge for you to push on Krsna Consciousness movement within your range of managing. But I think that you are developing things nicely already, you are one of my senior disciples, and you know these things already, only you are little humble so you have said like that. Yes, even the devotee doesn’t care a pinch for even Lord

Brahma, Lord Siva, like that, because devotees are the most exalted personalities as the servants of Krsna, still they think themselves lower than everyone, and that humble attitude is their credit. What credit is there for someone who is himself actually lower than everyone but claims that he is better than everyone, or even he may claim that he is lower than everyone, still what is his credit? But the devotee, being the topmost grade of living entity, when he gives all credit to others and takes nothing credit for himself, that is his credit. Thank you, along with your good wife Himavati, for helping me in this way.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Tejiyas,

Please accept my blessings. Your letter dated 21 September 1972 is in hand and I am especially glad to note that you have got that apartment in Bengali Market, Babar Road. Now you have got facility for spreading Krsna consciousness in Delhi, and I know that you are very sincere and serious preacher, therefore Krsna has given you to utilize on His behalf. You have mentioned one life member meeting and some queen is helping, but I do not understand what queen that is or what is that life member meeting. You may please inform me everything in connection with the Delhi business, I am always anxious to hear from you. I think that they have sent you books from Bombay so now you distribute them as profusely as possible and make also life members, as many as possible. I am informed there are many so-called hippies staying at Delhi, so you try to recruit some of these men or other local men to assist you there. Your description of struggling is to be understood as the mercy of Krsna, and when He is satisfied by your giving energy in this way just to please Him despite all conditions of difficulty, then you need not worry for money, there will be sufficient and more.

I am including herewith one letter to the Minister of Home Affairs. You present him with a full set of our books, including Bhagavatam, Bhagavad-gita, like that, and give him also my letter. Try to present them personally to him. Actually you may take this opportunity of being situated at Delhi to make every Parliamentary member our life member also. You can get the list of addresses and systematically approach each and every member of Parliament to become our member also. So many big big lawyers, doctors, government ministers, professional men are there in Delhi, I think more than any other city of India, and they are all intelligent men, they can be easily recruited for life member by simply showing the books and requesting them to kindly help us in this way. So make many, many life members amongst this class of men, that will be your great contribution. Whether there were any news clippings on the Parliamentary proceedings that you sent me?

Hoping this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Calcutta

My dear Bhavananda,

Please accept my blessings. Your letter dated December 29, 1972, is in hand, and I am especially pleased to hear that our Tarun Babu is now little more inclined and coming daily to the Calcutta temple. That will be a great occasion, as he has suggested us, to lead the sankirtana party of two lacs of men through Calcutta on Lord Caitanya's appearance day. So on the 18th March, Lord Caitanya's appearance date, everyone shall rest and chant in the temple. So Tarun Babu can arrange to take us early morning from Mayapur to Calcutta, then on that day, 18th March, we shall have our big Calcutta sankirtana procession, and on that same evening or the following morning the bus may return to Mayapur and we shall conduct big Utsava. Tarun Babu and C. L. Bajoria and all big life members can come and stay with us at Mayapur for Utsava.

Now diligently and tactfully handle this matter, it is a very very good sign that our Tarun Babu and Mr. Bajoria are working together and promising to raise Rs. 2 lacs for Mayapur. If this is actually collected, then at least 5 lacs more can be collected just by advertising their 2 lacs collection.

So far the money transferred from Calcutta to Bombay, as much money as can be arranged from the Building Fund can be immediately returned to Calcutta. But I think there is only roundabout Rs. 10,000 in the Building Fund in Bombay, although there are two Building Fund accounts here and I do not know how much is there in the other Building Fund account. Most of the money collected in India has been deposited in my Bhaktivedanta Book Trust fund for printing and purchasing books for distribution in India. Actually, our main business in this country shall be to distribute our books profusely. Mayapur, Vrindaban, these temples shall be utilized for the most part by foreigners. So far the work in India of spreading Krsna consciousness, there are already millions of temples, so what shall our two more temples accomplish for spreading Krsna consciousness? They are meant for the foreigners and big life members. But our emphasis for preaching work will be on these books. Just as I introduced this life membership program based entirely on books, so you and other leaders here in India meet together or correspond frequently to devise more and more methods for introducing our literatures to the Indian public. That is the most important business.

Hoping this meets you in good health,

My dear Prabha Visnu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 1, 1973, and I am very glad to hear from you the wonderful news of travelling party in England. I think the people of that place are becoming more and more inclined for this Krishna Consciousness movement, they are inviting you to stay at their houses, they are taking books, becoming sometimes devotees- all of these are very encouraging signs to me. If you simply go on in this way, stopping in every village and city of England-Scotland, or if there are other places like Ireland, simply stop for some time, distribute books and hold Sankirtana procession, answer their questions, give some leaflets or small informations freely, distribute prasadam wherever possible, at least some small thing, and if there is genuine interest being shown, then request the townspeople to arrange some engagements for speaking in their schools, or in someone's home, or a hall, like that. In this way remain always without anxiety for destination and comfortable situations, always relying only on the mercy of Krishna for your plan, just go on preaching His message and selling His books, wherever there is interest. We shall not waste time if there is no interest or if the people are unfriendly, there are so many places to go. But I understand from your letter that practically everyone is taking some interest. That means you are presenting the thing in a very nice manner, they can detect that here are some persons who are actually sincere and nice, let me hear them, let me purchase one book. So I can understand that it is not an easy matter to travel extensively over long periods of time without proper food, rest, and sometimes it must be very cold there also, and still, because you are getting so much enjoyment, spiritual enjoyment, from it, it seems like play to you. That is advanced stage of spiritual life, never attained by even the greatest yogis and so-called jyanis. But let any man see our devotees working so hard for Krishna, then let anyone say that they are not better than any millions of so-called yogis and transcendentalists, that is my challenge! Because you are rightly understanding through your personal realization this philosophy of Krishna Consciousness, therefore in such a short time you have surpassed all the stages of yoga processes to come to the highest point of surrendering to Krishna. That I can very much appreciate, thank you very much for helping me in this way.

Hoping this meets you and the other men of your party in the best of health and spirits.

My dear Madhukara,

I beg to acknowledge receipt of your letter dated December 22, 1972, and I have noted the contents with care. For these questions arising between married husband and wife, you are requesting me to leave your wife and take the vanaprastha order of life, for these questions you must consult with and take permission from presidents and GBC. Yes, I know your wife Lilasakti, and I know that she is very serious and advanced disciple. But now you are married to her, there is some obligation according to our Krsna consciousness or Vedic system. These things cannot be taken so lightly, otherwise the whole thing will become a farce. Simply get married without considering what is the serious nature of married life, then if there is little disturbance, or if I do not like my wife or my husband, let me go away, everyone else is doing like that. So in this way the whole thing is becoming a farce. You say that your "association together was hindering your advancement." But Krsna consciousness marriage system should not be taken in that way, that if there is any botheration that means something is hindering my spiritual progress, no. Once it is adopted, the grhastha life, even it may be troublesome at times, it must be fulfilled as my occupational duty. Of course, it is better to remain unmarried, celibate. But so many women are coming, we cannot reject them. If someone comes to Krsna it is our duty to give them protection. Krsna has informed us in Bhagavad-gita that even women and sudras and others inferior class of men can take refuge in Him. So the problem is there, the women must have a husband to give protection. Of course, if the women can remain unmarried, and if there is suitable arrangement for the temple to protect them, just like in the Christian Church there is nunnery for systematic program of engaging the ladies and protecting them, that is also nice. But if there is sex desire, how to control it? Women are normally very lusty, more lusty than men, and they are weaker sex, it is difficult for them to make spiritual advancement without the help of husband. For so many reasons, our women must have husband. That's all right, but if once they have got a husband he goes away so quickly, that will not be very much happy for them.

Now I do not know the situation in your particular case, I am simply giving you the general policy or background understanding. We should never think of our so-called advancement as being conditioned by or dependent upon some set of material circumstances such as marriage, vanaprastha, or this or that. Mature understanding of Krsna consciousness means that whatever condition of life I am in at present, that is Krsna's special mercy upon me, therefore let me take advantage in the best way possible to spread this Krsna consciousness movement and conduct my spiritual master's mission. If I consider my own personal progress or happiness or any other thing personal, that is material consideration. If there was unhappy adjustment for becoming married, why you got married at all? Whatever is done, is done, that is a fact, but I am only pointing out that once before you did something without proper study of your real responsibility, now you are contemplating again some drastic action in a similar manner. Therefore consider it carefully in this light. There is one verse from Bhagavad-gita: yasman nodvijate loko lokan nodvijate ca yah/harsamarsa-bhayodvegair mukto yah sa ca me priyah, ”He for whom no one is put into difficulty and who is not disturbed by anxiety, who is steady in happiness and distress, is very dear to Me.” (12.15) One mistake of judgment often made by the neophyte devotees is that any time there is some disturbance or some difficulty they are considering that the conditions or the external circumstances under which the difficulty took place are the cause of the difficulty itself. That is not the fact. In this material world there is always some difficulty, no matter in this situation or that situation. Therefore simply by changing my status of occupation or my status of life, that will not help anything. Because the real fact is that if there is any difficulty with others, that is my lack of Krsna consciousness, not theirs. Is this clear? Krsna says that His dearest devotee is one who does not put others into difficulty, in fact, who puts no one other into difficulty. So try to judge the matter on these points, whether or not you are putting either your wife or yourself into some difficulty. The right understanding of Bhagavad-gita is Arjuna’s understanding. In other words, Arjuna came to the conclusion that he must perform his occupational duty, not as a material obligation, for reasons of wife, family, friends, reputation, professional integrity, like that-no. Rather he must conduct the functions of his station of life only as a devotional service performed for Krsna. That means that devotional service is what is important, not my occupational duty. But it does not mean that because occupation duty is not the real consideration, that I should give it up and do something else, thinking that devotional service may be carried on under whatever circumstances which I may whimsically decide. Krsna recommended Arjuna to remain as he was, not to disrupt the order of society and go against his own nature just for convenience sake. Our occupational duty is not arbitrary, that means once we have taken up some field of action, if we are advanced in our understanding, then we shall not change it for another. Rather our devotion is the important factor, so what does it matter what I am doing so long my work and energy are completely devoted to Krsna? Just like Krsna, He is the Supreme Personality of Godhead, He has no work, neither He has anything to do, still He comes here to teach us this lesson. He accepts not only His occupational duty as cowherd boy, royal prince, but also He accepts married life, He enters politics, He is philosopher, He is even chariot driver during a great battle, He does not give example of Himself avoiding His occupational duty. So if Krsna Himself is exhibiting by His own conduct what is the perfection of existence, then we should heed such example if we are intelligent. Even supposing there is wife at home, with children, that does not matter, that is no hindrance to our spiritual life. And once we have accepted these things, occupational duties, we should not lightly give them up. That is the point. Of course, our occupational duty is as preachers of Krsna consciousness. So we must stick to that business under all circumstances, that is the main thing. Therefore married, unmarried, divorced, whatever condition of life, my preaching mission does not depend on these things. The varnasrama-dharma system is scientifically arranged by Krsna to provide facility for delivering the fallen souls back to home, back to Godhead. And if we make a mockery of this system by whimsically disrupting the order, that we must consider. That will not be a very good example if so many young boys and girls so casually become married and then go away from each other, and the wife is little unhappy, the husband is neglecting her in so many ways, like that. If we set this example, then how the thing will go on properly? Householder life means wife, children, home, these things are understood by everyone, why our devotees have taken it as something different? They simply have some sex desire, get themselves married, and when the mater does not fulfill their expectations, immediately there is separation-these things are just like material activities, prostitution. The wife is left without husband, and sometimes there is child to be raised, in so many ways the proposition that you, and some others also, are making becomes distasteful. We cannot expect that our temples will become places of shelter for so many widows and rejected wives, that will be a great burden and we shall become the laughingstock in the society. There will be unwanted progeny also. And there will be illicit sex life, that we are seeing already. And being the weaker sex, women require to have a husband who is strong in Krsna consciousness so that they may take advantage and make progress by sticking tightly to his feet. If their husband goes away from them, what will they do? So many instances are already there in our Society, so many frustrated girls and boys.

So I have introduced this marriage system in your Western countries because there is custom of freely intermingling male and female. Therefore marriage required just to engage the boys and girls in devotional service, never mind distinction of living status. But our marriage system is little different than in your country, we do not sanction the policy of quick divorce. We are supposed to take husband or wife as eternal companion or assistant in Krsna consciousness service, and there is promise never to separate. Of course if there is any instance of very advanced disciples, married couple, and they have agreed that the husband shall now take sannyasa or renounced order of life, being mutually very happy by that arrangement, then there is ground for such separation. But even in those cases there is no question of separation, the husband, even he is sannyasa, he must be certain his wife will be taken care of nicely and protected in his absence. Now so many cases are there of unhappiness by the wife who has been abandoned by her husband against her wishes. So how can I sanction such thing? I want to avoid setting any bad example for future generations, therefore I am so much cautiously considering your request. But if it becomes so easy for me to get married and then leave my wife, under excuse of married life being an impediment to my own spiritual progress, that will not be very good at all. That is misunderstanding of what is advancement in spiritual life. Occupational duty must be there, either this one or that one, but once I am engaged in something occupational duty, then I should not change that or give it up, that is the worst mistake. Devotional service is not bound up by such designations. Therefore once I have chosen, it is better to stick in that way and develop my devotional attitude into full-blown love of Godhead. That is Arjuna’s understanding.

Hoping this meets you in good health,

Bombay 4 January, 1973

My dear Subrata Lahiri,

Please accept my greetings and blessings. I have received your letter and I very much appreciate your kind sentiments. It appears that you are an intelligent man because you approach submissively and not to argue. In your letter you mention Bhagavad-gita. Actually the whole purpose of Bhagavad-gita is to revive our sanatana-dharma, which is the eternal occupation of the living entity. Sanatana-dharma does not refer to any sectarian process or religion. It is the eternal function of the eternal living entities in relationship with the eternal Supreme Lord. The English word ”religion” is a little different from sanatana-dharma. Religion conveys the idea of faith, and faith may change. One may have faith in a particular process, and he may change this faith and adopt another, but sanatana-dharma refers to that activity which cannot be changed. Man professes to be a Hindu, Muslim, Christian, Buddhist or any other sect. Such designations are not sanatana-dharma. A Hindu may change his faith to become a Muslim, or a Muslim may change his faith to become a Hindu, or a Christian may change his faith and so on. But in all circumstances the change of religious faith does not effect the eternal occupation of rendering service to others. Thus, to profess a particular type of sect is not to profess one's sanatana-dharma. The rendering of service is sanatana-dharma.

Factually we are related to the Supreme Lord in service. The Supreme Lord is the supreme enjoyer, and we living entities are His servitors. We are created for His enjoyment, and if we participate in that eternal enjoyment with the Supreme Personality of Godhead, we become happy. We cannot become happy otherwise. It is not possible to be happy independently, just as no one part of the body can be happy without cooperating with the stomach. It is not possible for the living entity to be happy without rendering transcendental loving service unto the Supreme Lord, Krishna.

I will be staying in Calcutta from January 23, until the end of the month. If it is possible you may stop in and see me. I am looking forward to hear from you in the future.

Hoping this meets you in good health.

My Dear Dhruvananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 17, 1972, and I have noted the contents with care. You have asked me several questions about the deity worship in Los Angeles, so I shall answer them one after another: Your first question, shall Srimati Radharani's feet be showing, the answer is no, they should never be seen. Krsna's feet, however, should be showing.

I do not know when I have said to anyone that Krsna should not wear anything black color, nor I know where I have given any permission to wear black color, but there is no harm if sometimes Krsna dresses something black. Sometimes in Vrndavana they dress Him in black.

Yes, the leaves of Srimati Tulasi Devi may be offered to all Visnu-tattva expansions of Krsna, including Nityananda and Balarama.

You may dress Lord Caitanya in the standard way, main things is do it nicely, don't make it funny. In your Western countries Lord Caitanya should be entirely covered, He should not appear bare-chested.

Why you are pouring water over the head of Radha and Krsna deities? Big deities should not be bathed in this way, using water or other things. Rather they are bathed daily by mantra, do you not know these things? Under no circumstances shall we bathe the Jagannatha deities with anything water or liquid, they should be bathed with mantra also. Now you are asking if Lord Jagannatha carries flute? Why this nonsense question? You are asking me so many concoctions and manufactured nonsense. Don't bother my head in this way any more. From now on unless I order you do something change or in addition, go on with the usual standard way. You manufacture ideas and then I have to waste my time. I have given you everything already, there is no need for you to add anything or change anything. Why you are asking these things? Who has given you such freedom? Pujari should operate entirely under the supervision of temple president and GBC, not independently. The greatest danger to our movement will come when we manufacture and create our own process for worshiping the deities. So don't ask any more new questions, whatever is going on, follow it just to the exact standard as I have given you, that's all.

My dear Dinatarini Dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter from Dallas School dated December 26, 1972, along with examples of the children's classwork. Thank you very much for allowing me to see the nice progress being made by our future preachers. I think everything is going on there nicely, and the children are learning in the proper line. So far geography and history are concerned, you may teach geography as it is, there is no harm to getting knowledge about our material earth planet, even up to learning all of the countries and places, names, landscape, production, natural resources, climates, oceans, deserts, everything should be there. Krsna Consciousness devotees shall not be known as fools. All of you nice boys and girls have had that kind of education, and you are preaching now Krsna consciousness in its pure form, so there is no hindrance for learning such things, just as you have also learned them as child. So teach them in this way, exactly as you have also been taught geography, history and other things. So far history is concerned, we shall not teach the history as Darwin has given, but there is no harm to learn what is the history of your country, just like Washington was the first president, and after him came so-and-so, like that. If the modern historians have altered the story of history to fit their own view of things, that can be avoided, anything like opinion and speculation, but the bare facts as much as we know them may be learned by the young children, there is no harm.

My dear George,

Please accept my blessings. I was informed by some of my disciples at London, namely, Dhananjaya, Jaya Hari, Revatinandana Swami and others, that you so kindly have sent your car and drive to our place filled-up with fruits and flowers to offer to Radha and Krishna on the Disappearance day of my Guru Maharaja, Srila Bhaktisiddhanta Sarasvati Thakura. I am so much pleased that you have thought of Him in that way, thank you very much. Surely you will become blessed by Him more and more.

Yes, if one simply comes to that platform of spontaneous love for the spiritual master, then very quickly he will get love of God, or Krishna, and his all hankerings and lamentations of life will be finished. That is the process. Just like when two friends meet and, if the friend is also with his dog, the gentleman pats his dog first, is it not? So the friend becomes automatically pleased, his dog being patted. I have seen it in your country sometimes when I used to walk in the Regents Park early mornings. So it is like that, the spiritual master is the pet dog of Krishna, and if he is pleased so Krishna is also pleased. That is the process.

I can understand by your activities that you are making good spiritual progress, by Krishna's grace. That is very good news to me. It is not by accident that you are coming gradually to the right point, neither it is very common thing, no:

bahunam janmanam ante jnanavan mam prapadyate vasudevah sarvam iti sa mahatma sudurlabhah [Bg. 7.19]

"After many births and deaths, he who is actually wise surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare." Mahatma means great soul, and such great soul is sudurlabhah, very rare. Great soul does not mean politician, or scholar, or so-called yogi, or any other so-called big, big man, famous musician, or scientist, or anything like that. No, great soul is one who understands that Vasudevah, Krishna, is the cause of all causes and all that is, and then surrenders unto Him. You are doing that, therefore I say that you are great soul, not because you have got some material name, fame or wealth. But that will vanish at the time of your death, so what good it is? But because you are serving Krishna in devotional loving mood, therefore I say great soul. There is one Bengali proverb that the person who is actually famous is the Devotee who is known by all other Devotees to be great.

So that surrendering to Krishna, that is great soul. Now you may enquire, what is that surrendering? Surrendering to Krishna means to try to please Him only, by our serving mood. Just like if I want to please you, or someone else, they will appreciate me by my serving their desires, that will give them pleasure. So if we want to please Krishna, He is kind enough to give us the formula how to please Him in Bhagavad-Gita, so if we are intelligent we shall follow the instructions and orders of Krishna as He gives them, that is pleasing Krishna, that is surrender. If I say, Yes, I like rasagulas, I like this type of incense, I like this and that-so if you bring me rasagulas, that incense, like that, that will be pleasing to me, will it not? But Krishna is not so rascal as me, He wants only little flower, some water, that's all, but main thing He wants is our devotion, nothing more:

manmana bhava mad-bhakto mad-yaji mam namaskuru mam evaisyasi satyam te pratijane priyo'si me. [Bg. 18.65]

"Always think of Me and become My devotee. Worship Me and offer your homage unto Me. Thus you will come to Me without fail. I promise you this because you are My very dear friend." So to become the friend and the devotee of Krishna, that is required. Just become the pet dog, that is surrender.

What is that friendship? At the end of 12th Chapter of Gita Krishna describes that the person "who is very dear to Him, or His best friend, is one who is not envious but is a kind friend to all living entities, who does not think himself a proprietor, who is free from false ego and equal both in happiness and distress, who is always satisfied and engaged in devotional service with determination and whose mind and intelligence are in agreement with Me . . . He for whom no one is put into difficulty and who is not disturbed by anxiety, who is steady in happiness and distress . . . A devotee who is not dependent on the ordinary course of activities, who is pure, expert, without cares, free from all pains, and who does not strive for some result . . . One who neither grasps pleasure or grief, who neither laments nor desires, and who renounces both auspicious and inauspicious things . . . One who is equal to friends and enemies, who is equipoised in honor and dishonor, heat and cold, happiness and distress, fame and infamy, who is always free from contamination, always silent and satisfied with anything who doesn't care for any residence, who is fixed in knowledge and engaged in devotional service . . ." such person is described by Krishna as "very dear to Me."

But even more dear than such devotee who is dear to Krishna, one who is "very, very dear to Me," is "He who follows this imperishable path of devotional service and who completely engages himself with faith, making Me the supreme goal," and also "one who explains the supreme secret to the devotees," . . or one who is preaching the message of Krishna to the devotees everywhere-such person is most highly regarded by Krishna as His best friend and devotee:

na ca tasman manusyesu kascin me priya-krttamah bhavita na ca me tasmad anyah priyataro bhuvi [Bg. 18.69]

"There is no servant in this world more dear to Me than he, nor will there ever be one more dear."

So that will be the supreme perfection of our existence, to come to that point of being best friend, best devotee of Krishna. And how is that? If we become simply engaged in His preaching work, trying with whatever talent or education or experience or material advantages we have got, to spread Krishna Consciousness message all over the world. That is best friend of Krishna, that is Krishna's pet dog.

So I am pet dog of my Guru Maharaja, and you have helped him so nicely to push on the message of Lord Krishna or Krishna Consciousness Movement, and I am very much pleased by your serious and sincere attitude, so you will get all the full blessings of my Guru Maharaja, that you may know for certain. And if you have ever got any questions or difficulties, I am always your humble servant, you may please write to me wherever I am. I have heard that your good wife, Patty is growing Srimate Tulasi devi there at your house with good success. That is another very auspicious sign. The Tulasi, she will not go to live with anyone nondevotee, and because she is growing so profusely, therefore she is giving you her best favor because you are best devotee, that is to be understood. Now go on with your chanting regularly as much as possible, that will protect you from the attack of Maya, without any doubt. Just like if there is sunshine then where is the question of darkness? So Maya cannot remain in the presence of Krishna, therefore we chant always Hare Krishna to become freed from all attachment to Maya. I know you are very intelligent boy, and I like you very much, you are better than my own son, and I am so much pleased that you are displaying gradually more and more the qualities of becoming Krishna's pet dog as described above. If you have got any time, you may kindly write to me, or you are free to come to India to live with me for some time, as you like.

Hoping this meets you and your good wife in the best of health and spirits.

Your ever well-wisher, A.C. Bhaktivedanta Swami

n.b. Regarding that house in London, I have not heard from my disciples for some time in that connection, what is the progress. But I have written one letter to Dhananjaya that he should keep in contact with you for getting the place, because you had kindly volunteered to help, so why he has not done anything? My spiritual master used to say me: Strike while the iron is hot, so if we delay the matter too long it may not remain a favorable proposition. Krishna will help, we do not rely on anything non-Krishna, but He will give facility when He sees we want it very, very seriously, working very hard and with great determination to get it, just to be able to serve Him better. Then He will give everything and anything. He is the Supreme Proprietor, Enjoyer and Friend. These three things, if we always remember them, our life will be completely perfect.

My dear Jadurani,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 16, 1972, along with photos from Srimad-Bhagavatam. To answer your questions, "self-deception" means that I know I should have done something, I have knowledge of what I ought to do, and still I don't do it. Just like some of our devotees, we have got certain prohibitions, and everyone knows they will be harmful to me to violate, still they do it, despite everything. It is not like running after a mirage in the desert, thinking something water, that is ignorance, not self-deceit. So I cannot think of any example for your illustration just at this moment, but you have got the idea now what is self-deceit, I think you will be able to draw something nice.

The depiction of Brahma and the destruction of the material worlds is very nice. When Brahma enters into the body of Visnu, that is ultimately, at the ultimate destruction, not in the partial destruction which you are illustrating. So it is all right as you have done it.

So far the picture of three-headed Brahma in the assembly of other Brahmas, I have not seen, so what can I say? Whatever is palatable to everyone, you can do it that way. There is no mention otherwise, so the all Brahmas can be shown four arms. So far the question of all Brahmas riding on swans, at least when they came to offer respects they did not come with swan, they are all standing, they have walked into Krsna's palace. Yes, you may show all Brahmas very big in comparison with three-headed Brahma, otherwise how you can compare the elephant and the mosquito? The picture of my Guru Maharaja is nice.

So far your questions about Lord Jagannatha and Ratha-yatra Festival, the first Ratha-yatra Festival was 5,000 years before, when Krsna and Balarama and Subhadra came from Dvaraka to Kuruksetra. So far the festival at Puri, there is no such history, but it must be more than 3,000 years. At least there is recorded history 2,000 years old, because we see in the Aquarian Gospel that Lord Jesus Christ was attending the Ratha-yatra Festival at Puri. Yes, there was attempt by Radharani to take back Krsna from Kuruksetra to Vrndavana.

I think that answers your questions, so if you have got any more in connection with your work you may feel free to always write to me.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Delhi

My dear Krsna Gopala,

Please accept my blessings. Your letter December 30, 1972, is in hand, I have only just now got it, so tomorrow is your Sharadh ceremony of your father, so I do not know if this letter will reach you in time to be of any help in the matter. But for conducting Sharadh ceremony, that should be done in our temple, and feasting should be arranged in the temple. Afterwards, the prasada should be distributed to friends and relatives. Perform kirtana, give lecture and readings, just like our ordinary program. The idea is that in addition we are offering sumptuous prasadam of Visnu to the soul of father and mother. Therefore Visnu's prasada should be distributed in sufficient quantities, not otherwise.

I am very happy to learn from you all of the valuable assistance that you are giving to our Tejyas there at Delhi. He is very sincere boy, along with his good wife, and there is excellent field for our preaching work in Delhi city. So as much as possible you may give him your attention and energy for helping me to push on this Krsna Consciousness movement there. You are householder, and you are teaching your family Krsna consciousness, that is the best example of grhastha model life. So go on in this way, and become the perfect example of grhastha devotee family. I think that you may also assist Tejyas by approaching the big men and professional men like members of Parliament, doctors, lawyers, like that, in your city, and enroll them as our life members. This activity of preaching, along with your daily program as you have given me, that will be sufficient to bring you to the platform of perfection in spiritual life in very short time. Thank you for helping me in this way.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Revatinandana,

Please accept my blessings. Just now I have received some more requests for giving first initiation from Dhananjaya, and now I am receiving weekly not less than ten to fifteen such requests from new students. So it is becoming very expensive to send so many sets of beads such long distance, and it has become little bothersome for me also, so I think now you may be appointed by me to give first initiations to new disciples by chanting on their beads on my behalf. In America Kirtanananda Swami is going that. So now if there are two of you that will give me great relief. Kirtanananda will chant on the beads for new devotees in America, Canada, like that, you can chant on the beads for the European continent new disciples. They shall, of course, still be considered as my disciples, not that they shall become your disciples, but you will be empowered by me to chant their beads and that is the same effect of binding master and disciple as if I were personally chanting. They may continue to send me their letters of request, along the President's recommendation, and I shall give them name and it will be entered by my Secretary in our records, only I will send my letter of reply to you and you will purchase beads there and chant them and send, along with my letter to the new initiates. Is that all right?

I shall continue to deal with the matter of second initiations. The sacred threads do not require so much postage to send airmail.

Baltimore

My dear Sama and Sammita Dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 22, 1972, and I am so glad to hear that you are reopening the Baltimore temple and that you are prepared to stay there your life long for developing it to the highest standard. Yes, I was little disturbed to hear that we had closed down the Baltimore temple before. Baltimore is a very important city of your country and we must maintain our center there at all costs. I can understand by your letter that you are both very serious and sincere devotees of Krsna, husband and wife, so I think that you will have no difficulty in performing your duties there. First business will be to preach widely throughout the city and distribute our books and Krsna Consciousness propaganda. In this way, try to recruit some local men to help you. You are only two persons, therefore big temple with deity worship and so many other things will be impossible to maintain. Therefore if you get a place, simply hold our standard program of kirtana morning and evening, with class, inviting friends and other people that you meet. In this way develop the thing gradually, we are not in very much hurry to get big big house and very comfortable position, no. Our first and foremost business is to spread Krsna Consciousness. So utilize every opportunity that Krsna gives you for preaching His message, that is real meaning of temple management.

Hoping this meets you both in the best of health,

San Francisco

My dear Bhutatma,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 18, 1972, forwarded to me here at Bombay. I am very happy to hear from you that everything is going nicely in the San Francisco temple. Upon your recommendation I am very glad to accept the six new students as my duly initiated disciples. Their letter is enclosed herewith. As for chanting on their beads, I have delegated Kirtanananda Swami to chant on the new devotees' beads on my behalf in your country. In Europe, Revatinandana Swami will chant on the new devotees' beads on my behalf. Because it is such long distance, therefore it is very expensive to send beads airmail from here, and there are so many instances of the beads being lost in that way. And I am getting now requests up to 20 or 30 each week, so it is practically becoming impossible for me to chant the beads when I am so far distant.

Therefore the new devotees may send their beads to Kirtanananda in New Vrindaban, and he will chant the beads and send back to them. Is this all right?

Now hold the fire yajna and give also second initiation to Sarvadarsan, Yajnapati, and Hari Ballav. Enclosed please find three sacred threads, duly chanted by me, along with three copies of Gayatri mantra. Now hold the fire yajna for all nine devotees, and for the second initiates teach them how to chant on the finger divisions and play for them the tape of me reciting Gayatri mantra into their right ear.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Dvija Hari,

Please accept my blessings. Your letter dated January 3, 1973, is in hand, and I am enclosing by way of reply also the letter from Tejiyas and my reply to him. So far your being "ordered" to leave India, that may be an idea which you got from Tejiyas. I do not know what is the situation there, I can only act upon the information which Tejiyas has sent me, namely, that you are causing some disturbance to him and the others. But just yesterday I have got one letter from Tejiyas wherein he reports that you are now improved in your conduct and you are cooperating quite nicely also. So I have no objection if you want stay in India or anyplace, but for your work I think it is better anyway to go to Los Angeles. That is the best place in the world for making film. Harikesa Prabhu has been working in that connection also. He has shown me some film script which appears nice, so if conjointly you are able to do something for Krsna in this way, that will please me very much. I always wanted that there should be a cinema made of Bhagavad-gita, now you are fulfilling my desire in that connection. At any rate we shall discuss further when we meet again in Calcutta in a few days' time.

Hoping this meets you in good health,

Letter to: Bhagavata Maharaja

Bombay 5 January, 1973

73-01-05

The in-Charge, Sri Bhagavata Maharaja, The Gaudiya Mission, Kali Prasad Cakravarti Lane, Bagh Bazar, Calcutta-3

My dear Bhagavata Maharajaji,

Please accept my humble obeisances. Enclosed please find the original of one card received by me from our God-brother in Chandigarh, wherein he has requested to take another order shipment of our books for selling from the Math at Chandigarh. Similarly, in Bombay, Visakhapatnam, Rajamundhry, and other places all over India, the Sri Caitanya Gaudiya Math institution, which was founded by our beloved Prabhupada, His Divine Grace Srila Bhaktisiddhanta Sarasvati Thakura, in so many places they are displaying and selling many, many of our books and magazines. So I am enclosing here-with also one list of our publications. It is not complete however. Since the enclosed list was printed, we have put out also our many other books. So my request to you is that you will consider to stock some of our books in the Bagh Bazar Math as well.

These ISKCON publications are very attractive to the public, they are nicely brought out, printed on the very best presses of America and Japan, and they are translated with commentary just to our line. One of my disciples from my Calcutta ISKCON branch will be calling on you shortly in this connection, and if you are kind upon me in this way, he will give you all facility and stocks for whatever you require.

I shall be myself coming to Calcutta by the 23rd instant of this month, just after we finish our Hare Krsna Festival and Bhagavata Dharma Discourses in the Cross Maidan of Bombay city, from January 12 to January 21, 1973. From Calcutta I will be leaving on February 1 for a one-month preaching tour of my several branches in Djakarta, Indonesia, Australia, New Zealand, Hong Kong, Philippines, and other places in Asia and the South Pacific zone. I shall return to Mayapur by the 1st March for celebrating the appearance day of our Lord Caitanya Mahaprabhu. I shall be staying in our Calcutta temple at 3 Albert Road for about 8 or 9 days, and we shall be lecturing and having kirtana program at various places in Calcutta proper each evening while I am there.

Hoping this meets you in the best of health,

Yours faithfully, A.C. Bhaktivedanta Swami

Letter to: Krsnakatha (Kris Carlson), Anala (Anna Carlson) Riddha (Roger May), Maharddhi (Morley Walkowski), Rohita (Randy Hyndeman), Kala (Carl Mulder)

-

Bombay 5 January, 1973

Vancouver

My dear Sons and Daughters,

Please accept my blessings. Upon the recommendation of Bahudak I have gladly accepted all of you as my duly initiated disciples. You may send your beads to Kirtanananda in New Vrindaban for chanting on them on my behalf. There is no difference if I chant them or he chants them, I have authorized him in that way. I have given you the spiritual names as follows:

Kris Carlson/ KRSNAKATHA DAS ADHIKARI
Anna Carlson/ ANALA DEVI DASI
Roger May/ RIDDHA DAS
Morley Walkowski/ MAHARDDHI DAS
Randy Hyndeman/ ROHITA DAS
Carl Mulder/ KALA DAS

Now my request to all of you is that you very seriously and sincerely stick to the principles of devotional service, and especially observe strictly the four prohibitions, and without fail always chant at least 16 rounds on your beads daily. In this way you will be always happy.

You have now got the golden opportunity of this human form of life, and it is not by accident that you have met your spiritual master, so if you are actually intelligent you will take advantage of Krsna's blessings upon you and go back to home, back to Godhead. The essential point to remember is that by your activity you will please always your spiritual master. That means following the orders and instructions of your spiritual master, and my first instruction to all of my disciples is that they become Krsna conscious devotees themselves and help others to become devotees by spreading this Krsna Consciousness movement all over the world, utilizing their energy however they are best able to do it. In this way, if you keep yourselves always engaged in Krsna's business 24 hours, then you will be freed from all attachment to maya, by Krsna's grace. Just as when the darkness and the light come together, the darkness cannot stand before the light, so maya cannot remain in the presence of Krsna. Always remember therefore to chant Hare Krsna, and that will save you in all circumstances, without any doubt.

Hoping this meets you all in good health,

Letter to: Jagadisa

-

Bombay 5 January, 1973
73-01-05
Toronto
My dear Jagadisa,

Please accept my blessings. I am in due receipt of your letter dated December 14 and 27, 1972, and I have noted the contents carefully. I am especially happy to hear from you about the huge distribution of books in the Canada Zone. That is the most auspicious sign. You are making good progress, that I can understand. As soon as I see that there is such increased book distribution figures, I take that to mean that all other programs are successful as well. I am especially encouraged to note that you have sold 268 of our Bhagavad-gita As It Is in only three weeks' time. That is very very satisfying to me.

Regarding your other points, if there is need for stronger president in Montreal, I have no objection if Sripati leaves that place. Main thing is to have always one strong leader at each temple who can maintain the preaching standard to the highest degree. In this way, if our standard program is maintained just to the standard, automatically there will be enthusiasm and increase of preaching results. But Syamasundara has informed me that Sriman Sripati das is English citizen, so if he will like to return for assisting in his home country? They are mostly young boys in London, and they are opening so many new centers in other places of England, Scotland and Ireland, so if he is not required there, or if he likes, he may go there to help train up the young English boys. That is very much required. That seems better service for him than becoming cook only. At least in England he has got opportunity for active preaching and he may utilize his experience to manage things in some capacity.

I am so much pleased to hear that your Toronto center has become too much crowded. That is a very good sign. Yes, if Krsna Consciousness is there, Krsna means that He is eternally increasing, so I can understand that Radha Gopinatha have very much appreciated their new home at Toronto. Your temple is at present too small for so many devotees, so if there are extra men they can be sent out for opening new centers and for travelling sankirtana parties. New men can be trained up in your Toronto center. When Krsna sees that you are very serious and sincere to serve Him only, you need not have to worry to get a new place, He will help you in that way.

Upon your recommendation, I am very happy to accept the two devotees for second initiation. Now you may hold a fire yajna and give Gayatri mantra to Adyodyapati and Madhuhara. Teach them to chant on the finger divisions and play for them the tape of me reciting Gayatri mantra into the right ear. The fire yajna should be held in the company of devotees only, so long it is restricted to Gayatri mantra initiation only. Two sacred threads, duly chanted by me, along with two copies of Gayatri mantra, are enclosed herewith.

So far the concert of Indian musicians and dancers for raising funds for the new temple, yes you may do that, I have no objection. But the concert should be their own concert, not that we are holding our program and they are appearing on the same program, either as our guests or as our co-performers. No, we shall not appear to the public like performers, we are not performers or musicians or dancers. But if the concert is held as a benefit concert, just like in Bombay we have held one benefit concert, of the Zaveri Sisters, Manipuri Dancing Group and nearly Rs. 100,000 was raised for our Juhu scheme. That will be the proper arrangement. So if you hold the concert in the auditorium and advertise these singers and dancers, that it will be their program, and also that it will be a "Hare Krsna Benefit Show" or something like that, that will be best. Of course, we may also appear and perform kirtana at the opening of the concert, and we will sell our books there, and if there is some opportunity to give also short lecture, that will be nice. But if you do all these other performances of aratrika, a drama, like that, perhaps it will appear like it is our program and not the program of the musicians. If there is confusion, if the public is thinking that we are something show or commercial performers, that will not be proper idea. But if the musicians and dancers want to give one concert and donate the proceeds to us, we shall gladly thank them.

Yes, that is correct, the deities should never be bathed with water or something like that. Always bathe them with the mantra process. Of course the big deities should be bathed daily! Should not the Supreme Personality of Godhead, if He is recommending to us as brahmanas to bathe so many times, should he not also take bath? There is no objection either to applying the jewels to Their bodies with beeswax or to swinging them in the public functions in the temple on Sunday, so long there is very nice jhulan or swing being profusely decorated. Radha and Krsna may be swung in this way, but you may avoid swinging Lord Jagannatha like that. Yes, that will be very nice if your men go to South America for opening some new centers. They may write to me in that connection.

Hoping this meets you in the best of health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

New Vrndaban

My dear Kirtanananda,

Please accept my blessings. Now I am getting so many requests to take first initiation from temples in your country, and once before I had empowered you to chant the beads on my behalf, so henceforth, as long as I am away from America and Canada, I am requesting all of the temple presidents in that zone of North America and South America to send the beads of the new devotees to you at New Vrndaban. The candidates for new devotees will send me their letters as usual, and I will give them names myself and enter in our records, simply you must chant on their beads and then return to them. Is that clear? Or, if you think it is better arrangement, I think that Bali Mardan has got many many beads in New York which we have sent him from Mayapur, so if you like you may get from him many sets of beads and you may chant them and, whenever requested by my letter only, you may send the new beads directly to the new devotees. Henceforth, then, I shall send copies of my letters of reply to the new devotees, wherever I am in the world, to you, and besides that the new devotees themselves will write to you and send you their beads. Similarly, I have appointed Revatinandana Maharaja in England to chant the beads of the new devotees on European Continent. Otherwise, in other parts of the world, I shall chant them as always.

Hoping this meets you in good health,

[To Ravindra Svarupa]

[PAGE MISSING]

fully, it is very nice. So preach in this way, whatever is palatable to the student class, and give them factual Krsna Consciousness. In this way, try to recruit some men from the student class of men for joining us as future leaders of our Society. If we simply go on expanding and there are no qualified men to lead, then everything will be spoiled eventually. So you have got the best opportunity for this great service to Krsna, and I think that Krsna will send you some very qualified men to take instruction from you. But one thing is, do not spend much time for topics that are not concerned with Krsna Consciousness, neither try to speculate about history and other things. But the way you have described it, your program is nice. So if anyone students are serious to learn Krsna Consciousness from you, give them all help and facility, let them accept gradually by their intelligence. Do not force, but if gradually they understand, they will voluntarily accept the life of tapasya or austerity of Krsna Consciousness movement. In this way, by their voluntary agreement to join and follow strictly, they will assist me in the leading posts to spread on Lord Caitanya's message all over the world.

Regarding your question is it all right to assign the entire sankirtana party for distributing books so that no one will be free for street chanting? Of course we should not understanding the meaning of sankirtana very narrowly, that only chanting and dancing and playing instruments, no, sankirtana means to glorify the Lord in a congregational manner. So if many devotees are going out daily on the streets and public places for distributing our literature, that is also sankirtana, even if there is no one chanting. Hearing and chanting are essential processes for sankirtana. So if someone is hearing us singing on the street, or if he is purchasing one book and if he reads sincerely, these two activities are the same. So if there is any occasion of necessity, if there are not very many men available or if there is prohibition by the municipal authorities, something like that, we may assign everyone for distributing our literatures, there is no loss for that. But it is always better if there are also some devotees chanting loudly on the street. If there is even one man to two men or a small party who are chanting Hare Krishna, that will increase also the book sales. So if there are sufficient men, and if we have got sanction by the authorities, it is always better to have at least a small party chanting along with as many distributers of books as possible.

Hoping this meets you in good health,

Your ever well wisher, A.C. Bhaktivedanta Swami

My dear Tejiyas,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 1, 1973, and I am very happy to learn from you about all of the progress in Vrndaban and Delhi. You are coming to Bombay very soon, so we will speak at more length when you see me. When you come we shall discuss with Mahamsa and Yasodanandana about the funds for Vrndaban building work. I am very glad to hear that Puranjana has been able to obtain the CCP Certificate for Rs. 2 lakhs. That is very important business. Without books we will make no progress in India, because practically everything we have done so far in this country has rested on these books. So I am very glad to hear that they are selling nicely in Delhi also, now try to tax your brain for finding new ways and better ways for distributing our books widely to the intelligent men of Delhi city.

Yes, when I used to live in Delhi the Americans purchased many copies of my Bhagavatams and they left standing order for any further books which I might publish in future. So you may approach them and they will take minimum 18 copies per volume, as per our former agreement. When you come here you can discuss further with Yadubara all these things, such as the Thompson Press work and other things regarding the books. I have made order from Dai Nippon for 5,000 of each of our big books and 10,000 of each smaller book for distributing in India. We shall henceforward concentrate our full energy in this program of distributing books in India. We shall not be very much concerned any more with properties and big big temples, now we have got our place at Vrndabana and our place at Mayapur, that is sufficient, now let us spend our hard-earned money for printing Krsna's books and distributing widely all over India. If someone steps forward to donate us land or building, that is another thing, but we shall not be very much interested to spend for that.

There are four pillars of a successful business, and that is land, labor, capital and organization. So first is the land. If you get nice land, then everything else will follow. So we have got place, labor, you are gradually getting more, we have got some capital, and we are organized, therefore I see no reason that we shall not be very much successful in India, as we shall be also all over the world.

Regarding Puranjana's going to Vietnam, I think all of the Americans and other Westerners, soldiers, have left that place and now there are only American bombers flying there to drop bombs and go away. So what is the use for one man to go and try for preaching to people of Vietnam? If there is some scope for preaching there, that is a different matter, I shall be very happy to open our ISKCON center there. But I was thinking before that many American soldiers were there, therefore I suggested. So you consider these things carefully, and we shall discuss further when you come here.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Sons and Daughter,

Please accept my blessings. Upon the recommendation of Damodara I have gladly accepted all of you as my duly initiated disciples. Now you may send your beads to Kirtanananda in New Vrindaban for chanting them, as I have empowered him to act on my behalf. Or you may write him and request him to send you new beads, as you arrange. I have given you the spiritual names as follows: Howard Bernd/ HASYAKARI DAS Randy Buchert/ RATHANGAPANI DAS Warren Havens/ VARUTHAPA DAS Lawson Knight/ LAKSMIVAN DAS Barry Butler/ BHAKTAVATSALA DAS Linda Butler/ BHAKTILILA DASI

My request to all of you is that you very seriously stick to the principles of devotional service as you have learned them, and especially observe strictly the four prohibitions and without fail always chant at least 16 rounds on your beads daily. In this way you will be always happy. Now you have got the golden opportunity of this human form of life, and it is not by accident that you have met your spiritual master, so if you are actually intelligent you will stick very tightly to your position of Krsna Consciousness and go back to home, back to Godhead. The essential point to remember is that you should try always to please your spiritual master under every condition. That means to follow his orders and instructions very carefully. My first instruction to all of my disciples is that they should help me spread this Krsna Consciousness movement all over the world, utilizing their energy as best they are able to do it. In this way, keeping yourselves always engaged in Krsna's business 24 hours, you will become free from all attachment to maya by Krsna's grace. Just as when the darkness and the light come together, the darkness cannot stand before the light, so maya cannot remain in the presence of Krsna. Always remember therefore to chant Hare Krsna and that will save you in all circumstances without any doubt.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Damodara

Bombay, India 9 January, 1973

My Dear Damodara,

Please accept my blessings. Your letter dated December 28, 1972 is in hand and I have noted the contents carefully. Upon your recommendation I am happy to accept the six applicants as my duly initiated disciples, and their letter is enclosed herewith. You may request them to send their beads to Kirtanananda in New Vrndavana for chanting on them on my behalf. I have given that responsibility as it is too costly to send so many beads such great distance by air mail. Now I am getting so many requests for first initiation, therefore I have given that responsibility to Kirtanananda, and Revatinandana will chant on the beads for the European devotees.

I am so glad to understand from you your concern about the managing of our Krsna Consciousness movement. Yes, you are my elder disciple, you are one of the leaders of our Society; therefore, it is your duty to feel always this responsibility for seeing that the things go on properly. So I am very glad to hear that you are taknog so many steps for improving things and spreading Krsna Consciousness more and more to the citizens at large. Main thing is to somehow or other create first quality preachers on Krsna's behalf. So many boys and girls are simply wasting their time in so many frivolous ways, but if we are sincere and serious to attract them to Krsna's fold, very easily we shall be able to persuade them to join us. That means simply let them get a taste of something higher than their present-day sense pleasure. Of course, that will not be so easily done, and that will be your credit for doing it. You have got now good experience, and you are mature, cool-headed and sincere devotee, therefore, I shall expect a very good result from your activity in this way.

Regarding the several smaller temples being dependent upon the central temple of Washington D.C., that is up to you to decide, but so far I am concerned, I have not got much stock in such centralized management or organization. I never wanted that any of my temples shall be dependent upon the other temples. Rather, our main business is to train up men to be self sufficient and competent in many ways to carry on the preaching work, not to make them into specialists or to minimize their responsibility by centralizing everything. If each center must rely upon its own strength to stand, that will be better training ground for the devotees. We must learn how to do all kinds of varieties of engagements on Krsna's service, not that we shall expect anyone else to act for us and thus avoid something ourselves. But for reasons of spreading Krsna Consciousness movement, we may sometimes centralize, just like the books and money for BBT are managed by Karandhara in Los Angles. In that case, for more than one man to be dealing with Dai Nippon, overseeing the general production and financial condition of the books, if that were left for each temple to manage, there would be great difficulty and the books would get neither printed nor paid for nor distributed widely. So in that case, centralized management is preferable. But in the case of new temples, it is better if they must have to struggle a little while to establish themselves in their cities, become familiar with the local city officials and leading citizens, elicit support from all quarters of the city, like that, otherwise these things will be neglected and there will be false dependency upon the outside supplies. This will deteriorate everything. Our purpose of Krsna consciousness movement is to create first class servants of Krsna, that means they know how to do everything.

I am especially encouraged by your increasing the distribution of books. That is our primary business, to sell these transcendental literatures profusely all over the world. And your methods which you have introduced for distributing the books are very much liked by me and approved fully. Whatever we have to do to induce people to take a book, that is nice. We shall judge the thing by its result, not by its means. But at the same time, we must avoid irritating anyone or disappointing anyone later by cheating them or telling big lies which become detected. Your program for approaching their businessmen in their offices is especially liked by me. Now tax your brain to create programs for engaging the wider and wider classes of population in Krsna Consciousness.

So far your ideas about influencing the leaders of society, yes, that must be done. But political power is not in their hands actually, factually speaking. It is the common people who elect the leaders of your country. Therefore we must get the support of the common men. What good is the support of a handful of so-called leaders of society? But, on the other hand, if such leaders of society can be influenced to preach on our behalf, help us to spread Krsna Consciousness in some practical way, that is the best service. But simply supporting, that will not help us. Support of mass of people will help us. But mass of people take direction from their leaders, so if the leaders of present day society can be persuaded of our beneficial working for the human welfare, and if they help us somehow to spread what they have learned from us to the people in general, that is the point to be considered. By going out for sankirtana and selling books to the citizens at large, in this way we are gradually getting the support of everyone, not just a select few. I have heard that during the last election of President in your country that the opposite party to Mr. Nixon was supported by most of the so-called intelligent class of men of your country, but still, what could they do, such high class of men, in comparison with Mr. Nixon? Mr. Nixon has got the support of the common men, therefore he is successful. So life that, we must get the support of the mass of men, and if the leading men can be induced by you to preach on our behalf, then you will be able to speed up the process and actually that is a very great service for Krsna. Spending so much time with upper class citizens to get funds must be judged on this idea, whether their appreciating our movement will have any practical effect in terms of widespread spreading of Krsna Consciousness and preaching to the mass of men? The program, as you have mentioned it, of approaching the professors to introduce our books in their classrooms, that is the right idea. In that way the leading class, just like the professors, if they can be induced to preach on our behalf, just like introducing the books to their students is one form of preaching, if they will do like that, then spending time with them is very, very desirable and effective.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Ramesvara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 27, 1972, and with great happiness I have read your figures of amount of books sold during three-day period, December 22-24, 1972. It is scarcely believable that more than 17,100 books could have been sold by one temple in three days! That indicates to me that people are at last becoming little serious about this Krsna Consciousness movement in your country. Otherwise, why they should buy our books? But they can see that our boys and girls, devotees, are so much sincere and serious to distribute the message of Krsna consciousness, they are at once struck by seeing them and therefore they appreciate and purchase. This is unique in the world. Perhaps we are the only sincere persons on this whole planet. At least our books are not to be seen anywhere else.

So I am so much pleased upon all of the boys and girls in Los Angeles and all over the world who are understanding and appreciating this unique quality of our transcendental literature and voluntarily they are going out to distribute despite all circumstances of difficulty. By this effort alone they are assured to go back to home, back to Godhead. In order to change this materialistic society and prevent them from gliding to hell, first thing is to educate them. All decent men want to give service to humanity, only thing is they do not have information really what is that service. Hospitals, feeding the poor, Red Cross, these are service to the bodies only, not to the man. Service to humanity means jnana. By giving people knowledge, jnana, that is the highest service to humanity. So we are performing the actual welfare work of society by informing everyone through our literatures who is God, who they are, and what is the relationship. In this way everyone who hears our message gets the opportunity to fulfill his actual position as human entity and become delivered from the clutches of maya. So you may understand it that by disseminating our Krsna consciousness propaganda anywhere and everywhere, by selling books, by making publicity, newspapers, television, so many ways there are to spread Krsna consciousness information, you may know it that by utilizing our energy in this way to give everyone access to the Absolute Truth, that is the real understanding of desire to serve humanity.

Understanding is one thing, and practical application of that understanding is another. But as devotees of Krsna, being engaged in the practical work of spreading Krsna consciousness, that is already the highest realization. That's all right, that is our real mission, to deliver the world by preaching Krsna's message to others, but even higher realization, the highest realization, is to save oneself.

Hoping this meets you in good health.

Hyderabad

My dear Hariprasadaji,

Please accept my blessings. I am in due receipt of your letters dated December 27, 1972 and January 2, 1973, and I have noted the contents with great care. Now your brother is here with me and I am talking with him daily what we shall do in Hyderabad. So you needn't worry for anything, I shall satisfy you on all points. The plan is being made and Sriniwas has also seen it, and we have been jointly consulting. So some of our best men are coming there by 15th of this month to take up the matters seriously, and they shall bring with them many many books. As soon as they come there, Kesava may immediately return to Bombay for taking charge of some other very important work here in India. I have a big plan for him, so as soon as he can be spared from his work there, if you think it is all right, he may leave immediately before the others arrive.

Yes, your proposal for laying down the foundation stone in March is very much wise. I think by that time there will be sufficient progress made to inaugurate the new temple at that time. I am going to Australia and New Zealand for month of February, but I shall return to Mayapur in early March for celebrating Lord Caitanya's appearance day on 18th March. I am so much appreciating your sincere and determined cooperation for establishing this Hare Krsna movement, not only in Hyderabad, but all over the world. It is not so much important what we actually accomplish by our work, so much as the eagerness to serve Krsna which is behind our working for Him. I can see that you are very, very eager, enthusiastic to serve Krsna in your best capacity, that is your great asset. So long you are so much eager to serve Krsna, without any doubt you will very quickly meet Krsna face to face. Thank you for helping me in this way.

Hoping this meets you and your good family in the best of health.

Nairobi

My dear Cyavana,

Please accept my blessings. Your letter dated January 3, 1973, is in hand and I have noted the contents with much encouragement. Your plan for rotating the chief man at Nairobi Center is nice, provided the sense of authority and continuity is not weakened by so much switching of head men. As long as you are recognized to be the leader of Nairobi Center with full authority in all matters, that is the point. This constantly changing the head man and whimsically dividing the attention is not good. Someone must be there who will stick tightly to the temple and develop it gradually to the highest standard.

So far getting new place, that Sarat Building is nice but we have already purchased our other building for Shs. 200,000. But if we can sell that place to buy the Sarat Building, then it is all right. Whatever is agreed upon between yourself and Brahmananda, I have no objection. Your program for mass wholesale distribution of our propaganda, especially books, throughout Africa, is very much appreciated by me. That is the highest type of activity of human form of life, to distribute Krsna's message profusely as far as it is possible for me to do.

So far Harikrpa marrying that African girl, although the father has told you he has no objection, still, there must be something in writing. And if Brahmananda also agrees, then you may perform the ceremony nicely in our temple.

The term for G. N. Shah's loan is two years, so how he can expect us to pay within one year? This business with Mr. Shah and Damji Devji has been dragging on for years together, now you settle it yourself the best you are able, I do not like to be consulted continuously about the same thing. But he has given the loan for two years, is that in written agreement? If there is written agreement, then how he can expect? At any rate, try to pacify him by paying him something gradually each month, and in that way you must fulfill the terms of your original agreement, by paying him off in two years time.

Regarding the daughters of Sarna, they must be engaged in some service. They may chant, read books, make life members by visiting the ladies of Nairobi, like that, but some service must be there, otherwise sex will come out. Two things are there, Krsna and maya. This sex idea is maya, therefore there must be Krsna's service or there will be another scandal as before. It is nice the girls are coming to the temple, but unless you engage them in some way of serving Krsna, there will be again trouble.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/sda N.B. Your letter dated January 4, 1973, is just now received by me. Yes, we shall be happy to come that side while leaving India sometimes I think in April, and when we come there we shall install the Deities, after consulting with Brahmananda whether you will be able to maintain them properly. You may request Brahmananda to send me his opinion in the matter also. But I think we can install if you both agree. So I am sending Rsi Kumar, Yasodanandana Swami and Gurukrpa Swami from Bombay to Nairobi very soon, they shall reach there by ship, and they will remain with you for the month of February to help you prepare everything and enhance the preaching work amongst the Africans population. By March they may be freed for going to South Africa to arrange things there for my coming there also, after I leave Nairobi. You all big leaders make these arrangements however you think best, by your mutual consultation. But one thing is, you should send the three plane fare-tickets from India, I think we shall be at Delhi at that time, to Nairobi, and then from Nairobi to Johannesburg and other places, for three men including myself. Rsi Kumar has told me they would pay for some portion of the tickets in South Africa. Hoping this meets you in good health.

My dear Hayagriva,

Please accept my blessings. Your letter dated January 1, 1973, is in hand, and I have noted the contents with great care. Who tells you not to edit? I have never said. I said to stop this intoxication, but not your editing. You say it is rumor only, but I have heard it several times from other persons. So let it remain as rumor, don't let it be fact. That will give me great hurt. I am also coming to Calcutta soon and we may discuss everything further when I come there. And why you are living with that ganja smoker? He has got his wife and family, so you should separate from him and live in the temple as the others are doing. If there is such complaint against our senior men it does not look well.

Letter to: Satsvarupa, Hrdayananda

-

Bombay 9 January, 1973

73-01-09

Dallas

My dear Satsvarupa and Hrdayananda,

Please accept my blessings. Your letters dated December 25, 1972, are in hand and I am very much encouraged also to see the nice photos you have sent me. Especially I am glad to hear that Mohanananda has returned to Dallas School for taking charge of things there. Yes, he was the original pioneer member of Dallas Temple, so he has returned to develop now everything just to the perfect standard of completion. One thing is, I am requesting that one of my old friends here in Bombay, one Bengali man named Mr. D. C. Chakravorty, may send his three young children to our Gurukula, probably they will be coming there some time next spring. So you may prepare one letter of invitation to Mr. D. C. Chakravorty, c/o Mogul Line Ltd., 16 Bank Street, Fort, Bombay-1, India, wherein you shall certify that his children, namely Basanti Chakravorty, female 9 years old, Somendra Chakravorty, male, 6 years old, and Satindra Chakravorty, male, 6 years old, that these three children have been admitted to our bona fide educational institution at Dallas, Texas, U.S.A., and that you have accepted them to study with you for a period of, let us say, one year's time, and that you understand that the tuition fees and other incidental expenses such as boarding and lodging, clothes, medical expenditures, and so forth, that these maintenance expenses will be borne by the International Society for Krsna Consciousness, and then you may give some credentials and financial statements about our Society. This letter will enable Mr. Chakravorty to get visas for the children, although it is understood between us that if there are any expenses, and we shall of course charge something, then he will pay us here in rupees and we shall bear the cost there in Dallas. There are very strict financial restrictions in India for money going outside the country. You may mention that it is understood by you that their round trip air tickets will be paid for in India by their parents, and that you are expecting them to arrive there some time around the middle of April, like that. If you send the letter immediately to me here at my Bombay address, I shall hand it over to him and do the needful.

I very much appreciated your publicity material for the Bhagavata-dharma program, now go on developing it more and more to perfection. I am very much satisfied by this activity, that is your real work for Krsna. In this way, try to recruit some of the intelligent class of student class to take up this Krsna Consciousness philosophy and study it carefully. Try to recruit some of such men to become our devotees. There is need for intelligent young men to train them up as future leaders and preachers to go all over the world for spreading the message of Lord Caitanya Mahaprabhu. If we simply go to the college on one night and leave immediately for another place, it will be difficult to make very much impression upon these students. I think it is better to stay at one place for some time, at least one week, or as long as the students are interested, and try to sell as many books as possible. After your lecture in the college you may request if there are any interested students, that they may make further programs for you in their homes, or in some club or hall, like that, so that you may remain some time longer and concentrate on recruiting two or three good men, whoever appears to be the most interested, and by your diligent preaching to them you may be able to persuade some of them to become our devotees. Of course we shall not expect them immediately to come into the temple, like that, but if at least the seed is planted and they begin chanting rounds and following the principles while continuing their studies at school, that is our great victory. And if they like, they may go and live in one of our centers, wherever they like, and learn further. But we shall not present Krsna Consciousness as anything dry or like set of rules and regulations only, no. Krsna Consciousness is the topmost philosophy also, the highest knowledge of educational experience, so try to impress this aspect of offering the perfect scientific understanding of everything as it is, not the temporary and unsatisfactory and incomplete understanding of things. Try to present everything very logically and always quoting our Sanskrit authorities in connection with the main points, and that will impress them greatly. Yes, and if you also yourselves write something daily, that will sharpen your use of language and you will be able to make your points very clear. And if you dress neatly and conduct yourselves properly, that will help further.

Upon the recommendation of Satsvarupa, I shall be glad to accept John Partlin as my duly initiated disciple, and his letter is enclosed herewith, along with his beads, duly chanted by me.

Hoping this meets you both in the best of health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Karandhara

-

Bombay 9 January, 1973

73-01-09

Los Angeles

My dear Karandhara,

Please accept my blessings. Your letter dated December 28, 1972, is in hand and I have noted the contents carefully. According to our Vedic process, polygamy is allowed. For example, Krsna married 16,000 wives, Arjuna married 3 or 4 wives, Krsna's father Vasudeva, married 16 or 18 wives, like that. So according to the Vedic system polygamy is not prohibited. But it is not a farce also. Every wife must be provided for sufficiently. Krsna married 16,000 wives, but each wife was provided a palace and He was personally present at each palace. It does not meant to marry many wives and maintain none of them. If anyone is able to keep more than one wife and give them all comforts of life, there is no objection for having more than one wife. But if he creates trouble by marrying, he should not marry even one wife, this is my judgment. Now you can do the needful, taking into consideration the circumstances of the laws of your country, the customs of your people, the reputation of our society, the example which will be set for future devotees to follow, like that. For karmis, the Vedic system of marriage was given by Krsna so they may come gradually to the point of becoming devotees. But for devotees, it is advised to minimize sex life to the point of nil. So if that cannot be done, then there is regulation of sex life by marriage. Actually the system of polygamy is natural because the human entity is meant for transcending the animal forms of life and going back to home, back to Godhead. Therefore there should remain a class of men who do not marry in the society. But that will create an unfavorable situation of excessive population of unmarried women. Therefore it is advised that all women get themselves married, and if there is any man who is better able to maintain wife and family, he is advised to marry as many women as he can maintain and thereby free other men in the society to remain brahmacari. So I can understand that many men of our society have got themselves married only for some disastrous result. That means that not all of our men are meant for married life, but because there are so many women we may not leave them unprotected without husband, that will also not serve us well. Therefore it will be the best idea if those who are well-qualified as husbands to keep more than one wife very much satisfied in every respect, if such men can marry more than once. That will free the others to remain brahmacari. But you must consider very carefully the possibility of becoming scandalized in the public for breaking their laws in this way. And in future also the devotees who are neophyte may not understand our policy in this connection, and we gradually could wind up attracting only a class of men who are very eager for unlimited sex life only. These things must be avoided at all cost.

Enclosed please find also the letter-proposal from Syamasundara. as suggested by me to relieve me from these decisions regarding husband and wife. Kindly distribute this proposal to all the 12 GBC men in the world. They may write to me their views on the point and give their yes or no answer to the proposal.

A few days back Rsi Kumar has come to see me from South Africa and he has handed over to me the sum of $700 in cash. This amount was reserved to pay you for the book sales for December month for South Africa, and it was to be deposited in the BBF there with you. Instead I requested him to give to me here and I am depositing in my BBF here in India. So kindly credit this amount to Rsi Kumar and debit his bill for the amount of $700.

Enclosed find also the copy of one letter which I recently sent to Rsi Kumar, wherein I have approved his request to get 15% discount on books sent to South Africa. Because it is a new field and there is more than 15% of import duty and shipping cost, it will be difficult if he has to pay the full amount. Therefore you may credit his account the $700 plus 15% of the total amount which is due to you to date. Very soon Rsi Kumar and Yasodanandana and Gurukrpa will return to South Africa to arrange the program for me to come there after leaving India some time in April. Meanwhile by 1st February I have received the tickets to go to Australia and other places from Madhudvisa. But I shall be returning by March 1st to Mayapur.

I have received your description of the books sold during three-day Christmas period, and I am very much pleased upon all of the nice boys and girls who have helped me in this way. I could never have thought it was possible to distribute so many of our literatures. Therefore I can understand it is simply Krsna's blessing us for your sincerely working on His behalf. Actually, that is the secret of my success, not that personally I have done anything wonderful, but that because those who are helping me are sincere, they have done the work, that is the reason for our success all over the world where others have failed. A little sincerity is very difficult thing in this age of hypocrisy and bluff, but I am so fortunate that Krsna has sent me all of you nice boys and girls who are sincerely working. Please convey to all of them my deepest appreciation.

Hoping this meets you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

Letter to: Mr. Robert Keene

•

Bombay 9 January, 1973

73-01-09

1529 Alton Drive, Akron, Ohio 44313

My dear Mr. Robert Keene,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 20, 1972, and I have noted the contents with great concern. I do not know what are exactly the facts of the matter, but if there are any discrepancies as you say in the temples of ISKCON, they should be immediately rectified by conscientious officers. Of course, we cannot expect to find always any utopia in this material world, that is a fallacy, and it may appear to someone who is materialistically inclined that what we are doing is not only harmful to our materialistic condition, but also that we are not caring for our students and so many other things. But if you inquire from our students more carefully, you will come to understand that these superficial matters are not very serious in the long run, and that the students are becoming very happy by their acquiring spiritual knowledge and serving Krsna in so many ways. It is said that "one man's food is another man's poison." Because they have become disgusted with this material world, sometimes our devotees appear to have foolishly disregarded everything, that is seen to be something bad in their eyes, but we should not take these things very seriously. Main thing is that these boys and girls have understood what is austerity and the difference between spirit and matter, that is the highest knowledge of existence. Because they are engaged in serving Krsna in this way, you have nothing further to worry, their position in life is very secure and sound because they are going back to home, back to Godhead, without any doubt. Though they may be dressed in rags, still they are more exalted than kings.

Nevertheless, I do not know how serious is the actual situation at Boston Temple or at other temples, but I am sending copies of your letter to all ISKCON centers and I am requesting the officers in charge in those places to do the needful as you are suggesting. Yes, if there is anything cold weather, the students should be sufficiently dressed and they should not work under such conditions that they will fall ill. Everything should be managed in a nice way, so that no one is dissatisfied and everyone keeps their health and energy fit for serving Krsna 24 hours.

Thank you very much for your kind attention. I hope that everything is rectified to your satisfaction. You have got a daughter who is now become devotee of Krsna, therefore I can understand that you are also very nice persons, everyone related to any devotee of Krsna becomes also great in our estimation, therefore I beg your assistance in this matter by giving something donation towards our temples, or especially the Boston Temple, for purchasing cloth and medicine, and other things for the devotees there. If there is any further complaint, you may please address me at any time and I will try to rectify the matter.

Hoping this meets you in the best of health,

Austin, Texas

My dear Prahladananda,

Please accept my blessings. I am in due receipt of your letter dated December 31, 1972, and I have noted the contents carefully. Yes, that will be the best idea, to move your Austin temple closer to the University where there are so many potential devotees. Of course, we may set up our camp below any tree and preach anywhere, but because they will expect some comfortable place just to their standard of comfort, therefore we provide, but only so they will be more receptive to our preaching. So whatever must be done, must be done. Now in consultation with Satsvarupa, just do the needful and think always in your mind how much what you are doing will be pleasing to Krsna. That standard for pleasing Krsna is simply to spread this Krsna Consciousness message far and wide all over the globe. So if you are engaged in that activity, somehow or other, for preaching Krsna's name and fame, then that is the proper use of your energy and time, and you have nothing to worry further. So go on in this way, serving your spiritual master to best of your capacity, and remaining always fixed and steady in your determination to fulfill the goal of your life, namely, to go back to home, back to Godhead, without further delay.

Hoping this meets you in good health,

My dear Upendra,

Please accept my blessings. I am in receipt of your letter dated Jan. 2, 1973, and I have noted the contents with great care. I am very sorry to hear that you must undergo one operation of surgery upon your hernia condition, that is preventing you from opening a center in Perth. Yes, I can appreciate that you have opened so many centers now, all over the world, so never mind if some others may have to go there in your place. You take good rest and become very healthy by the time that I shall come there in February. If I get the opportunity I shall also go to that Hare Krsna farm near Melbourne City, 80 miles, and if you prepare some place for me to stay.

Hoping this meets you in the best of health,

My dear Puri Maharajji,

Please accept my blessings. Your letter dated January 5, 1973 is in hand, and I thank you very much for your kind sentiments. I am going to Calcutta on 23rd instant and we shall remain there until February 2nd, giving programs each night at different places in Calcutta. Then we are gong to Australia and New Zealand for one month, returning to Mayapur by first of March. So if you are able to meet me either in Calcutta or Mayapur, I shall be most happy to see you again and I think that we have got many things to discuss.

Hoping this meets you in good health.

My dear Bhakta das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 14, 1973, and I have noted the contents with pleasure.

It is very pleasing to me that you have distributed so many of my books and preached to the students. This is our mission of life, to somehow turn the minds of the conditioned souls to Krsna consciousness and thus give them the highest perfection of life. So you are a very sincere soul and Krsna will give you intelligence how to do this more and more.

As far as your questions on management, you may please consult with Karandhara, who is my GBC man for the Western Zone, and work out some practical program for seeing that temple management and outside preaching work both go on nicely, not that I shall leave the temple and let all nonsense go on, nor shall we sit down all day in the temple and stop our preaching. Please continue in your sincere attitude and Krsna shall bless you more and more along with the others who are assisting. Always consult with your GBC man and manage things very nicely.

My dear Karandhara,

Please accept my blessings. I beg to acknowledge your letter dated January 2, 1973, regarding the book shipments to India. As I have already informed you by telegram, until further notice you should not dispatch any further shipment of books for India. The position is that I have asked Kesava Prabhu to see to all the book affairs here since in the past two years our books have not been properly managed here. After he takes stock of all books in the different centres, and makes out appropriate bills, and generally adjusts things, then we shall think to order more books. The principle to be followed is that whatever the MV Trust is debited in America a similar amount must be paid into the MV Trust account here. In this way things will be adjusted. You may correspond with Kesava regarding further developments.

In Bombay we have just celebrated our Second Hare Krishna Festival and it has come out very successfully. More than 20,000 people attended the last evening's program. A special feature was the "Question and Answers" booth where 24 hours a day and night one of our sannyasis answered all philosophy questions. So the people were impressed that we are not seemingly sentimentalists, but have substantial philosophical footing.

I hope you and all others in Los Angeles Temple are well.

My dear Roger,

Please accept my blessings. I have received your letter of January 5, 1973, and have noted the contents.

Thank you very much for your kind sentiments. By engaging in this Krsna Consciousness Movement you will be perfecting your own life as well as helping others to also come to the platform of God-consciousness. This is the real business of human life, though unfortunately the majority of human beings are neglecting. Now it is our business to wake them up to Krsna Consciousness. Please read my books very carefully and become convinced on this point. Chant Hare Krsna, take prasadam, and follow the regulative principles very rigidly. This will make you more and more advanced in spiritual life.

I hope this finds you in good spirits.

My dear Sudama,

Please accept my blessings. I beg to thank you for your letters dated January 9 and January 15, 1973, and I have noted the contents carefully.

Lord Caitanya is very pleased upon those who dedicate their lives for spreading Krsna consciousness. After all, He is the original promulgator of the Sankirtana Movement. So you may know it that in traveling and preaching about Krsna you are very much pleasing Him. This is the duty of a sannyasi, to travel amongst all of our centres for elevating the standard of devotional service. If by your presence in a centre the devotees become enlivened, that is the sign of successful preaching. It is not very difficult. Just read from my books and try and explain the meaning in your own words. It does not matter that you are not so expert at Sanskrit. You just try to realize the importance of Krsna consciousness and make your life cent per cent engaged in Krsna's service-that is perfection. I can understand from your letters that you are following Krsna's dictation and are trying very sincerely to help me in spreading this great movement of Krsna consciousness, and for this I shall always be grateful to you for dedicating everything to assist me.

You have my sanction to take with you Gaura Nitai deities. Carefully worship Them, attending to Them with regular aratis and bhoga offerings. Be very careful to maintain a strict standard of worship, and whenever you arrive at a temple you can place the Deity on the altar.

I have duly chanted the mantra for Brahmin initiation and sent the thread to Sriman Vaikhanas Das at St. Louis as you have recommended.

Hoping this meets you well,

My dear Turya dasa,

Please accept my blessings. I beg to thank you for your letter of December 21, 1972, and I have noted the contents carefully. The reports that have come from our Mexico City temple have always been encouraging and I am glad to learn that now you wish to increase your service still further. Krsna is unlimited, and His devotees' service should also be unlimited. Since you have more than five brahmanas who can participate in worshiping large Radha-Krsna deities, and you have done nicely in worshiping Jagannatha, you can order marble Radha-Krsna deities. Make the worship of Radha and Krsna most opulent, profusely decorate with flowers, celebrate all the festivals and in this way automatically large crowds of people will be attracted to your temple.

I am enclosing the Gayatri mantra sheets for Laksmi-priya Dasi and Kusa Devi Dasi as you have recommended them. Now you can perform the fire sacrifice in the assembly of devotees only and teach them to count on the fingers. They may hear in the right ear the Gayatri mantra chanted by me on tape recorder. Every one of my disciples should become so nicely trained that they may all develop the brahminical qualities.

Hoping this meets you all well.

Los Angeles

My dear Dayananda and Nandarani,

Please accept my blessings. I beg to acknowledge receipt of each of your letters dated December 27 and December 28, 1973, respectively, and I have noted the contents carefully.

I am in favor of whatever will push on this Krsna Consciousness movement throughout the world. So if you both wish to serve at Gurukula, if Karandhara and Satsvarupa and Mohanananda all agree then certainly you should go there. You have already proven your ability in this field by raising two nice Krsna Conscious children. So if you can help now to raise hundreds and thousands of children in Krsna Consciousness, that will be the greatest service to Krsna and certainly you shall both go back to home, back to Godhead, by doing this. But before any new service, be certain that your absence shall not cause any harm to our Los Angeles Temple. After all it is you who first worked so hard in the beginning and should see in the future how it would expand. So first speak with Karandhara and take his approval.

Gurukula is our most important project. If the children are given a Krsna Conscious education from early childhood then there is great hope for the future of the world. I have already given instruction on how the teaching should be conducted there, and this you can learn from Satsvarupa, Mohanananda, and the other senior teachers. Whatever service we do, our enthusiasm must always be kept strong. So Krsna is giving you guidance from within. So if you go to Gurukula, try to help develop things there and make it the model educational institution in the world.

Hoping this meets you both in good mood,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Marie Priterel,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 4, 1973, which I have read carefully.

It is most unfortunate to hear of the manner in which you have been mistreated by the doctors. But what can be done now about that? At least you have now had the good fortune to come in contact with my disciples. So now you can begin a new life. It does not matter that you do not live within our temple, since you say your health does not permit. But you can make your home a temple for Krsna. First thing is that you should try to follow strictly our regulative principles-no meat, fish or eggs; no intoxicants, including coffee, tea and cigarettes; no illicit sex; and no gambling. Try also to chant as many times as possible the Hare Krsna mantra on japa beads. You may keep a picture of Lord Krsna in your house and after cooking you may learn to offer the foodstuffs to the picture of Krsna. In this way the food you eat will be offered and be spiritual and will help you to advance spiritually. Whenever possible try to visit our temple and attend the kirtanas and discourses. I am sure that the temple president can suggest some way in which you can render some service, if you are willing.

Thank you for taking a keen interest in our Krsna Consciousness movement.

Hoping this meets you well.

My Dear Palika Devi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 1/17/73 and have noted the contents with great care. You may be pleased to know that your husband has now taken sannyasa order of life for preaching the message of Lord Caitanya. Similarly you have gone alone to Hyderabad for pushing on the preaching work and I am very glad to hear that you have arrived safely.

Regarding the two girls from America, I have no objection to them coming to assist you if they agree. It would be good service for all of them, especially Kalindi has suffered some difficulty since her husband has taken sannyasa. But I know that you are very strong in Krsna Consciousness. So very strictly now maintain our principles by chanting 16 rounds on the beads, reading our books, working in every second of your life for serving Krsna. this sincere attitude will make you more and more advance and one day Krsna will reveal Himself to you face to face. Hoping this finds you well and in happy mood,

Dear Hillel Ben-Ami,

I beg to acknowledge receipt of your letter, undated, and I have noted the contents very carefully. Thank you very much for your kind sentiments. Now try and understand our philosophy very carefully by reading all of our books, such as Bhagavad-gita As It Is, Srimad-Bhagavatam, Nectar of Devotion, Teachings of Lord Caitanya, and there are so many others. In addition, please follow the regulative principles very rigidly, such as chanting daily 16 rounds on the beads, attending classes, getting up for mangala aratrika. These regulative principles will make us very strong in Krsna Consciousness and very rapidly we can advance in this way. So under the direction of the senior devotees there try and become fixed in your devotional service to the Lord, Sri Krsna, and this will certainly bring complete satisfaction to you and make you eligible for going back to home, back to Godhead, in this very lifetime.

My dear Hladini Devi Dasi

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 1, 1973, and I have noted the contents with great pleasure. It is so nice to see how enthusiastic you are in executing this process of devotional service and how much you like your engagement there in New Vrindaban. So you continue in this way, always thinking of Krsna, chanting 16 rounds, reading the books, and doing your daily chores all on behalf of Krsna. As your devotional service becomes mature you shall see Krsna more and more, and more and more you shall realize the qualities of the holy land of Vraja. This modern civilization is always artificial. You are actually learning in New Vrindaban the self-sufficient mode of living, simple living, high thinking, that is our policy, and as long as Krsna remains in the center of all these activities, then you are actually in Vrindaban. And the more you please the Deities there with your service, the more they shall reciprocate by bestowing upon you love for Sri Sri Radha Krsna. So I am always looking forward to coming back to New Vrindaban, and I remember very fondly the sandesh, milk, and other nice products that the devotees are preparing there. Thank you very much.

So for the time being you may call the baby Bhakta Gaura, and then initiated can take place when she is grown more, not now. So you are my initiated disciple, and I must instruct you to be sure to always follow the regulative principles like chanting 16 rounds on the beads daily, reading my books, eating only prasadam, and in every way trying to serve Krsna. This will keep you purified and help you to advance more and more in spiritual life. So try as much as possible to associate with our devotees and to bring up your baby firmly in Krsna Consciousness. My Dear Kirtanananda Swami,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 10 January 1973, and I have noted the contents with great pleasure. I can see that Krsna is giving you more and more facility for developing this New Vrindaban scheme. So this is very nice. I am very pleased that you have acquired some more cows. In Mayapur also we have some cows now. So you are the manager there, and in cooperation with the GBC men it is up to you to see that everything is developed very very nicely and that all the land is utilized properly, not that it is sitting going to waste. So once you are utilizing everything very nicely, then you may increase more and more as you like. So consult with the GBC and you may decide whether it is worthwhile to purchase more land at this time.

You write that you have just returned from your second trip to Mexico City. This is very very nice, as you are sannyasi, and sannyasi means to travel and preach the message of Krsna all over the world. So you are actually doing this and Krsna will be very pleased by such activities. Also you are distributing my books. This is the most important work, as anyone who simply takes one of these books, simply by reading may be saved and turned towards Krsna Consciousness. So in cooperation with others, go on traveling, preaching, distributing my books, and this will please me very very much.

Regarding your recommendations for second initiation, they may be given the sacred threads enclosed herein. As you are one of the elder members of our Society and you are sannyasi, it is your duty to see that all the devotees are following strictly the regulative principles and chanting 16 rounds, attending the classes, reading our books, and always remaining enthusiastic for executing devotional service. Everyone has got some propensity. The art of preaching is to engage that propensity in the service of Krsna. Whatever we have got, our mind, our intelligence, our possessions, our time, our energies, let them all be used in Krsna's service. So by training people in this way, this will be the success of your preaching work.

We have just completed one very nice pandal program in Bombay, and every day thousands of people were gathering to hear the sannyasis preach in our "Questions and Answers" booth. Sometimes the people were staying past 12:00 in the evening to hear your American sannyasis preach this Krsna conscious philosophy. . So we have got good audience for resounding the message of Caitanya Mahaprabhu all over the world. I am going on 2nd February to Melbourne, Australia, and then shall be returning to Mayapur for the appearance day of Caitanya Mahaprabhu.

My dear Nayanabhirama,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 1/1/73 and have noted the contents with great pleasure. It is so nice to hear how your wife Daivisakti Devi Dasi is distributing so many books and collecting big big donations for the Lord. This is very very pleasing to me, as our book distribution and collecting of funds is so much important for pushing on this movement. So if all of the devotees in New York can collect like that, at least $100 daily, then very shortly you will have enough funds for getting that big skyscraper for use as the world headquarters of our Krsna Consciousness movement.

Regarding the activities of the Vaikuntha Players, it is very nice to hear that you are taking information from our Srimad-Bhagavatam and Krsna Book for presenting everything very authoritatively, without any deviation from the sastras. Yes, one or two of the girls may learn this Indian dance technique, but we cannot take too much endeavor for such things. If they can do it without too much trouble that is all right. Now you continue executing your Krsna Conscious activities, chanting 16 rounds, studying our books, going on sankirtana, worshiping the deity, etc., and in this way you will become advanced more and more. Also as you are senior devotee you must set a nice example for the others to follow. Here also in India we are making drama, and at our Bombay Pandal on the last evening we had one drama about Krsna and the gopis in which the gopis gave the dust of their feet for curing Krsna's headache. This was very much appreciated by the audience. So in this way we can present the philosophy of Krsna Consciousness very nicely for everyone to relish.

I will now be going to Australia for one month and shall be returning to Mayapur for the occasion of Lord Caitanya's Appearance Day. So there in New York you may make some nice program for glorifying Lord Caitanya and His Associates on that auspicious occasion.

Hoping this finds you and your good wife in good health,

My dear Thakura Haridasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 15th January, 1973, and I have noted the contents carefully. It is very nice to see that you are so enthusiastic for assisting me in pushing on this Krsna Consciousness movement. That is very nice. Now make sure you chant the 16 rounds every day on the beads, attend the classes, and follow all the regulative principles very rigidly. This will make you more and more advanced. In addition everything must be executed with great enthusiasm. You must be very enthusiastic to serve Krsna.

You have asked many questions, but for this question-answering I have created 12 GBC men. The GBC man in your zone is Karandhara. So you may please consult with him, and whatever he decides, that is all right. I am now desiring to utilize my time only for translating these books like Srimad-Bhagavatam so that I can give them to you, my disciples. So if the management is taken over by the GBC, in cooperation with the temple presidents and the other devotees, then I will be free for this purpose, and I shall be very much indebted to you all. So the general policy is that for brahminical initiation the candidate is recommended first by the temple president or GBC man, then it is considered. So please continue your book distributing very enthusiastically. This shall please me very much. And please try and work cooperatively with the other devotees for pushing on this great movement of Lord Caitanya Mahaprabhu.

Dear Ram Prashad,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 10, 1973, and I have noted the contents.

I am sorry to note that you have not yet received your life membership cards or receipt as yet. I have sent your letter to Bombay and directed the President, Sriman Tulasi dasa, to immediately send you the same.

Our Bombay Hare Krsna Festival has been a grand success. More than 15,000 people attended each night and joined in the kirtana and arati, and listened very attentively to my discourses. At the end of the last day seven young men, two from Europe and 5 from India, shaved their heads as brahmacaris and have joined us full time. People are eager for Krsna consciousness, when it is given in its pure form.

I am leaving for Australia by 2nd February to visit our ISKCON center there and I shall be returning in March to officially open the first residential block of our World Headquarters at Sridhama Mayapur, District Nadia, West Bengal.

Hoping this meets you well,

Letter to: Sukadeva 2

-

Calcutta 29 January, 1973

My dear Sukadeva das,

I beg to acknowledge receipt of your letter dated 1/8/73, and I have noted the contents with satisfaction. Thank you very much for your kind sentiments. This attitude of serving first the spiritual master is the correct one, for only by the mercy of the spiritual master can one obtain the mercy of Krsna. Just as we sing every morning yasya prasadad bhagavad-prasado yasya prasada na gatih kuto ’pi, in this way the disciple advances more and more in understanding God. So if you simply execute with full faith the instructions that I have already given you, then you will see so many people will be sent by Krsna to become devotees because of your sincerity. So as you are my appointed leader, you must also see that the others are following very strictly the regulative principles like chanting 16 rounds, reading my books regularly, rising early for mangala aratrika, these things will keep us purified for advancing more and more in Krsna Consciousness.

So far your request for initiations for Patrick and Jane, that is approved by me. So far the infant is concerned, let him wait until he is older. You may receive the beads chanted upon by Kirtanananda Maharaja and hold the fire sacrifice. Concerning the second initiations for Ojasir das Brahmacari, Smarananda das Adhikary and his wife Samsaramochan Devi Dasi, that is also approved, and you will find enclosed the Gayatri threads. So hold the fire yajna and for those who are initiated as brahmanas, teach them how to count on the finger divisions, and play the Gayatri mantra tape in their right ear and have them repeat it along with my vibration word for word, then hang sacred thread on his neck as usual. Girls don’t require thread but can responsively chant the Gayatri mantra. In each individual case the instruction should be given and the mantra replayed. The giving of the Gayatri mantra can be held after the fire yajna and each devotee can come alone to you to receive the thread.

Yes, the spiritual master is also present in his picture, though more importantly he is present in his teachings. I think this is explained in one letter that has already been distributed. If you have further questions try to get them resolved by your GBC man, Karandhar, because now I wish to spend all of my time for translating my books like Srimad-Bhagavatam, so I may give them to you.

Thank you very much for assisting me in this way. Hope this finds you in good health.

My dear Amogha das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 18, 1973, and I have noted the contents with great interest. It is so nice you are arranging our preaching program there in Indonesia. So I have left it to Madhudvisa Swami to arrange the dates of the program there. But one thing is, you should not arrange more than one program per day, and that program should either be in the morning or after 5:00 at night. I want to finish this traveling very shortly and settle down to translate my books. So I am counting on you boys and girls to push on this movement and preach vigorously all over the world, and we shall be successful.

As far as the dates of the programs, that you must arrange with Madhudvisa Swami as we shall be coming to Indonesia via Australia and New Zealand and then shall be returning to Calcutta by March 1 for beginning preparations for our Mayapur function. Calcutta 29 January, 1973

85, Duddon Hill Lane, London N.W. 10,
My dear Ksirodakasayi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 7 January, 1973, and have noted the contents with great care. Thank you very much for the information enclosed. There is no difference between brahmacari, grhastha, vanaprastha, and sannyasi. Simply grhastha means that he lives outside the temple with wife, that is the only difference. Otherwise grhastha must follow the same regulative principles and remain fully engaged in the temple activities. There in London we have such big field for pushing on the preaching work, so I want that you should assist the other devotees there as much as possible and cooperate very closely for helping me in this way. These temples, they are just like oasis in the desert for the conditioned souls to quench the thirst of their desire for real happiness. So they must be organized as nicely as possible, and I know you have many talents which can be put to good use. So in cooperation with Dhananjaya and Syamasundara. Prabhu, let us work together. You may assist me in this way and I shall be very much pleased upon you. Krsna says in the Bhagavad-gita that anyone who surrenders unto Me, whether a woman, sudra, vaisya, etc., they all attain the highest perfection of bhakti-yoga, not that now I am grhastha, I am doing karma-yoga, or now I am vanaprastha, I am doing sankhya-yoga, this is all nonsense. So if you read my books, this is explained in so many places that by taking to the path of pure bhakti all the other yogas are achieved automatically, because bhakti is the culmination of yoga and the highest perfection of life. Yet at the same time it is very simple and sublime. So I do not see what is the difficulty. So as I am your spiritual master, it is my obligation to answer any questions that you may have. So please send the tape and I shall reply.

Hope this finds you in good health,

My dear Gunagrahi das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 5, 1973, and I have noted the contents carefully.

Krsna Consciousness means always increasing, so I am glad to see that you are remaining enthusiastic to push on this Krsna Consciousness movement more and more. Your request for initiation is approved by me, and I have sent a letter in this regard. You are president of Buffalo temple, so in consultation with your GBC man you may discuss how to push on the spreading of this Krsna Consciousness movement through street sankirtana, book distribution, etc., whatever is practical for you to follow. In regard to preaching the glories of the Lord there are no hard and fast rules, we must simply always remain ourself fixed in Krsna Consciousness and then Krsna will give us the good guidance how to push things on. So since Rupanuga Maharaja is coming there you may discuss with him. I am desiring now to turn over the management of the society to my disciples, the temple presidents and GBC men especially, so cooperatively you may work out the management details.

Regarding initiation, you may arrange with Kirtanananda Maharaja to receive beads chanted upon by him. I am going now to Australia for a few weeks and shall afterward be returning to India for celebrating the appearance day of Lord Caitanya Mahaprabhu at Mayapur.

Hoping this finds you in good health.

My dear Rajiblocan das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 20, 1972, and I have noted the contents carefully. As you are temple president, that is a great responsibility. So you must try to execute it with great care. The main thing is that you must set nice example for the others by following very rigidly the regulative principles, such as chanting 16 rounds on the beads, reading the books, getting up to attend mangala aratrika, etc. In this way everyone shall be encouraged. We must be so careful to train the devotees nicely. Now they have come from the realm of maya to Krsna's place, so it is our duty to keep them there, not that they shall again fall victim of maya.

Regarding the question of your wife's initiation, that is certainly approved by me. You may arrange with Kirtanananda Maharaja for receiving beads duly chanted upon by him. Now both of you cooperate for pushing on this Krsna Consciousness movement as this is our only business in this human form of life.

I hope this finds you in good health,

My dear Sri Govinda das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 15, 1973, and I have noted the contents with great interest. It is so very nice to hear how the book distribution is going on. This is our main business, distributing these books all over the world and thus turning the minds of the fallen souls towards Krsna.

So far the court case is concerned, I shall be interested to hear the outcome. So you may keep me informed. But always remember that Krsna is the Supreme Controller of all that be.

I am desiring now to stay six months of the year in Los Angeles and six months in Mayapur, spending my time solely for the translation of Srimad-Bhagavatam and other books so that I may give them to you, my sincere disciples. So it will be better arrangement now if my disciples can take up the management and active preaching. For this purpose I have created so many sannyasis. So as far as possible, try to arrange preaching programs with them as I prefer to remain now in the background translating my books.

I am glad to hear that you are taking up the program of deity worship very seriously. This is required. So everything should be first class as you have got full facility, just to the standard of Los Angeles. In Los Angeles I personally advised them in all the different aspects of deity worship, so you may consult, especially with Silavati Prabhu (now in Dallas) and do the needful. One thing though, the deity worship must be completely pure in terms of cleanliness and punctuality, otherwise there will be some offense. Regarding the Radha-Krsna Deities for Chicago, I believe that Syamasundara. Prabhu is taking care of this matter so you may consult with him about the shipping date of the deities, etc. You say that you are collecting sizeable funds from incense sale and book distribution, so I expect that you will also increase your payments to my book fund as much as possible. This will be very very pleasing to me, as I am most concerned that these books of mine be printed profusely and distributed all over the world as each book has so much potency for making persons Krsna conscious. So as Chicago is one of the largest cities in the U.S., why not see if you can be the largest contributor to my book fund, although I think that you have got some stiff competition from Los Angeles branch. But if you can beat them, that will be very first class.

I am going some time this week to Australia and shall be returning to India in March, at which time we shall hold the celebration on the appearance day of Lord Caitanya Mahaprabhu in Mayapura. So similarly in Chicago you may have very nice celebration on that day, as it is very important occasion for us Gaudiya Vaisnavas.

Hoping this meets you in good health.

My dear Amarendra das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 9, 1973, and I have noted the contents with great care. Whatever you can do to turn the minds of the people towards Krsna Consciousness, that is very much appreciated by me. You are intelligent boy. In consultation with your Godbrothers you can decide how to effectively run the campaign. I want to turn over now the management to my disciples as I am desiring to devote my time now simply for translating the books like Srimad-Bhagavatam. So if you study my books very carefully, then I am sure you will find out the means for applying this Krsna Consciousness philosophy in all spheres of life. There is no limitation. Simply it requires a little common sense practicality. The main point is that Krsna is the center of all activities, whatever is going on. Whatever the activity may be, if Krsna is the center, that is all right. The details simply require a little common sense. So you are there in Dallas, and you have al the details of the situation. So now, with the help of your Godbrothers there, you decide exactly how to execute the thing. After all, the result is given by Krsna. So the main point is simply to execute everything with complete sincerity and enthusiasm, without deviating from the principles that I have given you in my books. So I have seen the news clippings and they are very nice. Now you go on making more and more propaganda for informing people of this philosophy of Krsna Consciousness. If we push this propaganda very strongly and at the same time remain completely pure by following all of the regulative principles very strictly, by chanting sixteen rounds, reading the books, attending mangala aratrika, etc., then everything will be all right.

Hope this finds you in the best of health.

My dear Danavir das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 14, 1972, and I have noted the contents with care.

It is very nice that you are desiring to assist me in preaching the message of Lord Caitanya all over the world. We need so many preachers to push on this Krsna Consciousness movement and expand our activities. So you continue your engagements and when I come to Los Angeles it will be opportune time for discussion of this matter. For taking sannyasa you may consult your GBC member as we shall be starting a new policy where the sannyasa candidate must meet certain requirements to be determined by the GBC. Karandhara may write to Satsvarupa Maharaja for understanding this matter. This taking of sannyasa should not be a whimsical proposition, and should not be an excuse for becoming irresponsible, no responsibility of grhastha, brahmacari, etc. Sannyasis also have great responsibility to become fearless preachers of our Krsna Consciousness movement. So you consider all these things, and I shall see you and we can discuss further in Los Angeles.

I hope this finds you well.

My Dear Kurusrestha,

Please accept my blessings. I am in due receipt of your letter dated January 16th, and have noted the contents carefully. I can see that Lord Caitanya is giving you good intelligence to carry on in this way and infiltrate all facets of society with the sublime process of Krishna Consciousness, for this is the only way that you can save these rascals. Regarding your progams for specialized public relations department as far as my experiences go, I have seen that this is not very successful, but you may consult Karandhara in this regard and do the needful.

Second initiations of Sudarsani dasi and Madhurya-lilananda dasi are duly approved by me. Enclosed you will find the Gayatri Mantra slips. You may have one fire ceremony and they may listen to the tape of me chanting the Gayatri Mantra in their right ear and repeat it. Regarding the first initiations, they are also approved by me and their names are as follows. Dan Swanson is now Dvijati Pujaka das, Christopher Beard is now Carucandra das, Phillip West is now Prabala das and Rebecca Strowger is now Rupa Ramesvari dasi. Will you please send one copy of this letter to Kirtanananda Swami along with their beads of the aspiring devotees for I have authorized him to chant on the beads on my behalf.

In all your real estate dealings you may please take all guidance from Karandhara and proceed very cautiously. Always chanting sixteen rounds daily and following the principles, and in this way maya will never touch you. I hope that this meets you in good health.

Letter to: Tamala Krsna, Jayapataka, Bhavananda, Gargamuni

-

Melbourne 10 February, 1973
73-02-10
My Dear Tamala Krishna, Jayapataka, Bhavananda and Gargamuni,

Please accept my blessings. While travelling here to Melbourne I was thinking how wonderful our Mayapur project is and how it can be developed in the future. I want that Mayapur be self-sufficient by having its own production of grains, vegetables, fruits and milk products etc., to the extent that you will be able to feed at least 500 men daily. This will be better than trying to arrange for maintenance funds to come from outside. So we can make some scheme for purchasing sufficient quantity of land. The land there is very fertile and if our men can manage the program then we can go ahead. The low land we can purchase at 600 rs./bigha and the high land at 800 rs./bigha. So now you all make inquiries for purchasing as much land as we shall require and immediately inform me how much money shall be required.

One thing to consider before we take any action is that if we buy lots of land, the government may become envious to feed so many men without them working etc. and the communists there are notorious for confiscating property. So I am concerned that if we develop this scheme the government may take some action against us. If you can develop an educational institution, that may help to pacify them.

I shall be in Sydney until the 18th, and shall then be going to New Zealand and Indonesia. I shall return to India during the first week of March. Hoping this finds you all well.

Melbourne 10 February, 1973
73-02-10
Dear Karandhara,

Please accept my blessings. I have received your letter of 1/24/73 concerning polygamy and feel that this policy must be strictly prohibited within our society. If it is not it shall only cause chaos, as what was possible under the system of pure Vedic Culture is impossible at the present time.

Regarding Syamasundara's opinions I never approved those ideas should be circulated. If anyone strictly follows the regulative principles of Krishna Consciousness then he will always remain enthusiastic and dynamic. So if there are any defects within our Society it is only symptom that the instructions of the Spiritual Master are being neglected. Follow my instructions strictly and always think for giving this gift of Krishna Consciousness wherever you go and to whomever you meet, this is the advice of Lord Caitanya.

So you GBC men now decide how to manage things so nicely so that I may spend my time solely for translating my books. This I desire. Each GBC man can act as my secretary for one month at a time as I originally planned. In this way you will all be trained up nicely. Syamasundara. Prabhu will returning to London in order to get that building.

Your suggestions about marriage are very nice. Marriage is a great responsibility and should not be taken lightly.

I shall be in Sydney until the 18th, and shall be returning to India by the first week of March after visiting New Zealand and Indonesia. As Sudama Maharaja has indicated his desire to remain in U.S. Japan may be included in your GBC zone for the present. I hope this finds you well.

My Dear Satsvarupa,

Please accept my blessings. I am in due receipt of your letter dated January 22nd, and 23rd and have noted the contents carefully. I am very much encouraged that you are taking this program of preaching to the college students seriously and this is very important program. Regarding your various questions. First let us understand that polygamy cannot be permitted in our society. Legally it is impossible and neither are there many of our devotees who are prepared to assume the responsibility for many wives. Therefore as I have suggested previously as they do in Christian religion they have so many convent where the women stay and they receive protection. The point is that the women must be protected and it is the duties of the leaders of our society to see that this is carried out.

Your program for those who are desiring to take sannyasa is approved by me and I request that you make something concrete and distribute it to all the other GBC members and amongst yourselves you may decide who will take sannyasa.

Your question in regard to marriage, we must impress upon the parties involved that Krishna Conscious marriage is not some cheap thing that may be embraced whimsically and at any time thrown off. The boy and girl must be willing to accept each other for life and be prepared to get a job if need be and live in an outside apartment and raise children. These points should be emphasized.

Regarding your preaching to individuals, you must use your discretion in this regard. But one thing. Those who come to learn must admit that they do not know who they are, or do they know who is God, and they must be prepared to take to this process. If I go to the physician and ask him will you please tell me all about medicine and I will write it down is that possible? No. You must take to the process. You must enter the medical school, take your internship and do so many things. Like this if you want spiritual knowledge you must take to the process and follow the principles. So therefore if you are spending so much time with individuals they must first admit that they do not know who they are and they do not know who is God. These two things are completely lacking in modern educational systems. And then after admitting these things they must be willing to take to the process. Then they can obtain spiritual knowledge.

As far as staying in some boys apartment, this is permissable if everyone in the house agrees to follow the principles while you are there. That is no smoking, no drinking, etc. You may also install a small altar there with a picture of Guru and Gauranga and the Spiritual Masters there and perform mangala arati every morning and hold classes etc. Under these circumstances you can live in others apartments. The point is we must not lower our position but we must educate others to come up to our standards. Regarding your writing, you must know that it is the duty of sannyasa to write always to save the cripple minded man and women. In fact sannyasa must do everything. I hope this meets you in good health.

My Dear Guru Gauranga,

Please accept my blessings. I am in due receipt of you letter dated January 24th, and have noted the contents carefully. I am very much encouraged to hear of your increased Sankirtana movement and your return to Geneva to open up still another chapter in Lord Caitanya's conquest of the world. You may consult closely with Bhagavan das on all matters and he will give you good advice in this regard. As far as police problems are concerned, this is going on all over the world, especially here in Melbourne, they are being persecuted by the police. Even they are going to jail daily, but still they will not stop their chanting and distributing. When they go to jail, they refuse to eat the food, and in this way so much public sympathy is there. So eventually the police will accept us and our Sankirtana activities will go on unchecked. Simply we must have the determination to continue our preaching work under all circumstances.

The initiation of Bhakta Olaf das is duly approved by me and his new name is Asok Kumar. You may also have him send his beads along with a cover letter from you to Rebatinandan Swami, who is in London and has been authorized by me to chant on the beads. I hope this finds you in good health.

My Dear Tosana,

Please accept my blessings. I am in due receipt of your letter dated January 25th. and have noted the contents carefully. Your dedication to Srimati Tulasi-devi is very laudable and I am sure that if you consult with Karandhara das he will give you all assistance to help make your dream come true. But carving tulasi beads should not be your sole occupation. You should also go out for street sankirtana and distribute my literature for the cripple minded masses, and whatever spare time you have you can carve some tulasi beads for me to sanctify. But whatever you do should be done with wholehearted enthusiasm and strict adherence to the principles of chanting 16 rounds, rising for mangala arati, following the four basic principles, always remaining clean etc. You may consult with Karandhara das and request him to approve your second initiation. I hope this meets you in good health.

My Dear Ramesvara,

Please accept my blessings. I am in due receipt of your letter dated February 5th. and I have noted the contents carefully. I am very much pleased to hear of your increased book distribution and it gives me great pleasure to hear of your increased eagerness to distribute my literature. Through the distribution of this literature, we can completely annihilate all the bogus yogi groups in the world. Of this fact I am sure. Therefore there is no need for us to directly attack these charlatans but simply by this distribution of books the sunlight of Krishna consciousness will prevail. It has been brought to my attention that some of my students are not studying. I do not know if this applies to you or the devotees under your care, but I must stress again that we must have our classes one hour in the morning and one hour in the evening and the devotees must also chant regularly their sixteen rounds and follow the principles. The rest of the time they may go on distribution of my books. So I hope you will do the needful in this regard. Still again I must express my appreciation for Sriman Tripurari Prabhu's outstanding service, as well as all the devotees in your party. So my request to you is to go on in this way with more enthusiasm. This is the key. Always remain enthusiastic and inspire others and your life will be glorious and at the end you are sure to go back to Home, back to Godhead. I hope this finds you in good health.

Letter to: Rupanuga

-

Sydney 14 February, 1973

73-02-14

My Dear Rupanuga,

Please accept my blessings. I am in receipt of your letter dated 31/1/73. After conferring with my various GBC representatives I have concluded that polygamy must be strictly prohibited in our society. Although it is a Vedic institution still there are so many legal implications. Neither are many of our men fixed up enough to tend for more than one wife. Polygamy will simply increase the sex life and our philosophy is to gradually decrease the sex life till eventually there is no sex life. The policy should be that all the women are given the utmost protection. Women are looking for husbands because they feel unprotected so it is up to the senior members to give all protection to the women.

Regarding our sankirtana party members dressing up as hippies in order to increase book distribution this is not a very good plan. I am instructing Bali Mardan Maharaja that this should be stopped, that we should not give anyone cause to call us hippies, but the devotees can dress up in respectable clothes like ladies and gentlemen in order to distribute my literatures under special circumstances, but even this program should not become widespread. It should only go on under the supervision of Bali Mardan Goswami and Karandhara das.

Wherever there are individuals there is bound to be difference of opinion. Therefore for this purpose I have formulated the GBC. Therefore any new programs or proposals or discrepancies should be submitted before the Governing Board Commission and then their conclusion should be submitted to me for the final approval. In other words I am requesting you as my senior men not to tax my brain with so many details but simply come to a conclusion amongst yourselves and then present this final conclusion for my sanction. In this way I will be free to concentrate on my translation of Srimad-Bhagavatam.

I have the information of a few cases of illicit sex in our society but this is not an overall thing. And whether it is or not, the only cure is Hari Nama. You simply be engaged in chanting all day and serving Krishna and any time there is no service, simply chant Hare Krishna. Then there is no chance for illicit sex.

As far as studying my books is concerned, I have already given the order. One hour in the morning class and one hour in the evening and if there is extra time during the day it may be used for studying but we cannot expect everyone to be studious. If someone has desired to distribute books all day he may do this, but he must always follow the principles of rising early, chanting 16 rounds, etc. Just as some rich men have no inclination for studying, but still he opens many schools for others to study at. Like this, all of my students may not be inclined to study but they are very much eager to give others the opportunity to read my books and this should not be discouraged. All programs must go on but it is a fact that this book distribution program is very very important. It is real preaching work but I think this program for T.V. and radio is not so important. There are so many T.V. programs. Someone will see us on T.V. and then right after they will see some other nonsense and they will forget. Therefore it is better for them to read my books but I think your proposal for seriously organizing the college programs is first class. If this program is conducted in the proper fashion it can be our biggest book distribution outlet, I am convinced of this. You are advanced devotee and you should use your intelligence to convince the professors that they should use my books in the colleges. This will be the greatest service.

Regarding your question about taking Gaura-Nitai Deities with you on travelling Kirtana, this is not so important. When Caitanya Mahaprabhu was touring India He did not bring His Deity with Him. But if you can make proper arrangement then you may take them, but if you say you have no Brahmins then I think for the time being you may postpone this program.

I will be returning to Calcutta from my preaching tour in Australasia by the 2nd. of March and therefore I am requesting that you come to Calcutta no later than this date in order to travel with me and be my secretary for one month. If there is any difficulty in this would you please write to me at Auckland, New Zealand for I will be arriving there on the 19th of February. I hope this finds you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. I am in due receipt of your most recent letter and I can see if the T.V. agrees to endorse our books and show them on T.V., this is a good program and it must be continued.

My Dear Satsvarupa,

Please accept my blessings. I am in due receipt of your letter dated nil and I have noted the contents carefully. I am very pleased to hear of your determination in spreading this Krishna Consciousness philosophy on all these campuses. This is a very important program. Right from the beginning of my mission, I have always stressed and encouraged my disciples to work with the college students. You should not be discouraged if people are not coming to your meetings. We are trying to please Krishna. That is all. We simply must go on with our business, to the best of our ability. We must always sincerely try to do our best with great determination. This is the transcendental position. Success or failure, this is not our business. We leave that up to Krishna. My Guru Maharaja said, it does not matter if anyone comes to hear. You go on with your chanting. If no-one hears you the walls will hear. But this does not mean that we should sit down someplace and simply chant Hare Krishna for our own benefit. We should be always anxious to save the cripple minded people with the science of Krishna Consciousness. This is the position of a Vaisnava. One disciple of Caitanya Mahaprabhu, Vasudeva Datta prayed to Lord Caitanya, please Caitanya Mahaprabhu, take all these people back to Home, back to Godhead and I will suffer for their sins. Like this, this is the attitude of a pure Vaisnava. Actually the true Vaisnava, he is the only true humanitarian in the world today, for he is interested in the well-being of all living entities. So you will continue on and consult with Karandhara and the other GBC men and formulate some program to preach this Krishna Consciousness in the colleges and this will please me very much. I am approving of the initiation of John Favors who is now to be called GHANASYAMA DASA. From your description he is to be a very nice and intelligent boy so please train him up properly. You may send his beads on to Kirtanananda Maharaja for chanting. I hope this meets you in good health.

My Dear Sudama,

Please accept my blessings. I am in due receipt of your letter of 6/2. and I am very much joyful to hear that you are enjoying you preaching activities there in America. Actually this is our real business, preaching, chanting, distributing prasadam and book distribution. This book distribution is especially an important program and it is first class preaching work. So I encourage you to work with all the senior men there in America and encourage them to distribute more and more of this transcendental literature.

As far as your attachment for tending the Deities is concerned by no means this can be considered material attachment, but this is our real desireless state to be always engaged twenty four hours in the service of the Lord. But if the facility for serving the Deities is not there, then we should not be discouraged. This is real detachment. When Caitanya Mahaprabhu was touring all over India He did not bring the Deities with Him. So in our travelling and preaching, Deity worship is not essential but if it is done nicely it can be a very attractive aspect of our preaching work.

After consulting with the GBC I have decided that the far east zone can be managed by Karandhara das for he already has extensive dealing with Dai Nippon etc. So he may look after this area for the time being and in the future we will see what happens.

So now I am seeing more and more that my senior disciples must take and active role in continuing the high standard of purity which has been established in our Vaisnava line. In your travelling from centre to centre, you must be very careful to see that the leaders are observing the principles of chanting 16 rounds, rising early for Mangala Arati, participating in the morning and evening classes, observing the four regulative principles etc., and if there is any deviation from this standard then it is the responsibility of you and the local GBC representative to rectify it immediately. Within these Vaisnava standards which I have put forward lies the spiritual strength of our movement. So you may please do the needful in this regard. I shall be returning to the U.S. in April and I will be looking forward to seeing you at that time. I hope this finds you in good health.

My Dear Govinda dasi,

Please accept my blessings. I am in due receipt of your letter dated January 31st. and I have noted the contents carefully. I thank you very much for sending me the nice monogrammed shirts and I am wearing them daily. I am thinking of you and your husband and of the nice devotional service you are performing and I pray that Krishna will give you more and more intelligence to continue in this way.

You are the pioneer of pushing forward Tulasi worship in the Western world and I can understand that proportionally as your Tulasi plants are growing, your devotion and love is also growing. Please continue in this way.

I am glad to hear that you are opening another workshop in Kauai for the manufacturing of the Gaura-Nitai Deities and this is a very great service to our society and devotees. But one thing. You should always inform me before sending the Deities to the Temples. We cannot send them indiscriminately to anyone who has the whim of worshiping the Deities. We must be very very careful as to not commit offenses in worshiping the Deities, so therefore there must be sufficient facilities and Brahmins to worship the Deity.

Here in Australia, everything is going on very nicely and we will be travelling to New Zealand on the 19th of February where Tusta Krishna and Siddha Svarupa das Goswami are preparing a one week lecture tour and then I will be returning to India and again back to America by April, and at this time I will be pleased to see you again. I hope this finds you in good health.

My Dear Hamsaduta

Please accept my blessings. While in India last it was brought to my attention that our Sriman Hayagriva das has become deviated from the four basic principles which I have given to all my students for adherence to when they are first initiated. I do not know why he is living in such a way but I feel that he must be brought back to the standard immediately. So I am requesting you as my Governing Board Commissioners to help me bring him back to the standard. He has very good talent, but he is spending it by living such an unrestricted life.

Therefore, in the meantime, there must be another co-editor of Back to Godhead magazine to replace him. I have discussed this with Madhudvisa Maharaja here in Australia and he has suggested that Hrdayananda das Goswami could be a good man for the job.

I have not made any decision, but I would like you to discuss this amongst yourselves and send me your conclusion. I cannot stress this point enough that we must handle this publication of Back to Godhead very nicely for it is one of the most important aspects of our society. So you will please do the needful in this regard and please contact me soon.

I will be in Auckland up to the 25th. of February and in Calcutta after the 2nd. of March. I hope this finds you in good health.

Vrindaban

My dear Gurudasa,

Please accept my blessings. I am in due receipt of your letter dated February 6th. and have noted the contents carefully. My heart has become very joyful upon seeing the progress in Vrindaban construction. When this Vrindaban Temple is completed, it will be a great boon to our Krishna Consciousness Movement and devotees from all over the world will come to see Krishna and Balarama. I am very pleased also to see that you are keeping such an orderly account, and as far as further financing is concerned I have arranged with Karandhara das, and he is sending 5000 copies of Bhagavad-gita As It Is to India, and Karatieya Mahadevia in Bombay, one of our life members, has agreed to distribute 3000 of these Gitas at no less than 50 rupees apiece. So that is one and a half lacs and I am sending one letter to Karatieya informing him that all money collected for these Gitas should be sent on to you in Vrindaban and it is up to you along with the other GBC men in India to arrange the sale of the balance of these 2000 Bhagavad-Gitas and I think this will provide the necessary finances. I will be travelling here in Australasia for a few weeks then I will be returning to Calcutta by March 2nd. So when I return to India we may discuss this matter in more detail. But in the meantime you should work with the senior men there in India to get some concrete plan to finance this program. I have sent you the books and it is up to you to devise a program for distribution.

You may also discuss together the question of whether a pandal program in Delhi will detract from our collection of funds for the Vrindaban program. I do not think this will be the case, but it seems the collection field will increase with the pandal program. But you please discuss it with the senior men there in India, and then you may send me your joint decision for approval. I hope this meets you in good health.

My Dear Kirtanananda,

Please accept my blessings. I am in due receipt of your letter dated January 20th. and February first along with your enclosed plans of the Radha Govindaji Temple in New Vrindaban. From these plans everything seems to be in order except the domes are making the temple look like a mosque. Therefore you please eliminate these domes and consult the Mayapur plan which can be obtained by writing Calcutta for design of the domes. The Deities should be facing East. If you are laying the foundation stone to this temple there is a ceremony which you can observe. First you may have one fire ceremony with four Brahmins surrounding the fire, reading from Bhagavad-gita, Nectar of Devotion, Srimad-Bhagavatam and Teachings of Lord Caitanya. This reading should go on during the entire ceremony. You may also dig one pit about 15 feet deep and have one golden Ananta form prepared, about two inches, put at the bottom of the pit. All during this, Kirtana should be going on. And then five types of various items should be placed in the pit, 5 types of jewels, 5 types of metals, 5 types of fruit, 5 types of grains, 5 types of amrta, like this different panca. These all should be carried down the ladder by the various Brahmins, and as they put each one at the bottom of the pit, the various fruits, flowers, etc. all of the Brahmins should one by one climb to the bottom of the pit and make their offering and chant the first verse of Gayatri Mantra. After this, you may lay some bricks down on top of everything and then begin to fill up the pit with dirt again. When the pit is filled up with dirt again you may put one foundation stone on top of the pit and this pit should be located at the exact corner of the Temple building. The idea of this is that the entire building will be resting on the hoods of the Ananta snake, and this is very auspicious. After this program you may have several days of Kirtana and feasting.

The arrangement for chanting on the beads is that when I send a letter to the respective individuals with their new names, they may send a copy of that letter on to you, and on receipt of this letter you may chant on their beads.

I am here in Australia now and things are going very well. I will be returning to India by the beginning of March and then to America by mid-April and I look forward to seeing you again then. I hope this finds you in good health.

My dear Nityananda,

Please accept my blessings. I am in due receipt of your letter dated February 5th. with the enclosed daksine and I thank you for the same. Again I am feeling overjoyed at hearing of your increased distribution program and I request that you increase more and more. There can be no limit to our distribution because Krishna is unlimited therefore devotional service to Krishna is also unlimited, so you may instruct the devotees there about this.

Regarding your proposal for having Ratha Yatra in New Orleans I request that you consult with the GBC in your zone, Satsvarupa das Goswami and ask him to discuss this matter with the other GBC men there in America. But one thing is very important. If you decide to do it, then you must do it very opulently, as they are doing in San Francisco. This is very important.

I am approving of the first initiation of Debra Hillard. However it is not our policy to give first and second initiations at once. It is better she wait some time. Her new name will be DEBRAJA DASI and also I am agreeing to the second initiation of Shanti dasi. Now you please arrange it so that the Deities are worshiped very very properly and always remain humble in their presence.

I am here in Australia and everything is going nicely. I will be returning to India by March 2nd. and then to America by mid-April and I look forward to seeing you again. I hope this finds you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. You may hold one fire ceremony and Shanti dasi may listen to the Gayatri tape in her right ear. Enclosed please find one Gayatri slip for her.

My dear Bhaktin Toni,

Please accept my blessings. I am in due receipt of your letter dated February 1st. with the nice pictures of the Sri Sri Radha-Kalacandji Deities in ISKCON Gurukula. I am very much pleased that the Deities are worshiped so nicely and as this continues, the children there will become more and more purified. These children in Gurukula are the most fortunate children in the world, because right from the beginning they are having the association of Radha and Krishna. This was the case in my childhood also. My father was pure Vaisnava and he gave me and my sister the Radha Krishna Deities to worship and in this way we were trained. And still to this very day my sister is worshiping these very same Deities in Calcutta. So like this the children must be trained.

I can understand from your letter that you are beginning to appreciate the Krishna Consciousness Movement and I encourage you to join wholeheartedly and fully in the service of Lord Sri Krishna for this will be the most glorious thing in your life. You may consult with Karandhara das and he will give you more guidance as to how you can engage yourself fully in the service of the Lord. I hope this finds you in good health.

My dear Kirtika devi dasi,

Please accept my blessings. I am in due receipt of your letter dated January 5th and have noted the contents carefully. Regarding your questions. If your prayers are sincere then Krishna will accept them and if Krishna accepts them then automatically I accept them, and if I accept them then automatically Krishna accepts them. So like this Krishna is everywhere. He is even between the atoms. So therefore wherever you are He will accept your prayers, and therefore I automatically accept. But the most important part again, the prayer must be sincere.

The proper method of dressing Jagannatha is as a Ksatriya king and there is no limit to the opulence you can give Him. My Dear Dr. Singhal, Mr. Saraf, Dr. Poddar, Mr. Vasista and Sriman Giriraja,

Please accept my blessings. This morning Srukirti received telephonic message from Bali Mardan. It is understood that Mr. Nair is dead. So it is good news that Nrsimhadeva has killed a demon like him. Prahlada Maharaja said that even a saintly person becomes pleased when a scorpion or a snake is killed. So if it is a fact that Nair is dead it is a matter of great pleasure for all devotees.

When I left Bombay I formed a committee of you all to negotiate with Mr. Nair but I did not hear anything from you since I left. What is the position now? If possible settle with Mrs. Nair paying her cash down or Rs. 1,400,000/. Out of Rs. 1,400,000 suppose we have Rs. 500,000/ and the balance Rs. 900,00/ can be advanced by any mortgager. If it is possible try to do it. Otherwise unless Mrs. Nair pays back all our invested money in the Juhu land do not vacate the land under any circumstances. If you stick to your principles certainly Krishna will help and the indications are already there.

I hope this will find you in good health.

My Dear Karandhara,

Please accept my blessings. I am in due receipt of your letter dated 13 Feb. 1973 and have noted its contents carefully. Regarding Sriman Hayagriva Dasa; it is our duty to rectify him. To create a devotee takes much labor and to reject him in a minute is not to our credit so please try to do the needful in this regard. Consult the other GBC men there, then make a proposal to Hayagriva and if still he is incorrigible then you take the necessary steps.

It is not very good policy to move the deities once they have been installed. First thing you should try to get the authorities to reverse their classification of us as a church. Because factually we are not a church. It is true that our congregation is not increasing, simply the inmates are becoming more numerous. We should be classified as a residential temple. This is actually the case in India and it is the same case in Los Angeles. We simply have a bigger family therefore our temple is bigger. If this can be done we will not require so much space for parking and then with this added space we can gorgeously remodel the entire temple. So please try and do this but if this is not possible you may break down the rear wall and add that one room and my sitting room to the temple and my Vyasa Sana may be placed against the side wall with my left side facing the Deities and by back facing the kitchen. Then you will have almost twice as much room in the temple. But the best thing is if we can get reclassified. They have simply classified us as a church for want of any other classification.

Regarding the installation of Gaura-Nitai deities, weather it be a GBC man, president, or sannyasi it does not matter. The important thing is that he be a senior qualified man. That is the most important thing.

I'll be in Djakarta by the 25th and back in India by the 2nd of March. I hope this meets you in good health.

My Dear Mukunda,

Please accept my blessings. I am in due receipt of your letter dated 13 February 1973 and have noted its contents carefully. Your program for working with the TV personalities seems to be very nice. Even though the results are not coming so quickly, please do not be discouraged.

But one thing, you should try and get these TV personalities to show our books and advertise them over the air. This will be the real success of our endeavors with the media. I have always stressed that we must become recognized not only by the mass but also by the class. This class section of the society should be encouraged to write letters of appreciation of my books and of our activities.

Just recently Rupanuga Das Goswami has had one very successful meeting with Kenneth Keating, the American Ambassador to India and he has agreed to be our chief guest when we open our center in downtown Manhattan. I have said before, Hearing is the first step in God realization; therefore if we can simply convince these big men to hear, then gradually they will come to the point of accepting us. I shall be returning to America in the early Spring and will be looking forward to seeing you.

I hope this meets you in good health.

I don’t know why they have again made the same mistake not signing jointly, but anyway you can execute the transfer without delay. I am going to India this evening and I shall talk to them further on this matter. In the meantime you can transfer the books as they have requested.

I hope everything is going nicely in Los Angeles and I shall be glad to hear from you soon to Calcutta address.

We have four places which I have visited-Melbourne, Sydney, Auckland, and Jakarta. The preaching was very satisfactory. Sriman Amogha dasa is trying to learn the local language and print some books in the Dai Nippon branch here. So cooperate with him.

India 4 March, 1973

My Dear Trai das:

Please accept my blessings. I beg to acknowledge receipt of your nice report dated the 20th of february and I have carefully examined the contents. Your plans for increasing book distribution are very good. If so many books are being sold then very soon we will be finished the second edition. Distribution of all these books is making a firm basis for our movement.

The educated gentleman you mentioned who has now become a nice devotee should develop into a very good preacher. Your policy of encouraging his chanting is good, gradually Krsna consciousness is developed, that is natural.

That London doctor that Kesava mentioned to Rupanuga Maharaja is bogus. Depend on Krsna and consult a general doctor. Nobody can guarantee life. It is a little hellish but without Krsna nobody can be a saint or relieved from distresses.

Regarding Pyari Mohan, Ramacarya, and Nanda devi dasi taking second initiation, if you recommend, that’s alright. But now they must keep very clean and never break the regulated principles. Purity is the force and if the people in general notice that we are clean both inside and outside that is to our credit. Regarding your last question, yes, you may call Their Lordships Radha-Gopivallabha.

Now I have enclosed three sacred threads duly chanted by me. In Rupanuga Maharaja’s absence, you may obtain a tape and instructions from Bali Mardan Maharaja in New York and hold one fire sacrifice.

Hoping this letter meets you in good health.

Your ever well-wisher. A.C. Bhaktivedanta Swami

Letter to: Bhakta dasa

My Dear Bhakta das:

Please accept my blessings. I beg to acknowledge receipt of your encouraging letter dated the 20th February. Just yesterday I have arrived here in Calcutta, and by the end of the week expect to go to Mayapur where are having a grand celebration on the Appearance Day of Lord Caitanya Mahaprabhu.

Yes, you have my sanction for installing the new Deities with the cooperation of Karandhara and/or Sudama Maharaja (I think he is there on the West coast). They know how to do it. The more you can decorate the Deities soberly, not fanatically, the more you become decorated with all honors. At the present moment, civilized man has forgotten how to decorate, therefore this mini-skirt-the business of the trees-to remain naked. Human being means to be decorated, like Krsna is decorated, not naked.

You say that you have eight brahmanas, that is very good, now engage all of them so that everyone becomes expert. By nicely worshiping the Deities we can be so pure in condition of health, mind and intelligence. Yes, all blessings of Krsna upon Saranam dasi, for her loyal book distribution. I am very pleased, and you can give both her and Satyaki dasi second initiation. So now you can have ten brahmanas, yes? I have also received your $100.00 daksina and I thank you very much for it.

Regarding Nanda Kumar, try to help him. He is a good boy and he will come out again very nicely. But he must marry that girl, we cannot play with sex-life, that is not our business. If he shows he is faithful for three months, then he again can take care of Radha-Krsna.

Your book distribution, that is very nice. Our books are unique, all this distribution means that they are being appreciated. There is no such literature throughout the whole world.

Now keep yourself pure and Krsna will help you. Krsna has become merciful upon you. I am only the agent. He has special favor upon Americans, so tell your countrymen to take advantage and spread our teaching all over the world. I hope this meets you in good health. Hare Krsna.

My dear Sukadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter dated the 15th February and have examined the contents with care. By your good recommendation I am pleased to accept Leroy Howes and David Joy as my initiated disciples. Their new names are: Paramatmananda Dasa and Pavaka Dasa. To save time and money, kindly forward two sets of japa beads to Kirtanananda Swami in New Vrndavana for the proper chanting, and then you may perform the fire sacrifice. Now they must always follow the regulated principles, such as 16 rounds at least each day, attending Mangala Arati, etc. and gradually they will come to the stage of spontaneously loving Krsna.

You also have my permission for the second initiation of Sikhandi dasi and you can obtain an initiation tape and instructions from Karandhar in Los Angeles. Now, keeping very clean, she must never break the regulated principles.

A pure devotee always thinks himself as not-devotee. That is a good attitude. If one thinks he is big devotee that is not good, thinking that he is first degree. We should not be puffed up, a devotee avoids it, remaining always in the second degree. A dog is a faithful servant. To become lowest dog is to become on the highest platform of service. Krsna has given everyone something extraordinary and to serve Krsna with one's extraordinary talent means successful life.

I hope this meets you in good health. Hare Krsna.

My Dear Sriman Hariprasada Badruka:

Please accept my blessings. I beg to acknowledge receipt of your letter dated the 27th February. I just arrived here the day before yesterday and I am glad to receive your Hyderabad progress report. The Deities mentioned are too expensive. Of course, we cannot collect money without Deity worship. Without Deity worship there is no life, and there must be preaching also.

But the thing is, without Indian devotees rural preaching cannot be effective. They are mostly illiterate, how they will understand? We must avoid the risk of a separatist movement, unity is our purpose; just like in London where the Indians are starting their own Hindu Radha-Krsna Temple. We want to avoid skin disease and the Indian people are like the tannery expert. Such a cobbler is expert at skin disease. They will see our Sankirtana Party and think it is a white dance. Anyway, how to gather Indian devotees, that program is wanting.

I shall be going to Mayapur by the 15th, remaining there up to the 22nd. I hope to see you soon and I hope this meets you and your family members in good health. Hare Krsna.

Please accept my blessings and I beg to acknowledge receipt of your unsigned report dated the 18th of February. I have just arrived here a few days ago and by the 15th I shall go to Mayapur on the festival celebration of Lord Caitanya's Appearance Day. We are expecting many thousands to visit there and our nice building is almost completed.

Yes, your appointment as the new president of the Miami Temple is completely approved by me, now take advantage and preach among all the young people there and recruit some good men. For some time now I have been thinking to have a nice place in Florida and now it looks like you are trying for it.

As far as the Deities are concerned, we do not want to repeat the same mistake again, so it is better that you wait to get some more brahmanas before installing Them again. For worshiping the banyan tree, the representation of Krsna, simply offer a little flower, incense and water. Of course, now I am trying to get more valuable time for my translating of Bhagavatam, so you may consult in these matters with Rupanuga Maharaja, your GBC representative.

Yes, you are feeling increase in strength with increase in service, and I am not the actual bestower of mercy, rather I am just a messenger for Lord Caitanya Mahaprabhu. So just work hard for Lord Caitanya Mahaprabhu and His mercy will fall upon you like torrents of rain in the monsoon season.

Please accept my blessings and I beg to acknowledge receipt of your letter dated the 10th of February. There has been some delay in replying because of my travels. I have just arrived here a few days ago and by the 15th I shall be going to Mayapur.

Yes, I should not travel so extensively any more if I am to finish my work on the Bhagavatam. So I am turning over all the management to the GBC and the presidents.

Your program for printing our literature is very encouraging to me because that is our major effort for pushing on this movement, so kindly distribute these literatures far and wide as possible.

The marriage of Hari Kripa with the African girl is alright with me if you and Brahmananda Maharaja agree in the matter, these kinds of decisions I am leaving up to you to make in the future.

I am very glad to hear that the film "Hare Rama" was defeated there, it is Krsna's grace. This man is a very bad man for our movement's sake, that movie is a great insulting to us. I think there was bribe by the government who does not want this movement. Anyway, the dogs may bark but the caravan passes.

My Dear Kirtanananda Maharaja:

Please accept my blessings. Thank you very much for for your letter dated the 3rd of March 1973 along with your kind daksina $200 check. Thank you very much, I have received your pamphlet inviting to participate in New Vrndavana activities. It is an excellent pamphlet nicely set up, but I am sorry to inform you that your co-founder Hayagriva Prabhu is little disturbed. Sometimes before you told about him participating in intoxication. Then I did not take it seriously, but the same thing is again revived and I am little perturbed. So is it possible to save him from this dangerous position? His is important man in our Society and we cannot allow him to deviate from our principles. Please try to save him.

I heard before that Birbadra is under your control, is that a fact? Hayagriva told me is under your control.

I shall secure gold Sesa and carry with me for the foundation and most propably while returning to L.A. through New York at that time if the ceremony is being held I shall attend. It will be a pleasure for me. Your vision of 7 Temples on 7 hills is very encouraging. May Krsna fulfill your transcendental desires. The graphic drawings of the Temples are very saris factory and the devotees working together is very encouraging. May Krsna help you in your noble endeavor to come out successful in the project of New Vrndavana. Your Krsna is most beautiful, just like an attractive boy. I hope this meets you in good health.

My Dear Bali-mardana Maharaja:

Please accept my blessings and I beg to acknowledge receipt of your letter, with newspaper clipping, dated nil.

I can understand that actually Hayagriva was not involved directly in the management of Back to Godhead and that whatever arrangement you already have there is sufficient. Meanwhile Hayagriva can be encouraged to continue his literary contribution of articles, editing of the smaller books, etc. We shall see what he can do, and if at all possible he should be brought back to the standard. In this connection I have written his wife, Kirtanananda Swami, and the GBC members. Thus far I have received no reply regarding Madhudvisa's suggestion about Hrdayananda from the GBC members.

You have been to India so you know the importance of the life membership program here, so I am requesting that you personally attend to some items needed here for the preaching work in that connection. Rupanuga is writing the specifics to you under separate cover.

I have received from Kirtiraja the specifics and plans of your proposed building, the Columbia Club property, and it is ideal for all of our purposes so I am anxious to hear of any progress in securing it.

I am approving of second initiation for Hari-puja dasi as you requested.

My plans are to go to Mayapur as soon as they have finished my quarters and to remain there until the 22nd.

Thank you very much for the mostly favorable newspaper article and I hope this meets you in good mood.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Dr. Aggarwal,

Please accept my blessings. I beg to acknowledge receipt of your letter dated Feb. 25, and I have examined the contents carefully. Thanks very much for the poem.

I am very pleased to hear that you are regularly visiting our Washington Temple, and seeing our Damodara Prabhu and the others.

Actually one can be perfectly Krishna-Conscious without being literate. Education is not necessary. Simply it is required to accept the fact, that we are the eternal servants of Krishna, and engage in some tangible service. Otherwise, there are so many convincing arguments, i.e. the Bhagavad-Gita, to bring us to the right point of surrender. Even the Karma-Kanda, and Jnana-Kanda, sections of the Vedas are designed to bring to the proper Sidhanta, conclusion. And that conclusion is made by Krishna in the Gita, that one who knows the purpose behind the Vedas, surrenders unto Him.

Four things can be surrendered:-Our life, our words, our intelligence, and our money. So just try to gradually engage these things in Krishna's Service. One thing you can enquire from Damodara, is about our Life-Membership-Program. Here in India we have now over 2000 members, including may prominent men.

You are a learned gentleman, a medical doctor, so kindly apply your determination, to understand this Krishna-Conscious movement, and I am confident that Krishna will bless you more and more. Kindly just read our books, and help us as you are able.

I am going to Maya-Pur by the 15th, for the celebration of Lord Caitanya Mahaprabhu's Appearance Day, and the opening of our new centre there.

Meanwhile I hope this meets you in good health.

My dear Turya dasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated the 29th January 1973 and I have examined the contents carefully. Your project for a Temple sounds all right to me, and even if you don't get that particular building, Radha-Krsna Deities are approved for the present Temple. Of course, I want that you can work out all these kinds of details with Karandhara, your GBC secretary.

Yes, the name Gokulananda for your new son is approved by me, now raise this Sankirtana man up very carefully in Krsna consciousness. Now you can be an ideal householder and one of our Society's leaders, so kindly follow the regulated principles strictly.

I hope this meets you in good health.

My Dear Vijitatma:

Please accept my blessings. I have received your $100.00 daksina and I thank you very much for it.

Actually, everyone is trying to enjoy Laksmi without Narayana. Ultimately, the Mayavadi is envious of Krsna and wants to enjoy the original Laksmi, therefore they call each other "namo Narayana", they sit around and address each other as Narayana. This is the greatest offense, and they are actually unfortunate because they do not engage in devotional service. The Goddess of Fortune Laksmi is fickle towards the materialist, sometimes he is prince and sometimes he is pauper. But Laksmi cannot leave the side of Lord Narayana and wherever Lord Narayana is worshiped with care, good fortune and opulence is there. Therefore, the devotee is known as the most fortunate, and you American boys and girls are the most fortunate of all, now make everyone else fortunate by spreading this Krsna consciousness.

I hope this meets you in good health.

My Dear Bhumata dasi:

Please accept my blessings. I beg to acknowledge receipt of your letter dated March 2, 1973. I have examined the contents carefully and I think you are doing nice.

Because we are all individuals sometimes there is disagreement between devotees. When non-devotees quarrel they cannot stop and end up killing each other. But the devotees' disagreement does not last long because they patch it up for Krsna's sake, because they are all working for the same end-Krsna's service.

And devotees do not suffer from skin disease, black or white or brown or red or whatever. In the material world black and white are opposites, but spiritually black and white are varieties. That is the proper vision.

Now you can consult my Governing Body Commission for advice in your situation. I have no objection to your establishing a center there in Nashville, but these matters I am leaving up to my GBC. The GBC representative for your area is Rupanuga das Goswami who is presently here with me as my secretary for one month. He will be returning to the USA by the first week in April to New York City and I think you can leave a message for him there where he can reach you and he can see you personally in the matter. In the meantime you can make arrangements again with Atlanta for more literature making the proper arrangement for payment also.

I hope this meets you in good health and high spirits. Hare Krsna.

My Dear Jagadisa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated March 1, 1973 and I have carefully examined the contents.

Actually, Hayagriva was not doing any managing or editing of BTG except for his own articles. More importantly he was engaged in working on our books, producing those smaller paperback booklets, etc. Such a talent is not so easily replaced, so we must try to bring him back to the standard for his own benefit. In this connection, I have written his wife, Kirtanananda Maharaja, and the GBC to see what they can do for him.

Now I think that you can join me as the next GBC secretary for travelling with me by my side. If I go to New York in the first week of April you can meet me there, or if I go to South Africa you can meet me first here in India. What do you think? If there is some difficulty kindly let me know immediately.

I hope this meets you in good health and transcendental mood.

Gaura Nitai Deities may be approved and ordered by the local Temple presidents with consultation of the GBC. There should be at least three or four brahmanas available. So there is no need to delay any shipments if these qualifications are met.

I have seen the little booklet of the lecture by your good husband, but I have not been able to read it yet, but especially I like the comparison between nirvisesavad and savisesavad, the difference is shocking.

I hope this meets you in good health and spirits.

My Dear Jayatirtha,

Please accept my blessings. I beg to acknowledge of your letter dated March 7th.

Yes, you may perform the marriages in the Temple room, but after the legal marriage has lasted at least 6 months to a year. Then we can know they are faithful and serious. Yes, I will be glad to attend an engagement in a hall filled with 4,000 people, but I cannot fix a date for my arrival in L.A. at this moment. By the 16th I shall be going to Mayapur and then on the 22nd to Hyderabad until the 26th to Bombay. After that my program is not presently fixed up.

Yes, because you have recommended them I accept all of the devotees for first and second initiations. The sacred threads will be coming under separate cover; for the others, their new names are listed below.

Larry - Laksmana das. Nancy - Rasaparayani dasi Harold - Hasyayuk das Arlene - Kirtida Kanyaka. Billy - Banamali das Gerry - Rasapurnada dasi. Roy - Ramlal das Theresa -Tarani dasi. Jim - Kuvera das Ronda - Revati dasi. Bay - Bahloka das Cheryl-Saranagata dasi. Mike - Mahajana das Cindy - Bhagavacittarupini dasi.

My dear Karandhara:

Please accept my blessings. I have received your two letters dated March 3rd and March 8th, with enclosures.

Trivikrama Maharaja has written me one letter about his going on a bold preaching venture to Belfast, and it is a noble proposal. But I want him to first, with your cooperation, get our Tokyo center registered properly and train up a president before he goes on to another place.

I have received some first-class publications of our Isopanisad from Hamsaduta and he is also ready to print Bhagavad-gita. And now you tell me that Macmillan, such a big big company, cannot keep up with our men. This is very encouraging news. I have just finished Gita Gan, a verse by verse translation of the Gita into Bengali, and now I am working daily on the Caitanya-caritamrta. Now I am more and more wanting to work on my books and diminish all this travelling. So I am more and more depending upon you GBC. Of course you GBC are in training, but you are all the hope for the future of our movement.

So I am glad to hear that my quarters are being readied nicely and that you have purchased me a comfortable car. My program is to leave for Mayapur in the morning and be back by the 19th and on to Hyderabad on the 23rd, then to Bombay by the 26th. From then my program is not yet fixed up. I have received one nice invitation to go Johannesburg and if they can supply the visas in time I may go there, otherwise to London by the 1st and on to L.A.

I hope this meets you in good health.

My dear Tejiyas:

Please accept my blessings. I beg to acknowledge receipt of your letter dated March 12th and have examined it with great pleasure.

This program of approaching MPs is very very important. If you can get this petition approved, that would be a great boon to our movement. Even if 15 or 20 MPs join our Society that will be a new chapter for us. And your petition is very attractively worded. Actually India is the spiritual leader of the world but the fools and rascals are trying to sabotage the position.

Your school preaching is very much welcomed by me. We are in need of new recruits to carry out so many ambitious programs here in India, so if you can infiltrate the school system as you did in America that will be a great service.

Yes, this program for the factories I have already outlined. Let the labor-management disputes be finished by prasada and regular kirtanas with temples right on the premises.

Your statement that ”no intelligent man can resist becoming the member” because of our books is a very good observation. Now these beautiful books have become the firm basis for our movement and any intelligent person in any part of the world cannot but fail to admire them.

Devotees there or visiting must follow our regulated principles under your direction or they need not stay. Devotees should not be in India on their own business or on a whim, they should have our GBC approval. Everyone must be favorably engaged.

I hope this meets you in good health.

My dear Pusta Krsna:

Please accept my blessings and I beg to acknowledge receipt of your letter dated the 13th of March, with enclosures.

Yes, your study program is nice. By writing according to our realization we become more and more convinced and all doubts are destroyed. I have looked over your essay and I think you are understanding our philosophy rightly. Why don’t you write something for Back to Godhead?

We can avoid idle conversation and utilize our time in the spare moments for studying slokas from the Gita and Bhagavatam. Practically I have given you more than enough for 50 years at one sloka daily. If we can simply read one sloka daily, that is step by step progress.

I said it long ago, that we are trying to make Brahmanas from anywhere in the world. We can offer the intelligent person the opportunity to be trained up in the highest spiritual knowledge and train him up as a preacher himself. That is a very attractive offer, so in your traveling SKP you can preach like that, and quote some important slokas from our books and wherever you go you will be respected and you can recruit some solid devotees for pushing on this movement. So kindly go on with your program.

I hope this meets you in good health.

My dear Niranjana:

Please accept my blessings. I beg to acknowledge receipt of your letter dated the 12th of March and I have examined the contents with care. I think because I am travelling so much there is some problem in your letters reaching me. But now I want to leave so much travelling up to my able disciples and finish my translating work. So in a few days I am going to Bombay and then to London by the 1st, and then to L.A. via New York stopover.

Yes, I am sorry that I could not see you this year at the Mayapur celebration, it was very successful. But anyway because you are in college please take this opportunity to convince some of your fellow students about this Krsna consciousness. All over the world there are college students who are joining our movement, why not in India? Actually there is no need to give up studies to be a devotee. In America, a number of our students joined with us before they graduated but still they went on to graduate with honors, namely Bhagavan dasa, Trivikrama Maharaja, and others. So just try to convince them in some way.

Incidentally, I did not receive any contribution from Prabhas on your behalf at Mayapur.

My Dear Satyabhama:

Please accept my blessings. I beg to acknowledge receipt of your letter dated February 20, 1973 and I am replying late because of so much recent travelling. I am here for a few days only, then to Bombay and on the 1st to London for a few days before going on to L.A. via New York.

Actually, I don't want our energy spent in that way, to develop a school at New Vrndavana. Rather, all of our children should go to Dallas when they are four and begin their training program there. In Dallas, they have full facility approved by me, I have personally seen that they are doing very nicely there. So, for the younger children to be at New Vrndavana that is alright, but when they are a little older, at four, they should go on to our Dallas facility.

Why should the parents not feel attachment for their children, that is natural. But our affection is not simply sentimental, we offer our children the highest opportunity to become trained up in Krsna consciousness very early so as to assure their success in this life to go back to Godhead for sure. That is real affection, to make sure my child gets back to Godhead, that is my real responsibility as a parent. And I have seen that Gurukula offers this opportunity more than any other place anywhere. So I think that you are intelligent girl, and you can explain it to others in this way.

My dear Sudama:

Please accept my blessings and I beg to acknowledge receipt of your letter dated the 12th March 1973 and I carefully examined the contents.

Radio and T.V. programs are alright if we can introduce our literature, like Bhagavad-gita, etc., otherwise there is so much nonsense on the media that they will forget quickly what they see and hear.

I am glad to hear that our Krsna das Prabhu is back in our company. He is a good boy, but since he has been married there has been difficulty. So now he is returning with his wife and child and he must be given all encouragement.

You mentioned about your Temple bus, and that is very nice. When I saw Rupanuga's bus in New Vrndavana I wanted that there be a whole fleet. But you should not take Radha-Krsna travelling, better you take Gaura-Nitai. For serving Gaura-Nitai there is no offense, but if Radha-Krsna is there and there is some discrepancy, then there is great offense and this should be avoided. Therefore, I gave the same advice to Visnujana when I was in Pittsburgh.

The idea of the Temple bus is to attract them aboard back to Krsna and the hippies and college students, anyone, will be very much attracted to the program. Now you have my full blessings, so go out and recruit some solid new devotees to help us push on this movement.

I hope this meets you in good health.

We are negotiating the purchase of the Bombay property for a lump sum cash payment of about 10 lakhs, which at the official rate amounts to about $130,000.

If this negotiation is settled to our satisfaction, we will require your lending this amount to the Bombay project from our New York building fund. So kindly make the necessary arrangements, and await our final instructions through telegram or by Atreya Rsi to send the funds.

You will be refunded the loan with interest by the Mayapur Fund. The Bombay project will in turn pay the Mayapur construction expenses. For the future of New York Temple expansions I have discussed different alternatives with Atreya Rsi, who will discuss them with you upon his arrival.

The day after tomorrow we are leaving for Bombay, and then in a few days for London. From London we are going to L.A. via New York ISKCON.

My Dear Kaliya Krsna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated the 12th March and I have examined the contents carefully.

You have committed a very grave error. I am depending on you leaders for the future of our Society, yet there is all this interest in illicit sex life. this is causing me heartache worrying how things will go on. What can I do? I have given you all instructions, why you cannot follow them? Now you are supposed to be a responsible devotee, and this situation must be rectified, it is bad example for others. You have begged for my blessings and I give them to you because you are my spiritual son and I have taken responsibility for engaging you in the service of Krsna. But I think you can from now on follow the regulated restrictions strictly and refrain from any sex life at all, that can be your austerity.

Your proposal to go to Chicago Temple under the supervision of Satsvarupa Maharaja and Kirtanananda Maharaja is very good. They are your well-wishers. Now you may take up your activities with determination and seriousness.

I hope this meets you in good health.

There is no need of adding further Deities. Once installed it cannot be changed. Do not make it childish, too much addition of Deities will encumber us. At first, either Panca Tattva or Gaura-Nitai Deities may be installed, taking care that there is sufficient space. There is no need to consult with me for these installations, the local president can decide whether the circumstances are opportune.

For two houses in M-V we are supposed to get 1600 dollars per month. Now we got three, but we get only $750 per month. What is the benefit? 12-13% interest was the original idea of investing but now you have given calculation for 6 1/2%. I do not know how you have decided this, to take so much burden of maintenance for so little return.

You have said Kesava is going to Tokyo as president, but what he will do there? Wherever he goes he cannot stay fixed up long. So how can he manage if he cannot stay regulated?

I am not going to Johannesburg, rather I am leaving tomorrow for Zurich for maybe 10 days while they are getting my place ready in London. As soon as I am informed, I will send you my address in Zurich. As far as I know it, my London address will be Piggott's Manor, Letchmore Heath, Hertfordshire, London, England.

Zurich 3 April, 1973

73-04-03

My Dear Giriraja,

Please accept my blessings. We have reached Zurich yesterday morning and have come to the health resort of St. Morritz. The apartment is very nice but it is so cold that we cannot go outside. Probably we shall go to L.A. via N.Y. on the 5th of April.

Today is Tuesday so I hope that the court case will be heard. The judge has intelligently asked Mrs. Nair to whom she will hand over the land. She has denied us and is considering Chhaganlal, but if the judge takes seriously that the land must be given to one of us, that will be a great success. Chhaganlal must insist on the contract price, 7 lacs and if we give him 3-4 lacs more profit, that will be a very excellent arrangement between Chhaganlal and ourselves. It appears he is friendly to us and if out of religious sentiment he delivers to us the land it will be very good for him. I think no need asking specific action on our behalf, on the other hand please try and get the land at Grand Paridi through the help of Karatikeya Mahadevia or Mr. Ramchand Chabria. They told me about this land for Temple and I think both of them can secure it, either freehold or cost price. The gentleman Mr. Thirani was met 2-3 times on planes or in airports and is eager to construct a temple for us immediately. So this is an opportunity given by Krishna and if possible we can construct both a city Temple as well as one at Juhu. If possible to construct in the city location then that should be given more priority. You may reply this letter to L.A. I hope you have taken possession of the new apartment at Juhu and are doing the needful. May this find you all well.

My Dear Govinda dasa,

Please accept my blessings. I am in due receipt of your letter dated March 25, 1973, and have noted the contents with great satisfaction.

The report of book distribution going on in Chicago is very pleasing to me. As you know, our Chicago center is one of the most important. Please continue to use your intelligence to find out how to distribute my books more and more. I am especially pleased to learn that you are introducing my books as textbooks in the colleges. We especially have to try to attract the educated young men and women in your country so that in future there will be many strong leaders to keep our Krsna Consciousness Movement strong.

I am also very pleased to learn that you have come out successful in stopping the police from arresting our men and stopping our sankirtana activities. Your sankirtana program, the report of the Lord Caitanya festival and the very nice newspaper article that you have sent are all indications of your sincerity in trying to put full effort to push on Lord Caitanya's sankirtana movement.

Upon your recommendation I am gladly accepting Peter Laudert as my initiated disciple and as you have requested am sending him a letter (enclosed). Please have Kirtanananda Maharaja chant on beads for sanctification and you may hold a fire yajna.

Regarding my coming to install large marble Radha and Krsna, yes I will be very pleased to come.

Hoping this finds you and your wife and son in good health,

My Dear Puri Maharaj,

Please accept my humble dandavats. I beg to acknowledge receipt of your letter dated March 25, 1973 and I have noted the contents with great interest. While in Mayapur I expected to see you. You would have been pleased to see the excellent building that we have constructed. People say it is a unique building in all of Nadia district. There is ample space for 300 gentlemen to come and visit. The proposal is to construct four such buildings and a big Temple two hundred and fifty feet high.

Regarding the house at Puri – the place of Srila Prabhupada – it is understood to be in implication in so many ways. I understand also that Sripad B.D. Madhav Maharaj is also eager to purchase, so I do not wish to make a competitive price. Now I have left India for 6 months and may return by October. If in the meantime some real developments take place you can write to me at my Los Angeles address which follows where I am returning via London and New York. The address is 3764 Watseka Avenue, Los Angeles, Calif. 90034 USA. I hope this finds you well.

My Dear Giriraja,

Please accept my blessings. We have arrived in New York on the fifth bypassing London for now because the new place is not yet ready. I will be staying here until about the 17th, then go to New Vrndavana for a few days and then to Los Angeles.

Please let me know immediately how the Chhanganlal case has come out. I hope that by now you have received my letter of April 3, 1973 and have taken appropriate steps to secure the Juhu land.

Hoping this finds you well.

My dear Sudama,

Please accept my blessings. Am in due receipt of your letter dated 4/6/73.

I am still in New York, but if the climate is not suitable, I may be going to Los Angeles very soon.

Your program for traveling on the West coast holding festivals at schools and communes is approved by me. Especially you must try to convince these students to join us. There is nothing else that will save the world from destruction and it is our responsibility to recruit these young educated boys and girls before they become spoiled by the degraded conditions of this so-called human society.

Hoping this meets you in good health.

My dear Spiritual Sons,

Please accept my blessings. As you have been recommended by Chakravarty Das for initiation, I beg to accept you both as my disciples. Now I have named you Nikhilananda Das for Niko, and Vaidyanath Das for Erland. So you now chant Hare Krishna mantra on your beads at least 16 rounds daily and try to commit any offence against the holy name. In this way you will get spiritual strength for preaching the glories of the holy name to the people. Another thing is that you should follow our the four rules of no intoxication, no illicit sex life, no meat fish, or eggs, and no gambling. This will keep you fit.

I hope this meets you in best of health.

My Dear Pusta Krsna Maharaja:

Please accept my blessings. I have been informed of the situation of the South African program by Brahmananda Swami who is here with me now as personal secretary, and I want to send you there. There is one boy there Ksudhi Dasa who is very young boy, so I want you to go there to take charge of the preaching program there in Durban.

One Mr. Parekh of the Hindu Mandal has written me inviting me to go there and they will pay all the tickets. q 750615 750615 So I want to go there from London on my return to India, and I can stop there. So you go there and make all the arrangements and inform me accordingly and I can come.

You can correspond with Ksudhi Dasa Brahmacari at the following address: c/o Popatlal Kara, 201 Gray St., Durban, South Africa, for getting the visas. It will be easier for you to go from London.

I hope this meets you in good health.

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 12, 1973 with enclosed daksina of $100.00. I am very pleased with your activities, how you are leading householder life, Krishna conscious. This ideal I want to show your countrymen is only possible on the Krishna conscious platform. You remain steady on this platform, and this will be your benefit.

You are one of the trusted managers of the New York temple, and I am very much glad to see that the standard of temple activities is so nice. So Krishna has given you American intelligence, and I think this New York City is the greatest city in the world. So all you managers cooperate together and do something gorgeous. My Dear Spiritual Son and Daughter:

Please accept my blessings. On the recommendation of Gunagrahi Das I am pleased to accept you as my initiated disciples. I am giving you spiritual names as follows: Anthony is Ajita-ananda and Patty is Purvacitti, wife of Maharaja Agnidra.

You send a copy of this letter to Kirtanananda Swami and he will send you your japa beads duly chanted upon as I have prescribed. Now my special request is that you strictly follow the four regulative principles. This will keep you strong in Krishna consciousness. Nor should you neglect the Ten Offenses against the Holy Name. Just chant Hare Krishna in this way, and you will feel yourself advancing in spiritual life. This is the program of Lord Caitanya for us. So you do these things and that will please me very much.

My Dear Nityananda Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 14, 1973 and was very pleased to read of your Sankirtana book distribution results. That you are sending good amount to the BBT even you have smaller size temple is much appreciated by me. I am very much pleased how all you disciples are distributing my books. Just now Karandhara has informed me that he is printing new editions of Krishna Trilogy, Sri Isopanisad, and NOD, all 100,000 copies each, and Krishna hardback sets, 50,000. So I am very much engladdened by this news. My Guru Maharaja used to be very much pleased whenever there was book distribution. So you just continue it solidly, that is my request.

Yes, you can install Gaura Nitai Deities in your temple . . Just now we are ordering very nice first class murtis three feet high from Philippines. They will cost $50.00 per set plus shipping. So we can supply you from Los Angles.

Enclosed is one brahmana gayatri mantra sheet for second initiation of Debraja Dasi. Now you show her how to count on the fingers, and have fire sacrifice, and she can hear the tape through the right ear.

My Dear Doug Russell,

Please accept my blessings. Upon the recommendation of Rsabhadeva Das I am accepting you as my initiated disciple. Your spiritual name is now Asurakula Nasana Dasa, the servant of the killer of the descendants of the asuras. Krishna, He killed so many demons, so in this age of demoniac tendency, we may not kill the demons like Krishna did it, but we can kill the demoniac tendency. How is that? By this Sankirtana weapon. That is the specific contribution by Lord Caitanya, Krishna Himself, in this Kali yuga. So I am informed that you are the Sankirtana leader for Laguna Beach temple, so you should very enthusiastically lead the Sankirtana party, and in this way you will very successfully kill the demoniac tendency of the rascals.

So you send a copy of this letter to Kirtanananda Swami and he will chant on your beads. . And you be sure to chant 16 rounds minimum as a daily practice, and this will keep you most fitted Sankirtana leader.

My Dear Satsvarupa Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 15, 1973 with enclosure of m/s. Narada Bhakti Sutra. . I have no objection to your publishing it, however there are many, many mistakes in the Sanskrit which have to be corrected, so I am returning the m/s. to you under separate cover. Regarding "Prayers of King Kulasekhara," I never said I was displeased with your publishing it in BTG.

Regarding Gurukula, it is not required that parents live there with there children. We can take care of the children, but not the parents. Any parents there must be engaged preaching and selling books, and going on the Sankirtana party. Mohanananda Prabhu has agreed to fully cooperate, now you just direct him. I just want that the children learn English and Sanskrit nicely, that's all. I want that things go on there nicely, it is so important work. If necessary I will come there myself to see how it is going, but only if the climate is suitable, neither too hot nor too cold. This Los Angeles climate is just suitable for me.

Regarding dancing, our dancing is ecstatic. We need not waste time 5 hours daily instead of chanting, for practicing. We are not professional dancers, neither we require it. These things should not be encouraged. In New York they have such activities, but they should not be going on in Gurukula.

I hope this meets you in good health.

Los Angeles 23 April, 1973

73-04-23

My Dear Thakura Haridasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 21, 1973 and also the screenplay "Jonathan Livingston Seagull" from Mr. Diamond. So it is good work that you are getting important man to understand the importance of

Krishna consciousness in the modern world. If the important men of your country use their wealth to support this movement then the whole face of the society can be changed. Just like the scientists they are getting millions of dollars from the government for their researches. But, have they been able to cure death, disease, old age, and birth? That is not possible for them because they are ignorant of spiritual science as given by Krishna in Bhagavad-gita. So we have to push this knowledge in the world and so money is required. So it is very nice Mr. Diamond has given $3,000.00 for the Book Trust, that is practical help.

I can understand from the play he is talented man. Now you have to impress upon hm, that when talent is used to glorify the Supreme Lord, that is perfection of talent. . Just like one of our students, he is scientist, Ph.d, and he can present God by scientific statement. He has written one small book presenting God consciousness based on scientific statement very nicely so we are publishing it.

So I request you to seriously become convinced of this Krishna consciousness movement as you are understanding it and by strictly following the rules I have given you, you will get strength to convince others nicely.

I hope this meets you in good health.

Letter to: Caitanya

-

Los Angeles 25 April, 1973

73-04-25

My Dear Caitanya Dasi,

Please accept my blessings. I am in due receipt of your letter dated April 23, 1973, and I have noted the contents. I am very much disturbed to hear of Kanupriya's activities, and I advise you that so long he is engaged in these nonsense activities, you should not have any association with him. Best thing is that you remain in the association of devotees, and take part in the temple worship here, not separately. Worship of Radha and Krishna is no cheap thing. It cannot be done whimsically, but it must be very carefully executed under strict regulation. Not that there can be LSD taking and all sinful activities, and then Deity worship. I have made it a point that unless one is able to keep to the same standard that is kept here at the temple, he should not worship the Deity separately. Best thing is to keep a Guru-Gauranga altar at home and take part in the Deity worship program at the temple.

You have got a very big responsibility to give your daughters a good Krishna conscious atmosphere for developing into nice devotees. If you also take up these sinful activities and neglect the principles of Krishna Consciousness, then that is a great misfortune. Your first consideration must be to see that your children become Krishna conscious, and if your husband will not take his responsibility, then what can be done? Simply you must keep to the principles, and pray to Krishna to help you.

Hoping this will meet you in good health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear Mahajan and Sharanagata,

Please accept my blessings. I am in due receipt of your note along with the $60.00 daksina, and I thank you very much. Now you have taken this initiation, and it is a very serious matter. You must always keep very strongly to the principles of Krishna consciousness; rising early, taking bath, attending mongol aratrik, chanting at least 16 rounds on the beads daily, reading our books, going for sankirtan as much as possible. These things, if strictly followed, will keep you always in a purified condition and will give you spiritual strength to defeat maya, and when this body is finished, no more material bodies, but back to home, back to Godhead. This Krishna consciousness is so nice, so sublime. Take it and be happy.

Swiss Credit Bank P.O. Box 60900 Los Angeles, Cal. 90060 Att: Mr. Leo C. Helfenberger

Dear Mr. Helfenberger:

I beg to acknowledge receipt of your letter dated April 23, 1973 and have noted the contents. In your Zurich head office the manager told me there would no charges for depositing checks. So there is no difficulty to send you Cashier's Check, but there cannot be any charges. Also, my account is in U.S. $ and not Swiss Francs.

If you can confirm to me that there will be no charge for depositing, then I can send you checks. So please tell me what to do.

Faithfully yours,

My dear Dinatarini,

Please accept my blessings. I am in due receipt of your letter dated March 29, 1973 and I have noted the contents. I have received also the photograph of Radha-Kalachandji and they are looking transcendentally beautiful. Always keep to this high standard of Deity worship, never become neglectful. Everything must be done very timely, and the temple must be immaculately cleansed daily. These things, cleanliness and promptness, are the most important points for Deity worship, so be very vigilant in this way.

So far opening a Gurukula in England, first let us establish our new building there, and we can talk later on. Meanwhile, continue your program there very nicely, and when there is good opportunity, I can come there for some time.

Hoping this will meet you in good health.

Dear Giriraja Das:

Please accept my blessings. I am in due receipt of your letter dated 20.4.73 and have read the contents carefully. In Juhu we have installed the Deity, so we cannot move from that place. That is against Vedic religious conception. We are prepared to pay cash 4 lacs less what we have already paid. Otherwise they must return our money and pay all damages, interest, etc, and we shall leave the temple as it is and shall go away: what can be done. Damages in this connection shall be 5 lacs minimum.

So in this connection you must take serious protection. Mr. Ganatra can help. He has given two medals, one in Bombay and one in Los Angeles, for my work.

The judge should be impressed in such a way that Mrs. Nair must sell to either of us, Chhangganlal or ISKCON. She should not be allowed to cheat so many people, to make contract with so many people first with one person and then with another. The court should be pleaded to stop this kind of cheating the public. She must agree to sell the property according to the contract.

If she agrees to sell to Chhagganlal, the contract was for 7 lacs; therefore she has to sell for that price, according to the contract. If the court allows that contract to be superceded, we are prepared to pay 14 lacs. But, neither of us should agree to purchase at a price above what is stated in the contract. And, she must sell to either of us. On this line the pleading should go on in the court.

Regarding Grand Pardi land, try your level best to secure at least one acre of land, and Mr. S.K. Thirani Chairman of Kores Ltd. is prepared to contribute 7 lacs for the temple. So in case we have to part with the Juhu land, we shall construct a very nice temple in the city at Grand Pardi, and if we do not lose the land we shall construct two temples in Bombay: one in the city and one in Juhu. So we shall try for both of them.

Regarding the money to be paid to Nair, it is ready. We have already paid 275,000/- Rs. and in India there is 3 lacs in the Book Fund. So out of 14 lacs Rs. 575,00/- is there, and the balance Rs. 825,000/- is ready here. As soon as you send me the favorable decision, this money will be transferred to India without delay. In the meantime you negotiate with Central Bank authorities Gowalia

Tank or Head Office. On transferring the above amount they will have to guarantee either to the vendor Mrs. Nair or to the court, assurance of payment, because Mrs. Nair's attorney may plead that we have no money. In that case we can reply that we can supply Bank's guarantee of payment.

Things in Bombay are very much complicated. Tamala Krishna Goswami is already there but he is more or less engaged in preaching work. If you think so, I can send Brahmananda Swami to go to India to help you.

So I am very much anxious to hear the reports of these transactions. So at least once in a week, you send me a report with all the details.

I left some money with Manasvi for depositing in my personal account. Please let me know if it has been done.

You have not written anything about purchasing apartment in Juhu for Rs. 30,000/-. If there is no possibility for purchasing, then immediately deposit the money in the bank.

I know you are sincere devotee and hard working also, so Krishna will help you. Here in Los Angeles they are selling average over 2,000 pieces of literature daily.

I hope this meets you in good health.

Kelso, Washington

My Dear Mukunda Das:

Please accept my blessings. I am very pleased to receive your letter dated 4.26.73 and the steps which you have taken is worthy of one who is my disciple. So please revive your old Krishna conscious activities and make your life successful. Do not spoil your life for a woman. According to Vedic culture one must give up association of woman which is known as renunciation or sannyasa. For Krishna's sake Lord Caitanya gave up the association of his wife, although she was never against Lord Caitanya Mahaprabhu. According to Canakya Pandita one who has no mother and the wife is not obedient, such a home is as good as living in the desert.

So you immediately go to London and help in organizing the great temple which we have already purchased. It is understood by telephone conversation that George has already paid the full amount for the new house and Syamasundara. is going to take possession of the house by May 1. When it is actually in our possession, it can be made into a great attraction especially for the tourists. Practically Syamasundara., yourself, and Gurudasa started the London yatra together with your wives. Now Gurudasa is in charge of Vrindaban construction, so you and Syamasundara. can take charge of the London affairs.

I shall be going to New Vrindaban by June 1 and if in the meantime the London temple is taken possession of then I can go there by that time. Anyway I am very pleased by your noble action. Now you do the needful and be happy in Krishna consciousness.

I hope this meets you in good health.

My Dear Tamala Krishna Goswami:

Please accept my blessings. I beg to acknowledge receipt of your letter dated _ from Bhopal and also one forwarded to me from London with enclosures dated April 11, 1973. I am so pleased to learn of the successful preaching; now go on in this way. If possible in Kanpur there is one man ready to receive you. You can open correspondence. In this way you visit all the important cities and you will get thousands and thousands of life members. We can organize in each and every factory of Mr. Birla Sankirtana Movement and in this way can save the country from Communist tendency if a big man like Birla cooperates with us.

In Indore we have got many life members who will help you. The certificate the Governor has given that you are the real sadhu should be published. If possible the Governor may be induced to become life member so that other government men may follow. Tejiyas Das has already made many M.P.s life members.

I am anxious to know about the Mayapur progress. I want that the house must be completely finished before my returning. In London we have purchased land. Mr. Birla wanted to construct temple there. His idea is that the government would not object to sending this marble there so that the carved pieces may be sent and if expert men go there to construct the temple it will be very nice.

Some men from U.S.A. are going to Mayapur for doll making, so teach them nicely and we shall be asking doll exhibit in London. Many tourists come there, and it will a great attention for the tourists.

Now all you senior members work very hard and let me retire for writing books.

I hope this meets you in good health.

My Dear Bapi:

Please accept my blessings. I am in due receipt of your letter dated April 21, 1973 and am glad to learn that you have immigration visa for U.S.A. valid until August 9, 1973. Your former letters I did not receive most probably because they have been missing me because of my extensive travelling. I have come from India to U.S.A. recently on April 1.

You can purchase immediately one membership ticket for ISKCON. It costs only Rs. 1111/-, and on this ticket you can stay in any temple for as many days as you like. So you can secure a membership ticket from our membership office at the following address: ISKCON, 66 Babar Road, Bengali Market, New Delhi.

When you come to New York, I shall advise the Temple Commander to receive you. As you have been granted visa, you can secure a job. I think you can get it easily because you are qualified. I shall advise my disciples to help you, but this will have to be arranged when you come here.

I am sorry to learn that your father cannot see at night. When our time is up, we have to push on even in broken condition of life.

At present I am in Los Angeles and most probably will be here during the month of August.

I hope this meets you in good health.

Regarding Sudama Vipra I have heard that he is in South America, but would like to have it confirmed so please write me in this regard. But you should stay there in Australia; it is not necessary for you to go to China.

Regarding reading Mahabharata, why divert your attention in this way? Bhagavatam is also Mahabharata. There are so many books I have presented already, so whatever you have got, just become expert in that. There are many things still yet to be learned.

We can invest $70,000.00, and Damodara can pay $700 per month net rent. So you negotiate, and we shall purchase in name of M-V Trust. But, here in L.A. we have invested $63,000 in one house and we are getting $800 per month rent. So you consult with Karandhara and do the needful.

My Dear Kirtanananda Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 24, 1973 with enclosed daksina check for $200.00, for which I thank you very much. Yes, I will come for the ground breaking ceremony because it is special event. So you please send tickets for four of us to come.

Regarding the initiations, enclosed are four mantra sheets and one sacred thread chanted on by me for the four brahmanas, and I am pleased to accept the following as my initiated disciples: Sarvesvari dasi (Shelly); Gunyarupini Dasi (Ginny); Gomata Dasi (Gale); Vajresvari Dasi (Elly); Lajjavati Dasi (Lynn); Isvara Das (Mark). So you perform the fire yajna for the brahmanas and let them hear the Gayatri Mantra from the tape which I have recorded into their right ear, and you may chant upon the beads for the first initiates.

I hope this meets you in good health.

Letter to: Lynne Ludwig

Los Angeles 30 April, 1973

Lynne Ludwig 15163, Sylmar, California 93142

My dear Lynne Ludwig,

Please accept my blessings. I beg to acknowledge receipt of your letter from California dated November 27, 1972, and I have noted the contents carefully, although due to extensively travelling and preaching tour in India, I have not yet got the opportunity to reply you at length until now. Your complaint is that you have met two of my young disciples in California and they appeared to you as having "a very negative outlook towards the people they meet." Of course, I do not know the case, what are the circumstances, but kindly forgive my beloved disciples any unkindness or indiscretions on their part. After all, to give up one's life completely for serving the Lord is not so easy thing. And Maya, or the illusory material energy, she tries especially hard to try to get back and entrap those who have left her service to become Devotees. So sometimes in the neophyte stage of devotional service, in order to withstand the attack of Maya and remain strong under all conditions of temptation, young or inexperienced devotees will adopt an attitude against those things or persons possibly harmful, threatening to their tender devotional creeper. They may even over-indulge in such feelings just to protect themselves, and thus they will appear to some non-devotees, who are perhaps themselves still very enamoured by the material energy of Maya, as being negative or pessimistic.

But actual fact is that this material world is a miserable, negative place, full of danger at every step, duhkhalayam asasvatam, temporary abode of death, birth, disease and old-age, home of suffering and pain only. To come to that platform of understanding of things as they are, that is not a very common thing, and therefore such persons who attain to it, they are described as "great souls":

mam upetya punar janma duhkhalayam asasvatam napnuvanti mahatmanah samsiddhim paramam gatah [Bg. 8.15]

This verse is spoken by Krishna, or God, Himself in Bhagavad-gita so who can be more final authority? That means that anyone who has understood that the material worlds are places of misery and temporaryness, duhkhalayam asasvatam, they never return here again, and because they are mahatmanah, the great souls, Krishna keeps them with Him, having qualified themselves to escape this nasty place by becoming His pure devotees. So the point is that to make advancement in spiritual life, everything material, unless it is utilized to serve and please Krishna, must be viewed with a pessimistic eye. We are not very much hopeful for any lasting pleasure or satisfaction for our deepest cravings within this realm of gross matter.

You refer to the word "love" several times in your letter, but actual fact is there is no love in this material world. That is false propaganda. What they call "love" here is lust only, desire for personal sense-gratification;

kama esa krodha esa, rajoguna samudbhavah, maha-sano maha-papma, viddhy enam iha vairinam

Krishna tells Arjuna, His disciple, that "It is lust only . . . which is the all-devouring, sinful enemy of this world." In the Vedic language, their word for materialistic "love" as we call it at present day; "kama" lust for material desire, not love. The word for love, actually love we find in Vedas is "prema", meaning one's love of God, only. Outside God, there is no possibility of loving. Rather it is lusty desire the whole range of human activities, whatever and whenever, so long with this atmosphere of matter, the every activity of the human being-or any living entity-is based upon or given impetus, and thus polluted, by the attraction between male and female, sex-desire. For that sex-life, the whole universe is spinning round-and suffering! That is the harsh truth. So-called love, here, means "you gratify my senses, I'll gratify your senses," and as soon as that gratification stops: immediately there is divorce, separation, quarrel, hatred. So many things there are, going on under this false conception of love. Actual love means love of God, Krishna.

Everyone wants to repose his loving tendency in some object which is in his opinion worthy. So it is a question of ignorance only, poor fund of knowledge, where to find that Supreme Lovable Object actually worthy to accept and reciprocate their love. People simply do not know, there is no proper information. Anything material, as soon as there is some attachment, it will kick you upon the face, deteriorate, disappoint you-it's bound to dissatisfy and frustrate you, that's a fact. So these young boys in your country, and all over the world, they are accepting. "Yes, that is fact," and they are getting the right information from Krishna:

bahunam janmanam ante jnanavan mam prapadyate vasudevah sarvam iti sa mahatma sudurlabhah [Bg. 7.19]

"After many births and deaths, he who is actually wise surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare." Again Krishna uses the word mahatma, great soul. So these are not ordinary boys and girls, our devotees, that you have met, no. They are to be considered as actually wise, great souls, because they have experienced in so many births the miserable disease of material life and they have become disgusted. Therefore they are seeking higher knowledge, something better, and when they find Krishna and surrender unto Him, they become mahatma, actually in knowledge. This material world is just like a prison-house, a punishing place just to bring us to that point of becoming disgusted and surrendering at last to

Krishna, going back to my original mature of eternal life of bliss and complete knowledge. So these devotees, that is their credit, they have done what is "very rare" amongst all men in the human society, sudurlabhah, very rare.

So after surrendering to Krishna, that will be the final receptable for investing his love: in God. If somehow or other anyone develops their dormant love of God-love of god is present there in everyone, just like fire is there in the unlit match, covered-over-if Krishna becomes the Supreme Adorable Objectality, the Supreme Friend, the Supreme Master, the Supreme Lover-then, oh, he shall never again become disappointed or unhappy. Rather, because his loving propensity is rightfully placed,

mac-citta mad-gata-prana, bodhayantah parasparam kathayantas ca mam nityam, tusyanti ca ramanti ca, [Bg. 10.9]

the devotee, one whose life is surrendered to Krishna, is always enjoying "great satisfaction and bliss" and he is constantly "enlightened", always positive, not negative as you say. The advanced devotee is the friend of everyone: yoga-yukto visuddhatma, purified soul engaged in loving devotional service to Krishna, sarvabhutatmabhutatma, he is dear to everyone and everyone is dear to him; and in another place Krishna claims that: yo mad bhakta sa me priya, that His devotee who is very dear to Him, advesta sarva-bhutanam, maitah karuna eva ca, is not envious but is the kind friend to all living entities. The devotee is supposed to be, furthermore, equal to everyone, panditah sama-darsinah [Bg. 5.18], never discriminating; this one good, this one bad, no.

So these are the descriptions of the more advanced stages of Krishna Consciousness devotees, when has got mature knowledge by development, and at present many of our students are young boys, they are learning gradually and the process is so effective, certain, and authorized that if they stick to it they will come to the right point, as you say, of loving. But that love is not material, that is our point, so it may not be judged on the on the false sentimental platform of ordinary mundane dealings. So to say they are not loving, that maybe true from the materialists point of view-they have given up affection for family, friends, wife, country, race, like that, all based upon the bodily concept of life or flickering sense-gratification-they have become little detached from Maya's love, or lust, and they want Krishna's love, or endless, full, rewarding love, but they have not yet developed to that point, that's all and we cannot expect that all of a sudden, being addicted to so many bad habits, your countrymen, will give up eating flesh, taking intoxication, sex-life, and so many other nasty things, and become overnight great self-realized souls. That is not possible. That is utopian. Just becoming initiated as Krishna's devotee puts him in the topmost category of human society: sa buddhiman manusyesu, sa yuktah krtsna-karma-krt: [Bg. 4.18] "he is intelligent among human society, he is in the transcendental position, although engaged in sorts of activities". And such devotee, no matter he has not advanced yet to the highest level of spiritual understanding, still he is to be considered the most exalted personality never mind he has got any temporary frailties:

api cet suduracaro, bhajate mam ananya-bhak, sadhur eva sa mantavyah, samyag vyavasito hi sah [Bg. 9.30]

"Even if a devotee commits the most abominable actions, he is to be considered saintly because he is properly situated,". As you will say, "To err is human", so in the neophyte stage we may always expect some discrepancies are there. Kindly see the things in this light and forgive their small mistakes. The big thing is they have given their life, everything to Krishna-that is never a mistake.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Giriraja Das:

Please accept my blessings. I am in due receipt of your two letters dated 25.4 and 26.4 and have noted the contents carefully. I have noted that you have said about there being new law that licensee is tenant or owner. I do not know what to do on this, but the fact is that we are the proprietor. In the contract it states that we must pay Rs. 2 lacs and within the first year then the conveyance must be given, the another Rs. 2 lacs the next year thereafter up to 14 lacs being paid. So the first 2 lacs they've already taken from us, so the transaction is completed. Tactfully they did not give us the conveyance. So now they have given neither conveyance or returned our money, but the deal is completed. So when they shall give the conveyance, then we shall pay the balance.

But, you all have cancelled our claim, that weakens our case. So, why not let the Rent Court settle up and determine the rent of the land, and we will pay the actual rent of the land. . So in all ways we are the occupiers-as licensee, tenant, or owner. So what we actually are, that should be settled up.

Regarding apartment, Karatieya says that we can purchase in the name of Society. But, if individual name is required, then my name can be given as Founder-Acarya. If there is some complication, then don't purchase. Keep the money in the bank, and try your best to get Grand Paradi land. If nobody can purchase

My dear Babhru Das,

Please accept my blessings. I am in due receipt of your letter dated 5,1,73 and have received the dakshina contents contained therein. I am very grateful for your offering of $100 for your second initiation.

Now that you have become Brahmin you should know that this means increased responsibility on Krsna's behalf. Factually this is the important initiation so you please maintain a very high standard of Krsna Consciousness and be very serious to execute the instructions of the spiritual master and Krsna.

I have also noted that you are going to spread this mission of Lord Chaitanya to South America and factually this is our last unconquered continent and I think there is great potential there. I am very much encouraged to know that it will now be developed under qualified disciples as yourself. so my request is that your work very hard there to give all the opportunity for this perfection, and I am sure Krsna will bestow His causeless mercy upon you.

Regarding the estimates for the two Bengali books, please get estimates from Dai Nippon.

I am pleased to learn that the devotees who will be going to India are taking twenty paintings with them to our Mayapur center. I want that all rooms and verandas and especially the Deity hall should have first class paintings. They will appreciate how expertly the American artists are doing.

We want to solve this big problem of supplying mrdangas and also learn how to make dolls for exhibiting pastimes of the Lord. Therefore I want devotees to learn these arts in Mayapur.

My Dear Hamsaduta,

I am very glad to hear how our festival program is going on so nicely in Germany. These festivals will be successful all over the world. As GBC member it is your duty to carefully make a broad program for implementing Krsna Consciousness in every sphere of life, in this way we will become respected as the most important members of human society.

Regarding the special preface for German Bhagavad-Gita, yes I will do that.

You have got the right idea when you say that, "I am always very anxious to know if I am pleasing you or not." Lord Caitanya set the example when he said that "I don't have any love for Krsna. If I had any love for Krsna, I would have died long ago from the separation." So one should always think of himself as unqualified.

That you have opened one branch in Stockholm, Sweden is very good to hear. Please continue to send men out in the interior, village to village and town to town.

Please accept my blessings. I am in due receipt of your letter dated April 25, 1973.

Thank you very much for sincerely pushing on Lord Caitanya's Sankirtana Movement in the city of Baltimore. Try to always increase the distribution of my books more and more. This is our most important program for reaching the lost souls of Kali Yuga. We have to educate men about the absolute truth. All of the scientists and other big men are simply cheating the mass of men by making false propaganda in order to take some money from them. We must expose these rascals by strong preaching and profuse distribution of these Krsna Conscious literatures.

I am pleased to accept Bhaktin Pattie as my initiated disciple and am enclosing a separate letter for her. Now hold a fire yajna and send her beads to Rupanuga das Goswami for chanting on.

Hoping this finds you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

My Dear Giriraja,

Please accept my blessings. I am in due receipt of your two letters dated May 3, 1973, and have noted the contents with great pleasure.

I think by the grace of Krsna you are getting some glimpse of hope to keep in possession the Hare Krsna land for our missionary activities. The laurel of victory will be if we can get the whole land at a monthly rent of 1000rs, as you have stated. To pay 1000rs rent per month means to keep a fixed deposit in the bank about 1 lac 70,000 and the bank pays 7 1/2% interest per anum and if we keep some fixed deposit in a private fund like Mafatlal or Birla at 12% then we have to deposit say a little more than 1 lac of rs. If we can construct a temple and building without permission of the landlord that will be our greatest triumph. If such a law is inaugurated then it is to be supposed that it is Krsna's plan.

Then what about our temporary sheds? Can we get municipal permission to construct regular buildings in those vacant places? So if we can get municipal permission for constructing houses in those two places and if we can get municipal permission for constructing a temple then it will be a great boon or blessing of Lord Krsna.

I think we have occupied the land sometime in January 1971 so does it mean that we have occupied the land for more than two years? You have to do your best to same the land with heart and soul and you are an innocent devotee completely dedicated. I wish that you may be blessed with all success in this connection. I am expecting your cable in the matter of purchasing the flat.

Hoping this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. If we become the owner or tenant of the land by dint of the new act then does this mean that the Chhaganlal case is finished? Where is his claim? Because actually we are in possession, he is not in possession. ACBS/jda

Letter to: Sons and daughters

Los Angeles 8 May, 1973

My dear Sons and daughters,

Please accept my blessings. I am in due receipt of your very nice letters and daksina of $650.00.

Upon the recommendation of Govardhan I am pleased to accept you as my disciples. You new names are:

James Ferris - Yamunatatacara das

Charles Wilkoit - Carurupa das

Tina Chojnacki - Taijasatmika dasi

Donald Chojnacki - Dosavarajita das

Lynne Davis - Daksayani dasi

Christine Stein - Krodhasamani dasi

Gregory Stein - Gopalbhatta dasa

Now you must all carefully follow these four regulative principles (1) No meat eating, (2) No illicit sex life, (3) No intoxication, (4) No gambling. Always be sure to chant minimum sixteen rounds daily. Study my books carefully, go for sankirtana and engage in Deity worship in the temple. You are all very sincere boys and girls and now I request you to make your life successful for going back to home, back to Godhead.

Hoping this meets you in good health

My dear Govardhan,

Please accept my blessings. I am in due receipt of your letter dated May 3, 1973.

Upon your recommendation I am glad to accept these devotees as my initiated disciples. So now you may hold a fire yajna and send their beads to Kirtanananda Swami for chanting. Also I give approval for the one brahminical initiation. Please find one Gayatri mantra enclosed. After the fire yajna you may play the tape of me chanting Gayatri mantra into the right ear in private. Teach how to count on the finger divisions.

I am enclosing a letter to all the new initiates.

Please preach this Krsna Consciousness very strongly so that we may give people real light for seeing the way out of the darkness of Kali Yuga. The modern scientists are confusing everyone with their false propaganda and it is our duty to expose them and kill the demoniac tendency to forget Krsna.

Hoping this meets you in good health.

Letter to: Caturbhuja

-

Los Angeles 9 May, 1973

73-05-09

My Dear Caturbhuja,

Please accept my blessings. I beg to aknowledge receipt of your letter dated April 27, 1973. Thank you very much.

In answer to your several questions, first; what is meant by conditioned sould? Conditioned soul means one who has accepted something illusion as reality. Conditioned means that due to imperfect desires the spirit soul becomes dependent on material conditions for his satisfaction.

Your second question; how does he become conditioned when the jivatma is eternal full of bliss and knowledge? The answer is that it is not the soul itself that becomes mixed with matter but it is his consciousness that becomes absorbed in trying to enjoy the matter. Out of desire to lord it over, the jiva soul forgets that he is eternal, full of knowledge and full of bliss and identifies with the material energy. So it is the consciousness of the conditioned soul that is affected.

Your third question is: does the soul ever become weak or strong on account of its association and contact with material nature? It is not the spirit soul that becomes weak or strong but it is his determination to become Krsna Conscious that me become weak or strong. By the influence of the modes of passion and ignorance he becomes weak and by the influence of the mode of goodness he becomes strong. But by the association with the pure devotee he becomes strongest.

Your fourth question: ”Whether or not it is possible for the soul to exist without having this external gross and subtle body covering it? So if the bird is existing within the cage and someone takes away the cage does that mean that the bird can no longer exist? No. This body is illusion. It is only because of out attachment for this body that we have to remain within it. But as soon as one transfers his attachment to Krsna then no more is there any need for this body.

Your fifth question is, ”Bhagavad-gita says that the conditioned soul is subjected to four defects. Does that refer to the body or the soul?” The defects are there in the living being when he is acting on the material platform. As stated in Bhagavad-gita chapter 15 verse 17: ”dvavimau purusau loke, ksaras caksara eva ca, ksarah sarvani bhutani, kutastho ’ksara ucyate:” ”There are two classes of beings, the fallible and the infallible. In the material world every entity is fallible, and in the spiritual world every entity is called infallible.” So the defects are there only on the material platform. One who is acting in Krsna Consciousness is beyond those defects.

Your nest question: ”The Bhagavad-gita says that Lord Brahma is a conditioned soul. Then how was it possible for him to impart the Vedas to a non-conditioned soul-Narada Muni?” So, Lord Brahma is a conditioned soul means that due to his desire to become the creator of the material manifestation he had to take birth within the material world. But although he was conditioned by such desire, still he is a great devotee of Lord Krsna. He has written Brahma-samhita which is pure Vaisnava literature describing the Supreme Personality of godhead. Lord Brahma was the first created being within the universe and the first spiritual master, as he received knowledge from within his heart from Lord Krsna. Narada appeared as the son of Brahma and therefore he had to accept Lord Brahma as his spiritual master.

Your last question, ”How is the sould degraded (by lust, anger and greed) when it is transcendental to the body? Doesn’t that imply that the sould has changed?” No. The soul never changes, but due to his tinyness he may become forgetful of his relationship with Krsna. The spiritual quality of the spiritual spark has not changed but he has forgotten his spiritual nature, bewildered by the imperfect desire to become equal or greater than Krsna.

I hope you are able to understand all these points. As you know, I am translating so many books into English from the Sanskrit, therefore, I am very busy. Now, I have representatives, the GBC and the temple presidents who are qualifies to answer your questions. Of course if you ask me I am obligated to reply because I am your spiritual master. So please direct your question to my representatives.

I may be coming to London in June, and I will be pleased to see you at that time.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Mayapur

My dear Jayapataka and Bhavananda,

Please accept my blessings. I am in due receipt of your letter dated April 30 and am very pleased by the report.

Many students from America will very soon go there to learn the art of doll making as desired by you. It is better to go there and learn the art instead of the teacher coming here. Mayapur is already wonderful being the transcendental birthplace of Lord Caitanya. By utilizing western talents to develop this place certainly it will be unique in the world. As in Vrndavana we have named the temple Krsna-Balarama Temple, similarly I suggest that our Mayapur temple be know as Mayapur Candra temple or Mayapur Candrodaya. Whichever sounds better we should advertise from now.

I know there are many weavers who daily go from this side of the river to Navadvipa side for working in handweaving enterprise. So if we can employ some of them along with our own men for manufacturing first class saris we can purchase all these saris produced by you. Such small scale industries are also supported by the Bengal Government. Tarundada is in charge of such industry. I have consulted with Karandhara that we can purchase the saris and the government will be glad to cooperate with us for exporting Indian goods to outside of India. Similarly we can import nice dolls here. Gradually as our men become expert they can manufacture the same thing here. So Mayapur inhabitants can be engaged in such a small manufacturing enterprise as well as farming to become self sufficient. Side by side increase our spiritual consciousness by attending to the temple routine work, Deity worship sankirtana, attending class. The idea is we must have the necessities of our life as far as possible independently. But we should not be business minded. Our main business is to develop our dormant Krsna Consciousness. Side by side we may take to such enterprises as will maintain us very nicely. There is no need of sending the artisan to U.S.A. better send our disciples from here and learn the art there. In this connection manufacturing the mrdanga shells as well as the skin work on it is very essential. If possible our men may learn how to make karatalas also. At Navadvipa, there are many artisans for this purpose.

The summary is that our men must learn these four things: doll making, mrdanga making, karatala making and if possible making saris.

We want to display doll exhibitions in every center of our society depicting some narration from Bhagavatam, Mahabharata, Caitanya Caritamrta, Bhagavad-gita like that. Just like the picture that Arjuna's chariot is placed by Krsna between the groups of 2 soldiers. The Pictures are already there in our books and they are to be demonstrated by doll exhibition. The Krsna-Balarama Deities if it is very successful you can send one photograph to Yamuna in Vrndavana and if needed they may be sent to Jaipur as a model for carving our Krsna-Balarama Deities to be installed at Vrndavana. If possible you can send me some photographs of the dolls already manufactured and I shall give you further suggestions in this connection. To learn how to prepare mrdanga shell is very essential. Regarding land I had already given Jayapataka Maharaja direction to purchase as much land as possible if it is offered at cheap price. But the present law is if the land is not properly utilized any outsider may occupy the land even as trespasser and the land belongs to him as a tenant or owner. I do not know what is the legal implication otherwise I wanted to purchase lands as much as possible in that quarter. Sometimes you consulted the district magistrate who came to see me and he said we may keep maximum 60 bighas of land. So my idea is that I want to purchase all the lands there for developing into a spiritual city but it may be utopian at the present moment.

Regarding keeping the Mohammedans in our temple I have no objection provided they follow or rules and regulations. Our philosophy is that we are not this body, outer tabernacle, but one must stick to our principles and live with us like other devotees. The difficulty will be the Mohammadans will not agree to shave their heads and beards. Our principle is anyone can live with us provided he becomes clean shaved, dresses like us, follows the regulative principles and chants the beads regularly. So you can let me know what is the reaction on the Mohammedan side to these conditions. Most of my students are coming from the Christian and Jewish groups but because they agreed to follow our principles there was no difficulty to organize the society. Similarly Mohammedan or anyone else who has no objection to our principles is welcome.

I'm so glad that prasadam distribution is going well, the cows are healthy and agriculture products are coming out nicely. So go on with the regular temple worship method and attract more persons. That will engladden me. You have said that the building construction work is finished but you have not written how many stories beside the plinth floor. Mr. Daga wanted to pay 10,000 Rs for one story more. Has it be executed accordingly? Please keep in constant touch with me by sending report at least once in a fortnight. At last I may inform you that I am very much interested to purchase more land.

Hoping this meets you in good health.

My Dear Ho Hon Pei,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 3, 1973 and have noted the contents.

Thank you very much for your kind appreciation of our Krsna Consciousness Movement. You are having some doubts whether or not the mass of people will be able to appreciate Krsna Consciousness. Yes, it is a fact that most people cannot approach Krsna Consciousness. Just like a rare gem. Only a few men can purchase a rare emerald or diamond so similarly only a few men may actually be capable of grasping the importance of Krsna Consciousness. It is confirmed in the Bhagavad Gita VII, 3.

manusyanam sahasresu kascid yatati siddhaye yatatam api siddhanam kascin mam vetti tattvatah [Bg. 7.3]

"Out of many thousands of men, one may endeavor for perfection, and of those who have achieved perfection, hardly one knows Me in truth."

If just .01% of the world's population becomes Krsna Conscious, the whole situation on the earth will change. Just see what has happened. I started alone in 1966 and in just seven years now we are three thousand, and it is growing more and more.

So if the intelligent men of the world like yourself cooperate with this all-important mission of Caitanya Mahaprabhu, we can save the world from the state of misery and chaos that now prevails.

Hoping this meets you in good health.

My Dear Hrdayananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 4, 1973. I am very much pleased by the contents.

The green sheets advertising our books to the college professors are very very good. You may send copies to all centers.

Your plan to get a large vehicle for traveling with built in shower, kitchen etc. is approved by me. But you should try to get new, because the old ones are always needing repair. We have seen by practical experience.

Regarding your going with Satsvarupa Maharaja to Europe for one month. I have received one letter from him saying that he could not go because his presence is too important at our Gurukula in Dallas. It is a fact that Gurukula must be always carefully supervised, it is one of our most important projects. So you can correspond with him in this connection.

Thank you very much for your sincere efforts in pushing forward this Krsna Consciousness Movement.

Hoping this meets you in good health.

Vrindaban

My dear Gurudasa,

Please accept my blessings. Herewith please find the letter I have replied to Madan Mohan Goswami in response to his letter dated 4/5/73.

He refers to your letter dated 26/3/73 which I do not possess. So you send me a copy of your letter as well as a copy of the letter which I issued to him in 1972 when I was in Vrindaban. This man is playing some trick so we shall also play some trick. We shall take all the Shebaits to court and pray to the court to settle the matter.

He has mentioned that you are the licensee, but according to the present act the licensee shall be considered as tenant or owner if the licensee has occupied the building or land in February 1973. I think we shall keep this place at Radha Damodara temple as tenant. As Madan Mohan Goswami is trying to play trick we shall not vacate any of the rooms upstairs or downstairs; this should be our policy.

The deposit money of Rs. 700/. with the other Shebait has not yet been settled up. We shall file a petition to the rent controller court and fix up a standard rent for all the four rooms up and down. And the rent which will be fixed up for the upper two rooms, we will adjust for one years rent from the Rs. 700/. with interest. When you file the petition we shall bring in all the Shebaits names. In this way we have to deal with these men.

Hoping this meets you in good health.

Dear Sir,

Replying your letter of 4/5/73, I beg to inform you that there is no question of vacating the house occupied by me.

I am already paying Rs 10/ per month and there is deposit of Rs. 700/. with one of the Shebait. Now all of you together fix up the legal rent after adjusting the deposit money with interest for the last seven years. If we settle up the pending matter amongst ourselves, we save so much legal expenditure, otherwise I will advise Sriman Gurudasa to take the help of the rent court, at your expense.

I don't know what is the content of the letter dated 26/3/73 therefore I am asking for a copy of this letter.

In regards to your questions in the letter of May 8, Caitanya Mahaprabhu was going to see the temple of Visesvar and hundreds and thousands of people were following Him. He was chanting Hari! Hari! It was not on the bank of the Ganges. It was on a road. It was not a high road but very narrow. Lord Caitanya was a sannyasa should be depicted with shaven head and wearing a short dhoti with folded part in front.

Mayapur

My dear Bhavananda Goswami Maharaja,

Please accept my blessings. Since I posted my last letter to you and Jayapataka Maharaja, jointly it has been decided that I'm returning to India by the 22nd or 23rd of this month. I think you have already been informed by Karandhara Prabhu. The reason is my health is broken down.

Last time when I was in Calcutta, the great ayurvedic physician Bimalananda Tarkatirtha felt my pulse and he said there is something very wrong within me but I left the next day. Unfortunately since I have come to the Western countries beginning from Zurich (Switzerland) then to New York then Los Angeles, but everywhere the climate is not at all suitable for me. I have received one letter from Madhavananda who was instructed by the physician that I should come back to India immediately. So I am coming back, and I will stay at Mayapur. Last time when I was there I left with you some instruction namely fixing the closet doors, iron bars on the windows and I hope you have these all finished by this time as well as the toilet facilities. I was pleased to learn from Madhavananda that he collected Rs. 42,000/. in one month for Mayapur construction. I hope things are going on nicely without any scarcity of money.

Hoping this meets you in good health. More when we meet.

My Dear Gurudasa,

Please accept my blessings. I am in due receipt of your letter dated 6/5/73. I have noted the contents carefully.

I have already sent you one letter dated May 11, 1973 as well as a copy of a letter sent to Madan Mohan Goswami by registered post that same day. I trust you have received that letter by now and you are proceeding as per my instructions therein.

First of all ask Gaurachand Goswami that he is taking the money on account of two rooms occupied by me, now Madan Mohan Goswami has asked up to vacate, so clearly understand from him what is our position. Whether he is going to accept the money continually or does not like to accept it. So on hearing this statement, if he says that he'll not accept and we must vacate, then it is to be understood that all the Shebaits have combined together to evict us. Then we'll have to take the matter to the rent controller court as I have already advised in my previous letter.

In India we have got experience, there are so many cheaters. So be very carefully of them and do everything carefully, keeping in touch with all the senior members and do the needful.

I am advised by my Calcutta physician that I should go back to India. So I am returning and will reach in Calcutta sometime next week. Ananda Pandu wanted to stay with me, so if he likes he can come to Mayapur where I shall stay. Offer him my dandabats.

So far as Mr. Sarkar, our engineer, is concerned, if he becomes too much of a disturbance then you may dismiss him.

Hoping this meets you in good health.

My dear Bali-mardana,

Please accept my blessings. I am in due receipt of your letter dated May 14, 1973 and have noted the contents.

So now my plans have changed. Karandhara has made arrangements for my physician to come here, thus saving much expense and time. So now I shall remain here in Los Angeles up to the 30th of May, then to New Vrindaban for a few days and then on to London. As soon as you have finished the synonym work on the third canto you can immediately join me wherever I am and we can finish it up in good time.

Regarding fourth canto, go on and prepare for publishing as quickly as possible. The first six volumes are selling very well so we may print more volumes and they will also sell.

If we can also keep up good pace with Caitanya-caritamrita then we may be able to print one 400 page book per month.

Thank you very much for your sincere effort in helping me carry out the directions of my Guru Maharaja.

Hoping this meets you in good health.

Vrindaban

My dear Gurudasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 11, 1973. I have received the picture of the front elevation of our temple, it looks very nice.

Regarding Lalitananda, formerly Hrsikesa, his proposal for joining us does not appear to be very sincere. He wants to keep himself as Bonn Maharaja's man, although he has taken permission from Bonn Maharaja to leave him and join us. Formerly it was reported that he collected money in Bombay as our representative on behalf of Bonn Maharaja and sometimes it is reported that he advertises ISKCON as a department of the Institute of Oriental Philosophy. I think you should not be very much anxious to reaccept him as our man. I have replied his letter and there is a copy enclosed, which will speak for itself.

Another thing, I beg to bring to your notice that Janaki, sister of your wife, she's now in Maya. Her husband reported that she is regularly eating meat and doing all nonsense. She's coming to Vrindaban to see her sister, Yamuna. Maybe she is going with poison arrows, so be very, very careful when she comes there. The world is full of danger and still we have to push on our Krsna Consciousness Movement. So always remain fixed up chanting the maha-mantra and following the regulative principles, because Maya is very strong.

Have you taken delivery of the document "deed of gift" of the land from the registrar's office? The receipt is there in the file box so if you have not taken delivery as yet get it and keep it carefully. Hearing from Ksirodakasayi I reported this fact to you long ago, therefore, I'm anxious to know whether the deed of gift has been taken delivery.

My dear Candanacarya and Kasturika,

Please accept my blessings. I beg to acknowledge receipt of your telegram dated May 15, 1973. Thank you very much.

Now I am in Dallas and the climate here is very suitable with plenty of good sunshine. I shall remain here for a few days and if my health improves there will be no need for my going back to India.

Hoping this meets you in good health.

My dear Kirtida Kanyaka,

Please accept my blessings. I beg to acknowledge receipt of your short note and $15. Thank you very much.

My request is that you please take this Krsna Consciousness Movement very seriously. It is a great opportunity to become free once and for all from the clutches of Maya. Maya is very strong, but by taking shelter of Krsna, Maya cannot reach us.

Hoping this will meet you in good health.

My dear Eric,

Please accept my blessings. I beg to acknowledge receipt of your letter undated. Thank you very much for your kind words. I am very pleased to see that you are taking this Krsna Consciousness movement seriously.

Your question as to why we use light bulbs, is answered as follows: light bulbs are also a part of Krsna's energy. Just as we use automobiles, adding machines, typewriters, dictaphone etc.

Whatever is there should be employed in service of Krsna. Without using matter in service of Krsna it becomes the cause of bondage, but by using it in the service of Krsna it helps us to become Krsna conscious.

I hope this meets you in good health.

My dear Tusti dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 17, 1973. Thank you very much.

You ask: "You said when you gave me the name Tusti dasi, 'Now you can be satisfied without eating.' Do you mean that I should eat very little?" Yes in spiritual life one must be careful not to eat more than is required to keep body and soul together. The most important point is that one becomes satisfied by serving Krsna rather than by serving the senses.

Now, please always follow the four regulative principles and chant sixteen rounds minimum every day without fail.

Hoping this meets you in good health.

My Dear Ekendra, Shawn, Christina, Dvarakadhisa, Kimi, Tonya, Joe, John, Candramukhi, Carol, Peggy, Lisa, and Stephanie,

Please accept my blessings. I beg to acknowledge receipt of your very nice Isopanisad papers, with sanskrit, transliteration, translation and purport. You are all very nice devotees. You are very, very fortunate to have the opportunity to be going to this Gurukula. It is the only one of its kind in the world. You are the first students and you must set a good example for the others, always being very enthusiastic to learn from your teachers, offering all respects to your teachers, leading the kirtanas with exuberance. In future you will be the leaders of this Krsna Consciousness Movement, so now you must take this training preparation very seriously.

Hoping this meets you all in good health.

Letter to: Niranjana

-

Brooklyn 21 May, 1973
73-05-21

My dear Niranjana,

Please accept my blessings. I beg to thank you for your letter dated 10/5/73. Now I have come here to New York. My health is not keeping very well. I'm suffering from cold and cough. I am returning back to India for medical treatment.

I can understand your difficult position in preaching work. Not only you, but I also had the same difficulty when I wanted to start this Krsna Consciousness Movement from India. I approached many respectable gentlemen and requested that, "My dear sir, you have got four children, out of them can you spare one only under my guidance, because I want to make a brahminical society all over the world." Everyone replied in this connection, "Sir what benefit will there be in becoming a brahmana??"

The position is that the whole world is full of sudras. The sudra's business is to somehow or other catch up some nice service under some good master and get a nice wife and home. That is their success in life. This is the position of India especially. The whole of India is now under technological instruction which means to become sudras. Just like a carpenter can manufacture so much nice furniture by his technological education, but in our Vedic society, the carpenter is considered a sudra. Similarly a tannery expert was called a cobbler. So these things are now lost. Everyone is prepared to become a cobbler, a carpenter, a chemist, a physicist, an electrician and so many other things, but they do not know that after such education one has to depend on other's mercy. So-called highly qualified technologists cannot earn their livelihood without getting a suitable job. It is just like a dog, however stout and strong it may be, it cannot be happy without having gotten a wealthy master. Without being protected by a wealthy master it is nothing but a street dog and he is never happy. So all the students at the present moment are getting educated how to become first class sudras. How they can be interested in Krsna Consciousness, which is the business of high class brahmanas and Vaisnavas? Still it is our duty to preach, and our sincere endeavor for preaching work will be appreciated by the Lord. That much we want. Our mission is to see that Lord Caitanya is satisfied, never mind if we could not turn many of them to this cult. Here is a quotation from Caitanya Mahaprabhu's instruction, "Yare dekha, tare kaha 'krsna'-upadesa/amara ajnaya guru hana tara' ei desa [Cc. Madhya 7.128]." Caitanya Caritamrta, Madhya-lila, 7:128. So our mission is, by the order of Caitanya Mahaprabhu, we shall try to teach people about the Bhagavad-gita and Srimad-Bhagavatam, etc., without being depressed whether people are accepting them or not. This is our credit. We shall be judged by the quality of our work and not by the material return.

Yes, their arguments are quite reasonable. The aim of our education should be, whatever education we might have got, we must satisfy the Lord by such education. That is the perfection of life. I have therefore asked our chemist friend, Dr. Swaroop Damodara das Brahmacari to refute the theory that life comes out of matter. This is not the fact, rather, matter comes out of life. We have discussed this point very broadly and Swaroop Damodara is convinced that everything comes from life, Krsna-aham sarvasya prabhavo/ mattah sarvam pravartate. [Bg. 10.8]. So, I've asked Swaroop Damodara to invite Ramananda Rao to come and join him to present this revolutionary theory to the learned advanced scientists. We know it certainly that matter comes out of life. Simply we have to present this thesis in chemical, technological words. Svarupa Damodara has already written one small booklet, "Krsna

Consciousness, Purely on a Scientific Basis." So this is the business of big, big, chemists and physicists to present the real facts in Krsna Consciousness. Then such education is valid,

idam hi pumsas tapasah srutasya va svistasya suktacyacabuddhi-dattayo avicyuto'rtha kavibhir nirupito yad uttamasloka-gunanuvarnanam [SB 1.5.22]

So, if they do not believe in Ramayana, Mahabharata, Bhagavad-gita, then they are called unbelievers, so how can you believe their words. Then we come to the platform of reason and argument. If they do not believe in Ramayana and Mahabharata, then we shall reply point to point by argument and reason. Of course, it is not possible to come to the right conclusion simply by argument and reason, tarkanratishtanat.

You mention that they have not even heard of Lord Gauranga. So that is their misfortune, and our misfortune also. Our big, big godbrothers in India, they could not preach Lord Gauranga's name all over India. They are simply inclined to criticize me, that my students call me Prabhupada. They could not do anything practical and tangible. They are satisfied with a temple and a few disciples begging alms for the maintenance of the temple.

So, we can understand that they have all become sudras. How can they have interest in Bhagavad-gita. Although some of them have been born in brahmana families, but by quality are all sudras.

You can do your best, that is very nice, never mind there is no good result. I have gone to the western countries, singlehanded. I tried my best and now people say it is successful. So you can do the same.

Hoping this meets you in good health.

Mrs. Nirmala Devi Singhal 113 D.J. Road, Vile Parle (W) Bombay-56.

My dear Mrs. Singhal,

Please accept my blessings. I am in due receipt of your letter dated May 28, 1973, and have noted the contents.

The demolition of our temple by the municipality has strengthened our position. The municipality standing committee. has condemned the hasty action of the municipality and has agreed to reconstruct the shed at their cost. Not only that, the temporary construction shall continue to stay until the court decision is there as to who is the proprietor of the land. Under the circumstances we should immediately reconstruct the Deity shed. Barbed wire fencing should be immediately done to cover the naked land. And if possible, immediately in front of the Deity shed, a temporary pandal should be constructed, with our materials. If it is so done, then I can go to Bombay and begin Bhagavata Parayana, to continue until the court decision is there. This is my desire.

I have just now come to Mayapur and am very hopeful to regain my strength and health on account of being in this transcendental atmosphere. Every moment we are passing here in great delight. So, if the Bombay program is arranged, I shall go there as soon as things are ready. I agree with you that my presence in Bombay will improve the situation, but my presence there means that there must be some program of Bhagavata Parayana.

I hope this will meet you in good health.

My dear Patita Uddharana,

Please accept my blessings. I have just now received your letter of 16-5-73 along with newspaper clippings. I have also seen some of these clippings when I was in London recently and some devotees from your temple were initiated by me.

For the devotees of the Lord there always many difficulties for propagating Krsna Consciousness among the nondevotee demons. But we must learn to tolerate all the difficulties and push on regardless of whatever obstacles we may be presented with. No one can stop this Krsna Consciousness Movement because Lord Caitanya wants that His Holy Names will be spread to every village and town. So go on with the preaching work and keep me informed of your progress.

My dear Revatinandana,

Yes, your article is very nice. It is very important that we now expose the nonsense theories of these rascal scientists who assert that life comes from matter. They say that life comes from some chemicals, but they cannot say wherefrom these chemicals have come. Actually, if we examine carefully, chemicals are coming from life, not life from chemicals. Just like the lemon tree. It is producing so many lemons. In each lemon there is so much citric acid. So, due to the presence of life, so many chemicals are being produced. Also, I have experienced, that one of my toenails has come off due to infection, but now my body is replacing that nail with another one of the exact size and shape as the one I have lost. If I have got such a potency to create, then what to speak of the Supreme Living Being lord Sri Krsna. If the sub-living entities can produce so much chemicals then what to speak of the Supreme living entity. This is called inconceivable potency. The living being has got an inconceivable potency to create. I do not know how my nail is coming. And the Supreme Living Entity or God, has got unlimited potency to create. I do not think that any reasonable intelligent man or scientist can deny. Aham sarvasya prabhavo, I am the source of everything, [Bg. 10.8].

Regarding my coming to London for Rathayatra on July 8th, if my health is by that time permitting, then I surely will come there to London.

Hoping this meets you in good health.

Yes, Mrs. Gandhi should be informed of all these incidents, how our temple has been dismantled by the municipality.

So, what is the meaning of the recommendation of the standing committee. that we should immediately be able to reconstruct at the cost of the municipality. Is it useless? I thought that the standing committee.'s resolution was final but from your letter it appears there is no meaning. What has happened to the new act of February 1973 declaring the tenant of the land to be considered proprietor or owner. Anyway, I have already written to Giriraja my opinion of what should be done.

Had it been the case of some Mohammedan, there would have been great riot. But Hindus are such cowards, therefore no action has been done.

Regarding Hrsikesa das, he may come here to Mayapur and I will discuss with him what his engagement shall be. He speaks fluent Bengali, so he may teach the local boys here at our school.

My dear Karandhara,

Please accept my blessings. I am in due receipt of your letter dated 5/31/73 and have noted the contents.

Yes, in Mayapur I am much improved from how I was in Los Angeles. The great advantage here is that there is always open air and a good breeze which is naturally very good for any breathing difficulties. The coughing is almost gone, but still sometimes at night it gives a little trouble. So I am under the treatment of one of the best physicians in Calcutta. I am taking this medicine and am gradually improving. Certainly Mayapur is by far a better place than Los Angeles because you can enjoy the free air here. The climate is not too hot, but a little moist with humidity but on the whole it is very pleasing. Our building is most superexcellently situated, and it is the experience of many respectable outsiders that while the outer atmosphere is unbearably hot, in our building it is pleasing.

Regarding your taking sannyasa, I think you are already a sannyasi although not in saffron colored cloth. In the Bhagavad-gita it is said,

anasritah karma-phalam karyam karma karoti yah sa sannyasi ca yogi ca na niragnir na cakriyah [Bg. 6.1]

”The Blessed Lord said: One who is unattached to the fruits of his work and who works as he is obligated is in the renounced order of life, and he is the true mystic: not he who lights no fire and performs no work.”

So, I know you’ll take sannyasi sooner or later but wait for the time when Krsna will decide for this action.

You have written nothing about the $25,000 check which I left with you. Whether it is cashed and the business done? I advised Syamasundara. to send you a check for $10,000. Whether you have received it? If not you can advise me. I am anxious to know whether that M-V Trust business (house purchase) is complete.

Sriman Hariprasada Badruka Mahaboobgunj Hyderabad, A.P.

My dear Badruka ji,

Please accept my blessings. I am in due receipt of your letter dated 6/6/73.

My health is not yet recovered, but it is improving very slowly. So, I have been advised to stay here for at least four months, June, July, August and September. After that time it may be possible for me to go to Hyderabad and personally arrange both parts, preaching work and construction of the temple.

The difficulty is, unless we have legal possession of the land, how can we get municipal sanction for the construction. Under the circumstances, if Sriman Pulla Reddy donates the back portion of the land as promised and gives us legal right to construct the temple, we can then immediately get sanction from the municipality and begin construction. I am sure that within one year the construction will be complete and the Deity moved to the proper temple. At that time, if Mr. Pulla Reddy thinks it proper, he can donate the front portion also. Otherwise we shall vacate that portion without any doubt. This much I can promise to Mr. Pulla Reddy. So, he may kindly gives us legal right for constructing the temple.

I'm sending copy of this letter to Tamala Krsna Goswami at Bombay. You can contact him and do the needful.

New Vrndavana

My dear Kirtanananda Maharaja,

Please accept my blessings. I am in due receipt of your letter dated June 6, 1973 and have noted the contents with great care and concern.

The deities may be immediately repaired and worshiped. Now we must take precaution as you have suggested. You may get some guns and some of the boys may be trained as ksatriyas. Such gun shots could have taken place long ago since we are challenging everybody. So we must be prepared to fight. We cannot stop this movement. It is actually a fight against Maya. So Maya may also sometimes cause casualties in our camp. So, we must only thank Krsna and seriously dedicate everything for Him. So, you are Kirtanananda Maharaja, take pleasure in performing kirtana. That is our real weapon against Maya.

I am very pleased that the corner stone function was nicely done and successful. Continue the work enthusiastically. Thank you very much for the check for $200.

I am slowly regaining my health. It is now the rainy season here and accordingly the digestive process is slowed down. Therefore the rainy season means slow recovery.

I was just thinking of you and wondering why I hadn't heard from you in a long time. You'll be pleased to know that your assistant Srutakirti is here. He's feeling all right. This boy appears to be a very sincere devotee.

Upon your recommendation I am pleased to accept the devotees you have recommended for first and second initiation. You may chant on the beads of the first initiates and I am enclosing six sanctified sacred threads for the second initiates. Play the tape of me reciting gayatri mantra into the right ear of the brahmanas. The names of the first initiates are: Jim Hessler-Krpacarya das; Jack Mower-Kasyapa das; Chuck St. Dennis-Cakradhari.

Bombay

My dear Tamala Krsna,

Please accept my blessings I have received your telegram regarding Syamasundara. asking devotees to leave India to be guests in the new London temple. So let Syamasundara come to Mayapur and we can discuss this and correct any difficulty.

Regarding our involvement with the property in Bombay: by chance we have been entangled but now a strong committee. should be formed of our life members. Let them take it up, otherwise what can be done? Our men should be engaged for preaching-why should the preaching be stopped? I was very much encouraged when you and Gargamuni Swami purchased jeeps and formed a travelling sankirtana party. So why have you stopped it? Let the matter of the property in Bombay be dependent on the life members. They have paid us for membership and we have paid them, so they are also concerned.

Giriraja and a small staff can stay but they must be given visa facility. The next thing is if you take up this travelling sankirtana party seriously. Just as in USA they are sending buses from U.S. centers to the villages so you can do that and entrust this Bombay matter to our life members.

Yes, you should always feel yourself most fortunate and glad that you are in the Krsna Consciousness movement where you can learn sanskrit and English from such nice Krsna Conscious teachers as Dayananda and Dinatarine, and not be learning-as in the public schools-how to cheat and eat meat etc. Please stick to this conviction of yours and more and more your natural Krsna Consciousness will develop. Dear Suresh Candra,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 21 May 1973 and I have noted the contents.

I am pleased to note that as of January 1st you have given up eating of meat, fish or eggs, as well as intoxicants and gambling. You have asked what is meant by illicit sex. . Sex should be used only in marriage for begetting nice children to raise in Krsna Consciousness. Krsna says in the Bhagavad-gita that I am sex life performed according to religious principles. Sex life for any other purpose means illicit sex. The use of contraceptive method for sex enjoyment is very sinful. Restraint in the matter of these four sinful activities is achieved by tasting the superior mellows of Krsna Consciousness. You say that you are chanting 15 minutes daily from 8:15-8:30. Please go on and increase this chanting as much as you can and that will help you very much in advancing in Krsna Consciousness.

Regarding your request for cassette tapes, we have organized a whole department for distribution of my lectures on tapes and you may obtain them by writing to Golden Avatara. Productions, 3764 Watseka Avenue, Los Angeles, California.

Simply by hearing the philosophy of Krsna Consciousness and chanting Krsna's names all dirty things will be cleaned from the heart.

My Dear Gunagrahi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 5 June 1973 and I have noted the contents.

Everything appears to be going very nicely there under your management. You are facilitating sankirtana and book distribution by travelling and going to colleges in a trailer, and you are preparing for a large Ratha-yatra festival. This is all pleasing and inspiring to me.

Upon your recommendation I have accepted the following as my disciples: Lawrence Burstein's name is now Lokavarnotamma das, Claude Crocker is now Cittaranjan das, Catherine Crocker is now Citraketu devi dasi and David Sherk shall now be called Gadai das. Regarding second initiation, enclosed is a sacred thread for Lalitananda das and gayatri mantra for he and one for Sita devi dasi. Hold a fire yajna for the first initiates and later, privately you may play the gayatri mantra tape for the new brahmanas. Have them hear the tape in the right ear and show them how to count on their fingers.

Regarding your questions about Gaura Nitai Deity worship: Yes, it is all right Gaura Nitai may wear turbans as well as crowns. You ask what they may wear in the evening-they can wear different dresses or night clothing just as Krsna is dressed. Make a small symbolical bed and give Them rest in that way. Bathe the Deities mentally by mantra and not by pouring upon them.

Hoping this finds you in good health.

My dear Atreya Rsi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 17 June, 1973 and I have carefully studied the contents.

Regarding your participation in New Vrndavana during the attack. Although a Krsna Conscious person is free of bodily attachment that does not mean that he does not defend for Krsna's purpose. But that you became fearful in the face of danger is not necessarily wrong.

When travelling from London to Calcutta we passed through Tehran, Iran. It appears to be a good city. We found the people to be just like here in India. Human nature is the same everywhere. So also the possibility of accepting Krsna Consciousness is everywhere.

You say the owners of the building in New York City may reach a favorable decision in a few months. Why so long? Why not a few weeks rather than so long as a few months?

Hoping this will meet you in good health.

My dear Niranjan,

Please accept my blessings. I have received your letter dated 14 June 1973 and have noted the contents.

I will be glad to see you here in Mayapur when you are able to come after finishing your exams.

Regarding the new names of your sister and mother-in-law–why are you giving them spiritual names? You are not authorized to do this. Spiritual names are given by the spiritual master at the time of initiation. It is not to be done as a whimsical act. Rather, it is done strictly according to regulative principles.

I have received your printed invitation and send my thankfulness to your father, please send him a letter of thankfulness on my behalf.

I hope this finds you well.

My dear Batua Gopala,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 15 June 1973 and I have carefully noted the contents.

Yes, it is pleasing and encouraging to me to hear how all your programs, book distributing, temple worship etc., are going on so nicely in our Cleveland Center. That you have distributed 10,000 pieces of literature in the last month is very impressive. It will take some time to convince the people of this highest philosophy and the only means to convince them is distribute our books profusely. By chanting Hare Krsna their rough hearts will be paved. And when we speak about Krsna it will be shown exactly like the cultivator who first of all paves the field and then the seeds are sewn and gradually they get the result.

On your recommendation I have accepted the four students in your temple as my disciples. Their new names are as follows:
Marilee Ash-Mrgaksi dasi
Harvey Mechanic-Mrgendra das
Dan Cunningham-Gatravan das
George Vutetakis-Gopati das

Have them send their beads to Kirtanananda Swami for chanting. You can hold a fire yajna for the initiates and invite many guests. Hope this meets you in good health.

Mayapur 22 June, 1973
73-06-22
New Vrindaban
Dear Kirtanananda Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of 10 June, 1973 and I have carefully studied the contents.

After the shooting affair what precaution have you taken? Bharadraja is here and he gave report that the devotees were very frightened. I further understand that the attack was for the second time. . Here in Mayapur there are reports of dacoity at least once, twice in a month surrounding our place. So we have now taken two guns under regular license from the government. . So when New Vrindaban has been attacked twice, thrice, why are you not keeping guns? We are not advocates of non-violence when there is aggression we must kill them. So I think you shall immediately arrange for guns and at least 10, 12 men should be trained up so when there is again attack you can properly reply the aggressor.

So far as my health is concerned it is improving a little but at the same time another new symptom is developing. Yesterday all of a sudden I have developed eye trouble. They said it is conjunctivitis or something like that. The left eye is swollen and always weeping and I cannot see properly.

Syamasundara came here and he also wants me to come to London for talking with some important men. I am thinking of going there by the first week of July but wondering what shall I do if some new symptom of my bad health threatens me in so many ways. But on the whole, if I go to London I think it will not be difficult for me to go to New Vrindaban. Sometimes by the 20th of August I could arrive because Janmastami will take place on the 21st. Just now I cannot promise taking consideration of my bad health. But if I at all go to London there is 90% chance of my going to New Vrindaban.

In the meantime I shall be glad to hear from you what defense measures you have taken to protect the life and property of New Vrindaban. This is very important and you must take all steps. Actually the government should have arrested all the gang and punished them properly for their atrocious behavior on unarmed people. Is there an attempt to have the government punish the gang who are well known to your country? We just take measure against occasional attacks by criminals. Hoping this finds you in good health.

St. Louis
My dear Makhanlal,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 8 June 1973 and I have carefully studied the contents.

I am encouraged to hear that you have recommended a total of ten devotees for first initiation from our St. Louis temple. Preaching means to increase our family members, so I can see that the preaching at ISKCON St. Louis is going on very sincerely, otherwise so many would not be interested in becoming devotees. So on your carefully considered recommendation, I am accepting these girls and boys as my initiated disciples and their names are as follows:

Thomas Doherty-Tamopaha das; Jim Higgins-Niscinta das; Paul Gibson-Punderika das; Lance Nally-Gaya das; Steven Lisowski-Satyamadhava das; Nancy Alderman-Nikunjarasi Vilasi dasi; Deborah Little-Daksinesvari dasi; Ginette Newman-Govindarupini dasi; Donald Parker-Modandin das; Sylvia Parker-Savitri dasi

They may send their beads for chanting along with a copy of this letter to Kirtanananda Maharaja. Now you instruct them carefully that they must chant 16 rounds daily without fail and always follow the four regulative principles as well as engage in daily duties of temple attendance, classes and street sankirtana. The word initiation means ”to begin” not that when he is initiated a disciple becomes slack; rather upon initiation he begins spiritual life in earnest. Regarding second initiation, enclosed is one sacred thread chanted on by me, and the gayatri mantra. This should be instructed to Maha Muni in private, have him hear a tape recording of the mantra in the right ear. Hold a fire yajna for the first initiates.

You have asked what is the mentality of the demons who attacked New Vrndavana and why did this happen? You should know this already, that there are two classes of men, devotees and demons. The whole history is that the peaceful devotees are disturbed by the demons but that the devotees are always victorious by the grace of Krsna. In the Bhagavad-gita Krsna ordered Arjuna to declare to the whole world that His devotees would never be vanquished. And in the last verse of the Gita, Sanjaya says wherever there is Krsna and Krsna’s pure devotee Arjuna there will always be opulence, victory, extraordinary power and morality-tatra srir vijayo bhutir dhruva nitir matir mama. But because we are engaged in warfare with the forces of Maya, there will be casualties. Even Arjuna’s son, Abhimanyu a 16-year-old boy was killed at the battle of Kuruksetra. We should be prepared to protect the Deities and always expect Krsna’s Mercy, because we are always dependent on Him and we cannot do anything on our own without Him.

You have asked about whether nuclear devastation on this planet would effect the Sankirtana Movement. No, there is nothing that can stop the Sankirtana Movement because it is the will of God Himself, Lord Caitanya, that His Holy Name be heard in every town and village. Neither can the demons devastate this planet independent of the will of Krsna. Nothing happens without His sanction. If Krsna wants to kill someone no one can save Him, and if Krsna wants to save someone no one can kill him. For our parts we should just be determined to carry out our mission against all opposition, demons, nuclear war, whatever. The whole universe is finally subject to certain annihilation by the will of Krsna, but devotional service is eternal and is the only certain way one can save himself from devastation. We can preach all over the world that the only way to be saved from collective and individual devastation is to take to the chanting of Hare Krsna. In short, this material world is a very precarious place therefore we should always chant Hare Krsna and seek Krsna’s protection.

Hoping this will meet you in good health.

Dear Tamala Krsna Maharaja,

Please accept my blessings. Recently Mr. Brijmohan Mohata, along with his wife, niece and other family members, came to see me at Mayapur. He is very much pleased with our movement. He has given me one idea to educate our men in Hindi, Marathi and Gujarati for preaching work in the interior part of Bombay. I think it a good suggestion. If you are really serious in this matter you can immediately engage some of our men to learn these different languages. He has already given us a place to stay and for this proposal he will continue his patronage. So try to execute this part of our propaganda immediately.

Another point is that some friends suggest here that because I am the chief man and signatory in the Sales agreement, and as I did not cancel the agreement with Nair, I have the right to revive.

Anyway, there is a suggestion by Syamasundara that I may go to London for meeting very important men there in the new house given us by George. Regarding your complaint that Syamasundara was canvassing some of our Indian workers to go to London, that I have already stopped. So there is no cause of anxiety in this regard. Finally, I want to make some definite settlement of Bombay affairs before I return to Europe or America. If there is a suitable place for me to stay for a few days in Bombay I can go there immediately and from there I may go to London. So far my health is concerned I think I am 80-90% fit to move so there is no cause of anxiety.

My dear Jadurani,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 18 and I have carefully studied the contents.

I am very glad to hear you have begun paintings for Caitanya Caritamrta because we will require many illustrations. Re your questions:

During Krsnadasa’ time there was no Radharani deity, Madan Mohan was alone. Radharani was later introduced. The temple of Madan Mohan was formerly on high level, that is, the original old temple. It is still existent and can be seen side by side with the new Madan Mohan temple. You can write to Gurudasa in Vrndabana to send you two photos of the old and new temple. I will also write him requesting he send such pictures.

No, Haridasa Pandit is not the namacarya Haridasa Thakura. Haridasa Pandit was the pujari of the temple. As far as the old Govindaji temple is concerned, that is now rejected. It is now newly situated. Both the old Govindaji and Madan Mohan temples were desecrated by the Mohammedans and partly destroyed, but Govindaji deity was removed. The old temples are rejected and these temples are both now newly situated as you will see in the photos. No, there was no Radharani in the temple of Govindaji then; she was later introduced. Yes the deities can be painted similar to the way they are dressed now.

There is not much difference in the robes of mayavadis and Vaisnavas, but they generally use a deeper color and we use lighter saffron. Lord Caitanya did not necessarily wear the mayavadi robes. He carried ekadanda, but that is covered by the cloth, they have one rod, we have four rods. But they look the same. Yes, Lord Caitanya carries a water pot. If you sincerely pray to Krsna, He will help you to paint quicker and better.

Hoping this meets you in good health.

My dear Jaya Hari,

I am in due receipt of your letter dated 25 June along with the wonderful literature, ”Rathayatra ’73, London Summer Festival.” The collage of the pictures and the articles in the magazine have been wonderfully set up and I very much appreciate it. I can understand from your attempt that you are doing something wonderful this year. So I think I must accept your invitation. So far my health is concerned, by the Grace of Krsna I have improved very much, about 90%. In the meantime I received one telegram from Syamasundara: ”Flying London Wednesday will Telex your tickets Thursday. Offer my beloved blessings for all devotees who have signed the invitation album. I shall enjoy their company when I meet them. I wish to visit the other branches in England. Invite all members of our European centers and make the ceremony very very successful by combined effort.

My dear Hamsaduta,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 21 June and I have carefully studied the contents, including photos of posters from the festival in Heidelberg.

Your report is very encouraging to me. The communists by dry philosophy have spread practically all over the world. We are holding festivals, feasting, philosophy and salvation-why shall we not spread our influence and overthrow them? Regarding your plan to travel around the world staging such Hare Krsna Festivals-es, do it, you have my blessings.

Your progress in translating work is very nice. It is actually most important of all that this translating of books is going on at the same time as the festivals. I have seen the photographs of your festival blocking the traffic and I am very much encouraged. The pictures should appear in all languages and you should write an article for BTG.

The devotees recommended by you for initiation I gladly accept and their new spiritual names are as follows:

Richard-Sutapa das;

Rolf-Sudesna das;
Erich-Citravesa das;
Otto Karl-Niskrodha das;
Hans-Gananath;
Jesshardt-Nispapa das;
George-Gopesh das;
Ruth-Ramya dasi;
Margot-Mrdani dasi;
Karsten-Kuruksetre das;
Renata-Ratipriya dasi;
Rolf (Hamburg)-Nirahamkara das;
Andreas-Asvasena das;
Ditmar-Aya das;
Wolfgang-Visnuyasa.

As far as the GBC meeting is concerned I must be there wherever they meet; therefore we must meet at least once a year in Mayapur. Not only GBC shall meet but many devotees from all parts of the world. In Mayapur we now have facilities to accommodate more than a thousand people. We have a four story building and enough space so that even on the balcony we can accommodate thousands apart from the rooms. There are all marble floors and there is always natural ventilation. At least next March we must meet together. We have in Mayapur a doll-making department and we are manufacturing mrdangas also. If possible, some of your men may be sent there to learn these two works.

For yourself you should make your next attempt in Moscow, if it is possible.

I am going to London. So if convenient you should come and we can meet there.

I see that Himavati is busy in distributing prasadam-send some for me. Now you have a proper field husband and wife, please do it nicely. Your transcendental competition is there in Shayamasundar. I want to see who will come out triumphant.

Hope this finds you in good health.

My dear Gurudasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated June 27 and have carefully studied the contents.

Your letter is very welcome news, that all obstacles are cleared in the way of our building our temple at Vrindaban. Similarly in Bombay we have just been victorious over the party who had torn down our temple and the temple has been completely reconstructed in addition to our gaining overwhelming new popular support there.

So by your diligent work and devotion, all permission is secured and all materials are on hand. Let us pray to Krsna for speedy progress on the construction of our Krsna Balarama temple. Now many of our American and European devotees are coming to our temple in Mayapur and on completion of the Vrindaban temple we shall be able to give facilities to our ISKCON devotees all over the world to visit these two most holy places in the world.

Re. Madan Mohan Goswami, yes, we want to avoid litigation; as you have said the legal system is completely corrupt. But if he goes to the courts we shall be forced to go also.

Please offer my obeisances to your good wife Yamuna and thank her for her kind sentiments in Krsna Consciousness.

Your ever well wisher, A.C. Bhaktivedanta Swami

P.S. Please change the plan of my quarters as suggested by Saurabha & Tamala both of whom just consulted me. I am going to London next Saturday 7th so when I come back next October I may live in Vrindaban in my new quarters. ACBS

Dear Karandhara,

Please accept my blessings. I understand you are interested in when I am returning to Los Angeles. Actually just now in London we have instituted a program where important men are coming to meet with me in the evening for discussion of Krsna Consciousness. I have talked with a very famous sculptor, a teacher of a boys college and today George Harrison is supposed to visit. Syamasundara is arranging for visits by many other famous men. Wherever I shall go now this policy of important men being invited to talk with me about our Krsna Consciousness movement should be implemented.

Dear Ajita,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 28 June, 1973, and I have carefully noted the contents.

It is encouraging to me that you are in Stockholm trying to open a center, six of you including your wife. From your letter it appears you have found a nice place for a center there. Yes, we can use everything in Krsna's service and when Krsna gives us a nice big house that does not mean we use it for our eating and sleeping, but we work harder in His service.

It is also very favorable that you are able to do sankirtana in the streets and getting a nice reception. The book you enclosed is excellently done. Let me know how you are doing in distributing them.

Regarding the initiated disciple of my Godbrother Sanananda Swami, Vamanadeva das, please approach him and request that he come and see me in London.

So Everything appears to be going well there, just go on increasing. As you write that the Swedish society has placed great stress on material happiness so you can expose how this material life is actually full of miseries and temporary, and the so-called happiness is only illusion. People in the western countries are becoming gradually fed up with materialistic propaganda so you will find good response simply by chanting, speaking from Bhagavad gita as it is, and distributing prasadam to everyone. Unless the human society takes to this process the situation is very precarious. So we have to work hard.

Hope this finds you in good health.

Dear Tamala Krsna Maharaja and Giriraja,

Please accept my blessings. When I was leaving Calcutta I received your phone call mentioning that Mrs. Nair was eager to settle up the Juhu affair but since then I have not heard anything from you whether she is actually serious or whether she has given anything in writing. If she has not given anything in writing there is no value of her verbal statements. All settlement must be made very carefully. In the meantime, I have sent one letter to the Central Bank of India regarding our Bhaktivedanta Book Trust account. A copy of that letter is enclosed. Please do the needful.

Since I have come here to Letchmore Heath, I am improved in my health more than in India. The place is very calm and quiet. It is sufficiently spacious also. I walk within the village daily in the morning along with devotees and it is very pleasant. I am holding morning class from 7-8 A.M. So things are going on nicely. . There are about 40 devotees living with me, similarly there are 30 devotees in 7 Bury Place. Sometimes I go there. Things are being managed there nicely. Dear Cintamani dasi,

Please accept my blessings. I beg to acknowledge receipt of your undated letter and I have carefully examined the contents.

You have written that you are not sure what Krsna wants you to do and that Palika dasi has invited you to go to Hyderabad to come help with the deities. So I think that is a good idea that you go to India and you can do so as soon as possible. We require many more devotees now in India so it will be very nice if you can go.

You ask how you can become free of envy. Simply by chanting Hare Krsna, Lord Caitanya has said the heart will become cleaned of all the dirty things accumulated in the heart. It is not that we have to endeavor separately to become rid of envy or any deficiency or impurity. In this age the chanting of Hare Krsna is recommended as the only possible method to associate with Krsna. By offenseless chanting, when we associate with Krsna through His Holy Name, then all inauspicious things are cleared from the heart. So wherever you are you should always go on chanting, and that in itself will bring all perfection.

-

Bhaktivedanta Manor 17 July, 1973

73-07-17

Dear Isvara,

Please accept my blessings. I beg acknowledge receipt of your undated letter and I have carefully considered the contents.

I can understand that you wish to remain as householders living outside the temple, and that you have bought your own cottage in Argyll, Scotland. That is perfectly all right. Narottama dasa thakur has sung that it does not matter whether one is sannyasi or householder, simply that one should be always in Krsna Consciousness chanting the holy name. So you describe that you have set up an altar in your home and you are offering prasadam, and this is all approved by me. One thing, however, is that living as a householder you cannot go into the streets and hold sankirtana and sell our books as a means of maintenance. Such sankirtana activity can be done with the devotees of our temple in Scotland, but cannot be done independently. If you wish to live separately you have to earn your livelihood by business, by taking some employment to maintain your home and family. But not by chanting in the street; this is not a good idea for householders. For example, here at Bhaktivedanta Manor the boys and girls go out every day, including householders who are living in householder quarters within the Manor, and they go door to door and take some collection in exchange for books, and in this way we maintain the establishment. All over the world we maintain our centers by such begging, or selling our books. But this is not allowed independent of our established ISKCON centers, so please do not do it; that is my request. As far as opening another center in Argyll, where devotees can come and live and where regular kirtanas may be held for guests, that prospect you can take up with Shayamasundar who is GBC for Great Britain.

For the present go on with your decision to live as householders apart, but concentrate on chanting and reading our books and always offering foodstuff to Krsna by prayers. Live blissfully and peacefully as husband and wife, and if you go on chanting 16 rounds daily, Krishna Who is within our hearts, will direct your further as to best way to advance more and more in progressive Krsna Consciousness. We must never forget that this present life is temporary and may end at any moment. So the purpose of our existence should be to become fully Krsna Conscious and go back to Home, back to Godhead at the end of this present lifetime. I will be glad to hear of your further progress.

Dear Trai Das,

Please accept my blessings. I beg to acknowledge receipt of your special delivery letter of July 17, 1973 and I have carefully examined the contents.

I am glad to hear from you that everything is in order at our Boston temple and that the house is nearing completion in repairs and rehabilitation. This will very much increase the prestige of our Boston center so that respectable people will come and sit and hear about Krsna Consciousness. Please do not worry regarding some rumors that were being circulated here by outsiders about the Boston ISKCON temple. I can understand the actual position from your letter; so please push on with all programs as you are doing.

Krsna Consciousness is factually the only solution to all the suffering which is besetting fellow humanity and all living entities. So we have great responsibilities in discharging our duties in devotional service.

I am enclosing one brahmana thread chanted on by me for Mathuresh das. You may play the tape of me speaking gayatri mantra into his right ear and instruct him in the duties of Brahmin. We have to be real Brahmins, not just in name, and in that way we can set an example for the whole civilized society to follow.

My Dear Karandhara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 12, 1973 and I have carefully studied the contents.

Regarding deposits in my bank account, yes, in the future you may make deposits in account number 366 8 80613. In the meantime, I am sending a letter to the Bank of America authorizing them to transfer $700.00 from my checking account to my investment account.

Here at Bhaktivedanta Manor the place is the nicest possible. It is calm and quiet and the village is neat and clean. I am daily walking in the morning with all devotees and I am taking the usual class from 7-8 A.M. Very respectable gentlemen are coming in the evening. Last night George Harrison came. He has become a great supporter of our movement. He may spend more for expanding our activities. He told me smilingly yesterday, "I shall try to help you for expanding many temples." So arrangement is going on here for installing the deity on Janmastami: Many Indians are also coming and we are proposing to start a Gurukula here in London so that Indian children may be admitted. Indian gentlemen are perplexed because there is no institution to admit children to keep intact the Indian cult. So our idea of teaching sanskrit and English and our books they appreciate very much. If we start another Gurukula here I think it will be not an unprofitable activity.

Certainly I will return in September to Los Angeles. It is nice to hear that the work on the new temple will be much progressed by then.

Regarding Svarupa Damodara's going to the colleges, Rai Ramananda has also agreed to come. I met him recently in India and he is enthusiastic. Now we shall put this challenge against this wrong theory that life comes from matter. Undoubtedly matter has come from life, and we can present so many practical proofs of this. So let Svarupa Damodara and Ramananda think in their own chemical language how to push this fact to the scientific world. If by Krsna's grace they even partially admit it, it will be a great triumph. My point is even if they partially accept then they have to find out what is the original life. In the sastras we have information that the original life in the universe is Brahma and Brahma is also a product of Garbhodakasayi Vishnu. Garbhodakasayi Visnu is a product of Karanadakasayi Visnu and in this way we ultimately reach Krsna the Cause of all Causes. We have to give a fight to the wrong conception of the unauthorized scientist.

Your plan for going to the colleges in California and your titles for the lectures are very much to my liking. You may write to Ramananda to come as soon as possible. He told me he can come and see me in London. Anyway, his coming there is sure, so correspond with him; and make a strong party.

Your victory over the scientist who was saying that life comes from dust is very good. We should not take such nonsense from them. We should speak up against such false theorists and say, "Don't talk such nonsense please. Don't mislead the public. You are taking big salaries and leading the public wrongly. It would be better for you to be a street sweeper and earn an honest livelihood instead of cheating."

Regarding the contract arranged by Jaya Hari for distribution of books, we want the better terms; so please send better terms. I do not know the terms, so we have to compare. We shall accept the better terms. If Macmillan takes that is best. So I shall ask Syamasundara not to do it and I wait your sending counter-terms.

Regarding Mr. Kallman and his new offer of the record, do not enter unless he releases full rights to us. Don't take an adventure with him, he may take advantage of our advertising and not give me anything. He originally was agreed to give me 10% royalty but he never gave me anything. Deal carefully with him.

I approve of your plans to divide my downstairs quarters into 3 rooms and utilize it.

Regarding incorporation of our ISKCON centers, we want to run all our centers as nonprofit religious organizations; that is the main point. Keeping this point in view too much official control is not good in spiritual life. The centers should remain spiritually fit and independent. Some control must be there as is now. Too much control means so many vouchers. Gradually it will become a mundane institution. All our managers should be spiritually advanced simple and honest in carrying out the orders of the spiritual master and Krsna. That will be a nice standard. Democracy in spiritual affairs is not at all good but breeds power politics. We should be careful about power politics. Our only aim should be that each and every devotee is full dedicated to Krsna, then things will go on nicely. As it states in the Vedas:

yasya deve para bhaktir yatha deve tatha gurau tasyaite kathita hy artha prakasante maha twanah [ŚU 6.23]

I am afraid of taxing my brain about this Corporation of ISKCON so you and Bali Mardan Maharaja do the needful that will be a relief to me.

Dear Bali-mardana Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of July 18, 1973 with enclosed photostat of Caitanya-caritamrta which I am looking over.

Regarding the purchase of the building, I wish that unless the Columbia Club sells the building that you do not move from the present building. You proposed to move to another building but I do not appreciate this idea. Go directly to the Columbia Club building. So finish your dealings with Columbia Club managers and we can purchase and move directly there. I am praying to Krsna that He will favor you with that new house for conducting His preaching work.

Now we are going to install nice Radha-Krsna Deities here in our new Letchmore Heath Temple on Janmastami Day, August 22nd 1973. The thing is there are no nice paintings immediately available for the Temple room here. So I want you to remove all of the paintings that are presently hanging in my rooms at Brooklyn Temple and dispatch them to Letchmore Heath or London immediately by air mail. The temple room is very large, I think about 70 feet by 30 feet, so many paintings are required to decorate it nicely. Therefore all of those paintings in my rooms are required and if you can send me besides additional of the newer paintings that will be your great contribution.

I am awaiting anxiously your report on the meeting with the Japan emperor.

Your ever well-wisher, A.C. Bhaktivedanta Swami

NB: As to when I shall be able to go to Japan, I am going to L.A. by the end of August. In September I will stay in L.A. Then whenever you call me at Japan I shall be able to go. Thirty lakhs rupees will solve the problem of India.

Dear Govinda dasi,

Please accept my blessings. I beg to acknowledge receipt of your undated letter. I am concerned that you write describing that you are bewildered by the dictates of your material mind.

Of course we have to control the mind, and I have already instructed you and all my students that the restless fickle mind can only be controlled by putting the mind to the lotus feet of Krsna, and that can best be done by chanting Hare Krsna mantra, and there is no alternative in this age. By chanting without offenses, the devotee cries to Radharani and Krsna to please lift him out of the material energy and put him into the spiritual energy, which is devotional service.

And because we are not at the stage where we can chant and do nothing else all day, there are so many other engagements. So you have sufficient engagement there? Because if we are not fulltime engaged then the mind is free to do its fickle business of rejection and acceptance for sense gratification. Maya will immediately enter-we do not even have to call her-the moment we are not absorbed in Krsna's devotional service.

But if there is something further which is specifically causing you so much difficulty then please disclose it to me.

While writing this letter, your package has just arrived with various dried fruit and vegetable; so I have turned it over to my servant, Srutakirti and he shall be using it very soon in some of my preparations; thank you very much; How is Gaurasundara?

Dear Nityananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 15, 1973 and I have carefully noted the contents.

It is very encouraging for me to see the activities of the New Orleans temple. I can see you have a nice house which you have purchased in the Society's name and that you are taking care to worship Lord Jagannatha with opulence. The picture of tulasi is especially indicative, because if tulasi grows luxuriantly that proves the sincere devotional service of the place.

On you recommendation I am accepting the three candidates for initiation as my disciples. Their names are as follows:

Miss Jeri Whorrel-Hamsini dasi

Roy Roberts-Satyavrata das

David Deben-Caturbahu das

You can send their beads for chanting to Satsvarupa Maharaja in Dallas. Now hold a fire yajna and invite as many guests as possible; hold kirtana and distribute prasadam. I am enclosing one brahmana thread duly chanted on by me for Vrikodara; have him hear the tape recording of me speaking the gayatri mantra, in his right ear and you instruct him in his Brahminical duties.

Regarding Radha Krsna worship, yes, when your new temple is completed, so long as you have sufficient Brahmins you may plan to install Radha Krsna deities.

Dear Tamala Krsna Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your letter dated 15 July, 1973 and I have carefully examined the contents.

Yes, I am prepared to pay the entire amount for purchase of the land at Juhu. But Mrs. Nair cannot increase the price. If she wants to increase then we will demand she return the 5 lacs rupees, plus interest and damages. So she has already got something like 2 lacs, so as soon as the conveyance is made and taken to the register, we will immediately pay cash, about 12 lacs rupees.

You ask that I arrange to have 9 lacs of rupees ready from America for this purchase, but so far you have already paid 2 lacs, 3 lacs are in the bank-so if we have to raise 9 lacs from outside India then my question is what are you collecting there? Anyway, collect as much as possible and I will fill the balance. Rest assured, that if required, we can even draw the money from the U.S.

Now you have taken a loan of Rs 1,50,000 from the BBT, so with these excellent collections you are now taking I request you to fill up that debt and then collect further, and the balance I shall arrange. I have read how you have dispersed your recent collections to repay BBT, and Vrindaban construction and it is all right. Please deal cautiously and do not spend unnecessarily.

I am glad to hear that you have various plans for publications, but first finish this affair and then you can attempt to publish many books.

I have read your report on Hyderabad and the present state of affairs there, and it is all right. Regarding Delhi, Madhavananda has also gone there and I have written to him how he can be engaged collecting with Tejyas at the government offices.

Yes, your plan for people paying for a guest room at Vrindaban is very nice. The idea is they pay the price of the room and they may come there for their lifetime duration. This practice is called bhetnama, where a room is reserved for a donor for a lifetime. You will be able to secure much money in that way as many gentlemen will want to come to Vrindaban. So arrange to accommodate them in the new temple. You should also arrange for that in Mayapur building.

Yes, Mayapur construction must be completely finished before I return. The next time I come there must be no more workers or carpenters with their ”tack-tack” sound. I would have continued to stay in Mayapur but the hammering sounds drove me away. When you are completely finished I will go there, otherwise not. You will be glad to hear that I am eating and working nicely here. The village is neat and clean and I am walking daily in the morning with the devotees and taking the class from 7-8 A.M. It is calm and quiet here and people are coming to talk with me in the evenings. George came to meet with me and he is very enthusiastic to cooperate. Rathayatra was very successful here, as 10,000 people attended and prasadam was distributed. See enclosed newspaper.

There will not be a GBC meeting in Janmastami, New Vrindaban. The important thing now for GBC members is that they go on working. It is not important to hold a meeting for passing resolutions etc. The best time and place is Mayapur on Lord Caitanya’s Appearance Day. That is not only the best for me but for everyone. Mayapur is meant for that. If possible all devotees from all our centers should go for 8 days at that time. There is no need for the Janmastami meeting. Go on working and send me regular reports. Besides, I will not be going to New Vrindaban for Janmastami. They are having a deity installation here in London and they are making huge arrangements for many important men to attend this ceremony.

Hope this meets you in good health.

Dear Yasomatinandan,

Please accept my blessings. I heard you were transferring to our Los Angeles center but I do not know if you have left our Chicago center yet, so I am sending copies of this letter to both places.

The thing is Brahmananda Maharaj is having difficulty translating literature into the Gujarat language in Nairobi. There is a large Gujarati population there and he has had some of our literature translated by a non-devotee translator. You know well the havoc which can result if a nondevotee tries to give his interpretation of Krsna. Although Krsna understanding is very easy for those who are simple and submissive devotees, for the duratma, Krsna is very difficult. So if at all possible we want all our foreign language books to be translated by devotees. I think you are already working on Gujarati translations of our works, so please immediately correspond with Brahmananda Maharaj at our Nairobi center and offer your services as translator. Take this as a great responsibility and it will please me very much. I will be glad to hear your progress in this important matter.

Dear Bhagavan dasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 19, 1973 and I have carefully considered the contents.

You have done a nice job with the French edition of Back to Godhead, and I am especially looking forward to the next issue which will be color 32 pages. You should more and more improve this magazine until it becomes superior to all other magazines in the French language. The translating of our books such as Bhagavad-gita and Isopanisad is of the utmost importance and I am very thankful that you are seriously taking on this practical work for spreading Krsna Consciousness in your European zone.

The best date for the installation of Deities will be August 10th, Friday. So we shall probably arrive in Paris on the 9th of August and stay until August 15th when we shall return to London. You can arrange for meetings with respectable gentlemen of France, to take place in my quarters while I am there. You can immediately send open plane tickets for myself, Srutakirti, Hamsaduta and Pradyumna (Vincent Florentino, Hans Kary and Paul Sherbow).

Enclosed are the gayatri mantras for the devotees recommended by you and one thread for the boy, Kapila das. Have the brahmanas hear the tape of my speaking the gayatri mantra in the right ear, and instruct them in the principles of suci.

Yes, I have recently received a full report from Rupanuga Maharaja on the activities of the Washington D.C. and especially how you are most enthusiastic about book distribution and that you are fixing to purchase the house. I am very glad that you are taking so seriously your duty as president of our D.C. center, so certainly Krsna will give you all assistance in your preaching mission.

On your recommendation, I have chanted on the threads enclosed for second initiation of Dharmapada and Varuna das, and I have enclosed gayatri mantras as well for Rupa Manjari, Rambhavati and Vilasi as well. Dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 17, 1973 and I have considered the contents carefully.

There is no objection to going in western clothes in order to distribute my books. It is not necessary that we always wear the robes, but we should always keep sikha and teelock. However, a wig or hat may be worn as you describe. We have to take whatever is the favorable position for executing Krsna consciousness. Do not forget our principles, but sometimes we may adapt such means in order to help distribute books. Somehow or other distribute books and if you can impress people a little to chant then it does not matter about your dress.

Regarding your contemplating opening new centers, I have felt the pulse of your country and that is, that wherever we open a small branch it will develop. So now you have to train our men so that the possibility for such opening centers will be good. As soon as you have the qualified men then you can open a small branch. But the travelling part is most important, even more so than the new centers. The travelling sankirtana party must go on.

You are setting a very good example in that you yourself are going with the travelling party. The Vedic concept of the commander is that he must be in front in the fight, not that he sit back behind the lines.

I think Ottawa is an important place in Canada, so when Krsna sends you more men, you can open and execute our simple activities of chanting, dancing and taking prasadam.

Dear Kurusrestha,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 12, and I have carefully considered the contents.

Regarding book distribution, everyone, including book distributers, must follow the standard regulations. Book distribution is preaching, it should not be thought of as done for money. It is executed as a preaching purpose. With these guidelines in mind, try to distribute as many books as possible.

I can understand your concern about the deterioration of the civilization. Yes, the city will be more dangerous place as Kali-yuga advances. It will be very deteriorating. The modern civilization is so corrupt and as sinful activities are more and more committee., the people will be forced to face more troubles, by nature's order. Our business, however, is simply to take shelter of the Hare Krsna Maha Mantra and pray to the Holy Name to give us protection. We shall be unaffected by all that will happen. Krsna will provide us with working facilities. Be assured of this, that the devotees will be protected by the Holy Name. Others will have to suffer in the days that are coming.

On your recommendation I have accepted the two new devotees as my disciples. There names are as follows:

Brad Weinberg; Bhadrayana das

Cathy Serna-Cinmayi dasi

You may hold a fire ceremony for these two, and instruct them conscientiously about the ten offenses in chanting. You may send their beads for chanting to Satsvarupa Maharaja in Dallas. Hope this finds you in good health.

Dear Sukadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter of July 19, 1973 and I have carefully considered the contents.

Regarding the starting of a society newsletter, I think there is no need for it. Do not unnecessarily increase your responsibilities. What responsibilities you have make perfect. Besides, we already have our society journal, Back to Godhead. As for receiving news of other centers, why should you be so anxious? The news is always the same, sankirtana is going on, deity worship, with little change. We should rather turn our interest to learn from the books more and more. We should inquire about Krsna. Temple life is going on with little change, but we should become habituated to read the books more profoundly. Then if you have some questions about Krsna consciousness as in the books, you can ask an elder Godbrother or write to me directly. That will help you make progress.

I am glad to hear all programs are going on well under your direction in Seattle, Washington.

On your recommendation, I accept the named devotees for first initiation, and their new names are as follows:

Donald Welton: Candravidya das Karen Welton: Kadambaripriya dasi Wally Prohaska: Visnuyasa das Judy Prohaska: Kantimati dasi

You may give the gayatri mantra to Prsni Garbha dasi by playing the tape of me chanting gayatri into her right ear and explaining the principles of suci. Hopes this finds you in good health.

Vrindaban

Dear Gurudasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 20, 1973 and I have carefully considered the contents.

I am pleased to hear how you are completely absorbed in the project of our Vrindaban temple and taxing your brain how it can be carried out. I am also always praying to Krsna that He may give you intelligence to carry it out rightly.

If you let me know actually how much money will be required to complete the temple, then I can make some financial scheme so that you can quickly get money and finish the project. You and Tamala Krsna das Goswami can make an estimate and send it to me so that I can work on a scheme to arrange for that amount.

Regarding Saurabha, I think he can stay with you in Vrindaban designing, and he can also go sometimes to Hyderabad, as required, and then return to you.

Yes, I agree that you should construct the temple in sections and first should be the darsana mandap, the deity Garbha Grha etc. In this way if need be you can install the deity without other shelter.

Now Madhavananda and his wife have arrived. Kausalya is an expert Deity worshiper and an important hand in our movement, so she and Yamuna, two sisters can be very useful in Deity worship there. Keep Kausalya comfortable and she can be a great help. Madhavananda can be engaged in collections.

I think all respectable gentlemen will come and you can arrange for that. Our temple is the only Krsna Balarama temple in Vrindaban and it will be so attractive that people will automatically come and see. That quarter is aristocratic and our temple is unique. From Bombay and Delhi we can rent rooms in the temple. This is called bhetnama. Perhaps you may know. The room is used by the contributor for lifetime then it becomes again the property of the temple.

Our new disciple Hrsikesananda Swami has promised to collect money from Punjab for Vrindaban. Let him go to Punjab, leaving Calcutta. In this way all of you, Tejyous, Tamala Krsna etc., combine together collect and finish the project. I may try to help from other sources if I receive an estimate of the cost of the scheme.

73-07-27

Los Angeles

My dear Karandhara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 22nd, 1973. You are to be congratulated-you have defeated the rascal scientist Mr. Roger Reville from the Big University. Actually, it is not a very difficult task, they have no definite ideas, everything they put forward is doubtful, even they say-"I think", "perhaps", "it may be", "theoretically speaking", and like that.

Vedic knowledge is definite. Take for example Padma Purāṇa, there it is said there are 8,400,000 species of life: two million trees, one million insects, four hundred thousand humans. Nowhere do we find about so and so many, but exactly the number is given. Or we see the description of Kali yuga, and we are experiencing it. "People of this age will keep big bundles of hair and thus think themselves very beautiful." So this is going on. "For want of bathing the population of this age will appear like Pisacas"-hippies. Everything is given in Vedas exactly. Why should we go to such men for knowledge? They pose themselves as big leaders, philosophers. But we have to accept our leader according to the standard symptoms-or qualifications. The standard text book for civilized administration is Bhagavad-gita and Srimad-Bhagavatam. A leader must be peaceful, self-controlled austere, pure, tolerant, honest, wise learned and religious. Not like your President Nixon-a rogue and thief-such men cannot do any good to society, only those who are trained up in the Ultimate Goal of human life, they can lead-because human life is meant for going back to Godhead. Therefore our society is serving the whole world by supplying the missing part for perfect advancement of human civilization, we are supplying the head. Although all parts, such as legs are necessary, the whole thing is useful only when there is a head. So, everything is already there but it is now mixed up, we want to bring the whole world in to order by giving the right directions to all classes of men. Right direction means, to deliver the instructions of Krishna, and because Krishna is perfect, if you present this knowledge anywhere it will automatically defeat all the existing concocted hodge-podge ideas congesting the feeble brains of so-called scientist, philosophers or anyone.

When my Guru Maharaja was present even big, big scholars were afraid to talk with His beginning students. My Guru Maharaja was called "Living Encyclopedia", he could talk with anyone on any subject. He was so learned-so we should be like that as far as possible. No compromise-Ramakrishna, avataras, yogis, everyone was enemy to Guru Maharaja-he never compromised. Some God-brothers complained that this preaching was chopping technique and it would not be successful. But we have seen that those who criticized, they fell down. For my part I have taken up the policy of my Guru Maharaja-no compromise. All these so called scholars, scientists, philosophers who do not accept Krsna are nothing more than rascals, fools lowest of mankind etc..

So you go on with your work, it is very encouraging to me. Thank you.

Your ever well wisher, A.C. Bhaktivedanta Swami

New devotees, Evanston

My dear Spiritual Sons and Daughters,

Please accept my blessings. On the recommendation of Govinda Das I have duly accepted you as my disciples.

Human life begins when there is systematic education in the science of God consciousness. Just some days ago I was discussing with Professor Alister Hardy-Head of Religious Experimental research unit Oxford, it was his opinion that the problems of human life are over-population, environmental pollution etc.. But from Bhagavad-gita we understand that God is the father of all living beings, so the father must be competent to provide for all the children, and in the case of the Supreme Father this is actually so-we get it from Vedic Literature "nityo nityanam cetanas cetananam (Kaṭha Upaniṣad 2.2.13)-Amongst all the Eternals there is one chief Eternal Being and he is engaged in supplying and fulfilling the desires of all the others." Therefore our conclusion was that the real problem is not over-population or pollution, malnutrition etc., but the actual problem is Godlessness. So you are all intelligent boys and girls-therefore my request to you is that you study this science of Krishna Consciousness and solve all the problems of the world by systematic propaganda as far as you are able to do it.

I have already given your names in the letter to Govinda das.

I hope you are well.

My Dear Kirtanananda Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 21st July, 1973. I have noted the contents with great pleasure.

Yes! Go on acquiring the surrounding lands and in this way we will establish a local self governing village and show all the world a practical example of spiritual life as Krishna Himself exhibited in Vrindaban. Agriculture and protecting the cow, this is the main business of the residents of Vrindaban, and above all simply loving Krishna. The cows, the trees, the cowherd men and Gopis, their chief engagement was loving Krishna, and in New Vrindaban we want to create this atmosphere and thereby show the whole world how practical and sublime our movement is.

I shall go to New Vrindaban as soon as your palace is finished. Jaya!

For the small cottages I suggest to construct as the diagram below-wooden beams and between the beams fill with gravel cement. The roof may be tile. The size may be 12' x 15'. This design is especially suitable for grhasthas, who can feel very comfortable there, and you may house four brahmacaris in such place. Every day you can build one such house, ten may be required, and in one month you will have 30 such nice shelters.

Regarding Janmastami. Why not continue your festival up to the end of the month as I have suggested. I will be finished here 22nd August. So on 23rd I can start for New Vrindaban.

Why do you say "little sannyasi", you are Maharaja-Great King. Like Yudhisthira Maharaja and Pariksit Maharaja-Emperor. Actually you are doing something very, very big-so you are Maharaja. Krishna will bless you. Therefore you are Kirtanananda, one who take pleasure in Kirtana.

I hope you are well.

My dear Tamala Krishna Maharaja,

Please accept my blessings. I beg to acknowledge your letter dated 22nd July. It is very encouraging to note that the work on our BTG and other Books is going on. Actually producing and distributing books is our most important engagement, all other engagements culminate in this one end-distribution of books.

Anyway our festival here was very well received and I was so much encouraged by the whole thing that I was able to walk and dance the entire way from Hyde Park to Trafalgar Square. The newspapers showed one picture of our Ratha next to the statue of Nelson and caption was "Krishna-a rival to Nelson". So all over the world our men are working hard to push this important message. I know that you are very hard working all the time and therefore your life is becoming perfect and sublime.

Thank you for helping me so much.

I hope you are well.

My Dear Madhudvisa Swami,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 13.73. and have noted the contents carefully.

I was just thinking of you, why you had not sent your report. I thought you had become angry because I did not go to your place but came instead to London. But at that time I was so sick - attacked by dysentery. The people in Calcutta became afraid for my life. So somehow or other I recovered by 7th July and appeared fit, so I dared to come to London.

Now my health has improved and attended a grand Rathayatra festival here - find clippings enclosed. The overall effect of our festival here was appreciated by everyone, more than 10,000 persons took part and received Prasadam. Syamasundara. said that afterwards all people in London have become very friendly with us on account of being impressed with our festival.

So when shall I be able to go? I am to go to Los Angeles by the end of August. Thereafter I may be invited to Japan and whenever you call me after that I shall come.

30 lakhs cash are required to solve the problem of India.

Yes! You can practice the restrictions for Caturmasya. Pradyumna Prabhu will send you these under separate cover.

I hope you are well.

My Dear Govinda Das,

Please accept my blessings, I beg to acknowledge receipt of your letter dated July 23, 73 and I have very much appreciated the pictures of the deities and their surrounding, this is excellent, better than Los Angeles. I have named your deities Kisora Kisori. So go on with your worship and increase it more and more till all Chicago has become aware of Kisora Kisori in your temple.

Regarding Gaura Nitai deities either wood stone or metal, it is all right.

There should be no complaint, under all circumstances we must chant regularly 16 rounds and attend the morning and evening classes, for Krishna we can work like anything, but one lick done for maya it is useless, overendeavoring.

I am going to New Vrindaban and thereafter I shall be happy to accept your invitation for Chicago to meet the Professors as you mentioned. I shall inform you later of my itinerary.

So you are doing nicely, especially the deities have attracted my attention. The credit goes to you and your good wife Srimati Srilekha Devi Dasi. I shall be glad to initiate Naiskarini Devi Dasi as Brahmin along with the other devotees that you have recommended. their names are as follows:

Tom-Tamohara Das Adhikari

Mireya-Mantrini devi Dasi

Lynn Allen-Ranjani Devi Dasi

Kathy Ferio-Kalalapa Devi Dasi

You may perform a fire sacrifice for the initiated devotees and their beads may be chanted upon by Satsvarupa Maharaja.

I hope their all success in Krishna Consciousness, and I am counting on sincere boys like yourself to help me by managing temples all over the world.

I hope you and your Good wife are both well.

Sir Alister Hardy, F.R.S. Religious experience research unit Manchester College Oxford OX1 3td

Dear Sir Alister Hardy,

I beg to thank you for your coming here yesterday evening, we had very nice talks on religious experience, and I have studied your replies to my questions very carefully.

My first question was ”what is the problem of the human life?” So I have already explained, the problem is that at the present moment there is no proper understanding of God. Human life is especially meant for this purpose, to understand God. That is quite natural, cats and dogs or lower animals or man almost like animal cannot understand God, neither they think such things are necessary, that one should understand God, and his relationship with him.

According to Vedic understanding, a human being without understanding of God is no better than an animal, and that is a practical proposition, that is the only difference between an animal and a man. For man there is a religious system-scriptures, it may be Bible, Koran, Bhagavad-gita, Or Srimad-Bhagavatam, it doesn’t matter everywhere there is a system, religious system, philosophical system to try to understand the supreme power. In your research institute you are also trying to explain that supreme power. Your research institution is the latest institution to study that supreme power. Therefore the right conclusion is, the problem of the human society at the present moment is to understand God, or as you say, the supreme power.

When we speak of power, it means there must be a source of the powerful, for example we may speak of the electric power, so immediately it suggests that there must be a source of power, the power house, and the power house is being conducted by some engineer. So ultimately there is a living force, a living entity. He is Generating the power by mechanical arrangement, and we can experience his power in so many ways. You have tried to explain in your book ”The findings of such research might spark off a new phase in religious history, people might be induced to try the experiment of approaching this power in their own way, not by prayer or the alteration of physical events or for national safety or material aims, but for spiritual strength and guidance for a better way of life, or perhaps how best to deal with some difficulty.” This is indeed very good.

When you say ”People might be induced to try this experiment” of approaching this power. Power is energy, so when you speak of approaching the power it means the powerful, power is not independent unless being the power there is a supreme powerful, this is reasonable, to search out the powerful. Without the powerful no power can exist. A politician or a big general exhibits his power as the powerful by his commandment or by his order. Therefore your understanding of the power is not complete, you must induce people to approach that supreme power. We can understand power in wealth, if a man is very wealthy he is powerful and can exhibit his power by spending money. Similarly if a man is very strong he can exhibit his power in so many ways. Similarly if a man is highly educated he is also powerful, he can influence so man men with his knowledge. Therefore we have to accept that behind the power, there must be the powerful, otherwise our knowledge is imperfect.

When we understand the powerful then immediately we can know his different powers perfectly. The powerful has multi powers. if a A person can understand what is that powerful God, then he can easily understand what are his powers. So this whole world is being conducted by the power of the supreme person, or the powerful.

The only problem that we face is that we are neglecting to understand the supreme powerful. The subsidiary problems as you Have stated, just like over population have been created by man. If we accept that the ultimate truth is the powerful, then the powerful can maintain any number of population, otherwise there is no meaning to Powerful if he is subjected to any limitation. The supreme powerful is unlimitedly powerful, and practically we can see that the problem of overpopulation amongst the animals is not extant. Just like the elephants, they are not thinking where to get food. Or just like the cats and dogs and hogs, they are producing at a time half a dozen Children or more, so incomparison to them man is producing one child, or two children. Formerly man used to have hundreds of sons, at the present moment a man has got two three at most ten sons. So where is the question of over population? We understand from the history of Mahabharata that Dhrtarastra had one hundred sons, but there are many other examples also. Maharaja Rsabha dev had one hundred sons, so they were big prominent men in the history the names of the most prominent men are mentioned. It is therefore safe to conclude that if the King can produce one hundred sons the subjects also can produce one hundred sons, if not all of then at least some of them. So at that time there was no question of overpopulation, we do not find it in the history of Mahabharata.

Actually it is not a question of over population but of equal distribution of food. Just like America, they are producing enough food, and there is potency of producing more. But the Government prohibits the farmer to produce more. It is not a problem that the population has increase, but the distribution is mismanaged. Or by industrialization we have reduced the energy for producing food in favor of producing thing other than food. So on the whole it is not a question of overpopulation but of equal distribution of food, or producing food. For want of God consciousness this mistake is there.

If God is all powerful, he may not agree, or at least his agency, the material nature, may not agree to give sufficient food to the demons. Demons means Godless persons. We get this historical event from the Srimad-Bhagavatam, that during the time of Maharaja Prthu there was scarcity of food, so the King wanted to punish the earthly deity, because she was not supplying food. He wanted to kill her. But the earthly deity replied, that she has reduced the supply of food because she did not like to supply the demons. So there is no question of overpopulation, it is a question of demons. The number of demons has increased and therefore by nature that supply is minimized. As we were discussing that verse from Bhagavad-gita that ”The production of food depends on sufficient pouring of water from the sky” that is not in our hands. Because we have become Godless, because we have stopped sacrifice or Yajna, which means to worship the Supreme Personality of Godhead, the supply of rain may be stopped. God may not be angry, but his agents like the material nature, she does not like to give sufficient food stuffs to the demons. That is the version of the Vedic literature.

At the present moment the people are all demonic, the do not care for sinful life, unrestrictedly they are killing animals which is the most sinful activity, unnecessary. They are indulging in all kinds of intoxicating habits, and unnecessarily they are indulging in prostitution. The demonic people take advantage of women who do not get husband and take advantage of their body for sense gratification. These things are happening because people have no knowledge of the powerful. So the real problem is want of God consciousness. People should know that power, then other problems will be automatically solved.

Similarly the problem of malnutrition, it comes to the same proposition. Because nature is taking revenge on the demonic population malnutrition is also one of the branches of such revenge.

Pollution of environment is a problem which people in a America are viewing with great concern. This problem is also due to Godlessness. People instead of producing food they are producing in huge quantities some artificial necessities of life, for which so much industry is working at top speed. Industrialization means to bring the people more and more away from God consciousness. The laborer, the worker in the factory, all of them are sudras, and the capitalist of the industry they are vaisyas, so the whole population is now composed of vaisyas and Sudras, which means the quality of passion and ignorance is now prominent. A passionate person or ignorant person cannot understand the Powerful, only those who are in Goodness or mixed Goodness and passion they can understand the powerful. so there is a necessity of changing the ignorant persons into persons with real knowledge. Therefore these people should be turned to become God conscious, that is our programme. Anyone from any group, either sudra, vaisya, or any group lower than the sudra, we are taking them and making them intelligent and giving them a chance to understand the supreme power.

So all around the real problem is to understand the supreme power and all other problems are subsidiary. There is no question of over population of people become God conscious. The all powerful can supply any amount of necessities of the people, and they can eat very nicely and so there is no question of mal nutrition. For want of knowledge of the supreme powerful all these problems have come into being.

Then as you mentioned the problems of clashes between racial and national interests which often lead to war. This problem is also due to lack of God Consciousness because God consciousness means to understand that we are all sons of the same family. That is stated in the Bhagavad-gita, that the supreme lord must be the supreme father. I have got my father, he has got his fat father and he has got his father on and on he has got his father, in this way there must be one ultimate father, nobody can deny it. So that ultimate father he is God. Therefore in every scripture the supreme powerful is addressed as father, and in the Bhagavad-gita also the supreme powerful is mentioned as the suprem seed Giving father. Because we are forgetting the father, because we are forgetting that we are all the servants of one supreme father we are missing our real relationship between one living entity and another. If we actually understand that we are born of the same father and everything that is there on the surface of the globe, in the sky in the water everything is the property of the supreme Father, then we must understand that everyone has got the right to use the property of the supreme father. Just like in a big family the faTHER IS THERe, the mother is there and the sons are there. The father gives food to the sons as much as they require. One son may be a very voracious eater so he may eat more than the other son, but the father supplies him, he does not stop him, the father is competent to supply all the sons as much as they require. But if one son is hoarding food stuffs, that is sinful. You cannot take more than what you need. We see practically if we throw one bag of grain in the street many birds will come, they may eat two three four or ten grains, but they do not stock away for the future. But if we put a bag of rice into the street and allow people to take there will be regular fight, because every human being will want to take more than his immediate need. So this is also due to lack of God consciousness. If one can understand that the father is there, and he is supplying daily bread then why shall I stock more than I need. the present scarcity of food stuffs is due to hoarding by the capitalist. There is enough food stuff in the world, but at the same time there is a scarcity. If you pay more money on the black market then you will get enough. So from God's side there is enough food, but from our side we are mismanaging everything simply to make more money. Unless there is God Consciousness, understanding that everything is the property of the supreme father, there are so many children so he will supply, why should I hoard food, the problems will not be solved.

Now so far as ideology of religion is concerned: Religion means to abide by the orders of God, that's all. God is great, we are his sons, he is supplying all our necessities these are the right understandings. Why should there be any difference in religious practices. If you come to God consciousness then we can understand the birds the beasts the plants everyone is son of God, we have no right to kill. But the so called man made religious systems say the animals are our food and another religion says, "No, no, there should be no animal killing," this difference in practice of religious systems is due to want of God consciousness. If we actually come to the point of God consciousness then all these differences will be perfectly resolved, but unless there is actual God consciousness you will not be able to change the Ideologies. I have asked many Christian Gentle men "Why are you killing when in the Bible it is clearly said, Thou shalt not kill?" they cannot give me any satisfactory reply. In a round about way they try to avoid this question. So all these are due to a lack of God consciousness.

So all these problems are due only to a lack of God consciousness. Therefore is you can actually help people to know about the supreme powerful that will be a great help. But I see that your method is not very satisfactory. You are making research by accepting the statements of common peoples expression of religious sentiment. There is no need of research, the result of research in this matter is already there perfectly presented in Bhagavad-gita, all we have to do is accept it and the whole problem of research is solved. You want to establish your conclusion of religious experience by taking the opinions of laymen. A laymans sentimental expression about religious problems is not a practical understanding of religious problems. Religion as we have explained means the orders of God, therefore it must be scientifically studied, what are his orders, how to abide by them. Simply by taking statistics of the sentiments of common men we cannot come to the right conclusion.

Therefore for right understanding we are advocating that people take advantage of this institution, International society for Krishna consciousness by hearing about God from authorized books like Bhagavad-gita and Srimad-Bhagavatam which were directly spoken by God himself, therefore making the whole thing most scientific and practical. I hope that we can again meet and discuss this important matter further.

I hope this letter meets you in good health.

My dear Naiskarmi devi dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 3rd July. You are exactly correct when you write that Krishna has benedicted you with a first class husband. In Vedic society no girl was allowed to remain independent and unmarried. Independence for women means they become like prostitutes, struggling to capture some man who will take care of her. In this way the so called independent woman has to work very hard to make herself attractive by artificially wearing cosmetics-mini skirts and so many other things. Formerly the girl would be married to a suitable boy at a very early age, say six years old. But although a girl was married early she did not stay with her husband immediately, but was gradually trained in so many ways how to cook, clean and serve her husband in so many ways-up until the time of her puberty. So all the time there was no anxiety because a girl would know-I have got a husband, and the boy would know I have got this girl as my wife. Therefore when the boy and girl would come of age there was no chance of illicit sex-life. And the pychology is the first boy that a girl accepts in marriage, that girl will completely give her heart to, and this attachment on the girls side for her husband becomes more and more strong, thus if a girls gets a good husband-one who has accepted a bona fide spiritual master and is firmly fixed up in his service, automatically the wife of such a good husband inherits all the benefits of his spiritual advancement. So you are fortunate. Go on in this present attitude, serve you husband always and in this way your life will be perfect, and together husband and wife go back home-Back to Godhead.

I hope you are well.

Why should we endeavor separately to produce another magazine. Whatever articles are written by our students may be published in BTG by submitting them to the chief editor Satsvarupa Goswami Maharaja. BTG is especially meant to give some facility to our students, to train them to write articles on the philosophy of Krishna consciousness. Our energy should be concentrated on one thing at a time, not that everyone will start their own magazine wasting time money and manpower. Our BTG Is there and it is being distributed without financial risk, so submit articles and increase the pages of BTG and increase the distribution also. The temples have now enough literature, and besides that if you simply ask for a little contribution, no one will send.

My Dear Bhakta Dasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 29 July, 1973 and I have noted the contents very carefully.

From your report I can understand that you are very enthusiastic. I like also your idea of celebrating Govardhana puja. This should be our programme to attract the general mass of people. If we go on preaching vigorously as we have been for another 25 year then all these other so called religions will disappear. After all what do they have to offer. In the Christian religion all we see is Christ's picture as he was crucified, so how people can be attracted to such thing? There is no science, philosophy, music, art, Prasadam, it is no wonder that the people are rejecting this nonsense. Not that Christ himself was nonsense, but those who are preaching in his name they are nonsense because they do not follow even the simplest of his orders. "Thou shalt not Kill." I have met with so many Christians and when I ask them why Christians are killing they cannot answer. The first principle of spiritual life is non violence. They will say Killing in this matter means actually Murder, but accepting even this argument, it means that the society in which Christ was preaching were composed of Murderers, so what kind of men they were, and practically we see it is a fact that because they murdered Lord Jesus Christ. At any rate there is nothing in the world thAT CAN COMPARE WITH our Movement of Chanting and dancing. So Chant dance and when you get tired take Prasadm, this is our actual solid preaching work all over the world.

I have noted that you are collecting great amounts of money, therefore I humbly request you send 50% to India for the Vrindaban Building Fund. Don't spoil the money in any way, simply utilize it for Krishna's purpose.

My Dear Ramesvara,

Please accept my blessings. I am in receipt of your letter dated July 29, 1973 and I have noted the contents with great pleasure.

There is no doubt about it, to distribute books is our most important activity. The temple is a place not for eating and sleeping, but as a base from which we send out our soldiers to fight with maya. Fight with maya means to drop thousand and millions of books into the lap of the conditioned souls. Just like during war time the Bombs are raining from the sky like anything. So you are the expert in this field.

I like also your programme of sending out your best men to teach the others. That is the actual process of Krishna Consciousness. To train others continue this programme so that in the future every devotee in our movement will know the art of distributing books. This is approved by me.

My Dear Tamala Krishna,

Please accept my blessings. Hamsaduta has sent you one copy of a letter addressed to the Manager, Central Bank of India account No. 9-381 I.S.K.CON. Building Fund. Previously I asked them to send me a statement of this account, but I have received no reply from them. Please therefore go see the manager with a copy of the letter already sent you and the enclosed letter. I wish to send money to this account as you asked me in your letter dated July 15, 1973. But one thing I'm asking you, whether any negotiation has taken place or not. If no negotiation, then why transfer money unnecessarily to be blocked. Please therefore let me know definitely on this point so I can do the needful.

Previously I heard that Giriraja had opened another Book fund account in the Overseas Bank. Is this correct? If so what is the balance amount there, that I also want to know, and who is jointly signing checks in the Overseas Bank. If there is any such account please immediately transfer to the Central Bank of India Building Fund Account and let me know all these points in detail, this is absolutely necessary. Whatever amount you have collected, that also deposit in this account. But the main point is whether any negotiations or settlement. I am prepared to send the balance of 9 Lacs, but I do not wish to block this amount without definite understanding. Kindly reply this letter immediately.

My Dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letter and enclosed check for daksina. In the meantime, I have also received a package of photographs. Your festival appears to be just like Jagannatha Puri, it is so encouraging to me to see how very enthusiastic you are working there. Yes! I shall certainly come to your Ratha Yatra Festival next year.

Regarding selling books in Karmic clothes; yes, it may be done, there is no harm. This book distribution and Ratha Yatra Festivals should go on all over the world. I want to introduce this Ratha Yatra Festival programme all over the world.

If you can actually supply the society with Gaura Nitai deities it will be a great achievement. But one thing is that you should try to find out some strong wood. In India they use Neem wood because this wood is not attacked by termites, if you can find out a similar wood there that will be best, or you may see if you can import this wood from India if it is not too expensive. When you have finished something, then send me a photograph. Regarding the taking of sannyasa of Purusottama I have as yet not received any recommendation from you, so if you recommend him then I shall send the cloth, kaupin and mantra. You can make the rod there.

Yes! The accredited teacher may lead a ”Gurukula” but first of all let him understand our philosophy perfectly and become himself strong.

So I thank you for your support. I have sent one letter and sample of Satsvarupa Goswami's report which I consider to be standard for the other GBC member to follow, so please see it and try to follow his example.

My dear Bhutatma,

Please accept my blessings. I beg to acknowledge receipt of your letter and enclosed photographs of the Ratha Yatra Festival. If we introduce this Festival in all big cities of the world along side with book distribution then in no time we will conquer the whole world. Yes! certainly I shall come to your festival next year, thank you.

By your recommendation I have chanted upon the enclosed sacred thread and agree to accept the devotee Jambavan Das Brahmacari for second initiation __ becomes twice born, or Brahmin. The qualifications of a Brahmana are listed in the 18th Chapter verse 42 of the Bhagavad-gita. ”Peacefulness, self control, austerity, purity, tolerance, honesty, wisdom, knowledge, and religiousness-these are the qualities by which the Brahmanas work”. So you should be very much careful to see that our devotees are following the regulative principles and standard practices such as attending morning Arati, classes, Sankirtana, and reading our books. We want to create some men who can give guidance to the human society, because at the present moment the society is without any intelligent head, namely Brahmins, therefore the whole world is confused for want of real guidance in the matter of ultimate goal of life. They have taken sense gratification as the ultimate goal and therefore everyone is frustrated, because the living entity has nothing to do with the temporary material senses. The senses will never be satisfied, Krishna must be satisfied and then the living entity as eternal part and parcel of the Supreme Lord is automatically satisfied. So the Brahmins are supposed to serve the whole society by distributing this important information. Please help me in this way and Krishna will bless you.

I hope this letter finds you well.

My Dear Mahamsa,

Please accept my blessings. I am in due receipt of your letter dated 2nd August, 1973 with enclosures and noted the contents carefully.

Sriman Pannalal Pittie and Sriman Seshu are quite right when they say that the clause number five in the deed must be omitted. Tamala Krishna is not right. He says that we can always prove in the courts that what ever we do is in accordance with the rules and regulations of our society. But that clause number five will remain a pin-prick in the whole arrangement. The Hyderabad caste brahmanas came to fight with me on the issue that brahmanas are made by Birth, but we do not follow this principal, therefore now if we accept this defective donation and later on this question is raised that we are getting the Deity Worship maintained by Europeans and Americans who are not born in brahmana families there will be great litigation on this issue and it may be judgement is against us, then what we will do? We have to invest lakhs of Rupees on this temple construction and if later on this is cancelled as you write distinctly "The deed of trust shall stand as cancelled and the property hereby conveyed in trust shall revert back to the author of the trust." So you think we are going to take such risk? Suppose it is going to be reverted to the author of the trust which means he gets the property worth lakhs of Rupees invested by us. Tamala Krishna has no sense that he wants to settle up the things in court as he has done in our Bombay affairs. Un-necessarily he has cancelled our sales agreement with Mrs. Nair and we are suffering so much in litigation. So, he has not gained any experience what is the meaning of going to court. Therefore I can not agree with him that we shall prove in court that we are doing alright. We do not want to keep any clause in the deed of gift which will generate a sort of litigation with the __ in the future. The trust gift must be unconditional. So Sri Pannala Pittie is right and I agree with him. When I was in India Tamala Krishna said that the draft deed would be first accepted by Pannala Pittie and then he would get it confirmed by our lawyer in Bombay. But I do not know why by talking on telephone you should decide such an important transaction. I hope either you or Tamala Krishna should not act anything in this connection without consulting our friends like Pannala Pittie and finally approved by me. So one lakh of Rupees which I promised to pay first in the beginning of this construction, that promise stands good and I shall immediately pay one lakh of Rupees for construction as soon as the deed is finally executed.

I hope this meets you in good health.

My dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your letter and GBC report, it is very nice and I am having it copied and sent to the other GBC Members so they may follow your example.

I was not at all inconvenienced by you, on the contrary, I say that you were the best secretary and you did your work most faithfully, I appreciated it, may Krishna bless you.

Yes! Before the Spiritual Master a dullheaded fool is required, an over intelligent disciple is not a very good qualification. Even Caitanya Mahaprabhu presented himself as a dullheaded fool in front of his Spiritual Master and faithfully chanted Hare Krishna.

So now Krishna has sent you a nice bus, and you also have a good field for preaching. Chant, dance distribute books and Prasadam and everything will increase automatically.

I hope this letter finds you well.

My Dear Tamala Krishna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 2, August 1973 and I have noted the contents very carefully.

Yes! Hrsikesananda Maharaja may collect money for Vrindaban, that will be nice. But I notice that you are to collect one Lakh only, how is that? You are GBC so you should collect more than the others, you should collect the highest amount. One thing is that the Hyderabad scheme is hazy, so that collection may be spent for Vrindaban. See the correspondence with Mahamsa above. Yes! your idea to install Krishna Balarama first is all right. It would be nice if all the deities can be installed at the same time, but if it is not possible then installation of Krishna and Balarama is all right.

I am very pleased to note that in Delhi they are doing the life membership programme. Previously I suggested this to Madhavananda and now he is doing it, that's nice. I also was meeting big Government officials and distributing my Back To Godhead in that way, at that time there were no books.

I have already written to you in my letter dated July 20th 1973 that I will dispatch the 9 Lakhs if negotiations are fruitful. (See enclosed letter). You show three Lakhs and I shall show 9 Lakhs.

Yes! I have received the Bank statements from C. B.I. I shall talk of this thing later.

Out of the 150,000 Rs/. you have repayed only 27,000 Rs/. you have to complete this immediately so 3 lakhs will be shown from Gowalia Tank Branch and 9 Lakhs from C. B.I. Head office, so whatever money you collect use it to fill up this blank. You fill up the 50,000 Rs/. and I shall show the balance of 9 lakhs in the C. B.I. Head office.

So pay immediately another 30,000 Rs/. and free the second 50,000 Rs/.

The collections from your part meant for Vrindaban may be sent later because the construction is going on there. First of all fill up if you are serious about negotiations.

I have met Mr. Therany in Zurich and he is a nice gentleman, he will pay as promised, so keep him satisfied.

Observe many festivals, that will keep both public and devotees alive. Temple means festivals and Festivals means chanting and distribution of Prasadam.

Regarding Hyderabad, I have got the draft and letter and the reply is sent to Mahamsa and you. If you have got a copy then you ask Mr. Vakil that the clause No. 5 shall be omitted. You cannot go to Hyderabad unless approved by me, you will understand everything from the enclosed letter. But I am happy to know that the preaching is going on. Above all our preaching must go on. If we do not get that land then we may purchase some other land, that is not a very difficult thing, but preaching is our real business.

If Mrs. Nair's solicitors are serious then we can show bank reference by the 25th August 1973.

Gargamuni told me that he collected 50,000 Rs/. of which the major portion was spent to pay for bills that Madhavananda left unpaid. If this is a fact then it is most dangerous. Let me know. Gargamuni is sending you reports, but have you not received this report?

I hope this letter meets you in good health.

My Dear Tamala Krishna,

Please accept my blessings. In continuation of my last letter regarding transfer of money to India for purchase of Hare Krishna Land (9 Lakhs Rs/.), I beg to inform you that transfer from this side may not be difficult, but if there is no commitment from their side I do not wish to transfer the money for being blocked. To get back the money from India is a great botheration. In other words, unless I am sure that they are going to sell I am not going to transfer the money.

Regarding your telegram worded as follows: "Sending draft Hyderabad deed in your name. Send me Bombay your power of attorney for Hyderabad transaction. Urgent." I have not as yet received the draft. One draft which was sent by Mahamsa was not approved by me. I have already sent you a copy of a letter addressed to Mahamsa. So when I receive the deed sent by you and it is approved by me, I will send you the power of attorney.

If Mrs. Nair is not going to sell us the land then what next step we have to adopt? you cancelled the sales agreement on the condition that she would return our money and damages which she has not done till now. On account of her failure to return our money can we not withdraw our letter of cancellation and thus take specific action on the sales agreement? We fixed a criminal case against her for attempting to dispossess us from the land, and what happened to that case? The idea is that if she is not going to sell the land to us, and at the same time does not return our money with damages and interest, and occasionally tries to dispossess us from the land, then what steps we have to take? Our clear point is that either she must sell to us, and we are prepared to pay cash 12 Lakhs Rs/., or she must return our money with damages which amounts to 5 Lakhs Rs/. We should stick to these two points in consultation with your legal committee.. She has given us so much trouble and botheration, she must pay at least 5 Lakhs Rs/. for our money due from her principal interest and damage.

I hope this letter meets you in good health.

My Dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letter and check for 1111.00 dollars.

Regarding the old lady blessing the king, although the part of a constable is not very big, but the blessing is big always. Just as Krishna wants from his devotee a little flower, a little leaf, a little water, or a little fruit, these things are not very big things, still if a faithful devotee offers to Lord Krishna with love and service, Krishna accepts them very gladly. So Krishna's gladness and the devotee's love and sincerity, they are taken into consideration. Similarly when a person offers something in sincere faith and love that is always welcome either by big or small men. So as you are spreading Krishna consciousness in Australia. Hamsaduta is also spreading in Germany. He has got 8 vans and they are out regularly preaching sankirtana and selling books and he is now well to do even financially, and I hope you are also well to do, otherwise how you can promise for the next year 11,111.00 dollars. It is very nice. So you continue this system of preaching village to village by increasing the number of Sankirtana parties, it will be appreciated by Guru Gauranga. Do it nicely, you are a fit person, Krishna will bless you.

I hope this letter will meet you well.

My Dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 1, 1973 and I have noted the contents carefully.

The book fund debts should always be cleared very quickly, otherwise how books will come out, so always pay regularly as you collect.

To install Deities in a moving vehicle is not very good. There is always danger of falling and breaking. Sudama already has experience of this. Why is Deity worship being introduced? It should not be introduced because it is very difficult to maintain the standard under such circumstances. If you have picture of Guru Gauranga that is sufficient. You are wondering if you did the right thing by giving the Deities to Sudama, so the answer is no. The deities may be brought back and worshiped in the temple as before. The idea of traveling Sankirtana is to distribute books not to do Deity worship, it is very difficult to maintain the standard of Deity worship in the temple, how will it be maintained in a truck?

Another thing is that opening temples should not be encouraged at this time. Subala did the same thing in Santa fee years ago, why again he is doing the same thing? Hamsaduta in Germany instead of increasing the temples and Deity worship he has increased the Sankirtana parties. He is running on 8 New buses and distributing large quantities of literature, this is more important. Neglectful Deity worship means offense. So make propaganda in this way, but in the bus there should not be Deity worship, simply the picture of Guru Gauranga.

I hope this letter meets you in good health.

ACBS:hda NB. Mr Pulla Reddy gave us the land as a donation and why he is making now this land as a trust property, why not outright gift land? These are very important points. My Dear Tejiyas,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 1, 1973 and I have noted the contents carefully.

If you make some of the big Government officials interested in our movement then our strength will increase. Because we are in the material world sometimes we require that help. Another point is that if a government officer becomes our admirer or member then many others will follow, so try to make them sympathisers.

It is good news that you have got the L.I.C. ground for holding our festival, maybe I shall be back in India at that time. Last time the L.I.C. festival was unique and successful many gentlemen wanted to increase the period, so try for the maximum period provided with Prasadam distribution. If possible arrangements should be made so that the kitchen can continue to cook and Prasadam distribution may go on continuously, in Delhi this is not difficult. If you do so the richer section of the public will contribute food grains, flour, ghee etc.

Your idea to get our men made as official government guides is nice, also if the government agrees to build one or two room in our temple that will be good. I respectable gentlemen become interested in our Krishna Conscious Movement then our temple in Vrindaban will stand first, because all other temples in Vrindaban gather general mass of people without philosophical understanding. Some 50 years ago some Christian priest went to Vrindaban and inquired from many residents why Krishna enjoyed Rasa dance with other wifes which is against the Vedic principle, but nobody could satisfy him. On this point my Guru Maharaja said that Vrindaban is inhabited by neophyte devotees. So we wish our temple will be able to reply anyone in the matter of Krishna Consciousness, then many modern philosophers and scientists will come to Vrindaban, that will be very much prestigious.

I hope this letter meets you well.

My Dear Tamala Krishna,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 16th August 1973. So the Hyderabad situation should be cautiously dealt with and Mr. Pittie should be consulted. When the final agreement is made send me a copy and if I approve then I shall send you the power of attorney.

Herewith please find fixed deposit certificate xerox copy for 143,727.78 which is equal to 10 Lakhs Rs/., now deposited with First National City Bank in the name of ISKCON on the 20th August 1973. So you can utilize this xerox certificate that we have money. I will send you further certificate of deposit in the bank for 161,000.00 equivalent to 12 Lakhs Rs/. So I think Mr. Vakhil will be convinced about our financial position and we have got 50 branches in the U.S. alone, so if required we can raise immediately 50 Lakhs Rs/. but we do not wish to block the money unnecessarily especially in India. So at any moment 12 Lakhs Rs/. can be paid to Mrs. Nair without any difficulty.

From here I have got my program in Europe up to 15th September. I have got my program in Stockholm also 5th to 9th September. So most probably I shall go to Japan on the 15th September directly from London. If in the meantime the Nair affair is fixed up then I shall carry the money with me and go to Japan via India. Find herewith 2 xerox copies about our financial position, you can do the needful.

I hope this letter meets you well.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. I have received one complaint from Indian devotee at Mayapur Prabharupa Das Brahmacari that he is mal treated by our American devotees. Kindly inquire into this matter and do the needful. Either Indian or foreign whoever joins us they are not under any obligation, our only tie is Love of Godhead. It should be our definite policy that nobody is ill treated that he may go away. We recruit a person to join us after spending gallons of blood. Everyone comes for reformation, you cannot expect everyone to be perfect, rather it is our duty to make everyone perfect as far as possible. So we shall be very much cautious and careful in this connection.

When I hear about the Sankirtana Buses that are moving all over the world then I think that we are becoming like a gigantic guerilla warfare movement fighting with maya. This traveling in buses is the best means to drive away maya and establish Krishna consciousness all over the world. After all the whole world is the property of Krishna, but temporarily it is being illegally occupied by maya's agents. Flood them with kirtana and books, this is the best weapon, increase the number of buses that will be your success.

The new initiates are named as follows: Peggy Flyn-Purnamasi Dasi, Garry Pennington-Punderikasam Das. I am also enclosing one sacred thread and mantra for Ganapati Das. You may proform a fire ceremony and distribute prasadam feast.

I am enclosing herewith the sacred threads and Gayatri Mantras as requested by you. Hold a fire sacrifice amongst yourselves and prepare a nice feast and distribute to the devotees.

Yes that is nice that you are distributing many books. I do not want money, or buildings or anything else, I simply want to see that my books are being distributed and because you are doing that I am quite happy.

I hope this letter finds you well.

My Dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 22, 1973.

You are the only one sending in reports, so I thank you very much for your diligence.

If you can arrange for meetings with Professor Dimock and other professors then do it for the month of October and I shall come.

Krishna is very kind upon you because he has given you so many responsible tasks. So always think of the Lotus Feet of Sri Krishna and you will find no difficulties in executing the tasks allotted to you by Krishna. Bhaktivinode Thakura used to say all difficult tasks he had to execute for Krishna were considered as great pleasure for him.

Regarding the criticism from others, that may be there but we have to follow our own principles. Syamasundara. was too attached to his daughter and therefore he took her back, but it is not good.

Kindly see that the principles are being followed, deity worship, sankirtana, chanting etc. If we maintain these principles rigidly there is no question of fall down and without any difficulty our progressive march will advance.

I hope this letter meets you in good health.

My Dear Sudama,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 20, 1973.

I am happy to note that you are traveling and preaching, this process was also practiced by Lord Caitanya Mahaprabhu, in the beginning of his sannyasa life he traveled all over India for almost six years and my Guru Maharaja also traveled, and similarly I am also traveling. One thing is that I do not know how practical it is to carry deities in the truck, by the jarring of the vehicle there may be some damage and also I think that it is not possible to keep the top standard of worship, cleanliness, punctual offerings etc. We must be very careful about deity worship, if it is neglectful then it is very offensive and that will not help us, we should not do it simply for show. My suggestion is that all our buses should be outfitted with the picture of Guru Gauranga, that will be quite nice. Main business of traveling buses is to distribute books profusely, what do you think?

On your recommendation I accept Pat Hedmark as my duly initiated disciple and his name is Praghosa Das. For the second initiate I am enclosing 3 sacred threads and four Mantras. Hold a fire ceremony and distribute Prasadm generously.

I hope this letter meets you in good health.

Letter to: Susan Beckman

Herts, England August 29, 1973

73-08-29$_{A1}$

My Dear Susan Beckman,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 24, 1973. I have noted the contents carefully.

Lord Sri Chaitanya Mahaprabhu, the incarnation of Godhead in this age has delivered the medicine for all problems of the world by his introducing the Sankirtan movement. Sankirtan means to chant that Holy names of the Lord and to give up all other engagements. The chanting is a process of purification. Just like we use soap to cleanse the body, this is material, but the chanting is spiritual cleansing. The three stages of cleansing are first to clean the mirror of the mind. In the Bhagavad Gita it is said, ”The mind is the best friend and the worst enemy, for one who has learned to control the mind it is the best of friends but for one who has failed to do so it is the worst enemy.” Due to long term association, the mind absorbed in material things has become contaminated, or dirty, the chanting process purifies the mind. Then the next stage, when the mind is cleansed one becomes free from the symptoms of material existence. Material existence means to be always hankering and lamenting. I must have a ew automobile, I must have more money, I must have good wife, I must have this I must have that. Then when I have the thing, I lament, I have lost my wife, I have lost my money, I have lost my car, simply lamenting. So the second stage is to be free from this anxiety. The third stage is

Brahma-bhutah prasannatma na socati na kanksati samah sarvesu bhutesu mad bhaktim labhate param

”He never laments nor desires to have anything; he is equally disposed to every living entity. In that state he attains pure devotional service unto me.” Bhagavad Gita 18/54

The next verse continues, ”And when one is in full consciousness of the Supreme Lord by such devotion, he can enter into the kingdom of God.” It is further stated in the Gita that when one is so situated even in the midst of greatest danger he is not disturbed. In other words when one has achieved perfection in chanting the Holy name of God he is always joyful, even death does not disturb him, what to speak of other things.

The conclusion is that one should learn the art of chanting the Holy name of Krishna 24 hours a day and that alone is the remedy for all problems of material existence. How is it possible to chant 24 hours a day? Lord Chaitanya gave the hint, ”One can chant the holy name of God in a humble state of mind, thinking himself lower than the straw in the street, more tolerant than a tree, devoid of all kinds of sense of false prestige, and always ready to offer all respects to others. In such a humble state of mind one can chant the Holy name of God constantly." So I cannot give you any better advice for your problem, simply chant Hare Krishna and everything will be all right.

I hope this letter meets you in good health.

A.C. Bhaktivedanta Swami

My Dear Hon Pei Das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 15th August, 1973, and I have noted the contents carefully.

There is no question of giving anything up in Krsna consciousness. That is the sum and substance of the Bhagavad-gita. Arjuna also thought like that "I shall not fight and fell silent" but Krsna did not approve of this sentimental attitude of the Great Arjuna. The whole Bhagavad-gita was spoken to Arjuna simply to convince him that he should work for the satisfaction of Krsna. Therefore Krsna plainly says, "Whatever you do as work, whatever you eat, or give away in charity, do it for Me." This is real Krsna consciousness, to work for the satisfaction of Krsna. So you have good opportunity to serve Krsna by your nice education, go on finish up in the university and simultaneously follow the regulative principles, chanting 16 rounds, and associate with the devotees as much as possible. Your talents can be utilized for Krsna and in due course of time how this is so Krsna will reveal to you more and more. So do not be worried, be jolly in the service of the Lord.

I hope this letter meets you well.

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 24, 1973, and I have noted the contents carefully. Regarding the Regina temple, if it is already opened then maintain it, otherwise we should not open more centers at this time, especially in the smaller cities, it is better to go there with traveling Sankirtana parties, that was my point. And the deities in a moving vehicles is all right, providing they are cared for properly, so do the needful. Everything has to be done expertly that is my point.

Otherwise your report is encouraging to me, I always look forward to hearing from you.

My Dear Madhudvisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 24, 1973. Your book selling report is very encouraging to me, so much so that I want to go there immediately. Anyway as soon as I get opportunity I shall go to Australia to visit all the nice places you have started and stay there for at least two months. Krishna has given you great opportunity to preach the Krishna Caitanya cult in that remote part of the world. The time was there some years ago when Australia would not allow any colored men to enter, but now you have allowed Caitanya Mahaprabhu to enter Australia and inundated the whole country with Hari Nama Sankirtana. Caitanya Mahaprabhu's another name is Pita Baranara Gaura, so by your combined effort I hope that one day Pita Baranara Gaura will rule over Australia. I think that Australia is a great field for these activities as it is evident from the book sales statistics gradually increasing. I am very much encouraged in this respect.

I am going on the 5th September for a few days to Stockholm, Sweden, then returning to London, and leaving here on the 15th September for Japan via Iran, and India. I expect to reach Los Angeles by the 10th October.

I hope this letter meets you well.

My sanction for the deities in the touring van is still there. But I have heard that sometimes the deity falls down, so these things are objectionable. Touring and book distribution, side by side, this is the main business. The general public will not be very much interested to see the deity, it is our personal business. When you contact with the mass of people Sankirtana is the main business. So considering all these point you do the needful, I have no objection.

My Dear Guru Das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 29, 1975 and I have noted the contents carefully. You posed 5 questions regarding Radha Damodara temple and I shall answer them one by one. I was not actually living in Vrindaban, but Delhi and when I came to Vrindaban for short periods I would stay at Radha Damodara Temple. I began paying rent in 1960 at that time I was staying in two rooms upstairs then one of the Goswamis asked me if I would like to stay in the two rooms below where one Babaji who was taking care of the tombs was staying. The rooms were very dilapitated so he proposed that I fix the rooms and whatever I pay as rent would be all right. I invested about 1,000 Rs/. and paid him 5 Rs/. monthly, recently I have increased the monthly payment to 10 Rs/. to meet the rise in general standard of living. I do not know anything about any breaking of looks.

Regarding the 750 Rs/., when I first rented the rooms there was no Modan Mohan Goswami, he came much later, at that time Gaurachand was in charge of everything, the rooms were given to me by him on verbal lease for life, and from the very beginning there was negotiation for the land behind my rooms. I paid 750 Rs/. to Mr. Banerjee and he agreed to draw up a lease which he never did. We have paid him for the lease of the land, but he has not leased us the land, nor returned our money, he has constructed a building there, so the house should be leased to us, for which I am prepared to pay reasonable rent. I have not had any correspondence with them in all these years.

So on the whole we will not go to court, let them go, we will simply reply their letters. We have paid all along, so that is rent. Another point is that there are three shebaiys, so the notice of eviction has to be filed by all three otherwise it is not valid.

I don't remember the dates when I came and went there. Anyway I am coming to Bombay by the 14th September so you can come there and meet me there, I shall stay about one week, then we can discuss everything.

The pictures of the sculpture appears nice, except for the front part looks a little odd, so you decide. I hope this letter meets you well, more when we meet.

Regarding sending the older boys to New Vrindaban. let New Vrindaban have sufficient place for them, then you can consider. Anyway, this will have to be decided amongst yourselves.

My Dear Karandhara Das:

Please accept my blessings. . I beg to acknowledge receipt of your letter dated September 12, 1973 and am so glad to learn that you have again ordered to Dai Nippon Printing Co., for so many books This engladdens me when I see our literature very widely distributed. This was the subject matter of my Guru Maharaja's satisfaction. He liked to distribute books more than constructing temples. He personally advised me to print books if I have got some money. So by His mercy we are printing books and constructing temples, as well. Although in the beginning we had no such opportunity, but still I brought some books from India, and that was the foundation stone of our Krsna consciousness movement. So I want all our centers should give very much importance in the matter of book distribution. .

I am also very much pleased to learn that now in San Diego there is Radha Krsna Deity and They are being worshiped very nicely. Here the land negotiation and compromise with Mrs. Nair is almost complete. We have to pay immediately 14 lakhs 50 thousand, plus stamp duty, etc., so nearly about 16 lakhs. The major portion of this amount is being contributed by Bali Mardan. . Still we have to arrange for transferring 20 Krsna Books. . That you have to arrange and on hearing from you I shall advise you. .

Herewith please find a check for Dollars 111.11 which please deposit in my investment a/c. So far my going back to L.A. is concerned, it was my plan to go there by October 10, but I don't think the negotiations with Mrs. Nair will be completed before October 27, therefore I want to go back to Los Angeles after completing this transaction.

I approve your proposal for converting Spiritual Sky Incense Co. into a trust, and the trustees as proposed by you are approved by me. Encourage all the GBC members to manage everything very perfectly. We are very much assured that the GBC members are improving gradually, and in the future they will be able to manage world preaching of the Krsna consciousness movement without difficulty.

After finishing these Bombay affairs I am thinking not to increase any more branches for the time being. Whatever branches we have already opened let them be managed perfectly. You will be glad to know that Hyderabad land has been donated as gift and I am signing the agreement today.

Another thing is that in India we are not getting expected cooperation from the intelligent younger section. Their brain is now obsessed with economic development. The government is encouraging to eat meat and drink. Big, big shops are now opened in every city for selling mutton, beef, and wine. . But the mission of Lord Caitanya Mahaprabhu is now transferred from the Indian hands to the hands of the Americans and Europeans. I think for management of our Indian branches we shall require more men from the Western countries. Formally Western people used to come to India to teach them how to develop industries, railway and other modern activities in politics, sociology and even in religion by spreading Christianity. Now the Western people have to take the leadership of spreading Vedic culture all over the world. I have given the initiation, but the rest of the work will depend on you young men and women of America. Kindly organize things in that spirit and be blessed by Sri Caitanya Mahaprabhu and through Him by Lord Krsna.

Herewith also find a letter to the devotees of Los Angeles who have deposited a sum of Dollars 256.53 in my checking a/c.

You have not written anything about Hawaii affairs. I am anxious to know what is the position.

Dear Shri Khilnani:

Please accept my greetings. I beg to acknowledge receipt of your letter dated 25.9.73 and I have immediately informed the man in charge in Paris to suspend the marriage. the copy of the letter to Bhagavan Das, the man in charge, is sent herewith.

So far education is concerned, our philosophy is:

sravanam kirtanam visnoh smaranam pada-sevanam arcanam vandanam dasyam sakhyam atma nivedanam iti pumsarpita visnau bhaktis cen nava laksana kriyeta bhagavaty addha tan manye' dhitam uttamam (Bhag. 7.5.23-24)

We consider one who is a devotee as being first class learned and educated. If you do not like your daughter being in Paris with the devotees, you can call her back. I have no objection. But, our mission is that everyone should be given the chance to become Krsna conscious. Many thousands of boys and girls in the Western countries are seriously taking to this movement sacrificing many things. Especially they do not indulge in illicit sex life, gambling, meat eating, and intoxication. I think your daughter is very fortunate to be amongst the devotees and living a very happy life. But, if you think it is not good, then you can guide your daughter. I have no objection. I am of course busy with so many things, therefore I have forwarded your letter for necessary action.

Faithfully yours,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 20th, 1973, and I have noted the contents carefully. I am very glad to note your Sankirtana enthusiasm. These Volkswagen buses are very nice. This is real Sankirtana preaching. Regarding Hong Kong, I think the Sankirtana can be organized there also. Please try to organize it. Your reply to the Hindus regarding another Swami speaking in our Krishna Consciousness Temple is nice. We cannot compromise to satisfy others. The neophyte preaching programme is very good, and this should be introduced in all our centers. Regarding the devotees getting sick, they are not accustomed to eating fatty foods. Therefore, I suggest boiled vegetable taking only little ghee and capati without any ghee.

Tusta Krishna Maharaja, Siddha Svarupananda Maharaja and Sudama Vipra Maharaja are good boys and if there are any difficulties, I shall rectify these on my return to Los Angeles via Hawaii.

My Dear Hanuman Goswami,

Please accept my blessings. I beg to thank you for your letter dated 6th September, 1973, which I have read with great interest. The Argentina BTG and the photos showing Argentine men and ladies chanting and dancing in ecstasy give me great hope that our Movement will have an important place in Argentina in the near future. Our process is simple, all-embracing, we have something to offer for everyone. There is chanting, dancing, feasting and very perfect philosophy, so everyone may be satisfied with our Krishna Consciousness Movement. Now you have traveled all over the world preaching on Lord Caitanya's behalf, and I think you will agree that wherever you have gone whether in South America or in Far East, everywhere, our movement is appreciated. So I simply request you, you are doing the greatest service to the world by giving up everything for preaching this Krishna philosophy, you please continue just as you are doing. Introduce this process of chanting Hare Krishna, distribute as much Prasadam as possible, and if possible see that all our books are translated and distributed as widely as possible. This is the greatest welfare activity, and for engaging yourself and others in this way, certainly you will go back to home, back to godhead.

Upon your recommendation I accept the three students you have recommended for first initiation. Their spiritual names are as follows:

Marcos Medina: Nityatrpta dasa George Nikenson: Nrihari dasa Beatrice Nikenson: Bhakta dasi

Now just as all my other disciples are doing, you take care that they follow very faithfully chanting of 16 rounds daily, and following all of the rules and principles of Krishna conscious very strictly. You should immediately send their beads for chanting on to Karandhara das Adhikari in Los Angeles who is one of the senior disciples I have authorized to chant on beads. Then, after receiving the beads back from Karandhara you can hold a fire ceremony and perform the sacrifice as you have seen me doing so many times. At that time you may give my new disciples their beads and instruct them on the principles of Krishna consciousness. You can advertise this initiation ceremony very widely in Buenos Aires so that as many people as possible may attend the ceremony, including the newspaper, Television, etc. Then at the end of the ceremony, at the end of the fire ceremony have big Kirtana and distribute as much Prasadam as possible. We want the people of Argentina to see how it is possible to live a perfect happy life in this world and in the end go back to home, back to Godhead.

Again I thank you for your sincere preaching effort, and I pray that Krishna may bless you with all intelligence and strength for pushing on this movement.

Hoping this finds you and all others well.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. Regarding Nrihari das (George Nikenson) he must wait at least six months before he may be initiated again as Brahmin. PPS I am sending this letter to you care of Mexico City Temple as your Argentina address has been misplaced.

My Dear Karandhara,

Please accept my blessings. Just now I am finalizing the sale of the land with Mrs. Nair and there is every chance that this time we shall get it. The gift of the land in Hyderabad is now almost complete. In Vrindaban and in Mayapur the construction is progressing very nicely. So we have undertaken very great projects here and by the grace of Lord Krishna they may all come out nicely. But one difficulty is that hardly any intelligent young men are coming forward to help me here. Whatever I have been able to do all over the world it has been due to the help all of you, my disciples, have given me. Here there are hardly fifty devotees to do all the projects, so this is a great strain. Therefore, I want that from all over our Society fifty more men may immediately come bringing to a total of one hundred men.

I have requested our Delhi Temple President Sriman Tejyas das Adhikari to find out the best way how these men can come to India and not be bothered by visa difficulties after coming. He has written me as follows:

”1. Entry visas for one year should be applied for and triplicate carbon copies sent to me and I will follow up here in pushing it through.

1. The occupation should be listed as student-trainee or some such thing but not minister or preacher.
2. I should get a complete list of the devotees by Karmi name, spiritual name, and all details such as Passport number and issue date, previous visits to India, etc.
3. The entry visa should be multiple entry.”

So please do the needful in correspondence with Tejyas das and Tamala Krishna Goswami, so that these fifty men may come here as soon as possible. One thing is that British Commonwealth citizens do not require visas for entering India, so if some of the men coming are from these zones that will make it easier.

Hoping this meets you well.

My Dear Karandhara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 15th, 1973 requesting initiation for seven devotees and second initiation for three devotees. Upon your recommendation I accept them as my disciples. Their spiritual names are as follows:

Lewis: Upendranath dasa
Richard: Premarupa dasa
Sandy B.: Sanhari dasi
Sandy F.: Soubardya dasi
Merrissa: Mulaprakrti dasi
Sria: Kadamba dasi

Diane: Anandavidya dasi So now you should duly perform the yajna, chanting on their beads, and instruct them carefully to follow all the rules and regulations. At the same yajna you may also perform the second initiation of the three Brahmins. This yajna is best held in the morning amongst devotees.

Herewith also find enclosed one letter from Mr. Alfred Reis written on behalf of Mr. Eustace Paul. . He wants to give us a house but wants me to come there personally. I have written to Rupanuga and Hanuman but whether they have done anything about it I do not know. The thing is that if my presence is required, then he should send round trip tickets for four. I think this will be costly, so if possible try to settle it there. You can contact Rupanuga or Hanuman of Citsukhananda.

Hoping this finds you in the best health.

My Dear Satsvarupa,

Please accept my blessings. I beg to acknowledge receipt of your report for Central USA dated September 25th and I have noted the contents with great satisfaction. Your reports are coming more regularly than any other GBC and from them I can understand that things are developing very steadily under your supervision.

Karandhara's plan to eventually purchase the entire block of land for Gurukula at the low price it is available is good. Yes, Dayananda is correct. When the boys and girls become ten or twelve years and above, then should be separated. At that time special care should be taken, because once they become a victim of sex their whole life becomes spoiled.

I am very glad to learn that Govardhana dasa has become a leader in the deity worship, due to his inspired service. That is the real thing-one who has inspiration of life, he can do anything. Rupa Goswami explains this as ”utsaha”, enthusiasm.

I am very pleased that you and Hrdayananda Swami are traveling and preaching and that everyone was singing and dancing at the kirtana at the U. of Iowa. It is a sign of great success. Your plan to spend up to one month in each big university city sometimes taking an apartment for conducting regular evening meetings is approved by me. But do not open any permanent centers, just take the apartment for a month and then move onto another city. For the time being new centers may not be opened. Whatever centers we have got already, let us organize them very soundly. If more men are available, let them come to India. I have already written to Karandhara that fifty more men are required in India, so if possible, you may arrange for some men to come from your zone.

So I am very pleased with your preaching, please continue with all enthusiasm and determination and win the hearts of all your fellow countrymen by offering this authorized process of Krishna Consciousness.

I hope this meets you in the best of health.

My dear Karandhara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 26th, 1973, and I have noted the contents carefully.

Yes, you can go on with your book distribution as you were doing before, there is not any harm. I thought that our men were becoming like hippies, but now I understand from you that that is not the case. So I have no objection. Our main business is to distribute books, and from the reports I am receiving from all over the world, the progress is very encouraging.

So far as the woman distributers who have left New York and Boston Temples and have gone to New Vrindaban, they should return immediately and resume their original service. In Caitanya Mahaprabhu's Movement, everyone is preacher, whether man or woman it doesn't matter. I do not know why Kirtanananda Maharaja is encouraging our woman devotees not to go out on Sankirtana for book distribution. Everyone should go out.

You have not replied my recent letter about transferring some Krsna books. Now you may keep ready eight Krsna books and I shall advise you where to send them.

Hanuman Goswami has written me one letter and requested me to send a copy of my reply to you for forwarding it to him. Please find the copy enclosed and forward it on.

I hope this meets you well.

My dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 30th September, 1973, and I have noted the contents.

Regarding printing BTG locally in England rather than taking from Los Angeles, you are right, you should not print it in London for the time being. Syamasundara. is always utopian. This idea of his is not possible.

I am very encouraged by the report of how nicely our books are being distributed. This is our main business all over the world. If you give full attention to this, there will never be any shortage of funds. So I am very glad to note that in London now this programme is becoming well established.

Hoping this meets you well.

My dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 27th September, 1973, I am very glad that within the month of September you have dispatched over $10,000. to the Book Fund. So London Temple is debtor about $50,000. So if you continue with enthusiasm like this within three or four months you can liquidate the amount. This will be a great credit for you.

Syamasundara came here on his way to Hyderabad. I have not heard anything from him since he left over one week ago. I do not know what is actually happening about his business. But my rough calculation is that he still owes about $20,000 to the Society's funds. Unless he pays it back as soon as possible, I cannot expect his business to be very profitable. Therefore I have always asked him to stop this business. He says he will stop he does not do so. So many proposed contracts failed, so how he is still hoping to make some profit for this business I do not know.

Anyway, now you have taken charge of the management as President. So do it nicely and send me reports regularly. So far I am very pleased with how things are going.

I hope this meets you well.

I am very glad to know that you have passed your examination and have been awarded a scholarship. There is no difficulty for arranging your accommodation and Prasadam in Glasgow, as we have got our branch there. When you go I shall personally give intimation to our Glasgow center. When you go there, try to preach. You have learned ho to speak English, so you can preach nicely. Always try to give some service, and that will make you successful.

I may be coming to New Delhi by the second week of November, so if possible you may try to see me there. We are conducting a large pandal from November 9th-18th at the most important area, LIC Grounds, Connaught Circle.

Los Angeles 9 December, 1973

73-12-09

My Dear Babhru,

Please accept my blessings. I am in receipt of your letter dated December 8th along with the $20.00 Guru daksina.

It is a fact that at this time I do not want to open any further Centers. It is a question of timing. We have initiated so many projects and Centers and practically we are short handed all over the world, so it is better at this time if we work to maintain and develop whatever we have.

That Gaurasundara and Siddha-svarupa have sold the Temple in Hawaii and abandoned the beautiful Tulasi plants there is a great fall down on their parts. They did not ask my permission. If they wanted to go away they could have, but they had no right to sell the Temple. It is actually a criminal act on their part. Anyone who follows them will also fall down without a doubt.

Now, we have by Krsna's Grace built up something significant in the shape of this ISKCON and we are all one family. Sometimes there may be disagreement and quarrel but we should not go away. These inebrieties can be adjusted by the cooperative spirit, tolerance and maturity so I request you to kindly remain in the association of our devotees and work together. The test of our actual dedication and sincerity to serve the Spiritual Master will be in this mutual cooperative spirit to push on this Movement and not make factions and deviate. Try to convince Gaurasundara and Siddha-svarupa to return to ISKCON and let us forget whatever has happened in the past.

Yes, you may return to Hawaii with Sudama Maharaja and take charge of caring for Tulasi devi there. I cannot understand how Govinda dasi could abandon Tulasi devi. Kindly try to induce her to return.

I hope this meets you well.

Your ever well-wisher, A.C. Bhaktivedanta Swami.

Letter to: Sudama

-

Bombay 10 December, 1973

73-12-10

Oahu, Hawaii

My Dear Sudama das Goswami:

Please accept my blessings. I beg to acknowledge receipt of your letter dated 10/4/73 and have noted the contents carefully. Regarding the Hawaii situation, do not worry. I shall rectify when I come there. They are chanting, this will save them. Otherwise, they are all good boys, and they cannot go away. It is not hopeless situation. Whenever you meet them, tell them that Prabhupada is coming and that they should not give up the chanting, never mind they can do whatever they like. Send me their address and I shall write them. Where is Govinda dasi?

Regarding what is a Vaisnava, Vaisnava means that when others see him, they will also chant Hare Krsna. So why not give them the chance of seeing by wearing the beads, tilaka, and sikha? You are not paramahamsa that you can do whatever you like. So my advice to you is that you remain ideal Vaisnava internally and externally, and everyone will respect you. Don't be agitated. They will come back because they are chanting maha mantra. You keep your standard and try to help them, but don't become influenced by them. Regarding the Deity worship, it must go on nicely. Govinda dasi was doing very nicely. Decorate with flowers and incense and have arati and offer bhoga.

Regarding your travelling plans, yes that is good. You can go in bus all over the islands. Live there for sometime and make Honolulu your headquarters. Sometimes you can visit Japan and the neighboring islands. For a sannyasi, travelling gives him more experience for serving Krsna.

So far your health is concerned, Hawaii is very good climate. You can take bath in the sea, and that will keep your health. Take dhal, especially urd, arhad, and tour, a little cheese, peanuts, green vegetables, especially squash leaf.

Please offer my blessings to Gaurasundara and Govinda dasi. I have not heard from her. She is the center of Hawaii organization. Let her cooperate with you. She is a good preacher. Sometimes reverses may be there, but just depend on Krsna. Balabhadra is a very good boy. Make him in charge, also Govinda dasi, and you come and go. Yes, you can go to Brazil. Also, you come to Mayapur on Mahaprabhu's appearance day as many as possible at least for a week. Yes, the Gaura nitai Deities may be taken out for festivals. I am glad to hear of the excellent book distribution that is being done there. From other parts of the world there is also very good report of book distribution. That is our main propaganda work. So you go on with your preaching work and I will be pleased to receive your report regularly.

Enclosed is the sanctified sacred thread for Krsna Caitanya dasa. Now hold a fire sacrifice amongst the devotees and let him hear the gayatri mantra from the tape through the right ear and teach him how to chant it three times daily.

I hope this meets you in good health.

My Dear Ramesvara:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 19, 1973 forwarded to me from Japan. I am glad to hear of the book distribution success of Tripurari in Chicago. It is reported that he did it dressed in dhoti, but Karandhara says that dhoti is an impediment. So if he can distribute 105 Gitas and 105 Sri Isopanisad in one day in dhoti in Chicago, why not try for this in other places as well.

I hope this meets you in good health.

Letter to: Hamsaduta:

Bombay 12 October, 1973

73-10-12

Heidelberg, West Germany

My Dear Hamsaduta:

Please accept my blessings. I beg to acknowledge receipt of your GBC report dated October 4, 1973 and I thank you very much for it. So your Sankirtana Parties are collecting very nicely, especially Amsterdam. As long as we go on preaching in this way, we will not starve. It is good that the Berlin party is travelling. To be stagnant is not good. Just like I am an old man, but I am always travelling. I am glad that the Hamburg Deity worship is going on nicely. Wherever there is Deities there must be first class care, arati, bhoga, cleanliness, dressing, regular classes. If this is not possible, then better to travel. Your translation process is very good, so do it nicely.

So you are doing excellent preaching, while I am here fighting with Mrs. Nair. I want that when this business is finished to return for Europe or America, perhaps via Africa. You will be pleased to know that the London devotees that you have trained in Sankirtana and book distribution are doing very nicely. This past month they have sent dollars 10,000 to Los Angeles against their debts. Mukunda is there in charge, and Syamasundara. is here in India.

The German devotees I have seen both in Paris and Stockholm have impressed me by their enthusiasm. . It is very encouraging, so train them nicely. The Germans are very intelligent, and they will be the future preachers. So give them nice translations of my books and you will have tremendous success in Germany. Our success is our enthusiasm. So everything we do should be done with enthusiasm, the chanting, reading, and following the rules and regulations.

Regarding the Festival programs, you should not stop because it is not economic. You can earn from book-selling and then spend for the festivals. The festivals are very good for attracting the people, then you can easily inject the Krsna conscious poison into them.

You are experienced, senior member of the society, and Krsna has given you excellent opportunity for organizing Central Europe. I am sure you will be able to do something in Moscow. The young men there, are eager, only the government is a barrier. It is a good field there, you simply have to find the means, but rest assured that you will find many customers there.

Regarding your service as secretary, you are as good as the others, and sometimes better than the others, so don't say like that. I am very satisfied on you and your good wife, so go on serving Krsna with greater enthusiasm. That will make me happy. Actually everyone one of you my disciples are good, and my task is to find out the fault in you. Yes, just like Caitanya Mahaprabhu, His spiritual master simply found Him to be a great fool number one. He said that the Lord was unfit to read Vedanta and should just chant Hare Krsna. .

Your emphasis on book distribution is very good. You have enough centers. Let more devotees come, then consider opening more. The bus program is successful everywhere, so continue it.

I hope this meets you and your good wife in best of health.

It is also encouraging that the Indians there are taking note of the authority of this movement of Lord Caitanya.

Regarding the saligram sila, it will be installed along with the other Deities. I shall advise you. I am planning to come to Nairobi on the 19th or 20th of November for your installation program and remain there up to the end of the month when I shall start for South Africa.

Brahmananda Swami has read me your letter regarding the students there reading other books. I request you to stop this practice. Our students have no time to read our own books, but they have time to read other's books, and the money to purchase them? Why this mentality is there? You are a serious student, therefore you have correctly found out the defect in these books. We don't want babaji class. We want active preachers.

My Dear Mohanananda Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 26, 1973 and have noted the contents carefully. In my opinion all Gurukula students should be educated free of charge, but outside students may be charged. Our own parents should without obligation contribute liberally, but we should not be hard with them if they cannot pay. Sometimes the parents get money from the Welfare Dept., so whatever money they get for their children must be paid to Gurukula.

It is not possible for me to tax my brain on every detail. The GBC should meet in Mayapur in March, and all details of management should be discussed. My inclination is to retire completely from management and devote my time to my books. Let all of you give me this chance and consult amongst yourselves regarding the management.

But, on the whole the Gurukula standard should be free education, boarding, and lodging. People shall voluntarily contribute as far as possible. That should be introduced. We cannot enforce that if you do not pay, then take back your child. Rather the opposite. We must give free education to our children. We have to if need be provide money from the incense business or Book Trust, like that if sufficient income is not there.

My Dear Rupanuga Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 29, 1973 together with the campaign materials. Regarding Guyana, if the money is there, so you open an office and print books. That will be all right. Yes, Kesava may be GBC man for South America. That is approved by me. And you can incorporate Central America into the Eastern Zone. So do it with great enthusiasm. I am very glad to learn that men are joining in Santo Domingo. So far as getting a non-American for going to Cuba, you can take a man from Mexico.

I am very glad to learn of the book distribution. You keep the paperbook editions. Why people should pay unnecessarily? Regarding your question about the spiritual world and the material world, there may be maya, but one who is Krsna conscious has nothing to do with it, exactly like there is the police department but the law abiding citizen has nothing to do with it. In the Bhagavad-gita it is stated: daivi hy esa gunamayi/ mama maya duratyaya/ mam eva ye prapadyante/ mayam etam taranti te. [Bg. 7.14]. In answer to your other question, yes, the heat is bodily temperature.

Regarding the initiations, I accept the following as my disciples:
Anupama Das (Rupa Goswami's younger brother)-Frank
Nikhilesvari dasi-Nora Also enclosed is one sacred thread for Vrajajana Das Brahmacari. . So you can chant on the beads and perform the sacrifice. I also give the gayatri mantra second initiation to Bhagyavati dasi. You can give them the translation right away.

Letter to: Dhrstaketu:

Brooklyn

My Dear Dhrstaketu Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 8, 1973 and have noted the contents. Regarding the money sent from New York, whatever comes to India, it is never returned. You know that India is celebrated as a poverty sticken country, so it knows how to receive, but not to repay. Anyway, I thank you for your contribution. It will be used for our Bombay temple. The balance money of your estate when you receive it, you can utilize for Krsna as you think best.

Our philosophy is that everything is Krsna's property, and everything should be used for Krsna's service. I instructed this philosophy to George Harrison, and he is trying to render service to Krsna in many ways. Recently you know he has given us our London temple, the cost being L220,000. Our devotees are very happily living there and the blessings of Krsna are going to George Harrison. So everyone of us should try to please Krsna and His devotee. Then our life is successful. Better to please His devotee first. That is a recommendation for being introduced to Krsna.

Regarding your question about instruction, spiritual life is different from material life. The instruction given in my books is supposed to be personal instruction. When we read the Bhagavad-gita As It Is, it is understood that we are receiving personal instructions of Krsna. No physical barrier is there in the case of spiritual affairs. It is stated in the Srimad-Bhagavatam:

sa vai pumsam paro dharmo yato bhaktir adhoksaje ahaituky apratihata yayatma suprasidati [SB 1.2.6]

"The supreme occupation (dharma) for all humanity is that by which men can attain to loving devotional service unto the transcendental Lord. Such devotional service must be unmotivated and uninterrupted in order to completely satisfy the self."

Regarding the morning kirtana songs, what you have given is all right. If time permits there are other songs that can be sung, such as jiva jago, udilo aruna "There is now sunrise on the Eastern horizon and Lord Caitanya accompanied by His devotees have started the morning Sankirtana party. . . ."

It is not that the individual jiva is within every atom, but paramatma is in each atom. It is stated in the Brahma Samhita as follows: andantara-stham paramanu-cayam tarastham, "Who is situated within every atom. . ."

I hope this meets you in good health.

My Dear Patita Uddharana Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 9, 1973 and have noted the contents. Yes, regarding your poems, I shall like to see what you have written. The encyclopedia is too great a task. Do not attempt it.

Regarding writing, I may quote from the Caitanya-caritamrta Ādi lila, ninth chapter, the blue print of which I have just received from New York.

esaba prasadae likhi caitanya-lila-guna jani va na jani, kari apana-sodhana [Cc. Ādi-lila 9:5]

"It is by the mercy of all these Vaisnavas and gurus that I attempt to write about the pastimes and qualities of Lord Caitanya Mahaprabhu. Whether I know or know not, it is for self purification that I write this book."

The purport is that for transcendental writing one must be an authorized Vaisnava and should write to purify oneself, not for credit. It may or may not be published, but one who is actually sincere in writing, all his ambitions will be fulfilled.

My dear Bali Mardan:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 8, 1973 and have noted the contents. After a great struggle for existence it appears that I have won over Mrs. Nair. The negotiation started on my arrival and the mediators suggested 20 lakhs. Then it went down to 17 lakhs, but by Krsna's grace I have settled with her for 14 lakhs 50 thousand and about 1 lakh for compensation to the other claimants. In this way we have to spend about 16 lakhs for the property, out of which 2 lakhs had been paid before. So now we have to pay 14 lakhs 50 thousand.

The day before yesterday whatever money I had in the Bombay account, about 4 lakhs, I've given Mrs. Nair another 3 lakhs, and I have compensated Ch_$_{ganlal}$ with 2 lakhs, 16 thousand, out of which 1 lakh 40 thousand has been paid by Mrs. Nair, and the balance I have paid. The charges of the several litigations have all been withdrawn and the preparations for the conveyance is in progress.

I was very much anxious to receive the money from New York. The foolish boy, Gopijanabalava, wanted to save money and dispatched the money by mail order. Out of anxiety we had to telephone several times and sent telegrams, so much so that the savings which the overintelligent boy wanted to make has been nullified by increasing the expenditure three times. After a telephone call yesterday, the bank informed by telex that the money is on the way by mail. So actually I have not yet received the money, but I am sure that it is coming. We shall have to utilize the amount to pay Mrs. Nair. The deadline is the 19th instant and today is the 14th. I hope that everything will be all right by that time.

I am pleased that your wife is expecting some children. You offer her my blessings to her for safe delivery.

We enquired the price of the Mercedes Benz here in Bombay, and they asked for 3 lakhs 50 thousand. Here in Bombay there is no possibility of getting a good car like a Chevrolet without paying Rs. 80,000-90,000. So a good car in India is very costly. If you get the car, you can get it in my name. Tejiyas Das will be in charge of taking care of it.

It is a good suggestion by your father-in-law that your wife not know sadness during pregnancy. She should not be shocked in any circumstance and eat mild foodstuff so as not to cause any irritation.

Now as I have been delayed in Bombay I wish to get leisure from this business by the 25th(?) instant. Then I shall go to Vrindaban and Delhi, and stay until the 18th November, then go from there to Nairobi. Brahmananda is there and we shall go with him for the installation ceremony and remain there until the end of Nov. Then I go to south Africa until Dec. 10, then Sydney, and remain say up to 15th Dec., then Hong Kong, and if your Japanese program is fixed I can go there or I can go to Hawaii on my way to L.A. by Dec. 20th.

My deposit certificate will mature by Nov. 23rd but I want to continue it for another month, and I shall take the payment when I return to the U.S.A. So I shall have to write to them or you shall arrange for it? If I have to write, then I shall send you a copy of the letter to your Hawaii address.

Then from Los Angeles I may come to New York to your new building.

I hope this meets you and your wife in best of health.

Your ever well wisher,
A.C. Bhaktivedanta Swami

My Dear Tusta Krsna Maharaja and Beharilal Das,

Please accept my blessings. News has come to me that you want to sell our temple to somebody else which I cannot believe. Even that you have been in charge of the New Zealand center, now you have taken it as your personal property and you have demanded from Madhudvisa Swami the price of the temple. This is all amazing to me. I do not know what is your decision. Tusta Krsna has already left and is in Hawaii with Siddha Svarupananda Maharaja.

I never believed that again you would go back to your old habits, giving up the Krsna Consciousness Movement in a whimsical way. Please do not do this mistake. It will be a great calamity for you. If you have any misunderstanding with the GBC member, you should have let me know. But I do not think there can be any misunderstanding.

When I was last at the New Zealand temple, everything was so peaceful and hopeful. Now all of a sudden you have changed that program and taken to your original ways? I am so much aggrieved to receive all this news. For Krsna's sake, do not do these things.

I request Tusta Krsna to go back to New Zealand and take charge of your duties, and when I shall go to Australia, I shall go to New Zealand and see things personally.

Please do not leave Krsna. You will not be happy. That is my request.

I hope this meets you in good health.

My Dear Madhudvisa Swami,

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 28, 1973 and have noted the contents. Regarding the initiations I accept the following devotee as my disciple:

Varaha murti das - Adrian.

Also enclosed please find the sacred threads for the gayatri initiations of Gopi Kanta das Brahmacari and Yasomatinanda das Brahmacari. So you can chant on the beads and hold the fire sacrifice amongst the devotees. The mantra should be heard from the tape through the right ear.

I hope this finds you in good health.

My Dear Dayananda Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 8, 1973 and have noted the contents. Regarding the older boys, they can do gardening engagement and other brahmacari engagements, study and manual work. And, as soon as they can read Sanskrit and English, they should read our books, such as Bhagavad-gita As It Is. By cleansing the temple and growing flowers their attention in this way be always in Krsna consciousness. That will save them from the clutches of maya.

kaumara acaret prajno dharman bhagavatan iha durlabham manusam janma tad apy adhruvam arthadam [SB 7.6.1]

"From the very beginning of childhood one should learn how to behave and practice Krsna consciousness, because this human form of life is very rare. . Although it is also perishable, it can give us the greatest boon; therefore we shall utilize this body from the very beginning of life."

Regarding your separating from Nandarani, nothing should be done artificially. Nandarani is not different from you. She also seeks Krsna consciousness. Your household life is not repugnant; it is favorable. . Do not separate artificially. When everyone is engaged in Krsna's service, there is no question of maya. I have got good estimation about Nandarani.

I hope this meets you in good health.

My Dear Kurusrestha Das,

Please accept my blessings. . . I beg to acknowledge receipt of your letter dated October 5, 1973 with enclosed pictures, and you have given me much pleasure. The altar is very nice and so are all the pictures. It appears to be very neat and clean. Please keep this standard. The tulsi also is very nice. It is a fact that the American people are the most fortunate in the world, and that this Krsna consciousness movement is the final touch of fortune. You are doing very nicely, and I thank you very much.

Your high school classes are very nice. Take care of the young people for a future Krsna conscious generation. The worship of Lord Jagannatha must go on nicely and cleanly. Regarding your Sankirtana, yes, if anyone chants, tries to follow the rules and regulations, and reads our books, he'll be successful in his life.

Regarding the initiations, I am pleased to accept the following as my disciples:

Pancanand das-Mike Price Vamsidas-Tom Harovtunian Srinivasa das-Hans Olson Virachandra das-Dick Erdel Bhaktapriya dasi-Christene Mossain

Also enclosed is the sacred thread for Makhana Taskara. Let Karandhara chant on the beads and hold a sacrifice. The gayatri mantra should be heard through the right ear from the tape. Please see that all the new disciples do nicely and always chant Hare Krsna.

Yes, when I go to Los Angeles next, I will surely come to your Denver temple. The pictures you have sent attracts me.

I hope this meets you in good health.

My Dear Karandhara Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated 5/10/73 and have noted the contents. I have also received the enclosed duplicate deposit slip for $125.89. Also find herewith checks Nos. _ for deposit.

Regarding the Krsna books being transferred, yes for the time being you may hold it. As we are getting money from the U.S.A. it may not be required, but keep it ready and I shall let you know later on.

Regarding Hawaii affairs, let it go on for the time being, and we shall see later on. They cannot go outside the clutches of Krsna consciousness. Regarding the selling of the temple, it was ISKCON's temple, so how can they sell? This is illegal. Gaurasundara was a representative of ISKCON, but he cannot sell and take the money. . This is an illegal implication. I am simply thinking of the luxurious tulsi plants there. Govinda dasi took so much care. How they could have left this place I cannot imagine.

Yes, do not attempt to open any more centers. Let them go by busses. That is a very nice program.

I hope this meets you in good health.

My Dear Tejiyas Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 13, 1973 and have noted the contents. Regarding your new place, yes, if many more devotees actually remain there, it is a good scheme, but as we have got four or five branches in India I do not wish to increase more centers. Indians are not joining. This is the deficiency of our movement. Only mediocre Indian men are joining and not the very intelligent class of Indians. But, Delhi is a nice place. Formally you proposed Sundar Nagar. What happened to that? If the book distribution facility is there, then it is a first class place. The more we distribute books, the more we get solid ground of preaching work. So far continuing the Deity worship after the festival, that is a very nice proposal. Try to give it a shape.

So between 20th to 25th instant I am coming to Delhi for going to Vrindaban. So I may stay in Delhi for one or two days, and then come back from Vrindaban during the festival. In the meantime please inquire if from Delhi to Nairobi there is any flight 747.

Bali Mardan is trying to get me a Mercedes car. So he has asked me who will be in charge of it in my absence. So I have suggested your name. So I think in the new building there is garage also.

Another thing, I want a diplomatic passport. Please inquire in this because I am always travelling, and this kind of passport will facilitate my travelling. I am a preacher of Indian culture, why they should not give me this kind of passport.

I hope this meets you in good health.

My Dear Jagadisa Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 9, 1973 of the GBC report for Canadian Zone and I thank you very much for it. I am glad that the book distribution is going on there consistently.

Regarding the management of the Ottawa and Regina centers try to train them. We have to train sometimes. Whenever there is something extraordinarily wrong, you can remain there for sometime. You should rectify, but not reject. Members are coming to join us to be rectified, not to be rejected. So, try to rectify the incorrigible, and if not possible, then change. What can we do?

It is nice that Subaladas Maharaja is travelling. As sannyasi, he should travel. The more a sannyasi travels and preaches, the more he becomes experienced and unattached.

Regarding your recommendation, I am accepting the following devotee as my initiated disciple.

Bhaktavasya Dasi-Geraldine Luczyk. Yes, I authorize that you may chant on the beads of the newly initiated disciples.

I hope this finds you in good health.

Letter to: Kirtanananda

-

Bombay 18 October, 1973

73-10-18

Delhi

My Dear Kirtanananda Maharaja:

Please accept my blessings, and I beg to acknowledge receipt of your letter dated October 16, 1973 and I have noted the contents carefully. Next time you come to India, you must come to Mayapur in March, not only you but many others. Our Bombay affairs are almost settled by 90%. The conveyance deed is prepared and it will be signed within one or two days.

Now this displeasing of godbrothers has already begun and gives me too much agitation in my mind. Our Gaudiya Math people fought with one another after the demise of Guru Maharaja but my disciples have already begun fighting even in my presence. So I am greatly concerned about it. Following in the footprints of Lord Caitanya Mahaprabhu:

trnad api su-nicena taror iva sahisnuna amanina manadena kirtaniya sada harih

”One should chant the holy name of the Lord in a humble state of mind, thinking oneself lower than the straw in the street; one should be more tolerant than a tree, devoid of all sense of false prestige and should be ready to offer all respect to others. In such a state of mind one can chant the holy name of the Lord constantly.”

We must always remember this verse and be as tolerant as the tree, as we execute the Krsna consciousness movement. Without this mentality we cannot be successful.

Material nature means dissension and disagreement, especially in this Kali yuga. But, for this Krsna consciousness movement its success will depend on agreement, even though there are varieties of engagements. In the material world there are varieties, but there is no agreement. In the spiritual world there are varieties, but there is agreement. That is the difference. The materialist without being able to adjust the varieties and the disagreements makes everything zero. They cannot come into agreement with varieties, but if we keep Krsna in the center, then there will be agreement in varieties. This is called unity in diversity. I am therefore suggesting that all our men meet in Mayapur every year during the birth anniversary of Lord Caitanya Mahaprabhu. With all GBC and senior men present we should discuss how to make unity in diversity. But, if we fight on account of diversity, then it is simply the material platform. Please try to maintain the philosophy of unity in diversity. That will make our movement successful. One section of men have already gone out, therefore we must be very careful to maintain unity in diversity, and remember the story in Aesop’s Fables of the father of many children with the bundle of sticks. When the father asked his children to break the bundle of sticks wrapped in a bag, none of them could do it. But, when they removed the sticks from the bag, and tried one by one, the sticks were easily broken. So this is the strength in unity. If we are bunched up, we can never be broken, but when divided, then we can become broken very easily.

I hope this meets you in good health.

Regarding your successful book distribution, you should know that this is the greater preaching. I am very much pleased. the conch shells as you have described may be kept on the altar as decoration, but they must be kept clean. Everything on the altar must always be clean.

Letter to: Karandhara:

Los Angeles

My Dear Karandhara Das:

Please accept my blessings. I beg to acknowledge receipt of your two letters both dated October 9, 1973 and have noted the contents very carefully. These things are happening in many corners of our organization. Today I received the same complaint from Kirtanananda, and the reply is enclosed. This is applicable everywhere. Unless we become very strong in Krsna consciousness, it is very risky to handle material things and business. We are naturally business minded, and so as we get some opportunity, that mentality becomes strong. We have already got our book-selling program. It is better not to divert to other lines of business. This boy Rsi Kumar appears to be lost coming in contact with business. I heard he was coming to India and staying in the hotel without coming to the temple. Similarly Hayagriva is also lost almost. So, the situation is not very favorable.

There is the story of the bed bug. In the winter season the bed bug appears to be only skin, but in summer season as soon as it gets the opportunity of biting and sucking blood, it becomes fatty. Sometimes we may artificially renounce the world, but as soon as the opportunity of sucking blood is there, we turn again into a bed bug. Therefore it is said in the Bhagavad gita:

daivi hy esa gunamayi mama maya duratyaya mam eva ye prapadyante mayam etam taranti te [Bg. 7.14]

"This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome. But, those who have surrendered unto Me can easily cross beyond it."

Unless everyone of us sticks to the regulative principles of chanting, there is no other alternative than fall-down. That is a fact. I repeatedly say this, so if people do not follow, what can I do?

You cannot resign your position. You have to tolerate. Otherwise why does Caitanya Mahaprabhu say this verse:

trnad api su-nicena taror iva sahisnuna amanina manadena kirtaniyah sada harih [Cc. Ādi 17.31]

These things will happen, and we have to tolerate.

We shall talk over this subject matter seriously when I shall return to Los Angeles. Do not be worried.

I hope this meets you in good health.

Dear Sankara Pyne:

Please accept my blessing. I beg to acknowledge receipt of your letter dated 15/8/73 and I thank you very much for it and your Vyasa Puja appreciation. It is stated in the Vedas that to anyone who has firm faith in the spiritual master and Krsna, to him all the imports of the Vedas are easily revealed. I am very glad to learn that you are helping in the preaching work by distributing our books to the libraries in Calcutta. This is very important work. The more our books are distributed, the more people will become convinced about this movement of Krsna consciousness, and they will be benefited from it. So you are a nice boy, and I wish that you continue on in this way.

My program is to start within the next several days for Vrindaban and Delhi. We are having a big festival in Delhi. Then I will go abroad. I expect to be returning to Calcutta for our celebration in Mayapur of Lord Caitanya's Appearance Day in March 1974, and I look forward to seeing you at that time.

I hope this meets you in good health.

My Dear Atreya Rsi Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 3, 1973 and the nice offering made by Navayauvana dasa, and I thank you very much. . You say that you are doing limitedly, but go on. Try to convince the elite section about our Krsna consciousness movement. You have got a very nice place there with attached garden, and you are able, so just depend upon Krsna. Simply we have to desire to please Him, and not desire anything for ourselves. Then we become simply instruments for His will. This is the important essence of Krsna consciousness.

You will be pleased to know that here in Bombay we have now secured the Juhu land from Mrs. Nair. It is a great relief that after such a long struggle, we can now do something very wonderful for Krsna. This land has very good potential, so now let us utilize it it in Krsna's service.

My itinerary is to start for Vrindaban within several days, then go to Delhi for a pandal they are arranging. On November 20 I shall go to Nairobi, then to South Africa until mid December, when I shall start for Australia.

The land is purchased, and there were many opposing elements, but they are being satisfied, with the last one being satisfied today. Once this is carried out we are free from all obligation.

I have received the nice letter from your wife and the reply is enclosed herewith. Please deliver it to her. I would like to initiate your wife especially personally. So already she is chanting 16 rounds and that is nice. Still I shall hold a regular ceremony and initiate her along with you.

My program is to reach Los Angeles in the middle of December. I hope by that time your transaction of the New York temple will be finished. Regarding my coming to Japan, whenever is convenient is all right. I am prepared at any time.

My Dear Svarupa Damodara Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 15, 1973 and was very glad to read the contents. Regarding your book, "The Origin of Life," I have already given you the points, so you can inquire from me any intricate question in this connection and I shall try to reply. In the meantime I have received a letter from Ramananda and I am enclosing herewith. I think you can send him a ticket by arranging with Karandhara so he can immediately come there. When I come there to Los Angeles in my presence both of you can discuss threadbare all questions and put them in a satisfactory way.

The headings you have selected are nice. Now I may add one heading which may be the conclusion as follows: "Original Life is God." Because the soul is eternal (which you have discussed in point 2), the origin of life, God, is eternal.

We have to fight with all these so-called leaders, scientists, and philosophers, just like Krsna came to kill all the demons because the whole world is full of demons.

Regarding the translation work, if you can translate into German or other languages of Europe, then it will be a good help. They are very much eager to publish in other languages there.

I am glad to note that you are keeping an altar in your place. If the Dr. offers his obeisances, that goes to his devotional credit. All our processes of seeing the Deity, taking caranamrta, playing instruments, taking prasadam all go to the credit of devotional service.

I hope this meets you in good health.

My Dear Tamala Krishna Goswami:

Please accept my blessings. So I have arrived here in Vrindaban, but so far the project is concerned, why the money is so irregular? Tejiyas reports that in the past three months you have sent Rs. 5,000/- and since then nothing. How will the project go on? So I think that the 3 lakhs from Birla may be dispatched to Vrindaban either the whole or part.

I hope this meets you in good health.

My Dear Karandhara Das:

Please accept my blessings. With regard to my letter dated 23/10/73, you may postpone sending Nitai Das here, because my program for Africa and Australia is not yet fixed up. So I may be returning to Los Angeles sooner, so it will not be necessary to go to the expense of sending him here. He can meet me in Los Angeles. Anyway, I will inform you of my program as it is fixed.

Tomorrow I start for Delhi. The new address there is ISKCON, G 12 Anand Niketan Extension, New Delhi 110023.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

My Dear Acyutananda Maharaja:

Please accept my blessings. Enclosed please find one letter addressed to me from one of our Bengali devotees, which I am forwarding to you for necessary action. Try to pacify him if he is offended. Everyone comes to us to offer voluntary service, so amongst ourselves there must be good behavior. One may not feel sorry. So the leaders must take precautions as far as possible.

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

N.B. Regarding your two questions addressed through Tamala Krsna, the reply to your question about Arjuna's relationship with Krsna, is that Arjuna is an eternal devotee, so on the higher platform the devotee is so intimately related that he forgets Krsna is the

Supreme Personality of Godhead. But, in the lower stage of devotional service Krsna is looked upon with awe and veneration. When Arjuna saw the virata murti of Krsna, actually he came down one step below his position. Therefore he asked for forgiveness from Krsna. So this is a teaching to the common man that we should not take Krsna immediately as intimately as the gopis, cowherds boys, and other advanced devotees treated Him. In the beginning we must treat the Lord with awe and veneration. Later one when we are perfectly on the spiritual platform, we treat Krsna more intimately, and therefore we forget the exalted position of Krsna. But, we never imitate the Brijbasis from the beginning as do the sahajiyas. In the beginning a devotee must follow strictly viddhi-marga or regulated principles. When one is on the swarupa siddha stage, the devotee can treat Krsna on an equal level or sometimes he becomes even higher than Krsna. Just like Mother Yasoda treated Krsna a being completely dependent upon her. So these stages are appreciated in many advanced stages of devotional life.

As far as the results of one's good karma is concerned, good karma returns in that he is surrendering to Krsna. One comes to the point of surrender when one has actually amassed the result of multi pious activities. This is stated in the Caitanya Caritamrta as quoted from the Srimad-Bhagavatam as follows:

ittham satam brahma-sukhanubhutya dasyam gatanam para-daivatena mayasritanam naradarakena sardham vijahruh krta punya-punjah [SB 10.12.11]

This was the statement of Srila Sukdeva Goswami when he saw Krsna carrying the cowherds boys on His shoulders. To be in such a position could only be the result of the performance of many, many pious activities. They were putting their legs on the Supreme Personality of Godhead and were forgetting who He is, and Krsna is taking the feet of His devotee on Himself. Krsna is so nice. The mayavadis can never understand this exchange of devotional activities.

I have been hearing about your successful preaching. Stick to this work allotted to you by Caitanya Mahaprabhu. Always pray to Caitanya Mahaprabhu for strength and go on with your preaching.

I hope this meets you in good health.

Letter to: Satsvarupa :

Dallas

My Dear Satsvarupa das Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your GBC report for the period ending October 1, 1973 dated October 12, 1973. Yes, I have received your report dated September 25, 1973 and have replied it on October 4, 1973. With regard to Dallas Mohanananda has now come to Bombay, and because our Giriraja is returning to the U.S.A. on account of his health. Mohanananda is advised to act as acting president. If you have no objection, he may stay for at least three months. I hope that there will be no inconvenience and that Dayananda will be able to look after his affairs.

We have settled up the Bombay affairs and purchased the whole land at a cost of 17-18 lakhs, bribing so many claimants. It was a very hard knot. Now by the grace of Krsna the land is in our possession. We are the proprietors. Arrangements are being made to construct a gorgeous temple with the help of local patrons. The estimate of the Bombay temple is not less than 50 lakhs over and above the 18 lakhs we have already spent on this project.

I will especially draw your attention to articles written by Dr. O.B.L. Kapoor. He has many such philosophical articles, and he wants to get the book published by us. I shall be glad to have your opinion in consultation with Karandhara whether we can take up the publication of such philosophical books. Another gentleman whose name is Hari Goswami is a Sanskrit scholar, as well as knowing English. He is enthusiastic to join us. Please let me know if you can utilize him for our Dallas Gurukula institution. He is coming from a respectable brahmana family belonging to Radha Raman goswami house, but he is very much pleased with our activities and wants to join us wholeheartedly. In case you consider his service is valuable, then you have to make arrangement for his passage. These two points, namely Sri Hari Goswami going to Dallas and the publication of Dr. Kapoor's book by us may be consulted amongst yourself, Karandhara, and Bali Mardan, and you please let me know your considered opinions.

Here in Delhi arrangements are going on for holding a Hare Krishna festival, and they have secured a very nice house, for the Delhi center. If so required I may stay here at least for a month to organize this new center. You can reply to me at the above address.

What is the objection to starting a branch institution at New Vrindaban? There we have already got a vast tract of land, and the atmosphere is very calm and quiet, and they are developing. So instead of purchasing another land, why not use this land for the elder boys? Of course it will depend on your mature consideration amongst the GBC members near about.

So make Gurukula more solidified. Up to now it is going nicely. Keep the standard intact. People are appreciating, and they will do so more and more.

Yes, regarding the centers reporting to you, if you get the report then there is no necessity to visit. Occasionally you can see how they are doing.

Regarding the arrangements for meeting the scholars in Chicago, yes I am also anxious to see scholars. In the meantime our propaganda should be going on for drawing attention of the educational institutions to accept our books at least in the religious courses.

Regarding the rascal Bharati, yes, capture this rascal and defeat him in debating, and prove him as a rascal Number one.

Regarding the black lady in Cleveland, if she is actually serious about Krsna consciousness, give her a little freedom. Just behave with her a little gently, so she may be encouraged to spread Krsna consciousness amongst the blacks. Actually if she preaches the importance of this movement amongst the blacks, it will be more effective. This racial color distinction may continue, but when a devotee is actually advanced these things will disappear. Therefore we have to be a little tactful how to induce people to take to

Krsna consciousness seriously. That should be our main object. Encourage her to sell books. If black men read our books, it will be a great achievement. As your President Lincoln gave the blacks equal rights, let us cooperate with them.

Regarding St. Louis, Makhanlal is a good boy. He is a sincere devotee.

Jayadvaita Das is a very devoted boy. He tries to understand the philosophy very perfectly. Yes, editing "Back to Godhead" is one of your responsibilities. In the meantime you can train Hrdayananda das Goswami to edit. I think he is a fit man to assist you. Regarding "Back to Godhead" being the most important magazine in the world, therefore I am seeking to see Dr. Kapoor's article for getting attention.

I hope this meets you in good health.

Letter to: Indira Gandhi

-

New Delhi 6 November, 1973

73-11-06

Srimati Indira Gandhi Prime Minister of India

Your Excellency Srimati Indira Gandhi Devi:

I thank you very much for kindly allowing an interview to my disciples Sriman Gurudasa Adhikari accompanied by his wife also, Srimati Yamuna devi. Perhaps your Excellency is aware of our Krsna consciousness movement all over the world. We are not only preaching the cult by chanting and dancing, but also by presenting in the English language the books of the bhakti cult, especially Bhagavad-gita and Srimad-Bhagavatam all over the world.

You will be pleased to know that our books are being well received in all parts of the world, and recently we have information from London that in two months time we have sold 30,000 copies of the Bhagavad-gita As It Is.

I am sending herewith one copy of my book Bhagavad-gita As It Is as my humble presentation. I hope at your convenient leisure time, you can have a glance over this book, at least the preliminary statement in the Foreword, Introduction, and Preface, which will convince you of the importance of the book.

We think that Bhagavad-gita As It Is without a wrong interpretation can solve all the problems of human society, namely social, political, religious, economic, philosophical, cultural, or from any angle of vision, because it is spoken by the Supreme Personality of Godhead. It is above all deficiency, namely mistake, illusion, cheating, and the imperfection of the senses.

So we in our humble way are trying to spread this cult of Bhagavad-gita all over the world, and my American and European disciples, two samples of them are meeting with you, are helping me in this connection. After all, Bhagavad-gita is the sublime cultural knowledge, and of course religion is included there, but it is not fanaticism or sentimental religion. It is based on pure science, philosophy, and logic.

I wish that our Indian government will be proud to take up this cultural movement very seriously, so that the whole world will be benefited, and India will be glorified. I hope Krsna will give you the proper sense to understand my humble presentation, and it will be a great pleasure to know you have relished this Bhagavad-gita As It Is without any unauthorized commentation.

Thanking you once more for giving us the opportunity to see you in this connection.

My Dear Karandhara Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 25, 1973 and have noted the contents. So far yourself is concerned, whatever is done is done. Now go on with your duty and do it nicely. You are an intelligent devotee. You can understand.

Now one thing for Caitanya Mahaprabhu's Appearance Day, I want that there be published one volume of Caitanya Caritamrta. You have got the Ādi lila from Chapter Seven onwards. So at least one volume must be published of 400 pages, hardbound edition. Copies must be there in Mayapur for distribution on the appearance day. So please arrange for this.

Another thing is that now my program is fixed up for going to Nairobi on November 23, instant, and from there I will return to Los Angeles via Rome. I will stop there for two days for meeting with the Pope. So I may request you to send one ticket for Pradyumna (P. . Sherbow) Nairobi-Rome-Los Angeles.

I hope this meets you in good health.

Sunset Beach, Hawaii

My Dear Tusta Krsna Maharaja:

Please accept my blessings. I thank you very much for your telegram dated October 29 reading as follows:

”DEAR SRILA PRABHUPADA, PLEASE ACCEPT MY HEART AT YOUR FEET RECEIVED YOUR LETTER AND TELEGRAM TODAY TEMPLE WILL NOT BE SOLD ALL PAPERS TO BE SIGNED OVER TO YOU NEVER INTENDED TO CLAIM PROPERTY OR MONEY AS MY OWN DETAILED LETTER FOLLOWS PLEASE FORGIVE ANY CONFUSION OR ANXIETY MY BLUNDERS HAVE CAUSED YOU-YOUR SERVANT TUSTA” I am at present in New Delhi awaiting for our festival here, so your telegram has been redirected from Bombay. I am so much pleased to read it because I know that all of you, Siddha Svarupa Maharaja, Sudama Vipra Maharaja, and yourself, are all good souls, and so I also know that Gaurasundara is also of this same level, but I do not know why this disruption has taken place.

If there is any misunderstanding with the GBC men, that can be readjusted by mutual understanding. I wanted to see you all to mitigate this misunderstanding, but I was very busy in Bombay for the same Juhu land of Mr. Nair. Perhaps you remember that you introduced Mr. Nair to me. Now he is dead and gone, but he created so many obstacles. So I had to pay them so many lakhs of rupees black, but now the position is that it is purchased, but still there is a little discrepancy. I hope this will also be squared up without delay.

So kindly take my word and do not leave our society. If you cannot agree with the GBC, I can take up your matter personally and do the needful. I love you all very much, and if you go away and stay independently that will be a great shock for me. I want to meet you all together. Let me know where I shall go to meet you. Just now I have received the news that in Hawaii the tulsi plants are drying for want of watering. How has Govinda dasi left the tulsi plants which she nourished so lovingly? Please therefore all of you go to your respective positions and revive your devotional activities without any further delay, and if you cannot cope with the GBC men, which I suppose there must have been some disagreement, I shall deal with you directly. But, do not leave the Krsna consciousness movement, at any cost.

If possible kindly let me know where is Gaurasundara. On my behalf please request him to come back to the temple and save the tulsi plants. Ask Govinda dasi also on my behalf to do this without delay.

Kindly treat this letter as very urgent and do the needful. Awaiting your early reply.

I hope this meets you in good health.

Letter to: Tamala Krsna

Bombay

My Dear Tamala Krsna das Goswami:

Please accept my blessings. I beg to acknowledge receipt of your letter dated 1/11/73 and have noted the contents. So why Mrs. Nair has not given the tax certificate. What is the cause for delay? What answer does her lawyer give you?

Regarding the fencing, why depend on others? That there is delay means we cannot depend on Mr. Shetty to do the work. We have to do ourselves. He proposed he would sit down and supervise. If he does so, that’s nice. Otherwise we have to arrange for our own men to work.

Yes, we want to begin the temple construction immediately, so let them approve the plans. In the meantime finish the fencing, cleansing, and painting the residential quarters. If possible make the privy a little usable. It is not a practical idea of Mr. Birla to first collect half the money and then construct. People will pay as the construction goes on. If they are doubtful, then they can form a temple construction committee. and see that every pie is used for temple construction. At least Mr. Birla must give whatever he has promised for Vrindaban. Vrindaban needs money, but we can’t press him for Bombay. If he likes, he will give, but he is such a rich man he can pay for both.

I am glad to learn that you are preaching nicely. It is very important business. Unless our men understand thoroughly the philosophy, how will they be able to preach? After fencing, you can make one big electric light post to illuminate the temple ground. So you replace my Rs. 30,000/- personal deposit, and when you’ve done it, please let me know.

Regarding Mohanananda I have already written to Satsvarupa that Mohanananda may remain in Bombay for at least three months. I think you can keep him to assist you so you can go for collecting, and he can manage locally. Gradually he will also collect, but now India is foreign to him. But you should know that Krsna has sent him, so keep him nicely.

I hope this meets you in good health.

Letter to: Hamsaduta:

-

New Delhi 8 November, 1973

73-11-08

Heidelberg, Germany

My Dear Hamsaduta Das:

Please accept my blessings. I beg to acknowledge receipt of your letter with enclosures dated October 26th, and have noted the contents with great pleasure. It is Krsna's mercy that you were able to take in a copy of Bhagavad-gita to Moscow. It is very encouraging that the boy without any association is maintaining the standard. This is due to his chanting 16 rounds and following the regulative principles. Now he should be in your charge, so you kindly guide him and keep him in our atmosphere and utilize him properly, but steadily and cautiously. Yes, you arrange for their marriage. I am writing both Bhagavan Das and Mandakini, the copies herewith enclosed. Their marriage will be very good, and both of them will get some strength. So guide them both as you think best. Yes, have our literature translated into Russian. Why not have our Bhagavad gita distributed underground there as they are doing the Bible? So you support him in any way, and write Mandakini to immediately go there. So far his engagement is concerned, it is not necessary that he join the Christian order. Better as you have suggested to preach amongst their friends and to gradually induce them to take interest.

I am also glad to note the work going on in East Germany. Try to impress upon them to make communism God-centered. God is the father of everyone, and we are all His sons. Everything is His property, and everyone has the right to enjoy it. Without being God-centered, Communism will fail. So we have got good potency to be the leaders of the world if we carefully push on this movement.

Regarding killing the demons, yes, Krsna has done it. "paritranaya sadhunam/ vinasaya ca duskrtam [Bg. 4.8]." But, for us to kill like that we first have to become first class Krsna devotees like Arjuna or Hanuman, then we can fight with the Ravanas and demons. But that requires good strength, and we are not in that position now. Caitanya Mahaprabhu did not kill the demons, but He converted them. So this should be our example.

I am glad to note the work of Cakravarti and Prthu at the Belgrade Book Fair. This is real progress. So from all the literatures you are distributing you spend this money for spreading Krsna consciousness in Poland, Czechoslovakia, Hungary, and East Germany, and prepare men. Put all of our books into the local languages.

It is good that you are maintaining stocks of our books for being distributed. Can you supply paper to India? If you can send paper from the Book Fund. We can print some books locally. If it is possible, then send paper samples to me. Here there is a scarcity of paper.

I am very glad to learn that you are composing Krsna Book, and also possibly TLC, so you bring the blueprint with you to Mayapur in March, 1974 for our Festival. The report of all the Sankirtana parties is very encouraging. So you are pushing Caitanya Mahaprabhu's movement very nicely throughout Central Europe. May Krsna bless you.

Yes, I want that you give me the facility to write my books, but I can attend some meetings of important people and elites. You have taken the right view of the importance of my books. Books will always remain. That was the view of my Guru Maharaja, and I also have taken it. Therefore I started my movement with my books. And we shall be able to maintain everything with the sales of the books. The temples will be maintained by the book sales, and if there are no more temples, then the books shall remain.

So far my coming to Moscow, yes I will come, but I may not be arrested. Still I shall go, and I shall speak on pure communism.

I hope this meets you and your good wife Himavati in best of health.

Letter to: Jadurani

New Delhi 8 November, 1973

73-11-08

Brooklyn

My Dear Jadurani dasi:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 19, 1973. Yes, why not get Devahuti to paint, she's a good painter. Now I want for Lord Caitanya's Appearance Day one book of Ādi lila published, 400 pages at least, hardbound, for being distributed at Mayapur. Regarding the enclosed photo, the Yamadutas are all right. Yes, it is all right to show the subtle body looking just like the gross body. Regarding Lord Caitanya's danda, it was broken for good. So after Puri, He never took danda. So for painting Him as sannyasa, it depends on the time as to whether He had danda or not. The eka danda is all right, as in the Sadbhujah picture I sent. Do not be concerned with how the Mayavadi sannyasi dandas are wrapped because we are not following them.

Kapiladeva was a young man, say 15 or 16 years. He appeared as a baby. Salagrama sila is a black stone ball, round, with eyes and nose painted with gopicandana with a golden crown on and placed on one small srngasana. Advaita Acarya was worshiping this way.

Regarding the arati ceremony of Svayambhuva Manu, better to have the men and women separate. That is the Vedic system. Not like in the West of co-education, because intermingling of men and women was not at all sanctioned. If he is performing arati, how can he sit in a throne or asana?

The young girls on the bank were worshiping Siva linga. It is made from earth collected from the Ganges bank. There was no deity of Durgadevi. These Siva lingas are placed right on the Ganga bank without any throne, wherever there is a suitable place.

So why don't you come to Mayapur for sometime, not only you but all others and stay for sometime and finish the paintings locally there.

So go on with your chanting of Hare Krsna. You have written "Jaya Vali Hari," but it is "bali hari yai?" meaning "I give you all credit, all glories."

I hope this meets you in good health.

My Dear Bhakta dasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 17, 1973 and have noted the contents. I thank you very much for your invitation for your Govardhana celebration. I would have come, but I received your letter late, but I hope anyway that you have enjoyed Govardhana-Puja. The photos are very nice, and Radharani looks very satisfied, as I see in the features of Her face in the photo. If She is pleased, then Krsna is pleased, and all living entities are pleased.

I thank you very much for installing Radha-Giridhari. From my childhood I was very much fond of Radha-Krsna, and now my good disciples are helping me to open so many Radha-Krsna temples all over the world. It gives me so much pleasure. Now introduce Ratha Yatra. That was my childhood activity. I want to see my disciples all over the world introduce two items, opening Radha-Krsna temples and Ratha-yatra festivals. Do this under the protection of Guru-Gauranga.

Please do everything cooperatively for [you] will be happy, your countrymen will be happy, and all living entities will be happy. If one waters the root, then all the branches, twigs, and leaves are automatically nourished. That is the philosophy of Krsna consciousness.

Yes, I may meet with the Pope when returning to USA from Africa.

My Dear Govinda devi dasi:

Please accept my blessings. I beg to acknowledge receipt of your letter undated and have noted the contents carefully. I do not know why you have parted from the Deities. Who has told you to do this? If you are at all interested, you can return. Your service was there. Why did you leave, and now you are whimsically asking for service. You never asked me before leaving. How can I guide you? If you act whimsically, nobody can make you happy.

In Honolulu tulsi is drying, and you have left this service. You introduced tulsi, and they are drying for want of water. Gaurasundara said to live alone, but our policy is to live with devotees. Immediately return and live with devotees and take care of the Deities and tulsi. That is our main business. My Guru Maharaja condemned living alone in a lonely place. He wrote as follows:

dusta mana, tumi kisera Vaisnava pratisthara tare, nirjanera ghare, tavra hari-nama kevala kaitava

"O rascal mind, what kind of Vaisnava are you. In a lonely place your chanting of Hare Krishna is simply cheating"

And, Narottama Das Thakura says:

tandera carana sevi bhakta-sane vasa janame janame haya, ei abhilasa

"To serve the feet of the acaryas in association of the devotees is my desire birth after birth."

Why I have opened this Society. I was living with four children, and now I have 4,000. There is no good in living alone.

I hope this meets you in better health.

My Dear Mukunda Das:

Please accept my blessings. I beg to acknowledge receipt of your letters dated October 25, October 29, and the letter from Scandinavian Airlines. So it is a great credit that you have reduced the BBT bill, so make it nil and it will be greatest credit for London. London temple was always bad debtor to BBT, but by your management it is becoming a very good atmosphere. Syamasundara was here, but he has now gone to Hyderabad.

It is very good to hear that you are being assisted by Vaikunthanatha and Puranjana. Encourage them and keep good relations with them so things may go on nicely. This is management. Also Madhavananda and his wife are both very good workers and they will be very expert in dealing with the Indians. What about Jaya Hari? He was a very good book distributer. Try to engage him.

Another request I have to you is that there have now been two instances of when somebody does not agree you try to get them out by calling the police. This is never to be done. This is the mistaken policy of Shayamasundar, but do not follow this principle. With great difficulty we get a man. We have to reform them. Our business is to become sympathetic to fallen souls. So in future do not do it all. Everything should be done amicably.

Regarding the letter from the airlines, does it mean we are entitled to a refund or we can utilize the credit on their airlines?

Please accept my blessings. I am in due receipt of your letter dated 21/10/73 in Bengali and have noted the contents with thanks. At present I am in Delhi. I left Bombay on the 1st after finishing the land dispute there and shall return to Bombay again on my way to Nairobi by the 23rd instant. Then I shall return back to USA via Rome and shall come back to India in the month of March during Lord Caitanya's Appearance Day.

For the time being I am keeping my health fairly well. Certainly I was sick when I left Calcutta for London, but I improved my health there. So after all, this is an old body. I am 78 years, and still by the grace of Krsna it is going on. So I am very much thankful for your enquiry about my health.

I am glad that sometimes you are going to the temple, and are staying to take prasadam. So when I shall return there we can talk more.

I hope this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Jayapataka Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 26, 1973 and have noted the contents. Your description of Sridhara Maharaja's birthday celebration is nice, and I thank you for presenting on my behalf a copy of Caitanya Caritamrta.

Regarding the Government's plans to construct a three crore tourist lodge, why not give the money to us, and we can construct? If this money is used for four such buildings as we have got plus a temple, this will satisfy the Government as well as our needs. You should try to get them to invest in our residence building construction. Tourists will come due to our canvassing. The Government can construct, and we can manage.

I am glad to hear that the doll making is improving, so please continue it.

All blessings of Krsna are unto you. You are such a sincere devotee of Krsna, that He must be pleased upon you.

I hope this finds you in best of health.

My Dear Sons and Daughters of Atlanta:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 23, 1973 with the silk chaddar. It is very nice, and just suitable for me. Here it is getting a little cold, being the winter season, so I am wearing it. So I thank you all for giving me this gift, and I pray for your ever advancement in Krsna consciousness.

Letter to: Revatinandana

Edinburgh, Scotland

My Dear Revatinandana Swami,

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 27, 1973 and also the letter from Partha Das. I am glad that you are traveling and preaching. This is your main business. For a sannyasi the more he wanders and preachers, the more he becomes experienced. The people benefit, he benefits, and from a material point of view he'll profit. So constantly travel and distribute books as much as possible.

I have received report from New York today as follows: "we have just broken all ISKCON records for the number of books distributed. On October 27 we distributed 13,486 books in one day. On Nov. 3 we distributed 13,127 in one day along with 10,000 lugdo's." Now New York is heading the list.

Regarding the auto accident, just hold a condolence meeting for Raghava dasa brahmacari and pray for his soul to Krsna for giving him a good chance for advancement in Krsna consciousness. Certainly Krsna will give him a good place to take birth where he can again begin in Krsna consciousness activities. That is sure. But, we offer our condolences to a departed soul separated from a Vaisnava. Do you know that there must be prasadam distributed? After three days after the demise of a Vaisnava a function should be held for offering the departed soul and all others prasadam. This is the system.

Yes I have received reports of London that it is going on nicely. But one report is not satisfactory. That chandelier in the temple has been taken away by the supplier because Syamasundara. took it on credit and has not paid. I do not know if it is a fact but it is regretable.

I hope this meets you in good health.

My Dear Sukadeva dasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 25, 1973 and have noted the contents. Regarding your going to other's meetings, yes, you can go to preach but do not pick a quarrel or have any violence. Try to attract the sincere devotees there.

Regarding the Gaudiya Math books being circulated there, who is distributing? Who is sending these books? The Gaudiya Math does not sell our books, why we should sell their books. Who has introduced these books? Let me know. These books should not at all be circulated in our Society. Bhakti Vilas Tirtha is very much antagonistic to our society and he has no clear conception of devotional service. He is contaminated. Anyway, who has introduced these books? You say that you would read only one book if that was all that I had written, so you teach others to do like that. You have very good determination.

Yes, you submit reports to me at least once in a month. Yes, I can come to Seattle, why not?

I hope this meets you in good health.

My Dear Sankara Pyne:

Please accept my blessings. I beg to acknowledge receipt of your Bengali letter date 4/11/73. I am glad to learn that my books are being read in the Calcutta University and the National Library and others. Go on in this way distributing as far as possible.

You can still advance in krsna consciousness even in the office by chanting and giving some percentage to the mandir. Our philosophy is that all the fruits of our activity go to Krsna for His enjoyment. It does not matter what our position may be.

Soon I shall be leaving India, but I shall return in March for Caitanya Mahaprabhu's Appearance Day, and I shall see you then.

I hope this meets you in good health.

Paris

My Dear Bhagavan Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated 11/11/73 together with enclosures and I thank you very much for them. The book which you have sent is very excellent. The appearance is better than the English edition. I shall be glad to know how you are selling them in France. Increase the publication more and more as Hamsaduta is doing.

Here also the Hindi editions are coming by the endeavor of Ramananda dasa. They have also started in Gorakhpur a Bhaktivedanta Publication House. So let us conjointly publish in all languages. I am asking Brahmananda to publish also in Swahili in Africa. That will make our movement successful. Books are very important in pushing on any movement, especially Krsna consciousness.

The magazine is also very nice. The get-up, the printing, the types are all nice.

If I go to Rome, whether you can come? I may be going there in the first week of December from Nairobi.

These are tangible services that you are doing, recognized by my Guru Maharaja and Krsna. Brahmananda was saying that two years ago when he was in Paris they were collecting 40 francs on Sankirtana, now you are collecting 1500 dollars. So has the time changed, or is it because you are there? Krsna will surely bless you.

I saw your Deity room packed up when I was there, so I think its going on like that, surrounded by police cars. Anyway your temple is centrally located and in a good quarter, so certainly it will be successful. When I go to London next, I will certainly visit. The picture of Radha-Paris Isvara is very nice. Radharani's attitude is very nice. She is giving her blessings to everyone.

In the magazine the picture on page 11 of the arati is very nice. Krsna is looking also upon me. It is a nice pose. I am looking to Him, and He is looking to me. Kindly send me some copies.

Regarding Annada, her father will not agree, but I shall tell her privately. Regarding Mandakini, let it be clarified, then send her. Moscow is uncertain, and Paris is certain; so we should not sacrifice the certain for the uncertain.

Now print books. Don't use this money for any other purpose than publishing. Some percentage may be kept by you for getting your own house, either purchasing or constructing our own temple. If the present house is available, then purchase.

I am glad to hear about Geneva. It is a very important place to establish a center. Now in Bombay after much difficulty we have purchased the property spending about 18 lakhs, having to pay so many claimants, but now it is ours, although still there remains one item. Arrangements are being made for the temple construction is going on locally. Our Delhi festival is now finished, and it was nice. Now I am in Vrindaban staying in my house on our Raman Reti land. Wednesday the 21st I shall proceed to Bombay.

Regarding London, I think they are doing there. If you like, you can go and see. In Rome if Dhananjaya can organize a center, that will be very nice.

Enclosed is the statement duly signed by me regarding the translation rights of my books.

I hope this meets you in good health.

Letter to: Minister in charge of Immigration

-

Bhaktivedanta Manor 24 November, 1973

73-11-24

Minister in charge of Immigration, Naturalization Department, Government of Kenya, East Africa.

Dear Sir,

I beg to inform you that it was so arranged that on my way to America via Europe I was to stop at Nairobi on the occasion of holding a festival known as Hare Krsna Festival, and wide arrangement was made on this account and I was invited to attend the ceremony from India. As such, I arrived on the airport of Nairobi on the 23rd November, 1973. I had my regular visas, health certificate and all necessary things for entering, but after passing through the health examination department, as soon as I entered the arena, some of the officers of the immigration department immediately took out the passports of my men as well as that of myself, and they asked my men to wait. So I had to wait for two hours, namely from 6 a.m. to 8 a.m., but there was no definite decision by the immigration department, and whenever I sent my man to inquire, the man in charge simply replied "Please wait". Later on one gentleman came to inform my men that I was refused entrance in Nairobi from higher authorities. As such, he did not inform me what was the reason of my being refused to enter Nairobi, neither there was any written order from the department on me particularly to stop my entrance in Nairobi. Anyway, when I could understand there was no profit asking them the reason of my being refused, I immediately arranged for coming to London where also I have got two branches. Now from London, I wish to bring the matter for your consideration why I was refused entrance into your city without giving any written or verbal reason.

According to our Vedic civilization, even if one enemy comes at somebody's door, he should be received like a friend for the time being. The enmity should be forgotten, and even though the enemy guest is there, he should be treated so nicely that both of them for the time being forget that they are enemies. I was therefore surprised that I am a sannyasi, head of a group of cultural movement, namely the Hare Krsna Movement, and I was not allowed to enter without giving any reason for this purpose. I think I am not enemy of your country. I am preaching Krsna Consciousness, or God consciousness, all over the world, therefore I have opened a regular branch at Nairobi. My society is regularly registered in Nairobi as a cultural and religious society, and we have go our own house, and before this I had been in Nairobi twice and there was no objection. Last time, there was another Hare Krsna Festival. One of the ministers of your government, most probably the education minister, was invited, and he very much appreciated our activities.

Our principle is, preach God Consciousness all over the world. I think we believe rightly that for want of God consciousness, there is very much confusion all over the world, simply fighting between individual to individual, man to man, nation to nation. Nobody believes anyone. Any sober man will admit the present _ for unifying the whole human society without any consideration of bodily identification so that there may be peace and prosperity on the platform of spiritual identification. Perhaps you have heard the very good name of Bhagavad-gita. Our preaching is on the basis of Bhagavad-gita As It Is. In this Bhagavad-gita it is stated that God is the Supreme Being, and He is the proprietor of all planets and actually He is the enjoyer of all benefits. Anyone who will understand these three principles of life will be automatically peaceful. So, if every individual is peaceful, naturally there will be peace and prosperity in the community, society, and nation of all over the world. This is our principle. We are trying to broadcast this message on the authority of Vedic knowledge. Everywhere we are very much peaceful, trying to reform the character of the modern man. We teach our students to follow the following regulative principles, namely no illicit sex life, no meat eating, no intoxication, and no gambling. These are the negative principles, and the positive principle is to chant always the Holy Name of God. By the grace of the Supreme Personality of Godhead, we have become successful everywhere, in all parts of the world. We have no principle striction that one is Indian, one is America, one is African, or one is Hindu, one is Christian, one is Mohammedan. We invite everyone to understand the philosophy and reform the activities of life. This is our mission. I do not know why I was refused to enter into your country without giving me any proper explanation. I am therefore very much grieved by the treatment of your airport officials that they stopped me to enter into your city and make so many people disappointed for breaking usual procedure of the Movement, I wish, therefore, that you kindly let me know what is the reason that I was refused to enter without giving me proper notice, or to my men. Kindly reply me this letter at my Nairobi headquarters as written above, or as I am proceeding to Los Angeles, you can reply me this letter to my Los Angeles address as follows:

My dear Kirtanananda Maharaja,

Please accept my blessings. You may be pleased to know that on my way to U.S.A., Los Angeles via New York, I am now staying in London. I have just come yesterday 23rd November, 1973 from Nairobi. The fact is that I was to stay at Nairobi for at least one week, and there was very big arrangement for Hare Krsna festival. The wide circulation of advertisement was there, and it was expected some thousands of people will gather, but the immigration department by their confidential conspiracy did not allow me to enter into Nairobi. Therefore, from the Nairobi airport I immediately arranged to come to London, and last night at about half past eight London time I have come here at Bhaktivedanta Manor. I am feeling very much happy. Here everything is going on very nicely. It has given me much pleasure. Now when I go to New York I wish to meet both you and Hayagriva Prabhu, and if you so desire I can go from New York to your place for a few days. I have got important talks with you for development of our New Vrndavana project, so kindly get information from Bali Mardan Swami, and as seen as you hear that I am there, please come and see me with Hayagriva Prabhu. If you so desire, I shall go to New Vrndavana along with you. Hope this will meet you in good health. I offer my blessings to all the devotees there.

My Dear Damodara Das Prabhu,

Please accept my blessings.

I am in due receipt of your letter dated Oct. 31, 1973, and I have acknowledge its contents carefully. I have also received the new copy in which you have enclosed; it is very nice.

I am always very much encouraged when senior devotees like yourself and Rupanuga Maharaja are tending to their Lordships. This gives me assurity that our high standard will continue. Thank you very much for this, I am sure that Krishna will give you all intelligence in how you can improve your service to Krishna.

Regarding the second initiation of Antardyana Dasi you may hold a fire yajna and play the Gayatri mantra tape for her to hear through the right ear.

Thank you very much for your kind words regarding my books. Yes, more and more persons as they are exposed to my Krishna Conscious literatures are appreciating their value, and your greatest manner of showing your appreciation is by your constant increase in distributing them everywhere.

I hope this letter meets you in good health.

I am in due receipt of your letter and your kind words to me. Thank you very much.

I should be returning to Los Angeles the last week of November and I should be more than happy to see you there. Please always try to remember me by my teachings and we shall always be together. Just like I have written in the first publications of Srimad-Bhagavatam, "The spiritual Master lives forever by His divine instruction and the disciple lives with him.", because I have always served my Guru Maharaja and followed His teachings I am now even never separated from Him. Sometimes Maya may come and try to interfere but we must not falter, we must always follow the chalked out path layed down by the great acharya's and in the end you will see.

I hope this letter finds you healthy and in blissful serving mood.

My Dear Umapati,

Please accept my blessings. I am in due receipt of your letter dated October 30, 1973 and I have noted its contents carefully.

As far as your grhastha community committee, I have no objection as it has the approval of Karandhara prabhu and he is there for you all to take advice from. One thing is though that we should not take such meetings and committees too seriously, as in the ultimate capacity our chanting is the only thing that will save us. However, if sometimes devotees should like to come together and chant Hare Krsna and discuss, just as we instituted our Istagosthi program, then this of course I have no objection to.

Please offer my blessings to my beloved disciples there, and please extend my well-wisher to your good wife. I hope this letter meets you in good health.

Letter to: Bhakta Don

-

Los Angeles 1 December, 1973

73-12-01

My Dear Bhakta Don,

Please accept my blessings. I am in receipt of your recent letter undated. The topmost science is this Krsna Consciousness and that is a fact. The so-called modern science has become spoiled for lack of this perspective. Real science means to acquire perfect knowledge from the Parampara, not by so-called academic and empirical research. Such technique is bogus and will not help us in obtaining perfect knowledge.

Yes, you should use your scientific credentials to present this Krsna Conscious philosophy. Everything may be used in Krsna's service. It may not be possible to convince the rascal scientists of this Krsna Consciousness philosophy because after all, Krsna gives everyone free will and if it is their determination to remain atheistic how shall it be checked? Our principle aim is to challenge their nonsense proposition so that the layman and common people may be saved from this rascaldom. You study our books very carefully under the guidance of Amarendra Prabhu and preach our philosophy from Bhagavad-gita and Srimad-Bhagavatam in your scientific language.

Krsna Consciousness is perfect so it can be substantiated by all means of argument and logic. The main theme is that life has come from life and not generated from matter as they foolishly claim. You just prove this point and it will be a great victory.

The Spiritual Master is present wherever his sincere disciple is trying to serve his instructions. This is possible by the Mercy of Krsna. In your attempts to serve me and in all your sincere devotional sentiments I am with you as My Guru Maharaja is with me. Remember this always.

I hope this meets you well.

Letter to: Yasodanandana, Gurukrpa

-

Los Angeles 1 December, 1973

73-12-01

My Dear Yasodanandana and Gurukrpa Maharaja,

Please accept my blessings. I have two days ago arrived at our Los Angeles Center after going through London and New York.

I have been informed by Karandhara Prabhu that you both are presently traveling and collecting money for our Vrindaban Project. I am very glad to hear this. Just today we have received a letter from Guru das that the construction has stopped there due to lack of funds. Somehow or other we must complete this Vrindaban Temple so in this connection we require at least $10,000 per month from the U.S.A. for one year. Karandhara can manage $5,000 per month for the BBT and M-V Fund so I request that you both remain in America for 1 year further and collect and send a minimum of $5,000 per month to Guru das for the Vrindaban Temple.

I understand that you are both anxious to return to India for preaching but at this time our preaching must be to first complete the Temple construction. After that is finished up then you may certainly return to India. You are both my older disciples and Sannyasis so I am dependent on yourselves for helping me push on this Movement in this way.

Please send immediately $5,000 to Guru das. If you can send more, that is all the better but at least $5,000 per month must be sent by yourselves for the next 1 year. Please confirm that you agree to this proposal.

Pray to Krsna that our humble attempts to spread Krishna Consciousness may be successful and that we may always please the acaryas and Vaisnavas by our service.

My Dear Jayananda,

Please accept my blessings. I am in receipt of your letter dated November 13, 1973. I was very happy to hear from you. I am always thinking of you and praying to Krsna for your advancement in Krishna Consciousness.

That you are engaged in street Sankirtana in San Francisco is fully approved by me. That you are feeling more and more enthusiasm by doing this is quite natural as Sankirtana is our life and soul. My Guru Maharaja used to say, ”One who has got life, he can preach.”

Yes, I remember the old days in San Francisco. Krsna has been so kind upon me to have sent so many sincere disciples to help me push on this Movement on behalf of my Guru Maharaja. You continue with your program there in San Francisco, always strictly keeping our principles and Krsna will bless you with greater and greater realization of the importance of this Movement. I am dependent upon you, my older disciples, to carry it on.

Please offer my blessings to your good wife, Trayi devi dasi, and thank her on my behalf for the three nice drawings of Krsna lila. Also, please thank Bhavatarini devi dasi for her drawing of Gopala Krsna. So far how she can serve me, the best service is to chant Hare Krsna always and spread it to every town and village.

I hope this meets you well.

Los Angeles 1 December, 1973

73-12-01

Dear Tamala Krsna Goswami,

Please accept my blessings. After stopping in London and New York, we have now safely arrived in Los Angeles.

I am anxious to know if there has been any response from the Home Minister of India to the letter I wrote him while I was in New Delhi regarding the Indian Government assisting us in the development of our Juhu Beach Project. Our idea is to construct a hotel for

American and European tourists to come and learn about factual spiritual life. While they are coming, there will be foreign exchange and the Indian Government is very much in favor of this. In this way, if we can convince them to help us by granting permanent visas for 100 to 150 of our men it will be a solution to our visa problems. Also, why not solicit a loan from the Government for 2 crores for developing our Juhu Beach Tourist Hotel. We will repay them in foreign exchange. You can point out that we have already invested up to 20 lakhs in foreign exchange so our projects in India are advantageous to the Indian economic development. This is the key to Governmental support in India.

Emphasize these points in all dealings with the Government. Please let me hear from you the developments and current news of our India projects.

ALL GLORIES TO SRI GURU AND GAURANGA!

My dear Jagadisa,

Please accept my blessings. I am in receipt of your letter dated November 29, 1973.

Thank you for the report of the progress of Temples in your Canadian Zone. Now that we have opened some Centers, they must be maintained and our work go on. Book and prasadam distribution, Sankirtana and Deity worship is our only business so these programs must remain energetic. Your number one duty is to see that they are continuously carried on with enthusiasm. One thing is that we shall not open any more Centers for the time being. We have so many programs which require manpower and resources so we now must consolidate our energy.

I hereby accept the following devotees as my initiated disciples and their names are enclosed:

Sylvan Lushley-Niskincana das Jocelyn Prabhu-Ghosh Thakura das Linda Ross-Malini dasi Linda Epstein-Rudrani dasi Moria Jones-Pratima dasi Mary Everall-Misrani dasi

Enclosed also find three sacred threads and six mantra sheets for the second initiates. Hold a yajna and afterwards they may hear the Gayatri mantra through the tape in the right ear. All the initiates should collect daksina and send it to Los Angeles c/o Karandhara.

I will consider coming to Toronto later on. For now, carry on as my representative there and be strong and always faithful in Guru and Krsna.

I hope this meets you well.

My Dear Tejiyas das,

Please accept my blessings. I have five days ago safely arrived here in Los Angeles by the Grace of Krsna.

Since leaving India, I have not heard from you. Guru das has written that the work has stopped in Vrndaban for want of finances. What is the position of your collections in New Delhi? I am arranging to collect and send money from here for the Vrindaban project and I also want you to concentrate on collecting there. We want to finish this project as soon as possible so that we will have our Center firmly fixed up in Vrindaban. Kindly report to me the progress in this connection.

Regarding Mr. Aggarwal's offer to print our abridged Bhagavad-gita As It Is: whether or not he is still serious for this proposal and have quotations for the production been taken? The price should not exceed Rs. 2 per book. The size may be reduced a little to meet this budget if necessary. We want to sell for Rs. 3 at most. This edition is especially meant for the student class. We can print and distribute in India but cannot export them. It will be better not to sell them through bookstores but rather direct to the consumer. The stock should be kept in our custody at our own warehouse.

How things are going on at our Delhi Center? There is a good opportunity for cultural discussion to be held there, especially amongst the foreigners, so try to arrange some programs.

There must be feasting also, if not weekly then at least occasionally. All our life members and patrons should be invited. For example Mr. Bridge Mohan Chandiwalla who recently donated Rs. 5,000 is very favorable so we must endeavor to keep his sympathy and support.

You may inquire from Mr. Kilnani, who was previously a commissioner in Germany, what is the procedure for bringing one automobile into India. Recently he has imported his Mercedes Benz so we also have an auto we want to take to India. How to go about it?

Kindly reply soon bearing all news.

I hope this meets you in good health.

My Dear Madhudvisa Maharaja,

Please accept my blessings. I have arrived safely in Los Angeles by Krsna's Grace and everything here is going nicely.

Now, as you know, we require some men for India. Karandhara informs me that you have declined to send any. Our programs there are important and there is a great need. We have not captured many first class men there so we must import. I am requesting therefore that you send at least one or two first class men from your zone. Men from Australia do not require visas so they may go directly. Kindly make arrangements for this.

My program is to visit some of our U.S.A. branches for some time, keeping Los Angeles as my home base and then to return to India by Lord Caitanya's Appearance Day.

I hope this meets you well.

Letter to: Tamala Krsna

•

Los Angeles 5 December, 1973

73-12-05

My Dear Tamala Krsna Goswami,

Please accept my blessings. I am in receipt of your letters dated November 29th and 30th. Regarding the refusal of my entrance into Nairobi, no reason has yet been disclosed for the denial. I have written one letter, a copy of which is enclosed herewith, but there has been no reply. You may get the letter published in India. After proceeding to London I heard from Brahmananda Maharaja that on account of the denial of entry a commotion was caused amongst the people so the President of Kenya verbally said he was issuing a letter with permission for myself to enter. I waited in London but it did not come so I proceeded on to Los Angeles. The idea is to curtail the Indian influence in Kenya, either political or religious. That I can understand. Brahmananda Maharaja was allowed but not myself or my secretary. It was a great trouble for me. From Bombay to Nairobi took nine hours, then six hours waiting in the airport and then 9 hours to London. It was a great strain. I rested for three days in London.

Regarding our Bombay project: somehow or other the foundation should be dug immediately. Yasomatinandana Prabhu, who has a degree in structural engineering, is here and I have requested him to go to India with Giriraja who is recovering. They will come as soon as possible.

Regarding visas for our American devotees coming to India, I have made arrangements with the Consulate General of India in New York to grant six month student visas, renewable in India, for all our men. The premise is that we want our men to come to India to learn the Sanskrit language so that we can study the Vedic literature. So you must arrange for a teacher to coach these boys in Sanskrit. It will be very nice, they can learn Sanskrit and at the same time allowed visas. The Consulate General was very kind to meet and help us in this way. Also, I met with the High Commissioner of India in London and requested him in the same way. If our schooling is established we will get rid of this visa problem.

Regading the Government loan for our tourist hotel, we have already invested twenty lakhs so they may loan us at least 1 crore. Do it carefully. If we construct a very attractive hotel many tourists will come just like the Holiday Inn.

So far as the arrangement with Australia for trading books for ghee, go ahead and do it with my permission. Karandhara has agreed.

If you think there is a good opportunity for getting surplus food grains from the U.S.A. then you may come here for sometime to work on this scheme after Giriraja and Mohanananda have returned to Bombay.

I hope this meets you well.

My dear Locanananda,

Please accept my blessings. I am in receipt of your letter dated December 2, 1973. From the Vedic point of view a man can have more than one wife provided he can maintain each of them very nicely. The practical example is our Lord Krsna. He had 16,108 wives but for each wife he maintained a palace with servants and everything. We do not encourage more than one wife, but provided the man is highly responsible and conscientious and the woman agrees then we have no objection.

The thing is how you will maintain two wives? You cannot give up one and take another. We cannot be responsible. You will have to manage everything and if there is any legal implication then we cannot be responsible. The Temple cannot pay for you to have two wives so it must be arranged for outside.

I hope this meets you well.

I have not received any reply from Tusta Krsna Swami to my letters. I do not know why he has left New Zealand. In Hawaii a great wrong doing has been done by Gaurasundara and Siddha-svarupa. They sold the temple and went away with all the money without taking any permission from me. It is a fall down on their parts. They have done the wrong thing. You should not go to Hawaii to join them. Stay in New Zealand and work cooperatively with Madhudvisa Swami. The ”communal form of Krsna Consciousness” which you mention is not approved by me. It is all concoction. My Guru Maharaja condemned this practice. We must stay together and vigorously preach the Krsna Consciousness philosophy to the world. That is the real spirit of Lord Caitanya’s Movement. Do not fall victim to this sentimental idea of peaceful life in seclusion. That is not our dharma. I hope this meets you well.

ALL GLORIES TO SRI GURU AND GAURANGA!

MEMO TO ALL CENTERS

Dear Prabhus,

Please accept my most humble obeisances at your lotus feet. Today we received a newsletter from Syamasundara. Prabhu regarding gems and I assume every Center received the same letter. I discussed the contents with Srila Prabhupada and His Divine Grace instructed me to immediately issue the following letter.

First of all, Srila Prabhupada never sanctioned or encouraged this program of buying or selling jewels. Furthermore, Srila Prabhupada does not want us to purchase jewels and gems for decorating the Deities in our own Temples. Expensive gems and jewelry will only attract thieves and rogues. It was because of the jewels in Indian Temples that the Mohammedans invaded India, destroying the Deities and Temples and plundering the jewels. In previous ages, when people were honest and pious kings maintained law and order, then the Deities and Temples were decorated with costly jewels but in this age it is not advised. Srila Prabhupada said, ”Bhakti does not depend on seeing the Deity with jewelry-it is a different matter. We worship the Deity by strictly observing the rules and regulations of Deity worship-not by decorating with jewelry. Jewels will not attract anyone except thieves and rogues. People will be attracted by our preaching. I don’t advise the Temples to purchase jewelry. Do not expose the Deity to this danger. I am not in favor of this.” Furthermore, ”purchasing jewels means increased anxiety only. It is not the days for this practice. I do not advise buying or selling jewelry.”

In addition to thieves and rogues, there is risk that even our own men may fall victim to stealing. We have the examples of Kausika and Mahadeva, both devotees who stole from Temples. Prabhupada said, ”Our men are coming from outside with so many bad habits and the stealing mentality is there. We are trying to reform, but if the opportunity is there, the mentality may come forward and they may fall down. We will loose our money, our prestige and out students. Why expose them in that way? No jewelry! It is not the time for that.”

In summary, purchasing jewelry for the Deities is unnecessary, dangerous and unauthorized. Prabhupada said to ”write elaborately to all Centers on this point. Try to understand the principle.”

We improve on Deity worship by regulated puja, purified chanting and bold and enthusiastic preaching work. Those are the real ornaments with which to decorate the Lord.

Haribol Prabhus.

73-12-13

Bombay

My dear Tamala Krsna Goswami,

Please accept my blessings. I am in receipt of your letters dated December 6th and 7th and have carefully noted the contents.

I have already advised Guru das to remain in Vrindaban. There is no need for him to come to the U.S.A. at this time.

Regarding our Bombay project: I am sending Yasomatinandana das there. He is a qualified engineer and he may deal with Mr. Shah and others. That will relieve you from this work. He is very competent and intelligent. He will return with Giriraja. He is our man and if he requires, he can take help from Mr. Shah. We should keep them all as friends. This is a very important point. Let our men and Mr. Shah do the needful-we don't require to hire any outside engineers. Regarding Mrs. Thirani, try to please her. She is the grand-daughter of Mr. Birla and the sister of Ashok Birla. She is a very important lady.

Regarding the printing press for India: the press at ISKCON Press is too old and not practical to send to India. We are ready to manage a Press in India, but where is the money? We require new offset printing equipment. If we print in India we can get a much cheaper rate. Now, also there is a world-wide paper shortage but I have asked Mukunda in London to investigate exporting paper to India. I am in favor of this scheme but whether or not Mr. Gupta and others will support it and will the government allow?

The news of the preaching work in New Delhi is very nice-continue with it. There are many intelligent men in that quarter, mostly European. So far as the Russian correspondent, try to convince him about our philosophy. We want to unit the world on the platform of Krsna Consciousness under one state, one government, one religion and one scripture. It will be successful if we work cautiously and maintain our standards.

Just now I was reading Krsna Book. It is very interesting and entertaining and written so even a child can follow. In our childhood days we were reading one book, "Folk Tales of Bengal". It was very widely read, especially by children. So why not introduce the Krsna book for the same purpose? You may get some sanction from the Minister of Education. It is a very nice book for student study-they will get our cultural idea and learn to read English.

Yes, I approve of the Life Member Committee. for the Temple construction in Hyderabad. You may do the same in Bombay also.

Yes, the pandal program in Hyderabad may be cancelled at this time. It is not timely at this point.

Concerning our Vrindaban project, along with the residential quarters, the remaining work on my quarters must be finished up immediately for my residence.

Now your most important business is to finish with Mrs. Nair all matters, especially the income tax certificate and to get sanction from the Municipality for all our plans. See to these matters above all else.

Thank you for appreciating this Krsna Consciousness more and more. Carry on faithfully with Krsna, work with greater and greater enthusiasm and be blessed.

I hope this meets you well.

My dear Madhudvisa Maharaja,

Please accept my blessings. I am in receipt of your letter dated December 11, 1973. Thank you for the comprehensive report of our Australian theater of ISKCON. I am glad that things are going nicely and that you have settled up the New Zealand affair. Depend on Krsna and He will give you good intelligence. I am pleased that you are managing things so nicely.

I have seen pictures of the house you are trying for and it is very gorgeous. If you can purchase it, that will be a great credit for you. Krsna will recognize your service and it will be a great push forward for our movement. I pray to Krsna that you may become successful in this attempt.

I have not heard from Tusta Krsna or Siddha-Svarupa Goswamis nor do I know anything of their plans to return to New Zealand. Try to convince them to return to our Society and work cooperatively. That they have gone away is not good thing and it is a deviation from our line of parampara. Rather, avoiding faultfinding and anarchy, they should keep our standards and work maturely and not cause factions and splitting. I am not at all pleased at what they have done, but if they return let us forget what has happened and go forward. As Sannyasins they may preach and you may manage affairs. That will be very nice. We have got so much vital spiritual knowledge to distribute to the public and they are in desperate need of it. The whole world is going to hell and everyone is suffering. In light of this, how can we argue amongst one another and neglect our responsibility for reclaiming these fallen souls for going Back to Home, Back to Godhead.

I hope this meets you well.

My dear Kurusrestha,

Please accept my blessings. I am in receipt of your letter dated December 7, 1973 along with the wonderful photos of Denver Temple. Thank you very much. I am very pleased. Carry on as you are doing. When I return to the U.S. next summer I will certainly consider visiting there.

I hereby accept the devotees as you have recommended for initiation and their names are as follows:

Emil-Svavasa dasa

Mike-Vyapi dasa

Joe-Naikatma dasa

Wally-Naikarmakrt das

You may send their beads of Kirtanananda Maharaja for chanting upon.

My dear Govardhan,

Please accept my blessings. I hereby accept the devotees you have recommended for first and second initiation. Enclosed are three threads and six gayatri sheets for the second initiates. Hold a fire yajna, after which they may listen to the mantra once through the right ear from the cassette tape I have made.

The spiritual names of the first initiates are as follows:

Patrick - Khandaparasu dasa
Donale - Daruna dasa
Don Pearson - Dravinaprada dasa
Chuck - Caturbhava dasa
Judy - Rangavati dasi

All the devotees should collect Guru-daksina and send it to Karandhar in Los Angeles.

Memo to All Centers

Repeatedly Srila Prabhupada says, "I only want my disciples to take this Movement seriously."

So, the punch line is that Prabhupada wants to initiate the following schedule:

1. Reside 4 months in India, 4 months in Europe and 4 months in the U.S.A. out of each year.
2. See or speak to no one except very important visitors wherever his is staying.
3. Be completely relieved of managerial affairs and have full time for translating.

What this means to us is the following:

1. Don't ask Prabhupada to come to our Temple.
2. Solve all problems amongst ourselves and don't burden Prabhupada with them.
3. Continue to advance dynamically in Krsna Consciousness by keeping all our principles very strictly and vigorously preach and propagate the movement around the world.

Now we have the GBC, the sannyasins, the presidents and so many qualified devotees. We have to give up the habit of placing everything on Prabhupada's shoulders. We must be responsible, mature, steadfast and convinced.

Wherever Prabhupada is staying he will deliver morning lectures. Presidents, etc., may visit there and go on the walks with Prabhupada. Other than that we must take care of all affairs.

Enough said. The rest is up to us.

Haribol.

Kona, Hawaii

My dear Govinda dasi,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 1, 1973. I thank you very much for the check for $20,000.00 which has been duly received by me.

I understand however that out of the sale of the Temple, $54,000.00 was taken as net proceeds so where is the balance money? Has Gaurasundara spent or distributed it? I also understand that Balabhadra has been paid $15,000.00 by Gaurasundara so $15,000.00 and $20,000.00 makes $35,000.00 so where is the balance of $19,000.00?

Anyway, I beg to request you to arrange for sending the balance money because for our Vrindaban project we require a few lakhs of rupees immediately. In Bombay also we have purchased a large tract of land at Juhu Beach so why not ask Balabhadra to send his $15,000.00 and Gaurasundara also to send the balance money?

My plan is to come to Hawaii by mid January 1974 when, of course, we shall meet together. I have no ill feelings against Gaurasundara, rest assured, neither anyone is accusing him or you. Everyone considers it has been done by some supernatural influence on Gaurasundara. We suffer on account of our karma-that is a fact. In this material world our karma is responsible for everything. Therefore, due to our work we create our own circumstances. So, if you like to cooperate with our missionary work you are welcome to return back. I have already written a previous letter to you, a copy of which is enclosed.

At the present, I am so pleased that you have found some shelter and an opportunity to preach-it is all by Krsna's Grace. If you like you can come here or if you are satisfied, stay there. At any rate, go on with preaching work-that is our main business.

When we meet in Hawaii we shall discuss everything in detail. In the meantime, kindly induce Balabhadra and Gaurasundara to send the balance money. I still have very high regard for Gaurasundara. I have praised him always for being a kind and gentle boy. All of a sudden he has gone crazy even to the extent of abandoning you. It will all be forgotten history if you again begin preaching work sincerely.

I hope this letter finds you well.

Letter to: Tamala Krsna

-

Los Angeles 21 December, 1973

73-12-21

Bombay

My dear Tamala Krsna Goswami,

Please accept my blessings. Enclosed find a copy of a letter I have just received from Hari Charan Goswami. As he states therein, he is willing to teach our students Hindi and Sanskrit. We want to introduce this program of teaching our students Hindi and Sanskrit for two reasons. First of all, as I have already explained in a previous letter, if we can establish a bona fide language school then our American and European disciples can acquire student visas for coming to India. This will solve our visa problem. Secondly, if our students can actually preach in Hindi, periodically quoting Sanskrit, it will be a very good credit for us and very respectfully received by the Indian people. I have asked Dr. Kapoor in Vrindaban and also one pandita named Nrsimha Vallabha to also teach our students Hindi and Sanskrit. The curriculum can be two hours in the morning and two hours in the evening and the panditas can be paid Rs. 200 per month. Our students, however, must be prepared to apply themselves and actually learn the languages. Mr. B. R. Mohatta, our life member from Bombay, has just today visited me in Los Angeles and we have discussed this matter of the language school. He has advised that we take sanction for our school from different branches of the Indian Government such as the educational department, the social welfare department, and the cultural department. He says that we must approach them on the platform of wanting to present and develop this school for its educational and cultural value but not to place any stress on any religious import. Otherwise we shall not get any support from the government. He has described to me how the Rama-Krsna Mission is getting so much support from the government only on the pretext that they are keeping schools and medical clinics. Factually their schools and clinics re for namesake only and they are using the government's support to mainly propagate their philosophy. So in this way we also must take government support by tactfully presenting a solid and organized proposal. I want very much that this project should be initiated immediately and followed through with all necessary attention and endeavor. Now I have given some hint and I am turning the matter over to you for execution.

I am standing by to hear from you whether or not we have obtained municipal sanction for our plans for our Juhu Beach scheme.

I hope this finds you well.

Bombay

My dear Tamala Krsna Goswami,

Please accept my blessings. I am in receipt of your letter dated December 19, 1973 and I have carefully noted the contents. I have received all your previous letters and have replied to each of them. Regarding the rents collected from the apartments at our Juhu Beach property, this money must be kept and spent only for Deity worship and Temple maintenance. It must not be used for any other purpose.

Regarding Vrindaban construction, we are trying to make an arrangement with one gentleman here in the U.S.A. for giving him dollars and taking rupees in India at the rate of 22 1/2 rupees per dollar. Presently the Book Trust and Gurukrpa and Yasodanandana Swamis' travelling sankirtana party are collecting the $100,000.00. To date approximately $30,000.00 has been collected. We are waiting to see if the arrangement with this man for three to one rate exchange will actually materialize and at the same time are still collecting the funds. So it may take one to two months so for the time being you will have to stand by for these funds. Meanwhile construction of the Vrindaban Temple should go on with whatever you have there. The Temple construction should go on first and later the residential quarters. You may assure the life members that they will surely get their residential quarters without fail, but first the Temple must be built. The $100,000.00 being transferred is for the Vrindaban project and other arrangements will have to be made for the new kitchen and pavilion in Mayapur.

Whether or not the Rs. 30,000 has been repaid to my fixed deposit account from the money I advanced for purchasing our Juhu Beach property? It was supposed to be repaid before my coming back but I do not know if it has been done. Yes you keep the Rs. 2 lakhs reserved for purchasing the Mahatma Gandhi building. One thing is the Rs. 65,000 from the BBT savings account actually belongs to the Mayapur-Vrindaban Trust. This I have discussed fully with Giriraja and Karandhara and Giriraja will explain what is to be done in this connection henceforward. Whatever has been done in the past we shall not try to make up for but I want that now this Mayapur-Vrindaban Trust money to be very carefully managed and deposited into a separate bank account and not be spent under any circumstances without my direct order. Giriraja will explain the details to you in full. Regarding the Mahatma Gandhi building, the price is fixed up at 3 lakhs to be shared into 5 divisions. 3 parties may be paid Rs. 60,000 apiece on the condition that they will take the money and immediately vacate. Then we shall make a trust over the property. When I was last there I discussed this matter with Mr. Chowdry the lawyer so keep ready the 2 lakhs for this transaction and when I return this will be squared up.

Yes I am ready to go to Dvaraka. I have never visited there so now I am taking the opportunity. Similarly, Mr. B.R. Mohatta who was recently here in Los Angeles, has promised me accommodations at Allahabad and Haridwar for the Kumba Mela observances in these places next year. Also Mr. Bhogilal Patel who has given Rs 25,000 donation has also promised accommodations at Haridwar. So I have never seen Haridwar also and I am getting older so before my last days I wish to visit the holy places in Northern and Southern India. Mr. Badruka has promised to make arrangements for my accommodations in Southern India so you may fix up the program.

I have previously written you that our man Yasomatinandana dasa shall take charge of the construction in Bombay. He is very nice and enthusiastic devotee and a qualified engineer so he shall be the manager of the engineering and construction. Thank you very much for carrying on our work in India so faithfully and responsibly and I pray to Krsna always for your protection and advancement.

I hope this meets you well.

Letter to: Gurukrpa , Yasodanandana

•

Los Angeles 25 December, 1973

73-12-25

My Dear Gurukrpa Maharaja and Yasodanandana Maharaja,

Please accept my blessings. Karandhara has received a letter from Tamala Krsna Goswami and he is expressing some hesitation about your returning to India. I can understand that previously there must have been some quarrel amongst you and that sometimes happens amongst god-brothers. Whatever is done is done; the main thing is we must not carry grudges or continue to quarrel amongst one another. So I am asking you personally, along with Tamala Krsna Goswami to whom I am sending a copy of this letter, to bury the hatchet and join together to push on this movement cooperatively. Tamala Krsna Goswami has been appointed by me to manage and direct our Indian projects and actually he is the most expert and qualified in this connection. You both are also sannyasins and I know that the service which you do the best is Hare Krsna kirtana and Bhagavata Dharma preaching. So I have no objection if you return to India. Rather, I know you both can be a great asset for our programs there. I am requesting you, therefore, to concentrate on preaching and kirtana and work cooperatively with Tamala Krsna Goswami who is in charge there. Whatever imperfections and discrepancies may exist, if you all agree to my directions and cooperate in the right spirit then everything will turn out, but it will require everyone involved to be responsible and cooperate in executing and following the instructions of the Spiritual Master. Now, one thing is I understand that in the past you were visiting Lalita Prasadji and that you may also be planning to continue to visit him when you return to India. This is not approved by me and I request you not to go to see him any more. He holds a grudge against my Guru Maharaja and even if it is transcendental it will gradually appear mundane in our eyes. Whatever is to be learned of the teachings of Srila Bhaktivinode Thakura can be learned from our books. There is no need whatsoever for any outside instruction. So I hope that you have understood these matters and I pray to Krsna always for your protection and advancement in Krsna consciousness.

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 27, 1973. I am very glad to hear you are now about to leave New York for working at the great task of spreading Krsna Consciousness in India. Lord Caitanya has said those born in India have the special responsibility to spread Krsna Consciousness all over the world. So almost all Indians have ignored this injunction by Caitanya Mahaprabhu. But now by the grace of my Guru Maharaj I have brought this message to the West and now you and your god brothers and sisters are helping me in bringing it back to the people of India and all over the world. It is a fact that all humanity's suffering is due only to lack of Krsna Consciousness.

My dear Tamala Krsna Goswami,

Please accept my blessings. I have recently received one letter from Sridhara das Brahmacari who has left Bombay and gone to Vrindaban. He reports he is disappointed having been removed from his job of managing construction in Bombay. Sridhara is a very good boy and a hard worker. While I was there it was fixed up that he should take the responsibility for construction work. Why was he removed? Now Yasomatinandana is coming to join you and he is a qualified engineer. Between he and Sridhara they can, I think, manage construction affairs without your having to put a karmi professional in charge.

We have to manage our men in such a way that they may bend to our will but not break. After all, our work is purely voluntary. If they become angry and leave then our work is defeated. I have directed Sridhara to return to Bombay and work with Giriraja. Please give him some facility so he may work happily. Hope this meets you in good health.

Bhaktivedanta Manor
My dear Madhavananda,

Please accept my blessings. I beg to acknowledge receipt of your letter of December 19th, 1973. I can understand that you are seriously absorbed in trying to push on our movement in England. Regarding your point about the tax returns from donations made to our Society, this can be a good opportunity for us so please go ahead and try to make our status like the churches in England who are receiving 40% tax refund from donations. There should be no difficulty since we are a registered group in getting this status. So please do it in cooperation with Bhaktipremode who is an experienced businessman and understands how to do it. You also work with the accountant, Mr. Amin, and manage the affair. Since one Center has to be our leading Center in London, you may make it the Bhaktivedanta Manor for the legal purpose of registration. You say that one person must be in charge of the accounting so you are getting experience with your friends Mr. Amin and Bhaktipremode so you become the responsible person for this affair. Take instruction from them and do the needful. The very hopeful program, I want to construct very big Temples in England so please take care and do it nicely and expertly.

Regarding expanding the various programs such as Sankirtana in England, if you work combinedly you can do it. Hamsaduta may also come and assist you. He has good experience in Sankirtana. As for sending devotees to India, I may have said to send 14 men, but if you have 2 or 3 experienced men who are ready to go now, send them immediately. You should not send devotees who do not intend to stay there and work there. That is simply a waste of money. The English boys are able to stay 3 years in India because they are citizens of the Commonwealth so we should take advantage of this. Hence they should go as soon as possible, especially those who are fixed up and steady.

The main difficulty there seems to be lack of full cooperation. I have written to you to become responsible and to manage things. However, at the Bhaktivedanta Manor, as anywhere, the local president is in charge. That is Mukunda. The reason why there is difficulty and competitive spirit is that everyone wants to be supreme. That is the difficulty. You have experience in the standard of our Krsna Consciousness Temples so you have to work together with Mukunda and combinedly raise the standard of the English Temples to our Krsna Conscious standard. Everyone should follow the rules and regulations. This is very important. There is a standard of behavior for devotees living in the Temple and everyone who lives in the Temple must follow that standard, or else we will automatically fall down. We have been given such a nice big facility at Bhaktivedanta Manor so it is not for our eating and sleeping. Rather, on receiving such a nice place from Krsna we should take it as an indication that we must now work harder. So I know that all the boys and girls there are enthusiastic to follow, so you leaders see that the Krsna Conscious standards in regard to initiation, cleanliness, dress and activities of the devotees, the restriction of association between men and women, all be strictly followed. Devotional service cannot be done whimsically.

In regard to security, yes there should be security. There should be 1 or 2 men who are in charge of the Deity room. I have written a letter to Mukunda in this connection and I hope you will together see that this is done. I am asking you to take a new heart and try to cooperate with each other there. There is always some difference because we are not impersonalists, we are personalists and everyone is different. However we have our standard so everything must be conducted on the basis of Krsna Consciousness as I have taught it. You and your wife are there and you are both experienced members so why not take advantage and try to improve the situation there rather than think of moving? If we have to constantly move until we find the situation where there is no personal difficulty in relationships then we may never get down to our real work. Just put our differences aside and work for the greater cause to organize a nice Temple there. I will be glad to hear from you on these points.

My dear Mukunda,

Please accept my blessings. I have received one letter from Madhavananda in which he mentions that the Deities at the Bhaktivedanta Manor are not protected. So you are the president of the Temple and therefore you are responsible for all areas. Who is in charge of the Deity room? It must be secured at night, every window and door must be locked and you must personally see to this. You have had sufficient experience at Bury Place that the Deity was attacked. You have already experienced that so you should not be negligent in this matter. Please see that adequate security is given to the Temple, especially to the Deities, so that They will not be exposed to any attack. I have answered Madhavananda on various points so you may see his letter. The main thing is that if the matter is to go ahead there must be a cooperative spirit between yourself, Madhavananda, Syamasundara. and the others. I understand from Madhavananda's letter that there is great opportunity for spreading Krsna Consciousness among the Indians and expanding all our programs there in England so I shall be glad to hear from you on these matters how you are pushing forward to make our mission successful in England.

My dear Sudama Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of December 26, 1973. I am much encouraged by your description of your enthusiastic programs there. Others have spoken big words and yet deviated from our basic regulative principles and caused so much havoc. You have now gone there to institute the right thing. I am very much disturbed on hearing so many reports of things going against our principles there in Hawaii but now you have given me the transcendental bliss by your reports of devotees joyfully engaged in Sankirtana and prasadam distribution and reading our books regularly. Continue the routine work and encourage the others. You follow as you are doing and as you have begun things there so others will join you. Those who are not following the regulative principles may say and act whatever crazy thing they may do but we must not compromise with our principles. Those who are actually sincere about spiritual life will gradually see the purity of our movement as you are conducting it and they will become attracted to the real thing. Those who want to be cheated do not take the solution even when it is at hand but prefer to be cheated.

This new service is a great new chance for you in Krsna Consciousness. You are my dear and beloved son and because you are carrying out my instructions there exactly as I have taught you and all my disciples, Krsna will be very pleased with you and all the devotees who are there. It is very good news that there are now 28 devotees and I am sure more will join you in the future.

Yes, I am certainly coming to visit you in Hawaii. I plan to be there by the 14th or 15th of January. Bali Mardan has fixed up arrangements for my staying at a hotel for 4 days. If suitable, I can extend my stay there or make other arrangements once I am there.

Always be assured that you are being protected by Krsna and that if you simply carry out my instructions against all odds you will certainly come out successful in the end.

My dear Tejiyas,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 17, 1973. It is a source of great pleasure for me to hear that you are seriously undertaking publication of the abridged version of Bhagavad-gita As It Is in India. As you know my Guru Maharaja emphasized book publication above all other preaching activities because it is the big mrdanga which can be heard all over the world. Sometimes people are reluctant to contribute for our temples and for our religious activities but for education everyone will be ready to help. All over the world they are taking our books seriously and that is accepted by educational departments as extra study books at schools and colleges. In that way we will have a good recommendation for introducing our books to all kind of libraries. When I was alone in India I got this sanction and introduced my books in so many libraries and schools. There is one American Library of Congress which used to take 18 copies of my books as soon as they were published. If you try you will get also an order for 18 copies of all our books. This open order was published in my picture advertisement for the Bhagavatam. So please try in this way to get our books circulating among the educated classes. I wish you to go ahead full speed to print Bhagavad-gita there.

Regarding purchase of a car, I am planning to send two cars to India-one Mercedes* and one Chevelle Impala, one car for Delhi and one for Bombay. So we plan to send these as a gift from the United States ISKCON to India. However we are awaiting the official form from the Maharastra government. You have indicated that this form is being procured by Tamala Krsna Goswami so please see that it is actually dispatched to us so that we can send you the cars.

Regarding Vrndavana, I am glad you have already made a contribution. You can now make a full estimate of the ingredients needed for finishing the Vrndavana Temple by next Janmastami festival. The ingredients should be immediately acquired and whatever money is collected there in India that is all to the good and the balance I shall pay from here. I will come to India by the end of January so the money will be ready. You go ahead now and purchase the ingredients immediately. Do the needful in consultation with Guru das.

In Bombay Mr. Birla has promised to help us. That money should be used for Vrndavana. The balance will come from the U.S.A. This way we must finish Vrndavana and open the Temple by Janmastami 1974 so please make arrangements like that.

Hoping this meets you in the best of health,

Your ever well-wisher, A.C. Bhaktivedanta Swami

My Dear Bhumata,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 27, 1973. I can understand that you are sometimes experiencing difficulties but that you are very sincerely trying to become Krsna Conscious and that you have a number of persons there who are interested in your presentation of Krsna Consciousness. Actually this material world is full of suffering conditions and the only way to become free from these sufferings which are due to past sinful activities is to chant Hare Krsna. In this age no other method of rectification is possible. Along with the chanting of Hare Krsna we have to rigidly observe the prohibition of four sinful activities. If only these things we can do our lives can become perfect. I think you have my books so please study them carefully. There is no other scripture which can compare to the Vedic scriptures so we should study these scriptures exclusively. When one becomes an initiated disciple although he has respect for the Christian Bible, nevertheless he must understand the Bhagavad-gita and must apply all study there and not spend time unnecessarily with other literatures. Therefore if you can chant and follow the four regulative principles and read our books only I am sure you will find a relief from all difficulties. Regarding marriage matters and second initiations, these things should be taken up with GBC representative for that zone. More and more I wish to not be involved in management affairs and want to devote me time to translating books so please have some trust in those representatives I have placed as Temple presidents and GBC members. They know the standard procedures in these matters and they can advise you.

Hoping this meets you in good health.

My Dear Ajita,

Please accept my blessings. I beg to acknowledge receipt of your letter of December 21st, 1973. I can understand from the propaganda you are making that you are trying your best at your center there. Especially, even though the weather is cold you are emphasizing Sankirtana book distribution. So that is very important and that is why we are opening Centers. Also, you should keep on your work with trying to approach the educated class in this-teachers of religion in the schools and colleges. You write to say that the students are surprised to hear our description of God-consciousness in such a scientific manner. Yes, because there is no education at all in the principles of the soul and what is God, and what is transmigration of the soul in the next life; therefore, the people are rejecting religion as sentimental and backward but they are not finding any relief in material activities. So our presentation all over the world of the scientific principles of God-consciousness is the greatest benefit to them. Therefore, those who are sincere will be very grateful for our presentation. So go on presenting it as you are doing it and be always sure to keep strong by following the spiritual principles; otherwise, everything will automatically degrade. So I am confident that you will keep up the practices as I have taught them and do not unnecessarily add anything. It is very good news that you are becoming well known in Sweden as this is the wish of Lord Caitanya that everywhere His Name should be known.

Now regarding the house, the house you have at present is nice but there is no big hall there but on the back side there is open land. If you can construct a Temple there then that would be nice.

Hoping this meets you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. Try to approach Stockholm University Nobel Prize authority in this connection. If things are going nicely, next summer I may go there.

My dear Brahmananda Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your GBC report dated December 26, 1973.

It is good news that you are now 14 strong at Nairobi. It will be nice if Shakti Mata can take care of the girls in the Temple. She is a very able woman. One thing, though, women should live separately. I know you can do it there because you have ample space.

Train the Negro devotees to speak Swahili and many will join you. They will be very attracted to your program of halava distribution, chanting and dancing and they will join you.

Yes, if we have too much money then unwise spending enters. You have just enough to get by and you are therefore having to spend wisely.

What has happened to my case with the immigration department? Has no action been taken? This is not good. Please reply on this point.

Hoping this meets you in good health,

My dear Gurudasa,

Please accept my blessings. Regarding Vrindaban affairs I have written one letter to Tejiyas a copy of which is enclosed.

I am coming soon to see that the Vrindaban construction is finished by Janmastami. I will take care of the necessary funds. In the meantime, do the needful now to purchase all the materials.

I have received a letter from Bishan Candra Seth requesting to advance his brother Mr. Kapoor up to 5,000 Rupees but I am replying him that he may be advanced 1,000 Rupees to be returned at the rate of 50 Rupees per month from his salary.

Besides that I wrote you one letter regarding my account in the Punjab National Bank. I have not heard anything from you in this. A copy of the letter sent to you previously is enclosed herewith.

Hope this finds you in the best of health.

Please accept my blessings. I beg to acknowledge receipt of your letter undated.

So it is very good news. Now recruit more Italian devotees. It is a very good chance to have a center there in that important city. Organize everything and when it is all going nicely I will come.

As for seeing the Pope, I can see to that when I go there. Mr. Pant knows me well. Please convey my greetings to him and I shall be glad to see him when I go to Rome. You say there are important Indians there so make them all life members and distribute our books to them.

As for Italian marble, if it is cheaper there, why not? Italian marble is known to be very good. I am sending you a photo of the L.A. deities. Ask a cost estimation for deities 40” high and then we can consider. Krsna may be black or white, Radharani is always white.

I am very encouraged that you are helping me so strongly in carrying out the wishes of my Guru Maharaja. I request all the devotees there please cooperate and become very serious about Krsna Consciousness. By your pure example and following regulative principles you will be spiritually strong and attract many Italians who are looking for the actual meaning to life.

Mayapur

Dear Bhavananda and Jayapataka Maharajas,

Please accept my blessings. I am in due receipt of your letter dated December 25, 1973, from Mayapur. Thank you for the information. I have advised Karandhara to send immediately $4,000 to Gargamuni Maharaja and you take the Indian exchange for $4,000 from him immediately. I am writing this letter today January 6th at 8:00 P.M. and I have advised Karandhara to send the money by telegram. Probably you will get the money tomorrow or the day after. The exchange of $4,000 is about Rs 32,000. Out of this 32,000 purchase Goswami Maharaja’s land for 5,100 and the balance 27,000 you can open an account, the Mayapur-Vrndavana Trust Fund. The MV Trust is registered here and I am sending you a copy of the trust so that the bank will immediately open a MV Trust account. The signators will be three, namely you two maharajas and myself. Two signators out of three will be valid for drawing money. You deposit the balance Rs 27,000 in this account. I shall try to send more money as soon as I know the account is open and you can purchase land as much bighas as possible. But don’t purchase more land than we can utilize. My only desire is that our temple must be a living temple by chanting Hare Krsna Mantra and distributing prasadam as well as distributing books to the intelligent class of men. This time we shall have the first part of Caitanya Caritamrta published 400 pages. I am working on Caitanya Caritamrta continually.

So by the time I reach India, maybe the first week of February, I hope that by that time my quarters will be completely open for use without any difficulty.

I am glad Bharadraja and others are learning laboriously how to model. materials like bamboo, thatch and tarpolin you can purchase if the prices are cheap. I cannot say how many will be required, but purchase and keep in stock. If Tirtha Maharaja is having a big showing then we have to show more and let everyone see what the American model makers can do. What exhibition of models are you going to show?

I am glad hundreds of visitors are coming by our songs. You are already working hard there now work harder and Krsna will give you all facilities. My full blessings, with Krsna's consent, are upon you all. Hope this meets you in good health.

Dear Tejyas,

Please accept my blessings. As informed to you in my letter last, I beg to inform you further that I plan to send to India $100,000 for completing our Vrndavana scheme as soon as possible, before Janmastami ceremony. Out of this $100,000 our two sannyasis, Gurukrpa Maharaja and Yasodanandana Maharaja have collected $40,000 and the balance Karandhara will arrange to supply even by taking a loan from the bank. The idea is we must finish Vrndavana temple construction work on or before Janmastami ceremony. There is another three lacs promised by Asoka Birla of Bombay.

So I am reaching India by the 1st week of February. But if you can open the account in the meantime then send me the reply of the bank to my letter enclosed herewith and the number of the account, then immediately money will be dispatched.

My program is that I am going to Hawaii January 14th and from there I may visit some other place or may stay at Hawaii and finish all programs by the end of January. So I shall be ready by the first week of February in India. You may send your reply to me at Hawaii and a copy may be sent to Karandhara in Los Angeles. In case I do not receive your reply before my departure, I shall leave instructions with Karandhara for dispatching the money. Hope this meets you in good health.

Dear Dayananda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 30, 1974, and I have carefully examined the contents.

On your recommendation, I am glad to accept the following devotees as my disciples, and their spiritual names are as follows:

Geoffrey Simpson-Jyotir das
Shawn Kennedy-Stavya das
Kenneth Grenham-Kedaranatha
Nancy Grenham-Kama-nagari

You may send their beads to Kirtanananda Maharaja to be chanted on. Please impress upon these students that they must now chant at least 16 rounds daily without fail, and strictly observe the regulative principles. If they follow these things their spiritual advancement will be very swift. You may hold a fire yajna for the initiates.

I have accepted the devotees whose names you have sent me for second initiation, Aksobhya das, Jnanagamya das, Carucandra das, Rathangapani das, Krsna Kumari dasi and Bisa Laksi dasi. I am enclosing 4 sacred threads chanted on by me, and 6 copies of the gayatri mantra. Have them hear the mantra on the tape through their right ear, and instruct them carefully on Brahminical life.

I am always thinking of and appreciating the important work you are all doing there in our Krsna Conscious Gurukula. Please keep steadfast in the program as I have instructed. Hope this meets you in good health.

Dear Kirtanananda Maharaja,

Please accept my blessings. I beg to acknowledge your requests for initiations of devotees at New Vrindaban, contained in your letter of December 30, 1973.

Upon your recommendation I am glad to accept the disciples for first initiation, and their spiritual names are as follows:

Susan Burchell-Madanalasa dasi
Jim Newsham-Jayanta dasa
Evelyn Newsham-Candrarekhika dasi

Sandra Chiefa-Kunjari dasi

Haynes Busby-Hari-dhama dasa

You may chant on their beads and instruct them seriously to always chant at least 16 rounds daily and obey the regulative principles. Only in this way is spiritual advancement possible.

Your recommendations for second initiation, Taru das, Radhanath das and Parambrahma das are accepted by me and their sacred threads and gayatri mantras are enclosed. See that they hear the mantra from the tape I have made, and have them hear it in their right ear. Give them further instructions on standards of a Brahman. Dear Kirtanananda Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 30, 1973.

I was very pleased to hear your report of our cow protection program, and I had part of your letter read aloud to a group of devotees how you have one cow who will be giving 70-80 pounds a day. The cow is so wonderful and valuable in society. But you should also use the bulls by engaging them in tilling the ground. People may call this the primitive way but it is very practical for engaging the bulls-have them work in cart loading, transporting, etc.

Regarding Srutakirti, I proposed to him that he go to New Vrindaban but he said he did no like farm work and so he wants to go to Caracas and perform deity worship in the temple. So I have already asked him but I will say again, how you require him at New Vrindaban and how he should work nicely there with the cows, under your guidance.

You inquire whether you can make cheese? Why cheese? Make sufficient ghee. If you can send ghee to India that would be nice service as there is scarcely any ghee there. Cheese is not good. We should produce ghee so all our centers can have enough ghee.

Hope this meets you in good health.

Dear Malati,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 22, 1973.

You write that things are in a crises in England, with oil shortage and IRA bombing. Therefore, we have to take shelter of Krsna. If Krsna wants to kill us that is not wrong, if it is His desire. Our business should just to be to follow the regulative schedule, deity worship, distributing prasadam, chanting, book distribution and never mind the material danger. Krsna Consciousness means to be on the platform of deathlessness. Every sloka in Bhagavad-gita and Srimad-Bhagavatam is informing us of this. If you read these books carefully you will understand this platform of deathlessness as opposed to the material condition in which no one wants to die but no one can check death.

When I was there I saw the Deity was nicely dressed. So continue all your programs at Bhaktivedanta Manor and Krsna will save you.

Madhavananda and Kausalya are an able couple. I have already written to Madhavananda and Mukunda about their difference of opinion. We have so much work to do, we cannot lose our solidarity. Do not cause a crack there with any fighting spirit or competition. Whenever I hear complaints or disturbances in our centers my mind becomes too much disturbed and I cannot properly translate my books. So please spare me from such disturbance by cooperating all together Godbrothers and Godsisters.

Dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your GBC report dated December 31, 1973, and I have carefully examined the contents. It is encouraging to me that you are closely supervising our five centers in Canada, and from the most recent report it appears that things are going nicely.

My idea in forming the GBC is that I may be spared from the management and use my time for translating books. So please continue to correspond and occasionally visit the centers in your zone to see how they are doing. Our program as we have received it from Sri Caitanya Mahaprabhu is perfect, now you simply have to implement it without any changes.

Your emphasis on book distribution is quite right. I can understand in the northern centers it is very cold now, and yet you report they are still going out for sankirtana party. Please convey that I extend all blessings to those boys and girls who are trying to distribute our books even under difficult conditions.

Regarding Spiritual sky incense business in Canada, the best thing is if you can find some competent managers to handle this so all your time is not spent in selling incense. I understand that you have taken it on because you wish all the centers to be financially sound. So now that you have been managing the business for four months, you should find a suitable manager to take it over.

Are you approaching universities and schools and attempting to get our books placed in classes? This is another important phase of our preaching work.

My present itinerary is to leave for Hawaii on January 14 and then reach New Delhi, India by the first week in February. I am very concerned that our temple in Vrindaban be completely constructed by Janmastami next, and I am going to personally see to the progress of that project. I hope to see you in Mayapur for the celebration of the Appearance Day of Lord Caitanya when all GBC shall sit down and chalk out the next years program. Hope this finds you in good health.

I am enclosing the gayatri mantra for Atigarvita devi upon your recommendation.

Dear Gurudasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 27, 1973 and I have noted the contents carefully.

Regarding transfer of money from the U.S.A., I have somehow or other arranged to transfer about $20,000; $10,000 of this is for purchasing land with a view to maintaining our temples in Mayapur and Vrindaban, and $10,000 for completing Vrindaban temple. I have already sent $4,000 to Mayapur for purchasing land there and I am coming to India by February 1st with the money for Vrindaban construction. In the meantime you can purchase as much material as possible and as soon as I reach India by February 1st, I shall pay them immediately for their bills. I am thinking of coming to New Delhi so when we meet in New Delhi we can pay the bills for materials you have purchased. Most probably you will be purchasing in New Delhi.

Temple construction must be finished by or before Janmastami. If you can finish my portion on or before my reaching India then I can personally go to Vrindaban and see what is the situation and how to manage. I can remain at Vrindaban through the month of February to estimate and supervise temple construction and then by the 1st of March I may go to Mayapur.

The money sent by Tamala Krsna Goswami is given by Bhogilal Patel, and Giriraja told me that was his contribution for the temple. Never mind, you can employ all collections in India for the asrama, but the money I shall take will be devoted to finishing the temple. For finishing my quarters I don’t think it will require more than Rs 5,000. Do the needful and I am coming with the required money. But what you have heard from Giriraja, some utopian 22 lacs, is not correct. So begin work immediately.

Regarding starting a school in Vrindaban, we don’t want any school for studying philosophy. Simply a school for teaching our members sanskrit and Hindi. Dr. Kapoor has expressed his inability to teach language, that’s all right, for the time being we don’t require any philosophical teacher. Start with Hari Goswami for teaching Hindi and Sanskrit. Regularly he can teach 2 hours in the morning and 2 in the evening. He can be paid a reasonable renumeration, maybe at least Rs 200 per month. He can be assisted by another teacher available in Vrindaban. I have noted down the Punjab National Bank Account number, 6112, and I thank you very much.

Most probably, I will be leaving January 14th to Hawaii on my way to India. Our Hawaii address is as follows: ISKCON, 1578 Ala Aoloa Loop, Honolulu, Hawaii. Hope this finds you in good health.

My dear Revatinandana Swami,

Please accept my blessings. I am in due receipt of your letter Jan. 4, 1974 with the enclosed cookbook.

I know you are a very good cook and I can understand that you have found the books useful for distribution. I have no objection to your printing it with the name ”Revatinandana Swami’s Cookbook”, but the royalty should go to the Bhaktivedanta Book Trust. Just as I am publishing Bhagavad-gita As It Is with Macmillan Co. but the royalty is going to the BBT. I think this method is appropriate. If you yourself take the royalty it will be personal interest in money and trade, and this will deviate your principle of sannyasa. Sannyasi means he is in renounced order and lives by begging alms for the bare necessities of life. It is not good to make trade to get money for personal expenditure. If the royalty is given to the BBT, we will keep a separate account from this royalty and necessary expenditures for your preaching may be supplied from the BBT.

Mukunda das has sent me a pamphlet in which the pictures are objectionable. The name of the place at Letchmore Heath we have already named Bhaktivedanta Manor, European Center of ISKCON. He has printed ”Gokula Vrindaban”. In the last picture there is a cowhead like a slaughterhouse cow with t-lock on. I have sent him a telegram to stop it and a detailed letter will follow to Mukunda. The telegram reads as follows: ”Pamphlet picture most objectionable. Stop immediately. Letter follows.” Please see that this is stopped by Mukunda.

Dear Tamala Krsna Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your GBC report dated January 3, 1974, and I thank you for reporting so completely on the situtation in India.

I am very engladdened to hear you have secured one flat on our Hare Krsna Land. I am planning to arrive in India on or before February 1st. I am first going to New Delhi and then to Vrindaban in order to see how the construction of the temple is going on. Then I can go to Bombay, say about the second week in February, and together we can go to Mayapur in March. Now by your arrangement it will be very pleasing for me to stay in our own land at Juhu. In the past I was a guest while staying in Bombay but now we have our own place, and this is very engladdening to me. So I will come. We are four men and we will arrive in India by February 1st; we already have our tickets for around the world.

Regarding your invitation to go to Dvaraka, yes I have already written you I have accepted, and I can go there. Hearing that you have collected Rs 81,000 in the month of December is very pleasing; you are a very good boy.

Now Krsna is sending you new devotees to help in India. Yasomatinandana is a good boy, now utilize him properly. We are planning that he can open a center in Surat and he will attract many Gujaratis. He is sincere, learned, enthusiastic and qualified. Keep him nicely engaged. He has left $7,000 with me for starting a center in Surat. This money I have deposited in the Mayapur-Vrindaban Fund and when I shall start a center in Surat I will draw from that fund. For our arriving devotees they should all be coming on student visas for learning Sanskrit and Hindi languages and thus they can stay for 3 years. I have arranged this with the Consulate General in New York for the student visas for our men. I think Giriraja has written to you by now and he knows of this arrangement. Yes, Mohanananda is a very intelligent worker, now work cooperatively with him. The only fear I have is that you may fight. Please do not. That will ruin everything we have done. If there is any misunderstandings which arise, as they will, settle them up. You are all qualified American boys, now push on this glorious mission without letting it be hampered by personal differences. I am glad to hear you have a nice secretary there in Aditya; now take care of sending the BTG out regularly. There are some complaints in this department. So make Bombay the center for distributing BTG to life members.

Yes I know very well that Gargamuni Maharaja is an expert collector and preacher. He is so expert in collecting therefore I call him Gargamoney. Regarding the BBT debt of Calcutta, you can wait for that. Not that the payment can be washed off, but we can wait. It is very good news that Gargamuni Maharaja is supporting both Calcutta and Mayapur. Now you cooperate and you yourself develop Bombay. In the meantime, Jayapataka and Bhavananda Maharajas want money for land. Karandhara has sent $4,000 so I have allowed them to purchase more land. I will pay and have arranged for that. You can advise Jayapataka and Bhavananda to purchase land whenever there is an opportunity and we shall arrange to pay. But it should not exceed Rs 5,000 per month. Within that limit they can purchase every month some piece of land.

Yes, I agree the construction of a temple in Calcutta should wait until we finish our present projects which we have undertaken. We should not accept projects which will strain us. Bombay was a great strain, but Krsna has now given it to us. Henceforth we should not accept too much strain. It was a very bitter experience for me in Bombay. As Nair's party was determined not to let us have the land I was more determined to take it at any cost. Krsna has helped us, but we should not strain Krsna by such action.

It is very important that the accounts be kept very clear so that we retain our income tax exemption. So continue to engage Manasvi and competent men so that everything is recorded very clearly.

I understand that the mrdanga instruction to our devotees is a failure. So retain the teachers and have them engage our students, but if the students are so dull what can be done? Make as many mrdangas as possible. Supervise the workers so that they are working during their work hours.

Yes, I fully agree that "What is the use of a temple if there is no prasadam distribution?" Prasadam distribution on a large scale must be resumed. Such a temple where there is no such distribution has no value, I agree. You say more land is needed for growing crops. So for the time being go ahead and purchase land and I will pay at the rate of Rs 5,000 per month. But do not acquire more land than we can use. Purchasing land and keeping it without use is not my policy. What is Gargamuni Maharaja doing with the money he is collecting for Mayapur? Regarding money being used for construction of gosala, pavilion etc., at Mayapur, I shall consider that after going there. I have arranged to transfer $100,000 which will be done by next Monday. But this is for the temple in Vrindaban. You cannot expect all the money to come from here. I will, however, be trying to carry as much money as possible.

I have deposited $100,000 in the M-V Fund which is earning interest at Rs 5,500 per month. I want to utilize this for month after month for Vrindaban, and I do not want to break the original principle I have set up in this regard. I have arranged to send $100,000 for Vrindaban and another $100,000 has been deposited for the M-V Trust. When I come to India, we shall sit together, you, myself, Bhavananda Maharaja, Gargamuni Maharaja, Gurudasa, and do the needful.

Yes, Bhavananda and Jayapataka Maharajas are the approved directors of Mayapur. They are selfless workers. Regarding food for the Mayapur Festival, in other temples they are going and collecting their food, and yet we have to purchase in Mayapur? If you depend always on collecting money from here only it will not be successful. If for buildings, festivals, etc. you have to collect from here, what is the use?

The completion of Vrindaban temple by Janmastami is my whole hearted desire. Please do it by all means. The 3 lacs from Ashok Birla plus the $100,000 from here will I think be sufficient to finish the temple. It will please me very much to see it completed timely.

Regarding the starting of a school in Vrindaban, yes engage Hari Goswami in a trial period there in Vrindaban. He should be engaged teaching Hindi and Sanskrit and if he does it nicely then he can transfer to Gurukula in Dallas. So for now he should also train up an assistant. Yes, we can start such classes in Bombay and Vrindaban for now. My wanting these subjects taught is a plea for getting the students visa. It is not for actually becoming great scholars. This was the impression I gave the Consulate General in N.Y. and he is helping. Dr. Kapoor has already refused to teach language. He is interested in teaching philosophy but we don't require it. We have everything required in the Bhagavatam. I want that the students can nicely recite the sanskrit verses and then they can read the full purport in English. So make arrangement for teaching Sanskrit and Hindi along those lines. B. R. Matta was pleased with this suggestion and said that with such a education program the Rama Krishna mission is taking huge amounts of money from the government. But before you try approaching government leaders first start an actual school program, then you can approach. Nor should these studies interfere with our program of simply presenting the Bhagavatam.

Regarding the agitation to remove Tejas: No, Tejas must not be removed. Stop this. This is a clique. I don't want this. Why has Subala Maharaja gone there. He is an outsider, why are they interfering. Subala left India now why has he returned without permission? This removal of the president is very unconstitutional. The devotees who do not like to work with Tejas should immediately go away from the temple. But he may not. Those who feel against him can go away. Devotees come from the outside and interfere. No, they cannot change the president. Who sent Janmanjoya there? Why is he taking to politics? So you opinion is also mine, that Tejas is the most sincere worker of the lot. Please stop this.

So I shall be pleased to see you all when I return to India in New Delhi by February 1st.

Dear Kausalya,

Please accept my blessings. I am in due receipt of your letter of January 5, 1974, and the wonderful photograph of Radha Gokulananda, which arrived here safely.

The sentiments you express are very praiseworthy in devotional service. Especially it is pleasing to me that you are so happy in your service to the deities. Krsna Consciousness means blissful life, and also that blissful life is eternal and full of knowledge. You say rightly that you are very very fortunate to be serving the Lord. So please work with the other ladies and with your Godbrothers at Bhaktivedanta Manor and make it such a blissful, peaceful atmosphere that many persons will be attracted to come and live with us.

You will be glad to hear I am having the picture framed and put in a prominent place in my room.

New Vrindaban
Dear Kirtanananda Maharaja,

Please accept my blessings. I have received your two questions which you conveyed to Satsvarupa on the telephone.

Regarding installing larger deities at the New Vrindaban farm temple, which is now exclusively for brahmacaris, yes, why not? Brahmin brahmacaris are very nice for deity worship. You have asked about Balarama Krsna deities. No, Balarama and Krsna are already there as Caitanya and Nitai: Vrajendranandana yei, saci suta hailas sei . . . The best thing is to establish Gaura Nitai deities. In Vrindaban we are establishing Balarama Krsna deities because most of the temples there have Radha Krsna and there is not Balarama-Krsna. That has a different purpose. We should not imitate that. Better to have Gaura-Nitai, Radha-Krsna, and Lord Jagannatha-that system must continue.

Regarding what to do with the skim milk after the ghee has been produced. So far I have experience in India, after churning the butter the remnant is called gohle this gohle is called sour milk. Sour milk can be taken by the members of New Vrindaban along with food. In India in villages they have enough milk and sour milk is taken in place of water or in dahl with salt and pepper. So sour milk should be taken by the devotees and ghee used. Cheese is very valuable. Sometimes it is used by sweet meat shops in India and it is called khurcha. If you like you can make cheese but we require much quantity of ghee. My idea is that in India there is a great scarcity of ghee, but I don’t think it is practical to send ghee from New Vrindaban to India. Anyway, go on developing New Vrindaban into an ideal community, and I shall be pleased to see the new additions when I come there.

Dear Madhudvisa Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 7, 1974.

Regarding the confusion you have about receiving book from India, you may go ahead and send ghee in exchange for the books. I have already discussed this with Karandhara. The books were given to India. From India there was no possibility of sending money. Therefore if you get the books you should send ghee in return.

I have seen the monthly book distribution report and your name, Australia, is first among the world distributers. This is very pleasing to me and indicates you are leading all others in preaching and spreading the mission of Krsna Consciousness.

As for obtaining a deity after the style of Bankebehari, we shall discuss that further at another time whether it is possible.

I am going back to India via Honolulu on next Monday. I am very much encouraged by your activities in selling books. So not only you shall supply ghee in exchange of books supplied by Gargamuni Swami. In the future we may need large quantities of ghee in our different centers because after going back to India I shall see that in every temple food distribution goes on nicely. Australia is famous for producing wheat and milk products. My question is whether you can supply as contribution to our ISKCON centers in India, wheat and ghee in exchange of books. If it is possible then consult with the Trustees of BBT and consider the matter and do the needful.

Bhaktivedanta Manor

Dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter dated December 27, 1974 and I have carefully examined the contents.

Regarding your proposal newsletter to all-ISKCON branches for recruiting men for agricultural work at Bhaktivedanta Manor. This is not a practical plan. No one from a for country will go to London for agricultural work. If you cannot find local men, how can expect men from other countries to come and work? I have experienced that even men of this country do not go to New Vrindaban. You know, Srutakirti who was my personal servant. He has now become married and Kirtanananda Maharaja asked him to go to New Vrindaban but he said he doesn't like farm life. People are now accustomed to live in the city and if all of a sudden he is transferred to the village then certainly he feels difficulty. Especially in the western countries, gradually even farmers are leaving their professional business and going to the city to enjoy facilities there. If you get local men to work at this agricultural attempt that will be better. Otherwise, don't spend time and money in distributing this newsletter.

You are thinking of many plans but without consulting me do not enact anything. I have received your telegram that you have stopped release of the Gokula Vrindaban literature, per my telegram. There was a picture of a cow's head and you have painted it according to your own idea. It was a cow's head with t-lock and no body of the cow. How did you think like that? A cow's head is an advertisement for the slaughterhouse or for a beef shop, and you have painted one with t-lock. I think your thinking is not always to the standard. Don't spoil much time in that kind of thinking. Try to read our books. You are the president there so you must be very conversant with our philosophy. The other picture was objectionable because the photo of our temple is advertised as Gokula Vrindaban. It has, however, already been advertised as Bhaktivedanta Manor, Headquarters of European ISKCON. I am pleased that you stopped issuing the literature. But people will not be induced to come by issuing some literature. In the temple there must be activities which will attract people to come.

Our activities are arati, kirtana, classes, just as we do here in Los Angeles. Everything is done in conformity to a regular standard. For example, all the temple members, without exception must rise by 4:AM and attend mangala arati. Everyone living in the temple must agree to the standard by proper understanding of the philosophy of tapasya. We cannot expect our guests to follow all our principles, but whoever lives in the temple must follow. That means all must sit down together and hear the Bhagavatam class just as I held it day after day when I was at the Manor. There should be a regular daily schedule of events and it should be followed closely. After the class and breakfast everyone should go to their respective duties, deity worship, sankirtana, clean-up and so throughout the day this atmosphere of constant engagement will produce the truly happy result of transcendental life. So you should set the example and also see that the others are following. Our buildings are not for our sleeping in and eating like hotels, but whoever wants to join us should understand the philosophy of regulated devotional service. Here in L.A. they have elaborate Sunday festivals and erect a tent on the front lawn. There are hours of kirtana, a philosophic lecture and lots of sumptuous prasadam distribution. Another thing is, here they have a 24 hour security guard, with pistol and holster who is in the temple at all times. So you should do this like this.

From your letter I can understand that you are always working hard and trying to improve things there. I am very much obliged to you for this and please go on in this spirit more and more improving the temple atmosphere.

My Dear Damodara,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 3, 1974.

I have accepted as my disciples, those devotees recommended by you, and their spiritual names are as follows:

Edward Striker,Aindra dasa Neil Kallmyer,Nilambara dasa James Machuga,Jagara dasa Pamela MachugaPadma malini devi dasi

Now instruct them very seriously about their responsibilities. To promise to follow the four prohibitive rules and to daily chant sixteen rounds means they cannot deviate. You can hold a fire yajna and inform them that in promising before the Deity and before the spiritual master, one cannot later break the rules without being punished, just as in the law court one is held for perjury. If we simply follow these instructions however, spiritual life becomes very simple and we can go back to Krsna in the spiritual world at the end of this life, which is the success of the human life. You may send their beads for chanting to Kirtanananda Maharaja.

As for the second initiation, I have accepted those disciples whose names you have sent me, Laksmivan das, Varuthapa das and Krsnabhava devi, and I am enclosing two sacred threads and three copies of the gayatri mantra. Please instruct them and show them by example as well what is the character and practice of a brahmana. They should hear the tape of me chanting the gayatri mantra through the right ear.

Your political preaching is encouraging to me. We should expose before the public eye that the lowest class of men are now taking the posts of leaders, and therefore there can be no peace or happiness. I have given the idea for a poster which shall be entitled: "Select Real Leaders-Don't Spoil Life", and it will depict devotees as leaders, illustrating that real leaders have to be free of meat-eating and animal slaughter, illicit sex, intoxication and gambling. This poster is being prepared in L.A. and I want it distributed all over the world, and you can use it widely in your campaign for Mayor of Washington D.C.

My Dear Devendranath,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 15, 1974.

I have considered your proposal to go to California and start a farm if you can acquire some land. I have been giving instruction to Sudama Maharaja for development of Hawaii center, of which you are presently a member, and our plans include acquiring land here and farming flowers and vegetables. I find hawaii a very suitable place for Krsna Consciousness, and want that a very strong center be established here. Therefore I think the best thing, if you are inclined to farming is to remain and cooperate with Sudama Maharaja and Bali Mardan and Balabhadra and develop Krsna Conscious farming and cow protection here. The tendency for always changing is not good. So I hope these proposals will be agreeable to you.

Vrindaban

Dear Gurudasa,

Please accept my blessings. I was surprised that Tamala Krsna Goswami and you all are contemplating cancelling the Vrindaban touring of our devotees going to Mayapur. In my opinion it must be carried out.

Just to give you help I am enclosing one letter to Sripada Radhika baba of Imlitala. Enclosed find one Bengali letter to deliver to him. He will introduce you to the son of our panda. I paid this man the sum of Rs 100 recently, so Radhika baba will introduce him and with his help just arrange the program of visiting Vrindaban.

Thousands of people go to Vrindaban daily. They make the arrangement of visiting so many holy places. Arrangement should be made. If we have no place, still there is no scarcity of place in Vrindaban. There are hundreds of dharmasala. The panda will arrange for the dharmasala for three days, namely the 12th, 13rd and 14th. The pilgrims shall stay there for 3 days. Buses should be engaged to take the devotees one day to Govardhana and Radhakunda, Nandagram and Barsana. The other day, Dauji and another day to some other places. From dharmasala the buses will take the devotees to visiting places and then come back to their respective dharmasala. If there is a little inconvenience, still the devotees must visit Vrindaban. In Mathura there are dharmasalas of Krsna-janma-bhumi and Jaya Dayal Dalmia constructed just for foreigners. Arrangement should be made with the help of the panda.

This touring will enhance our prestige for the Krsna Consciousness movement. People will appreciate devotees from foreign countries visiting Vrindaban. It will attract the attention of the Tourist Department of government. Immediately, Tamala Krsna Maharaja and Gurudasa, you must arrange, with the help of the panda. The party can not only be headed by our leaders, but with the help of Indian assistants like Caitya-guru, Sacidulal. Arrangement must be made like that.

Dear Aradhana,

Please accept my blessings. I am in receipt of your letter dated January 13, 1974.

I can understand that you are feeling disturbed because your wife has left you, and also that you are not living within the association of devotees at our Paris temple. My advice to you is that you associate always with Krsna through chanting the Holy Name. If you are always with Krsna there is no question of moroseness or anxiety. Further than this, Krsna will give you intelligence through sincere chanting, how to progress further in Krsna Consciousness. It is a fact, however, that to be happy and peaceful in spiritual life, the association of devotees is essential.

Honolulu 23 January, 1974

74-01-23

Houston, Texas

Dear Sahadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 11, 1974.

Regarding second initiations, I have become very concerned lately, that some of our older students who have been given the second initiation, have not been strictly following the rules and regulations. So from now on I want our presidents to be very sure about the devotees they are recommending to me for second initiation. I think sometimes in the past devotees have been recommended chiefly because some more helpers were required in maintaining the deity work. Of course, necessity is there. It is just like in government, the government has need for a number of men to fill important posts, but first the persons must be qualified before they can award the post. Even though there may be a pressing demand, first the man must be qualified. Our system is that after one year from the first initiation, if the devotee is strictly following our principles without deviation, and if he will sign a statement in seriousness, that he will not deviate from the chanting and regulative principles, then, on your mature consideration you can recommend him to me. It is not that we are stopping second initiation, but I want to be sure it does not become a farce and names be sent to me without proper qualification. We are criticizing the caste brahmanas for saying that the Americans and Europeans cannot be awarded brahmana initiation, because according to Vedic sastra, anyone who is properly trained up under a bona fide spiritual master, can become twice born. But if our brahmanas do not take their second initiation seriously, then we will be deserving of criticism. So on this basis, if your think the men you have recommended are still eligible, you can resubmit their names to me and I will accept them.

You have also submitted two names for first initiation. With this first initiation, we can more readily give them a chance. Provided they are enthusiastic and you observe they are following the devotional practices then you can submit their names. I have accepted the names submitted by your and their names are as follows:

Brent Chevaliar-

Clarice Sandoz- You may hold a fire yajna for them and instruct them in avoiding the ten offenses to chanting Hare Krsna Mantra. So I am counting on your own example in these matters as the most effective method of instruction for all the devotees in you care in the Houston temple.

Dear Jagadisa,

Please accept my blessings. Enclosed is a copy of a letter I have recently received from Bahudak, president of our Vancouver temple within your jurisdiction as GBC of Canada.

Bahudak’s description of his plans to move to a farm are not clear, nor have I received any letter from you in this regard, as he implies. What will be the program at this farm? How will people be attracted there? Who will work it? What about the present temple. He appears to plan to want to ”close the door” to their present temple. So he has asked me for a decision, but until I know more clearly what is his plan, I cannot decide. This matter should be taken up by yourself, so please consult with him and give me a cool-headed appraisal of what Bahudak is thinking and what is the actual situation in Vancouver.

San Diego

Dear Bhakta das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 22, 1974.

Your report is a very good one and very pleasing to me. Your combining enthusiastic programs of both sankirtana and temple worship in San Diego, should be followed by all our centers.

As for first initiations, I have accepted the devotees whose names you have recommended to me, and their spiritual names are as follows:

Jeannie Pennera-Kamatavi devi dasi

Ray Flores-Rudravapu dasa

Mark Weldman-Natanga dasa

Daniel Koenig-Dhanadhyaksa dasa

Regarding Second initiation, I have been asking the presidents to reconsider the devotees they want to put forward for brahmana before asking me to accept them. The criteria is that they must be initiated for one year, and during that time they have to be following the prescribed chanting of at least 16 rounds, and all the regulative principles. I am also asking that they write a statement before you in all seriousness stating that they have not broken any of the promises of the first initiation, and that they will go on steadfastly chanting the prescribed rounds. In this way I am hoping to stop whimsical recommendations for second initiation. So please follow this rule. You can ask me freely to make devotees initiated for first initiation provided they are enthusiastic and following the rules, but be very cautious before awarding second initiation, even though you have a need for brahmanas in the temple.

Regarding Rathayatra, I think there is no need for you to have a separate festival since you are so near San Francisco. But you may hold other festivals in San Diego, as you describe in your letter. That will be very pleasing for everyone.

I shall be glad to see you and the devotees from San Diego at our grand meeting in Mayapur for Lord Caitanya's Appearance Day.

My Dear Brahmananda Maharaja,

Please accept my blessings. I beg to acknowledge the receipt of your letter, dated 15/1/74. I have noted the contents carefully.

I have received my copy of special BTG. It is very nicely done. I thank you very much. With great pleasure I note that although the Government of Kenya did not allow me to enter the state, my work was not hampered on account of my absence. In your last letter I was informed that Cyavana Swami has left your protection and gone to South America. I don't know why he has done so. As a sannyasi he is free to travel all over the world but when he was working under your supervision he should have taken your permission. This kind of independence is not very good. I'm quite confident of his sincerity, and I shall be glad to be further enlightened on this matter.

Anyway, you have dedicated yourself to the service of the Lord, therefore you are always glorious. I'm very much indebted to you that you have gone so far away from your own comfortable country for the service of Caitanya Mahaprabhu and this service will be appreciated by the Supreme Personality of Godhead. Please go on preaching like that and you will be blessed. I think Krsna did not let me go in Africa because he wants to see you all work independently of me. I'm getting old and can not move, so if you all my students work 10 times more than me that will be great pleasure for me.

The decision to train African people to be nice preachers is a nice idea. If you train the African to preach that will be a nice reply to the African Government for not letting me come there. So try your best and Krsna will give you the necessary intelligence, and send me occasional posts. That will give me satisfaction. I'm starting for India via Japan and Hong Kong next Monday. I'm glad to note your statement "Our position is not as precarious as it was before." If you sincerely preach everything will become smooth, and our preaching work will become smoother and smoother. One thing is very gratifying that you are doing the preaching work in Africa without any financial help from here. But in India the case is different. We have to send always financial help from America. I have collected and dispatched to India about 40 lacs of rupees. Even today I have dispatched to Gargamuni Swami $5,000, or about Rs 50,000 by telegram. Krsna is arranging everything. Let us work cooperatively nicely all over the world.

It is a great task. Let us be cognizant of our responsibility. I hope this will find you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Dear Dhananjaya,

Please accept my blessings. I'm so glad to receive your Special Delivery mail containing BTG. I am so glad to see you have given another step forward in our activity of pushing on the Krsna Consciousness movement. Rome is certainly a very important place in Europe. Big, big headquarters of the Christian world headed by the Pope. The people are naturally religiously inclined there, and I am sure if our movement is properly organized there, surely we shall get many devotees. Please try to remain there and go on propagating Krsna Consciousness as far as possible. My special thanks to you because you have immediately published the magazine.

Dear Trai das,

Please accept my blessings. In his last GBC report, Rupanuga Maharaja wrote that you are delinquent in sending him regular reports. The system of temple presidents sending twice monthly reports to the GBC was devised by me to facilitate my receiving news of all the centers through the GBC. You are free to write me directly when the occasion arises, but do not neglect to send regular reports to Rupanuga Maharaja.

I hope everything is going well in the Boston temple, and I will be glad to see you at our Mayapur meeting.

Dear Bhagavan,

Please accept my blessings. I was very anxious to receive a letter and your recent report is very encouraging. The pictures sent by you are very welcome and very nice, and I thank you very much.

Now print as many literatures as possible in french language and distribute. If you have any money left from the recent donations of $20,000.00 I request you to spare something to contribute to our Vrindavan construction; it can be sent to account number 230 of the Punjab National Bank, Moti Bagh Branch, New Delhi.

Work combinedly and Europe can be made filled with Sankirtana. I have found all the countries eager to receive our message, especially France and Germany. Narottama dasa Thakura has sung:

goloker premadhana, harinama-sankirtana, ratina janmila kenetay samsara-visanale, divanisi hiya jvale, judaite na kaimu upaya

Sankirtana is imported from Goloka Vrindaban it is not material musical rock and roll. It is actually imported from Goloka. Narottama sings, Everyone is burning in the materialistic way of life. That burning can be extinguished only be employing Hare Krsna maha-mantra. It is a fact that the western countries are in blazing fire of material enjoyment. But as soon as they take to Hare Krsna surely they will find peace and happiness. There is no doubt about it.

I have accepted the devotees you have recommended for first initiation and their spiritual names are as follows:*
John Jean-Guy Bouchre de Belle-Jayantakrt dasa
John, Jean Keraval-Jayakula dasa
Kathy de Poo-Kanti-dasi
Claude Landemaine-Kausi dasa

I will be glad to see you at our meeting in Mayapur.

Dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter of January 14, 1974.

I am glad you are cooperating with Madhavananda. That I want. As long as we are sincere there is no question of split amongst us; the split only means someone is not sincere, otherwise there is no question of it.

I have received the returned bank statements and letter regarding my entry certificate. I shall take this matter up with the embassy when I go the New Delhi.

I am glad to hear you are correcting the pamphlet for the Bhaktivedanta Manor. I share your confidence that if done rightly, we can attract many persons, to visit the Manor and take prasadam and chant Hare Krsna. That will be a great victory, and if they can take our books and hear the philosophy then we can make devotees out of them. This great responsibility is in your charge. I have given you all the guidance and hints and it is described in all my books. Now it is up to you. Please keep our principles firmly and everything will come out successful.

Dear Madhavananda,

Please accept my blessings. I beg to acknowledge receipt of your letter of January 14, 1974.

Please see that accounts are kept carefully, not that money is taken for whimsical expenditure. Be vigilant. Syamasundara has made a scandal by taking money of the society's and investing it in business. This kind of thing should be carefully watched. I am still awaiting repayment from Shayamasundar.

Please pursue the projects underway. Your attempt to construct a temple from donation of life members is welcome. Also your plan to get large tax returns. Now do it cooperatively. You are intelligent and experienced-all work together there for the glory of Lord Caitanya's sankirtana movement.

I am leaving tomorrow night for New Delhi and shall be there by the 3rd February.

My dear Baja Panalalji,

Please accept my blessings. I thank you for your letter dated December 28, 1973 regarding a change of plan.

I understand from different sources that you want to construct the Temple portion by your choice, so I accept the plan submitted by you in place of the original plan.

Krsna is Bhavagrahi Janardana. Krsna has many Temples big and small, besides that He has his own abode in the Spiritual Sky, Goloka Vrndavana, so all our plans are under the jurisdiction of Bhavagrahi. To serve Krsna under a certain transcendental mellow according to one's spirit of service, everything is accepted by the Lord. So your decision to improve the first plan is certainly very much appreciated by Krsna. The work will go on and further advance with your full cooperation in order that we may be able to fulfill the job as soon as possible.

I am thinking to go to Hyderabad by the end of March and certainly it would be great pleasure to me to stay under your shelter and I am looking forward to this opportunity.

Hoping this will meet you in good health and my all good wishes for all your family members and servants, and my sincere regard for you.

Thank you once again.

My dear Mahamsa Swami,

Please accept my blessings. I beg to thank you for your letter dated December 26th, 1973. I have come back from Europe and America on tour and am now in New Delhi.

I have seen both plans. After taking into consideration all of the points in all of your letters, the points in Sri Raja Sahib Panalalji's letters are all very good. So I prefer his plan the most, particularly I understand from different sources that he may like to construct the Temple portion. So we shall follow Sri Raja Panalalji's plan and under his leadership I think all members will be very much encouraged.

Now in cooperation with all life members of Hyderabad, immediately begin construction and make this one of the great temples of the south.

Hoping this meets you in the best of health.

My dear Caitya guru,

Please accept my blessings. I was very much shocked when I learned from Tamala Krsna Maharaja that you have left our company and were living outside. Anyway, I was always thinking of you and your letter of Jan. 26, 1974 gives me much relief. Why you should be sorry if someone says you are Indian, he is American, Indians are no good, Americans are good. Why be affected by bodily relationships? Sri Caitanya Mahaprabhu has advised us-and as an older, grownup student you should know it-that we have to become humbler than the blade of grass and more tolerant than the tree, and then we can execute our service and chant Hare Krsna.

If Indians are bad then I am also bad, as I am an Indian. But they have accepted an Indian as their guru. So Indians are both bad and good according to the behavior. If they have accused you as bad because you are Indian, yet they have accepted a bad Indian as guru. Don't be afflicted by all these external features of our bodily relationships. Be steady in Krsna Consciousness and do your duty so you may be blessed by Sri Caitanya Mahaprabhu and Krsna and make your life successful. I am going to Bombay on the 13rd instant-please come back and if you feel inconvenience, it doesn't matter whether from Indians or Americans, you can live with me because I am an Indian.

I hope you will feel no difficulty. You must come back when I go to Bombay. We are neither Indian or American; our real identity is that we are all servants of Krsna. Always remember this philosophy and all these external affairs will not trouble you. Hope this finds you in good health, and more when we meet.

Letter to: Guptaji:

Vrindaban 7 February, 1974

Calcutta

My dear Guptaji:

Please accept my blessings. Sometime back, in your letter dated 23 September, 1973, you wrote as follows, regarding the front portion of our Vrindaban temple land given in charity by Geeta bai, wife of Kasiramji Saraf:

"Sri Nandalal Saraf has already arrived and visited our temple. I introduced him to Swami Gargamuni Maharaja. We discussed with him for the donation and transfer of land at Vrindaban. He said that sometime back he has already replied a letter to Vrindaban that you can utilize the land in the manner you want. you can take it into construction."

Now as we are very much eager to utilize this land as a nice front entrance, so I sent one telegram to Kasiramji Saraf, as follows:

"Hare Krsna Prabhupada now in Vrindaban until the 13rd. Now settle up front piece of land as promised."

I received one telegram from him, reading:

"Front part of land will be used for other purposes, as decided earlier. Letter follows."

This statement of Kasiramji has given me much concern. He said personally to me that under dictation of Srimate Radharani he has given the land to us in charity. We have invested already lacs of rupees for constructing a temple, and now if he uses the front portion for other purposes there will be great damage to the view of the temple. As for your letter under reference, you said Nandalalji gave us permission to use the land as we like, but still we waited for final decision. But this is the position. Will you kindly see Mr. Nandalalji, brother of Kasiraj and settle this up so we can go on in our progressive construction work. Kindly treat this as very urgent and reply to us at our Bombay Center because I am going there on the 13rd.

Dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter of January 23, 1974.

I am glad to hear that you are now concentrating on improving the regulative life of the temple rather than so much advertising with brochures. This is very nice; this is what I want. A good example is better than precept. The pamphlet is precept, but if we don't follow the precepts ourselves then such advertisement is not good.

That Pusta Krsna Maharaja is assisting you in raising the standard at Bhaktivedanta Manor is also good news. He has written me that he is needing English boys to join him in South Africa as the English of all nations have free entry there. He is very hopeful of preaching and distributing books in Capetown. So if possible, help him by offering some English boys, and after some time he may go to South Africa with the boys.

I am already trying from here for my entry visa to the British Isles. Next time I come I shall enter with entry visa.

Dear Pusta Krsna Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated January 18, 1974.

Your report is very encouraging to me, that you distributed 110 Gitas in two days in Capetown, South Africa. You also find that there is good preaching to be done there among intelligent Indians and Europeans. And for the people in general you can hold kirtana and distribute prasadam sumptuously.

So I understand you are now at the Bhaktivedanta Manor assisting Mukunda in strictly following the parampara and encouraging all the devotees in that direction. When your work is done there, you may return to South Africa, and I have asked Mukunda to help you with some men for South Africa. I am also very pleased with the reports I am getting from Brahmananda Swami, so please cooperate with him in Africa.

Vrindaban 12 February, 1974

74-02-12

Cambridge, Massachusetts

Dear Ravendra Gupta,

Please accept my blessings. I have only recently received your letter of February 6, 1974, due to travelling.

I am very glad to hear you are following my instructions by chanting 16 rounds daily. In order to chant offenselessly, so that the chanting will have the greatest effect, one must avoid the four sinful activities. You have asked "How serious would it be for me if I should miss the golden opportunity to become your initiated disciple?" You should know that the value of accepting a bona fide spiritual master is more than we can calculate. It is not a mere formality. Of course everyone is encouraged to chant Hare Krishna, but until one gives up sinful activities and becomes determined to serve Krishna through His representative then the firm fixing up of devotional service will not take hold, and there is every chance that one will fall prey to all sorts of material desires and have to come back again in the next life-and one cannot guarantee that he will be born in the form of life he may desire.

I know you have been attending our temple in Boston sometimes, and that you wish to be a sincere devotee of Krishna. So go on faithfully with you chanting and pray to Krishna to give you strength for advancing in His service. It is a fact, however that we must become free of all material desire before going back to Godhead, and this can only be achieved by following the instructions of a bona fide spiritual master.

Dear Brahmananda Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of January 24, 1974, which has only reached me now due to travelling.

I appreciate your spirit in wanting to retaliate against the Kenya government for their not allowing me to enter the country on Krsna's mission. I think, however, that the proposal of international demonstrations at the embassies of the Kenya government would be a waste of time. If it could not be done from there why waste our time in such demonstrations.

Rather let us answer this atrocity by converting all Africans to Krsna Consciousness. Please keep in the front of your attention my desire that you convert the Africans. I know you have some of them already now train them up, so that even if you are forced to leave, they will be able to carry on Krsna Consciousness on their own. That is your real work rather than promoting international demonstrations abroad. Better you work the poison at home, and make the Africans Krsna Conscious, then my mission will be served.

I will be glad to see you when we all meet at Mayapur.

Your report on activities in Denver center is very comprehensive and I can understand you are feeling full responsibility for all the devotees and operations under your care. Actually the more selfless dedication you apply yourself with, the more Krsna will be pleased and the more he will give you intelligence how to expand the preaching in His Name.

The devotees you have recommended for first initiation are accepted by me and their new spiritual names are as follows:

John Kuiper-Jyoti dasa
Buddy Woodley-Bhara-dhari
Suzanne Soucy-Svarga-dasi
Bobbie Mendelson-Puja-dasi

Instruct them in the chanting process and the seriousness of following the vow to chant at least 16 rounds daily and avoid the four sinful activities.

I hope you will be coming to Mayapur for the Appearance Day celebration of Caitanya Mahaprabhu.

Dear Jayatirtha,

Please accept my blessings. I beg to acknowledge receipt of your letter dated February 4, 1974.

It is very reassuring for me that all our most important affairs located in world headquarters in Los Angeles are being well cared for under the guidance of your good self, Bali Mardan and Ramesvara. Therefore I have not become disturbed on that account because I know the BBT, Negotiations with Dai Nippon and financial matters are being taken care of even though Karandhara has left his post. Your desire to give me relief from having to worry about these matters shows that you have understood my desires, and I thank you very much. It is nice that you have taken this occasion to impress on the devotees there the necessity to be very serious in executing regulative principles, otherwise we will surely fall away. One who sticks strictly to these principles, will not, however fall down. Your statement, "The residents of New Dvaraka are praying for your mercy" is very nice. Let us meet all at Mayapur and chalk out a years work for our great mission.

-

Mayapur 3 March, 1974

74-03-03

Dear Mahadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter which has been hand delivered to me here in our temple.

We will present our program at Bhaktivedanta Manor exactly in the line of Lord Caitanya, by kirtana, prasadam distribution and speaking from Bhagavad-gita. We cannot deviate even an inch in order to attract the followers of the ecology philosophy or any other materialistic, utopian movement. You say you know a number of influential leaders of this group, but what is the use of knowing them, since you yourself found them deficient and left them? Our ideal Vedic community will attract everyone on its own merit, and we shall be glad to welcome and accept everyone who comes without our compromising in order to attract them.

As far as your plan to convince Prince Charles, heir to the throne, about Krsna Consciousness, this is another utopian idea. Do not work at it. I request you to live with your Godbrothers as a regular brahmacari and prosecute our standard practices for spreading Krsna Consciousness by book distribution, distribution of prasadam and preaching to interested people.

I think you should stay in India. Our Mayapur temple is better than any temple in the U.S. and Europe, and everyone is appreciating it as very gorgeous. So there is a full program here and I request you to take on duties here and do not go wandering around. I have heard of the report of your stealing from the temples, and Mukunda has requested that you do not go back there. Therefore I recommend as the best thing that you make a fresh start and stay here in India where there is such a great need. You English boys have good facility here, not having the visa trouble that the U.S. devotees have, so take advantage of this and cooperate with me in this way. That is my request.

My dear Taittiriya,

Please accept my blessings. I was expecting you also in Mayapur along with your husband, but I think you have done rightly by not coming here in your pregnancy. I thank you for your kindly sending me some sugar and one hundred dollar bill.

Regarding grains, if rice and mung dahl is available from Formosa please try to secure as much as possible as donation or by purchase. India is now practically without food grains on account of, partially, nature's punishment, and partially, the hoarding plan of the rogues. We wish to distribute cooked food such as rice, dahl and capatis to as many hungry men as possible. I think both you and Bali Mardan along with the help of other friends can help our society in this connection. I am so pleased to learn our New York temple is going so nicely under your direction.

I have studied your activities while in Honolulu and it gives me great pleasure to find out such s devotee qualified as you are in our society. I wish you will execute responsibilities in the future in the matter of our societies multi activities. In this connection I especially request you to try to open a center in China. So far I have information of the Chinese people and so far I have seen Chinese boys in Hong Kong, I am very hopeful for success in China. Similarly, my experience in Japan, when I was in Tokyo last time and the time before that, I found the Japanese boys and girls very nice and humble and submissive and respectful. Our Japanese devotee Basu is very useful in our missionary activity. Also I see this in you. I met several friends, the director of the Dai Nippon Printing Co., even the president of the Company and they were very kind to me. So I have a very good notion about the Japanese people. Now I have a very cultured aristocratic Japanese girl like you as my disciple and daughter-in-law. I hope in the future you will take a leading part in converting the Japanese and Chinese people towards Krsna Consciousness so that all of them may become happy like you. That is my only desire. Dear Brian Fleming,

Please accept my blessings. I have received you undated letter from Glasgow, Scotland.

You write that you are becoming very involved in Krsna Consciousness but your wife is not very interested and you want to know from me whether you should leave her. It is not necessary to leave your wife. The important thing is that you yourself become Krsna Consciousness, she cannot check you one way or another, but you must yourself surrender to Krsna and be engaged in devotional service. We do not say that one has to leave home. Either you leave home or remain there, and whether or not she becomes Krsna Conciousness, you go on with your progressive interest and participation in this great movement. By and by if you are strong in your determination, she may also follow you. If you have further questions you may write me or consult with the devotees in the temple. Actually I have already answered all questions in my books such as Bhagavad-gita, so kindly read them and chant Hare Krishna Mantra.

74-03-07

Dear Muralidhara,

Please accept my blessings. I have received your letter sent to Mayapur with a list of questions regarding your painting pictures for my books. The answers are as follows.

1. Kardama Muni should look something like you have pictured Vyasadeva, with beard and top know of hair, not as you have pictured him in your drawing. Generally munis have beards.
2. a) The kinnaras and kimpurasas should look like demigods.

b) Ghosts and hobgoblins look all rights as you have them pictured.

c) There is nothing peculiar looking about Yaksas and Raksasas; they are meat eaters. Just as meat eaters in the ordinary world do not look different. You may show them eating meat, or something like that.

d) The Manus should look like kings, they should not have beards, but mustaches.

1. As far as wearing beards one class of men like Advaita Prabhu never wore clean shaven appearance but always had a beard. The other process is to be nicely clean shaven, by the barber. King PratapaRudra was a king so he should not wear a beard but mustaches.
2. Svarupa Damodara should look like a brahmacari. He should not have a beard.
3. In Panca-tattva everyone has an effulgence, but especially Lord Caitanya and Lord Nityananda
4. The Mayavadi sannyasis generally wear their dhotis up over their knees, and because Lord Caitanya took sannyasa from a Mayavadi sannyasi He is shown like that. So He is seen like this as a sannyasi.
5. Lord Nityananda never took sannyasa. He was independent, like a brahmacari, and later he became married.
6. You may depict both the sages and Yaksas on the ground in the battle with Dhruva.
7. Yes, show Dhruva's soldiers along with him.
8. Ghosts sometimes manifest a body and sometimes they do not. When they took a body it was golden.
9. Dhruva was a Vaisnava, portray him like that. There is not harm that he have a mustache, also helmet, ornaments, and pearl necklace.
10. Svayambhuva Manu is a king, portray him with mustaches.

Sarvabhauma Bhattacarya is clean shaven.

1. The picture you have enclosed of Siva Linga is approved by me and it is in the right proportion. It may be black or white according to the stone.

Feel free to write me if there are further questions so that our paintings are completely bona fide by the parampara.

My Dear Tarun Kanti Babu,

Please accept my blessings. Since I attended the meeting last night I am feeling a new enthusiasm, over how potential the Krishna Consciousness movement is, based on the teaching of Sri Caitanya Mahaprabhu. Your good family has very great interest in Sri Caitanya Mahaprabhu, and especially your grandfather Mahatma Sisir Kumar Ghose was a great friend of Bhaktivinode Thakura. So we are coming down in disciplic succession from Bhaktivinode Thakura and you are coming in family succession from Mahatma Sisir Kumar Ghose, so if we combine together in preaching the message of Sri Caitanya Mahaprabhu, it will be a great benediction to human society for mitigation of all kinds of problems of material existence.

This morning you were quoting from Sri Siksastaka, "Ceto darpana marjanam bhava maha davagni nirvapanam [Cc. Antya 20.12]." This is the first installment of the benediction of Sri Krishna Sankirtana. "Param vijayate Sri Krsna Sankirtana." First of all, people are suffering on account of misunderstanding of self realization. The whole world is moving under the conception of the body in different names are caste, creed, nation, culture, like that. By chanting Hare Krishna Maha Mantra offenselessly, one immediately realizes himself as spirit soul which is described in the Vedas as aham brahmasmi. The Mayavadi philosophers cease to think further than this, but Bhagavad gita teaches us how to realize further advancement in spiritual life in devotional service. This is described in Bhagavad gita as follows:

brahma bhutah prasannatma na socati na kanksati samah sarvesu bhutesu mad bhaktim labhate param [Bg. 18.54]

So bhakti is such a nice think. Bhakti is transcendental. When one is situated in bhakti life his mission of life is successful. That is called "ceto darpana marjanam bhava maha davagni nirvapanam [Cc. Antya 20.12]." Everyone of us is suffering from the three fold miseries of material existence. Coming to the platform of bhakti, pure devotional service, one immediately ceases the blazing fire of material existence. That is the effect of Sri Krishna Sankirtana. The whole world is in chaotic condition without understanding this philosophy.

In the material life there must be division of activities. That is accepted in the Bhagavad gita as

catur varnyam maya srstam guna karma vibhagasah tasya kartaram api mam viddhy akartaram avyayam [Bg. 4.13]

So in the beginning if we start a varnasrama college to teach internationally students from all over the world to learn to be educated as brahmanas, as Ksatriyas, as vaisyas, as sudras, by quality and work, that will be the basic principle of Krishna Consciousness. It is the duty of the government to see that everyone is employed. This is only possible when varnasrama is established. At the present moment everyone is sudra. This is not very good for the human society. Everyone has a right to approach the Supreme Personality of Godhead but there must be a process for keeping the society in order. The intelligent class of men or the brahmanas, the martial class of men, the ksatriyas, the productive class of men, the vaisyas, and the working class of men, the sudras, all have the right to chant the Hare Krishna Mantra and by such devotional service everyone will be elevated to the transcendental platform. But there must be a division according to quality and work. At the present moment, so many so-called educated persons are unemployed because the division of work is neglected. If this division of society is maintained no one will be unemployed and there will be no unrest in society. It is a very scientific way of keeping peace in the world.

The brahmana class should be highly cultured in spiritual understanding; by their Vedic knowledge they will be able to educate the ksatriya and the vaisya in the value of life. It is the government's duty that according the division of human society everyone should be engaged in responsible duties. On the whole, at the present moment, there is not guidance from the authorized intellectual class. Therefore everyone is in darkness. The Krishna Consciousness movement is supposed to create actual intellectuals to guide society. The process if very simple.

If you kindly consider on this point and the varnasrama college is started, I am sure the chaotic condition of human society will be completely settled up. You think over this matter and we shall talk more when we meet again. Or if you like to discuss seriously by correspondence with me I shall be very glad to reply to you point by point on the basis of sastra.

Dear Hrdayananda Maharaja,

Please accept my blessings. I was pleased to appoint you as GBC of South America in the hope that you will organize the printing and distribution of my literature there, on the scale of the U.S. and European Zones. I have been informed there is a very good chance for spreading Krishna Consciousness in South America.

Just as Hamsaduta and Bhagavan have gone to foreign countries and arranged for a solid program of translation, printing and distribution of my books by sankirtana party, so you will also find the devotees in South America willing to help you in this noble project which is for the benediction of the suffering humanity. My own Guru Maharaja stressed the printing and distribution of literature even over gorgeous temple construction, and I also was printing even before I have big temples in the U.S. So you may follow the footsteps of the previous acaryas, while always strictly following the regulative principles for spiritual strength.

Memorandum to All ISKCON Centers

My dear disciples,

Please accept my blessings. Now that our ISKCON is growing into a huge, world wide organization, it has come to my attention that sometimes centers are printing my literature, taking collection and spending all outside the jurisdiction of the Bhaktivedanta Book Trust. This must not go on.

I specifically formed the BBT to invest in it exclusive rights for the printing of all literature containing my teachings, writings and lectures. In this way the collections are to be divided fifty percent for printing new books and fifty percent for construction of temples.

The BBT can authorize a center to print, as in the case of foreign translations, with the agreement that when the foreign printing becomes financially solvent they will pay royalties to the BBT. But all printing of ISKCON literature must be by the BBT or under their sanction and approval.

If temples print independently it will be at the cost of the books I am, myself printing, and could eventually cause the financial ruin of the BBT, meaning I could not order new books from the printer or have sufficient funds for construction of temple projects.

I trust this is now clear and you will all do the needful. If you have any questions in this matter you can write me directly or consult with the GBC representative.

Dear Jaya tirtha,

Please accept my blessings. I have received two letters recently from Gandharva das Adhikari of the Los Angeles Temple. He is feeling some inconvenience, as he states it, due to the younger devotees not showing proper respect to him as he is their elder, old enough to be their father. So they should show the proper respect, as is befitting a Vaisnava, who offers respects to one and all. It is sometimes difficult for elderly people to live in our ISKCON society, so you have to make it as congenial as possible for them and see that they are peaceful in all respects. Hoping this meets you in good health.

My Dear Jaya tirtha,

Please accept my blessings. There is a great blunder by the Union Bank in the matter of dispatching the monthly interest of $760.27 (Seven hundred and sixty dollars and twenty seven cents).As informed by your telegram they dispatched this amount to my account through the Charter Bank. I do not know when the Charter Bank received the money they advised the Punjab National Bank, however, on the 1st of March with some vouchers to be signed by me. As I was not here the vouchers were kept and yesterday I signed them. These vouchers have again been sent to the New Delhi branch to be again dispatched back to Vrindaban. According to the manager of the Vrindaban Punjab National Bank it will take 15 days. It has taken one month until I can get the money. That means we are losers of one month interest in transfer. How is it to be counteracted? We cannot wait so long to get the money here. The money, $100,000,00 (One hundred thousand dollars) which was dispatched through the Security Pacific Bank was immediately received in Vrindaban by the Punjab National Bank. Therefore to send money through the Security Pacific Bank is advisable because they have some corresponding interrelationship with the Punjab Bank. To send money through the Security Pacific Bank is profitable and safer. Under the circumstances you should immediately see the Union Bank Manager Mr. Art Schnieder and arrange to remit next payment through the Pacific Security Bank advising Punjab National Bank to immediately transfer, and if the Union Bank cannot do so, then I think I will have to transfer the account to the Security Pacific Bank. Please go and see the manager of the Security Pacific Bank whether they have direct correspondence with the Punjab National Bank, New Delhi.

On the whole, see the money is remitted without delay. This is a great havoc that we haven't received the first installment yet, and I do not know of the second installment. Clear the matter and let me know by letter. Also see that a letter of advice is sent from the Union Bank.

Your ever well-wisher, A.C. Bhaktivedanta Swami.

Letter to: Brian Marvin

•

Vrindaban 15 March, 1974

74-03-15

Dear Brian Marvin,

Please accept my blessings. I beg to acknowledge receipt of your long letter dated February 14, 1974 and I have examined the contents.

Your first question is, how can the Vedas be considered eternal since they contain many historical references? But history is also eternal. For example, six months ago there was summer now there is a new season, and in another six months summer again. This calculation of one year is history but the summer and winter seasons are also eternal. There is a saying, "History repeats itself." Why make a distinction between history and eternity. Things are happening eternally; this is history.

You have asked why the four Vedas are written in a different type of sanskrit from classical. This is not extraordinary. In India, sanskrit pronunciation is different in the North and South, and there are many different dialects. So the Vedas may also be presented with some differences within.

You have further questioned how the Vedas can be 3,000 B. C. in age. Modern historians cannot pick up when the Vedas came into existence. From our historical references, however, we understand the Vedic knowledge has been current since the time of creation but the knowledge was originally accepted in disciplic succession from spiritual master to disciple. Later, when Vyasadeva found the peoples' memories decreasing he wrote it into language. Otherwise it was existing by sruti, or hearing. So when this hearing began there is no history. He simply recorded the sruti, and there is no question of change. We have to understand Vedic knowledge on the authority of the disciplic succession not from mental speculators who are simply rascals and have no entrance into the Vedic knowledge. You mention Sankara, but Sankara hid so many things, so it is no wonder he did not mention Bhagavatam. There are great authorities of Bhagavatam and it is they we have to follow.

Similarly, the Bhagavatam is mentioned in an earlier Purana means that the whole language is sruti. Although the Bhagavatam may not have been written the tradition was there. It is written by Sridhara Swami quoting the Puranas, that the practice was to write out the Bhagavatam by hand and present it to a learned man.

The Bhagavatam we have is the same Bhagavatam. It was originally spoken in four slokas by the Supreme Personality of Godhead to Lord Brahma. All these descriptions are in my books and I request you to read them very carefully as you are a learned scholar. I appreciate your humble attitude, and I have a good report of your activities from Jagadisa prabhu. Please go on increasing in Krsna Consciousness and you will find all spiritual understanding and happiness not only for you, but for whomever you meet.

Dear Ranchor,

Please accept my blessings. I beg to acknowledge receipt of your letter dated March 1st, 1974, and I have examined the contents.

It is all right if you live independently as a grhastha provided you follow the rules and regulations. Chant together husband and wife and speak the philosophy exactly right as it comes in disciplic succession. You must speak Krsna Consciousness knowledge with no interpretation of your own.

As for supporting your preaching financially, if you are a preacher you can take a donation from the audience. When I was in the U.S.A. I was taking collection and the people were paying. Don't demand but you can ask and there is no harm.

Yes, I did not approve of your starting you own magazine. You can write articles for Back to Godhead magazine. Why attempt separately?

The drawing of the proposed temple for Bhaktivedanta Manor which you have enclosed is very interesting and it is done on a grand scale. I am studying it and will consider its use. Thank you very much.

Dear Dhrstaketu,

Please accept my blessings. I beg to acknowledge receipt of your letter dated February 28, 1974 and I have examined the contents.

Yes, it is all right that you devote your time to painting instead of street sankirtana. The main thing is that you be engaged in some worthwhile work for Krsna without wasting even a moment. Unless we are constantly engaged then there will be sickness and illicit sex automatically. So there is a good need for pictures in our preaching work, especially in illustrating our books, and if you are seriously painting I have no objection to your proposal.

Letter to: Satyahit

Vrindaban 16 March, 1974
74-03-16
Dear Satyahit,

Please accept my blessings. I am pleased to hear you have been preaching among the Gujarat community in Panama City and that they are sympathetic to our movement. We see now at our function in Vrindaban that hundreds of members are attending from all parts of the world. In this way our movement is unique, that not just the people of India are hearing about Krsna, but from all countries they are joining and becoming Vaisnavas by chanting Hare Krsna mantra, and refraining from the pillars of sinful activities. This was Lord Caitanya's desire that the Holy name be heard in every town and village.

Now I am especially concerned to distribute grains, rice, wheat in the form of dahl and rice prasadam to hungry people all over India. The people here are very disturbed because, partly due to the punishment of Nature, and partly due to the mismanagement of the demon class of men, food is not available. If the people do not even have sufficient food they will not even be able to receive spiritual instructions. So I am hopeful that if we can widely distribute free foodstuffs to the people of India, by giving it out at our centers as well as by travelling parties to villages, we will win over the whole country and the whole world by this activity on Krsna's behalf.

You write that members of the Gujarat community would like to contribute $10,000.00 toward a temple there, but at this time I think the money could be better spent by contributing to shipping grains to India for distribution. If they wish to donate for this noble project they can send money directly to the following account: "ISKCON Mayapur-Vrindaban Trust," account no 668, the Punjab National Bank, Vrindaban, Mathura, U.P., India.

Letter to: Dr. Ghosh
74-03-17
Dear Dr. Ghosh;

Please accept my greetings. I am in due receipt of your letter of 10 March 1974 and I have noted the contents carefully. I am very much pleased to learn you are so much advanced spiritually. I have seen your book, Pancamrta, and found it very interesting. I can understand you are following the impersonal aspect of the Absolute Truth, but I am glad to see you have chanted the Holy Name of Lord Krsna. This is the only process:

kaler dosa-nidhe rajann asti hy eko mahan gunah kirtanad eva krsnasya mukta-sangah param vrajet [SB 12.3.51]

In this age of Kali yuga everything is full of faulty things and the only remedy is to chant the Holy Name of Krsna. That is the injunction given in the Vedas. In any condition anyone can chant Hare Krsna Maha Mantra and by doing so one can be elevated to the highest platform. Param vijayate Sri Krsna sankirtanam This is a verse of Siksastakam by Lord Caitanya Mahaprabhu. I am also very glad to hear you want to retire completely from materialistic life and devote yourself fully to the service of the Lord. The service of the Lord can be done directly as Krsna says, Sarva dharman parityajya mam ekam saranam vrajam [Bg. 18.66]. There is no need of rendering service to the daridras in order to reach Krsna. Of course we can show our mercy to the daridras, there is not objection, but this philosophy that Narayana comes in the form of daridra to receive our service is against our philosophy. Daridra is daridra, Narayana is Narayana. Narayana demands service directly not through daridra. But we can show our mercy to daridra, that is a different thing.

There are philosophic differences between other schools and the Bhagavad-gita. I wish that you live with us for some time. Wherever you like, either Mayapur, Vrindaban or Bombay. We have books, about 20 in number, about 400 pages each, especially on the basis of Srimad Bhagavad gita, Srimad-Bhagavatam, Caitanya-caritamrta, Bhakti-rasamrta-sindhu etc. I know you are very studious and I request you to become a member of our society so you can get all the books free of charge. Anyway, it will be a great pleasure for me if you can come and live with me for some time. From here, Vrindaban, I am going to Bombay, at the following address: Hare Krishna Land, Gandhi Gram Road, Juhu, Bombay. Conveniently you may try to come and live with me for some time. Our philosophy is Krsnas tu bhagavan svayam [SB 1.3.28]. The Supreme Personality of Godhead is Krsna and by His instruction we can become the supreme perfect:

mam ca yo ’vyabhicarena bhakti yogena sevate sa gunan samatityaitan brahma bhuyaya kalpate [Bg. 14.26]

You are also a devotee of Krsna, if you kindly try to understand this philosophy of bhakti yoga as stated by Rupa Goswami: anyabhilasita-sunyam jnama-karmady-anavrtam/ anukulyena krsnanusilanam bhaktir uttama [Brs 1.1.11].

You have written to say you are 79 years old. I am also 78. You are such a learned medical man, if you preach Krsna consciousness to people it will be well received.

yad yad acarati sresthas tad tad evetaro janah sa yat pramanam kurute lokas tad anuvartate [Bg. 3.21]

I wish that in the fag end of life if you and I together can preach Krsna Consciousness all over the world, people will be benefited and all problems of the world will be solved. That is my conviction. I take the opportunity of sending this letter with your cousin-brother Mr. Zazumdar. He is a nice gentleman, almost of our age. I talked with him and felt great pleasure. Sometimes I think of going to Allahabad. So whenever I shall get the opportunity I may go, as I like the place. I am obliged to you for your remembering me even after so many years passed when we were together in Prayag Pharmacy.

I hope this will meet you in good health.

I am advising my men in Calcutta to send one copy of Gita Gan in Bengali and in the meantime I am presenting to you one copy of our Krsna Book Trilogy. You will find a list of my other books printed in the Krsna Book.

By your own example you have to keep all the devotees enthusiastic and that is done by strict adherence to the regulative principles. Hope this finds you in good health, and I will be glad to hear of your progress in political sankirtana. Your political sankirtana Godbrothers, Balavanta and Amarendra are here in Bombay helping us for some time, but I have informed them that their real work is in the USA. So you are in the nation's capital and if you can get support it will be grand preaching for our movement. Anyway, we are simply presenting the truth, which is that outside of Krsna Consciousness there is no hope for betterment of the troubled conditions of modern affairs, rather they are going to hell without check.

Dear Batua Gopala,

Please accept my blessings. I have accepted the devotees recommended by you for first initiations, and their spiritual names are as follows.

Dan McGready-Divyanga dasa

Michelle-Maharajani devi dasi

Paula-Pramada devi dasi Their beads may be chanted on by Jagadisa Prabhu. Please impress upon them that their chant must avoid the ten offenses, and that they must chant the minimum 16 rounds without fail, and be very careful to keep themselves free of the four sinful activities. They are in your charge so you must set the example.

I am also sending gayatri and sacred thread for Rasikhananda das Brahmacari for his second initiation, and also Gauranga devi dasi.

Dear Bhakti das,

Please accept my blessings. I have received from you the name of one devotee recommended for second initiation, Santipani devi dasi. So I am enclosing one gayatri mantra. Have her hear the mantra through the right ear, of me chanting gayatri. I have already cautioned you that the second initiation should be given out only when you are certain that the devotee is really following all our principles, so now instruct her further on the seriousness of following the regulative principles of Krsna Consciousness. All the devotees there are in your charge so by your example they will best be encouraged to enthusiastic advancement.

Please accept my blessings. I have accepted the devotees recommended by you for first initiation, and their spiritual names are as follows.

Miriam-Mekhala devi dasi

Linda-Lalana devi dasi

Ron-Ranganatha dasa

Ruth-Ruci devi dasi Have their beads chanted on by Jagadisa Prabhu. Our whole Krsna Consciousness rests on following the regulative principles, chanting 16 rounds at least, daily and without fail, and avoiding the four sinful activities. Without following the regulative principles, so called devotional service is simply a disturbance. So be sure to always take care of the devotees in your charge in this respect.

Dear Mukunda,

Please accept my blessings. Enclosed please find a recent letter which was mailed and addressed to me, by Sarva Suhrit. By this letter he has put into writing his criminal intentions. I think you know him also, and there is no telling what he may actually attempt to do. Therefore I want you to go to the proper Scotland Yard investigators and present the letter by Sarva Suhrit. He constitutes a menace; he should be punished and a court case should be taken if necessary.

Of course, as preachers we have to expect to face so many opposing elements, and actually we are doing so. Moreover, we are always protected by Krsna. But this crazy threat for our destruction should not go unchecked; please do the needful and let me know the outcome. You may send your regular report on activities at Bhaktivedanta Manor to me here at my Bombay address.

Dear Murti das,

Please accept my blessings. I beg to acknowledge receipt of your recent letter in which you propose to come to Vrindaban with your wife to help with deities, construction and preaching at our Krishna Balarama temple. After consulting with the authorities there, we all agree it would be a very good idea. So please make arrangements for your transfer here. Our Vrindaban temple is perhaps our nicest building in the whole movement and I want at least 25 good men here at all times. Because it is Vrindaban, those who come should be exemplary so that all the people of Vrindaban, even those who would be prone to criticize, will see that we are actually following the six Goswamis headed by Rupa Goswami. I want that those who come here, whether grhasthas or sannyasis, behave on the level of real goswamis. Goswami means controlling the senses and always glorifying Krsna by varieties of engagement in devotional service 24 hours a day. You may write to Gurudasa further about your plans.

Francine Steinberg-Rangini devi
Jenny Gilbert-Jagatkirti devi
Danielle Mary-Dandakesa devi
Maureene Remila-Mandahasa devi

You may chant on their beads and hold a fire yajna in the temple. As GBC you must see that they and all the devotees in the temples are first of all chanting at least 16 rounds on beads. Be sure they are aware of the ten offenses to chanting, and that they remain enthusiastic about improving their devotional service in that way.

I have accepted for second initiation Sakirta das and Dayamrgya das and have enclosed sacred threads and gayatri mantra. Have them hear the tape of me saying the mantra through the right ear.

Dear Dayananda,

Please accept my blessings. I have received you written note of 3/8/74 with names for initiation. I have accepted the devotees named by you as my disciples and their spiritual names are as follows

Sherry-Syamalangi devi

Debbie-Dyuti devi

Gary-Giri dasa

It is very pleasing to me to accept also some of our older Gurukula students who you have recommended as ready for initiation. Ekendra das Brahmacari and Dvarakadhisa dasa Brahmacari have already been given their spiritual names by me. Catton-Katyayana das Brahmacari, and Lisa-Manisa devi, are also now initiated devotees. All initiated devotees must chant at least 16 rounds daily, without fail. Now that they are initiated there is no question of not doing their rounds. You may hold a fire yajna and Jagadisa Prabhu may chant on their beads. In court when a person swears to tell the truth he can be punished by perjury if he does not take it seriously and tells a lie, so those who will promise before the deity to follow the rules and regulations of initiated disciples will be punished if they fail to do so. I am certain, however, that under your able guidance all the boys and girls are enthusiastic in their duties for Krsna.

I have received your recommendation for second initiation for Ram Gopala and Baladeva. das Brahmacaris. I am enclosing sacred thread for them as well as gayatri. Have them hear the tape of me chanting gayatri through the right ear. I will be pleased to hear your latest reports from Gurukula.

Dear Kanu Gandhi,

Please accept my greetings. I beg to acknowledge receipt of your letter dated 16 March, 1974.

Regarding the sale of the temple building at 40 North Beacon St., the best thing is to go and consult with our president in charge of the Boston branch, Trai das Adhikari.

Your desire to keep a personal temple room in your home is commendable, and you can do that in any case, wherever you are, by keeping an altar and offering your food to the Lord as prasadam. Our main purpose for keeping a large temple, however, is for inviting the public. I came to the U.S.A. just to try to give a chance to as many people as possible to take to Krishna Consciousness, because it is the only hope for humanity in this increasingly demoniac, godless age. So if you are seriously interested in maintaining a Vaisnava temple, why not go and try to help my disciples there in Boston, whether they are going to sell and relocate or remain, if you are financially able to assist them, that will be taken by Krishna as a great service. The young men and women at the ISKCON temple are giving everything they have for giving others a chance to come and worship at an authorized Radha-Krishna temple, so I request you to inquire into their situation and help them maintain our Vaisnava temple in the important city of Boston.

Dear Mukunda,

Please accept my blessings. I beg to acknowledge receipt of your letter of 21 March and I have examined the contents.

That the standard of Krsna Consciousness deteriorated while you were away two weeks, and three brahmacaris have left Bhaktivedanta Manor is not good. But neither do I think your proposals are very good for organizing a strong center by stopping Revatinandana Swami's travelling party and having the president of the London temple Prabhu Visnu and others stay with you at the center. It seems you are always asking others to come for some time to work with you and organize, then after they leave you turn to some one else to come and help. Madhavananda is here with me in Bombay and I think he is the right man to work with you permanently at the Manor. I sent him there for that purpose, to organize things as he has experience of the management and organization of a temple life. So between you and he, if you will mutually cooperate, there should be sufficient power to run things nicely.

Revatinandana Swami should not stay there but his travelling party should go on for preaching and distribute many books at the colleges and schools. Also Prabhu Visnu is supposed to stay in London as he is the president there.

As far as separation of men and women in Bhaktivedanta Manor, that should be strictly observed in the main temple building; between single men and women there must be strict division and strict observance of no illicit sex. The householders may continue stay as they are in the cottage house, living peacefully as grhasthas. Whether grhasthas, sannyasa or brahmacari everyone has to be completely engaged all the time in devotional service. That is the meaning of good management, to see that everyone is engaged 24 hours a day, and not sleeping unnecessarily or talking idly. I think Madhavananda has good ideas and is a good organizer. So he is returning to you in a few days; you two please work together so that devotees will be enthusiastic to remain and work at the Manor. We have such a nice variety of engagement there, sankirtana, deity worship, gardening-there is no scarcity of important work. I shall be eager to hear from you further how things are going in all departments, at our European Headquarters.

Letter to: Dr. Ghosh

74-03-29

Allahabad

My dear Dr. Ghosh;

Please accept my greetings. I wish to thank you very much, as I have received you letter of March 15, and noted its contents.

As far as your coming here in Bombay you are welcome at any moment. I am here at least up until the 20th of April and you can come and stay sometime and try to understand the philosophy of the Krsna Consciousness Movement. After the 20th, I may be going to Hyderabad where we have a center, and if you like you may accompany me to Hyderabad. We can continually discuss the Bhagavad-gita.

Our Krsna Consciousness Movement is based on the principles of Bhagavad-gita As It Is, without malinterpretation. Krsna says in the Fourth Chapter

yada yada hi dharmasya glanir bhavati bharata abhyutthanam adharmasya tadatmanam srjamyaham [Bg. 4.7]

paritranaya sadhunam vinasaya ca duskrtam dharma-samsthapanarthaya sambhavami yuge yuge [Bg. 4.8]

The whole world is Krsna's property. The material world is a field of activities for the corrupt conditioned souls who desire to enjoy in imitation of the Supreme. For them, Krsna gives facilities for material enjoyment, but He wants the conditioned souls-after finishing their material enjoyment-to come back to Him with bitter experience of material existence.

Therefore in the Bhagavad-gita there is the essence of Vedic instructions. The plan is that the conditioned soul may fulfill his desire for material enjoyment and at the same time be trained up in spiritual identity to come back to Godhead, back to home. As such, Bhagavad-gita contains the solution of all problems of the material world. Unfortunately, foolish people described as duskrtina, do not want to take instruction from the Lord, although it is completely perfect-but they select their own concocted leaders who are themselves blind, and therefore the world is in chaotic condition on account of rascal leaders in all fields. There are so many rascal leaders in politics, social life, cultural, philosophy, religion, etc. They are all misguided. Bhagavad-gita, therefore is the only light from which we can take direction for all our civic activities. Our Krsna Consciousness Movement was started only for this purpose.

Sometimes back, when I was in Moscow, I had discussion with a big professor, Kotovsky, and I challenged him. "Where is the difference between the Communist philosophy and any other? Everyone has to accept a particular leader and follow his instructions under a brand of ism." But because leaders are all fools and rascals, the ultimate result of following them is disappointment. In the western countries there have been many revolutions, in France, England, Germany and Russia, simply to change leaders of this ism to that ism. In India also since India's contact with the western countries, there have been certain types of revolutions, and they are now going on. Recently in our experience there was attempt to drive away the British. This revolution changed India from dependence to independence, but factually the situation has deteriorated from bad to worse. We are old friends, we know that in Allahabad when I was there, ghee was selling for 1 kg. per 1 rupee, and now its costs 20-25 rupees per kg. In this way, things have not improved, in so many ways. This is due to imperfect leaders.

Therefore our propaganda is to educate people to accept Krsna as the perfect leader in all fields of activity, and if people take to it seriously they will be happy in this life and after quitting this body he goes back to home, back to Godhead. There is no difficulty in understanding this philosophy in full brain and it is the urgent necessity that it be spread all over the world.

Therefore the best service to human society is to educate them after the principle of the Gita, otherwise they are losing the chance of perfection in the human life and going down again to the circle of birth and death and transmigration in different species of life numbering 8,400,000. It is very interesting to discuss on this point and it will be a great pleasure for me if you come and stay with me for some time and preach this philosophy amongst the higher section of society. This is confirmed in the Bhagavad-gita:

yad yad acarati srestas tad tad evetaro janaj sa yat pramanam kurute lokas tad anuvartate [Bg. 3.21]

Thanking you in anticipation,

Yours sincerely, A.C. Bhaktivedanta Swami

Taipei, Taiwan

Dear Trivikrama Maharaja,

Please accept my blessings. Herewith find one letter by Sri Ballavh das. The idea appears to be very nice, but I do not know whether you have discussed with him all the projects involved. He want to open an incense business in Japan. But if he opens it in Japan, what is the use of staying at Taiwan? The whole project is for improvement of the Taiwan center and how it can be done from Japan? It appears contradictory.

But if by starting an incense business economically you become solvent to run on your center then it is good, and for this purpose I will advise Bali Mardan to give you the necessary capital on your approval. But I don't think it is practical to run a factory in Tokyo.

If something is to be done seriously then let me know if you have a branch of the Chinese bank known as the Liberty Bank. This bank has a branch in Honolulu and we have kept some money there. So please let me know if a branch of the Liberty Bank is there.

If you can establish a strong center in Taiwan as it is described in Sri Ballavh das' letter it will be a great idea. We have one branch in Moscow, if we get a branch in China, on the mainland, it will be a great achievement.

My dear Sriman Pranava das,

Please accept my blessings. I beg to acknowledge receipt of your letter of 28th March and I have noted the contents.

Last time when I was in Vrindaban I saw both the lands and we decided that we shall take both of them. The first land which is front side four bighas on the road and six bighas behind, if they are prepared to give us the land for payment of Rs 28,000.00 or less we can take. That we settled up last time. And in between the two lands, the two bighas that also we can take never mind the land is rough, still we are prepared to take it.

The other land, twenty bighas, ten bighas in front and ten bighas at the rear can be taken at a total price of Rs 70,000.00 or utmost, Rs 75,000.00. In this way, if the land is available we are prepared to pay immediately. You have suggested it will cost Rs 90,000.00 but that is too much. The front portion at Rs 4,000 and the rear at 3,000, so 70,000 or utmost 75,000. So if they are prepared, arrange for the purchase of the land. My money will be ready the second of May. You can do the needful.

In Bombay we are meeting the opposition peacefully and I hope things will come out successfully. Kindly ask Tejyas to send me a statement of account of Delhi, in the name of Vrindaban Construction Fund, Punjab National Bank.

My dear Syamasundara,

Please accept my blessings. I beg to acknowledge receipt of your telegram dated 13 April, 1974 reading as follows: ”My most humble obeisances departed India today for America. All signs favorable for good success kindly inform c/o Brooklyn Temple how and where you wish funds repaid. Also how many and where to send your tickets for London plus expected arrival date. Suggest early May for English fragrant Springtime etc . . .”

I have already sent you a telegraphic reply reading as follows: ”Thank you for your telegram. All blessings of Krsna to you. Letter to follow.” I am very much engladdened to receive you telegram and I am prepared to go to London by the 1st of May. My preaching program is to go to Hyderabad on 18 April and after a week to visit Tripati Balaji Temple. I think I can come back to Bombay by the 1st of May and then London as invited by you. You can arrange tickets for myself and my three secretaries, Paul Sherbow, Neil Delmonico and Stephen Guarino (Pradyumna, Nitai and Satsvarupa).

Your program to meet her majesty and many responsible elites in London is very attractive to me. You have also proposed that George is preparing some wonderful surprises like my classes with Prince Charles etc. It will be a great opportunity to get cooperation of such big men for rejuvenation of the whole human society.

Our men in the U.S.A. are already taking part in politics for the time being superficially we have registered our political party under the name, ”In God We Trust” party. Similarly we can work in England and if the leading personalities cooperate we can have the whole Parliament as Krsna conscious men including her majesty the Queen. My next program is to reinstate the Vedic divisions in society as recommended in the Bhagavad-gita:

catur varnyam maya srstam/ guna karma vibhagasah tasya kartaram api mam/ viddhy akartaram avyayam [Bg. 4.13]

Without this division there cannot be any systematic peaceful running of human activities. There must be a very intelligent class to guide the whole population with brahminical qualifications. There must be a class of people to give protection to the people at the time of danger and ordinarily to maintain peace and order, the ksatriyas. There must be a section to produce food and grains sumptuously for feeding both animals and humans without discrimination. Especially cows must be protected by this class. The meat eater class may not be encouraged but if they are stubbornly attached they can eat hogs and dogs or goats or lambs under certain conditions only, but not by maintaining slaughterhouses. Then human society will be very peaceful and everyone engaged in employment without producing any idle brains which only are devils workshops. If England and America as well as France and Germany can understand this philosophy there will be great theistic revolution which will counteract the atheistic philosophy of Marxism. The present communistic philosophy must be countered by revival of the principles of catur varnyam.

I understand that some philosophers in Russia are thinking of autocracy with good sense. I am also advocating this philosophy. I have explained many times, the Vedic system of autocracy or monarchy in good training of God consciousness can save the world though less political thieves have failed with Marxism but if in England people can come to Krsna Consciousness monarchy is superficially maintained, and if the next Krsna Consciousness autocrat it will be a great revolution in the political field. Such noble king is not an autocrat but is guided by Brahmins how to rule and see everyone employed in their respective duties as Brahmana, Ksatriya, Vaisya, and Sudra and no one unemployed. There is no question of unwanted upheaval in society.

All such educational instructions are there in the Gita. We simply have to follow them rigidly and the whole human society will be benefited in this life and the next. I know you have ideas and full faith in Krsna and in me and also you have an opportunity to associate with some important persons. So I think you should think over day and night all these proposals. Let us do something which will bring a peaceful revolution to the whole human society. I am sure I have good assistants like you and if you all cooperate with me I am sure of success. So far you are personally concerned, I repeat, if the business in which you have spent so much time is actually profitable, then stick to it and do the needful. Otherwise, I request you to reture and devote your own work in Krsna Conscious activities. I am glad you are now ready to return the money. You can deposit in Lloyds Bank, Southampton Row Branch number 30-97-81 in London in my account 8006334. (Saving Bank)

For the time being I can stay in London utmost two weeks then I have to go to France and spend some time, say a month in Geneva, Rome, Sweden, Germany etc. Then if need be I shall come back to London or back to India. So you can think over this matter and do the needful. But if there is important program in London I may not come back to India immediately.

Dear Bhavatarani;

Please accept my blessings. I beg to acknowledge receipt of your letter of March 24, 1974, and I have noted the contents.

I can understand that due to material circumstances you are feeling distressed, and this large sum of money which you are about to receive is also causing you distress because you don't know what is the best thing to do with it. I very much appreciate that although you are filled with doubts and suspiscions and although you have many of your own plans for what to do and how to live, you have, nevertheless put the matter before your spiritual master and asked him to direct you. This is a great qualification, and this attitude made Arjuna eligible in the Bhagavad-gita, to receive the full mercy of Krsna's instruction.

If you are actually going to receive $24,000 I think the best thing is to contribute it to the Mayapur-Vrindaban Trust Fund which you can do either in the U.S. or in India. You have learned from the devotees who have been here, what a large scope our plans are for these two centers in India. During the festival hundreds of devotees from countries all around the world all very much appreciated that these transcendental spots, Mayapur and Vrindaban are place of spiritual inspiration for all devotees of ISKCON. They are the best places in the world to come and chant Hare Krishna and prepare for going Back to Home, Back to Godhead. So you can help by your contribution so that all your Godbrothers and Godsisters can come and find shelter here. As for yourself and your child, these places are for you also. You can come to Mayapur where you can have a separate room, also Bombay this facility is there and it is very comfortable, or Vrindaban, or L.A. or wherever you choose. My only desire for my disciples is that they chant Hare Krishna Mantra at least 16 rounds, follow the rules and live in association of devotees then you will be happy and peaceful and not disturbed.

As for money for Hawaii, that we will arrange in a different way. You can consult with Sudama Maharaja how to send money to the Mayapur Vrindaban Trust Fund whether through the Los Angeles Union Bank, which can be handled by Jaya tirtha, or direct to my account in Vrindaban. I will be glad to hear from you further in this matter. You have already done much service in raising two children and sending them to Gurukula, so you should not be so disturbed by temporary inconveniences. You can also arrange from this contribution to go on paying tuition for your children at Gurukula, as far as possible

You can write me if you have any further questions.

Dear Jayapataka and Bhavananda Maharajas,

Please accept my blessings. I beg to acknowledge receipt of your letter of-undated, and I have carefully noted the contents.

As for the advance of Rs 25,000 so that work can continue at Mayapur, that has already been sent from New York by Bali Mardan. There has been some delay in receiving it here but from our Bombay BBT account we have already forwarded the sum of Rs 25,000 to Calcutta, so that question is already answered. You have the money and work should go ahead full force to be completed as agreed.

As far as the cows suffering from no good shelter, why have you not built them something solid? I sent $5,000.00 on one occasion and then $4,000.00 previous to that, for construction for the cows. So why are they not protected?

Your report on the harvest of crops is a paradox, when compared to the fact that you have to spend money for maintenance. If there is so much harvest, you have cows, vegetables, then why do you require money for maintenance?

I have read in your letter how the brahmacaris find it very difficult to plough. It will be very difficult if we do not work the land ourselves. The difficulty can be overcome provided we are sincere. I think we can use modern machines, to drive a tractor, for example, is as easy as driving a car. Suppose we hire a tractor for the time being. I heard they are available from Krishnanagar. In America they take to agriculture; they are farmers although they are not Indians. So why can't the Americans work and farm in India? We just have to adjust in order to raise as much crops as possible for the animals and men. I have seen many farmers near New Vrindaban working nicely with tractors and growing food. One day Kirtanananda Swami hired one and within two hours he tilled many acres of land very nicely, although it was not even land. So in Mayapur it is even land; in a few hours we can till all the land we possess. My point is if somehow we cannot utilize the land then why purchase it at such expenditure? Self help doesn't mean Rs 10,000 spent monthly.

As for working with the architects, if you think the soil test is necessary you can consult together, you two and Gargamuni Maharaja and Brahmananda Maharaja and decide yourselves. Tamala Krsna goswami has no extraordinary experience, so you can do it yourselves. Tamala Krsna is sick now, recovering from a hernia operation, and after he has recovered he is going to America.

Yes, it is a good idea to go preaching in Bangladesh. If possible some men may go there. Gargamuni has some experience; when he went there it was Pakistan but still he had good reception. If you go to Bangladesh and establish a center it will be a great achievement. We have a center in China and one in Moscow why not Bangladesh and Pakistan?

As for Panca Dravida Swami, I know he is a good preacher and collector. Let him work there for some time and then come back. He is needed in South India and Acyutananda Maharaja is waiting for him. But it will depend on Panca Dravida, he can decide himself which part of the country he can preach best in. Wherever better facilities are we should work, it doesn't matter if it is Nadia or South India.

So please go on all working together in cooperative spirit and do the needful; then I may be spared taxing my brain over so many matters and I can go on my real work of translating. I will be glad to hear your further progressive reports.

Dear Atreya Rsi,

Please accept my blessings. Very suddenly Tamala Krsna Goswami underwent treatment for a surgical operation for a hernia. Now he is completely invalid and cannot move. It will take about two weeks more to recover, and then he desires to go to the U.S.A. for preaching work, and retire from the GBC.

We have discussed about you because immediately you have no portfolio. I am now in India, so in my presence another GBC may not be required, but if required in my absence, my question is whether it will be possible for you to take charge? Kindly guide me how it will be possible, while keeping you occupation intact.

Dear Tejyas,

Please accept my blessings. I am in due receipt of your letter of March 27th with check book and statement.

In your footnote you have given discouraging information about the land in Kalkaji. The best thing is if you three, Saurabha, Gurudasa and yourself jointly inspect the land and see if you can utilize it for our purpose. We can use any land, but if you think it will be very, very difficult then what is the use of accepting it.

You say I will have to go in person to the registrar office, but that is not a problem. In Hyderabad they gave me land and a Power of Attorney was given to Mahamsa Swami and he took delivery.

So the three of you inspect and give a joint report. If it is useless then don't bother. For the time being we are paying Rs 2,500 monthly and no sufficient water and the neighborhood is opposing. In consideration of this, I wanted the Kalkaji land, which is developing equal to Connaught Circus.

Kindly send me an exact site plan. The road and access plan may be hand-drawn, it doesn't matter, showing the length and breadth, the surrounding neighborhood etc. The point is, we are not going to make any big scheme anywhere else unless we have sufficient manpower. At present we have to import men from foreign countries and manage in that way. It is not possible to accept any big scheme in New Delhi. Therefore if we could get even small land just to keep our office, for the purpose I thought the land was nice.

Visit, and if you all think even for that purpose it is no good then give up the idea; what can be done? But at Kalkaji there is a big Anandamayi asrama and surrounding colonies are inhabited by Bengalis. Anyway, you see and examine further and send me a report with site plan and we shall finally decide.

Dear Sukadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter, undated, and I have noted the contents.

Your write that our society should provide some medical facility, insurance or personnel to handle devotees who become chronically ill and thus ostracized from our society. Of course this kind of management of affairs is better handled by the GBC which I have created for this purpose, I cannot be expected to handle problems of this sort while at the same time writing my books.

First of all, there is not question of a devotee becoming ostracized because he has become ill, nor do I think this is being widely practiced. Who has been ostracized? One of the symptoms of a devotee is that he is kind, so if our Godbrother becomes ill it is our duty to help him get the proper medicine and treatment so that he can recover. Recently our Giriraja became chronically ill in India and had to return to the U.S. for proper medical treatment. There, in our Los Angeles center, he was given his own room, and was able to recuperate comfortably, and now he has returned to his full duties in Bombay. Now Tamala Krsna Goswami has just had a successful hernia operation which was arranged free of charge at one of the most modern hospitals, and there is also a girl devotee undergoing operation there also. Tamala Krsna is now living in a room at our temple; the devotees see that he gets all facility, a hospital bed, proper prasadam, and personal care and visiting. So there is no question of ill treating of our own Godbrothers simply because they are sick, nor should you allow such neglect to go on. So long we have this material body there will be sickness, but we have to remain on the transcendental platform nevertheless.

As far as a centralized medical plan for the whole society, no such plan or facility or insurance has seemed practical as yet. The best thing is to work it out locally, try to find the services of a free medical facility in Seattle, or some way that sick devotees can be cared for; that is your responsibility. I think further questions of this sort can be handled by the GBC.

Dear Bhagavan dasa,

Please accept my blessings. I beg to acknowledge receipt of your letter of 30/3/74 along with the French edition of Back to Godhead which is certainly a great pleasure for me. I can see by this publication and by your report that things are going on nicely in Europe. All your programs are approved by me; simply if you keep on with it, slowly but surely we will become very solidly situated there with many devotees and books and temples. Krsna simply wants to see our desire.

I will be glad to come to Paris on your invitation for the second week of May. I will also be able to visit Geneva, Sweden and Rome if you will arrange programs for me. As you know, I must return to India for the Janmastami celebration in August. So if I fly from India to Paris and arrive the second week of May, then I may stay no more than 4 or 5 days each in Paris, Geneva, Stockholm and Rome, and then go to Germany and stop at three or four centers there also. Then in late June I may go to Australia. Satsvarupa can write you further concerning the fixing up of visas, arrival dates etc.

Dear Saurabha,

Please accept my blessings. I have seen the letter of 4/4/74 you have written to Tamala Krsna Goswami.

I am very very happy to learn the by Krsna's and Baladeva.'s mercy a sweet water well has been found about ten feet away from the front part of the land, on our side. This is Krsna's mercy on us. Now build a big well there. Make an idara, make the well 100 feet deep and big and fix a pump so that you can always take water from. This news about the well has pleased me very much. Also, because the tamal tree is blooming so nicely you may let it stand; do not cut it down, but let it grow.

As for the shortage of coolies, our men can do this job. Any man can work as a cooly, so our men should join. We shall also send men from here and elsewhere so you may have 10 or 20 men. Cooly means non expert, and so many of our men are non expert so they may join and work as coolies.

If you are collecting money from Mr. Bajoria or any life members take it and send it to the construction fund at New Delhi, in the Punjab National Bank. As far as Mr. Somani, let him come here and I will be very glad to receive him. If he can supply us paper we can start a Back to Godhead magazine in Hindi and Gujarati.

Regarding your report on the marble, let us apply the best one, as indicated by you, even if it costs Rs 8 per square foot including labor. So make contract, take delivery of the stone and engage this man who is the same one doing the Birla Mandir. I have sent a check for Rs 23,000 to Tejyas in Delhi so there is no scarcity of money. This temple must be finished by the deadline. Work very swiftly keeping in view everything expertly and solidly.

Dear Hamsaduta,

Please accept my blessings. From reports I have received it appears that affairs at Bhaktivedanta Manor and Bury Place London have deteriorated to the critical stage, and therefore I am asking you to go there immediately and see what can be done.

Mukunda wrote that three brahmacaris recently left the Manor and in order to strengthen the sanmkirtana party he has asked Revatinandana Maharaja and his party to stay at Bhaktivedanta Manor, and also Prabhu Visnu. Madhavananda who is presently here in Bombay said that such keeping of the extra men at Bhaktivedanta Manor was not necessary, that things simply had to be better managed, and he felt Mukunda could not do it. Now I have received yet another report, from Puranjhan das Adhikari of Spiritual Sky England, and he reports that all help is needed and that a bill of 4,900 pounds on rent for Bury Place temple has just been presented, and he intimates that both London and Hertfordshire temples are in jeopardy spiritually and financially.

Therefore, I am asking you to go there immediately, and try your best to rectify the situation. The devotees have also requested you to go, so they will trust in your decisions. I myself am planning to go to Paris by the second week of May, so at that time we can meet and discuss how best to run these affairs. If our temples cannot even be maintained then it is a great defect in our management of the society. Neither can I be expected to deal in these matters and also pay attention fully to the translating of my books.

Between Mukunda and Madhavananda they are opposing camps and cannot cooperate, and Syamasundara is not even present. So go at once and do the needful. You may write to me at Bombay until the second week of May when I am leaving for Paris. At that time I intend to visit also Geneva, Rome and Sweden not staying for more than 4 or 5 days at each place, and then I will go to Germany and visit 3 or 4 cities. A Mr. Hans-Werner Erdman of D 8011 Baldham bei Munchen, Fichtenstrabe 11 visited me in Bombay and was very enthusiastic for my visiting Germany. He was wearing sikha and said he would make arrangement for my travel tickets and visiting prominent men. You can get in touch with him and if he is serious plan together my visit to Germany.

Dear Puranjana,

Please accept my blessings. I beg to acknowledge receipt of your letter dated March 3, 1974 and I have noted the contents carefully.

Because of the critical condition of affairs at Bhaktivedanta Manor and Bury Place London, and the inability of present managers to work out a solution together, I have asked Hamsaduta to go there immediately and take charge of the situation. It is not good that things have deteriorated to such a stage as you describe in your letter, but let us try to rectify and save the situation. I myself will be traveling to Paris in the second week of May, for a tour of European cities, and I will meet with Hamsaduta then as well as other leaders, and we will make a decision for the permanent leadership of the centers.

For the time being work with Hamsaduta and stop the bickering and conflicting camps. You must work hard to absolve the debts you have massed so we will not lose our standing there. If everyone is strictly chanting at least 16 rounds daily and reading the books and observing the regulative principles then management will be at our finger’s end, and there will be no difficulty in maintaining Krsna Consciousness.

Dear Raghunath,

Please accept my blessings. I beg to acknowledge your letter of April 1st, and I have noted the contents.

You have analyzed that you are distressed because you are not given an engagement in Krsna Consciousness. This observation is correct, unless we are engaged with all our senses and intelligence in serving Krsna where is the question of Krsna Consciousness? We are reading here in the evenings how in the 4th chapter of Bhagavad gita Krsna has arranged for catur varnam, the social division of four orders, whereby everyone has some engagement according to his propensity, his quality and work, and thus everyone can go back to Godhead while performing their work.

You complain that as a householder it is very difficult. Especially you want to preach. There are examples of great preachers who were householders, such as Bhaktivinode thakur, although we cannot hope to imitate him. You have not mentioned whether you are attending the activities of the temple and associating with the devotees in Melbourne, and these things are essential. Madhudvisa Swami is my representative in charge of devotional affairs in Australia and if you will discuss the specific situation with him, he will see that you become engaged in work just suitable to your situation as a householder.

I will be glad to hear you have found proper service, as this is our whole secret of success. So long as you are chanting and reading our books and raising your family in Krsna Consciousness you are already engaged in the best service. Your desire to do more and preach is a sign of advancement; now confer with the devotees there and find out the best practical preaching assignment.

Dear Tejyas,

Please accept my blessings. This morning Sriman Gurudasa has come here. He says that he did not receive the check for Rs 24,000 which was issued in favor of Rajastani Moorti Kala Kendra. Under the circumstances he has already ordered you to go to the bank and stop payment on check number PHF 431993. Now it has been settled that the murti walla will supply deities at RS 19,005 final payment. But he wants a bank draft.

Under the circumstances I am just issuing another check number PHF 431995 for Rs 19,005 (nineteen thousand and five rupees only) in favor of Punjab National Bank itself. So Gurudasa is returning to Delhi and both of you see in the bank if the former check PHF 431993 is positively stopped for payment. Then sign the present check and take a bank draft for payment in Jaipur and that will settle up the thing. I hope in the meantime you have received the check for Rs 23,000 (twenty three thousand rupees only) for steel, which acknowledge receipt.

Puri, India

Dear Syamasundara Brahmacari,

Please accept my greetings. I beg to acknowledge receipt of your letter of 3/4/74.

I have not visited Jagannatha Puri because my men are not allowed to see the deity. When you arrange that we can visit the temple with my disciples then I can come immediately. Now I am in India up until May 15 then I am going to Europe to visit in France, Switzerland, Italy, Germany etc., and then I will come back and remain until the end of August, and then go again to England, and the U.S. This is my program. I am still here until the 15th of May. I am going to Hyderabad on the 18th of April and then going to Tirupati. So from there I can go to Jagannatha Puri if arrangements can be made.

It is very regrettable that these European and American boys who are purely Vaisnava and who follow all principles are not allowed by the rascals to enter the temple. As stated in the Padma Purāṇa: arcye visnau siladhir gurusu naramatir Vaisnave jati buddhir.

I do not know what makes the management take this attitude. If you can remove this restriction you will do a great service to the Gaudiya Vaisnava community. According to sastra anyone who wears tilaka and sikha and kunti over and above the Vaisnava dress or Vaisnava sannyasi must be accepted especially while chanting Hare Krishna mantra with bead bags. Kindly convince them and induce them to allow these Vaisnavas to enter Jagannatha Temple.

One friend in Orissa has offered to give us land in Bhuvaneśvara and I have a desire to construct a big Jagannatha temple there for our men if we are not allowed to enter Jagannatha temple in Puri. In Jagannatha temple people come from all the Indian states. Now when Jagannatha has expanded His jurisdiction over the whole world why the so called servants of Jagannatha should not allow them to see the Lord of the Universe? I don't know their philosophy.

We shall see that your copies of Back to Godhead are dispatched to you.

In conclusion, I shall come to Jagannatha Puri as you have kindly insisted, but only when they allow entry to all my disciples.

Dear Tejyas,

Please accept my blessings. I beg to acknowledge receipt of your express letter of 4 April, 1974 along with the list of needed checks and I have examined the contents.

as far as the checks needed for Vrindaban construction I am handing them along with this letter by hand delivery by Gurudasa who is here now. One check listed by you for Rs 23,000 to Punjab National Bank has already been send separately by express post. the other checks are all given to Gurudasa.

Regarding the offers of land in different places, you should take them. First accept them, then we shall see how to manage them. We will have to import brahmanas to man them. If our men are trained, one man can run a place. One experienced man can sit down in a hut and simply talk about Krsna and organize the local people. This is how I started in the beginning at 26 Second Avenue in New York City. If there is genuine preaching they will be attracted, so long the preacher has no self motivation, but simply chants and preaches. Anyway, take the offered land.

Now work in consultation with Gurudasa and Saurabha go ahead for the completion of our Krsna Balarama temple in Vrindaban.

Dear Ramesvara,

Please accept my blessings. I have received a letter from Yasodanandana Maharaja in Japan dated March 31 in which he writes that he has become very disturbed by reports he says you are making that he and Gurukrpa Maharaja are not authorized by me, and so many criticisms he alleges you are making against them.

This kind of criticism and counter-criticism is not good. Those who are advanced devotees try to see only the good that other devotees are doing, just as bees are attracted to honey, while flies are attracted to sores. Gurukrpa Maharaja and Yasodanandana Maharaja have gone to Tokyo with my full knowledge for sankirtana and collecting funds for our projects in India. In the past they have collected very nicely and sent $40,000 to India. So let them work peacefully, and you engage yourself fully in Los Angeles and BBT matters. Since you are facing so many difficulties alone in Harlem, New York City, I think it would be better if you return to Mayapur, under the direction of Bhavananda Maharaja and Jayapataka Maharaja, and I have no objection to your return there.

Now that the building there is complete, we are making it an ideal asrama. So if you go back there, you must find a suitable engagement. It is not a place simply for sleeping. If you think you can find suitable engagement there and stay always engaged either in chanting, reading, cleaning or some other work, then it will be nice. As far as funds for returning there, you will have to take collection there in New York. So I think this plan, as suggested by you, is best.

Dear Sudama Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 5, 1974 and I have carefully noted the contents. It is very reassuring to me to hear you are conscientiously engaged in carrying out the orders of your spiritual master in the specific assignment given to you in Hawaii.

I fully approve of the decisions made by you as follows.

1. Your decision to peacefully and legally take over possession of the forty acres of land. So proceed as quickly as possible with the lawyer so that the land is legally ISKCON's with yourself as trustee, and then we can take it and use it for Krsna.
2. Yes, you must get the payments being made on the sale of the land donated to ISKCON by Siddhasvarupa transferred to our account and not to Gaurasundara.

Gaurasundara has tried to make complete havoc of our affairs there but because I have faithful sons like yourself I think we shall be able to recover what he has tried to ruin. I am also glad you are consulting with BaliMardan in these affairs.

The main thing is to go on with our regular program, distributing books, chanting Hare Krsna, holding festivals, hearing the philosophy, and then as you are reporting, more devotees will come. So I think it is going very successfully under your Krsna Conscious management. Please keep me informed as things progress.

Dear Dayananda,

Please accept my blessings. I beg to acknowledge receipt of your letter of March 29, 1974 and I have noted the contents.

It is extremely assuring to me to hear that Gurukula is doing nicely. The importance of the school in Dallas cannot be overestimated, both for our ISKCON movement, and for the outsiders as well, indeed it is important for the whole world. I was discussing this point in my lecture last night here in Bombay, that human life means tapasya, and tapasya must begin with brahmacaryena, life at Gurukula. The boy is supposed to lie down on the floor, collect alms for the spiritual master-not that they are trying very hard to make a comfortable material arrangement. But the result is that although in this age everyone is born a sudra, we are producing first class brahmanas who can actually do good for their fellow man.

I think also that you are the right man to be in charge of our school. It is especially nice to hear that the boys are becoming first class preachers; that is especially needed. Without preaching, our institution becomes all rubbish. So it is very good they are becoming good preachers. So along with Jagadisa you investigate the practical aspects of expanding by purchasing new buildings. Expand, develop and make it a unique institution.

As for Canakya sloka, I think the best thing is if I translate it myself and send it to you for printing, rather than wait for Pradyumna.

Please go on developing nicely. When I come to the U.S. next time I would like to go to Gurukula and stay there for some time.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Dear Madhudvisa Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of March 31, from San Francisco and I have noted the contents.

I do not think that you have failed in your work there, but by your going and preaching it appears the temple life has much improved. That you could not convince Bhutatma to stay as president is not your fault. Now you stay at New Jagannatha Puri, your first spiritual home until you are sure the new president, Bhakta dasa is fully understanding of how to conduct things. I know he has done nicely in San Diego. One thing is they should never consider leaving or selling that building, but they should stay there as Radha and Krishna are staying, and it is a nice temple as evidence by the fact that over 250 people attended the Sunday feast by your report.

The description of the play, "The Death of the Yadus" is all right.

I have written you earlier that my plans are to travel to Paris by mid May and then spending 4 or 5 days in each place, I will visit Geneva, Rome, and three or four cities in Germany. Then I will be prepared to go to Australia for Rathayatra. So let me hear from you in this regard.

I am glad you have cleared your visa matters and that you can return to your GBC zone of work.

Dear Tejyas,

Please accept my blessings. In reponse to your telephonic message I beg to enclose herewith check number PJH 365504 for Rs 17,600 in favor of the Punjab National Bank. Yes, _ also I sent eight checks totalling Rs 43,614.63 (Rupees forty three thousand, six hundred and fourteen and sixty three paise only) through Gurudasa Adhikari. Before that a check for Rs 24,000 and another for Rs 23,000 was also sent to you. The check for Rs 24,000 for Rajastani Moorti Kala Kendra is understood as not sent to Jaipur. Anyway, this check should be considered cancelled. Another check for Rs 19,005 has been issued and now today's check of Rs 17,600. So make a list of statements and see what is the balance is in the bank now. In my calculation the balance is now Rs 18,745.81. (Rupees eighteen thousand, seven hundred forty five and eighty one paise). Please confirm this.

Dear Bali Mardan,

Please accept my blessings. I beg to acknowledge your letter of April 29, 1974 with copy of the $50,000 check. I have also received a telegram from you today reading "Money traced to Central Bank of India Madurai 1 Tamil Nadu South PO Box 8 Second cable sent to transfer funds to Bombay Gowali Branch". Now Giriraja reports that the check has finally been deposited in the Gowalia Tank Branch.

I have also seen your reports of BBT loans to temples for various projects in the upcoming months. Regarding using New Vrindaban land for building for the older Gurukula boys it is a very good idea. As for the younger children it may be better to keep them in Dallas. But there are only 100 of them; whether they actually need new buildings in Dallas? This is to be investigated and decided upon by the GBC.

As for my own activities as you have requested, my schedule is: leave for Hyderabad April 18; after one week in Hyderabad I will travel one week in southern India; by middle of May I will leave India for Paris, and will travel 4 or 5 days in each place to Geneva, Rome, Sweden, then 3 or 4 cities in Germany. Then I may go to Rathayatra in Australia and back to India by Janmastami. After that I will go to England and then the U.S.

What is the news on our buildings in New York?

Dear Bhakta das,

Please accept my blessings. I beg to acknowledge receipt of your letter of March 27, and I have noted the contents. Now Madhudvisa Maharaja has written me that you have been posted as president of San Francisco, and that you are very enthusiastic to increase all programs there. I do not know who is now president of San Diego, but I will answer the points in your letter.

I never said I was displeased with the American temple presidents for not sending more money to India. You go on expanding there as you are doing so wonderfully. When there is spare money that can be sent to India. For example, you write that you that you have received an extra $10,000. So that can be sent immediately to my personal account in the Punjab National Bank, Vrindaban which is in the name of the Mayapur-Vrindaban Trust current account number 668.

There is no question of installing more than one set of Radha Krsna deities. The smaller set of Radha Krsna deities may be set on the altar at the feet of the larger ones, as you describe. But they are not installed.

Regarding Srinivasa Svarupa it is very pleasing to hear that this Indian boy wants to surrender his whole life to Krsna. There is no harm if he finishes college and gets his degree. If possible, he can live in the temple and attend the university daily. At any rate, he should carefully follow all the regulative principles and associate with his fellow devotees as much as possible. The university is well known for demonic association, but if he is able to keep up his devotional practices and protect the creeper of devotional service, then he may complete his degree. I think there is more advantage in Bir Krsna remaining fully engaged in his temple duties than in going back to college. What would be the practical benefit of such degree?

So many new devotees are coming there in San Diego. Now instruct them carefully and keep them in your care.

Please inform me when you actually receive the $10,000 and when you are sending it.

Dear Gargamuni Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 4, 1974, and I have noted the contents.

I am glad to hear that the Calcutta temple is progressing nicely under your direction, that devotees are going out daily distributing books and collecting. As far as my meeting with the indutrialist G.D. Kothari and others to discuss building a Calcutta temple, my present schedule is that I am remaining in India until May 15, and then going to Pairs, France. On April 18 I am going to Hyderabad for a week and from there spend a week in South India traveling. So after that, if such a meeting can be arranged before I leave? Otherwise, when I return to India at the end of July I can meet.

Regarding your complaint that Jayapataka Swami does not give you account of the money you send there, please try to rectify this amongst yourselves. I have sent Brahmananda Swami your elder brother, to Mayapur just to help organize their management. Now among yourselves you are all senior members, rectify this rift between Calcutta and Mayapur. Your idea to send Mayapur Rs 6,800.00 monthly for construction costs only, and let them make up that same amount monthly which is their maintenance money, is a good plan. I have heard there is good chance for life membership in Nadia area, and Panca Dravida Maharaja can train up others how to do it. You all must push on cooperatively and spare me from too much management intervention; that will be your success.

Dear Vrindaban,

Please accept my blessings. I am in due receipt of your letter in Bengal dated April 9, 1974 and beg to inform you we are still prepared to purchase the house at 72 Mahatma Gandhi Road, according to the terms already given. If the sellers are prepared to sell the house on the same terms we are ready. That is, Rs three lakhs, or Rs 60,000 for each of the five parties. There are five parties, your mother, your third maternal uncles and the other three parties who are resting in the house namely the family of your elder second and last maternal uncle. They can be paid immediately Rs 60,000 each and they must immediately vacate the house on receipt of the money. This has been already informed to you a year ago but you have done nothing in this connection.

Still we are prepared to purchase the house on the above mentioned terms. But the sellers must agree and we are prepared to purchase. The purchase money cannot be given to anyone else; we shall directly deal with the sellers and pay them directly. So direct contact with the sellers is absolutely necessary.

As you may know, our most important temples are in New York, Chicago, San Francisco, Los Angeles, New Vrindaban, West Virginia, Philadelphia. So you are welcome to stay in any one of these temples and you can stay there as long as you like. I especially invite you to our children's school, Gurukula, in Dallas Texas. If you so desire you can take part there to take the post of head sanskrit teacher. As soon as you are in the U.S. go to Dallas.

This latter can be taken as sponsoring your stay in any temple; we will pay all charges for boarding and lodging.

Please send me five or six photos of yourself so I can send letters instructing my different branches as mentioned, so there will be no misunderstanding.

Letter to: Bhavananda , Jayapataka

74-04-20

Mayapur

Dear Bhavananda and Jayapataka Maharajas,

Please accept my blessings. I am in due receipt of your letters of April 15, 1974 and I thank you.

My point of view is this: whatever money you require I am already sending and will continue without hesitation to send, but I must be satisfied the money is properly spent. The first point is if I send you money for a certain purpose it must be spent for that purpose. Money for land must be spent for land purchase; if I send money for constructing of a kitchen it must be spent for that.

Also, if you purchase land it must be properly utilized. It is no use purchasing land to be wasted by costly laborers. If you actually produce some grains or vegetables, then where is the necessity for further money for maintenance. For maintenance we require 100 rupees per head without any risk for purchasing lands and cultivating the same. I understand there are only 20 men there at present, so utmost 2,000 rupees is necessary for maintenance. I am not competent to understand everything concerning what you plan to do, but that is my rough estimate.

You have tried to explain by long letter which I have not gone through yet. In the meantime go on the above principle: money spent must be used for that purpose intended. That will keep it very clear.

I know you are working hard and sincerely. I have no business to criticize you but as head of the institution or your spiritual master, it is my duty to find out your faults. Even Caitanya Mahaprabhu presented himself as faulty before his spiritual master. To remain faulty before the spiritual master is a good qualification so he is subjected to rectification. But if one thinks he is all perfect then there is no scope for rectification. Don't be sorry when I find fault. That is my primary duty. Canakya pandita says one must find fault with disciples and sons, it is good for them.

I hope things are going nicely and progressively. The money is with Giriraja: he has send Rs 50,000 in two installments, the balance is kept with him and you will get it timely. Hope this finds you in good health.

Your ever well-wisher, A.C. Bhaktivedanta Swami

ACBS/sdg N.B. Previously, eighty thousand rupees was taken from Hyderabad for Mayapur. (RS 80,000.00) I am not sure of the exact sum but Gargamuni Maharaja will have a record of it. Dear Hari basara,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 7, 1974 along with other letters and literature regarding the World's Fair exposition in Spokane, Washington.

According to your letter you suggest I come and speak in the middle of August. But in order to insure good attendance at the event in order to sell the tickets and make profit you think it best if I appear with a popular music group. These arrangements make us too dependent on other parties. We should not be dependent on others but should present our own program. Since there are so many conditions and risks involved, better you yourselves do as much as possible to spread Krsna Consciousness there by distribution of literature, kirtana and prasadam, and that will be as effective as my personally coming. Besides, I must be in Vrindaban for Janmastami so my schedule makes it difficult for me to be in Spokane, Washington.

I am very keen on the distribution of my books and I am very indebted to all of you for your untiring efforts to see that every man and woman in America get one of my books. If they simply read one page, even if they do nothing else, they can become perfect. I have read the plans of Ramesvara and Tripurari to attend the fair and distribute to the thousands of people who are coming; whatever transcendental tactics you leaders think best for distributing the books you can employ. Please keep me informed of your progress as the Fair develops.

Dear Hamsaduta,

Please accept my blessings. I beg to acknowledge receipt of your GBC report of April 11, 1974.

Your activities in book publication and distribution in the German and other European languages is very engladdening to me. I am enclosing the latest letter I have received from Wolf Rottkay and I am glad you have been able to engage him; cultivate this man, he is an important elderly professor in a U.S. university and wants to be engaged in Krsna Consciousness. Your chart for reporting book and record distribution is approved by me, as from this chart I can quickly see how the centers are doing. Yes, by all means you may print my morning walk speaking about "Life comes from Life" into a small book; this argument should be spread, as any intelligent man will be convinced that our discussion is thoroughly scientific and exposes the so called materialistic scientists as rascals. So go on printing and distributing as many books as possible; this is your real work and your personal success. From you report of an hour long kirtana at Moscow Airport, I understand that the sankirtana movement has already begun there and now it will go on further.

I am also enclosing the names of 13 new disciples recommended by your. This is the result of our preaching propaganda, when our family members increase. Now be very careful to see to the growth and protection of the devotional creeper of these new devotees in your charge.

By now I hope you have received my telegram and letter sent to Hamburg advising you to go to Bhaktivedanta Manor for managing affairs there. There were so many letters and reports coming from Mukunda, Puranjana, Bhaja Hari, Prabhu Visnu and then contrary reports from Madhavananda and with Shayamasundar away affairs seem perilous. I hope you are able to settle things up in regard to the debt of the Bury St. temple and temple organization at the Manor. Now Shayamasundar has wired me that he will send tickets for myself and three secretaries for coming to London. I have asked him to send me tickets and I can leave India for London about May 1st. As I have already informed you I am going to Paris the second week of May and Bhagavan das is arranging for a tour of Geneva, Rome and Sweden. I may also visit cities in Germany if you will arrange for that. So when I arrive in London if Syamasundara sends tickets, or when I arrive in Paris, I shall discuss these matters further with you. Now we are in South India at Hyderabad and will visit the Balaji temple in Tirupati and then return to Bombay prepared to leave for London on May 1st.

Dear Niranjana,

Please accept my blessings. I beg to acknowledge receipt of your letter of 9th April from Scotland.

You are asking what should your preaching work be now that you are attending the university. So the first preaching work is that yourself should become an ideal devotee. Lord Caitanya said that one should first make himself perfect and then attempt to instruct others. There is no point in telling another man to stop smoking if you yourself are smoking cigarettes. Even though you are mixing with all kinds of the student class at the university, you must strictly refrain from the four prohibitive sinful activities, and as an initiated student you must not let a day pass when you do not chant at least 16 rounds of Hare Krsna Mantra. If you can follow just these things nicely that in itself will be strong preaching by behavior. You should also always wear Kunti beads around the neck and wear the marking of tilak. People will inquire from you and you can tell them about Krsna Consciousness and sell them books also.

You should also try to associate with the devotees in England and Scotland. If possible, visit the temple on Sundays and whenever you can, and always read my books. I will be coming to London in the first week of Maya and if you can come and see me at Bhaktivedanta Manor that will be very nice.

Jaipur, Rajasthan

Dear Mr. Saxena,

Please accept my greetings. I thank you for your letter of 16 April, 1974 addressed to our Bombay temple. For the present I am staying in Hyderabad and from here I will go to Tirupati to Balaji and by the 1st of May I will return to Bombay. I am very much pleased to know that you are trying to organize a home for retired gentlemen for fully devoting the rest of their lives for service to Lord Krsna.

My Krsna Consciousness movement is especially meant for this purpose. I wish that from the very beginning of life everyone should be enlightened with Krsna Consciousness, because the human life is very important for fulfilling this mission. The mission of human life is to understand the real constitutional position of the spirit soul and to know that everyone of us living entities is an eternal servant of Krsna.

So if your organization takes this mission seriously I shall help you to my best capacity. I am preaching this Krsna cult all over the world and have published many books based on the Bhagavad-gita and Upanisads and Srimad-Bhagavatam and other Vedic literatures. If your society becomes a life members of our society you can get all these books already published and for life membership you can inquire from my office at Hare Krsna Land, Gandhi Gram Road, Juhu, Bombay 54.

Our principle is to become gradually purified by avoiding the four principles of sinful life, namely 1. no illicit sex, 2. avoidance of all kinds of intoxication, 3. avoidance of all kinds of eating of meat fish or eggs, 4. no gambling. And if one chants Hare Krsna Maha Mantra with a vow of at least 25,000 names daily minimum that will assure him all spiritual advancement. If you have time you can chant 100,000 times daily. I wish that you society's members may take up this vow; it is not very difficult. On that sound background if you read Bhagavad gita As It Is then you'll make rapid progess in spiritual life. In this connection I may quote a verse from Bhakti Rasamrta Sindhu by Rupa Goswami

adau sraddha tatha sadhu-sango' tha bhajana kriya tato nartha nivrttih syat tato nistha rucis tatah athasaktis tato bhavas tatah premabhyudancati sadhakanam ayam premnah prahur-bhave bhavet kramah

THIS is the process. Thank you for your letter, and I am always at your service.

Vrindaban

Dear Gurudasa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 21, 1974, and I have examined the contents.

Regarding you report on construction progress I am glad to hear the building is roofed, however what about the backside residential quarters? Please give me up to date information on all phases on the construction.

As for the purchase of a car for Vrindaban, we shall first finish the construction and then we can think of the car.

I have received a letter from Tejyas on the same day as yours. I am sending him the checks he has requested for construction, but he has requested one check for "Lalita Prasad", for Rupee 3,000 which you say is a down payment for four sets of clothes for the deity. But we cannot pay for these dresses. It was already agreed that you and Yamuna would collect separately for the deities, not that it would come out of the construction fund, but now you and Tejyas are requesting it come out of construction. Besides that, why go to the tailor? Lalita Prasad charges extraordinarily. We don't want to go to them. Whatever our devotees can make, that is all right. Have you already contracted from them? This check cannot be issued neither is it our plan to pay from construction for the deities. Where is the money you collected for this purpose?

When you next meet Dr. Kapoor offer him my respectful obeisances. I am sure Viswambar Goswami is educated, and advanced in judgement and I am pleased he is not disturbed. But Dr. Kapoor can expose Purusottam goswami about his deal with the late Puri Goswami of the Gaudiya Math. If the mystery of his acquiring 50,000 rupees of books from Puri is exposed then his so called leadership will come to an end. He knows better than I and you can ask him about Purusottam Goswami's acquiring books from Puri-which is a mystery not yet disclosed, but every Gaudiya mission man knows the incident.

Your idea to have Hari Goswami conduct a deity worship class starting July 1st is a good, welcome idea. One defect in Hari Goswami is that although he wants to cooperate he wants to keep himself a little aloof as a goswami. I wish that he should mix with us with open mind, without reservation. Sometimes he hesitates to accept prasadam from us and he likes to cook for himself. If he desires to cook that means he keeps aloof. If he kindly teaches our men how to cook and worship the deity and he also takes prasadam along with us it will be a great achievement. Of course it depends on his discretion, but if he keeps aloof from us that is not very much desirable. As least he should come forward on the sastric injunction, arcya visnau siladhir gurusu naramatir vaisnave jati-buddhir. I do not think there is any difference in the method of deity worship he is teaching but you can also consult me.

You ask me how to recruit strong devotees to come there. You have to prepare strong devotees, not import them. You yourself become strong devotees and teach others by your example. Importation is not a good plan; everyone should be strong by behavior and action.

Your ever well-wisher, A.C. Bhaktivedanta Swami

Dear Tejyas,

Please accept my blessings. I beg to acknowledge receipt of your letters of April 11th, and April 22, 1974 and I have examined the contents.

I am enclosing the list of checks requested by you by Registered post except I am not sending one check for Rs 3,000 for deity clothes to be paid to the tailor Lalita Prasad of Vrindaban. Deity paraphernalia is supposed to be collected separately by Gurudasa and Yamuna, not come out of the construction fund as you have requested. Besides, I have advised Gurudasa not to pay any tailor but to make clothes by our own devotees for the deities.

According to my check book, after writing the last check no. 365504 for Rs 17,600.00 there is a balance of only Rs 18,745.81. But you are indicating a balance of Rs 100,313.64. Where is the difference? Send me a complete statement of account. You must have received a further Rs 50,000.00 by now from Bombay. Anyway, send me a statement of account so I can tally with my check book. Somehow I find a balance of only Rs 18,745.81.

As for the needs for construction over the next three months, one lac has been transferred to Delhi to the Vrindaban Temple Construction Fund and one lac is deposited in the Trust Fund; that makes two lacs. Plus, Birla will contribute Rs 50,000 per month. I am advising the Vrindaban Punjab National Bank to transfer to Delhi Vrindaban Temple Construction Fund a total of three lacs, see the enclosed letter to the bank. So I think this will solve your immediate construction needs for some time.

Dear Mahadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 17, and I have noted the contents.

Syamasundara has invited me to go to London and if he sends tickets as promised then I am going by the first week of May. I shall personally study the situation as mentioned by you and make my judgement personally. At that time I shall consult with Syamasundara. But why is your presence necessary? As a devotee you should be satisfied serving the Lord anywhere. Why are you so anxious to return to London? Therefore I shall request you not to start yourself in that way until I personally go there.

Dear Tejyas,

Please accept my blessings. Just as I was leaving for Tirupati from Hyderabad I received your telegram reading as follows: ”Require checks Rupees Twenty-one thousand seven hundred in favor Punjab National Bank for Steel and rupees Fifteen thousand to PNB Delhi for transfer to Vrindaban.” This kind of requesting for checks by telegram without proper explanation is whimsical. Especially to ask for a check to PNB Delhi to transfer to Vrindaban. The construction fund should only be used for construction items like cement and iron and the party’s name should be mentioned. Because you may need these checks urgently I am sending them enclosed here, but please send a letter giving a proper account.

My Dear Gopala Krishna,

Please accept my blessings. I beg to acknowledge your letter of April 15, 1974 and I have noted the contents.

Regarding the $1,200 you have saved for contribution. You may send it to the Head Office of the Punjab National Bank, Parliamentary St., New Delhi, advising them to immediately transfer the exchange in rupees to their Vrindaban branch, in the name of the ISKCON Mayapur-Vrindaban Trust Account number 668 current account. I will personally see that it is spent in the best way.

I am asking Pradyumna to send you a list of Vaisnava functions which you can give to the Indians who are inquiring about it at the New York temple. Other than the bona fide Vaisnava functions we cannot divert our devotees’ attention to such participation in so called religious functions. This has spoiled the Hindu religion into a hodge podge pseudo religion. For advancement in Krsna Consciousness we should simply concentrate on Krsna; therefore we can help them but the function has to be in connection with Krsna.

There is no question of a devotee becoming a sudra if he does certain work. No, a devotee is never a sudra. He is transcendental. Because their activity is done in transcendental loving service unto the Lord, it is all on the transcendental plane, brahma bhuyaya kalpate [Bg. 14.26]. You should not quit your present job, it is good service to Krsna. Although you may be working hard, you are always working for Krsna; so do not be confused about your position and never forget Krsna in any circumstances.

Your father came to see me recently in Bombay. He talked with me for hours and took prasadam and enjoyed. He looks strong and healthy and I think he is now cured. Henceforward you can send all contribution to the above trust fund.

I know you are doing your work for Krishna, so continue it, and send me information on how you are doing.

Dear Pusta Krsna Maharaja,

Please accept my blessings. I beg to acknowledge your letter of April 21, 1974 and I have noted the contents.

Yes, I think the advise given by Brahmananda Maharaja is sound, namely not to worry about maintaining a permanent center in South Africa but travelling with sankirtana there for distributing books and preaching, which you say is a good field there. We do not have so many men; it requires at least five men to maintain a center, so I approve of your plan to close the center and travel in South Africa.

As for the deities of Gaura-Nitai, yes you may take them on travelling sankirtana and worship them. Please keep me informed of your activities.

Dear Balavanta,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 18, 1974.

As for political speaking, first of all, don't go so much into the details of the affairs. Our message is that people should elect pure God Conscious leaders, that is our main statement. We cannot go into details. As a side touch you can speak on inflation.

Yes inflation is due to paper currency. As for land ownership, in the Vedic civilization the land was given to the people for cultivation not for ownership, and a tax was collected which was 25% of the person's income. The land belonged to the state and the man would cultivate it and pay 25% to the state. If he has no income then he doesn't have to pay. If he doesn't pay tax he may be disowned of the land. One cannot get land from the government unless he agrees to produce something and if everyone produces food then there is no scarcity. At least he has his own food produced by himself. Now people are educated as sudras. They are going to work to produce what is not urgently needed by society.

The actual social structure should be that the 1st class intelligent class, the brahmanas should be for studying and educating people for God Consciousness. The are the gurus of all other classes. They second class, the ksatriyas give protection from dangers and they can distribute the land. The third class Vaisyas are for producing. So after the first, second and third class, the remaining should help the upper three classes, then everyone will be employed.

As for speaking this knowledge effectively, that requires a little experience. The more you are experienced then you will be able to give examples.

Your work in America with the God We Trust Party is very inspiring to me. If anywhere they will take seriously the principles of Bhagavad gita As It Is, that will be America. We are getting good response and being taken seriously as I have seen in the reports from Amarendra there is even prospect that we may capture some post. I have written a letter to Rupanuga Maharaja and you may get information from him on the importance of our men themselves following the brahminical regulative principles, least in the midst of political work you forget the aim of life which is to remember Krsna. So go on as you are doing enthusiastically and give me information.

Washington D.C.

My dear Rupanuga Maharaja,

Please accept my blessings.

I beg to acknowledge receipt of your letter of April 17, from Washington D.C. and I have very carefully noted the contents.

Regarding Mayapur, as you have begun this program should be regularly followed once a year: meet in Mayapur and chalk out activities for the year. Then, next year meet and see how far things are being done and if necessary make changes for responsible GBC and presidents etc. The meeting is very valuable and must be carried out regularly every year. But one thing is that at Mayapur last time most of the time was spent discussing but no program was made firm for the year. For example, our Tamala Krsna Goswami never proposed to go to the USA at the meeting but now he has decided to go back to the U.S.A. Of course you can go back, but if the matter is discussed at the meeting, then a GBC vote could be taken and they could have selected a replacement. Now this replacement I have to bother. It is not difficult for me, but why wasn't their discussion of the meeting. Now Karandhara has written asking to come back and I have called him to come to Bombay and if possible he can be engaged as GBC for India.

You are right about Sridhara Maharaja's genuineness. But in my opinion he is the best of the lot. He is my old friend, at least he executes the regulative principles of devotional service. I do not wish to discuss about activities of my Godbrothers but it is a fact they have no life for preaching work. All are satisfied with a place for residence in the name of a temple, they engage disciples to get foodstuff by transcendental devices and eat and sleep. They have no idea or brain how to broadcast the cult of Sri Caitanya Mahaprabhu. My Guru Maharaja used to lament many times for this reason and he thought if one man at least had understood the principle of preaching then his mission would achieve success. In the latter days of my Guru Maharaja he was very disgusted. Actually, he left this world earlier, otherwise he would have continued to live for more years. Still he requested his disciples to form a strong Governing body for preaching the cult of Caitanya Mahaprabhu. He never recommended anyone to be acarya of the Gaudiya Math. But Sridhara Maharaja is responsible for disobeying this order of Guru Maharaja, and he and others who are already dead unnecessarily thought that there must be one acarya. If Guru Maharaja could have seen someone who was qualified at that time to be acarya he would have mentioned. Because on the night before he passed away he talked of so many things, but never mentioned an acarya. His idea was acarya was not to be nominated amongst the governing body. He said openly you make a GBC and conduct the mission. So his idea was amongst the members of GBC who would come out successful and self effulgent acarya would be automatically selected. So Sridhara Maharaja and his two associate gentlemen unauthorizedly selected one acarya and later it proved a failure. The result is now everyone is claiming to be acarya even though they may be kanistha adhikari with no ability to preach. In some of the camps the acarya is being changed three times a year. Therefore we may not commit the same mistake in our ISKCON camp. Actually amongst my Godbrothers no one is qualified to become acarya. So it is better not to mix with my Godbrothers very intimately because instead of inspiring our students and disciples they may sometimes pollute them. This attempt was made previously by them, especially Madhava Maharaja and Tirtha Maharaja and Bon Maharaja but somehow or other I saved the situation. This is going on. We shall be very careful about them and not mix with them. This is my instruction to you all. They cannot help us in our movement, but they are very competent to harm our natural progress. So we must be very careful about them.

Our students who are making this political program must be fixed in one point that human society unless divided into the four classes and divisions is animal society. Among the animals there is no intelligence for self realization or how to make life successful. In human life intelligence is better than animals therefore they should know what is the aim of life and to educate human society there is the whole Vedic literature, of which the Bhagavad gita is the quintessence. The Supreme Personality of Godhead orders that there must be four division in human society, a 1st, 2nd, 3rd, 4th and 5th class, like that, and the 1st must be ideal. If the whole society is full of rogues, thieves, drunkards, cheaters and demons, where is there question of decent government. There must be division so the lower class men may aspire to be second class men. So far we are concerned we are trying to train first class men. How much great responsibility we have to follow regulative principles, chant the beads, live with personal character etc. Regulative principles means to especially execute devotional service in terms of the revealed scriptures under the direction of the spiritual master. By fulfilling the regulative principles you come to the platform of spontaneous love for Krsna. Spontaneous love for Krsna is there already but is covered by the influence of Maya. The regulative principles are a device how to overcome the influence of maya and come to the platform of spontaneous love of Krsna. If we want to exist as first class men in society all our students must be induced to following the regulative principles. One shouldn't think artificially he has come to the spontaneous platform. That is sahajiyaism.

The GBC must be vigilant by following the regulative principles and teach by ideal character the presidents of the centers, and the presidents by their ideal character must teach the others then automatically all members of the whole institution will be ideal to the human society. Then we can dictate to administrators or sometimes take hold of the administration. In the absence of competent leaders we may take the post. But we must be very careful in the flow of the political movement we may not forget our ideal life. For example, Parasaram was a Brahmin but when he found the ksatriyas were mismanaging he killed them twenty one times and some of them fled to European countries. This is the history. So far we are concerned we shall keep ourselves in ideal brahminical position and if need be if no ksatriya or Vaisya is here we can take up their work as emergency. Our business is to create ideal ksatriyas and vaisyas but beyond that our real business is to keep ourselves as ideal Brahmins. If we are not ideal we cannot create others as ideal. Training is required for the 1st, 2nd and 3rd classes of social constitution. Persons who are not fit for being advanced by training are sudras or less than that. At the present moment in the world state, there are sudras and less than that. There are no ideal brahmanas or ksatriyas. But these four divisions are imperative. So our business is to keep fit as brahmanas and to train others to be ideal ksatriyas and vaisyas for advancing the whole society. As Krsna says in the Srimad-Bhagavatam:

Tamala Krsna Goswami is going to Los Angeles and I shall give him instruction to join Madhudvisa Swami, Bali Mardan and Jayatirtha and reform the deficiencies. As soon as there is a little deficiency we must repair it or it will create a big hole and the ship will drown. So I have said keep fit. I saw this Vrindaban Candra and Prajapati as a little sentimental without thoroughly understanding. Without following the regulative principles advancement is doubtful, and one may fall at any moment.

As for drugs, not just one party, but everyone was involved. Our process is to reform. Everyone is under the clutches of maya. If we follow the regulative principles we can get out and come to spontaneous love. A diseased man is always under the clutches of disease. But if he follows the prescribed orders given by the __ he can be cured. Now, how to reform? If we ask him to go away the whole society will be finished. In the hospital many patients are there and the attempt is made to cure them, not to tell them to go away or to kill them. They try their best to cure them. If they tell them to get out of the hospital or if they kill them, that is easy.

Initiation should be given as a future hope, but we should be careful about the second initiation. As recommended by the president or GBC they should only do so when they are quite confident of a man. Otherwise, he should not be recommended. If you follow this principle it will be successful. Every day I am getting request for second initiation, but I do not know. The responsibility goes to the presidents who pick them. Unless they are thoroughly convinced second initiation should not be given. In the beginning we may be a little lenient. But if someone falls down after being initiated he should not be credited with second initiation.

Dear Ajita,

Please accept my blessings. I beg to acknowledge receipt of your letter of 9 April.

The devotees recommended by you for initiation are accepted by me as my disciples, and their new spiritual names are as follows:

Arne Ekstrand-Aristahe das Lena Nilsson-Sriharini dasi Inga Scavenius-Iccha dasi

Be sure to instruct them on chanting at least 16 rounds daily and avoiding the four offenses-as that is the life of Krishna Consciousness. We get devotees after much difficulty, now you have to keep them nicely and see they are always engaged in serving Krsna.

I want to come to Stockholm on my upcoming European tour. Bhagavan das has been arranging a number of festivals for me to speak at as well as meeting important people in Rome, Paris and Geneva. Please get in touch with him and if possible schedule a meeting with some important men of your country who may be interested in understanding the science of Krsna. Of course hardly anyone is interest in achieving his real self interest, love of Krsna, but our presentation is so scientific that learned persons are appreciating it all over the world. So if some of the leading citizens of Stockholm want to meet with me, or if you can arrange a festival with Bhagavan das and Hamsaduta then I can include it on my tour. Please fix up a time when I can come conveniently as after visiting Paris I shall be free to come to Germany and Stockholm also if you like. You can write me care of our Vrindaban temple where I am going in a few days.

Dear Amarendra,

Please accept my blessings. I beg to acknowledge receipt of your recent undated letter along with enclosed new paper clippings and I thank you very much.

I have studied your statements in the papers and you have repeated my ideas and at the same time sounded like a politician, and this combination is very effective. You are certainly the right man for this preaching work. They have taken you as a serious candidate and according to your statement, you feel you may even win. So I am very much encouraged by this political field in America. The people there are very intelligent and they take your statements seriously. I do not need to tell you to push on with this work in serious concentration because I see you are already very determined. In this connection you may see a letter I have just sent yesterday to Rupanuga Goswami in which I have described the need for our political devotees to always stay firmly fixed up in the regulative principles so they will be actually brahmanas. Preach on the basis of the division of the society into four orders, as without this the society is useless and people cannot be happy or even have the necessities of life. I am keeping your newsclippings in a special scrap book and reading them to my important guests in India to show them the potential of this movement. Unfortunately in India they do no take it very seriously; it is up to you in America to actually accomplish something in terms of introducing the principles of Bhagavad gita As It Is into government.

Dear Bhurijana,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 21st and I thank you very much.

It is very good news for me that you are stressing regulative temple life in your new quarters in Hong Kong. The regulative principles are designed to take us gradually to the platform of spontaneous love of Krsna, which is the perfection of human life. Those who think they have already attained such perfection and give up the regulative principles are called sahajiya, or those who take things cheaply and simply imitate. This early rising, holding classes, going out regularly for sankirtana, worshiping the deity are the very substance of devotional life. You will certainly by your sincere devotional example attract more and more sincere Chinese boys and girls to Krsna Consciousness. Even if, due to family ties, they cannot move in the temple, try to engage them as much as possible in translating work, sankirtana, reading, and at least coming to the temple to take prasadam.

I understand you have a new address but you have not described the actual situation. Try to send pictures if you can. How much is the rent? What kind of temple construction are you referring to?

Please give my thanks to your good wife Jagatarini for working with the childrens' classes. I am very very proud of you both as you have given up everything and gone to a far away part of the world just on my order to carry out the will of Sri Caitanya Mahaprabhu, that the chanting of the Holy Name be heard in every town and village.

Of course I will be very eager to see the new Chinese publication. Please go on with it, and send me something as soon as it is published.

Dear Govinda dasi,

Please accept my blessings. I am in receipt of your very long letter and descriptive behavior of Gaurasundara. I have received also a telegram from Sudama das Goswami that the land is already in possession by Sudama on behalf of the Society.

On the whole, I see Gaurasundara as a victim of a woman. Anyone who becomes a victim of woman, his falldown is inevitable. In our society the girls and boys mix, intermingle together and this is practically impossible to stop because you western people are accustomed to the habit. Sometimes my Godbrothers criticize me for intermingling of girls and boys. But there is no way out of it-you girls and boys will mix even if I say so they cannot avoid it. They sit separately in the temple and then outside mix again. So this was not possible from the beginning. Therefore I get the boys and girls married. But nature is so strong that in spite of being married they are attracted to the opposite sex.

These things can be avoided when one is very much advanced in Krsna Consciousness. Krsna's Name is Madan Mohan, the conqueror of lusty desires, or the cupid. Unless one is very much attracted with Krsna one cannot give up or avoid attraction of Cupid. Those who are fixed in chanting Hare Krsna Mantra and always reading the books and following the regulative principles they can be saved. Otherwise, there is no question of being saved from the clutches of Maya. Daivi hy esa gunamayi mama maya duratyaya [Bg. 7.14].

To you my advice is, because you are very intelligent and educated girl, you forget your relationship with Gaurasundara. Now you become mixed up in Krsna business and live like a chaste Hindu widow woman. There are many ideal young Hindu widows who do not dress nicely at all, do not comb the hair, and who take bath three times daily in the Ganges, wear white sari and are engaged 24 hours a day in chanting Hare Krsna Mantra. The vivid example is Visnupriya devi, Lord Caitanya's wife. When Lord Caitanya left home accepting the renounced order of life, sannyasa, at that time Visnupriya was on the summit of youth, 16 years old, but when her husband became sannyasi she also became greater than sannyasa. She was chanting her rounds on the beads and after one round she was collecting one grain of rice. In this way all day and night, as many rounds as she could finish, that many grains she would cook and eat. Just she how much austerity she underwent! Visnupriya is the incarnation of the Goddess of Fortune but to teach us how much austerity and penance she underwent, I think you should follow the footsteps of Srimati Visnupriya. You have good writing capacity, and good artistic ability. Now devote your life to chanting Hare Krsna and if possible write articles on Krsna Consciousness, as many as possible with your own paintings and send it for publication to BTG. Forget this nonsense Gaurasundara. These are all material relationships and have nothing to do with spiritual advancement.

Engage your life fully for Krsna Consciousness. Only chant Hare Krsna Mantra day and night, read books and expressing the philosophy in your own words write articles for publishing in BTG. Don't bother anymore with rascals like Gaurasundara or anyone else. Take Krsna as your Supreme Protector and Krsna will help you in all respects. Practice this prescription and you will be happy eternally.

My dear Jayatirtha,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 16, 1974 and have noted the contents.

Concerning how to induce grhasthas to take part in Krsna Consciousness activities rather than in activities of Maya it is very simple: they should attend the temple program rigidly. Morning arati, classes, sankirtana. We have given houses with the purpose to execute devotional service exactly like the Brahmacaris and sannyasis. Otherwise, why purchase houses near the temple? The whole idea is to live near the temple and take advantage of the temple program.

Regarding the apartments, how is the rent being collected and where is it being deposited?

Locana das may deposit his contributions with the Mayapur Vrindaban fund for going to the Krsna Balarama temple. Kindly advise the Union Bank to send the monthly interest to ISKCON Mayapur Vrindaban Trust Fund. I still don't know how many installments they have sent or how quickly they are getting the money to the Punjab National Bank in Vrindaban.

As for grhastha worshiping Gaura Nitai deities that is only for those who live far away from the temple and cannot attend. Otherwise such worship is redundant: there is already deity worship going on in the temple and they should attend the aratriks, not install their own deities. The householding community in Los Angeles or any of our temples is not meant to be independent from the temple program.

The impression of Lord Caitanya's feet which you brought from India may be kept in a picture, not that it is worshiped as a deity. Keep it as a picture. I will look forward to your regular reports. I know you have multifarious and complicated affairs to manage in our Los Angeles Center, and I know you are doing your best there. Just pray to Krsna to give you intelligence how to manage it all. The most important thing is that we must be ideal Krsna Conscious persons, and then we can attract others. This means chanting, reading my books, going on sankirtana, following the regulative principles and worshiping the deity. Whoever take part in these things, no matter what he has done of sinful activities before, will automatically advance in spiritual realization. This is the simple process and if we follow it we will become ideal. Otherwise, they will become victims of women and wealth.

My Dear Mahatma das,

Please accept my blessing. I beg to acknowledge receipt of your letter of April 20, 1974 and I have noted the contents.

Regarding your wanting to give up household life for vanaprastha you may do it and spend your time positively by going on traveling sankirtana, provided it is recommended by the temple president and there is facility for taking such a party. Taking of sannyasa order is in one sense only a formality. I was preaching and writing for eight or nine years as Vanaprastha and then in 1959 I took sannyasa. So if after a few years as Vanaprastha your behavior is ideal sannyasa can be considered. If you actually are serious about taking out a travelling party your main activity should be to distribute books. By this most powerful preaching we are becoming very influential in your country and people are seriously reading the books and considering the importance of Krsna Consciousness. It does not require that you be sannyasi to take a travelling sankirtana party, nor do you have to be vanaprastha for that matter. There are travelling parties led by all orders of life going out in your country. Lord Caitanya taught that we do not very much care whether one is sannyasa, grhastha or whatever, so long he is fully serving Krsna. So do not act independently, but if there is facility, you can stay out and distribute books and travel with the sankirtana party, as you already have experience.

My Dear Markandeya Rsi,

Please accept my blessings. I beg to acknowledge receipt of your letter of April 16, 1974.

You are of course welcome to come to India, but if you are not living in a temple now in the association of devotees, how can you expect to live that way in a foreign country like India? My point is, just coming to India may not automatically be the solution to your problems. You say the U.S. is too demonic, but unless one takes shelter at the lotus feet of Krsna within the society of devotees, he will be inconvenienced wherever he goes. So you have to consider seriously within yourself whether you are ready to live with the devotees and follow the regulative principles and schedule of temple life. To practice austerity requires that you understand my books or else it is like army rules and regulations. So whether you have understood the philosophy thoroughly enough to live with the devotees? If you are prepared to live as a devotee then why not first consult with the temple leaders in Brooklyn and get their good advice for your situation, whether it is better for you to come to India.

You have asked what is the origin of the black race. This is not an important question. Why should you be curious about the temporary body. If I am very interested in knowing about my clothing that I am wearing only temporarily it is not a very important thing. We have had many bodies which we change like sets of clothes; to be very absorbed in the present body one has, whether it is black or white or yellow is not the sign of a wise person or Krsna Conscious devotee. As to whether the personality of Kali was black, (African) may not have been so. After all, Krsna is black also, although His body, is different, He is sat cit ananda. So our inquiries should be on the point of Krsna not in references to the so called race or religion or nationality of this temporary miserable body.

New Delhi

My dear Acarya Prabhaker,

Please accept my greetings. I am due receipt of your letter dated 24/4/74 and I have noted the contents carefully.

Sometimes in the year 1950 or 51 I first met you in Jhansi and since then we were very intimately connected and you took Hare Nama from me and I also expected in the future both of us would preach the Krsna Consciousness movement all over the world. So practically more than 20 years have passed and you are working in a different field of activities. I am also working in a different field of activities. But by Krsna's grace again we are trying to come to one platform. Your statement that present educational system has produced no good effect is confirmed by the sastra:

Yasyasti bhaktir bhagavaty akincana sarvair gunais tatra sanaste surah harav abhaktasya kuto mahad-guna mano-rathenasati dhavato bahih [SB 5.18.12]

Human life is especially meant for spiritual education or Krsna Conscious education. For eating, sleeping, sex life and defense it is not very much necessary for the human being to receive education, because naturally every living being has natural education for these demands of the body. Therefore for the human being spiritual education is essential: atatho brahmajijnasa. You are a competent scholar and very intelligent personality so if you understand this philosophy of life then immediately I shall be able to cooperate with you.

Our Krsna Consciousness movement is specifically based on Bhagavad gita as it is. We accept Krsna, the Supreme Personality of Godhead with full opulences of wealth, power, potency, beauty, knowledge and renunciation. If we want perfect education then we must follow the principle of Bhagavad gita. Such education will help the whole human society. In all different fields of activity, social, political, religious, cultural, economic and so on. If you take up this principle then the educational department should be divided into four divisional departments for advancement of knowledge. There are many departmental institutions for giving education just like medical, engineering, legal, administrative etc. But there is no educational institution where real ideal Brahmanas are educated according to Srimad-Bhagavatam brahminical culture, or to educate a certain section as ideal, perfect persons is essential in human society. At the present moment all over the world, hardly you will find such ideal men on top of society. So this class of men is essentially required if we want to keep peace and harmony with one another. I am trying to do this work and now we have got a very nice place in Bombay. I invite you immediately to come and see the place and I am prepared to amalgamate or affiliate your institution with ours. I think when I was in Delhi I went to this place Kirti Nagar and stayed two or three days with you.

You are paying Rs 1,250 rent-that is not very much considering present circumstances. Please let me know the area of the place and under what terms you are in possession of the land. If possible, you can immediately go to my secretary at the following address: G 12 Ananda Niketan Extension, new Delhi 110023. My secretary's name is Tejyas das Adhikari.

We have a temple there and the quarter is very nice. But if some suitable arrangement is made we can take up your place at Kirti Nagar on the approval of my secretary there. So the best thing is you may come immediately at Bombay at the above address and probably I may go back to New Delhi along with you because I have to go to Vrindaban before I go to Europe. I am expected in Rome on the 23rd of May and then Geneva, Paris, Stockholm and London and then I will return to India. In Vrindaban I am constructing the big temple you have seen. I hope you will approve my scheme in Vrindaban.

On the whole, it is Krsna's grace that after more than 22 years you are still coming nearer for cooperation so please let me know when you are coming.

Yours affectionately, A.C. Bhaktivedanta Swami

Taipei, Taiwan

My dear Trivikrama Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 24, 1974, and I have noted the contents.

It is very good news that you have found Taiwan such a favorable place, with the people and the government inclined towards religious men. Of course only Krsna Consciousness can provide the real understanding of religion beyond sectarian dogmas, and it is the only movement which can really bring benediction in the form of Love of God to everyone, without difficulty. So take it as Krsna's mercy that the atmosphere is somehow favorable and try to recruit Chinese boys to worship of Lord Krsna.

If you require $5,000.00 capital for registration then we shall get it. You should write to Bali Mardan in this connection, but if it is necessary we must have the society registered there, then we must do it.

I am very concerned, however, that in the midst of such good reports, the devotees there are quarreling, namely Sri Ballavh and Dvija Hari. Sri Ballavh was particularly given to your charge for his reformation, and he promised me in Calcutta that he would abide by your instructions, so this report is not very good.

The following portion of this letter is therefore addressed to them. My Dear Sri Ballavh and Dvija Hari,

You have dedicated your life for Krsna and therefore you should be ideal. We are introducing Krsna Consciousness movement for the harmony and good will of humanity. But if you yourselves are suffering from the very ills we are trying to remove, how can the people be influenced favorably? Stop this fighting, tolerate, chant and read our books. Use the intelligence and do some service for Krsna. My request to you is to not fight anymore.

If we establish a nice center there I shall be glad to come and live with you for some time for preaching. Taiwan is near India. If you make proper arrangements I can go.

Your ever well-wisher, A.C. Bhaktivedanta Swami

My dear ISKCON artists,

Please accept my blessings. I am in due receipt of your letter of April 19, 1974 and have noted the contents. I will answer the points as best as I can.

1. Fresh rice and paddy grains are simply some grains. Still in this country of sandalwood pulp and rice grains are used to put on the forehead in different blessings.
2. Saci should wear a nice sari and nice ornaments, wearing vermillion on the part of her hair. She is dressed not like a queen but a well to do householder.
3. As a baby, boy and young man Lord Caitanya should be dressed opulently. Ornaments are essential.
4. Show the land opulent for the appearance of Maharaja Prthu.
5. & 6. These questions require researching the Bhagavatam. I have asked Pradyumna to look them up for you.
6. No Prthu does not have effulgence. He was a saktyavesa avatara, a living entity empowered.
7. Dhruva should be just as he is shown in your sketch.
8. The sketch is all right. An orange-red dhoti is all right.
9. The airplanes are all right as drawn.
10. The demigods planes are almost equal to the Vaikuntha planes.
11. Yes, the inhabitants of a particular Vaikuntha planet have the same arrangement of symbols in the hands. Nanda and Sunanda should hold as follows: lower right: conch, upper right: disc, upper left: club, lower left: flower.
12. Pracetas should be not clean shaven, but with beards as mendicants.

Siva is different colors. Not always yellow. There are eleven kinds of Rudras.

1. No, Siva should not be wearing a garland of skulls. Yes, he can be wearing a short dhoti. 15. They should all be standing around the fire at the sacrificial altar. Do not show the horse there. 16. Yes, although you may not know what Maharaja Prthu or Sita look like, they are present in your paintings due to your consciousness.

I am always pleased and looking forward to seeing more beautiful pictures in our books. In India we make life members simply from the high quality and appearance of our books with illustrations. Our society is unrivalled in this respect and this is your credit who are working so selflessly to illustrate my books. Thank you very much.

My dear Mukunda,

Please accept my blessings. I was in Hyderabad and on my return to Bombay I received your letter of April 15, 1974.

I am glad to know that on the arrival of Hamsaduta things are improved very nicely and problems are being solved gradually. It is understood that Hamsaduta delivered a letter through Manasvis' wife and she has re-directed the letter to Hyderabad but I have not received the letter. In the meantime, I have received the following telegrams from Syamasundara..

The first dated April 13, reads as follows: ”My most humble obeisances departed India today for America all signs favorable for good success kindly inform care Brooklyn Temple how where you wish funds repaid also how many where to send your tickets for London plus expected arrival date. Suggest early May for English fragrant Springtime' June like flavored gold, July for the most spectacular Rathayatra ever, celebrated August meet her majesty etc., hundreds of the world's best British men anxiously awaiting to accommodate and serve you in unrivalled fashion with opulence respect public acclaim befitting Visvacarya. Especially George preparing some wonderful surprises like your classes with Prince Charles. Hrsikesananda also safely in London, your eternal servant Syamasundara das.”

The second, dated April 27 from New York:

”Obeisances New York deal closed for hundred hundred thousand dollars Hamsaduta sent England for politicking power grabbing without consulting me. Kindly order him to leave England or I shall never return there. Tickets forthcoming pending Hamsaduta's leaving, your servant, Syamasundara das.”

So the first telegram was replied by me and a copy of the letter is sent here. I have not replied to the second telegram. But according to the first telegram he was to repay the money, as he asked where he should deposit the money. But the second telegram showed he failed to acquire the money. Now he promises he will not return to London unless Hamsaduta goes away. How can I ask Hamsaduta to go away when he has improved the situation? From Puranjana's letter, Hamsaduta is ready to pay back the dues owed to the landlord at Bury Place. Under the circumstances, Hamsaduta must continue to act as GBC until Syamasundara settles up all monetary dues to the society and others.

The center has become cumbersome on account of mismanagement. Things must be settled before Shayamasundar can take charge again. These bills presented by different creditors on account of jewelry business must not be paid by ISKCON. Syamasundara was never authorized to do the business at the risk of the society's money. Everyone was expecting me to arrive there by the first week of May, but this was dependent on Syamasundara sending tickets. He has now refused to send tickets. This is not very happy news. Either he has no money to purchase them or he has withdrawn his promise. In both cases the dealing is not very happy.

I may be going to Rome by the 23rd of May and I will be in Europe in several places. Then I may go to London or may call a meeting in Paris and decide things for our future management. In the meantime, the letter which Hamsaduta handed to Manasvi's wife may be sent again by copy as the original is missing.

Madhavananda has written that his engagement working to make life members has been taken away because you are yourself now working at life membership. But why should his engagement be taken away? What is the difficulty if you both work at life membership?

My dear Pancaratna,

Please accept my blessings. I beg to acknowledge receipt of your letter and packet of information including prospectus for getting engagements in schools and colleges.

Your list of achievements by college course, Yoga club and programs in general is very impressive, particularly that you have a regular four credit college course at Fordham University wherein the students are required to read some of my books. The idea of employing an interested professor and making him the co-teacher seems to be a major break-through in our attempts to teach at the colleges. I am very happy about this. Now as you have described the process to me, make a newsletter and distribute this information to all the centers, so they can try to get the assistance of a college professor and gain accredited courses. The world is most sorely in need of education in Krsna Consciousness, but due to the ignorance of the age they are not interested in knowledge of the self. So if by labeling the bottle in some way more to attract them we are still able to teach Krsna Consciousness, let us do it. Krsna has given you good intelligence because of your sincerity; as he sees we are humble and sincere about propagating His message He will give us more and more opportunity.

Letter to: Trista Hubbarth

Bombay 3 May, 1975

Dear Trista Hubbarth,

Please accept my greetings. I beg to acknowledge receipt of your letter dated March 25th, which I have only received recently due to touring.

You have very thoughtfully asked me what do I think of the Self Realization yoga and meditation. We are not concerned with other religions or yogas in terms of competition or sectarian spirit. Actual spiritual knowledge is to take the authoritative statements from the scriptures and from the great acaryas, spiritual masters in disciplic succession. Other's opinions are not important. For example, in the Bhagavad gita, Lord Krsna gives His opinion, but He is accepted as the Supreme Personality of Godhead by all the great sages of the Vedic philosophy including Vyasadeva the compiler of all the scriptures, as well as Narada, Brahma, Siva and in the modern time, Ramanuja, Sankaracarya, Lord Caitanya, etc. They all confirm that Krsna is the supreme truth, the Personality of Godhead. Although this is plainly described throughout the Vedas, you will not find it in the teachings of the so called swamis and yogis who are teaching nowadays. Therefore you have intelligently discovered that in my Bhagavad-gita the approach is very different from what you have found elsewhere. That is because I am not trying to avoid Krsna or give some misinterpretation, but I have accepted the actual Bhagavad-gita, wherein Krsna says, Mattah parataram nanyat [Bg. 7.7], there is no higher than Me. Nowadays so called gurus are promising us that we ourselves can become equal to God or that God is impersonal, or that everyone is God, but nowhere is this stated in the Bhagavad-gita or any other Vedic literature, nor is it taught by any of the great spiritual masters above mentioned.

My point is that when we say "self realization" it does no means that one should realize that He is the Supreme. Real self realization means to understand that you are the eternal servant of the Supreme Personality of Godhead, and perfection is to develop love or bhakti, loving service in relationship with that Supreme Personality of Godhead. One who teaches other conclusion from that of the Bhagavad-gita and the succession of acaryas is certainly not a guru, and in fact according to Lord Krsna, he is a fool, (the word Krsna uses is mudha, ass, rascal). So we have to examine whether the person who is presenting himself as our guru is actually in knowledge of the science of Krsna or whether he is leading us away from Krsna, or leading us to hell in the name of yoga mysticism. In this connection, the chanting of Hare Krsna is very efficacious because it develops personal relationship with the Personality of Godhead and cleans the heart of sinful reactions. Please go on reading our literatures and pray to Krsna to give you the right direction from within how to approach a bona fide spiritual master for advancing in spiritual life.

Hong Kong
My Dear Bhurijana,

Please accept my blessings. I have received your letter of May 1st, 1974, and have carefully noted the contents.

It comes as a shock to me that you have stepped down from your duties as president of our Hong Kong center. Your move is not satisfactory to me, but what can I do? If you are persistent about your desire to leave you are free to act on your own. You are actually the experienced man for Hong Kong; you were constructing a temple according to our last letter, getting ready to publish Chinese publications, organizing the Chinese boys and conducting childrens' classes.

Everyone, of course, has his independence. That is the cause of our material life. Misusing that minute independence we are out of the spiritual world. If you want to go as husband and wife to see your parents that is not bad, but why avoid your responsibility which you have already taken? At least develop your assistant Devaprastha and when you see he is able to do nicely then you can change. I don't think a new man can manage as nicely as you were doing. I will also write to GBC of Hong Kong, Madhudvisa Maharaja, and learn if he plans to send a new man there.

As for your future plans, you write that you are not sure where you will go after arriving in New York, and it is not certain that you will live with devotees. How will you advance without association of devotees? I do not exactly follow your thinking, but for the time being you can go. But I think you can come back and work diligently in Hong Kong. In your absence Madhudvisa Maharaja can be informed.

Honolulu

My dear Bhavatarini,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 23, and I have noted the contents.

Your enthusiastic response to my instructions is very encouraging. Actually the disciple is supposed to find relief from all his problems just by carrying out the orders of the spiritual master. Just as Arjuna in the beginning was completely confused and lamenting, but after accepting Krsna and hearing from Him he said, "Now my illusion is over, and I am prepared to do whatever you say." If the guru is a representative of the Supreme Lord in disciplic succession and the student is sincere, only then he can get him out of the clutches of the material energy to become situated in spiritual happiness above all material desires, in Krsna Consciousness.

As you say you have on hand a check for $41,880.83, I request you deposit that in the Mayapur Vrindaban Trust Fund. The last time I was in Hawaii I established an account in this name in one Honolulu Bank. You will find a Savings Deposit slip enclosed. You can just fill in the exact amount and deposit it with the main branch of the Liberty Bank in Honolulu account 35785, in the name of Mayapur Vrindaban Trust Fund. As for the $150 you will be receiving each month for the next five years, I think that will be sufficient tuition for your two children at Gurukula, and that will oblige your debt to Gurukula. As for Sudama Maharaja, it is better that he write to me separately; I will send him money from here for his projects.

If you like to come to India you will be most welcome. The sites at Mayapur and Vrindaban are just for my American and European students who can come and get the benefit of these holy places. You seemed to have taken a new grasp on Krsna Consciousness when you say, "As for where to live, my only concern now is to live where I can best serve you." A pure devotee actually has no problems for himself; wherever he is he can read books like Krsna Books and chant Hare Krsna, get some prasadam and always think of Krsna. Prahlada Maharaja prayed like that: I have no problem for myself. The only concern of the devotees is that so many rascals are suffering in the concocted civilization of illusory sense enjoyment, how can they be saved? So our Krsna Consciousness movement is made for that saving the rascals. This donation you are making in all sincerity will also help us to push on and make some effect in bringing persons back to home, back to Godhead. I will be glad to hear from you, how you have disbursed the money and how you are settling up your personal situation.

Dear Madhudvisa Maharaja,

Please accept my blessings. Please find the enclosed copy of a letter I have sent to Bhurijan. He has written me that he has stepped down from his duties as president of Hong Kong and has given them to Devaprastha. I think Bhurijana was doing nicely preaching to the Chinese boys but he has written that he is uninspired and feeling incapable and wants to spend more time with his wife. This sudden turn of events is a surprise to me. Moreover he admits that the boy who is taking over, Devaprastha has been very unsteady in the past. So whether you want to send someone there who is more steady and will stay there and develop. There is definite potential there and it is a wealthy city. If you can enlighten me more on the subject of why Bhurijana is leaving I would appreciate it.

I heard you were still in Los Angeles. When will you be returning to Australia? Jaya tirtha has written inviting me to the Rathayatra in San Francisco on July 7. I will be in Europe until the end of June and I may go to the Ratha yatra in San Francisco on July 7. Jaya tirtha said the festival is so timed that I can also go to the Australia Rathayatra also. What is the date of your Rathayatra? I have written you several times on this point, whether you want me to attend Rathayatra in Australia. If you like I can leave San Francisco and fly to Australia via Hawaii. So let me hear from you on the above mentioned points.

And I still maintain the feeling hoping you will be a great help in the Krsna Consciousness Movement. The ideas given by you are provisionally accepted and it is possible for us to join together. Still, we need to meet to talk in detail.

I am leaving the country by the 23rd May and before leaving I may go to Vrindaban via New Delhi to see how the temple construction is going on. I am glad to know you met Tejyas which I requested you to do in my last letter. Anyway, if we meet in Delhi before I leave the country that will be nice. The Management Tirupati-Tirumala-Devasthanam Tirumala, Andra Pradesh

Dear Sirs;

I wish to express my heart-felt gratitude for the kind treatment given me and my disciples, members of the Hare Krishna Movement on our recent two day visit in Tirumala. The special excess we were given for darsana before Balaji is something we will always remember favorably, and for my American and European followers it was a rarely given privilege for which they are fully appreciative. We all left Tirupati feeling very much inspired by the darsana and by your excellent management, and we hope to return when we are able again.

If there is any land available, either for purchase or donation, we would be interested in constructing a cottage for the exclusive use of members of our society when they make pilgrimage to Tirupati. Please advise us on the availability of such land. Again thanking you for your excellent hospitality,

Yours faithfully, A.C. Bhaktivedanta Swami

Dear Jayatirtha,

Please accept my blessings. I have received your recent letters of April 16 and April 25 and have noted the contents.

You have also written in a letter to Satsvarupa that temple donations are being put toward the Indian BBT debt. Please, let me know in this connection what is the amount taken from donations and transferred to the BBT account for the book debt by India? Also I will request you that as much book debt amount as you receive from donations you should again dispatch that amount in new books to India. There is not sufficient stock of books here. Whatever variety of books are in stock send according to the amount paid against the debt.

I think you are aware Gargamuni Maharaja has formed a spiritual sky tours program and will be bringing about 70 life members on a world tour including of course the United States. I need to know from you whether the BBT has sufficient capital in the bank to cover the amount of $130,000.00. This amount will be required to cover their expenditure.

Regarding the grhasthas houses, we have given these houses with the purpose that they should execute devotional service exactly like the Brahmacaris and sannyasis. Otherwise, why purchase houses near the temple? The whole idea is to live near the temple and take advantage of the temple program, which means morning arati, classes, sankirtana and all services connected with the temple. They are also members of the temple.

Locana das may deposit his contributions with the Mayapur Vrindaban fund which will also go for the Krsna Balarama temple as is his desire. I am still not aware how fast the remittance is going from the Union Bank to the Punjab National Bank in Vrindaban. For example I have not received a report on when the interest for April, due payable April 10, actually reached Vrindaban. I have written the Punjab National Bank about this and am awaiting their report.

You have asked about Gaura Nitai deity worship by the householders in Los Angeles. That is for those who live far away from the temple and cannot attend. Otherwise, such worship is redundant; there is already deity worship going on in the temple and they should attend the aratis, not install their own deities. The impression of Lord Caitanya's feet which you have there may be kept in a picture, not that it is worshiped as a deity. Keep it as a picture.

Regarding your invitation that I attend the Rathayatra festival in San Francisco, on July 7th, it is possible that I may attend depending on when I finish my European tour. I am due to arrive in Rome on May 23, then after a week Geneva, the Paris and possible Stockholm, Germany and England. If there is time I can fly directly from Europe to Los Angeles and go to the festival, then as you suggest, go to Australia Rathayatra via Hawaii. This is known as jet-age parivrajakacarya. For the present I will be staying in Bombay for about two weeks, then to Delhi and Vrindaban before leaving for Rome.

Your ever well-wisher, A.C. Bhaktivedanta Swami

P.S. I want the monthly interest from the Union Bank to go to account 668 at the Punjab National Bank, Vrindaban, called ”ISKCON Mayapur-Vrindaban Trust Fund”. At present they are sending the interest to the account number 6112. ”A.C. Bhaktivedanta Swami”. So please go to the Union Bank and find out how this change may be brought about and and let me know.

Also I am enclosing a check for $21.00 (twenty one dollars) which I have received here. I want you to deposit this for me in the Union Bank, ISKCON MVT, and the savings deposit slip is enclosed.

My dear Govinda Das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 30, 1974 and have observed the contents.

The enclosed newspaper story, ”Krishna followers freed from police harassment,” is just further testimony of the great victory made by Caitanya Mahaprabhu in Chicago. I understand that the Chicago area is the most lucrative place in the world for distribution of our books and that you have done very careful work in getting all permission. Therefore this rumor that within a few years there will be police repression and people will have no more money to buy books and sankirtana will stop is completely bogus. Whoever told you that is a rascal, saying it in my name. I never said that. Rather sankirtana movement will expand, continuing so long as we are sincere. When I came in the beginning I began to expand it and it is now going on and there is no question of it stopping. Therefore go on with your life time plans making secure in distributing of books. There is no cessation. This movement is eternal.

It is very wonderful news that you have permission to hold Rathayatra downtown on the main street on Saturday, July 6 and tens of thousands of people will view the cart. I have been invited to attend the Rathayatra in San Francisco which is July 8. So I am hoping also I will stop in Chicago on my way to San Francisco and observe the festival with you. I will inform you further regarding sending us plane tickets, when our European tour is more fixed up. We can discuss further your plans for securing a new building when I come there.

My dear Sudama Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 25, 1974 and have noted the contents.

It is good news that you have so sufficiently taken possession of the 40 acres of land there in our society name, under control of Gaurasundara. Now you require $5000.00 to cover expansion for cows, farming and unpaid debts of Gaurasundara. As for the devotee, Bhavatarini Devi, who is there, she has asked me what to do with her large inheritance of $41,000.00. I have asked her to deposit it in our Mayapur-Vrndavana Trust Fund which we have at the Liberty Bank in Honolulu. Now you can withdrawal $5000.00 required by you from this balance by the Mayapur-Vrndavana Trust at the Liberty Bank. The account number is 35785.* I am enclosing one withdrawal slip authorizing you to make the above withdrawal.

Please keep consulting with Bali Mardan on financial matters. It is possible that I may stop at Honolulu sometime in July on my way to Rathayatra Festival, Australia. I will keep you informed. Acknowledge receipt.

My Dear Visala and Visalaini,

Please accept my blessings. Thank you very much for your gift of Rs 500/. So you are both exemplary Vaisnavas and I want that you, husband and wife, preach together. So you are part of our Vrindaban center. When you can return there spend your time always studying my books, chanting and preaching to the people of Vrindaban, with real understanding of this science of Krishna consciousness.

Mayapur

My dear Jayapataka and Bhavananda Maharajas,

Please accept my blessings. I beg to acknowledge receipt of your letter dated 28, April, 1974.

You write that you are very careful utilizing funds that are sent for that particular purpose. In all matters of management this careful attitude must be taken. I have been requesting my disciples for sometime to release me from the management aspects of ISKCON so I can be free to translate. And you two are managing one of our biggest centers. I cannot close my eyes when there are big management difficulties, so when I see things going wrong, money mispent, things not used properly, then I have to take part. But if you can relieve me of worry of management in Mayapur it will be a great relief for me. Krsna will give you more and more intelligence on how to do this if you sincerely endeavor.

Up to 5,000 to 10,000 rupees for purchasing land there is always available from the Mayapur-Vrindaban Trust fund. You write that you now have Rs. 9000/ so another 10,000/ will be made available to you for this purpose.

As for the hand-tiller from Japan that you are using on a trial basis, you should ask Bali Mardan to supply you this Japanese machine. He has good connections in Japan. He can provide you that same Japanese motor hand-tiller much cheaper or even free.

The news that you are able to keep up the prasadam program which is now up to 1500 persons on Sunday is very welcome and I hope you can continue this without stoppage. The success of Bhavananda Maharaja's English lessons of the Varnasrama College has given me great pleasure and I am sure many devotees will come from this program. It is a first class idea.

My dear Caru,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 29, 1974 and have noted the contents.

I am glad to hear, although there were many difficulties, that Madhudvisa Maharaja will be able to return to Australia with permanent residence status. Please have him write me as soon as he returns. I do not have the exact date of your Rathayatra in June, although I think it is June 21. As for going there my present itinerary is that I am going to Rome on May 23 for a week, then a week in Geneva and then a week in Paris. So I may not be in London when it is time to go to Australia. You have written that you are arranging tickets for London-Sydney-Delhi. It is a little difficult to make exact arrangements at this time. But I plan to leave for Australia from Europe. Then from Australia I plan to go to San Francisco via Honolulu, in order to attend the July 8 Rathayatra in San Francisco.

Your entering politics is good. You should make political propagation on the basis of reforming the whole human society. The leaders must be an ideal class of men, with ideal character, free from the four sinful activities: no meat eating, no gambling, no illicit sex and no intoxications, as well as chanting. They should chant the names of God. This is essential for leaders. Leaders must be ideal men so others will follow them. So make propaganda on this basis. We are Krishna Conscious candidates, so our political propaganda must be 100% Krishna Consciousness. As to importing the HARMONIST or doing one locally, do as suitable. It is a nice proposal to distribute such a newspaper.

My dear Gangamayi,

Please accept my blessings. I beg to acknowledge receipt of your undated letter. I am glad to hear that you are determined to stay and live in the temple now and that you are becoming very much attached to the Deity worship and very serious about serving the Deity along with Malati Prabhu. I hope your restlessness is finished and that you will remain a faithful servitor in your duties with the Deities.

Your comment is well taken that you have little or no knowledge of the politics. So you remain uninvolved and just continue to simply follow the authorities and concentrate on improving the Deity worship. If you chant at least 16 rounds daily and read our books, no contamination can touch us. I hope to see you in the near future at Bhaktivedanta Manor.

As for the subtitle on the inside title page which is now printed in Vol.2 as "Lord Caitanya Mahaprabhu in the renounced Order of Life," you can make a subtitle suitable according to the subject matter of the subsequent volume. My dear Ramesvara,

Please accept my blessings. I beg to acknowledge receipt of your two letters dated April 28 and 29 and I have noted the contents.

Your letters are a great pleasure for me to read. You are always broadcasting the glories of the Sankirtana movement in the shape of ISKCONs book distribution and surely you will be recognized by Lord Caitanya for your unbounded enthusiasm and expertise in seeing that my books are distributed all over the world.

In your letter of April 29 you give the astounding report that in the year 1973, 4,169,004 total books were bought by the temples from BBT. What is the calculation of money collected for that amount?

This regular reporting is very encouraging for everyone of our devotees and I have faith in your words that next year the figures will be far beyond what they were last year. It is the nature of the spiritual energy, it is always increasing if we just apply our energy.

The report of the BBT traveling library party is something new for us and this is also only the beginning. Please give my heartful thanks to the boys, Sriman Maha Buddhi dasa Brahmacari and Sriman Ghanasyama dasa Brahmacari. These books are specifically meant for the intellectual class of people in your country and I have great hope in the results of this preaching at the Universities.

I received one rumor that the Sankirtana parties in the US would soon be stopped by political repression and lack of money by the people. Some so-called devotee was thinking like that but you can assure all your men that I have great hope for Krishna Consciousness in America, more than any other place. And there is no question of repression provided we go on sincerely.

Rs. 193/60-Munna-Sand Rs. 2975/60-Munna-Sand Rs. 895/00-Allahbux-Painting Rs. 110/70-Munna-Labor Rs. 8804/00-Allahbux-Labor Rs. 25079/65-Yourselves-draft to Orissa Cement for hundi repayment Rs. 3500/00-Rockwin India engineering for consultation Rs. 384/83-Munna-Daily wages Rs. 19858/70-Sri Girraj Cement Co.-white cement marble chips

The checks are duly enclosed. Please continue to keep accurate accounting and send me the ledger sheets periodically. This will enable me to keep up-to-date records. As for how checks will be handled when I am out of the country, I will arrange for this so do not worry.

Regarding moving our New Delhi center from its present location to a smaller place, I would advise you to first investigate the building which is now being rented by an old disciple of mine, who you have met, Acarya Prabhaker. He is located at C-121 Kirti Nagar in New Delhi. He is paying only Rs. 1200/ a month for this place. So go and see if it is suitable then we can investigate further. So my present plans are to leave for Europe from New Delhi. Therefore we will be able to personally discuss things in a couple of weeks.

My dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 26, 1974 and noted the contents. I can appreciate that you are traveling widely in your recently expanded zone and you plan to first become acquainted with the temple presidents by traveling is good. As far as you leaving Uttama Sloka in charge of Toronto and sending Sripati to Montreal, that is alright. I know Sripati was already there in Montreal and he is experienced.

Regarding your Gurukula report, why are the older boys being sent to New Vrindaban? What are the facilities like, what is the program there, what is the need for them to move? As things are not fully explained in your letter, I am inquiring regarding this very important change. As for buying a new house and land in order that the pre-school children may go there, what is the need of them being separate. If they cannot rise early, why should you take care of such young ones at Gurukula. But if they are rising early and attending arati, then why must they be separate from the other little children? Please explain further. You are right when you say Deity worship must be maintained. This is most important. I know Nandarani is expert in Deity care but I think she is working with the children. Your wife is also expert, so she can maintain the sewing and Deity worship program. But the standard must always be kept up. Sankirtana is also a part of Vaisnavism. All our activities are a part of Vaisnavism. So Sankirtana should also be developed at Dallas.

Yes, I have heard myself about Winipeg, that it is a big city in Canada. So if you think it better to move Regina center there that is approved by me. Yes, you plan to keep headquarters 1/2 year in Chicago and 1/2 year in Dallas, that is approved by me. Please send regular reports.

Dear Ksirodakasayi,

Please accept my blessings. Since the Mayapur and Vrindaban festivals in March I have been mostly staying here in our Hare Krishna Land. It is a large estate and requires much management. Today I was talking with Caitya Guru das Brahmacari who is the ground manager here and he suggested that your good self come here to take charge of general management here as the younger devotees are having so much difficulty. Actually the idea of a more mature Indian for management here is very suitable to me. The karmis who the boys deal with here are always cheating them, and only because I am here I catch so many things. As I am leaving on the 23rd May for a tour starting in Rome, I am fearful what will happen here in my absence? I take this suggestion of yourself a manager of Hare Krishna Land as a very sound idea. If you are agreeable to help by service in this way then come immediately to Bombay and help the situation. Giriraja das Brahmacari is the president here, Manasvi and Yasomatinandana and Caitya guru and the important managers, but they are all very young men with not much experience of the world. I understand you are now prepared to take on full time service of this nature, so I think this is the best place for you. I have invested about 20 lacs in this property and already the routine devotional service, deity worship and sankirtana is going on, but at present the police commissioner has denied us sanction to build our big temple according to our plans, and also the status quo is threatened as I do not think the boys can manage the buildings and land which we own here. Potentially things can be very wonderful here but it requires strong management which I think you can do. So consider my proposal seriously and I hope you will be able to come and lead management of Hare Krsna Land.

I received the letters from Bhurijana and have referred the matters to GBC, to Madhudvisa Maharaja. I regard Hong Kong as an important center and I agree with your statement very much that if the Chinese are approached intelligently they will become strong devotees, because their moral character and steadfast nature is very strong. As you know I was there recently although I did not see you then. I also observed this in the Chinese people and appreciated it very much. But we need experienced devotees, otherwise how are we going to maintain a center there. Now I know you are a experienced manager but sometimes you have left. So you are now enthusiastic to stay and manage. So do not leave anymore and stay, then it is alright. Please give me further reports on your communications with Madhudvisa Maharaja.

My dear Madhudvisa Maharaja,

Please accept my blessings. I understand that you are preparing for my arrival for your Rathayatra. I am not sure of your Rathayatra date but I think it is at the end of June. However at this time I will be in Europe. I am to arrive in Rome on the 23rd, then on the 30th to Geneva, then June 6 to Paris. On June 15 I go to Koln where Hamsaduta has arranged a lecture tour continuing in Heidelberg and Amsterdam through July 6. So it will not be possible for me to attend Rathayatra if you have scheduled it for June. I am immediately going to the US after Europe to attend Rathayatra in Chicago on July 6 and then Rathayatra in San Francisco on July 8. From there I will come to Australia toward the middle or end of July. If it is possible for you to reschedule your Rathayatra for the end of July then I will attend. But I will come to Australia at that time anyway. I do not know if you will be able to reschedule your Rathayatra. My Dear Lilavati,

Please accept my blessings. As for your questions you have asked for clarification in the KRSNA Book when Maha Visnu says to Krsna and Arjuna that you are my incarnations in my appearance as Nara-Narayana. So you are asking how this can be so. The answer is when Krsna comes all the incarnations are within him. Actually this is a very intricate question. So not be so concerned about it now. When you become more advanced you will be able to realize these things.

You have asked if the Yadu dynasty has continued beyond Satasena. Yes, there are ksatriyas who claim to belong to the Yadu dynasty today especially in Mathura and nearby places.

How to acquire the quality of patience. Caitanya Mahaprabhu has already given us that answer: One can chant the Holy Name of the Lord in a humble state of mind, thinking himself lower than the straw in the street, more tolerant than the tree, devoid of all sense of false prestige, and ready to offer all respects to others. In such a state of mind one can chant the Holy Name of the Lord constantly. So there will be, that in our preaching we will meet with many tribulations, that is patience.

So I understand you are recuperating from an operation. So spend this extra time reading all our books, chanting as many rounds as possible, and if you can go on doing my tapes.

Bhaktivedanta Manor

My dear Hamsaduta,

Please accept my blessings. I beg to acknowledge receipt of your letter of May 9th from Bhaktivedanta Manor as well as your letter May 6th from Holland.

I am going on May 17th to Vrindaban, to take a last look at the construction before going to Europe, and I may also buy a piece of land in Vrindaban. Then according to the itinerary given us by Bhagavan das we are leaving the 23rd May to arrive on the same day in Rome, Italy. On the 24th and 25th there is a Hare Krishna Festival in Rome, and we will stay there until the 30th when we are to go to Geneva for another festival and for meetings with the World Health Council. Then on June 6th we are scheduled to arrive in Paris, France and there are meetings there all week. Thereafter, on your invitation I will go to Amsterdam on the 15th of June and on the 22nd go to Koln, and then Heidelberg and Sweden. My plan is to attend the Rathayatra ceremony in Chicago in the U.S. on the 6th of July and then the Ratha Yatra in San Francisco on July 8th. So I will have to leave Europe by the 5th July or 6th July.

That means I will not visit London on this tour. After San Francisco, I will travel to visit Australia, stopping at Hawaii. And after Australia I will return to India in time for the Janmastami celebration which is on August 9th. After the celebrations in Vrindaban, I will be free to visit England and the U.S. So these are my elaborate travel plans, and we shall see what Krsna desires.

Having received your reports and Puranjana's report of May 7th I feel that the situation in London and Bhaktivedanta Manor is well under control. So there does not seem an immediate need for me to go there. What do you think?

Another thing, is that we have received a serious criticism that one of our very important Indian life members, Mr. Brij Mohon, M.P. visited Bhaktivedanta Manor, and was refused entry. He even had a letter from Tejyas das introducing him. This has caused much concern and Gargamuni Swami is postponing his scheme to take life members on a tour of many of our centers, thinking the centers are not ready to receive guests. Please investigate this report of the turning away of a life member at the Manor and let me know. There should always be one or two rooms available for a life member. In your report you say 450 Indians visited on Sunday, so how could one Indian be turned away? Who turned him away?

For yourself, you should continue GBC management of England and we can discuss further when we meet in Europe.

My dear Jadurani dasi,

Please accept my blessings. I beg to acknowledge receipt of your undated letter, and I have examined the contents.

You mention that in the picture where Lord Caitanya is discussing with the Kazi about cow killing, Lord Nityananda is there with a drum. No, there is no mention of Him being with a mrdanga. He should not have a shaved head as a brahmacari but in the same feature as we always see the two, Gaura Nitai. Nityananda was brahmacari and became grhastha but you should always paint them in the Gaura Nitai style and feature you are already accustomed to doing.

Letter to: Sri Pannalalji

-

Bombay 16 May, 1974

74-05-16

Hyderabad

Dear Sri Pannalalji,

Kindly accept my greetings. I beg to thank you for your letter of 11th May, 1974 and I have noted the contents. Your suggestion that ”a few learned persons well versed in sanskrit and English be enrolled as members of the Society and then sent to foreign countries to preach”-is a very good suggestion.

We are of course increasing the number of centers all over the world, but the difficulty is that as soon as foreigners accept the cult our men in India especially the rigid Brahmin society does not accept them as regular Vaisnavas. In some temples they are not even allowed to see the deity. The learned sanskrit scholars with English education must be well versed in the Vaisnava sastras, especially Bhagavad-gita and Srimad bhagavatam. In the Bhagavad-gita it is clearly said that anyone even from the lowest papayoni can be elevated to Krsna Consciousness and thus go back to home, back to Godhead. Similarly in the Srimad-Bhagavatam it is said

By Krsna’s mercy and the unlimited potency of Lord Visnu, Anyone can be purified as and Vaisnava and elevated to the Supreme position. Unless one learns this philosophy thoroughly he cannot become a preacher however learned and educated he may be.

Regarding the article published in Back to Godhead 53 there was nothing wrong in that article rather it was the same statement as you said, ”in a holy place sins are magnified four fold etc.” But some interested persons who come within this category are making malicious propaganda taking advantage of the article. Anyway, we have published a Corrigendum for being published in Back to Godhead, the copy of which is enclosed herewith please find.

Regarding religious sentiment, according to Srimad-Bhagavatam there is no question of religious sentiment but religion. Religion is described as codes given by the Supreme Personality of Godhead.* Dharmah saksad bhagavata. Anything not given by the Supreme Personality of Godhead is not accepted by the Bhagavat school as religion. In the beginning of Srimad-Bhagavatam it is said, Dharmah projita kaitavo. This kaitavo religion means cheating religion. Sriman Sridhara Swami the original commentator of Srimad-Bhagavatam says religious systems up to the idea of liberation are cheating. So to preach Bhagavat religion sometimes we have to quote from the sastras what is not palatable to unscrupulous so called religious persons. But in preaching we cannot do without quoting the proper verses. Sometime they take it adversely and we become subject to unwanted criticism. Actually there is no religion in the world accept Bhagavat religion, namely surrendering to the lotus feet of the Lord.

This means the bhakti marga is the only religion. Sa vai pumsam paro dharmo . . . [SB 1.2.6]. Sarva dharman parityajya mam ekam saranam vraja [Bg. 18.66]. Our Krsna Consciousness movement is to accept the Supreme Personality of Godhead Krsna as the Supreme Being and act everything for His satisfaction only. We do not accept the principle of as many gods as one can imagine. God is one and He cannot be imagined; He is fact. Of course, sometimes we feel a little difficulty preaching this cult in India but we do not feel such difficulty outside of India. Although Indian people are by culture God conscious yet on account of vigorous preaching of the Mayavadi philosophy that god is impersonal and can be imagined in anyway by the fertile brain of a person as he likes, the whole Mayavadi philosophy is based on this imagination. We don’t imagine God. Krsna is not imagination. He presented Himself 5,000 years ago as He is, and we are presenting Krsna as He is. We are presenting Krsna’s philosophy and teaching as it is and what can we do more? But this process of presentation has become fortunate and we have become successful. I do not wish to change the process. I hope you will appreciate this process of preaching to please the facts as they are confirmed by all Vaisnava acaryas. We are publishing our books thoroughly on the basis of this philosophy and recently the report is that in highly educated circles of scholarly people in the universities they are taking interest very rapidly in our Krsna Consciousness movement. Here is an excerpt from a recent letter from our propaganda office: ”Yale University and Temple U. have now ordered 60 volumes of your Divine Grace’s Bhagavatam set, and Yale also ordered 12 volumes of your Divine Grace’s Caitanya Caritamrta set . . . Professor McKinnon of St. Joseph College in Philadelphia is planning to have the college order the entire set of Bhagavatam. . .”

I am going the day after tomorrow to Vrndaban, and from there I shall go to foreign countries, Rome, Geneva, etc. I am coming back before Vrindaban will celebrate Janmastami and I invite you cordially to our opening ceremony. When I go to the USA I shall try to send you Articles of our Society, but we have different memorandum in different countries, they are not one and the same.

Nairobi

My Dear Bhima dasa, Krsna Das, Sanat Kumara, Nityananda, Samba and Joseph,

Please accept my blessings. I thank you very much for your letters which were sent to me by Paramesvari Das Brahmacari on the 15th of April. All of the sentiments expressed in all of your letters are just according to the Vaisnava parampara. This means that you are understanding the Krishna Consciousness philosophy rightly and I am very pleased. It is a fact that by serving the spiritual master one becomes free from material life and makes spiritual advancement. I have not done anything personally, very wonderful. I am simply serving my spiritual master, Srila Bhaktisiddhanta Sarasvati Goswami Maharaja and all the acaryas in the disciplic succession. If I have done anything of credit it is that I have not changed their teachings. I have not added anything of my own interpretation. So I am very happy that you are finding Krishna Consciousness very blissful in the Nairobi temple and this will be the key to your success. That you also follow exactly as I have instructed in my books to my disciples such as Brahmananda Swami. That means to rise early, clean the body and clean the clothes. I have seen films of the Deity worship in Nairobi and it is very gorgeous. Proper Deity worship means to be clean, punctually and nice offerings of foodstuffs. Brahmananda Swami can teach you these things.

You are fulfilling my great hope. Because you are native Africans, you are the best ones to convince other Africans to become Krishna Conscious. Unless they become Krishna Conscious they can never end their suffering. We can not expect every single African to take to it. But if only a small population can take it seriously it can do real good. Therefore you are the real leaders of the Kenya nation. Please take seriously what you have learned and help spread this happy life to everyone you meet in Africa.

My dear Madhudvisa Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your telegram dated May 16. I have also received a previous telegram in which you said you sent us tickets Air India, London-Melbourne round trip. However I will not be going to London. My schedule is to leave tomorrow morning to Delhi-Vrndavana and on the 23rd of May go to Rome. Bhagavan Das has made a tour including Rome, Geneva and ending June 15 Paris. Thereafter Hamsaduta has invited me to Amsterdam June 15. There is a meeting in Koln, Germany June 22. Immediately thereafter I can leave to Melbourne from Koln and stay as you requested through June 29. As regards to the tickets you have already sent I have not received them yet and we are leaving tomorrow. Moreover they are for London departure. I think the best thing to do is to cancel the tickets and arrange new tickets for us from Koln to Melbourne and return. You can mail these tickets to me care of Paris, France center so long as they reach there by June 14. My party consists of three; myself, Neil Delmonico (Nitai) and Stephen Guarino (Satsvarupa Maharaja), (Pradyumna has left us for sometime). I will expect your tickets when we arrive in Paris and I will be very pleased to attend the gorgeous Melbourne Ratha-yatra festival.

My dear Paramesvari,

Please accept my blessings. I understand that for over two months since Brahmananda Swami has been away from Africa, you have been in charge of the Nairobi center. This is a great responsibility. Brahmananda Swami has noted that you have not only maintained the center but in his absence on your own taken collection and done the necessary work so that now the temple building is owned by us. I have always wanted this for our Nairobi center. So it is a great credit for you. Therefore this work you are doing for maintaining the African devotees, teaching them the rules and regulations of Krishna Consciousness, is the most important work of the work and I thank you very much.

My dear Indra pramada das,

Please accept my blessings. I have just received a copy of Back to Godhead number 62 and I wish to express to you how pleased I am with the layout and design of the magazine. I have been especially admiring the pictures in the story of our Los Angeles center, and the way the pictures are placed and the use of the color throughout the magazine is very pleasing to me. I think this American company Donnelly, is better than Dai Nippon and the magazine is improving more and more. Try to keep up this present standard and think of new ways to make it always fresh and attractive. Krsna is all attractive and evergreen, and you must use your talent to layout the magazine so that Krsna appears in print as He is. Thank you very much and offer my good wishes to Jayadvaita and everyone who has worked on this issue.

My dear Muralidhara, Jadurani and artists of the art department,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 22, hand delivered to me by Atreya Rsi prabhu.

As far as your questions which information you urgently need for completion of the paintings, the answers are as follows.

It is correct to show Prthu Maharaja giving a speech to the Kumaras inside his home.

For Lord Visnu's appearing at Prthu Maharaja's sacrifice, the sketch you have enclosed is all right.

Lord Visnu should rest His left hand on Garuda.

As for the wooden sacrificial instrument mentioned during Daksa's sacrifice, yes you can use it in Maharaja Prthu's sacrifice.

[ILLUSTRATION]

It looks like this. It is a block, like the bottom on a guillotine on which the animal is made to lay his head and then his head is cut off.

When Prthu and Archi appeared they looked about 30 or 40 years old.

They were dressed opulently like King and Queen with crowns.

So I am glad that you are fully absorbed in your work and very concerned that it be executed just to my satisfaction in parampara standard. This is your perfection. I am hopeful we will continue our cooperation as I have many many more books to write if you can only keep up with me in publishing and painting.

My dear Dinadayadri,

Please accept my blessings. I beg to acknowledge your letter of May 8, 1974.

You are a very good girl and a sincere devotee therefore, even though you have experienced difficulty you are remaining pure in Krsna Consciousness and keeping faith in Krsna and the spiritual master. This faithfulness has pleased me very much. So many great devotees have had to undergo difficulties, and the great example among women was Queen Kunti whose family life was perpetual danger, but because she always thought of Krsna she was saved.

There is no question of your returning to Nara-Narayana. He has remarried, and I also informed him when I was in L.A. last time, that he should keep his one wife, living peacefully in L.A. You have got one child, so now make Krsna your husband and take shelter of our temple. The Detroit temple where you are now is very suitable I think, and you say you are much inspired by devotees like Govardhana and the others. So take spiritual instructions from your elder Godbrothers and sisters, forget the past, and make all progress in Krsna Consciousness without any material lamentation or hankering.

My dear Mahesvari,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 11. I am very sorry that your husband Mahatma das has taken my letter to him in the wrong way and has told you to get married to another man although you are only 20 years old and have a 7 month old son. This is a most irresponsible and nonsensical proposal on his part. I never wrote or intended that he should leave you. He can stay out and distribute books on sankirtana, but for that he can remain grhastha, nor does it means he perpetually remains on sankirtana party forgetting his responsibilities. You write that you badly need your husbands instruction and security, therefore, this is natural, so he may go on sankirtana but he must also spend time with you as you require, not in the mood of sense gratification but for cooperation in Krsna Consciousness.

So you may take this letter to the president of the temple and he must do the needful so that Mahatma das does not set an irresponsible example. For your own part, do not be bewildered. Go on chanting Hare Krsna and simply trust in Krsna as the dearmost friend.

My dear Sudama Maharaja,

Please accept my blessings. I beg to acknowledge receipt of letters from devotees of Hawaii ISKCON dated 4/23/74.

Based on their declarations of sincerely following all the prescribed Vaisnava regulations for one year, and on your recommendation, I have accepted Jagat Prabhu das, Praghosa das, Kanva das and Nitai Gauracandra das for second initiation and I have enclosed sacred thread and gayatri. You were present in Hawaii when I was there and was particularly stressing that the presidents must be very careful on recommending gayatri initiation. After all, we are criticizing false cast brahmanas, if we ourselves are bogus brahmanas then our position is very bad. Now that we are more and more trying to implement the varnasrama divisions of society, we should not think that everyone has to become a brahmana. For example you are developing a farm there; so those who work the farm do not necessarily have to be a brahmana if they are not inclined to the brahminical standards. In this way, be careful about awarding the second initiation.

In my upcoming touring programs I am going to attend Rathayatra in Australia from June 26 until about July 2, then I am going to the U.S. for Rathayatra. So it may be that I will break my journey in Hawaii and see you then. I shall inform you further. Please keep me informed of all developments with the land and devotees there. I will be in Paris from June 6, to June 15.

Please work with them carefully so they will always keep up chanting their rounds and remain enthusiastic to follow the principles.

I am also accepting Jogindra vandana for second initiation who has been initiated for two years. I want to stress to you to be very cautious about giving me recommendation for second initiation. There are four orders of life, it is not that everyone has to be a brahmana just because he has been initiated 1 or 2 or any number of years. Especially if one cannot even rise early for mangala arati he should never be given brahminical initiation. All your programs are encouraging to me and keep sending me information.

My dear Trai das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated April 25, 1974.

Upon your recommendation I have accepted Neal Buyers as my initiated disciple and his new spiritual name is Niranjana dasa. Keep him carefully now. Krsna Consciousness means to create ideal men, so you must set the example in following the rules and chanting Hare Krsna mantra and see that others are doing it also.

I am enclosing brahmana threads and gayatri mantra for Ādi Kesava das and Vivasvan das. You must be very careful before you award the brahminical thread by recommending a man to me. Now that we are dividing our society into the four orders as much as possible, it is not that every man has to be made a brahmana after a year. Especially if one cannot even get up early and go to mangala arati he cannot become a brahmana. So consider it carefully before you recommend further men to me. Sometime in the past Rupanuga Maharaja reported that you were not sending him regular reports so he could compile his GBC report to me; please cooperate with him in this so our huge organization can run smoothly in all its parts.

My only idea was to point out to the public that unless you have purified leaders there is no possibility of advancement even in the material condition. I had no idea to spend money and energy of our society in a way which is not our real spiritual life. As for the Harmonist articles, they are not bad, but the same thing could be presented in our Back to Godhead.

Have him copy this statement on his own letterhead and sign it. In addition, take a similar signed certificate from Mr. Sujya Narayana Rajooa who is the Endowment minister of Andra Pradesh and who came to receive us at

Tirumala. I think with signed statements from these two this will be enough and that we do not have to get the government sanction. So if you can take these statements from these two men it will be an important achievement for our society. Try for it in earnest and Krsna will help you.

I am glad to hear the Hyderabad temple is so enthusiastic for preaching. Please keep me informed.

Please accept my blessings. As you know, since the March GBC meeting in Mayapur you have been asked to manage affairs of the west coast U.S. zone until a permanent GBC man for that zone could be selected. From my careful observation of your activities especially in Los Angeles and the other temples, I can understand that you are doing very well as GBC representative for the west coast. Therefore I am appointing you as the regular GBC representative with full standing, for heading affairs in the western region of the U.S.A. I have already instructed the president of the Seattle temple in a recent letter, to sent new initiates beads to you for chanting. I know you will discharge the duties of GBC with full responsibility, especially seeing that the spiritual life in the temples is not neglected. My dear Sri Ballavh,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 26, 1974 and I have examined the contents.

I am very concerned to hear you have left the association of Trivikrama Swami and the devotees in the temple in Taiwan. For one thing you cannot remain in firm Krsna Consciousness without the association of devotees and for another thing you were being counted on to make a strong contribution to the mission in Taiwan. We must stand united. If the few men we have in a far away place like Taiwan become scattered, then we will not be able to stand. I know you are always experiencing difficulties in living with devotees, but we must be tolerant and endure the personal differences, being humbler than a blade of grass, and stick to our duties to the spiritual master.

From your enclosed brochures I see you were developing a very promising business for selling incense, but if you are apart from the society, then how can you continue. I cannot send you five thousand dollars for your business as you request. You must again join with the devotees in our ISKCON community.

In any case do not abandon the regulative principles and be certain to always chant sixteen rounds daily. That will save you from maya. I know you are a sincere disciple, because you are always returning to our camp even though you go away. Krsna will not let you withdraw. But I am hoping that you will soon become sober enough to join with us and stick with determination. working together on behalf of Krsna and completely forgetting the material condition of life.

My dear Hrdayananda Maharaja,

Please accept my blessings I beg to acknowledge receipt of your letter of May 10, 1974. I was eager to receive your first GBC report and I have carefully noted the contents.

As GBC your first responsibility is to keep yourself spiritually fit and see that all the devotees in your zone of management are chanting 16 rounds, rising early and strictly avoiding the sinful activities. If they are doing this, then management will be at your finger's end. Of course I am encouraged to hear that in each center you have stressed the distribution of my books and you are seeing that devotees daily go out for sankirtana as a primary devotional item. So you have a very wide range of area to cover and many things to look after, please do it very soberly, consulting when necessary with your GBC Godbrothers. Our progress is slow but sure, when walking down the street, we first place one foot down and when it is firm we take another step. We want to firmly establish centers in South America. I fully agree that the centers should be as far as possible manned by men who are native to the country; that will make our position even stronger, just as in the USA all you men and women have managed.

As far as Brazil, why not go in first with sankirtana parties, distribute books in Portuguese, and then we can see later about opening a center.

As far as counsel is concerned, simply keep up your fresh utsaha or enthusiasm for service. That will accomplish wonders. And always remain ideal yourself by strict adherence to the bhakti principles.

My dear Nrsimha Caitanya,

Please accept my blessings. I beg to acknowledge receipt of your undated letter and I have examined the contents.

Your reports of the devotional progress of San Diego are very convincing, this combination of book distribution and public festivals is very good for bringing the people to an attraction for Krsna Consciousness. Go on holding as many festivals as possible. I am especially attracted to the pictures you have sent of Radha Giridhari, the deities of San Diego ISKCON. I have placed one picture on my desk and I am always admiring the beautiful decoration and the transcendental beauty of these deities. So although your temple may not be one of the largest you are excelling in deity worship; if you can maintain and increase this standard, everything will come successfully.

Regarding the $10,000 you are receiving shortly from your lawyer. Yes, you may keep $1,000 for the local expenses you have mentioned, and the balance $9,000 may be sent to my Mayapur Vrindaban fund which you can submit by mailing to Jayatirtha with instructions it be deposited in ISKCON Mayapur-Vrindaban fund. Thank you very much for this help in our projects to make beautiful temples in India for all of my foreign students.

Do not worry about past mistakes and falldowns. Krsna has given you a new chance in taking care of one of His ISKCON temples, so the future is very bright. There is nothing to worry about, simply yourself be ideal to all the devotees there by chanting as much as possible and following carefully all the regulative principles.

You have written to recommend Tripurari for sannyasi. Tripurari is however already a brahmacari so in essence there is no difference between brahmacari. I have asked Tripurari to dedicate his life to distributing my books and he has turned out the most expert of all our sellers. It is certainly miraculous how he is distributing so many big books even to people who are not interested in Vedic literature. If he takes sannyasa he may not be able to constantly assume so many disguise in public and employ so many tricks for selling books to persons, as it is not in accord with some of the etiquette for sannyasa. Also, I have decided for the time being not to award sannyasa order. Your write the this recommendation is your own idea and that he himself is perfectly happy heading up a traveling party of book distributers. So let him go on as he is doing; Krsna is giving him all facility and without question he is doing more than any sannyasi by his personally distributing hundreds of books day after day and inspiring others to follow.

My dear Acyutananda Maharaja,

Please accept my blessings. I am in due receipt of your letter of May 25th and have examined the contents.

You should not write anything to Madhava Maharaja's camp. You may have talked many things with Mangala Niloy but why write him in black and white. The letter must not be sent. Their policy has been all along to suppress me and take credit for himself.

Their proposal for cooperation is a myth. They haven't done anything which is cooperative. You know in a recent article they managed to write in such a way that Madhava is doing the world movement and we are his subordinate. From the beginning that has been their mentality. So there is no possibility of cooperation with them. Rather you should avoid strictly meeting with them. They are not after preaching but material gain and reputation and adoration. Otherwise why they are non cooperating with me? So no cooperation is possible. Do not think or indulge in loose talks. Be careful always. Let us do the duty of propagation sincerely and seriously on our own principles. Krsna and Srila Prabhupada Bhaktisiddhanta Sarasvati Thakura are our only hope and they and helping us. If anything thing has to be done it is to be talked on the higher level between Madhava Maharaja and myself, but I know his mentality is different and there is no possibility of cooperation.

My dear Damodara,

Please accept my blessings. I am in due receipt of your letter of June 5, 1974.

I have asked you to stop the political program because actually you cannot organize as the others can. We cannot manage with separate money, separate brains from our regular ISKCON propagation. It is not so easy to do politics, moreover it is a filthy atmosphere. So do not indulge in it. I am glad to hear all the participants have stopped. So you convey to them my instructions in this matter. We have an immense field of work in distributing books, reading and chanting and working for Krsna in many fields. And the aim of it is to always remember Krsna. Some philosophers think that in response negatively to the nasty consciousness of material life we should become "thoughtless" but this is not Krsna Consciousness, nor is it possible to become void or like a stone. Our process is to purify the thinking by always thinking of Krsna, actively and positively.

You have asked about Rupanuga. So I have asked him to not remain secluded but to work vigorously as grhastha now that he has returned with his wife. There is nothing wrong in his preaching as you are and so many GBCs, as grhastha. So although it is officially a falldown from sannyasa, there is no loss if he will become more enthusiastic by this way. So please continue to cooperate with him and implement all our regular programs.

Syamasundara. has voluntarily suspended his responsibility as GBC and I am enclosing my letter to him in this regard. So you may continue as GBC. So I have asked Syamasundara. to tell the others to cooperate and I am sure this will alleviate all party feeling.

We have to keep Krsna always in the center, and then although there are disturbances and sometimes fall downs we will be able to work together and keep our society intact. Some people recommend that in the face of so many nasty thoughts which occur in material thinking, we should try to become "thoughtless", but this is never possible. Our Krishna Consciousness principle is not to become thoughtless but to purify the thinking to always thinking of Krishna. So try to spread and encourage this philosophy of thinking of Krsna, after thoroughly assimilating it yourself.

My dear Revatinandana Maharaja,

Please accept my blessings. I am in due receipt of your letter of 25th May, 1974. It is very good news that you are out preaching free from too much entanglement in temple life. That is your proper engagement and I am glad to hear you are touring to 120 colleges.

Now cooperate with Hamsaduta. This is Krsna's business. We shouldn't form different parties. Hamsaduta is a sincere worker and has given evidence of success in Germany. Now Syamasundara has relinquished his position and I am enclosing a copy of my letter to him in this connection. Try to pacify all the opposing elements and you will also make me happy.

My dear Rupanuga,

Please accept my blessings. I beg to acknowledge receipt of your letter of June 3, 1974 and I have carefully examined the contents.

Yes, I could observe that your mind was disturbed on account of meeting your wife privately. There is no need of hide and seek. Better live as husband and wife as householders and in great enthusiasm execute the Krishna Consciousness movement. There are many GBC who are grhastha. you can remain for management of the temples and also work in the schools and colleges for introducing our books in the libraries. The recent reports of this work have been very favorable. Take up this line more seriously helped by your good wife and that will be nice.

I have stopped the political movement because it will not help us. It is a very filthy atmosphere. Better you do not indulge in those things with expenditure of money and spiritual energy.

So you should not consider taking sannyasa again, but in your country it is not a great thing. Although officially it is a falldown from sannyasa, in your country no one understands sannyasa. The more important principle is that we should purify our thoughts and engage them in Krsna's service. Please try to understand this important principle: being disgusted with their nasty thoughts people sometimes attempt to become thoughtless, but this is never possible. We should encourage everyone to not become thoughtless but to purify their thinking by always thinking of Krsna in the recommended ways. So I request you to go back preaching vigorously along with your wife who is also a good preacher.

My dear Syamasundara.,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 25, 1974 and I have carefully noted the extensive contents.

You have taken the right decision. For the time being you suspend your GBC responsibilities and let Hamsaduta manage as he is doing nicely. Hamsaduta saw me recently, however, and was complaining that he is meeting with an opposing party there, although he is working as authorized GBC. I think if you ask all of them to cooperate with him while you stry to improve your business separately that will pacify things. I am hopeful and praying to Krsna that you become successful.

The difficulty is you didn't know about the business and you believed everyone. I have a report even from Bal Krsna that you have been cheated. If you have sufficient experience and are careful then you can do the business. I think it requires great experience, otherwise you will be cheated.

For the time being do your business and wherever you stay follow the regulative principles. Always chant and follow the regulative principles. Then you can see me in India during the installation ceremony in Vrindaban. I shall advise you further. There are so many things which happened in your absence which I do not wish to discuss now. But everything can be rectified if you follow my instructions. If you have actually sold jewels that is encouraging and we can discuss further about it when we meet next.

My dear Krsna das,

Please accept my blessings. I am in due receipt of your letter dated May 30 from San Francisco.

It is pleasing to me to here you are happily engaged in devotional service and living as an ideal grhastha. Please go on as you are doing: keep your business separate and wherever you remain keep your family in Krsna Consciousness always chanting Hare Krsna and observing the regulative principles. Cultivate your business for Krsna, remain happy in Krsna Consciousness and always serve Krsna.

Your name is already Krsna das so your new boy may be given the name Krsna das-anudas, the servant of the servant of Krsna [Cc. Madhya 13.80]. This was the position desirable to Lord Caitanya Mahaprabhu,

My dear Muralidhara,

Please accept my blessings. I am in due receipt of your letter of May 16, received only now in Paris.

Regarding your questions for painting: The enclosed sketch of Lord Visnu visiting the sacrificial arena of Maharaja Prthu is all right as it is, the architecture is nice. Visnu should rest His left hand on Garuda's shoulder. But in the picture of the four kumaras visiting Prthu Maharaja, why are the Kumaras seen as if coming through the ceiling from above? I think it would be better if they were coming inside through the doorway.

I am sorry to hear of your wife's poor health. You have tried so many treatments, pills and better climates and visits to doctors, but there is no improvement. I think you can admit her to the hospital on a longer term basis for recooping her health. You should not expect to have children until she is in good health.

My dear Nandalal,

Please accept my blessings. I beg to acknowledge receipt of your letter of May 23, just received here in Paris.

It is good news that you are finding engagement in distributing my books all day in Hawaii. So there is no question of taking other engagement; distribution of my books is the highest kind of preaching, and thus the best engagement. So take it as Krsna's mercy that you have come to Hawaii and engage there full time as it is a very important place.

Regarding your deity. So long as you are not living separately, you may put your deity on the regular temple altar, and as they are caring for the deity and feeding and dressing and cleansing, so the temple pujari may also give your deity the proper care and worship.

The explanation given by Ramesvara that sankirtana is Lord Caitanya's lila, which he compares to the gopies trying to engage others in Krsna's service, is the correct understanding.

Please inform Sudama Maharaja that I have received his May 27th letter and that I am encouraged by the progress of the farm as well as the continued book distribution. I have asked Yasodanandana Swami to help out in Taiwan where there are only two men, rather than come to Hawaii. By now Sudama Maharaja should have been informed by Bali Mardan that myself and my two secretaries will be stopping off in Hawaii on our journey from Australia to the U.S. and that we will arrive July 3rd on Quantas airlines at 8:45 A.M.. We will stay for 30 hours and he should arrange for our staying in Honolulu. More when we meet.

My dear Ravindra Svarupa,

Please accept my blessings. I am in due receipt of your letter of May 14, received in Paris.

I have accepted on your recommendation the three devotees as my duly initiated disciples, and their spiritual names are as follows:

Patti-Pattarajni devi

Donna-Dantadhara devi

Lois-Atura devi

I have also accepted your recommendation for Vanamali prabhu to take second initiation. Enclosed is one sacred thread and gayatri mantra. Have him hear the tape of my chanting the mantra, in his right ear. The beads of the initiated devotees may be chanted on by Kirtanananda Maharaja.

I am glad to hear you are holding a larger Ratha yatra this year. Your multifarious activities in Krsna Consciousness in Philadelphia sound very good. We have so many engagements, therefore I have asked that the political program be stopped as it was creating too much separate effort separate brain, separate money from our regular ISKCON program. I shall be coming to the U.S. in July and perhaps you can see me in Chicago or later in New Vrindaban.

My dear Rsabhadeva,

Please accept my blessings. I am in due receipt of your letter of May 4, 1974, just received here in Paris.

I have accepted as my disciples the devotees recommended by you and their spiritual names are as follows:

Gary-Gopta dasa
Joe-Jyotirganesvara dasa
Peter-Padmagarbha dasa
Steve-Stavapriya dasa
Paya-Papaharinidevi
Rebecca-Rangavalli devi

Jayatirtha prabhu may chant on their beads and you may hold a fire yajna. Initiation means to begin so now these devotees, under your supervision must take the vow with utmost seriousness to chant everyday at least 16 rounds on beads and to refrain from the four sinful activities.

I have also accepted Bhojadeva dasa and Hrsikesa dasa for second initiation trusting that you have carefully examined their devotional behavior for the past year and that they have not deviated from the regulative principles. It is not that automatically we have to award a devotee second initiation after he has been with us for a certain time, but the qualifications have to be there. Enclosed find their threads duly chanted on by me and gayatri mantra. Have them hear the mantra in the right ear with the tape I have made.

My dear Sahadeva,

Please accept my blessings. I beg to acknowledge receipt of your letter of May 13, 1974.

On your recommendation I have accepted the devotee submitted by you as my duly initiated disciple. His new spiritual name is as follows: Bruce Dickmeyer-Bhusaya dasa.

I understand this is the second time you are submitting the names of Siddhavidya and Kirticandra for second initiation and that you have seriously considered their eligibility for brahminical status. Therefore I will accept them as brahmanas, and the sanctified threads are enclosed as well as gayatri mantra. Have them listen to the tape of me chanting the mantra. The beads of the new initiates may be chanted on by Jagadisa Prabhu. I understand you are situated in a new building. You may send me pictures.

Now find enclosed a letter from a life member from Hyderabad, India. He writes that he is going to Houston, Texas for health treatment and he is asking that he and his wife and medical attendant be put up at the temple for room and board for one and a half months. I have written him that he may stay at our temple but I do not know if it is suitable for him. You can consider whether it is actually possible in your present circumstances to house a man and his wife as well as another companion. If the conditions are too crowded you may write to him and in any case let him know the actual situation in Houston. Let me know the further result of this.

My dear Trivikrama Maharaja,

Please accept my blessings. I am in due receipt of your letter of May 25th, received in Paris.

You send both good and bad news. It is very good that Taiwan is proving a good place for Krsna Consciousness, in that you report many Chinese boys are coming and that you have been given a nice place to operate a center. Unfortunately three men have left you and now there is only you and Dvija hari. I can understand the boys who left you were not very steady. I have written to Yasodananda Swami who was thinking of travelling from Tokyo to come and join you there and also Gurukrpa Swami can come and go from Tokyo and try to help. I will soon be going to Australia (by June 25th) and when I see Madhudvisa Swami I shall ask him to consider if he can investigate your situation and send you brahmacaris as needed. We will also discuss Hong Kong, which as you mention, is also short of men. In the meantime, although you are only two you should carry on all your programs as far as possible. In the beginning I was only one and I started everything, so you have twice as many men. Trust in Krsna and simply dedicate your life to introducing the chanting of Hare Krsna and Krsna Consciousness philosophy to whomever you meet. Surely Lord Caitanya will be pleased by your effort there, and thus you will be eligible for his benediction which is to award love of Krsna.

My dear Yasodananda Maharaja,

Please accept my blessings. I have heard very wonderful reports of the sankirtana being conducted by Gurukrpa Maharaja and yourself in Tokyo, and I am directing Jayatirtha to credit the Mayapur-Vrindaban fund for whatever amounts you deposit in Japan with Dai Nippon.

In the meantime I have received a letter from Trivikrama Maharaja in Taiwan who reports that many Chinese boys are coming to the center and he is very encouraged. However, he had three unsteady men in his party such as Sri Ballavha, Lalita Krsna etc., and they have left him, so that there are only two of them in Taiwan. I have heard from Sudama Maharaja that Yasodananda Maharaja was planning to go to Hawaii, but I think it would be more useful for the time being if you joined with Trivikrama and helped him in Taiwan. I am often thinking if we can get a center in China, and Taiwan is a jumping off place for our entering China. Also, although the program in Tokyo is most important, Gurukrpa Maharaja may also come and go sometimes to Taiwan and help and encourage them there. I do not think it is so far away from Japan.

Again, thank you very much for conducting sankirtana so vigorously that you are outdistancing all other parties. Your special affection for my Indian project is very pleasing to me and shows you understand my intentions very well.

My dear Amarendra,

Please accept my blessings. I am in due receipt of your letter dated 6/6/74 and have carefully noted the contents.

I can understand that you want to run for political office, but we can not spend money even if we have money. If you have money of your own and you want to spend it for running for office you can do that. But for running we not only have to draw on the society's money but also on our men. This is not desirable. By competing with the politicians we may drop from our spiritual ideal. Our actual business is to become brahminical. We want to train some ksatriyas but that we can do in our own communities. Where is the money for this political work, that is my main question. And also, so much attention paid in this area is a diversion from our spiritual life.

My dear Balavanta,

Please accept my blessings. I am in due receipt of your letter dated June 6, 1974 and I have carefully noted the contents.

My point is that I cannot employ the society's money in political campaigning. Moreover it is illegal for the society which is a religious society to pay for political campaigns and would cause us to lose our tax exempt status. The alternative, to make a separate brain, separate funds, and separate manpower is a diversion from our spiritual goal. The other political parties are spending lavishly so how can we compete with them. We do not have enough money nor do I wish to spend our money in this way. Therefore I say it is better to stop. You say you plan to run for U.S. Congress. But for this, you can draw no money from the society. So your plan is utopian. Better concentrate on developing the brahminical qualities in the devotees there; that is more important than running for political office. I hope you understand my points.

My dear Ravindra Svarupa,

I am glad to hear you have immediately stopped political campaigning on receipt of my letter. I have written a number of letters to the persons involved explaining how we can not spend money and manpower on this project in competition with the big politicians. Therefore I have asked that it be stopped.

I want to thank you a hundred times for the excellent way you are worshiping the Deity there as I can see from the color photographs you have sent. From my very childhood I was also worshiping Lord Jagannatha. When I was six years old my father gave me a ratha and I was performing the Ratha yatra in my neighborhood. And now in the western world you are worshiping Lord Jagannatha so gorgeously and it pleases me very, very much. Thank you again for the way you are conducting the deity worship in the Philadelphia temple. As for the Ratha ceremony, you go on with it, I shall attend there next year. But you go on holding a splendid ceremony for the people of the city. I am sure it will be a success.

My dear Gargamuni Maharaja,

Please accept my blessings. I beg to acknowledge receipt of your two recent letters.

I find in both these letters you have especially desired to call Tamala Krsna Goswami to act as GBC. But he left India particularly thinking himself not very fit for management. He has now gone for preaching work with Visnujana Maharaja and recently Karandhara met him and Tamala Krsna Maharaja is now unwilling to come to India for GBC management work. Therefore I have called Karandhara Prabhu to act as GBC in India. He has practical experience in various lines of management work. I hope he will replace Tamala Krsna Maharaja better than anyone else.

Tamala Krsna Maharaja said that you are not following the regulative principles. I do not know why you should do like that. Anyway, if there was any discrepancies in that way I hope you will rectify it and fully cooperate with Karandhara Prabhu. I am coming to India on my way to Sydney to stop for one day in Bombay on June 23rd. If you so desire you can see me in Bombay on the 23rd. Further, Brahmananda Maharaja wanted to remain in India and act as my secretary, but there is no proper man to replace him. Sometimes back you also wanted to go to Africa. If you still feel like that you can consider on the matter and I shall call Brahmananda here in India to act as my personal secretary. Hope this will meet you in good health.

Please accept my blessings. I beg to acknowledge receipt of your most recent undated, letter.

I am glad you have received my letter and mailed it to Swami Cinmayananda; so we shall see if they are able to help us so that we may enter Jagannatha Puri Temple with our disciples.

Regarding your philosophical question, if the Bhagavad gita is part of Mahabharata which is considered smrti, how can we claim Bhagavad gita to be GITOPANISAD, or one of the Upanisads which are sruti? Actually because the Gita is spoken by the Supreme Personality of Godhead it is sruti. But people take it as smrti because it is part of the Mahabharata. We take it as sruti as far as we are concerned. The purport of sruti is to make one advanced in understanding the Absolute Truth. Here the Absolute Truth is explaining personally, therefore the Gita should be taken as sruti. But they take it as smrti because it is part of the Smriti (Mahabharata). In one sense it is both sruti and smrti.

Please yourself and Mahamsa Swami work in full cooperation with Karandhara Prabhu who is leaving Paris today for Bombay. You may send him regular reports as he is taking over from Tamala Krsna Maharaja, as GBC of India.

My dear Aksojananda Maharaja and Pancadravida Maharaja,

Please accept my blessings. I am in due receipt of your letter of 3rd June from Bangalore.

Do not be discouraged if so far the collections have not been very great in terms of money. More important than the results is the activity. Krsna wants to see that you are fully engaged with all sincerity in preaching His glories; that will please Him, not a certain amount of money. Moreover, if you remain determined in that activity, then automatically the results will come. It is like a woman who becomes married; if she immediately desires to have a child, that is not possible. But because she is associating with her husband, after due time, in 9 months she may have a child. We have to be enthusiastic, determined and patient in the execution of our duties.

Continue to send your collections to the BBT in Bombay. I shall be glad to hear the progressive reports of your preaching, and now you may report regularly to Karandhara Prabhu and take up management affairs with him, as he has gone today to India to take over GBC affairs. Hope this finds your sankirtana party members in good spirits by careful following of all regulative principles.

My dear Brahmananda Maharaja,

Please accept my blessings. I am in due receipt of two letters from you dated 4/6/74 and 12/6/74.

I am glad to read that you are eager to join me as my permanent secretary and that your major concern is to help provide me with "a conducive environment to translate" my books. That is my desire also. On the other hand, I can understand the programs are developing in Kenya and therefore you want a strong replacement before you leave Africa. I think Gargamuni Maharaja can do it nicely. I have written him a letter inviting him to go to Africa and also Karandhara has gone to Calcutta to talk with him directly about this. So we shall see whether he is willing.

It is very good news that there are persons there who want to cooperate to help us start a Varnasrama College Project and that they may supply us land for living as an ideal community producing our own food from the land. So this should be followed up carefully.

I was glad to receive you second letter and the letter from the Ministry of Home affairs stating that they have no objection to my coming to Kenya. Yes, I would like to go there after the Vrindaban ceremonies. Hopefully you will have joined me by then and we can go together to Kenya and from there to South Africa where Pusta Krsna Maharaja is trying to arrange a program for our coming.

My dear Jagadisa,

Please accept my blessings. I am in due receipt of your zonal report of May 28 and have examined the contents.

From your report it appears that the transfer of the older Gurukula boys above ten years old has proven successful. I am glad to hear they are housed in a clean building with electricity and hot and cold water and that their teacher from Dallas is with them instructing them just as before. I am always eager to hear that Gurukula is going well so be very vigilant that this program with the older boys in New Vrindaban as well as all levels of teaching at Dallas are just to the standard as I introduced it. There is no more important school in the world, so it requires careful guidance.

Yes, the farm plan in New Orleans is fine. But one thing is if we get land we must first be sure we will be able to fully utilize it, otherwise, if we cannot use it what is the use? I want the world to see by our example that life can be lived naturally, peacefully if one is self sufficient with land, some cows and chanting Hare Krishna. That is the idea of purchasing land. It is not necessary that every temple have a farm, but as many as can be efficiently managed locally is all right. Let them see our centers are self sufficient. Whatever can be managed conveniently. If they can manage a farm in Detroit also, what is the harm?

Yes, consult with BaliMardan and if the new building required for our Montreal center is reasonable in all respects then purchase it.

I can understand that you are travelling widely and managing many projects over a great area. Krsna will give you stamina and intelligence to carry out more and more projects successfully in His Name, provided you are sincere and remain strong spiritually by following the regulative principles.

John Maley-Caitanya Simha dasa
Rhonda Maley-Racitambara-devi
Eugene Edwards-Urjasvat dasa
Mark Molinero-Mahesvasa dasa
Kathryn Ruesnik-Kusala devi
Joe Masters-Jitamrtyu dasa
Sharamine Bruce-Sailodgata devi
Alfredo Ruiz-Abhipraya dasa
Michael Pickup-Manya dasa You may hold a fire yajna and chant on their beads and impress on them they are taking vows before Radha-Krsna, the spiritual master and the Vaisnavas. They must always chant at least 16 rounds daily and avoid the four sinful activities.

Yes there are example of Krsna Conscious persons whose worship was solitary life, and the greatest example is Haridasa Thakura. Haridasa Thakura used to live only in a cave sometimes and would spend his whole time chanting the Hare Krishna Mantra. Similarly Gaura Keshore das Babaji the spiritual master of my guru maharaj would chant alone in a solitary place so as not to be bothered by anyone in his meditation on Krsna. But these great personalities are not to be imitated. If we artificially imitate, out of some negative feeling or out of desire for adoration as a saintly person, it will not be very beneficial. On the authority of Lord Caitanya and my spiritual master, I am requesting my disciples to always stay in the association of devotees and to propagate the sankirtana movement all over the world, so that others may get a chance also to become liberated from the material condition. Prahlada Maharaja prayed I am not satisfied to go back to the kingdom of God alone, but I must bring back with me all these poor fools who have no alternative ultimately than to surrender to You. This form of worship called gostanandi is more superior than the gostanandi or the holy man who lives alone in meditation of the Lord within the heart. This is the estimation of the scripture.

It is very encouraging that you are feeling convinced of the genuineness of the Hare Krsna movement and the disciples as at New Vrindaban. Although you feel you must leave their company sometimes you should pray to Krsna to give you the intelligence to seek out the association of genuine Vaisnavas more and more. That will insure your own genuineness, if you always engage in chanting Hare Krishna, avoid the four sinful prohibitions, then it does not matter where you are, you can attain to perfect love of Krsna.

My dear Jagadisa,

Please accept my blessings. I beg to acknowledge receipt of your recent letter mailed to Germany, and I have examined the contents.

As of your writing, Govardhana Prabhu, the Detroit president had left his post and was living in the Chicago temple, because he was not chanting his sixteen rounds. I hope by now he has taken your advice and has returned to his post and is following the chanting with full knowledge. In your previous letter you stated that the deity worship in Detroit was superexcellent and that all programs were being expertly managed by govardhana. Why should he leave therefore? You write he is chanting 14 rounds daily; so you are experienced and know what to do in this case, simply encourage him to chant 16 rounds. The injunction is kirtaniya sada hari, one should always be chanting all day. The 16 rounds is just a minimum 1 set for my disciples so they will chant at least that much. Actually chanting should always be going on. So I will be anxious to hear that Govardhana has returned and is chanting more seriously, aware that he must do so to remain free from the clutches of maya.

Regarding the techniques for book distribution, it is all right if the devotees dress like the young people they are selling the books to. The main thing is that the innocent are given the books and the chance to become Krsna Conscious by reading them. You have to see that our book distributers are also reading my books and following all the regulative principles, then it is all right selling in public in that way.

So I shall expect to see you in Chicago on July 5 for the Rathayatra and we can discuss more.

Bangalore

My dear Pancadravida and Aksojananda Swamis,

Please accept my blessings. I am in due receipt of your travelling sankirtana report of 11 June, 1974.

Your work in Bangalore is very commendable and the report is pleasing to me. Go on preaching and making life members and distribute my books as much as possible. This is exactly the meaning of Lord Caitanya's teaching and by carrying it out surely you will receive His blessings which is to achieve Love of Krsna.

Your report that a Christian gentleman became a life member being attracted to our books is also our experience. Just today we spoke at a seminary in Melbourne, Australia, and the young Franciscan monks listened very respectfully. When speaking to Christians we never say our religious system is better than theirs but we speak on the principles of love of God, Sa vai pumsam paro dharmo [SB 1.2.6]. They become convinced and pleased to hear our explanations of God consciousness based on the Vedic conclusion-if they are at all sincere. So whenever you come upon such gentlemen or institutions try to place our books there and make them life members also.

I shall be glad to hear from you again. Be sure to regularly send all collections to the BBT.

San Francisco

My dear Bhakta das,

Please accept my blessings. I am in due receipt of your letter of June 17, and have carefully read the contents.

I am glad to hear you have been thinking of me and have arranged a nice house near the temple for my stay there. As you know, I will be arriving 6:30 P.M. from Chicago on United airlines on July the 6th. I am also looking forward to attending the grand festival of Lord Jagannatha.

You have said rightly when you write that the devotees are working to please me by distributing my books. My mission on behalf of my guru maharaj and Lord Caitanya, to spread Krsna Consciousness would never have been so successful if it had not been taken up by enthusiastic boys and girls such as in San Francisco, especially through distribution of books.

I can, however, only stay a few days in San Francisco after the Festival. I am due back in Vrindaban, India by about the 25th of July, and I wanted to visit Los Angeles as well as other cities in the U.S., so that does not leave me much time for staying in one place. My plan presently is to leave S.F. for L.A. on the 11th July. So any engagements you can make in S.F. before that time will be fine.

Dear Bal Krishna,

Please accept my blessings. I am in due receipt of your telegram of June 28, 1974.

Allow me to congratulate you and your wife for giving birth to a new child. Now see that she is raised in Krsna Consciousness so that at the end of this life she can go back to Home, back to Godhead. As far as my blessing is concerned it does not require my physical presence. If you are chanting Hare Krishna there and following my instructions, reading the books, taking only Krsna prasadam etc., then there is no question of your not receiving the blessings of Lord Caitanya whose mission I am humbly trying to push on.

Vrindaban

My dear Gurudasa,

Please accept my blessings. I am spending my last two days in Australia and after this I shall go to the U.S.A. In the meantime, I wish to give you some instructions regarding our Janmastami installation in Vrindaban.

The main thing is the ceremony shall be conducted by our own men. We do not have to be dependent on taking help from persons who will not even eat with us, thinking us inferior. All over the world, in Paris, New York, Australia etc., our men and women are worshiping the deity very nicely and I am very proud of their worship. There is no reason why we have to think we are dependent on any Indian goswami in order to conduct our ceremony in Vrindaban. So you understand this and be convinced of it, and let them come as invited but we shall conduct the affair ourselves.

You can also arrange to have the Her Govinda dramatical players and our own players as well. There should be abundant prasadam for whoever comes all day long. The kitchen should go on. So see there is sufficient stock of rice, attar, ghee, etc. The life members should be especially cared for and invited. We shall manage our own affairs. If they come that is good but if not we shall manage. From our side everything should be done nicely.

All big officers in Mathura and Vrindaban should be invited. Goswamis and godbrothers also. Also invite local Marwaris and invite Parthak also. Practically by distributing a general invitation card we shall invite everyone. All the inhabitants of Vrindaban will be invited to come and see the deity and take prasadam. There should be special arrangement for life members, Mr. Birla and many other respectable visitors. There is no question of money. Let it be a first class, 1-A arrangement. Krsna will provide all expenditures so try to make it gorgeous. Gorgeous means sufficient stock of prasadam and temple decorations as gorgeous as possible. The internal management of dressing can be done by Yamuna, Madira and Jayatirtha they are all expert. The sastric direction can be from Pradyumna.

Furthermore, try to get the land if possible within one lac rupees. If he doesn't agree we don't mind we can see the other land. Also Mr. Jaya Purna of Karnapura came to see me, so invitation should be extended to him. Invite all local asramas and sannyasis as well. I do not hear of Pranava; I sent him a telegram but there is no reply.

The whole management should be done combinedly. Do not fight amongst yourselves, as that is my only anxiety. I shall leave for Vrindaban by 25th July. In the meantime, reply to me at L.A.

My dear Cyavana Maharaja,

Please accept my blessings. I am in due receipt of your letter of 24 June which has just been forwarded to me here in Australia.

I am relieved to know your whereabouts again after not hearing from you for some time. You want to see me and I also have some important things to discuss with you, so the best thing is if we meet at the end of July in Vrindaban, India. Today I am leaving for the United States to attend Rathayatra in Chicago and San Francisco but at the end of July I will reach Vrindaban. We are having a very big festival there on Janmastami when we will open our Krsna Balarama temple by installing the deities. So you must also attend to help in conducting the ceremonies. I will therefore see you in Vrindaban by the end of July. If you wish to correspond with me before then you can write to the Los Angeles address.

My dear Bhakta das,

Please accept my blessings. I have gladly accepted for first initiation those devotees recommended by you and their spiritual names are as follows.

Tom Guild-Tatvavit dasa

Art Yri-Acyuta dasa

Debbie Yarber-Dhanistha devi

Leaf-Lila smaranam devi

Bala-Bala dasa

Now be sure these devotees know and vow to follow the four rules and that they are chanting at least 16 rounds daily. Initiation does not mean they have completed all spiritual perfection and now they can relax but it means now they have begun spiritual life. If they are true to their vows they will _ all perfection in this life and be eligible to go back to home back to Godhead.

My Dear Madhudvisa Maharaja,

Please accept my blessings. After leaving your place I went to Chicago and then San Francisco and in both the places the Rathayatra ceremony was very successfully performed.

Now about the convent which you showed me, I think that place is suitable for us and is possible we can purchase it. So the reasonable price should be on the land value. So far the buildings are concerned they have already dismantled part of it and it will be our expenditure to rebuild. Consider this points and talk with the realty man at what price they can sell the property to us.

I am going today to Los Angeles and along with me there is Bali Mardan. So if the matter is successful then you can call L.A. I shall be there at least for a week. How much financial help you require from the BBT you can talk on this and we should do the needful.

Hoping this meets you in good health, and everything is going well there.

My Dear Saurabha dasa:

Please accept my blessings. I am in due receipt of your letter dated 25/6/74 redirected from Australia. In the meantime I have received one letter from Karandhara Prabhu, so I am replying two letters conjointly. I also request you to draw an exact similar plan like that of our Vrindaban temple and send it to Trinidad at the following address: ISKCON, 21 C Penbroke St., Port Of Spain, Trinidad, West Indies. The idea is that we have got a land there, one half acre, and we want to construct a similar temple like Vrindaban there. So I hope at your earliest convenience you will send the site plan at least to Trinidad as soon as possible. We have a proposed temple in Bhaktivedanta Manor, Letchmore Heath, London, and I hope in the meantime you might have received the same request from Madhavananda Prabhu.

I am a little agitated in mind because Karandhara's letter says that there may be some work to be done even during the time of our festival. So far prasada distribution, it must be very gorgeously done for seven days. There is no scarcity of money. I shall supply. Simply you have to manage things.

I hope this meets you in good health.

Letter to: Sridhara Maharaja:

Navadvipa

My Dear Revered Sridhara Maharaja:

Kindly accept my humble dandabats at your lotus feet. I am very much thankful to you for your kind letter 17/6/74 and your kindly accepting my invitation during the opening ceremony of our Krishna Balarama temple in Vrindaban. Of course it is provisional if your health is in good order.

I am so much thankful for your appreciating my preaching work in the Western countries. Fortunately these American boys and girls are so kind upon me that we are happily preaching this movement all over the world. This time my world touring covers many European cities like Rome, Geneva, Paris, Frankfurt,; then I went to Australia to Melbourne, then to Chicago via Fiji and Hawaii. From Chicago I came to San Francisco and at present I am staying at Los Angeles. From here I shall go to Dallas, Texas. From there I shall go to West Virginia to our center New Vrindaban. From there I shall go to London. In London our Ratha yatra festival has been held up, and I think behind this obstruction there is some communal feeling. The local religious sect is not always happy on account of our movement being so fast growing. Especially thousands of young boys and girls are interested in this Krishna consciousness movement. So I think there is some plot to check up this fast growing movement. We are trying our best to counteract this opposing element but everything will rest upon Krishna.

Regarding your coming to Vrindaban during our festival, I may assure you that I shall arrange for your comfortable journey in the following way. One way is to come to the Dum Dum airport from Navadvipa by car, and then fly to Delhi, and then to Vrindaban by car, this will take a few hours only to reach Vrindaban. Another second alternative is to come to Howrah Station by rail, then take the Delhi Expression First Class, and come directly to Mathura, and from Mathura directly to Vrindaban. So as soon as you decide, everything will be arranged for your good self as well as one accompanying servant. If you so desire some of our god brothers whom you select may come with you, and you may let know there names, and I shall issue invitational cards to them.

Regarding preaching tour, it has become a little difficult for me because I have got the same heart trouble as you have, and still I am moving just to encourage these young boys who are working on my behalf.

You will be glad to know that our books are selling very nicely. Last year we sold about four million books, and this year within six months we have completed last years quota, and therefore we can reasonably expect to double the sale of last year. The only difficulty is that we are expanded worldwide organization, and it requires very acute management to keep up the status quo. So by Krishna's grace everything is going on nicely, and I am reaching India by the 26th of July.

I am yours ever sincerely,

A.C. Bhaktivedanta Swami

We wish to hold a grand festival of the opening of Krishna Balarama temple at Raman Reti. There will be seven days function, and the arrangement has been made that anyone who visits our temple may be supplied with sumptuous prasadam both kachi and pakki. So let Panchu take over this plan and when we meet we shall arrange this plan. Further when we meet at Vrindaban.

I therefore request you to edit it immediately if you have time because you wanted to edit the whole thing yourself. Otherwise why not give it to some of your Godbrothers to do the task? They think this philosophy discourse will very much help our movement, so why it should be delayed unnecessarily? I hope you will do the needful without further delay and let me know the results.

I hope this meets you in good health. Now I am in Los Angeles, and am going to Dallas. Surely I will see your daughter there. From there to New Vrndavana, then to London to see how things are going on. then I shall go to India for the opening ceremonies of our Krsna-Balarama Temple. Letter to: Alfred Ford

-

Los Angeles 16 July, 1974

74-07-16

Teton Village, Wyoming

Dear Sriman Alfred Ford:

Please accept Krishna's blessings and be happy. Hare Krishna. I beg to acknowledge receipt of your kind letter dated May 22, 1974. I do not know why it is so much delayed. Anyway I was not here and I have just come here one week ago, so I am sorry that replying your letter is delayed so much.

So far as your questions are concerned, in India a sannyasi or a person in the renounced order of life is always honored. Even in this fallen down condition of India a sannyasi is honored everywhere, and he has no problem for his living condition. So you are correct that a person in the renounced order of life is honored. Unfortunately some unscrupulous men take advantage of this renounced order dress and being filled up with all material desires they commit so many wrongful things, and the people in general take note of it and gradually the honor for the sannyasi is dwindling. Exactly like a person having received some counterfeit money is always afraid of being cheated, but this does not mean there is no good money. So unscrupulous men on account of this age of Kali yuga are taking advantage of sannyasi dress and are exploiting the people. So there is very awkward, and even a genuine sannyasi is sometimes in trouble. In the sastras therefore it is stated that unless one is perfectly detached from material things he should not be allowed to accept sannyasa order.

asvamedham gavalambam sannyasam pala paitrkam daivarena sutotpattim kalau panca vivaijayet [Cc. Ādi 17.164]

[TEXT MISSING]

with fish, and meat, and getting children begotten by a husband's brother should all be completely stopped in this age.

I am very glad that you are so much inquisitive about the sense of the sastras. Yes, Krishna always gives shelter to the surrendered soul. Krishna never allows a brahmana to be killed. In the Bhagavad-gita it is stated as follows.

kaunteya pratijanihi na me bhaktah pranasyati [Bg. 9.31]

"My dear son of Kunti, be assured and declare it to the whole world that My devotee is never vanquished." Krishna is also worshiped as namo brahmanyaya devaya. His first business is to give protection to the cows and the brahmanas.

Now this question may be raised why are so many cows being killed in the slaughterhouse. The answer is that those who are killing cows, according to the decision of karma kanda, these killers of cows will in the next life be cows, and the cows who are killed will become men and kill the killers. The word flesh is called mansa which means the animal in future will kill me and eat. This is called karma bandhanam, bound up by the laws of karma. If you kill some living being, he will kill you in the next life. According to Manu samhita, the Vedic lawbook, a murderer is hanged and thereby released from sinful activities so that in the next life he may not be killed. Life for life sentence is given to end the result of sinful activities in this life instead of waiting for the next life. Unfortunately people at the present moment do not know what is the next life, what is this life, what is karma, how one becomes entangled, how one becomes free. The modern education is void of all this enlightenment. They are kept in darkness without any knowledge of the values of life. Our Krishna consciousness movement is a great boon to the human society. We are trying to save the human society from all kinds of suffering, past, present, and future.

If you read all our books, Bhagavad- gita, Srimad-Bhagavatam, and others, you will get all the answers to your questions. Still I shall be very glad to answer besides that.

By the by I beg to invite you to our opening ceremony of our newly constructed temple of Krishna Balarama at Vrindaban beginning from August 8-15. I think we have exchanged some correspondence but I have never seen you. It will be a great pleasure to see you at your convenience.

I hope this meets you in good health.

MEMO TO ALL CENTERS

To all GBC and Presidents:

Please accept my humble obeisances at your feet. Srila Prabhupada has especially requested that henceforth there should be no approaches made to Alfred Ford or his family members for donations for temples. Prabhupada will personally handle these types of communications between Alfred Ford and our Society.

Also all devotees when writing a letter to Srila Prabhupada should include the return address on the letter and not only the envelope. Sometimes the envelope gets lost, and if there is no return address on the letter it is difficult to address the reply. All temples should be sure to print their full temple address on their letterhead, and not just have the name of the society with a blank space for the camp address which is sometimes omitted by the writer of the letter.

I hope this meets you in good health.

My Dear Caruhasa das;

Please accept my blessings. I have received your letter undated and also seen the picture book. You should know it that Krsna is not a plaything. These things should strictly not be done.* If you do this, then Krsna will become a fairy tale. Please drop this matter.

I hope this meets you in good health.

My Dear Giriraja das:

Please accept my blessings. I am in due receipt of your letter dated July 11, 1974 the copy of which was forwarded to me here at our New Vrindaban. I am very pleased to know that things are going on according to routine. This morning we held a meeting of GBC members, and I have sent a telegram addressed to Karandhara as follows:

”YOUR RESIGNATION ACCEPTED AFTER CONSULTATION WITH GBC GIVE CHARGE TO JAGADISHA”-BHAKTIVEDANTA SWAMI So you note this and inform others. Jagadisa is immediately going there to India to take charge.

New Vrindaban

My Dear Satyabhama and Paramananda:

Please accept my blessings. I beg to acknowledge receipt of your letter undated and have noted the contents carefully. If Kirtanananda Maharaja speaks what I speak, then he can be taken a siksa guru. Guru sastra sadhu. The spiritual master is one, that is a fact. Kirtanananda Swami may be taken a sadhu not spiritual master, or as instructor guru. I don't think he is saying anything against our principles, so what is the wrong?

You have written that the devotees here say that you cannot know me, but only Kirtanananda Maharaja can know me. But, if Kirtanananda is a disciple and he can know me, and you are also a disciple, why you cannot know me? I have no objection to your taking Kirtanananda's instruction. There is no harm in going through Kirtanananda.

You are both old disciples, so why you should be feeling any difficulty?

I hope this meets you in good health.

My Dear Amogha das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 16, 1974 with enclosed clippings and the Christian paper Southern Cross. The articles are very nice, and I am very pleased how the Christian community are appreciating our movement. Actually we have no quarrel with them. We accept Lord Jesus Christ as the son of God and he was a great Vaisnava. Because he appeared in another country does not mean that we should not offer him respect. If we stick to our principles as I have given you, more and more these priestly class they will come to respect us and appreciate something of our philosophy. Therefore I stress so much the devotional rules and regulations.

I very much liked the report of the prasadam distribution at the club for businessmen. So I thank you very much for kindly sending me this report. I understand that you are preparing to go to Jakarta for preaching. So just go on as a sincere servant of Krsna, and you will be blessed by Krsna.

Mike Mitchell-Mahavaraha
Butch Eichelburger-Bhusaya
Hector Veriell-Hemanga
Christina Kennedy-Krsna devi dasi Please see to it that they follow strictly the rules and regulations as I have given you.

Regarding the second initiations, I am especially concerned that the second initiations not be taken cheaply. Brahmins are expected to rise early in the morning and follow strictly all the devotional practices. So I am enclosing the sanctified sacred threads and mantra sheets for Niragadev das, Paratpara das, Rajarshi das, Nirnasa das, and also a sheet for Vrajaraja devi dasi. So hold a fire yajna and impress upon them that they are taking vows before Radha and Krsna, the spiritual master, and Vaisnavas. Regarding the installation ceremony here at Vrindaban, it will be done before next Janmastami, and if the cement can be obtained, it will be done after three months. It is good that you have almost completed the new cement godown and the cowshed. I am very glad that people have offered to donate cows. Regarding your Janmastami program expectation of 10,000 people, it is very good. Thank you very much. I am very much pleased what you are doing. Give the people nice prasadam. This is what is temple-life. Chanting, dancing, prasadam, this is what I want.

Regarding getting the USA money for your Sunday feast program, no that is not required. Local people can contribute. There are many temples that are getting donations from the public. Please accept my blessings. I beg to acknowledge receipt of your letter dated July 26, 1974 and your Vyasa Puja Offering. It is very encouraging that many professors have purchased books for themselves and are considering to order them for their students. I very much like this program of the standing orders. Try to increase it up to 50,000 such orders from the libraries. I have written to Bali Mardan Goswami in this connection. Regarding the remark that distributing a book to a professor is 100 times better than to a ordinary man, I never said that. I said it was very important.

Regarding your suggestion for a book especially for use in college courses, if possible you can pick it up from my other books, articles and speeches. You have the idea, so you can do it, just suitable for them.

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 25, 1974 and have noted the contents. I am glad to learn that in Washington D.C. temple you are engaged also in the Deity worship. It is good, and it is also a good idea of bringing the Deity of Gaura Nitai with you, as you have suggested in a chest. That is how Indian sadhus carry their Deity. They have one chest, and they use the chest on which to put the Deity by opening the doors of the chest.

Your program of adding six more men to your party is approved by me. Yes, the advanced men can distribute the big books, and the new men the smaller ones. Your entire program is approved by me. By the grace of Krsna, you can teach others at the temples to distribute the books and perform Deity worship, and distributing prasadam. You do this work with my full sanction. Yes, I have seen the bus of Visnujana and Tamala Krsna Maharajas, and it is very nice.

My Dear Jadurani devi dasi:

Please accept my blessings. I beg to acknowledge receipt of your letters dated August 14 & 20, 1974 and have noted the contents. Regarding Picture #1, it was not enclosed, but yes Mother Yasoda feeding Krsna is parental love, or sometimes you can show Krsna with great difficulty placing the slipper of Nanda Maharaja on his head. Yes, sketch #2 is all right; it is supported in the Caitanya Caritamrta. #3 is also all right. #4 is also all right. Regarding #5 Visnu, Laksmi must always be with Mahavisnu. Yes there should be devotees around the garden or town. Yes, they would look like Visnu. Lord Visnu is never alone. Inside the building is proper.

#6 of Krsna and Balarama fighting as bulls is completely rejected by me. It is not good. You have made it demoniac. Make Them as they are themselves, as boys fighting. Never show like this. Everything is there in the Krsna Book. Don't imagine.

Regarding question #7 why red background? You can show the full Visnu form. Regarding #8 the color is referred to in the text, so you have to see that portion of the book.

Regarding your letter of August 20, Narada can have yellow dhoti. Brahmacaris can be shown in both yellow or saffron, both are correct. Yes, you can make the flower ships as you have described. Why have you discontinued writing the mantras on the bottom of the portrait paintings?

Dear Natalie Orloff;

Please accept my blessings. I am in due receipt of your letter dated August 5th, and am glad that you have had the opportunity to be in our temples in Toronto and Montreal and that you enjoyed the association of the devotees. Forgetfulness of Krishna means an unhealthy state of life which is symptomized by so many problems and distresses. So if we want to attain our natural happy state of life of full satisfaction, we must again take to the shelter of Krishna. Therefore we have established the Krishna consciousness movement, to let people attain again this healthy state of life. I hope you will continue to chant Hare krishna and carefully study our books which will guide you every step of the way to successful spiritual life.

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 2, 1974 and have noted the contents. You have mentioned that you want to write a book, but instead of writing books, you should read and explain my books to others. Reading and writing are the same, sravanam kirtanam vishnoh.

You say that Krsna is sending you only one new devotee every six months, but He says in the Bhagavad gita that out of millions of men one only becomes a devotee. You have sent a list of six men for initiation, so why you are disappointed? Do not think of changing the place. Stick to that place and chant Hare Krishna. Krsna will send more men, rest assured. Devotees may come or not come, but you do your duty.

My Dear Amsu das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 23, 1974 and have noted the contents. Regarding the worship of our Gaura Nitai by women pujaris, we worship Lord Caitanya in His householder life when He was with His wife, and not as a sannyasi. So, it is alright for women to do this service. But, besides this, service is spiritual and there can be no material designation. In Bhagavad-gita it is stated by Lord Krishna: striyo vaisyas tatha sudras te'pi yanti param gatim. The principle is that everyone who is properly initiated and following the rules and regulations can worship. This activity can not on the material platform.

According to the smarta vidhi, women cannot touch deity during menstrual period but the goswami viddhi allows. But it is better not to do it. One thing is that the seva can never be stopped for any reason. This also for the cooking.

I hope this meets you in good health.

My Dear Ramesvara Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 8, 1974 and also your letter dated July 18, 1974 with enclosed Chinese edition of Back to Godhead. I understand from your letter that you have loaned Hong Kong center $1500 for printing Chinese edition of Krsna Reservoir of Pleasure.

Regarding Macmillan, for our missionary work, we want to distribute more books and at a lower price. If they want to increase the price, then terminate the agreement. You must see the contract-if they can increase the price whimsically. Consult with lawyers if the agreement can be terminated. If we can print the Bhagavad-Gita at a lower cost, why they are insisting to print themselves at a higher cost? We can give them a press who can print at a lower cost so why they are insisting to print at a higher cost? Macmillan cannot increase the price unless their raw materials are costly. But we can help them to print it at a lower cost, so why they won't agree?

Regarding sales figures, please endeavor in this way. The sales figures-this is the only solace in my life. When I hear that my books are selling so nicely, I become energetic like a young man. It is very good report that the printers are surprised at our sales figures.

Regarding moneys collected, do not keep this money. Immediately spend on printing books. Perhaps we may require money for building purposes. This should be strictly followed: 50% for printing and 50% for building. No money should be invested for any business…

Regarding the society's leaders emphasizing business, you should understand what is the meaning of business. Business means to help the preaching. Preaching needs financial help, otherwise, we have no need for business. So far as I understand, our book business is sufficient to support or movement. My Dear Uttama Sloka,

Please accept my blessings. I am in due receipt of your letter dated July 18th. Thank you for your report of the Toronto activities. Regarding the initiations, I think that everyone has been initiated in New Vrndavana recently.

Regarding women worshiping the deity, in the Bhagavad-gita it is stated striyo vaisyas tatha sudras te'pi yanti param gatim. The idea is that everyone who is properly initiated and following the rules and regulations can worship the deity.

I hope this letter meets you in good health.

My Dear Bali Mardan das Goswami:

Please accept my blessings. I beg to acknowledge receipt of your letter undated. Regarding the temple opening ceremony, it has been postponed on account of the temple being unfinished. It will take three months. After opening the temple, then I shall leave India. That is my program. So far going to Honolulu is concerned as you have invited me, I can go there during the winter season, as I did last year, sometime after October.

Yes, I can be made President and Trustee of the Corporation as you have suggested. Now I want to make an International Trust Board for the whole Society. For this purpose I request Taittiriya to make a draft. If she has made it by this time kindly send it to me. What happened to that house that was proposed to be purchased by Alfred Ford?

I have received one letter from Sudama das Goswami that both of you had some hot conversation on the points of management, but I request both of you not to become agitated on any controversial point. A Vaisnava is supposed to be more tolerant than the tree and more forbearing than the grass. Besides that we have taken a great mission of the cult of Sri Caitanya Mahaprabhu, so everything should be done very diligently and soberly so that our missionary activity may not be hampered. All of our members are giving voluntary service, so they should always be encouraged in their service attitude. The other house which is

My Dear Gurukrpa Swami:

Please accept my blessings. You have sent some money for Mayapur and Vrindaban projects and I am very much thankful to you. This money was properly utilized for development of the Mayapur and Vrindaban schemes. Now I am in Vrindaban, but you may have been informed that the opening ceremony has been postponed until the temple and asrama are completed.

I would like to know how much money you have collected and how it was spent. Formally it was understood that money was paid to Dai Nippon and BBT paid to M-V Fund.

My Dear Abhirama das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 15, 1974 and have noted the contents. I have accepted the students upon your recommendation as my initiated disciples. Their spiritual names are as follows:

David Milo Cramer-Dhruva das

Ernest Czwal-Drsta das
Thomas Gribble-Takrahari
John Paul Gribble-Jagatsakha
Ron Jermakakian-Rajakari
Joseph Rizzo-Ragaputra
Jerome Schein-Srisa
Joseph Cyril Streb-Sarvopama
Marsha Bryant-Manini
Aurora Gribble-Akancani
Farnie Spottswood-Srutirupa devi dasi
Donna Tonkinson-Drsya
John Jill-Jambavan

As you have suggested, you may hold a fire sacrifice and the beads may be chanted upon by Rupanuga Prabhu. You should impress upon the new disciples that they are taking vows before Radha and Krsna, the spiritual master, and the Vaisnavas. They must always chant at least 16 rounds daily and avoid the four sinful activities.

Cleveland

My Dear Batu Gopala Das: I have received your letter dated 3/8/74.

Please accept my blessings. It is all right that you have remained there to do your duty. One should not leave a place if there is important business to do. That should be the principle. Here the temple opening has been postponed until the temple and asrama are fully completed. Yes, send the photos of your Deities, and I shall offer my obeisances.

Regarding the art of management, constant changing is not good. Even if there is some fault in management it should be corrected, not changed. Besides that, Vaisnava philosophy is that everyone is addressed as prabhu, or master. Everyone should consider himself the servant of the other. That will make management very nice.

Yes, you remain there in Cleveland permanently and manage it very nicely. That will please me.

Regarding the restaurant, you should not name it as you have suggested, but ”Hare Krishna Restaurant.” That should be the name. In each restaurant there should be the picture of Lord Caitanya, and the foods should be offered and distributed to the respected customers. There should also be a tape recorder playing the Sankirtana in mild voice.

Regarding the secretary for the Central Zone, I have now re-appointed Jagadisa Prabhu who has returned from India.

Regarding the devotees whom you have recommended, I accept them upon your recommendation and their initiated names are as follows:

John Haslett-Halayudha
Marjorie Haslett-Manovega devi
Chris Hayes-Khangi Please see to it that they follow the regulative principles strictly. That is your responsibility.

You may send the photos of your Deities here to Vrindaban.

I hope this meets you in good health.

My Dear Giriraja das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 14, 1974 and have noted the contents. I was very glad to learn that you had such a nice Janmastami celebration and that even our Mr. Setti was dancing during the kirtana. Actually it is due only to him that the plans for the residence quarters were approved by the Municipality. I have today received in the mail a receipt from the Municipality for the amount of Rs. 4,230/- as fees for cultural center.

Regarding Yasomatinandana’s college programs, you should give him full facility for this preaching work. This should be very much encouraged. He is a good preacher in Gujarati and Hindi. Regarding engaging the men, it is required that nobody should sit idle.

Regarding reducing the expenditure, you should reduce the conveyance account by 50%. You should localize your preaching and collecting programs as much as possible. The attempt should be made to raise monthly subscriptions from gentlemen in Juhu and Ville Parle Scheme. No one will give less than Rs. 5/- and you can collect Rs. 20,000/- monthly if you organize it properly, so you may not have to go downtown. Juhu and Ville Parle schemes are developing rapidly and all important men are coming to this side. You make up some monthly subscription books like a passbook with the name and address of each subscriber each with a number and the amount of the monthly subscription and the date paid, and when the subscription is collected the subscriber signs his name. In this way three or four men can go house to house. Now that our temple is recognized, everyone will pay. Now there is a food program that is popular amongst the local people, so they will pay. They can also pay in goods such as rice and dahl.

I hope this meets you in good health.

My Dear Hiranyagarbha das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated May 26th 1974 and have noted the contents. Jagadisa prabhu has informed me that he has already gone over the points with you at New Vrndavana recently. In teaching the children, you should refer very carefully to my books. The qualities of a brahman as mentioned in BG chapter 18: sama dama tapasocam [Bg. 18.42]. You must teach these qualities. These qualities will naturally come out, if you just give the process purely. The information is there in my books so if you strictly adhere to them then your program of teaching will be successful. First of all you must teach by your personal example. This is the principle of Lord Caitanya Mahaprabhu (apani acari bhakti pracaram). So you yourself must chant 16 rounds and follow the regulative principles and automatically they will do as you are doing. Then they will become strong Vaisnavas.

Regarding the initiation of Jon Walsh, please let me know if he was initiated there in New Vrndavana. If not then I will initiate him.

If you speak with the president there Bhakta dasa, he may be able to suggest ways that you can use your public relations in the service of Krishna. First of all you should get our books and read them, especially our Bhagavad gita as it is and Srimad-Bhagavatam. Vrindaban 19 August, 1974

74-08-19

Sintra, Portugal

Dear Mr. Lourenco,

I am in due receipt of your letter and thank you very much for it. I am glad to learn that you are so much keenly interested in our books Bhagavad gita as it is. It is stated in the Bhagavad gita that out of many thousands of men only one is searching for perfection. Manusyanam sahasresu kascid yatati sidhaye [Bg. 7.3]. So even in your young age you have taken to this process of Krishna Consciousness. This means that in your previous life you were advanced in yoga but somehow or other you were not able to complete but now you have taken to it as if automatically. This is also explained in the Bhagavad gita 6th chapter regarding the yoga bhrastras those who have fallen from the process of yoga and who automatically take to the principles of God consciousness in their next life. Regarding performance of Sankirtana yajna, this is explained in my book the nectar of devotion. Caitanya Mahaprabhu has given us the chanting of the Maha mantra: Hare Krishna Hare Krishna Krishna Krishna Hare Hare Hare Rama Hare Rama Rama Rama Hare Hare. It may be performed as sankirtana congregational chanting in public. This done by our sankirtana parties that go daily into the streets in many cities of the world. Or this yajna may be performed quietly and privately with one’s self by chanting on beads. This is known as Japa. So this I think can be performed by you very easily.

We have a temple located in Paris at the following address: 4 reu Le Sueur, 75016 Paris, France. You are welcome to go and stay there for some time to learn Krishna Consciousness. You can write to them and they can give you information on obtaining many of our other books. We have a book on the story of Krishna. It is called Krishna, the Supreme Personality of Godhead. I think you will like this book very much. These books are in disciplic succession. They are authorized and they are giving the real process of Krishna Consciousness never before made available to the English speaking world.

I hope this meets you in good health.

My dear Sridhara das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated Aug. 14th, 1974 and have noted the contents. Yes you are correct that even though you do not consciously try to create misunderstanding still it seems to always come to you. Samsara davanalalidha loka tranaya karuna gana ganatvam praptasya kalyana gunarnavasyam vande guroh sri caranaravindam. This is the nature of the material world.

I am glad to hear that now in Bombay finally you have good facilities for eating and sleeping, other-wise how will you live? It is also good that Mr. Candrai has donated a water filter.

Regarding your question about eternal spiritual and temporary spiritual, the temporary spiritual is the impersonal brahmajyoti. The impersonalists by severe austerities and penances arise to the Brahman effulgence. But it is only temporary. Eternally we cannot remain aloof. As living entities, we want pleasure in association; therefore we see in the material world where for sense gratification the karmis take so much responsibility. First of all they accept one wife. The more he enjoys the wife, the more he becomes implicated. So, this means that we must have pleasure even at the risk of gross implication. Therefore our Krishna Consciousness movement is that we want pleasure but without any implication. This is happening actually. All of our Krishna Consciousness students they are enjoying life without any implication.

The impersonalist who prefers to merge with the Brahman effulgence has no shelter at the lotus feet of Krishna. Therefore such impersonalist even though raised to the Brahman platform come down again to the material world for pleasure’s sake. In India you will find many sannyasis who merge into the Brahma effulgence, but without any pleasure there, they come down to the platform of material activities of opening schools and hospitals-Daridra Narayana, etc. Such men with poor fund of knowledge do not know that in the material world however you try to arrange things very right, it will always fail. But in the spiritual world the spiritual varieties displayed by Krishna along with his associates gives eternal pleasure. That is wanted. The Brahma effulgence, there the pleasure is temporary.

I hope this meets you in good health.

Wilingford, Pennsylvania

My dear Vidarbha Kanya dasi

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 2nd 1974. In spiritual life it is very important to set a good example. The teachings of the param para are simply based on this principle of acarya. Sometimes the wife must bring the husband to Krishna Consciousness, so you yourself must chant 16 rounds and follow the devotional practices and reading my books. If it is difficult for you and you are falling down then it would be better for you to live in any one of our temples.

All of you are coming from backgrounds of bad habits, so to make progress in Krishna Consciousness we must overlook the faults of others. You must be patient with your husband. Chanting offenselessly is the remedy for all of these diseases. Therefore I have established that the duty of the president of each temple and also the GBC is to see that each devotee is following the rules and regulations, chanting 16 rounds so that they may be spiritually fit. So if you are having difficulty then it would be better for you not to live apart but to associate with other devotees.

I hope this meets you in good health.

My dear Caruhasa das,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 26th 1974 with the enclosed slides. I appreciate your interest in making the Krishna book film but it is not important for now. I therefore think that you could use your talent better if you work with Yadubara. In Hawaii I understand that he is making TV programs. So you can go and help with him. I do not care very much for these filmings because by presenting Krishna in this way it makes it something like fantasy. It is better to have people to read my Krishna books what I have written so that they can understand Krishna fully. I think you can understand this.

I hope this meets you in good health.

My dear Dixit das,

Please accept my blessings. I am in due receipt of your letter dated July 23rd and have noted the contents. Yes your idea about minimizing the expenses of the Juhu project are very good. I have just written a letter to Giriraja suggesting that they do this and the way is to localize the collecting program. They should collect their funds from the local people in Juhu and Veille Parle Scheme. So I have given them a plan for taking subscriptions from respectable men who are living in that area. So I may request that you help them to make these subscriptions amongst the local inhabitants. I think if you work with them in this way then everything will be alright.

Service to Krishna is the perfection of all relationships.

You may know that we have had to postpone our temple opening here due to the buildings not being completed, but we hope to complete by three months time.

I hope this meets you in good health.

Dear Swami Jara Kumar,

Please accept my best wishes, I beg to acknowledge receipt of your letter dated July 10th 1974. In this age the spiritual revolution was recommended by Lord Caitanya Mahaprabhu. He demonstrated that the Yuga Dharma for this age is the Sankirtana chanting of the holy names. If we want the degraded mass of people to be elevated, we must stop their sinful activity. To stop sinful activity one must purify the mind and the best process for purifying the mass mind is the chanting of the maha mantra Hare Krishna. This can be done in public where everyone has a chance to hear and be purified.

We experience that people are becoming more friendly and helping our movement in America simply because we are performing this sankirtana yajna. I hope you can understand this. This movement is authorized and confirmed by great acaryas as well as the sastras and also by Lord Caitanya Himself Who is the Supreme Personality of Godhead, non different from Krishna.

I am presently here in India and will be staying here for some time. If you like you can visit our temple located in Munich at 8042 Oberschliessheim Dr. Hoffmeister Strasse 7, Munchen, West Germany.

I hope this meets you well.

Yours faithfully, A.C. Bhaktivedanta Swami

Dear Radha Kanta,

Please accept my blessings. I beg to acknowledge receipt of your letter dated July 1974 hand delivered. You should understand that when you sat at the fire sacrifice upon your initiation, you made a vow to the Spiritual Master at that time. So, you should not break these vows. You say that you appreciate the association of devotees but how will you withstand the material attraction? If you are not chanting Hare Krishna offenselessly and regularly? Affection for the spiritual master and following the instructions of the Spiritual Master is the same. My instruction is that all of my disciples must attend the mangala arati and chant 16 rounds daily.

This life is very flickering. At any moment you may die so we must cling very close to the instruction of higher authorities, the spiritual master and Lord Krishna in Bhagavad-gita. So I think that you can follow the instructions. You are intelligent hard working boy. In the meantime until you get stronger, you should remain in the association of devotees. In this way you will get a taste for spiritual life. In Bhagavad gita it is stated: mac-citta mad-gata-prana/ bodhayantah parasparam/ kathayantas ca mam nityam/ tusyanti ca ramanti ca [Bg. 10.9].

I hope this meets you in good health.

My dear Richard,

Please accept my blessings. I beg to acknowledge receipt of your letter dated Aug. 2. Regarding thinking of Krishna at the time of death. It is stated in Bhagavad gita 8th chapter as follows; abhyasa yoga yuktena/ cetasa nanya gamina/ paramam purusam divyam/ yati parthanucintyan [Bg. 8.8]. He who meditates on the Supreme Personality of Godhead his mind constantly engaged in remembering me, undeviated from the path, He oh Partha is sure to reach Me. The proccess for remembering Krishna is very easily done by chanting Hare Krishna Maha mantra. How one should think of Krishna, that is given in the next verse: "One should meditate upon the Supreme Person as the one who knows everything, Who is the oldest, Who is the controller, Who is smaller than the smallest, Maintainer of everything, and Who is beyond all material conception, Who is inconceivable, Who is always a person and luminous like the sun, and Being transcendental, beyond this material nature." So Krishna is not something impersonal or void. So you should read my books and try to understand the nature of Krishna the Supreme Personality of Godhead, then it will be easy for you to think of Him.

I thank you for your desire to distribute the Goswami literature. Right now we are publishing Caitanya Caritamrta in 12 volumes. It is a big expense so if you would like to contribute something give money to my book trust. You can make some contribution and help in this great mission.

I hope this meets you in good health.

Dear Karandhara Prabhu:

Please accept my humble obeisances. I have received your letter with enclosure dated August 21, 1974 and presented your proposal to Srila Prabhupada of his writing a memo to the negligent temples. The following was his reply:

"I am not going to manage Spiritual Sky. This is ridiculous. Why they are dragging me into the management. Now the acharya is meant for handling business? Jayatirtha should handle this. He is the manager. Jayatirtha and Karandhara are the chief men. they should manage. Why I have to manage? They have big, big brains. Why they are failing? Now the Founder-Acarya has to manage. Without my consent the BBT has financed."

He has suggested that the GBC take steps to correct the Spiritual Sky mismanagement, and that local GBC men request the temples under their jurisdiction of those listed in your letter to pay instead of Srila Prabhupada writing himself. He said that this is not the business of the Founder-Acarya of ISKCON.

A memo to all GBC is being sent in this regard.

My dear Citsukhananda das;

Please accept my blessings. I am in due receipt of your letter dated August 19, 1974, with enclosed clippings and a copy of the Hare Krishna News. Your work there is very much pleasing to me. Take good attention to the negroes and they will come out good devotees. How many copies have you printed of your local newspaper? I think that everyone will be interested in it. Regarding life membership, Brahmananda Swami can instruct you. You say that the money can be sent out; there are no objections from the government to do this? Please give the details how you can send the money here.

One thing, is the Society registered there?

So I am glad to learn that you are with your wife and doing very nicely. Combine together and do everything well together. Raise your children in Krishna consciousness and be an ideal household couple. Your wife is a good devotee, that I know. But one thing, do not pick up any childish quarrels together, live peacefully and go on with your Krishna conscious business. You deserve all good encouragement for the work you are doing there.

Regarding the plans for the temple, you should send to Saurabha a site plan for the area of the plot and then he can send you the plans. If possible also send photos of the plot. Be sure and mention what is the exact area of the plot and he can make the plans accordingly.

Letter to: Gurukrpa :

My Dear Gurukrpa Maharaja:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 27, 1974 and have noted the contents. I note that you have remitted for M-V total of $185,807.00. You say that after this last payment to Dai Nippon, you will not be able to send any legal payment out of the country. But, Ramesvara has just written that after this payment you will be able to make all future payments to my account direct. Please clarify this. But, there are Indian merchants there who can help you. If they understand that we are using the money here to build temples, they will help. You must use your best judgement. What can I advise?

Regarding the allurements of money and women, Krsna will protect you. Caitanya Mahaprabhu at a young age took sannyasa and Sarvabhauma Bhattacarya was also thinking like you are thinking. So as a friend Sarvabhauma wanted to teach Caitanya Mahaprabhu Vedanta. The result was that Bhattacarya had to learn Vedanta from Caitanya Mahaprabhu, and became his disciple. So Krsna is always strong. If you are fully engaged in Krsna's service attraction of women will be a myth only. It is only Krsna's grace. Of course we are old men now, but even old men they are attracted still by women. So even old man or young man, if one's mind is fixed up in Krsna's lotus feet, there will be no such mundane attraction. Even a woman in the dead of night with all attractive features could not affect even sligtly Haridasa Thakura. So it is a very pleasant job transcendentally. So much so that women and money is no attraction to a devotee. A devotee knows how to engage himself and others in the service of Krsna completely, as well as all the wealth of the world in the matter of propagating Krsna consciousness. Rest assured.

I hope this meets you in good health.

This thing will be a taxation on the brain on the young children. Why are you inventing? Why you are not satisfied? You are all only inventing and spoiling money. You should teach the children perfectly Sanskrit and English instead of spoiling time and money. The children cannot pronounce correctly the Sanskrit. Let them read it correctly, that is wanted first. They must pronounce nicely English and Sanskrit. The English is no difficulty. If you can do this, then your education is all right.

Thank you very much for taking so much care of my health by praying to Nrsimhadeva. He is very kind. By all your prayers He will surely take care of me.

It is very good that you are making life members daily locally instead of going to the city. Better to get sympathy in the neighborhood. As soon as they will see our activities, they will be very much pleased. You must keep in touch with them, that is their real complaint. It is a very big scheme. Hundreds of thousands will give for this scheme. Let them come in the evening, see kirtana, take prasada, and liberally contribute. They will feel releaved to contribute to such a good cause. Try to publish in Hindi and Gujarati our literature.

On Hare Krishna Land no proposal for rental of even a pinch of land shall be entertained by you. Strictly this should be followed by you. No more tenants. Please accept my blessings. I beg to acknowledge receipt of your letters dated August 17 1974 and August 26, 1974 and have noted the contents. As you are appreciating my books, so if all educated people in your country also appreciate, that will expand our missionary activities.

One thing I received one letter from Gurukula regarding the Krsna Bowl contests, and I want you to know that nothing new should be added. Whatever I have introduced should remain. Nothing new should be added. New things means their brain is not clear. Carefully manage things what I have established.

I am glad to learn that in Philadelphia they are increasing Sankirtana. It is our life and soul. Sankirtana should be increased as much as possible. Side by side is book selling. Then our mission will be successful. It is also good that in Atlanta they are doing college courses. Similar attempts should be made in other places.

Regarding the Buffalo project, New Vrindaban is the example. You should develop in a similar way. Have milk, vegetables, simple living, and chanting Hare Krsna. The whole world is engaged in unnecessary hard labor with their factories. It is a brain killing civilization. Let them come to free life. Spend time chanting Hare Krsna, reading books and making their lives successful. This is very essential propaganda. People must be informed.

Brooklyn

My Dear Bali Mardan das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 28, 1974 and have carefully noted the contents. My only anxiety is to guide you. Krsna sometimes makes me sick just to examine how much you have learned to conduct the business under my guidance, with a little independence. You should never act independently, because my guidance in my words are always there. The main guidance is all of us should remain spiritually strong by chanting the minimum number of rounds and following the rules and regulations. The GBC should personally observe strictly all the rules and regulations and they should become the practical example to others. Then everything will be all right. Then there will be no fear of being victimized by maya.

Regarding the International Trust Board, we are now expanding and so our interests should be carefully guarded. Certainly the 12 GBC members are being trained up strictly under my guidance so that they will protect the interest of the society very, very carefully. All our property should be well protected, and I think in every document my name as Founder-Acarya should be mentioned. Special care should be taken that no property can be sold or mortgaged by local managers as was done by Gaurasundara. This is my only concern.

BBT management should be rigidly done very carefully, and I think Ramesvara is a good manager. He can be appointed BBT secretary. I approve BBT moving to New York, because of their freehand dealing. Ramesvara may be made your assistant and remain with you. It is all right that no others be appointed as Trustees at present.

Regarding the matter of Sudama Maharaja there will be no more discussion. Immediately this should be stopped, this matter. Sudama Maharaja should be encouraged. He is doing nicely. Practically the old branch was abolished. Since he has gone there, things have improved very much. So he should be encouraged very much in his activities. Amongst ourselves there must be very liberal and friendly dealings. This is not an ordinary thing that if somebody has got some fault he should be cut. He should be reformed by amicable dealings. We are training our men since a long time. It is very difficult to get trained up assistants.

Regarding the library party in each GBC zone that is a good idea. Regarding the 24 hour kirtana as a regular temple function, do not do anything impractical. If it is not possible, then don't do it.

I hope this meets you in good health.

My Dear Sudama and Subaladas Goswamis:

Please accept my blessings. I beg to acknowledge receipt of your letters dated July 29, 30, August 6, 28 and 29th and telegram dated August 6, 1974 and have noted the contents. This restaurant program will not work. Do not attempt. You have to organize that new house. The restaurant is not at all advisable at the present moment. Restaurant is a very difficult thing.

Best idea is for Subala to go to Fiji and preach. That is the business of sannyasi, not opening restaurant. Restaurant is for grhastha. Preaching is first. Subala should go there and tactfully manage and get men from Australia. Mr. Punja has written that he is arranging the ticket and will give assistance. So do it nicely.

I hope this meets you in good health.

Mr. Jiri Svoboda 494 Huron St. Toronto 5, Ontario Canada

Dear Mr. Svoboda:

Please accept my best wishes. Thank you for your letter dated July 25, 1974 and I am glad to know that you have come to appreciate our Krsna consciousness movement and the philosophy we are trying to spread throughout the world. I hope you will try to regularly visit our temple in Toronto and have association of the devotees and attend the classes on the Bhagavad-gita. So far as your translating the Gita, I suggest you write to Hamsaduta dasa Adhikari who is in charge of this area of the world. You can get his address at our Toronto temple. He will be able to advise you further in translation work.

Actually not only the problem of nationalism, but every problem of the world is due to a lack of Krsna consciousness. That is the only scarcity. So try to learn this philosophy nicely in association with other devotees and certainly you will be able to do great benefit to your fellow countrymen.

I hope this meets you in good health.

I am glad that you are enthusiastically taking up book distribution and have increased to 15,000 pieces per month. You have rightly understood the potency contained within my books. So far as being leader is concerned, leader means spiritually not materially. This you should understand very clearly. If spiritual potency and strength is there, then material intelligence will automatically follow. We must have a solid foundation of chanting and following the regulative principles. Then one is fit to lead others. I hope you will understand this point.

My Dear Nari devi dasi:

Please accept my blessings. I beg to acknowledge receipt of your letter dated nil and have noted the contents. The problems you write of indicate that your spiritual foundation is very weak. To make advancement in Krsna consciousness one must decide whether he is going to be serious or not. If one is actually serious, then by chanting Hare Krsna 16 rounds daily, following the four regulative principles, and reading my books, certainly you will make advancement, and these such problems will fall to the side. I therefore request you because you are an initiated devotee to take up Krsna consciousness seriously as you promise at the time of your initiation, and be happy in Krsna consciousness.

Dear Swami Satpremananda Sarasvati:

Please accept my best wishes. I beg to acknowledge receipt of your letter dated July, 1974 and have noted the contents and thank you for it. So far as initiation is concerned, it is best if you live in one of our temples for some time and follow the rules and regulations and chant Hare Krsna on the beads 16 rounds. Then upon recommendation of the temple president, you can be initiated.

Nowadays there are so many so-called spiritual masters, it becomes bewildering to us as to who can actually give spiritual knowledge. Therefore I have written volumes of books, authorized Vedic literature, of which you can take advantage in association with the devotees who are practicing this knowledge. Thus you will be able to learn the science of God.

Dear Mr. Apparao;

Please accept my best wishes. I thank you for your letter dated nil and I am very glad to note your enthusiasm for becoming Krishna conscious. Actually we can see that by so much material endeavor, no one is becoming satisfied or happy. Rather the world is becoming a more hellish place to live. Therefore one who is able to take to Krishna consciousness is considered the most fortunate of men. To help people in this regard I have established my temple all over the world. Presently we have established a nice center in Hyderabad where you can take full advantage of the temple life. There you will be able to purchase our books, attend kirtana and lectures and take Krishna prasada every day. Our temple president Mahamsa Swami will be able to completely guide you. He will be able to engage you in Krishna's service.

My Dear Batugopala das;

Please accept my blessings. I am in due receipt of your letter dated August 21, with enclosed photographs. So Kirtanananda Maharaja has installed Deities. But without twenty devotees how you can have Deities? Your men are coming and going so why you are having Deity installation? You must have twenty devotees. Kirtanananda Maharaja, he should supply those devotees since he has authorized the installation. You can name the Deities, Radha-Muralidhara.

Regarding taking the Deities out on sankirtana as advised by Tamala Krsna Goswami, occasionally the Deities may come and go, however you can let Tamala Krsna Goswami guide you in this connection. Regarding having your wife do the management, if there are no men available then what can be done? But now there is some difficulty in the management there is no question of opening up any restaurant. Do not open any restaurant.

I am glad to see that you are living an ideal grhastha life. That is very good. The more you will become Krishna conscious the more you will forget sex life. Sex life is the original root cause of material bondage. When one takes to Krishna consciousness gradually sex at last becomes abominable, then he is fit to enter back to home back to Godhead.

I hope this meets you in good health.

Letter to: Guru-gauranga

74-09-07

My dear Gurugauranga das;

Please accept my blessings. I am in due receipt of your letter dated Sept, 1 1974 and have noted the contents. Regarding the marriage of Ramiya devi dasi; you can find out a suitable boy there, I think that Bhagavan das can arrange this. It is not necessary for Bilvamangala to marry this particular girl, another can be found out. Regarding the remarks of Prof. Jean Herbert, in Bhagavad-gita we find no instruction except devotional service or bhakti yoga. We have to prove this from the statements of the Bhagavad gita. We cannot accept the interpretation of an outsider. Regarding karma yoga the Lord says:

yat karosi yad asnasi yaj juhosi dadasi yat yat tapasyasi kaunteya tat kurusva mad-arpanam [Bg. 9.27]

This mad-arpanam is bhakti yoga. Similarly the Lord says:

bahunam janmanam ante jnanavan mam prapadyate vasudevah sarvam iti sa mahatma sudurlabhah [Bg. 7.19]

This means that jnana alone is not good unless the jnani surrenders to Krishna. Unless one does so his knowledge is not perfect. Similarly at the end of the Bhagavad gita the Lord says:

sarva dharman parityajya mam ekam saranam vraja aham tvam sarva papebhyo moksayisyami ma sucah [Bg. 18.66]

This is the ultimate goal to surrender to the Supreme Lord. This is the end of yoga.

He also says at the end of the 6th chapter:

yoginam api sarvesam mad gatenantaratmana sraddhavan bhajate yo mam sa me yuktatamo matah [Bg. 6.47]

Of all yogas, karma yoga, hatha yogi, etc., one who always thinks of Krishna is the 1st class yogi. We are teaching people to become 1st class yogis in Krishna consciousness.

I hope this meets you in good health.

My Dear Hamsaduta das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 10, 1974 forwarded from Bombay. The photo you have sent is a nice picture. I am getting it framed. So in Germany when I was there I was very, very hopeful. There is good scope for preaching Krsna consciousness there. The people there are very intelligent. They are prepared to accept the real truth. Germany was always famous for its intelligent population. You are also appropriately fit to push on this cult in Germany. It will be a great success. Get the German people to take this movement seriously. Utilize the money you are collecting there for printing more and more books in German language, and profusely distribute our books in German language. I am very pleased that you are printing in German the books you have mentioned.

Regarding the farm, the exhibition is there in New Vrindaban. Kirtanananda Maharaja has organized very nicely. The same principle you can follow and organize it in Germany. Let the people be happy with self sufficient food grown in the field with milk products. When I was in Frankfurt round our place I was so happy to see the farms and the cows. Unfortunately they will kill the cows. So if we organize a farm without killing any cows, that will be a great example in that country. Instead of killing cows, if we let them live, we can get so many nutritious foodstuffs filled with vitamins. I have seen in New Vrindaban how happily our devotees are living there with fresh air, fresh vegetables, and ample milk. Simple living in cottages. What you want more? We should not neglect the upkeep of the body, and we should save time to chant Hare Krsna. This mission should be propagated. Save time and chant Hare Krsna.

Now you publish in German language all our books and distribute. Krsna will help you in every respect. The BBT collection should be spent 50% for publishing and 50% for construction of temples. At the present moment the Mayapur-Vrindaban projects are going on, so as soon as there is an excess of money it should be utilized here. Not a single farthing should be invested in any business enterprise. Formally it was so done without any sanction. So be careful. Regarding printing, you can print in U.S.A. or any other country. U.K. also has big presses, I have heard that Belgium is also good. Also Holland, and Germany is also good.

Try to revive the Ratha Yatra next year in London. Agree to follow all their instructions, but the ratha must move in procession as it was done previously. People enjoyed it, both European and Indian. Everyone enjoyed. Why there should be this restriction for public enjoyment? This is injustice both the Indian and European people.

Regarding Madhavananda he will work more and more enthusiastically. Both husband and wife. Combined together they can do herculean task. And they are devotees also. He is good worker. Encourage him. It is nice that you are purchasing the houses in front of Bhaktivedanta Manor. Yes, have London pay BBT as much as possible. They owe a great amount. Regarding record albums, it is something sentimental. They will purchase and hear for sometime and throw it and purchase another. A book purchased will remain, and once even one line is read, that will benefit the reader.

Regarding the printing, it does not matter where you print our German books. Never mind the cost whether it is a little more or less. Wherever it is convenient. We are not after profit. The important thing is good printing and binding so that the people will be impressed. A book sold rather than a record will be a solid sale.

Regarding your trip to U.S.A. you say that you will be tactful and respectful in your dealings. That should be the motto of all GBC. Be tolerant, and if there is any deficiency, rectify it. All our men have volunteered good service, so the background is good will. So everything should be done on the basis of good will.

Regarding transferring to ISKCON FOOD RELIEF, you can transfer to ISKCON American Express a/c # 3002, Bombay. When you transfer, be sure to notify them by letter what the money is for.

I hope this meets you in good health.

My Dear Jadurani devi dasi:

Please accept my blessings. I beg to acknowledge receipt of your letters dated August 14 & 20, 1974 and have noted the contents. Regading Picture #1, it was not enclosed, but yes Mother Yasoda feeding Krsna is parental love, or sometimes you can show Krsna with great difficulty placing the slipper of Nanda Maharaja on his head. Yes, sketch #2 is all right; it is supported in the Caitanya Caritamrta. #3 is also all right. #4 is also all right. Regarding #5 Visnu, Laksmi must always be with Mahavisnu. Yes there should be devotees around the garden or town. Yes, they would look like Visnu. Lord Visnu is never alone. Inside the building is proper.

#6 of Krsna and Balarama fighting as bulls is completely rejected by me. It is not good. You have made it demoniac. Make Them as they are themselves, as boys fighting. Never show like this. Everything is there in the Krsna Book. Don't imagine.

Regarding question #7 why red background? You can show the full Visnu form. Regarding #8 the color is referred to in the text, so you have to see that portion of the book.

Regarding your letter of August 20, Narada can have yellow dhoti. Brahmacaris can be shown in both yellow or saffron, both are correct. Yes, you can make the flower ships as you have described. Why have you discontinued writing the mantras on the bottom of the portrait paintings?

I am very glad that you are taking up this active service of preaching. In Amsterdam you just try to deliver the fallen souls. Caitanya Mahaprabhu is known as patita pavana, the deliverer of the fallen souls. So as you have taken the vow of service you can deliver the most fallen souls by this Krishna consciousness movement. There in the temple they have got now Jagannatha Deities so let them worship and do it nicely. When you have got practice and 12 brahmana devotees then Radha and Krishna can be installed. Regarding the incense factory; yes, you can guide them but you should not be very much involved with business. Be on the sidelines and help them. My dear Satsvarupa dasa Gosvami;

Please accept my blessings. I am in due receipt of your letter dated September 2, 1974 together with enclosures. Your letter is very much pleasing to me with the report of the book distribution. Whenever I get report of my book selling I feel strength. Even now in this weakened condition I have got strength from your report. You should know that in this work you have Krishna's blessings. You are a sincere worker. Right from the very beginning when you joined me you have always been a sincere worker, therefore, I keep you as GBC. You may not be a good manager, but whatever I say you accept. These are all good qualifications. Others should follow your example and take instruction from you to push on this library program. I have instructed Tamala Krishna Goswami that he can also so this library program.

The American people are very intelligent, therefore I concentrate on the Americans for spreading this movement. They are not crippled by poverty like here in India. In India of course the people are naturally Krishna conscious. Whenever we have some Krishna conscious program they come by the thousands, but they are crippled by poverty. Therefore it is difficult for them to take to this movement seriously. So you go on with your work there in America and distribute my books to these libraries. This is very encouraging to me, to write more books.

Manipur

My Dear Svarupa Damodara dasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 3, 1974 and have noted the contents. So it is very good your preaching there in Manipur. This is your duty. By the grace of Krsna you have got a position in the education field, doctor of chemistry. When you will present our philosophy the educated circle will have to listen. They cannot neglect. So when ever you speak, speak scientifically about Krsna's existence. _ is the background of the cosmic manifestation. This is a fact. Unfortunately because people have become demoniac, Krsna is not realized, naham prakasha sarvasya. He is not exposed to the nondevotee. Our mission is to turn the people to become devotees so that they can see Krsna. As it is stated in the Isopanisad, niranmayena patrena satvasyapihitam mukham.

So we have got a great mission. You are one of the strong pillars of the mission. So I have all confidence in you. Follow strictly all our rules and regulations. Be fully strong to push on this cult amongst the educated scientific circle. That you are getting many speaking invitations is a good indication. Take advantage of this. Krsna is asking you to do this job. The people there are naturally Krsna conscious, and when you present more scientifically, then will be convinced.

I hope this meets you in good health.

My dear Tamala Krishna Goswami;

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 4, 1974. Regarding my health, I was lying almost unconscious. Now by the grace of Krishna, I am walking in the morning but I am still very weak. Neither do I feel any proper appetite. So the weakness is there, but I feel that I am progressing a little each day. So your preaching work is very encouraging to me. You have got the proper field now. So continue with the cooperation of Visnujana Maharaja, so that your example can be followed by others.

Your program for distributing books and having the street festivals and then preaching and making devotees is very good. Also by teaching by your personal example and attending to the Deity worship is the most convincing. Example is better than precept. I am glad to note that the 24 hour kirtana was going on. It is by your chanting that I am now saved from the dangerous condition. It was very serious. Anyway regarding the constant 24 hour kirtana, you should not do anything impractical.

I thank you for sending the thousand dollars to the ISKCON food relief. We are using the moneys that have already been sent from USA in Mayapur for purchasing grains. In Bombay they also have a very nice prasada distribution program.

I have been receiving letters from Satsvarupa das Goswami about his successful library program so I think you also can take up this program in conjunction with your sankirtana festivals. Get standing orders for Srimad-Bhagavatam and Caitanya Caritamrta as many as possible. This is very good preaching work. Letter to: Hamsaduta:

Vrindaban 12 September, 1974

74-09-12

Los Angeles

My Dear Hamsaduta das:

Please accept my blessings. I have just now received some letters from London from Madhavananda and others brought by Paramahamsa Swami who was there. Regarding Madhavananda being the president, if he received the vote, why you have opposed? You must be impartial. My recommendation is that he must be the president. He has been chosen by the vote, and I am giving the casting vote for him. He is doing things very nicely there, so he must be the president. Prabha Visnu should go on Sankirtana, and Madhavananda should be president. Everything must go on. The women are doing nicely, so why are they being changed from the pujari to the Sankirtana? These things should be done by the President. These are internal things, and you should not interfere. I do not approve of your changing the women. It should be the choice of Madhavananda who should be the pujari.

Why did you close Edinburgh without asking me? Paramahamsa reports that you have closed the Edinburgh temple. Edinburgh was doing nicely. You can't close a temple without asking me? Is this too much to do this? Our propaganda is opening temples, and you are closing them. We are not for closing but for increasing. I do not approve of this. If possible the Edinburgh temple must be re-opened again.

If you close the temple, what is the management? Sri Caitanya Mahaprabhu pushed the Sankirtana movement, but He never said to close the Jagannatha temple or the Govindaji temple. In Edinburgh we had a nice house, why you have closed it? Why you have whimsically done this? If possible the Edinburgh temple must be re-opened. Don't do anything whimsically without consulting me.

I made the GBC to give me relief, but if you do like this, then where is the relief. It is anxiety for me. This is the difficulty, that as soon as one gets power, he becomes whimsical and spoils everything. What can I do? If anything has to be changed, that can be decided at the annual GBC meeting, but not whimsically.

I am not in favor of closing even a small temple. It is not a plaything to close a temple or to start a temple. When we open a temple we are inviting Krsna. So you can't say to Krsna, go away. You have no feeling what are the ideals of a temple. You should always consider that we have invited Lord Caitanya, Lord Jagannatha, and Radha Krsna, and if we close it, it is an insult. How can we call Them, and then say get out. We should always feel when we open a temple that the Deity is living and not dead stone or wood. It is a great offense. Before opening a temple it must be considered a hundred times, and after opening it cannot be closed. It must be maintained.

arcye visnau siladhir gurusu nara matir Vaisnave jati buddhih

"One who considers the arca murti or worshipable Deity of Lord Visnu to be stone, the spiritual master to be an ordinary human being, and a Vaisnava to belong to a particular caste or creed, is possessed of hellish intelligence."

If the Edinburgh house is still available, it must be re-opened.

I hope this meets you in good health.

Letter to: GBC Godbrothers

-

Vrindaban 14 September, 1974

Dear GBC Godbrothers:

Please accept our humble obeisances. Srila Prabhupada has become very disturbed at the news that Hamsaduta Prabhu has closed the Edinburgh temple without consulting Srila Prabhupada and has asked us to issue the following memo.

No GBC man can whimsically do anything without consulting Srila Prabhupada, especially in the matter of opening a new temple and closing an old one. Such activities must be absolutely regulated and cannot be done without consultation of Srila Prabhupada and other GBC. In the annual meeting in Mayapur the activities of the whole year should be resolved, and the GBC cannot do more or less than that.

In addition Srila Prabhupada reiterates that all GBC must strictly follow the rules and regulations and do what Srila Prabhupada does. We must be the strict prototypes of Srila Prabhupada. We must be pure by preaching and chanting.

To close a temple is a very serious business, as well as opening one. It means that we are calling Krsna to come and reside there. Once Krsna is there, we cannot tell Him to now leave. Whimsically closing a temple means we do not understand what is devotional service and violates bhakti. Only under very extraordinary conditions can a temple be closed when there is consultation. Even then a temple is not to be eliminated but moved to an other place.

We hope this meets you in good health.

My Dear Jayatirtha das:

Please accept my blessings. I am in due receipt of your letter dated September 1, 1974 and have noted the contents. Regarding my retiring and resting in Hawaii, if Krsna desires I shall do it. I like Hawaii very much. Somehow or other secure that house. I am anxious to go there. Although I am Indian I see now that the Indian climate does not suit me very much. The sickness I had, I never had such experience in the foreign countries. I think the dangerous point is now over, and I am improving slowly. Not only that but several members have fallen sick in this season in Vrindaban. I am very much anxious for all of them. Even Srutakirti has to return. His health is not very suitable. Similarly Bharadraja has also fallen sick. So kindly arrange for their dispatch to L.A.

So I am confident that you are an experienced manager, so do the needful and somehow or other secure that Hawaii house.

What about the property income? Has the quarterly income been deposited in the Fund. I am anxious to know.

Regarding Ramesvara being made BBT Trustee, I have no objection. I have already written to Bali Mardan that he can be made the secretary to the Trust Board, and then later on we can see if required he can be added. He should be taken as one of the important members. He is doing nicely. At the upcoming GBC meeting we shall discuss it further. He can be made the official secretary for the time being. I have already informed this to Bali Mardan.

So you act as GBC and see things are going nicely. Now Bharadraja and his wife have become expert doll makers. So give him all facilities. Let all those with artistic talent assist him. I want very extensive doll exhibits in every center. My guru maharaj used to spend lots of money on doll exhibitions on Srimad-Bhagavatam. So I am sure that if we make doll exhibitions very prominent many tourists and visitors will throng in our temples. Bharadraja and his wife have made here some dolls superexcellent successful. So utilize their talent and get others to assist them.

I hope this meets you in good health.

My dear Ramesvara das,

Please accept my blessings. I am in due receipt of the August BBT report dated September 1, 1974. Thank you for sending it, it has given me much pleasure. I am now improving in my health and soon will be leaving Vrindaban for Mayapur. The new form for book distribution in South America is very encouraging. So print largely and distribute. Just as large temples there can distribute easily over 1,000 Isopanisads each day, then you will very easily distribute 100,000 copies per month, so do it.

I very much appreciate your report of Sarvabhauma prabhu who distributed 138 hardbound books simply because of hearing about my letter. That is very, very nice. They are all very nice, Krsna will bless them. This boy he immediately attempted and Krsna immediately responded. So this is the success of your book distribution. So if are books are distributed nationwide that is the success of our movement. I note that Beyond Birth and Death is going to be reprinted. This book is selling very nicely. Everyone is anxious to know what is beyond birth and death. They believe only in ghosts, but they do not know that their is actually another position; tatra dehantara-praptir; you have to change your body for another.

So by Krsna's grace you are becoming a good manager. So stick to Krsna's service and He will give you more and more intelligence and more and more managing power. Krsna will be happy and you will also be happy.

I hope this meets you in good health.

I have had it framed and it is hanging here in my room in Vrindaban, amongst the large paintings of the Disciplic succession. It is by their kindness, of the previous acaryas that they let us sit between them just like a father calls for a child to sit down next to him. My Dear Ramesvara das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 6, 1974 and have noted the contents. Regarding the Macmillan contract, if there is no mention in the contract of price increase, how they can do it? Consult a lawyer. But if by paying $20,000 to $25,000 we can be free of this contract and can print ourselves that will be better. Since they have broken the contract by increasing the price, we can compromise with them, and pay them something and be free from the contract.

I am hearing so many things about management. My request is that until I am able to return to the USA you all please work peacefully. At our next annual meeting at Mayapur all complaints and counter complaints will be heard in the presence of all GBC and I will also be present. In the meantime work peacefully without disturbing the situation.

In Bengal there is a proverb that even if there are some dead metal utensils but when they are together they make so much noise, so what to speak of living utensils. So this is natural, but since we are all pledged to work for Krsna we should follow the principle of Lord Caitanya Mahaprabhu trnad api sunicena taror api sahisnuna. This is Vaisnavism. So my request is do not be agitated. Let us do our duty honestly. Krsna will give us the intelligence to do everything nicely.

So far my health is concerned, I am improving daily, although I am not quite fit to the standard, but I hope that a change will come about during this seasonal change of October so that I will be fit enough to return to USA by next April by the time our Gaurange Hall will be complete. With great jubilation we shall open this hall for the glory of Sri Caitanya Mahaprabhu.

Europeans and Americans are very agitative, but since we have all taken a pledge to the service of Krsna, we have to change this habit for the peaceful service of Krsna. Everything will be all right by the grace of Lord Sri Caitanya Mahaprabhu. In the meantime do not be agitated and remain Krsna conscious.

I hope this meets you in good health.

My dear Taittiriya dasi:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 11, 1974 and I have also received your contribution of $200. So from your letter it appears that the negotiations for the Park Avenue place are almost nearing completion. As soon as we get opportunity of opening Gaurange Hall, the whole society will worship you as the goddess of fortune. I can read your mind that you are developing devotional attributes very nicely. So do not fail to chant regularly 16 rounds and follow the devotional practices together with your husband. And, I have advise your husband to initiate you by tape record hearing for your second initiation. The mantra sheet is enclosed.

So work together husband and wife diligently and pray to Krsna to help you. He is sitting in your heart and will surely give you good intelligence, as soon as He finds that you are engaged in His service with faith and love. Our Krsna is not a dead God as with other things. He is the supreme living being and very affectionate to His devotees. He is the responsive cooperator with our activities. So stick to His lotus feet as advised by Lord Caitanya.

So our foundation is very nice on the platform of Krsna consciousness. I am sometimes thinking of your grandmother who is so kind to me like my mother and I am looking forward to our meeting together in Japan. It will be a great event when we meet together for a greater program in Japan. I have got very good respect for Japanese people. So far I have met the Japanese boys and girls in our temple there, they are so well behaved that I was astonished that they were more respectful than my direct disciples. I think there is great prospect to spread Krsna consciousness in Japan as well as China, because both China and Japan belong to oriental culture. A little endeavor tactfully in pushing Krsna consciousness in these two countries will be sure advancement. This is my conviction. Always think how to do it, and Krsna will give you intelligence. Let us perform this noble activity for the successful termination of this human form of life. Our project is to help the whole human society without any bodily conception of life.

I hope this meets you in good health.

Letter to: Madhavananda:

Bhaktivedanta Manor

My Dear Madhavananda Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 10, 1974 hand delivered by Paramahamsa Swami with enclosed color photos and cans of ghee. Your success there has given me great pleasure, and I thank you very much for your sincere service in fulfilling the mission of my Guru Maharaja. In the foreign countries you are getting so many Indians, and they are not getting even here in India. Now in U.K. the Indians are getting life. They are Krsna conscious, but now they are getting the chance to serve Krsna. The pictures are wonderful, and I am getting them framed and will hang them in my quarters here. We are creating new life for the Indians in England.

This is your credit, both husband and wife. You are so enthusiastic. Kausalya was loitering as an uncared for girl in Honolulu. She saw me and offered her obeisances, and I immediately picked her up. Now by coming to Krsna consciousness she is coming to her full potency and strength.

There is great potency for developing there in Letchmore Heath. You should purchase the entire village. Whenever I go to Letchmore Heath I remember Vrindaban and say it is Vrindaban. It is like seeing from Kesi ghat the other side of Vrindaban. It is like that. If they do not like the noise of our kirtana there, we shall make it more noisy. So go on performing Hari kirtana for the villagers. They shall get out, not us. Simply by the noise of kirtana the demons actually go away.

I am advising them here to make the center here attractive to all kinds of men and to follow your example. Regarding Damji, it is not good that he pushes his guru to sit down with me. This should be cautiously avoided. Anyway, if his guru has gone away and is not returning that is all right.

The Indians are there for so many years, but they had no place. There are so many Hindu centers but no life. Here is life, as I can see in these pictures. It is good that you are making a parking lot, and that you are splitting the collection for BBT and construction.

Krsna is giving you chance because you want to serve. It is all Krsna's grace. Krsna says "tesam satatam yuktanam . . ." Anyone who is sincerely engaged in My service I give him the intelligence. So if Krsna gives the intelligence who can compete with you? Krsna is the most intelligent.

Regarding the election there for President of the temple, I understand that you received the vote. So you should be the president. I am putting my casting vote for you. I have informed Hamsaduta this by post.

I am very shocked that he has closed the Edinburgh temple. This is very serious matter. Why has he done this? It is against the principles of devotional service to whimsically close a temple. I have written him that the temple must be reopened if possible.

I hope this meets you in good health.

My Dear Madhudvisa Swami

Please accept my blessings. I am in due receipt of your letter dated August 3rd, 1974 and have noted the contents. I have also received the enclosed pictures of the proposed house. I am thinking that you are a very sincere devotee. I am remembering that during my recent visit there in Australia how during the kirtana you were seeing to my personal and not letting anybody come forward and still leading the kirtana. When you begin the chanting, everybody becomes captivated, and you can go on without stopping. I feel happy that even after my departure, things will go on. I am happy that I have got so many sincere devotees who will carry on. That is my happiness.

I like Australia very much because of your book distribution. So sell books and secure money and purchase the house and pay BBT conveniently. From the photos it appears that the house is very nice and sufficient for the present. Still the convent was a better place, and Dr. Powell and the bishop of Melbourne could advise them why they are insisting on this point of dismantling the chapel. Anyway either of the houses you can secure.

Calcutta

Dear Mr. Majumdar:

I am in due receipt of your in Bengali dated 5/9/74 and beg to inform you that at present I am very sick. The subject matter you have inquired from me is very grave and cannot be replied haphazardly. It appears you have no deep study in the matter, and if you are serious about it you have to live with us for some time to understand.

As a summary study I may inform you that human life must lead to God realization. Without God realization there is no difference between human life and animal life. All the Vedic literature is aimed at making human life a success by God realization. In this age that God realization is made very easy by chanting the holy names, Hare Krishna Hare Krishna Krishna Krishna Hare Hare/Hare Rama Hare Rama Rama Rama Hare Hare.

Sri Caitanya Mahaprabhu has very kindly introduced this method 500 years ago, and it has proved a very potent and active process. God being absolute, His holy names, form, pastimes, etc., are not different from Him. So this requires deep study and understanding, otherwise it is very difficult to understand.

I have got my program to go to Calcutta by the end of the month. At that time you can try to meet me. But unless you intimately associate yourself with the devotees in this connection, it will be very difficult for you to understand the whole procedure.

Yours sincerely, A.C. Bhaktivedanta Swami

My Dear Gopijanavallabha dasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated August 30, 1974 and have noted the contents. Upon your recommendation I am initiating the following disciples. You must see that they strictly follow the regulative principles, the four prohibitions as well as the devotional practices of arising early, taking morning bath, putting on tilaka, attending mangal arati, chanting japa 16 rounds, and attending Srimmad Bhagavatam class. This is the duty of all my initiated disciples, whether they are big or they are small. Actually in our movement there is no such thing as big or small. Everyone is a devotee. So everyone is expected to follow the devotional practices. Here in Vrindaban I am enjoying my disciples how they are speaking. So two times daily everyone must attend the classes. During the morning and evening times there should be no business, simply kirtana, chant, dance, and be purified. Do not be paramahamsa that now I haven't got to hear Srimad-Bhagavatam and Bhagavad-gita. Don't be a better paramahamsa than your Guru Maharaja. I go and sit and I enjoy the lectures and how they are performing kirtana. So as I am doing, you must also do.

Everyone can become a first class speaker. Simply cram the purports of my books. The references are there, the philosophy is there. Everything is there. So if you do it, everyone will be pleased with your speaking.

The names are: Avritt Brown (Alankara das); Conrad Joseph (Kundali das); Edward Kelly (Adarsi dasa); Richard Masla (Rasatala dasa); William Oliveres (Viprahita dasa); Glenn Covin (Gunabhrt dasa); Luis Martinez (Lokasaksi dasa); Andrea Martinez (Atapatrini devi dasi); Inge Graves (Isa devi dasi)

I am also accepting upon your recommendation Rasaraj and Indriyesa das as twice initiated brahmanas. Enclosed are the sanctified threads and a mantra sheet. See that they and all brahmanas say the gayatri mantra three times daily.

So hold a fire sacrifice and let them hear the mantra from my tape recording through the right ear.

Dear Ramesvar Prabhu:

Please accept my humble obeisances. I am in due receipt of your letter dated September 11, 1974. In response to Srila Prabhupad has asked me to write you that what you have deducted from Guru Kripa's collection should also be transferred to Bombay account immediately. BBT must pay for these things, not that it should be deducted from the money being sent here for construction.

Regarding the Dollars 7,500 Giriraj is supposed to have received, that I am enquiring from him, but in the meantime the balance, which comes to Dollars 22,490.63 should be immediately transferred to Bombay American Express account with notice by separate post informing me as such.

I hope this meets you in good health.

Dear Giriraj Prabhu:

Please accept my humble obeisances. Ramesvar has written that Dollars 78,531.75 has been transferred from L.A. to Bombay American Express account. Please have this money transferred by Telegraphic Transfer to Punjab National Bank, Vrindaban Branch a/c No. 6685, ISKCON Savings Fund.

Ramesvar also informs that you have received there the equivalent of dollars 7,500 from Life Members, so this should also be sent by you here to Vrindaban is the some manner, He has deducted this amount from what he has transferred from Guru Kripa's collection.

I am also informed that you have received Rs. 50,000/- for a donation for Vrindaban project, so please arrange for this immediate transfer as well.

Are you having a spare key to Prabhupad's elmira (metal) in his bedroom? If so, the ms. of Madhya Lila is lying there and is needed by Nitai.

My Dear Jayatirtha Das:

Please accept my blessings. I am in due receipt of your letter dated September 9, 1974 with enclosed deposit slip. Regarding the collections of Gurukrpa Swami I have instructed to Ramesvara that the entire amount should be transferred to the Bombay American Express account. Ramesvara has written that he has sent only a portion of the collection.

Regarding the Dollars 40,000.00 in Hawaii, Dollars 5,000.00 has been lent to Sudama das Goswami, and I have called for Dollars 35,000.00 for purchasing land here in Vrindaban. I have advised Liberty Bank to transfer the amount to Bank of America Branch No. 600, and I have advised Bank of America to transfer the amount via telegraphic transfer to Punjab National Bank New Delhi with special instructions to transfer to their Vrindaban Branch account 668. So kindly see that this is properly done.

We are purchasing two pieces of land for about Rs. 2 lakhs and another piece for Rs. 35,000/-. I am trying to utilize this money for purchasing land here.

I hope this meets you in good health.

ACBS/bs N.B. I am in due receipt of your letter dated September 12, 1974 copy of which to all GBC Secretaries. My only requet is we must spend money very cautiously and not to waste. For improvement we can spend. I am simply afraid that money may not be wasted. So when I saw that the sanctuary was not being finished it gave me some agitation in my mind. So if people say it will be better than Birla Mandir, then your labor and expenditure is a success.

I am confident that you are a good manager. So you do the needful, so by your management I will get good satisfaction. You are a good manager and a devotee also. That is a good qualification.

My Dear Radhavallabha Das:

Please accept my blessings. I am in due receipt of your letter dated 14/9/74 with enclosed advance copies of BTG No. 66. The color is not at all good. It is not attractive, and not as good as Dai Nippon.

Why is the printing being changed from Dai Nippon? This Los Angeles quality is not good. The standard quality of Dai Nippon must be maintained. On what consideration is the printer being changed? I do not know anything of the printer being changed. In my opinion no one can print better than Dai Nippon. Why is the plan changed without my consent?

Why there is need of supervising the Kingsport printer? There was no need of supervising in Japan, but here it requires supervising. That means there is some discrepancy. So why these things are changed?

We cannot change the quality of printing for the matter of a little change in the price. This printing is not approved by me. Repeatedly changing of printers is not at all good. We cannot approve any printing less than quality of printing of Dai Nippon.

I am sending copies of this letter to all BBT Trustees for necessary action.

I hope this meets you in good health.

This is very good, and this I want that scientists step forward and preach Krsna consciousness. We are not preaching something fanaticism nor dry philosophy. Krsna consciousness is jnanam and vijnanam, practical knowledge. So I have given all the points in my books, and you should read them thoroughly.

I have shown your essay to Dr. Svarupa Damodara and he has read it. He is returning soon to California, and you can see him and discuss how to improve it. You should write more because it is very important subject matter.

Side by side to your writing you should also chant regularly Hare Krsna.

My Dear Gurudasa and Pranava:

Please accept my blessings. This is to request you to go see Sri Seth Hanuman Prasad Poddar, Churuwalla Thek, Swami Ghat, P.O. Mathura, U.P. He is the managing director of a large plot of land near Birla Mandir between Mathura and Vrindaban. He will give us 25 bighas at Mathura Gochar Bhumi as a concessional free gift. So immediately go and see the land, and if suitable then immediately take it.

Do not be disturbed that it is a little far away from our temple. That we shall be able to manage, and it is not a problem. If you can manage this land nicely, they can give more. They want to see that the land is used for cow protection. The land is meant for this purpose.

Letter to: Hamsaduta:

Frankfurt
My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter from Los Angeles dated September 10, 1974 and have noted the contents. Regarding Bali Mardan we have decided to review the complaints and do the needful at the next GBC meeting. Bali Mardan came to me when I was in Vrndaban and he showed a tendency for retirement, because he knows there are so many complaints against him. Three or four times he said he would like to live in Vrindaban.

So anyway he has given service to the Society, but when there are all GBC present they may consider the complaints and do the needful. But, so far I have studied, if all the GBC so desire, he can retire. Personally I wish all the existing GBC may be trained up so perfectly that in the future in my absence they can manage the whole Society very nicely and strongly. That is my desire. At least in this stage of my life it is not at all desirable that there be any factions amongst yourselves. Try to settle up amicably and correct yourself. One man is trained up with great difficulty especially in spiritual life. Everyone has got some weakness and deficiency. It is better to correct or mend it than to break it. It will be best to discuss this in an open meeting of the GBC and then do the needful.

Regarding the booklet of appreciations, it is better to have the general appreciations than the individual prospectuses you have suggested. By reading one can estimate all the books such as Srimad-Bhagavatam, Bhagavad-gita, Nectar of Devotion, Krsna Books, etc.

Regarding the International Publishing House under one roof, the principle of management is that everything will be managed by BBT. We have so many centers but the management is done by the GBC and myself. So what is the difficulty? It is a question of management, but not that all staff come together. Any big establishment has got different works and staff in different place. Recently I met one big manufacturer from Kannauj. He has got his factories in Orissa, Mysore, etc., but the whole thing is being managed from Kannauj. What is being manufactured in Orissa cannot be brought to Mysore. It is the capacity of management, but not that we bring everyone together.

Regarding the closing of the temples, no temple can be closed for any reason. You have done a great mistake. I am sending you a copy of a letter I have written in this connection. We have to consider very carefully before opening a center, and once opened it cannot be closed. It is disastrous. What you have done is not at all allowed. I am very disappointed that you have done this. Even you did not consult me. Why?

Now you want to purchase a farm, but can you manage? Why are you closing all the temples and then opening a farm? do you have sufficient men to maintain a farm? Why are you purchasing a farm?

Regarding BBT lending Bhaktivedanta Manor dollars 25,000 for purchasing a house in Letchmore Heath, the BBT has no money, that is what I think. It is lending to Australia Dollars 100,000 and prepared to lend to Paris Dollars 100,000. I do not know that after lending this money there will be anything more. Lending for opening a temple is the business of BBT but not lending for residential quarters.

Regarding the temples being mismanaged, these things will be discussed at the GBC meeting here. Yearly once or twice there should be a GBC meeting held to discuss all these intricate questions. This meeting can be held once in India and once in Europe or America in my presence.

I hope this meets you in good health.

Letter to: Mukunda:

Mayapur 29 September, 1974

74-09-29

Bhaktivedanta Manor

My Dear Mukunda das:

Please accept my blessings. I am in due receipt of your letter dated September 22, 1974 and have noted the contents. Regarding the election of President, a president can only be changed by vote. If no vote was taken, then the president cannot be changed. Neither Hamsaduta can change the president whimsically or can anybody else change the president. According the "Direction of Management" the GBC cannot change the President but only by vote can it be done. The GBC's business is to see that the President and the members are doing nicely, following the regulative principles, and chanting 16 rounds and that other things are going on nicely.

If it was decided by vote that Hamsaduta would select the president then Hamsaduta is right. Without authority Hamsaduta cannot change the election. If the vote was in favor of Madhavananda, then Hamsaduta cannot whimsically change the vote. But, if by vote he was authorized to select the president, then whomever he selects is right. I was not informed by my secretary that Hamsaduta was authorized by vote to make the selection. But, why was Hamsaduta authorized if the vote was already taken? This I do not know.

On the whole I understand there are so many contradictions, so in the presence of all members you may take the vote again and decide finally.

You may inform Prabhavisnu that I have received his letter dated 22/9/74.

I hope this meets you in good health.

My Dear Sri Govinda:

Please accept my blessings. I am in due receipt of your letters dated September 5 & 9, 1974 with enclosed clippings of my visit to Chicago Ratha Yatra. The clippings are especially nice, and I am requesting that they be displayed here at Mayapur for our Gaura purnima festival. I very much liked your Chicago festival, and I encourage you to increase it next year. This ratha yatra festival is very dear to me from my very childhood days, so I very much appreciate your holding this festival in Chicago. If you have longer route and two or three cars it will be very good.

Regarding your house, yes, you should purchase. Your hall is far better than Los Angeles, I think. You have installed the Deity there so nicely with all nice decorations, and I have seen how clean you are keeping it. And, the room was fully packed even the balcony. On the whole that building is just suitable for our purpose. Your scheme for collecting from the Indian community is all right and I approve the inscription for the plaques. Krsna is giving you all good facilities for spreading Krsna consciousness, and I can assure you that He will supply even more. You are a boy of great energy and the more you use your energy in Krsna’s service, the more He will supply you, rest assured. So it is up to you how much you want to endeavor for Krsna’s sake.

Regarding the initiations, I accept for second initiation upon your recommendation Mrgendra dasa, Bhaktavasya dasi, Subhadra dasi, and Krsna mayi dasi. Enclosed are the thread and sheet. The following I accept as my disciples and their names are as follows:

1. Tom Obnibene-Trinakarta dasa; 2. Chuck Ryskamp-Cakri dasa; 3. Bill Byars-Visvatomukha dasa; 4. Lee Sutton-Lamala dasa; 5. Barb Sutton-Brmhani devi dasi.

Now hold a fire sacrifice and impress upon the devotees that they are taking vows before Radha Krsna, the spiritual master, and the Vaisnavas. The beads may be chanted upon by a sannyasi or GBC man.

My Dear Giriraj Prabhu:

Please accept my humble obeisances at your feet. I am in due receipt of you letter dated September 24, 1974 with enclosed copy of the Income Tax Notice. I have discussed toy letter with His Divine Grace and may reply to the points.

Regarding the money you have transferred to Vrindaban, you have not mentioned what account, I assume it is No. 668, Punjab National Bank. Now they have taken commission of Rs, 305/80 as well as Rs. 5/- for telegram, but this must ve gotten back. Enclosed is a letter from the Vrindaban branch to the Bombay Head Office specifically requesting that no commission charges be made. So you should do the needful. Here at Calcutta we transferred money to PNB Vrindaban, and by showing this letter did not have to pay commision charges. Please let me know what is the outcome of this. Keep the balance of Am. Exp. a/c until the future.

Regarding the repayment of the loan from the account, that Bhagavan knows more then me. It is not good that still the accounts are not in order.

Regarding the Tax Comission, yes use Mr. Nair’s letter that he wanted to give us the land at concession because we had no money at the time. Prabhupad replied that he would pay on installment and Nsir agreed because our cause is very great. We get so many donations of land. Prabhupad has asked me to write to Mahamsa Swami for him to send the Pulla Reddy letter. This letter from

Mrs, Saroff is difficult to obtained at a later date. So you can mention the Vrindaban land in your appeal, but there are also many others. The most recent is a parcel of land donated in Orissa to ISKCON-Bombay. Enclosed please find the document. Similarly in foreign countries Bhaktivedanta Manor was given by George Harrison, and Alfred Ford is giving the Hawaii property, and when this is transaction is completed we can supply the relative documents. So because of the nature of out institution we regularly get donations of land which are not used for profit-making.

Regarding the Life Membership increase, Gargamuni Swami

Presented strong arguments for not increasing it, but because of the situation indigenous to Calcutta. If you are getting success there, and similarly thay got success at Natadwara I understand, I suggest that we have the donar membership at Rs. 1,000/- and the life membership at Rs. 2,000/-. I will discuss it with Gargamuni Swami this weekend and try yo get some agreement.

I hope this meets you in good health.

Please accept my humble obeisances at your feet. I am in due receipt of your letter dated September 5, 1974 and have discussed the contents with Srila Prabhupada. The Dollars 5,000 which you have collected for Food Relief may be sent for the construction of the Prasadam Distribution Pavilion here at Mayapur temple. One thousand people will be able to be fed at a time and it will cost Dollars 25,000. Gargamuni Swami has pledged to provide one half of the funds. Hamsaduta Prabhu has just sent Dollars 4,000 for Food Relief which will also be used for this project. Please send your money directly to Gargamuni Swami's Calcutta account, with a separate letter to this effect.

Regarding the Dollars 10,000 already sent, Rs. 55,000/- is now in Calcutta and they are planning to purchase the grains necessary. The balance of the money was spent on the Vrindaban Janmastami Festival as a loan, of which Rs. 10,000 has been repaid. Bhagavan Prabhu has more complete details on how this was done.

My Dear Giriraja Das:

Please accept my blessings. I am in due receipt of your letter dated September 26, 1974 with enclosed draft of your article. Regarding the Tax Commission Notice, I understand from Mr. Sethi that at time land in the vicinity of his house was selling for Rs. 60/-, so we have not paid less. The most important point is that Mr. Nair wanted to give us the land at a concessional rate because we are a charitable institution. I have already sent under separate post (Registered), the photocopy of a land donated to us in Orissa, Bhuvaneśvara, and I have asked Mahamsa Swami to also send the photocopy of his gift deed. So we get so many donations of land, due to the charitable nature of our organization.

Regarding the tax exemption for research, we are doing actual research of the Vedic literatures. In this connection you can give the quotations from the many professors in America regarding how they are receiving my books which are heretofore unknown and unavailable to Western readers. Furthermore we are doing active research. We are demonstrating how people can live peacefully and simply, according to the correct civilization. Our ideas are not man-made imperfect ideas, but perfect scientific conclusions. In addition I have a number of Doctorate students in various fields of science, Dr. Svarupa Damodara, Dr. Wolf-Rottkay, Dr. Rao, and others. They can act as the Heads of the research. We are presenting ideal living on Vedic principles of purified life of no illicit sex, no meat eating, gambling or intoxication.

Regarding Manasvi's going abroad, one department that is very important is the tenant and rent department. There are some tenants who are occupying but they are not the original tenants. We must be very careful that in our presesnce the original tenant may not be replaced with someone else.

Regarding increasing the Life Membership fee, that you will have to adjust amongst yourselves. Yes, you can move my things into the new quarters.

I hope this meets you in good health.

Regarding the election at Bhaktivedanta Manor, as you have suggested an election of all members present should be held to make a final selection. I have already suggested this to Mukunda. Another meeting should be held, and I have already asked Bhagavan das to be present, so there will be two GBC's and all members present. Out of the two candidates whoever is elected by the majority vote, may be the president.

Regarding Edinburgh temple, yes it should be re-opened. I have already explained that once a temple is opened it cannot be closed. Before opening we must consider very carefully, Worship in the temple means to personally call Krsna, and He personally comes, therefore the arrangement must be there for the temple worship to go on nicely before opening any temple. In Vrindaban there are many dilapidated, important temples started by the Gosvamis, but still they are not closed. They are becoming debtor and debtor and the temple building is practically falling down, but still the Deity worship is going on somehow or other. This is the principle. Closing a temple we cannot do. It becomes a farce and is against the bhakti cult. Our principle must be to carefully consider before opening any temple, and once opened it cannot be closed.

In Germany you have to follow this principle. Once opened it cannot be closed. Somehow or other you have to manage to continue the temple worship. That is the devotional cult. If they are closed and it is impossible to re-open, then what can be done? If there is no Deity, then it doesn't matter. If possible re-open the Hamburg temple and transfer the Deity again and worship. A center without a Deity can be closed, but a center with a Deity if closed it is a great offense. The Deity is not an idol; it is Krsna. We cannot say to Krsna personally, now go away.

I am glad to hear about the Gita sales and the publishing of the new books. Therefore I have appointed you as BBT Trustee to publish the German editions of our books as much as possible. I quite appreciate that one main center may remain there and from there the preaching may go on, but no attempt may be made to open a new center without being confident that it will go on. Strictly this principle should be followed. Before opening a temple it has to be carefully considered, and once opened it cannot be closed. Henceforward completely forget the idea that any present temple can be closed. That you should forget. Don't do it again. At least you should re-open Hamburg and Edinburgh and the Deity should be transferred there again.

The book sales are very encouraging, increasing, increasing. It is very good news. Thank you, I want this. Record selling is temporary. Even George Harrison's record sales do not continue for a long time. But, a book sold becomes a permanent matter for enjoyment. We read the scriptures again and again and it is still fresh. When there is time I go on reading my own books.

Regarding increasing the distribution in USA, yes I expect better service from you. Therefore I have appointed you BBT Trustee. Also, Ramesvara is a very nice boy. You can go to USA, that is all right, but if your European and German men are doing well in Europe, why their attention should be diverted by going to USA. For technical help they can go, but it is better if the local men are trained up to do it, like the boy Tripurari.

Regarding book production staff coming together under one roof, I have already replied this point. These things will be discussed in our open GBC meeting and decided. Regarding Bali Mardan, yes if the buildings do not come, then it is doubtful. I understand that one devotee is engaged as Taittareya's personal servant. No devotee can be engaged as personal servant in this way. Otherwise everyone will do this.

Regarding Spiritual Sky donating to BBT, yes it is all right if some contribution comes to BBT. It will be a welcome facility for expansion of temple activities. Regarding Paris loan, unless full consideration is made in this matter, we cannot lend money to Paris. Your calculation should not be neglected in this matter.

Your statements expressing your surrender to your spiritual master is proper. If this principle is followed you will remain pure and always protected by Krsna. Always follow my instructions and my example. This should be your life and soul.

From Madhavananda I have heard that there is some worship of yourself by the other devotees. Of course it is proper to offer obeisances to a Vaisnava, but not in the presence of the spiritual master. After the departure of the spiritual master, it will come to that stage, but now wait. Otherwise it will create factions.

I am having the Dollars 4,000 you sent transferred to Calcutta for construction of the Prasadam Distribution Pavilion here in Mayapur. They say it will accommodate one thousand persons and cost Dollars 25,000.

I hope this meets you in good health.

My Dear Jagannatha Suta dasa:

Please accept my blessings. I beg to acknowledge receipt of your letter dated September 12, 1974 with enclosed copies of issue No. 6 of the New World Harmonist. Simply to criticize what is gong on in the material world, what is the profit? Nature is working, and unless one is a devotee he will be disturbed by nature. Daivi esa guna mayi/ mama maya duratyaya [Bg. 7.14]. The rascals are such that they do not even ask why they are suffering. So if we discuss the food shortage, what is the benefit for us?

A human being must put the question of why am I suffering. Animals also suffer but they have no sense to put the question of why. The materialists are trying to adjust the disturbances of nature in so many ways. But after so many attempts at adjustment have they been able to stop suffering? They are so rascal that still they are suffering after so many adjustments, and yet they do not ask why.

We must enquire for the solution. This is what we must discuss in the Harmonist. After all we have already got our Back to Godhead. Simply to discuss ordinary things, there are so many papers already discussing. Simply saying there is scarcity, that everyone knows. We must give the solution. I am not discouraging you. When you say that the solution is there in Srimad-Bhagavatam that is nice. But, what is the solution that you must give and thus render real service to the people. I think this style of paper will be easily taken by the people.

I hope this meets you in good health.

My Dear Madhavananda Das:

Please accept my blessings. I am in due receipt of your telegram dated September 28 reading as follows: OBEISANCES RECEIVED PLEDGES FIFTY THOUSAND FROM LIFE MEMBERS INITIAL DONATIONS FOR TEMPLE CONSTRUCTION YOUR CONSENT OVERRULED BY HAMSADUTA STOP AM CONFUSED PLEASE INSTRUCT YOUR EAGER SERVANT-MADHAVANANDA I have also received your letter dated September 20, 1974 and noted the contents. Regarding the election I have already suggested that you hold another election in the presence of Hamsaduta and Bhagavan dasa with all members present, and to take that decision as final. There are so many contradictory statements in this matter.

Regarding the Parikrama in the village if they object, then don’t agitate them unnecessarily. They are Christians, so why do it? You say that the houses are being put up for sale, but where is the money to buy them? What about the Life Member fees you are collecting? If you are keeping them for temple construction, they may be used to purchase these houses for the householder devotees. BBT loan is not meant for residential quarters. You purchase and they will pay rent and you get interest. Use the temple construction fund for this purpose. You say that you have gotten L50,000 in pledges, but we will require much more.

Regarding the 99 year lease, yes do it and construct the temple. I know that George will not ask us to vacate. He is not that type of man. But, still there should be some relationship. We don’t want proprietorship. Krsna is the proprietor and He will manage His own affair. But, the worker must be very sincere.

I hope this meets you in good health.

Letter to: Kirtanananda :

New Vrindaban

My Dear Kirtanananda Maharaja:

Please accept my blessings. I am in due receipt of your letter dated September 24, 1974 with enclosed check for Dollars 500.00, color photos, building plans, and one letter and check for Dollars 50.00 forwarded by you. I was thinking that I have not received any check from Kirtanananda since considerable time passed, so immediately Krishna has sent the check. Thank you.

Regarding New Vrindaban I was very happy when I was there, not only myself but all devotees and GBC members all enjoyed the atmosphere of New Vrindaban, especially the cow protection scheme. May Krishna give more facilities to advance the cause of New Vrindaban, and I am expecting very soon to go there and live in my proposed palace at least for some time.

From the pictures anyone will see that you have organized New Vrindaban very nicely. It is just like Krishna's Vrindaban. Now they are happy in New Vrindaban both animals and men. Here in one picture is Kirtanananda instructing the cow to chant Hare Krishna. In another picture the boys and the cows are being taken equal care. Everyone is living very peacefully and eating very nicely. There is so much land. This is real Vrindaban life. In Vrindaban Krishna calls the cows each by his own name. When cows were purchased in the beginning I have seen them crying because the calf was taken for killing. They can understand. Not that they are animal and cannot understand. The neighboring farmers come and they are astonished at the nice preparations made from their milk. I see in the small cottages they are living very, very happily. The cows are grazing, and the male members are doing the work. Local flowers are used for the garlands. Yes, New Vrindaban is almost a small state. Some of the rogues are envious. Rogues are always envious when they see something nice. Even Hayagriva will not leave that place. He is living very happily there.

The plans for the palace are very nice. It is a temple, like Jagannatha temple. It is very calm and quiet there. I like it. In the beginning when Hayagriva purchased, I immediately gave him the idea of New Vrindaban-cow protection. On the whole our New Vrindaban scheme is successful.

There is one vacancy in the GBC Board, so myself in consultation with Brahmananda Maharaja and Jayatirtha Prabhu, we have decided you can fill up the post. This will be confirmed in the next GBC meeting. In the meantime I wish you may accept this responsibility. My desire is that some of our experienced members who have proved their sincerity of service may form the GBC Board so that the management of the whole institution may go on smoothly, and I may be relieved of affairs of management which hampers my writing of books because my attention is diverted. At present the following members are on the GBC Board: 1. Jayatirtha, 2. Hrdayananda, 3. Rupanuga, 4. Jagadisa, 5. Satsvarupa, 6. Brahmananda, 7. Madhudvisa, 8. Hamsaduta, 9. Bhagavan, 10. Bali Mardan, 11. Tamala Krishna.

So I request you all to follow strictly the regulative principles, especially the chanting on the beads. GBC means to be a practical example to all residents of temples and devotees. If all of us follow this principle of purity, our spiritual position will remain sound, and maya will not touch us. mayam etam tarantite. A fully surrendered soul always remains untouched by the hand of maya. Otherwise it is not possible.

Recently there has been some provocation in our Society regarding Bali Mardan and his wife. Jayatirtha has received a bunch of complaints. Similarly Brahmananda Maharaja has also received, so far so that his wife is eating chicken in the temple. This has hampered me very much, so I wish to form an investigation committee. of three members, namely Tamala Krishna Goswami, Rupanuga Prabhu, and yourself. I am informing them also in this connection with a copy of this letter. So you combine together and investigate about the charges against Bali Mardan and his wife made by the following devotees: 1. Tosana Krishna, 2. Cindy Liston, 3. Kirtiraja, 4. Omkara Dasi, 5. Navadvipa 6. Ramesvara das, 7. Sudama Swami, 8. Jaya Ram das, 9. Sunita devi, 10. Gopala Krishna, 11. Atreya Rsi, 12. Anonymous. Kindly try your best to stop this provocation in our Society and I shall be much obliged to you all. Please submit your combined report as soon as possible.

Also regarding the devotees you have recommended, I have accepted them and their names are as follows: Mike Hoare-Manonatha dasa, Tony Riccardi-Tejomaya, Alfred Tarantino-Ajeya dasa, Terry Sheldon-Tapahpunja dasa, Catherine Conners-Khastha devi dasi. I have also accepted the following as twice initiated: Candramauli das, Krsna-sravana das, Gopinatha das, Krpacarya das, Vahna das, Cirantana das, Gomata devi dasi, Vidya devi dasi, Bhaktiniddhi devi dasi, Vrajasana devi dasi, Vrajeswara devi dasi, Visvadika devi dasi. The threads duly sanctified are enclosed. You can impress upon the initiates that they are taking vows at the fire sacrifice before Krishna and Radha, the spiritual master, and the Vaisnavas, so they should not deviate or fail to follow our principles.

I Hope this meets you in good health.

My Dear Bhurijana Das:

Please accept my blessings. I am in due receipt of your letter dated September 15, 1974 from Singapore and have noted the contents. So wherever you find a suitable place you can go, always keeping sure to follow the regulative principles and chanting 16 rounds. Whatever service you can render that is welcome. Do not deviate from the principles.

You are a good soul, and your wife is also a good soul. I hope you get a good child. But, you must be careful not to deviate from the principles.

I think Hong Kong is the best field for you. You started there and remained there for so many years and you have all acquaintances there. You can start a temple there provided you are strong enough. That will please me very much. But if you stick to our principles it will not be difficult. One thing try to remember is that a temple should not be started whimsically. It must be given very careful consideration. And once started, a temple cannot be closed whimsically. You must be fully prepared to maintain nicely the temple. You must consider carefully. Once a temple is started, it cannot be closed in any circumstances.

I hope this meets you in good health.

My Dear Madhavananda Das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 2, 1974 with enclosed pictures. Regarding Hamsaduta, you cannot criticize him. Hamsaduta is liquidating the debts. You were there but you could not liquidate, but Hamsaduta has come and he is liquidating. Canakya Pandit says that a happy man is he who lives at home and who has no debts. London was so much in debt that it was something shameless. I have not said anything until now, but I was very sorry to see in the temple that the chandelier was taken down. The temple was almost dark without the chandelier. I had told to Syamasundara. that I wanted it, and he borrowed, but then he could not pay, so it was taken.

I am prepared to give you fair chance, but you cannot criticize Hamsaduta. Let there be re-election in the presence of two GBC men. We should utilize our talents without being envious of others. You should do your best, but you should not be envious of others. In material life there is simply envy of others progress, but in spiritual life one encourages another, ”Oh you are doing very nice.” That is Radharani. She says oh here is a very nice devotee. Please Krishna, you accept him.

From the pictures it appears that the Deity worship is going on very nicely. Krishna is very satisfied by His face. He looks very healthy. He is very fond of milk and butter. He is a butter thief. You have now got cows, so offer nicely. I have asked that the picture be framed. I think that the Deity worship is almost better than our Los Angeles center. The Life Member room is very nice. They should have like that here.

The Ratha is very gorgeous. I have already written that if there is complaint, you should not agitate the villagers.

If you have complaints against Hamsaduta, then they can be presented at the GBC meeting at Mayapur and a decision can be taken.

I hope this meets you in good health.

Please accept my blessings. I am in due receipt of your letter dated September 29, 1974. I am glad to learn that all the programs are going on nicely. Especially the college programs. If they are helping with funds, then there is much scope.

I am glad that you are taking the recommendation of new initiates very seriously, that they are writing essays. Yes, it is a serious matter. Not that let me take a spiritual master as a pet and I can do whatever I want. No, one must be prepared to follow the order of the spiritual master with life and soul.

My Dear Vajresvari devi dasi:

Please accept my blessings. I am in due receipt of your letter dated August 11, 1974 (sic.) I have noted in your letter that you want to serve me. I only want that all you my disciples always think of Krishna and never forget Him for a moment. In this way you can conquer Krishna. He becomes so attracted by pure devotion that He gives Himself to His devotee. And if you get Krishna, then what you want more?

How to think of Krishna that I have given, following the devotional practices and chanting 16 rounds minimum. We have also established worship of the Deity in our temple so that all day long one will automatically think of Krishna, He is so kind. So now Kirtanananda Maharaja has recommended you for twice born initiation. Dvija: (dvi means twice and ja means birth. Now you finish your old birth with the fire of Krishna consciousness. Worship Krishna with love. That is the qualification for Deity worship. If you love Krishna, you will worship Him very nicely.

So follow Kirtanananda Maharaja in this connection. He can guide you. Our New Vrindaban scheme is meant for peaceful living, simple life of chanting Hare Krishna and becoming purified.

I hope this meets you in good health.

The three month tourist visas of Sruti Kirti, Nitai, and myself expire within three weeks time. Could you please send down the necessary forms that we can fill out along with other requirements such as how many photographs are required for an extention of the tourist visa. We of course would prefer not having for all three of us having to go into Calcutta to the immigration office personally. Can we get an extension of more than three months?

Dear Giriraj Prabhu:

Please accept my humble obeisances. Regarding your letter dated September 27, 1974 Srila Prabhupad requests the following to be included in the article for "Holymen of India." It should be very nicely written that so far cultural contribution/is world concerned, Srila Prabhupad stands first above all other Indian holymen. Many have gone to the west an abroad, but on one has done what Srila Prabhupad has done. He has completely brought the Vedic culture to the West, and they are following completely. He has transplanted it. This simile of transplanting should be elaborated. As we transplant a tulsi seedling and then it becomes a full grown plant, so Prabhupad has made the Vedic culture flourish all over the world, without harming or changing anything. When transplanting you have to be very careful of the seedling. If you harm it even slightly it will not grow again. Similarily Prabhupad has not superficially transplanted the Vedic culture.

Please send the final draft. I hope this meets you in good health.

My Dear Karandhara das:

Please accept my blessings. I am very pleased to receive your letter dated 9/11/74 and have noted the contents with great delight. The thing is where is the question of making any conspiracy. The materialistic man creates diplomacy and conspiracy for sense gratification. Everyone wants in the material world some reputation, profit, and some adoration. But so far we are concerned we are being trained up by following the footsteps of Lord Sri Caitanya Mahaprabhu: na dhanam na janam na sundarim kavitam va jagadisa kamaye/ mama janmani janmanisvare bhavatad bhaktir ahaituki tvayi [Cc. Antya 20.29, Śikṣāṣṭaka 4]. "My Lord I do not want any monetary gain, neither any number of followers, or wife, but simply I want to be engaged in Your causeless devotional service, which means I do not even want salvation." So if actually we follow the footsteps of Sri Caitanya Mahaprabhu, where is the question of conspiracy?

This whole institution was started singlehandedly without any capital. I went to your country with only Rs. 40/- and 200 sets of books. So if we take the capital of the whole business, it was the books and the Rs. 40/-. The Rs. 40/- was not even touched because Indian Rupees currency could not be spent in your country. In 1967 when I came back to India the Rs. 40/- was paid for the taxi cab. The 200 sets of books was sold, and I was maintaining myself with great difficulty. Now by the grace of Krishna books sales have increased tremendously, and whatever money we are spending it is from the books sales; or whatever money is also being squandered that is also from the book sales.

Now by the grace of Krishna we have got sufficient properties all over the world, so there cannot be any diplomacy or conspiracy by any sane man. All these properties and opulences, whatever we have got, this will not go with me when I go away from this world. It will remain here. I am training some of my experienced disciples how to manage after my departure. So if instead of taking the training, if in my lifetime you people say I am the Lord of all I survey, that is dangerous conspiracy.

As alleged by you I have received complaints against Bali Mardan and his wife, so seriously so much so that the girl has declared that Bali Mardan is an incarnation of Bhaktisiddhanta Sarasvati Thakura on my name. In India some of the important members they have collected huge amounts in the name of the Society and spent it luxuriously. I wanted you all my experienced disciples should manage the whole institution very cleverly without any personal ambition like ordinary materialistic men. The Gaudiya Math institution has become smashed, at least stopped its program of preaching work on account of personal ambitions.

So whatever is done is done. I shall request you all not to be personally ambitious. I shall do everything in my power to fulfill your personal ambitions, but that will be done in due course of time when you are fully trained up and following the regulative principles and chanting 16 rounds.

So complaints against Bali Mardan is very serious, and I have appointed an enquiry committee, consisting of three men. Let us know the report. So far yourself is concerned, you know I had full faith in you, and whatever you did I never objected. But, in the meantime twice thrice you resigned. That has given me a little agitation. So kindly follow the regulative principles regularly chant 16 rounds and make up the deficit in Spiritual Sky, and gradually everything will come to its right position, and I hope Krishna will help us to adjust the present situation very peacefully.

I believe all my students they are very serious devotees, maybe sometimes influenced by maya, but they can be corrected and the whole thing will go on as usual without any difficulty. Please try to help me in this connection in this endeavor.

I hope you are living very peacefully with wife and children without being disturbed by anything else. More in my next.

I hope this meets you in good health.

My Dear Pranava Das:

Please accept my blessings. I am in due receipt of your telegram dated October 5, 1974 reading as follows: RECEIVED YOUR LETTER WORKING ACCORDINGLY LAND ALREADY ARRANGED GURUDASA LEFT FOR LONDON TRANSFER ONE LAKH CONSTRUCTION FUND -PRANAVADAS

I have already asked Bombay to transfer one lakh of Rupees through the Bombay PNB to the PNB Vrindaban Branch account No. 668. So please go and enquire whether they have received the money.

Regarding Gurudasa going to London, it is surprising to me. Anyway I have sent Dhananjaya das Adhikari to act in place of Gurudasa. Please try and help him, both you and Saurabha. He is very nice, obedient boy. He will be very much helpful in Vrindaban, so please cooperate with him fully. He has already left for Vrindaban with my instructions and a letter to the bank.

Regarding the land, you say it will be settled up near about Rs. 90,000/-, so why are you asking for Rs. 1 lakh? But, I have not received any report of enquiry in the affairs of the land, whether Prabhakar Misra assisted you in this connection. Anyway the draft conveyance may be sent to me one copy immediately made by our lawyer. I think he is Mr. Maheswari you said.

So do everything very carefully. Our money is collected with great difficulty. I want that not a single farthing may be at stake. Anyway the money is already there. Simply let me know when and how the money is to be paid to the other party. The usual procedure is that a bank cashiers check may be paid at the time of registration by the government that the land is being transferred to us.

Please send me immediately the draft of conveyance deed made by the lawyer.

I hope this meets you in good health.

My Dear Mr. Winter:

Please accept my best wishes. I am in due receipt of your letter dated 16/9/74 and have noted the contents. Regarding what you want to do, I suggest that you discuss the matter with my secretary, Hamsaduta das Adhikari. He is my secretary and you can discuss the matter fully with him. He can be reached at Schloss Rettershof, Konigstein, Taunua, West Germany.

I hope this meets you in good health.

My Dear Jadurani devi dasi:

Please accept my blessings. I am in due receipt of your letter undated and have noted the contents. The answers to your questions are as follows:

1. For the portraits of Gaura Kisora and Jagannatha das Babaji, yes you can use the mangalarcana prayers, and also the same for Bhaktivinode Thakura.
2. You can sign your paintings with your personal names.
3. Regarding Devahuti's painting for Ādi lila, yes you can use it. I think it is nice. You can also use the painting you had suggested previously. Both can be used.
4. Yes, it is understood that your paintings are offered to the Deities when they appear in books or on the temple walls. It is understood like that.
5. Regarding asking me questions, yes you can ask, but unless it is sanctioned by me, you cannot act on it.

I hope this meets you well.

Dear Mr. Jayakar:

Please accept my best wishes. I beg to acknowledge receipt of your letter dated September 13, 1974. I was very ill in Vrndaban as you know. Now I have come to Mayapur, Navadvipa. Here it is a very open place. Sometimes when you come to Calcutta, you can visit this place. You can come direct by motor car. You can contact our man, Gargamuni Swami at 3, Albert Road, and he will arrange for your transportation. It is a very nice, open place. Here we have got our temple and nice accommodation for respectable men.

I will be going to Bombay, and I am just waiting for my new apartment to be finished and the construction to be completed. I think it will be ready within one or two weeks time. It is at Hare Krishna Land, Gandhi Gram Road, Juhu, Bombay-54.

As soon as I reach Bombay it will be my duty to inform you and my great pleasure to meet you again.

I hope this meets you in good health.

1. Regarding Krsna das Kaviraja, there is no such information, but as far as possible, he was brahmacari.

2. Lord Nityananda and the associates appeared in the room.
3. The stick held by Lord Nityananda is like your sketch.
4. The bodily hues of the devotees of Lord Nityananda, why green? But, it can be done, there is no harm.
5. You can continue not showing Srimati Radharani's feet.

Jaderstrand-Prapujaka Dasa, and Margaretta Jaderstrand-Mahamedha Devi Dasi.

Upon your recommendation I accept for second initiation Aristahe Das Brahmacari, and enclosed is his sanctified brahminical thread and the mantra sheet. When you hold the fire sacrifice, impress upon the devotees that they are taking vows before Radha and Krishna, the spiritual master, and the Vaisnavas, so it is a serious thing. The gayatri mantra should be heard from my tape recording through the right ear.

My Dear Sir:

Please accept my best wishes. I have received a report from my disciple Murti das Adhikari of the nice program that was held in Nathadwara. I am very thankful for your cooperation for spreading Krishna consciousness all over the world. Caitanya Mahaprabhu and Vallabhacarya were good friends, and Vallabhacarya many times visited Caitanya Mahaprabhu. We get this information from authorized books. So far I know Gopalaji is coming from Madhavendra Puri, the original acarya of Gaudiya Vaisnavas. His disciple was Isvara Puri, and his disciple was Caitanya Mahaprabhu.

There is a great need for spreading Krishna Consciousness all over the world based on the Bhagavad gita As It Is. We have been successful in this attempt. I am very well known to Dixitji Goswami of Bombay. He likes very much my movement and my books. I am very much grateful for your contribution of so many books on Vallabh Sampradaya and also the framed pictures. They are being kept in Delhi, and when I return to Vrindaban via Delhi, I shall see them.

We are contemplating to open our newly constructed temple in Vrindaban during the Appearance Day of Lord Ramacandra festival, and I wish very fervently that your Holiness may be present on that occasion. If you have got time to attend the ceremony, kindly let me know, and we shall make necessary arrangements for your reception.

I hope this meets you in good health.

My Dear Pranava das:

Please accept my blessings. I beg to acknowledge receipt of your letter dated October 3, 1974 with enclosed eight forms by Registered Post. Before this I have written you one letter dated 8/10/74. Please refer to that. The land will be purchased as I have already instructed in the name of ISKCON Mayapur-Vrindaban Trust. The money Rs. 1 lakh has already been transferred to this bank account. As per my letter dated 8/10/74, when the conveyance deed is prepared, and when I approve it, then I shall advise the bank to pay the amount before the Registrar. That is the way of payment.

Regarding the registration fee, I have purchased the Bombay land paying half and half. This is the system. I cannot invest more than 1 lakh in this transaction, including everything. But, your estimate is for more than that. Somehow or other I have secured this Rs. 1 lakh. It is not possible to pay more than this amount.

Generally a sales agreement is made when the papers are examined and the title certificate is taken from a bona fide lawyer. Then the conveyance is prepared on stamp paper. Then it is registered. This is the procedure. So where is the sales agreement?

You have not mentioned anything whether Pravakar assisted in this connection. The money is already there. There is no question of money, but everything must be done according to regular procedures.

The eight papers sent by you are returned herewith duly signed in two places. Please do everything very carefully. All documents should be made in English. From Bombay on 7th instant the money is transferred to a/c ISKCON Mayapur-Vrindaban Trust No. 668.

I hope this meets you in good health.

Dear Mr. Muckerheide:

Please accept my best wishes. I am in due receipt of your letter dated August 12, 1974 and have noted the contents. From your letter I can see that you are an intelligent boy and that you have desire to assist me in spreading this movement of Lord Caitanya all over the world. Due to the influence of the Age of Kali everything is deteriorating, but by taking to this chanting of Hare Krishna mantra our real life of bliss and knowledge is awakened.

But before saving others we must first see that we ourselves are protected from the dangerous effects of maya. Therefore my recommendation to you is that you should associate yourself with my disciples in one of our Krishna Consciousness centers, practice our regulative principles, and study my books very carefully.

You are now living very near to our Los Angeles center, so please take advantage of this and participate fully in the program there. In this way your intelligence will become more and more purified and in consultation with the others there Krishna will give you the proper idea of how to spread Krishna consciousness.

I hope this meets you in good health.

My Dear Tulsi devi dasi:

Please accept my blessings. I am in due receipt of your letter undated and have noted the contents. I see that after living in Brazil for some time, you are now living in Hawaii with your son Karnapura. You are right in saying that although Krishna consciousness is a simple process, the application may sometimes be difficult. Now you are one of my older disciples, so please try to follow the devotional practices I have given you. This is the simple formula for victory in our struggle against maya.

Recently I have visited our Gurukula school in Dallas, and I was quite satisfied how the boys and girls are being trained up to be ideal Vaisnavas. This training from an early age is important, and I also was fortunate to have received such training when I was a child. So why not send Karnapura to Dallas, and come yourself to stay here at Mayapur.

Karnapura is an intelligent boy, so give him opportunity, and he will become a pure devotee in this lifetime; and in Mayapur you can devote yourself to chanting Hare Krishna and studying our Krishna consciousness philosophy. Here it is very peaceful living, an open place, very nice. In this way your mind will gradually become controlled.

I hope this meets you in good health.

Mayapur 14 October, 1974

74-10-14

Sintra, Portugal

Dear Frederico Lourenco:

Please accept my best wishes. I am in due receipt of your letter dated nil with enclosed drawings, and I thank you very much. Regarding prasadam, Krishna does not accept any foodstuff offered by a person who is not a devotee. In the Bhagavad-gita it is stated: patram puspam phalam toyam/yo me bhaktya prayacchati [Bg. 9.26]. So the importance is stressed on the bhakti, the devotion. Krishna does not accept anything unless one is a pure devotee of Krishna. How to become a pure devotee of Krishna, you have to chant Hare Krishna and follow the four regulative principles of no meat eating, intoxication, illicit sex, or gambling, and you have to follow a guru who is expert in the science of devotional service. If you are serious about understanding Krishna consciousness, you can live with us for some time in one of our centers with your father's permission and learn the science and do the needful.

Your drawing attempt is very nice. Thank you. Where did you get the om? Om is not required. Krishna is sufficient, but there is no harm.

You should read Bhagavad-gita As It Is carefully verse to verse and word to word, and you will be benefited, and if you have any difficulty to understand anything I shall be very glad to have your inquiry.

I hope this meets you well.

Dear Tusta Krishna Swami:

Please accept my blessings. I am in due receipt of your letter dated September 15, 1974 from Indonesia and have noted the contents. So for your preaching you should just request everyone you meet to chant Hare Krishna and to follow the four regulative principles. This will be your preaching principle wherever you go. On this basis travel and work, and Krishna will bless you.

I have come here to Mayapur and my health has improved much but still I am suffering from high blood pressure. After all, it is old age. As far as possible Krishna will keep me to work, and when He desires I will go. So I wish all my disciples to push on this movement for the rehabilitation of suffering humanity.

I see on the Indonesian stamps all Indian names: Hari Dharma, Laksmana, Sudarso. I do not know how they have become Mohammedan. They will take to Krishna consciousness, chanting of Hare Krishna because they already know Hari Dharma. When I was in Jakarta, several government officers came to see me, and they appreciated very much and were interested in Bhagavad-gita.

I hope this meets you in good health.

74-10-14$_{E1}$

Dear Gurudas Prabhu:

Please accept my humble obeisances. Your letter to Srila Prabhupad dated October 3, 1974 in transit has been received. Srila Prabhupad affirms that he never gave you permission to leave India, but only to leave Vrindaban. You left without informing me of you intentions. Now you are asking for him to write a letter so you can collect money. But what about the monies you have already received? Where is the account? So far I know you have received from Murtidas Dollars 4,000.00; from Nanda Kumar 1700.00; from Srila Prabhupad before he left India Rs. 60,000/-, and from Karandhar Rs. 40,000/-. You must present the account of how these monies were spent before getting any facility for collecting additional funds. As GBC I must request you not to try to collect any money until you account for this money.

What is the need of your going out side of India to collect? Ample money is already coming without your having to go, and Srila Prabhupad has taken responsibility for providing funds whatever you need himself. He wanted you to stay in Vrindaban and manage there. Why have you left?

I hope this meets you in good health.

Frankfurt

My Dear Hamsaduta das:

Please accept my blessings. I am in due receipt of your letter dated September 27, 1974 with enclosure of LICENSE. George should be addressed directly in this matter. It must be explained to him what we want. Don't sign this agreement. We do not recognize Harrisongs. Any agreement must be between George himself or whomever he says. We have taken this house from George not from Harrisongs. Why did Mukunda approach Denis O'Brien? George has his own attorney. What is the position of Denis O'Brien?

Some time ago there was an agreement made regarding the grazing land on the Bhaktivedanta Manor property. So far I know it was done through George's attorney. I want the name of George's attorney and a copy of the agreement papers regarding the settlement. Also I want George's personal address where I can write him one letter.

Yes, under the circumstances we cannot trust George; therefore the temple construction must be considered in the next GBC meeting. Is this at Syamasundara.'s instigation; but you haven't mentioned anything like that. Or is it at the instigation of the neighbors of Letchmore Heath?

So for the time being you go on as we are. For the temple construction find out some place nearby. There are many houses. Let us go on with the Deity worship without any correspondence with them. You can find out there was some old newspaper that said George has given us the house. My picture was published. Where can I write George personally?

Regarding publishing the philosophy book, first of all I want to see the copy after it is edited. Hayagriva can do it. He is paid for that.

Gurudasa is coming to London, but he cannot be allowed to collect on any account. Enclosed is one letter from Brahmananda Maharaja to me that will explain.

Regarding German Switzerland territory, you cannot do anything with them? You cannot make any adjustment? Why are you referring to him this small thing?

I think George's home address is Henley-on-Thames. I have been there. Is this the correct address?

I hope this meets you in good health.

Your ever well wisher, A.C. Bhaktivedanta Swami

ACBS/bs N.B. Do not instigate anything with them from our side. It is not necessary to contact them regarding the house. Go on with your business. For building the temple you can purchase some nearby land and construct. There are so many lands there I have seen. We are going to spend so much for the temple, so what is it to purchase some land?

If for some reason you have to vacate, then you can say we are constructing our another place. Anyway, you depend on Krishna. We do not depend upon anyone other than Krishna.

I have initiated the boy and girl, and their spiritual names are as follows: Gokulendra dasa and Rocanai devi dasi. You can chant on their beads. You must get more South Africans to join and make our mission solid there. The Indians they are hopeless so far I have seen, so get the Europeans to join as many possible. Regarding the draft situation, let them go from the college to the temple. They can stay with us for some time and then go back and forth. In the colleges they can introduce our books. We are getting very good written appreciations from learned circles in USA of our books and many libraries and universities are ordering an open order all of the books as they are published.

Regarding the book distribution to the Indians, yes that was my program. Hold a meeting and sell books. These books are not fiction or imagination. If the Indians like the authority of the books, take advantage and distribute profusely.
